Max Length: 50
Question 1 'If Yes,Describe'.

Column Name: q1_sincelastvisit_code
Column Type: varchar
Max Length: 50
Question 1 'Since Last Visit' code.

Column Name: q1_sincelastvisit_value
Column Type: varchar
Max Length: 40
The value of the 'q1_sincelastvisit_code'.

Column Name: q2_ifyesdescribe
Column Type: varchar
Max Length: 50
Question 2 'If Yes,Describe'.

Column Name: q2_sincelastvisit_code
Column Type: varchar
Max Length: 50
Question 2 'Since Last Visit' code.

Column Name: q2_sincelastvisit_value
Column Type: varchar

Max Length: 40
The value of the 'q2_sincelastvisit_code'.

Column Name: q3_ifyesdescribe
Column Type: varchar
Max Length: 50
Question 3 'If Yes,Describe'.

Column Name: q3_sincelastvisit_code
Column Type: varchar
Max Length: 50
Question 3 'Since Last Visit' code.

Column Name: q3_sincelastvisit_value
Column Type: varchar
Max Length: 40
The value of the 'q3_sincelastvisit_code'.

Column Name: q4_ifyesdescribe
Column Type: varchar
Max Length: 50
Question 4 'If Yes,Describe'.

Column Name: q4_sincelastvisit_code
Column Type: varchar
Max Length: 50
Question 4 'Since Last Visit' code.

Column Name: q4_sincelastvisit_value
Column Type: varchar
Max Length: 40
The value of the 'q4_sincelastvisit_code'.

Column Name: q5_ifyesdescribe
Column Type: varchar
Max Length: 50
Question 5 'If Yes,Describe'.

Column Name: q5_sincelastvisit_code
Column Type: varchar
Max Length: 50
Question 5 'Since Last Visit' code.

Column Name: q5_sincelastvisit_value
Column Type: varchar
Max Length: 40
The value of the 'q5_sincelastvisit_code'.

Column Name: reason_not_enroll
Column Type: varchar

Max Length: 50
Reason of not enrollment.

Column Name: reasons_most_severe_since_last_visit
Column Type: integer
Reasons - 'Most Severe Since Last Visit' question.

Column Name: total_aborted_suicide_attempt_since_last_visit
Column Type: varchar
Max Length: 50
'Total Number of Aborted Suicide Attempts Since Last Visit' question.

Column Name: total_interrupted_suicide_attempt_since_last_visit
Column Type: varchar
Max Length: 50
'Total Number of Interrupted Suicide Attempts Since Last Visit' question.

Column Name: total_suicide_attempt_since_last_visit
Column Type: varchar
Max Length: 50
'Total Number of Suicide Attempts Since Last Visit' question.

Documentation for form: Treatment_Plan

Table Name: SYSTEM.tx_plan

Table Description: This table returns information stored in the 'Treatment Plan' form.

Column Name: ID
Column Type: integer

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: HISTORICID_plan
Column Type: varchar
Max Length: 50
'Client Treatment Plan'

Column Name: PATID
Column Type: varchar
Max Length: 20

The client ID associated with the data.

Column Name: care_plan_text

Column Type: varchar

Max Length: 32000

The Care Plan Text. Consisted of the data from the three core product scrolling text fields on the Plan Page, 'Strengths', 'Weaknesses', and 'Discharge Planning'.

Column Name: current_status_code

Column Type: varchar

Max Length: 50

'Current Status'

Column Name: current_status_value

Column Type: varchar

Max Length: 50

The description associated with current_status_code. See current_status_code for more information.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the service.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 50

The user name that last updated the row.

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 255

The name of the form that last updated the row.

Column Name: data_entry_time

Column Type: varchar

Max Length: 50

The time the row was last updated.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 50
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: discharge_plan
Column Type: varchar
Max Length: 32700
The discharge plan

Column Name: document_routing_status
Column Type: varchar
Max Length: 50
Status of the document

Column Name: last_updated
Column Type: date
The date of the most recent update to this Treatment Plan

Column Name: last_updated_by
Column Type: varchar
Max Length: 50
The person who made the most recent update to this Treatment Plan

Column Name: next_review_date
Column Type: date
The date of the next review for this Treatment Plan

Column Name: option_desc
Column Type: varchar
Max Length: 50

The description of the Option

Column Name: option_id

Column Type: varchar

Max Length: 50

The Option ID

Column Name: pending_approval_user

Column Type: varchar

Max Length: 50

The user who is currently the pending approval user

Column Name: plan_date

Column Type: date

The date of this Treatment Plan

Column Name: plan_end_date

Column Type: date

The end date of this Treatment Plan

Column Name: plan_name

Column Type: varchar

Max Length: 50

The name of this Treatment Plan

Column Name: plan_status_code

Column Type: varchar

Max Length: 50

The code of the status of this Treatment Plan

Column Name: plan_status_value

Column Type: varchar

Max Length: 50

The value of the status of this Treatment Plan

Column Name: plan_type_code

Column Type: varchar

Max Length: 50

The code of the type of this Treatment Plan

Column Name: plan_type_value

Column Type: varchar

Max Length: 50

The value of the type of this Treatment Plan

Column Name: projected_discharge_date

Column Type: date

The projected discharge date

Column Name: requiredproperties

Column Type: varchar
Max Length: 32766
The required properties

Column Name: review_team_member
Column Type: varchar
Max Length: 50
The Team Member who reviewed

Column Name: strengths
Column Type: varchar
Max Length: 32700
The strengths

Column Name: tx_form_number
Column Type: varchar
Max Length: 50
The form number of this Treatment Plan

Column Name: tx_plan_number
Column Type: varchar
Max Length: 50
The plan number of this Treatment Plan

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Column Name: v_EPN_Info
Column Type: varchar
Max Length: 50
The v EPN Info

Column Name: v_admit_date
Column Type: date
The v admission Date

Column Name: v_client_name
Column Type: varchar
Max Length: 50
The v client name

Column Name: v_disch_date
Column Type: date
The v discharge date

Column Name: v_program_code
Column Type: varchar

Max Length: 50
The code of the v program

Column Name: v_program_value
Column Type: varchar
Max Length: 50
The value of the v program

Column Name: weaknesses
Column Type: varchar
Max Length: 32700
The weaknesses

Documentation for form: Treatment_Plan

Table Name: SYSTEM.tx_plan_level_of_care

Table Description: This table returns recovery plan information stored in the 'Treatment Plan' forms.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: TXCuniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with a row of data.

Column Name: authorized_loc_code
Column Type: varchar
Max Length: 50
The Deviated Level of Care Code

Column Name: authorized_loc_value
Column Type: varchar
Max Length: 50
The Authorized Level of Care Value

Column Name: deviated_loc_code
Column Type: varchar
Max Length: 50
The Deviated Level of Care Code

Column Name: deviated_loc_value
Column Type: varchar
Max Length: 50
The Deviated Level of Care Value

Column Name: recommended_loc_code
Column Type: varchar
Max Length: 50
The Recommended Level of Care Code

Column Name: recommended_loc_value
Column Type: varchar
Max Length: 50
The Recommended Level of Care Value

Column Name: service_program_code
Column Type: varchar
Max Length: 50
Recovery Plan Service Program Code

Column Name: service_program_value
Column Type: varchar
Max Length: 50
Recovery Plan Service Program Value

Documentation for form: Treatment_Plan

Table Name: SYSTEM.tx_plan_recovery_plan

Table Description: Recovery Plan Services

Column Name: ID
Column Type: integer

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: HISTORICID_plan
Column Type: varchar

Max Length: 50
'Client Treatment Plan'

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: authorization_historic
Column Type: varchar
Max Length: 50
Link to authorization table.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50
The time the row was last updated.

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: service_codes
Column Type: varchar
Max Length: 32000

Service Codes.

Column Name: service_display
Column Type: varchar
Max Length: 32000
Service Codes display value.

Column Name: unit_amount
Column Type: varchar
Max Length: 50
Unit Amount.

Column Name: unit_type_code
Column Type: varchar
Max Length: 50
Unit Type code.

Column Name: unit_type_value
Column Type: varchar
Max Length: 50
Unit Type value.

Documentation for form: Treatment_Plan

Table Name: SYSTEM.tx_plan_todos

Table Description: This table returns information about to-do's sent for Treatment Plan elements with upcoming due dates.

Column Name: ID
Column Type: integer

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: HISTORICID_element
Column Type: varchar
Max Length: 50
'Client Treatment Plan Element ID' (problem, goal, objective, intervention)

Column Name: HISTORICID_plan
Column Type: varchar
Max Length: 50
'Client Treatment Plan'

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: ToDo_Id
Column Type: varchar
Max Length: 50
The to-do sent for this treatment plan element

Documentation for form: Treatment_Plan_-_Goals

Table Name: SYSTEM.tx_plan_int_ss

Table Description: This table returns site specific data from the 'Interventions' section of the 'Treatment Plan' form.

Column Name: ID
Column Type: integer

Column Name: EPISODE_NUMBER
Column Type: integer
The episode associated with the treatment plan intervention.

Column Name: FACILITY
Column Type: integer
The system code the client is defined in

Column Name: HISTORICID_intervent
Column Type: varchar
Max Length: 50
The unique ID of the treatment plan intervention.

Column Name: HISTORICID_plan
Column Type: varchar
Max Length: 50
The unique ID of the treatment plan the intervention is associated with.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID that is associated with the treatment plan intervention.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40

The user name that last updated the row of data.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 50

The user name that last updated the row of data.

Column Name: data_entry_date

Column Type: date

The date this row of data was last updated.

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 255

The name of the form that last updated the row.

Column Name: data_entry_time

Column Type: varchar

Max Length: 50

The time this row of data was last updated.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 50

The user ID that last updated this row of data.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name that last updated the row of data.

Column Name: data_entry_utc

Column Type: timestamp
the UTC date and time the data was saved.

Column Name: requiredproperties
Column Type: varchar
Max Length: 32766
'REQUIRED_PROPERTIES (System Use Only)'

Column Name: ss_tx_int_date_10
Column Type: date
'SS Treatment Plan Int Date 10'

Column Name: ss_tx_int_date_4
Column Type: date
'SS Treatment Plan Int Date 4'

Column Name: ss_tx_int_date_5
Column Type: date

The code for 'SS Treatment Plan Int Multiple Response Dict 12'.

Column Name: `ss_tx_int_mult_12_shval`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_tx_int_mult_12_code` limited to 255 characters. See `ss_tx_int_mult_12_code` for more information.

Column Name: `ss_tx_int_mult_12_value`

Column Type: `varchar`

Max Length: 4096

The description associated with `ss_tx_int_mult_12_code`. See `ss_tx_int_mult_12_code` for more information.

Column Name: `ss_tx_int_mult_13_code`

Column Type: `varchar`

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 13'.

Column Name: `ss_tx_int_mult_13_shval`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_tx_int_mult_13_code` limited to 255 characters. See `ss_tx_int_mult_13_code` for more information.

Column Name: `ss_tx_int_mult_13_value`

Column Type: `varchar`

Max Length: 4096

The description associated with `ss_tx_int_mult_13_code`. See `ss_tx_int_mult_13_code` for more information.

Column Name: `ss_tx_int_mult_14_code`

Column Type: `varchar`

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 14'.

Column Name: `ss_tx_int_mult_14_shval`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_tx_int_mult_14_code` limited to 255 characters. See `ss_tx_int_mult_14_code` for more information.

Column Name: `ss_tx_int_mult_14_value`

Column Type: `varchar`

Max Length: 4096

The description associated with `ss_tx_int_mult_14_code`. See `ss_tx_int_mult_14_code` for more information.

Column Name: `ss_tx_int_mult_15_code`

Column Type: `varchar`

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 15'.

Column Name: `ss_tx_int_mult_15_shval`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_tx_int_mult_15_code` limited to 255 characters. See `ss_tx_int_mult_15_code` for more information.

Column Name: `ss_tx_int_mult_15_value`

Column Type: `varchar`

Max Length: 4096

The description associated with `ss_tx_int_mult_15_code`. See `ss_tx_int_mult_15_code` for more information.

Column Name: `ss_tx_int_mult_16_code`

Column Type: `varchar`

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 16'.

Column Name: `ss_tx_int_mult_16_shval`

Column Type: varchar

Max Length: 255

The description associated with ss_tx_int_mult_16_code limited to 255 characters. See ss_tx_int_mult_16_code for more information.

Column Name: ss_tx_int_mult_16_value

Column Type: varchar

Max Length: 4096

The description associated with ss_tx_int_mult_16_code. See ss_tx_int_mult_16_code for more information.

Column Name: ss_tx_int_mult_1_code

Column Type: varchar

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 1'.

Column Name: ss_tx_int_mult_1_shval

Column Type: varchar

Max Length: 255

The description associated with ss_tx_int_mult_1_code limited to 255 characters. See ss_tx_int_mult_1_code for more information.

Column Name: ss_tx_int_mult_1_value

Column Type: varchar

Max Length: 4096

The description associated with ss_tx_int_mult_1_code. See ss_tx_int_mult_1_code for more information.

Column Name: ss_tx_int_mult_2_code

Column Type: varchar

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 2'.

Column Name: ss_tx_int_mult_2_shval

Column Type: varchar

Max Length: 255

The description associated with ss_tx_int_mult_2_code limited to 255 characters. See ss_tx_int_mult_2_code for more information.

Column Name: ss_tx_int_mult_2_value

Column Type: varchar

Max Length: 4096

The description associated with ss_tx_int_mult_2_code. See ss_tx_int_mult_2_code for more information.

Column Name: ss_tx_int_mult_3_code

Column Type: varchar

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 3'.

Column Name: ss_tx_int_mult_3_shval

Column Type: varchar

Max Length: 255

The description associated with ss_tx_int_mult_3_code limited to 255 characters. See ss_tx_int_mult_3_code for more information.

Column Name: ss_tx_int_mult_3_value

Column Type: varchar

Max Length: 4096

The description associated with ss_tx_int_mult_3_code. See ss_tx_int_mult_3_code for more information.

Column Name: ss_tx_int_mult_4_code

Column Type: varchar

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 4'.

Column Name: ss_tx_int_mult_4_shval

Column Type: varchar

Max Length: 255

The description associated with ss_tx_int_mult_4_code limited to 255 characters. See ss_tx_int_mult_4_code for more information.

Column Name: ss_tx_int_mult_4_value

Column Type: varchar

Max Length: 4096

The description associated with ss_tx_int_mult_4_code. See ss_tx_int_mult_4_code for more information.

Column Name: ss_tx_int_mult_5_code

Column Type: varchar

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 5'.

Column Name: ss_tx_int_mult_5_shval

Column Type: varchar

Max Length: 255

The description associated with ss_tx_int_mult_5_code limited to 255 characters. See ss_tx_int_mult_5_code for more information.

Column Name: ss_tx_int_mult_5_value

Column Type: varchar

Max Length: 4096

The description associated with ss_tx_int_mult_5_code. See ss_tx_int_mult_5_code for more information.

Column Name: ss_tx_int_mult_6_code

Column Type: varchar

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 6'.

Column Name: ss_tx_int_mult_6_shval

Column Type: varchar

Max Length: 255

The description associated with ss_tx_int_mult_6_code limited to 255 characters. See ss_tx_int_mult_6_code for more information.

Column Name: ss_tx_int_mult_6_value

Column Type: varchar

Max Length: 4096

The description associated with ss_tx_int_mult_6_code. See ss_tx_int_mult_6_code for more information.

Column Name: ss_tx_int_mult_7_code

Column Type: varchar

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 7'.

Column Name: ss_tx_int_mult_7_shval

Column Type: varchar

Max Length: 255

The description associated with ss_tx_int_mult_7_code limited to 255 characters. See ss_tx_int_mult_7_code for more information.

Column Name: ss_tx_int_mult_7_value

Column Type: varchar

Max Length: 4096

The description associated with ss_tx_int_mult_7_code. See ss_tx_int_mult_7_code for more information.

Column Name: ss_tx_int_mult_8_code

Column Type: varchar

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 8'.

Column Name: ss_tx_int_mult_8_shval

Column Type: varchar

Max Length: 255

The description associated with ss_tx_int_mult_8_code limited to 255 characters. See ss_tx_int_mult_8_code for more information.

Column Name: ss_tx_int_mult_8_value

Column Type: varchar

Max Length: 4096

The description associated with ss_tx_int_mult_8_code. See ss_tx_int_mult_8_code for more information.

Column Name: ss_tx_int_mult_9_code

Column Type: varchar

Max Length: 1024

The code for 'SS Treatment Plan Int Multiple Response Dict 9'.

Column Name: ss_tx_int_mult_9_shval

Column Type: varchar

Max Length: 255

The description associated with ss_tx_int_mult_9_code limited to 255 characters. See ss_tx_int_mult_9_code for more information.

Column Name: ss_tx_int_mult_9_value

Column Type: varchar

Max Length: 4096

The description associated with ss_tx_int_mult_9_code. See ss_tx_int_mult_9_code for more information.

Column Name: ss_tx_int_numeric_1

Column Type: numeric

'SS Treatment Plan Int Numeric 1'

Column Name: ss_tx_int_numeric_2

Column Type: numeric

'SS Treatment Plan Int Numeric 2'

Column Name: ss_tx_int_prov_1

Column Type: varchar

Max Length: 50

'SS Treatment Plan Int Prov 1'

Column Name: ss_tx_int_prov_2

Column Type: varchar

Max Length: 50

'SS Treatment Plan Int Prov 2'

Column Name: ss_tx_int_service_1_code

Column Type: varchar

Max Length: 50

The code for 'SS Treatment Plan Int Service Code 1'.

Column Name: ss_tx_int_service_1_val

Column Type: varchar

Max Length: 50

The description associated with ss_tx_int_service_1_code. See ss_tx_int_service_1_code for more information.

Column Name: ss_tx_int_service_2_code

Column Type: varchar

Max Length: 50

The code for 'SS Treatment Plan Int Service Code 2'.

Column Name: ss_tx_int_service_2_val

Column Type: varchar

Max Length: 50

The description associated with ss_tx_int_service_2_code. See ss_tx_int_service_2_code for more information.

Column Name: ss_tx_int_service_3_code

Column Type: varchar

Max Length: 50

The code for 'SS Treatment Plan Int Service Code 3'.

Column Name: ss_tx_int_service_3_val

Column Type: varchar

Max Length: 50

The description associated with ss_tx_int_service_3_code. See ss_tx_int_service_5_code for more information.

Column Name: ss_tx_int_service_4_code

Column Type: varchar

Max Length: 50

The code for 'SS Treatment Plan Int Service Code 4'.

Column Name: ss_tx_int_service_4_val

Column Type: varchar

Max Length: 50

The description associated with ss_tx_int_service_4_code. See ss_tx_int_service_4_code for more information.

Column Name: ss_tx_int_staff_3

Column Type: varchar

Max Length: 50

The code for 'SS Treatment Plan Int Staff 3'.

Column Name: ss_tx_int_staff_3_name

Column Type: varchar

Max Length: 50

The description of the associated ss_tx_int_staff_3. See ss_tx_int_staff_3 for more information.

Column Name: ss_tx_int_staff_4

Column Type: varchar

Max Length: 50

The code for 'SS Treatment Plan Int Staff 4'.

Column Name: ss_tx_int_staff_4_name

Column Type: varchar

Max Length: 50

The description of the associated ss_tx_int_staff_4. See ss_tx_int_staff_4 for more information.

Column Name: ss_tx_int_time_1

Column Type: varchar

Max Length: 50

'SS Treatment Plan Int Time 1'.

Column Name: ss_tx_int_time_2

Column Type: varchar

Max Length: 50

'SS Treatment Plan Int Time 2'.

Column Name: tx_plan_number

Column Type: varchar

Max Length: 50
The number of the treatment plan.

Documentation for form: Inpatient_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotes table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 20
The unique ID associated with the note.

Column Name: notes_field
Column Type: varchar
Max Length: 32700
The written note information.

Column Name: note_type_code
Column Type: varchar
Max Length: 50
'Note Type'

Column Name: note_type_value
Column Type: varchar
Max Length: 40
The description associated with note_type_code. See note_type_code for more information.

Column Name: note_time
Column Type: varchar
Max Length: 25
'Note Time'

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: New_Existing_Service_code
Column Type: varchar
Max Length: 5
'Progress Note For'

Column Name: New_Existing_Service_value
Column Type: varchar
Max Length: 40
The description associated with New_Existing_Service_code. See New_Existing_Service_code for more information.

Column Name: service_program_value
Column Type: varchar
Max Length: 40
The description associated with service_program_code. See service_program_code for more information.

Column Name: note_addresses
Column Type: varchar
Max Length: 40
'Note Addresses Which Existing Service/Appointment'

Column Name: note_add_which_tp_plan_prob
Column Type: varchar
Max Length: 32700
The treatment plan problem to add to the note.

Column Name: Tx_Note_UniqueId
Column Type: varchar
Max Length: 40
The unique ID associated with the treatment.

Column Name: service_charge_value

Column Type: varchar

Max Length: 40

The description associated with service_charge_code. See service_charge_code for more information.

Column Name: GROUP_ID

Column Type: varchar

Max Length: 10

'Group Name Or Number'

Column Name: JOIN_TO_TX_HISTORY

Column Type: varchar

Max Length: 40

The unique ID that joins the note to the service.

Column Name: Option_Desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: Option_Id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: PREFILEID

Column Type: varchar

Max Length: 50

The unique ID associated with the prefiller.

Column Name: TODO_ID

Column Type: varchar

Max Length: 20

'To Do Id'

Column Name: add_on_notes

Column Type: varchar

Max Length: 32768

The add-on notes.

Column Name: add_svc_info_code

Column Type: varchar

Max Length: 40

The additional service information.

Column Name: add_svc_info_shval

Column Type: varchar

Max Length: 255

The description associated with add_svc_info_code limited to 255 characters. See add_svc_info_code for more information.

Column Name: add_svc_info_value

Column Type: varchar

Max Length: 4096

The description associated with add_svc_info_code. See add_svc_info_code for more information.

Column Name: aps_link

Column Type: varchar

Max Length: 40

'Note Addresses Which Existing Appointment'

Column Name: billing_status_code

Column Type: varchar

Max Length: 50

'Service Status'

Column Name: billing_status_value

Column Type: varchar

Max Length: 50

The description associated with billing_status_code. See billing_status_code for more information.

Column Name: calpm_ebpss_csi_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practices / Service Strategies (CSI)'

Column Name: calpm_ebpss_csi_value

Column Type: varchar

Max Length: 200

The description associated with calpm_ebpss_csi_code. See calpm_ebpss_csi_code for more information.

Column Name: calpm_ebpss_csi_value_long

Column Type: varchar

Max Length: 4096

The description associated with calpm_ebpss_csi_value_code. See calpm_ebpss_csi_value_code for more information.

Column Name: client_prob_list_codes

Column Type: varchar

Max Length: 50

The codes associated with the client problem list.

Column Name: client_prob_list_shvals

Column Type: varchar

Max Length: 255

The description associated with client_prob_list_code limited to 255 characters. See client_prob_list_code for more information.

Column Name: client_prob_list_vals

Column Type: varchar

Max Length: 32700

The description associated with client_prob_list_code. See client_prob_list_code for more information.

Column Name: clinical_instructions

Column Type: varchar

Max Length: 32700

'Clinical Instructions'

Column Name: clinical_quality_code

Column Type: varchar

Max Length: 255

'Clinical Quality Indicators'

Column Name: clinical_quality_sh_val

Column Type: varchar

Max Length: 255

'The description associated with clinical_quality_code. See clinical_quality_code for more information.'

Column Name: clinical_quality_value

Column Type: varchar

Max Length: 4096

'The description associated with clinical_quality_code. See clinical_quality_code for more information.'

Column Name: confidential_note

Column Type: varchar

Max Length: 50

The confidential note.

Column Name: co_pract_duration

Column Type: numeric

The first co-practitioner duration.

Column Name: co_pract2_duration

Column Type: numeric

The second co-practitioner duration.

Column Name: co_practitioner_id

Column Type: varchar

Max Length: 15

The first co-practitioner ID.

Column Name: co_practitioner_id_2

Column Type: varchar

Max Length: 15

The second co-practitioner ID.

Column Name: co_practitioner_name

Column Type: varchar

Max Length: 40

The name associated with co_practitioner_id.

Column Name: co_practitioner_name_2
Column Type: varchar
Max Length: 40
The name associated with co_practitioner_id_2.

Column Name: co_sign_to_do_user
Column Type: varchar
Max Length: 50
'User To Send Co-Sign To Do Item To'

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 40
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc

Column Type: timestamp
the UTC date and time the data was saved.

Column Name: date_of_group_service
Column Type: date
The date of the group service.

Column Name: date_of_note
Column Type: date
The date of the note.

Column Name: date_of_service
Column Type: date
The date of the service.

Column Name: discipline_code
Column Type: varchar
Max Length: 40
'Discipline'

Column Name: discipline_value
Column Type: varchar
Max Length: 40
The description associated with discipline_code. See discipline_code for more information.

Column Name: draft_final_code
Column Type: varchar
Max Length: 5
'Draft/Final'

Column Name: draft_final_value
Column Type: varchar
Max Length: 40
The description associated with draft_final_code. See draft_final_code for more information.

Column Name: ebps_code
Column Type: varchar
Max Length: 255
'Evidence Based Practices'

Column Name: ebps_sh_val
Column Type: varchar
Max Length: 255
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: ebps_value
Column Type: varchar
Max Length: 4096
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: external_system_id
Column Type: varchar
Max Length: 255
'External System Identifier'

Column Name: has_nonmed_diag_flg_code
Column Type: varchar
Max Length: 50
The non-medical diagnosis flag.

Column Name: has_nonmed_diag_flg_value
Column Type: varchar
Max Length: 50
The description associated with has_nonmed_diag_flg_code. See has_nonmed_diag_flg_code for more information.

Column Name: jointodiagnosisobject1
Column Type: varchar
Max Length: 40
'Diagnosis 1'

Column Name: jointodiagnosisobject2
Column Type: varchar
Max Length: 40
'Diagnosis 2'

Column Name: jointodiagnosisobject3
Column Type: varchar
Max Length: 40
'Diagnosis 3'

Column Name: jointodiagnosisobject4
Column Type: varchar
Max Length: 40
'Diagnosis 4'

Column Name: location_code
Column Type: varchar
Max Length: 15
The location of the service.

Column Name: location_value
Column Type: varchar
Max Length: 40
The description associated with location_code. See location_code for more information.

Column Name: medical_diag1_DSM_value
Column Type: varchar
Max Length: 40

The description associated with medical_diag1_DSM_code. See medical_diag1_DSM_code for more information.

Column Name: medical_diag_1_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1 ICD 10'

Column Name: medical_diag_1_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_icd10_code. See medical_diag_1_icd10_code for more information.

Column Name: medical_diag_1_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1 ICD 9'

Column Name: medical_diag_1_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_icd9_code. See medical_diag_1_icd9_code for more information.

Column Name: medical_diag_1_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_imo_code. See medical_diag_1_imo_code for more information.

Column Name: medical_diag2_DSM_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag2_DSM_code. See medical_diag2_DSM_code for more information.

Column Name: medical_diag_2_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 10'

Column Name: medical_diag_2_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd10_code. See medical_diag_2_icd10_code for more information.

Column Name: medical_diag_2_icd9_code

Column Type: varchar

Max Length: 40
'Medical Diagnosis 2 ICD 9'

Column Name: medical_diag_2_icd9_value
Column Type: varchar
Max Length: 40
The description associated with medical_diag_2_icd9_code. See medical_diag_2_icd9_code for more information.

Column Name: medical_diag_2_imo_value
Column Type: varchar
Max Length: 40
The description associated with medical_diag_2_imo_code. See medical_diag_2_imo_code for more information.

Column Name: medical_diag_3_icd10_code
Column Type: varchar
Max Length: 40
'Medical Diagnosis 3 ICD 10'

Column Name: medical_diag_3_icd10_value
Column Type: varchar
Max Length: 40
The description associated with medical_diag_3_icd10_code. See medical_diag_3_icd10_code for more information.

Column Name: medical_diag_3_icd9_code
Column Type: varchar
Max Length: 40
'Medical Diagnosis 3 ICD 9'

Column Name: medical_diag_3_icd9_value
Column Type: varchar
Max Length: 40
The description associated with medical_diag_3_icd9_code. See medical_diag_3_icd9_code for more information.

Column Name: medical_diag_3_imo_value
Column Type: varchar
Max Length: 40
The description associated with medical_diag_3_imo_code. See medical_diag_3_imo_code for more information.

Column Name: medical_diag_4_icd10_code
Column Type: varchar
Max Length: 40
'Medical Diagnosis 4 ICD 10'

Column Name: medical_diag_4_icd10_value
Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd10_code. See medical_diag_4_icd10_code for more information.

Column Name: medical_diag_4_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 9'

Column Name: medical_diag_4_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd9_code. See medical_diag_4_icd9_code for more information.

Column Name: medical_diag_4_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_imo_code. See medical_diag_4_imo_code for more information.

Column Name: medical_diagnosis_1_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1'

Column Name: medical_diagnosis_1_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_1_code. See medical_diagnosis_1_code for more information.

Column Name: medical_diagnosis_2_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2'

Column Name: medical_diagnosis_2_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_2_code. See medical_diagnosis_2_code for more information.

Column Name: medical_diagnosis_3_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 3'

Column Name: medical_diagnosis_3_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_3_code. See medical_diagnosis_3_code for more information.

Column Name: medical_diagnosis_4_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 4'

Column Name: medical_diagnosis_4_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_4_code. See medical_diagnosis_4_code for more information.

Column Name: notes_entry_index_nu

Column Type: varchar

Max Length: 50

The notes entry index.

Column Name: number_clients_in_group

Column Type: integer

'Number Of Clients In Group'

Column Name: orig_note_uniq_id_num

Column Type: varchar

Max Length: 20

'Original Note Unique ID Number'

Column Name: practitioner_id

Column Type: varchar

Max Length: 15

The practitioner associated with the note.

Column Name: practitioner_name

Column Type: varchar

Max Length: 40

The name associated with practitioner_id.

Column Name: psycho_add_on_duration

Column Type: integer

The psychotherapy add-on duration.

Column Name: reason_for_visit_code

Column Type: varchar

Max Length: 50

'Reason for Visit'

Column Name: reason_for_visit_value

Column Type: varchar

Max Length: 250

The description associated with reason_for_visit_code. See reason_for_visit_code for more information.

Column Name: recommended_decision

Column Type: varchar

Max Length: 32700

'Recommended Decision'

Column Name: select_tp_version_code

Column Type: varchar

Max Length: 5

'Select T.P. Version'

Column Name: select_tp_version_value

Column Type: varchar

Max Length: 40

The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: service_charge_code

Column Type: varchar

Max Length: 40

The service charge code.

Column Name: service_duration

Column Type: varchar

Max Length: 5

The duration of the service.

Column Name: service_end_time

Column Type: varchar

Max Length: 10

The end time of the service.

Column Name: service_program_code

Column Type: varchar

Max Length: 15

The program of the service.

Column Name: service_start_time

Column Type: varchar

Max Length: 10

The start time of the service.

Column Name: session_start_end_times

Column Type: varchar

Max Length: 32766

'Start/End Time(s)'

Column Name: ss_note_20_char_text_1

Column Type: varchar

Max Length: 20
'SS Note 20 Character 1'

Column Name: ss_note_20_char_text_10
Column Type: varchar
Max Length: 20
'SS Note 20 Character 10'

Column Name: ss_note_20_char_text_2
Column Type: varchar
Max Length: 20
'SS Note 20 Character 2'

Column Name: ss_note_20_char_text_3
Column Type: varchar
Max Length: 20
'SS Note 20 Character 3'

Column Name: ss_note_20_char_text_4
Column Type: varchar
Max Length: 20
'SS Note 20 Character 4'

Column Name: ss_note_20_char_text_5
Column Type: varchar
Max Length: 20
'SS Note 20 Character 5'

Column Name: ss_note_20_char_text_6
Column Type: varchar
Max Length: 20
'SS Note 20 Character 6'

Column Name: ss_note_20_char_text_7
Column Type: varchar
Max Length: 20
'SS Note 20 Character 7'

Column Name: ss_note_20_char_text_8
Column Type: varchar
Max Length: 20
'SS Note 20 Character 8'

Column Name: ss_note_20_char_text_9
Column Type: varchar
Max Length: 20
'SS Note 20 Character 9'

Column Name: ss_note_40_char_text_1
Column Type: varchar

Max Length: 40
'SS Note 40 Character 1'

Column Name: ss_note_40_char_text_10
Column Type: varchar
Max Length: 40
'SS Note 40 Character 10'

Column Name: ss_note_40_char_text_2
Column Type: varchar
Max Length: 40
'SS Note 40 Character 2'

Column Name: ss_note_40_char_text_3
Column Type: varchar
Max Length: 40
'SS Note 40 Character 3'

Column Name: ss_note_40_char_text_4
Column Type: varchar
Max Length: 40
'SS Note 40 Character 4'

Column Name: ss_note_40_char_text_5
Column Type: varchar
Max Length: 40
'SS Note 40 Character 5'

Column Name: ss_note_40_char_text_6
Column Type: varchar
Max Length: 40
'SS Note 40 Character 6'

Column Name: ss_note_40_char_text_7
Column Type: varchar
Max Length: 40
'SS Note 40 Character 7'

Column Name: ss_note_40_char_text_8
Column Type: varchar
Max Length: 40
'SS Note 40 Character 8'

Column Name: ss_note_40_char_text_9
Column Type: varchar
Max Length: 40
'SS Note 40 Character 9'

Column Name: ss_note_80_char_text_1
Column Type: varchar

Max Length: 80
'SS Note 80 Character Text 1'

Column Name: ss_note_80_char_text_10
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 10'

Column Name: ss_note_80_char_text_2
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 2'

Column Name: ss_note_80_char_text_3
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 3'

Column Name: ss_note_80_char_text_4
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 4'

Column Name: ss_note_80_char_text_5
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 5'

Column Name: ss_note_80_char_text_6
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 6'

Column Name: ss_note_80_char_text_7
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 7'

Column Name: ss_note_80_char_text_8
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 8'

Column Name: ss_note_80_char_text_9
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 9'

Column Name: ss_note_date_1
Column Type: date

'SS Note Date 1'

Column Name: ss_note_date_10

Column Type: date

'SS Note Date 10'

Column Name: ss_note_date_2

Column Type: date

'SS Note Date 2'

Column Name: ss_note_date_3

Column Type: date

'SS Note Date 3'

Column Name: ss_note_date_4

Column Type: date

'SS Note Date 4'

Column Name: ss_note_date_5

Column Type: date

'SS Note Date 5'

Column Name: ss_note_date_6

Column Type: date

'SS Note Date 6'

Column Name: ss_note_date_7

Column Type: date

'SS Note Date 7'

Column Name: ss_note_date_8

Column Type: date

'SS Note Date 8'

Column Name: ss_note_date_9

Column Type: date

'SS Note Date 9'

Column Name: ss_note_dsm_diag_10_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 10'

Column Name: ss_note_dsm_diag_10_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_10_code. See ss_note_dsm_diag_10_code for more information.

Column Name: ss_note_dsm_diag_1_code

Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 1'

Column Name: ss_note_dsm_diag_1_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_1_code. See ss_note_dsm_diag_1_code for more information.

Column Name: ss_note_dsm_diag_2_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 2'

Column Name: ss_note_dsm_diag_2_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_2_code. See ss_note_dsm_diag_2_code for more information.

Column Name: ss_note_dsm_diag_3_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 3'

Column Name: ss_note_dsm_diag_3_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_3_code. See ss_note_dsm_diag_3_code for more information.

Column Name: ss_note_dsm_diag_4_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 4'

Column Name: ss_note_dsm_diag_4_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_4_code. See ss_note_dsm_diag_4_code for more information.

Column Name: ss_note_dsm_diag_5_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 5'

Column Name: ss_note_dsm_diag_5_value
Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_5_code. See ss_note_dsm_diag_5_code for more information.

Column Name: ss_note_dsm_diag_6_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 6'

Column Name: ss_note_dsm_diag_6_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_6_code. See ss_note_dsm_diag_6_code for more information.

Column Name: ss_note_dsm_diag_7_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 7'

Column Name: ss_note_dsm_diag_7_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_7_code. See ss_note_dsm_diag_7_code for more information.

Column Name: ss_note_dsm_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 8'

Column Name: ss_note_dsm_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_8_code. See ss_note_dsm_diag_8_code for more information.

Column Name: ss_note_dsm_diag_9_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 9'

Column Name: ss_note_dsm_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_9_code. See ss_note_dsm_diag_9_code for more information.

Column Name: ss_note_icd9_diag_10_code

Column Type: varchar

Max Length: 20
'SS Note ICD-9 Code 10'

Column Name: ss_note_icd9_diag_10_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_10_code. See ss_note_icd9_diag_10_code for more information.

Column Name: ss_note_icd9_diag_1_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 1'

Column Name: ss_note_icd9_diag_1_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_1_code. See ss_note_icd9_diag_1_code for more information.

Column Name: ss_note_icd9_diag_2_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 2'

Column Name: ss_note_icd9_diag_2_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_2_code. See ss_note_icd9_diag_2_code for more information.

Column Name: ss_note_icd9_diag_3_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 3'

Column Name: ss_note_icd9_diag_3_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_3_code. See ss_note_icd9_diag_3_code for more information.

Column Name: ss_note_icd9_diag_4_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 4'

Column Name: ss_note_icd9_diag_4_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_icd9_diag_4_code`. See `ss_note_icd9_diag_4_code` for more information.

Column Name: `ss_note_icd9_diag_5_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 5'

Column Name: `ss_note_icd9_diag_5_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_5_code`. See `ss_note_icd9_diag_5_code` for more information.

Column Name: `ss_note_icd9_diag_6_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 6'

Column Name: `ss_note_icd9_diag_6_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_6_code`. See `ss_note_icd9_diag_6_code` for more information.

Column Name: `ss_note_icd9_diag_7_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 7'

Column Name: `ss_note_icd9_diag_7_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_7_code`. See `ss_note_icd9_diag_7_code` for more information.

Column Name: `ss_note_icd9_diag_8_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 8'

Column Name: `ss_note_icd9_diag_8_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_8_code`. See `ss_note_icd9_diag_8_code` for more information.

Column Name: `ss_note_icd9_diag_9_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 9'

Column Name: ss_note_icd9_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_9_code. See ss_note_icd9_diag_9_code for more information.

Column Name: ss_note_multi_dict_10_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 10'

Column Name: ss_note_multi_dict_10_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_10_code. See ss_note_multi_dict_10_code for more information.

Column Name: ss_note_multi_dict_1_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 1'

Column Name: ss_note_multi_dict_1_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_1_code. See ss_note_multi_dict_1_code for more information.

Column Name: ss_note_multi_dict_2_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 2'

Column Name: ss_note_multi_dict_2_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_2_code. See ss_note_multi_dict_2_code for more information.

Column Name: ss_note_multi_dict_3_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 3'

Column Name: ss_note_multi_dict_3_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_3_code. See ss_note_multi_dict_3_code for more information.

Column Name: ss_note_multi_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 4'

Column Name: ss_note_multi_dict_4_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_4_code. See ss_note_multi_dict_4_code for more information.

Column Name: ss_note_multi_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 5'

Column Name: ss_note_multi_dict_5_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_5_code. See ss_note_multi_dict_5_code for more information.

Column Name: ss_note_multi_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 6'

Column Name: ss_note_multi_dict_6_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_6_code. See ss_note_multi_dict_6_code for more information.

Column Name: ss_note_multi_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 7'

Column Name: ss_note_multi_dict_7_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_7_code. See ss_note_multi_dict_7_code for more information.

Column Name: ss_note_multi_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 8'

Column Name: ss_note_multi_dict_8_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_8_code. See ss_note_multi_dict_8_code for more information.

Column Name: ss_note_multi_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 9'

Column Name: ss_note_multi_dict_9_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_9_code. See ss_note_multi_dict_9_code for more information.

Column Name: ss_note_scroll_text_1

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 1'

Column Name: ss_note_scroll_text_10

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 10'

Column Name: ss_note_scroll_text_2

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 2'

Column Name: ss_note_scroll_text_3

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 3'

Column Name: ss_note_scroll_text_4

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 4'

Column Name: ss_note_scroll_text_5

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 5'

Column Name: ss_note_scroll_text_6

Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 6'

Column Name: ss_note_scroll_text_7
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 7'

Column Name: ss_note_scroll_text_8
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 8'

Column Name: ss_note_scroll_text_9
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 9'

Column Name: ss_note_sing_dict_10_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 10'

Column Name: ss_note_sing_dict_10_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_10_code. See ss_note_sing_dict_10_code for more information.

Column Name: ss_note_sing_dict_1_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 1'

Column Name: ss_note_sing_dict_1_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_1_code. See ss_note_sing_dict_1_code for more information.

Column Name: ss_note_sing_dict_2_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 2'

Column Name: ss_note_sing_dict_2_value
Column Type: varchar
Max Length: 80

The description associated with ss_note_sing_dict_2_code. See ss_note_sing_dict_2_code for more information.

Column Name: ss_note_sing_dict_3_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 3'

Column Name: ss_note_sing_dict_3_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_3_code. See ss_note_sing_dict_3_code for more information.

Column Name: ss_note_sing_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 4'

Column Name: ss_note_sing_dict_4_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_4_code. See ss_note_sing_dict_4_code for more information.

Column Name: ss_note_sing_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 5'

Column Name: ss_note_sing_dict_5_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_5_code. See ss_note_sing_dict_5_code for more information.

Column Name: ss_note_sing_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 6'

Column Name: ss_note_sing_dict_6_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_6_code. See ss_note_sing_dict_6_code for more information.

Column Name: ss_note_sing_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 7'

Column Name: ss_note_sing_dict_7_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_7_code. See ss_note_sing_dict_7_code for more information.

Column Name: ss_note_sing_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 8'

Column Name: ss_note_sing_dict_8_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_8_code. See ss_note_sing_dict_8_code for more information.

Column Name: ss_note_sing_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 9'

Column Name: ss_note_sing_dict_9_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_9_code. See ss_note_sing_dict_9_code for more information.

Column Name: ss_note_staff_1

Column Type: varchar

Max Length: 20

'SS Note Staff Member 1'

Column Name: ss_note_staff_10

Column Type: varchar

Max Length: 20

'SS Note Staff Member 10'

Column Name: ss_note_staff_2

Column Type: varchar

Max Length: 20

'SS Note Staff Member 2'

Column Name: ss_note_staff_3

Column Type: varchar

Max Length: 20

'SS Note Staff Member 3'

Column Name: ss_note_staff_4
Column Type: varchar
Max Length: 20
'SS Note Staff Member 4'

Column Name: ss_note_staff_5
Column Type: varchar
Max Length: 20
'SS Note Staff Member 5'

Column Name: ss_note_staff_6
Column Type: varchar
Max Length: 20
'SS Note Staff Member 6'

Column Name: ss_note_staff_7
Column Type: varchar
Max Length: 20
'SS Note Staff Member 7'

Column Name: ss_note_staff_8
Column Type: varchar
Max Length: 20
'SS Note Staff Member 8'

Column Name: ss_note_staff_9
Column Type: varchar
Max Length: 20
'SS Note Staff Member 9'

Column Name: ss_note_time_1
Column Type: varchar
Max Length: 10
'SS Note Time 1'

Column Name: ss_note_time_10
Column Type: varchar
Max Length: 10
'SS Note Time 10'

Column Name: ss_note_time_2
Column Type: varchar
Max Length: 10
'SS Note Time 2'

Column Name: ss_note_time_3
Column Type: varchar
Max Length: 10
'SS Note Time 3'

Column Name: ss_note_time_4
Column Type: varchar
Max Length: 10
'SS Note Time 4'

Column Name: ss_note_time_5
Column Type: varchar
Max Length: 10
'SS Note Time 5'

Column Name: ss_note_time_6
Column Type: varchar
Max Length: 10
'SS Note Time 6'

Column Name: ss_note_time_7
Column Type: varchar
Max Length: 10
'SS Note Time 7'

Column Name: ss_note_time_8
Column Type: varchar
Max Length: 10
'SS Note Time 8'

Column Name: ss_note_time_9
Column Type: varchar
Max Length: 10
'SS Note Time 9'

Column Name: transition_of_care_code
Column Type: varchar
Max Length: 1
'Is This A Transition Of Care?'

Column Name: transition_of_care_value
Column Type: varchar
Max Length: 80
'The description associated with transition_of_care_code. See transition_of_care_code for more information.'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiler.

Column Name: confidential_note
Column Type: varchar
Max Length: 50
Whether the note is confidential.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 50
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: notes_field
Column Type: varchar
Max Length: 32766
The contents of the notes field.

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 50
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_11
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 11'

Column Name: ss_note_20_char_text_12
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 12'

Column Name: ss_note_20_char_text_13
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 13'

Column Name: ss_note_20_char_text_14
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 14'

Column Name: ss_note_20_char_text_15
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 15'

Column Name: ss_note_20_char_text_16
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 16'

Column Name: ss_note_20_char_text_17
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 17'

Column Name: ss_note_20_char_text_18
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 18'

Column Name: ss_note_20_char_text_19
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 19'

Column Name: ss_note_20_char_text_20
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 20'

Column Name: ss_note_20_char_text_21
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 21'

Column Name: ss_note_20_char_text_22
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 22'

Column Name: ss_note_20_char_text_23
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 23'

Column Name: ss_note_20_char_text_24
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 24'

Column Name: ss_note_20_char_text_25
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 25'

Column Name: ss_note_20_char_text_26
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 26'

Column Name: ss_note_20_char_text_27
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 27'

Column Name: ss_note_20_char_text_28
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 28'

Column Name: ss_note_20_char_text_29
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 29'

Column Name: ss_note_20_char_text_30
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 30'

Column Name: ss_note_40_char_text_11
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 11'

Column Name: ss_note_40_char_text_12
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 12'

Column Name: ss_note_40_char_text_13
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 13'

Column Name: ss_note_40_char_text_14
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 14'

Column Name: ss_note_40_char_text_15
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 15'

Column Name: ss_note_40_char_text_16
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 16'

Column Name: ss_note_40_char_text_17
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 17'

Column Name: ss_note_40_char_text_18
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 18'

Column Name: ss_note_40_char_text_19
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 19'

Column Name: ss_note_40_char_text_20
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 20'

Column Name: ss_note_40_char_text_21
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 21'

Column Name: ss_note_40_char_text_22
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 22'

Column Name: ss_note_40_char_text_23
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 23'

Column Name: ss_note_40_char_text_24
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 24'

Column Name: ss_note_40_char_text_25
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 25'

Column Name: ss_note_40_char_text_26
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 26'

Column Name: ss_note_40_char_text_27
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 27'

Column Name: ss_note_40_char_text_28
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 28'

Column Name: ss_note_40_char_text_29
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 29'

Column Name: ss_note_40_char_text_30
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 30'

Column Name: ss_note_80_char_text_11
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 11'

Column Name: ss_note_80_char_text_12
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 12'

Column Name: ss_note_80_char_text_13
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 13'

Column Name: ss_note_80_char_text_14
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 14'

Column Name: ss_note_80_char_text_15
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 15'

Column Name: ss_note_80_char_text_16
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 16'

Column Name: ss_note_80_char_text_17
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 17'

Column Name: ss_note_80_char_text_18
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 18'

Column Name: ss_note_80_char_text_19
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 19'

Column Name: ss_note_80_char_text_20
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 20'

Column Name: ss_note_80_char_text_21
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 21'

Column Name: ss_note_80_char_text_22
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 22'

Column Name: ss_note_80_char_text_23
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 23'

Column Name: ss_note_80_char_text_24
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 24'

Column Name: ss_note_80_char_text_25
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 25'

Column Name: ss_note_80_char_text_26
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 26'

Column Name: ss_note_80_char_text_27
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 27'

Column Name: ss_note_80_char_text_28
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 28'

Column Name: ss_note_80_char_text_29
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 29'

Column Name: ss_note_80_char_text_30
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 30'

'SS Note Date 28'

Column Name: ss_note_date_29
Column Type: date
'SS Note Date 29'

Column Name: ss_note_date_30
Column Type: date
'SS Note Date 30'

Column Name: ss_note_dsm_diag_11_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 11'

Column Name: ss_note_dsm_diag_11_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_dsm_diag_11_code`. See `ss_note_dsm_diag_11_code` for more information.

Column Name: `ss_note_dsm_diag_12_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 12'

Column Name: `ss_note_dsm_diag_12_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_12_code`. See `ss_note_dsm_diag_12_code` for more information.

Column Name: `ss_note_dsm_diag_13_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 13'

Column Name: `ss_note_dsm_diag_13_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_13_code`. See `ss_note_dsm_diag_13_code` for more information.

Column Name: `ss_note_dsm_diag_14_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 14'

Column Name: `ss_note_dsm_diag_14_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_14_code`. See `ss_note_dsm_diag_14_code` for more information.

Column Name: `ss_note_dsm_diag_15_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 15'

Column Name: `ss_note_dsm_diag_15_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_15_code`. See `ss_note_dsm_diag_15_code` for more information.

Column Name: `ss_note_dsm_diag_16_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 16'

Column Name: ss_note_dsm_diag_16_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_16_code. See ss_note_dsm_diag_16_code for more information.

Column Name: ss_note_dsm_diag_17_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 17'

Column Name: ss_note_dsm_diag_17_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_17_code. See ss_note_dsm_diag_17_code for more information.

Column Name: ss_note_dsm_diag_18_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 18'

Column Name: ss_note_dsm_diag_18_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_18_code. See ss_note_dsm_diag_18_code for more information.

Column Name: ss_note_dsm_diag_19_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 19'

Column Name: ss_note_dsm_diag_19_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_19_code. See ss_note_dsm_diag_19_code for more information.

Column Name: ss_note_dsm_diag_20_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 20'

Column Name: ss_note_dsm_diag_20_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_dsm_diag_20_code`. See `ss_note_dsm_diag_20_code` for more information.

Column Name: `ss_note_dsm_diag_21_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 21'

Column Name: `ss_note_dsm_diag_21_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_21_code`. See `ss_note_dsm_diag_21_code` for more information.

Column Name: `ss_note_dsm_diag_22_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 22'

Column Name: `ss_note_dsm_diag_22_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_22_code`. See `ss_note_dsm_diag_22_code` for more information.

Column Name: `ss_note_dsm_diag_23_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 23'

Column Name: `ss_note_dsm_diag_23_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_23_code`. See `ss_note_dsm_diag_23_code` for more information.

Column Name: `ss_note_dsm_diag_24_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 24'

Column Name: `ss_note_dsm_diag_24_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_24_code`. See `ss_note_dsm_diag_24_code` for more information.

Column Name: `ss_note_dsm_diag_25_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 25'

Column Name: ss_note_dsm_diag_25_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_25_code. See ss_note_dsm_diag_25_code for more information.

Column Name: ss_note_dsm_diag_26_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 26'

Column Name: ss_note_dsm_diag_26_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_26_code. See ss_note_dsm_diag_26_code for more information.

Column Name: ss_note_dsm_diag_27_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 27'

Column Name: ss_note_dsm_diag_27_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_27_code. See ss_note_dsm_diag_27_code for more information.

Column Name: ss_note_dsm_diag_28_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 28'

Column Name: ss_note_dsm_diag_28_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_28_code. See ss_note_dsm_diag_28_code for more information.

Column Name: ss_note_dsm_diag_29_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 29'

Column Name: ss_note_dsm_diag_29_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_dsm_diag_29_code`. See `ss_note_dsm_diag_29_code` for more information.

Column Name: `ss_note_dsm_diag_30_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 30'

Column Name: `ss_note_dsm_diag_30_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_30_code`. See `ss_note_dsm_diag_30_code` for more information.

Column Name: `ss_note_icd9_diag_11_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 11'

Column Name: `ss_note_icd9_diag_11_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_11_code`. See `ss_note_icd9_diag_11_code` for more information.

Column Name: `ss_note_icd9_diag_12_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 12'

Column Name: `ss_note_icd9_diag_12_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_12_code`. See `ss_note_icd9_diag_12_code` for more information.

Column Name: `ss_note_icd9_diag_13_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 13'

Column Name: `ss_note_icd9_diag_13_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_13_code`. See `ss_note_icd9_diag_13_code` for more information.

Column Name: `ss_note_icd9_diag_14_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 14'

Column Name: ss_note_icd9_diag_14_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_14_code. See ss_note_icd9_diag_14_code for more information.

Column Name: ss_note_icd9_diag_15_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 15'

Column Name: ss_note_icd9_diag_15_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_15_code. See ss_note_icd9_diag_15_code for more information.

Column Name: ss_note_icd9_diag_16_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 16'

Column Name: ss_note_icd9_diag_16_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_16_code. See ss_note_icd9_diag_16_code for more information.

Column Name: ss_note_icd9_diag_17_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 17'

Column Name: ss_note_icd9_diag_17_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_17_code. See ss_note_icd9_diag_17_code for more information.

Column Name: ss_note_icd9_diag_18_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 18'

Column Name: ss_note_icd9_diag_18_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_18_code`. See `ss_note_icd9_diag_18_code` for more information.

Column Name: `ss_note_icd9_diag_19_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 19'

Column Name: `ss_note_icd9_diag_19_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_19_code`. See `ss_note_icd9_diag_19_code` for more information.

Column Name: `ss_note_icd9_diag_20_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 20'

Column Name: `ss_note_icd9_diag_20_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_20_code`. See `ss_note_icd9_diag_20_code` for more information.

Column Name: `ss_note_icd9_diag_21_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 21'

Column Name: `ss_note_icd9_diag_21_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_21_code`. See `ss_note_icd9_diag_21_code` for more information.

Column Name: `ss_note_icd9_diag_22_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 22'

Column Name: `ss_note_icd9_diag_22_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_22_code`. See `ss_note_icd9_diag_22_code` for more information.

Column Name: `ss_note_icd9_diag_23_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 23'

Column Name: ss_note_icd9_diag_23_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_23_code. See ss_note_icd9_diag_23_code for more information.

Column Name: ss_note_icd9_diag_24_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 24'

Column Name: ss_note_icd9_diag_24_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_24_code. See ss_note_icd9_diag_24_code for more information.

Column Name: ss_note_icd9_diag_25_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 25'

Column Name: ss_note_icd9_diag_25_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_25_code. See ss_note_icd9_diag_25_code for more information.

Column Name: ss_note_icd9_diag_26_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 26'

Column Name: ss_note_icd9_diag_26_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_26_code. See ss_note_icd9_diag_26_code for more information.

Column Name: ss_note_icd9_diag_27_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 27'

Column Name: ss_note_icd9_diag_27_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_27_code`. See `ss_note_icd9_diag_27_code` for more information.

Column Name: `ss_note_icd9_diag_28_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 28'

Column Name: `ss_note_icd9_diag_28_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_28_code`. See `ss_note_icd9_diag_28_code` for more information.

Column Name: `ss_note_icd9_diag_29_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 29'

Column Name: `ss_note_icd9_diag_29_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_29_code`. See `ss_note_icd9_diag_29_code` for more information.

Column Name: `ss_note_icd9_diag_30_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 30'

Column Name: `ss_note_icd9_diag_30_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_30_code`. See `ss_note_icd9_diag_30_code` for more information.

Column Name: `ss_note_multi_dict_11_code`

Column Type: `varchar`

Max Length: 20

'SS Note Copy Multiple Response Dictionary 11'

Column Name: `ss_note_multi_dict_11_value`

Column Type: `varchar`

Max Length: 32700

The description associated with `ss_note_multi_dict_11_code`. See `ss_note_multi_dict_11_code` for more information.

Column Name: `ss_note_multi_dict_12_code`

Column Type: `varchar`

Max Length: 20

'SS Note Copy Multiple Response Dictionary 12'

Column Name: ss_note_multi_dict_12_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_12_code. See ss_note_multi_dict_12_code for more information.

Column Name: ss_note_multi_dict_13_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 13'

Column Name: ss_note_multi_dict_13_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_13_code. See ss_note_multi_dict_13_code for more information.

Column Name: ss_note_multi_dict_14_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 14'

Column Name: ss_note_multi_dict_14_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_14_code. See ss_note_multi_dict_14_code for more information.

Column Name: ss_note_multi_dict_15_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 15'

Column Name: ss_note_multi_dict_15_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_15_code. See ss_note_multi_dict_15_code for more information.

Column Name: ss_note_multi_dict_16_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 16'

Column Name: ss_note_multi_dict_16_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_16_code. See ss_note_multi_dict_16_code for more information.

Column Name: ss_note_multi_dict_17_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 17'

Column Name: ss_note_multi_dict_17_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_17_code. See ss_note_multi_dict_17_code for more information.

Column Name: ss_note_multi_dict_18_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 18'

Column Name: ss_note_multi_dict_18_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_18_code. See ss_note_multi_dict_18_code for more information.

Column Name: ss_note_multi_dict_19_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 19'

Column Name: ss_note_multi_dict_19_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_19_code. See ss_note_multi_dict_19_code for more information.

Column Name: ss_note_multi_dict_20_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 20'

Column Name: ss_note_multi_dict_20_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_20_code. See ss_note_multi_dict_20_code for more information.

Column Name: ss_note_multi_dict_21_code
Column Type: varchar
Max Length: 20

'SS Note Copy Multiple Response Dictionary 21'

Column Name: ss_note_multi_dict_21_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_21_code. See ss_note_multi_dict_21_code for more information.

Column Name: ss_note_multi_dict_22_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 22'

Column Name: ss_note_multi_dict_22_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_22_code. See ss_note_multi_dict_22_code for more information.

Column Name: ss_note_multi_dict_23_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 23'

Column Name: ss_note_multi_dict_23_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_23_code. See ss_note_multi_dict_23_code for more information.

Column Name: ss_note_multi_dict_24_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 24'

Column Name: ss_note_multi_dict_24_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_24_code. See ss_note_multi_dict_24_code for more information.

Column Name: ss_note_multi_dict_25_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 25'

Column Name: ss_note_multi_dict_25_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_25_code. See ss_note_multi_dict_25_code for more information.

Column Name: ss_note_multi_dict_26_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 26'

Column Name: ss_note_multi_dict_26_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_26_code. See ss_note_multi_dict_26_code for more information.

Column Name: ss_note_multi_dict_27_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 27'

Column Name: ss_note_multi_dict_27_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_27_code. See ss_note_multi_dict_27_code for more information.

Column Name: ss_note_multi_dict_28_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 28'

Column Name: ss_note_multi_dict_28_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_28_code. See ss_note_multi_dict_28_code for more information.

Column Name: ss_note_multi_dict_29_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 29'

Column Name: ss_note_multi_dict_29_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_29_code. See ss_note_multi_dict_29_code for more information.

Column Name: ss_note_multi_dict_30_code
Column Type: varchar
Max Length: 20

'SS Note Copy Multiple Response Dictionary 30'

Column Name: ss_note_multi_dict_30_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_30_code. See ss_note_multi_dict_30_code for more information.

Column Name: ss_note_scroll_text_30
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 30'

Column Name: ss_note_sing_dict_11_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 11'

Column Name: ss_note_sing_dict_11_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_single_dict_11_code. See ss_note_single_dict_11_code for more information.

Column Name: ss_note_sing_dict_12_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 12'

Column Name: ss_note_sing_dict_12_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_single_dict_12_code. See ss_note_single_dict_12_code for more information.

Column Name: ss_note_sing_dict_13_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 13'

Column Name: ss_note_sing_dict_13_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_single_dict_13_code. See ss_note_single_dict_13_code for more information.

Column Name: ss_note_sing_dict_14_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 14'

Column Name: ss_note_sing_dict_14_value
Column Type: varchar
Max Length: 50

The description associated with ss_note_single_dict_14_code. See ss_note_single_dict_14_code for more information.

Column Name: ss_note_sing_dict_15_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 15'

Column Name: ss_note_sing_dict_15_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_15_code. See ss_note_single_dict_15_code for more information.

Column Name: ss_note_sing_dict_16_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 16'

Column Name: ss_note_sing_dict_16_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_16_code. See ss_note_single_dict_16_code for more information.

Column Name: ss_note_sing_dict_17_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 17'

Column Name: ss_note_sing_dict_17_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_17_code. See ss_note_single_dict_17_code for more information.

Column Name: ss_note_sing_dict_18_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 18'

Column Name: ss_note_sing_dict_18_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_18_code. See ss_note_single_dict_18_code for more information.

Column Name: ss_note_sing_dict_19_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 19'

Column Name: ss_note_sing_dict_19_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_19_code. See ss_note_single_dict_19_code for more information.

Column Name: ss_note_sing_dict_20_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 20'

Column Name: ss_note_sing_dict_20_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_20_code. See ss_note_single_dict_20_code for more information.

Column Name: ss_note_sing_dict_21_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 21'

Column Name: ss_note_sing_dict_21_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_21_code. See ss_note_single_dict_21_code for more information.

Column Name: ss_note_sing_dict_22_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 22'

Column Name: ss_note_sing_dict_22_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_22_code. See ss_note_single_dict_22_code for more information.

Column Name: ss_note_sing_dict_23_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 23'

Column Name: ss_note_sing_dict_23_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_23_code. See ss_note_single_dict_23_code for more information.

Column Name: ss_note_sing_dict_24_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 24'

Column Name: ss_note_sing_dict_24_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_24_code. See ss_note_single_dict_24_code for more information.

Column Name: ss_note_sing_dict_25_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 25'

Column Name: ss_note_sing_dict_25_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_25_code. See ss_note_single_dict_25_code for more information.

Column Name: ss_note_sing_dict_26_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 26'

Column Name: ss_note_sing_dict_26_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_26_code. See ss_note_single_dict_26_code for more information.

Column Name: ss_note_sing_dict_27_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 27'

Column Name: ss_note_sing_dict_27_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_27_code. See ss_note_single_dict_27_code for more information.

Column Name: ss_note_sing_dict_28_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 28'

Column Name: ss_note_sing_dict_28_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_28_code. See ss_note_single_dict_28_code for more information.

Column Name: ss_note_sing_dict_29_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 29'

Column Name: ss_note_sing_dict_29_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_29_code. See ss_note_single_dict_29_code for more information.

Column Name: ss_note_sing_dict_30_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 30'

Column Name: ss_note_sing_dict_30_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_30_code. See ss_note_single_dict_30_code for more information.

Column Name: ss_note_time_11

Column Type: varchar

Max Length: 50

'SS Note Time 11'

Column Name: ss_note_time_12

Column Type: varchar

Max Length: 50

'SS Note Time 12'

Column Name: ss_note_time_13

Column Type: varchar

Max Length: 50

'SS Note Time 13'

Column Name: ss_note_time_14

Column Type: varchar

Max Length: 50

'SS Note Time 14'

Column Name: ss_note_time_15
Column Type: varchar
Max Length: 50
'SS Note Time 15'

Column Name: ss_note_time_16
Column Type: varchar
Max Length: 50
'SS Note Time 16'

Column Name: ss_note_time_17
Column Type: varchar
Max Length: 50
'SS Note Time 17'

Column Name: ss_note_time_18
Column Type: varchar
Max Length: 50
'SS Note Time 18'

Column Name: ss_note_time_19
Column Type: varchar
Max Length: 50
'SS Note Time 19'

Column Name: ss_note_time_20
Column Type: varchar
Max Length: 50
'SS Note Time 20'

Column Name: ss_note_time_21
Column Type: varchar
Max Length: 50
'SS Note Time 21'

Column Name: ss_note_time_22
Column Type: varchar
Max Length: 50
'SS Note Time 22'

Column Name: ss_note_time_23
Column Type: varchar
Max Length: 50
'SS Note Time 23'

Column Name: ss_note_time_24
Column Type: varchar
Max Length: 50
'SS Note Time 24'

Column Name: ss_note_time_25
Column Type: varchar
Max Length: 50
'SS Note Time 25'

Column Name: ss_note_time_26
Column Type: varchar
Max Length: 50
'SS Note Time 26'

Column Name: ss_note_time_27
Column Type: varchar
Max Length: 50
'SS Note Time 27'

Column Name: ss_note_time_28
Column Type: varchar
Max Length: 50
'SS Note Time 28'

Column Name: ss_note_time_29
Column Type: varchar
Max Length: 50
'SS Note Time 29'

Column Name: ss_note_time_30
Column Type: varchar
Max Length: 50
'SS Note Time 30'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp_1

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp1 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
'Progress Notes Pointer'

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiler.

Column Name: confidential_note
Column Type: varchar
Max Length: 50
'Confidential Notes'

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 50
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: notes_field
Column Type: varchar
Max Length: 32766
'Notes Field'

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 50
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_31

Column Type: varchar
Max Length: 20
'SS Note 20 Character 31'

Column Name: ss_note_20_char_text_32
Column Type: varchar
Max Length: 20
'SS Note 20 Character 32'

Column Name: ss_note_20_char_text_33
Column Type: varchar
Max Length: 20
'SS Note 20 Character 33'

Column Name: ss_note_20_char_text_34
Column Type: varchar
Max Length: 20
'SS Note 20 Character 34'

Column Name: ss_note_20_char_text_35
Column Type: varchar
Max Length: 20
'SS Note 20 Character 35'

Column Name: ss_note_20_char_text_36
Column Type: varchar
Max Length: 20
'SS Note 20 Character 36'

Column Name: ss_note_20_char_text_37
Column Type: varchar
Max Length: 20
'SS Note 20 Character 37'

Column Name: ss_note_20_char_text_38
Column Type: varchar
Max Length: 20
'SS Note 20 Character 38'

Column Name: ss_note_20_char_text_39
Column Type: varchar
Max Length: 20
'SS Note 20 Character 39'

Column Name: ss_note_20_char_text_40
Column Type: varchar
Max Length: 20
'SS Note 20 Character 40'

Column Name: ss_note_20_char_text_41

Column Type: varchar
Max Length: 20
'SS Note 20 Character 41'

Column Name: ss_note_20_char_text_42
Column Type: varchar
Max Length: 20
'SS Note 20 Character 42'

Column Name: ss_note_20_char_text_43
Column Type: varchar
Max Length: 20
'SS Note 20 Character 43'

Column Name: ss_note_20_char_text_44
Column Type: varchar
Max Length: 20
'SS Note 20 Character 44'

Column Name: ss_note_20_char_text_45
Column Type: varchar
Max Length: 20
'SS Note 20 Character 45'

Column Name: ss_note_20_char_text_46
Column Type: varchar
Max Length: 20
'SS Note 20 Character 46'

Column Name: ss_note_20_char_text_47
Column Type: varchar

Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 40'

Column Name: ss_note_multi_dict_40_value
Column Type: varchar
Max Length: 32700

The description associated with ss_note_multi_dict_40_code. See ss_note_multi_dict_40_code for more information.

Column Name: ss_note_multi_dict_41_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 41'

Column Name: ss_note_multi_dict_41_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_41_code. See ss_note_multi_dict_41_code for more information.

Column Name: ss_note_multi_dict_42_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 42'

Column Name: ss_note_multi_dict_42_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_42_code. See ss_note_multi_dict_42_code for more information.

Column Name: ss_note_multi_dict_43_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 43'

Column Name: ss_note_multi_dict_43_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_43_code. See ss_note_multi_dict_43_code for more information.

Column Name: ss_note_multi_dict_44_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 44'

Column Name: ss_note_multi_dict_44_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_44_code. See ss_note_multi_dict_44_code for more information.

Column Name: ss_note_multi_dict_45_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 45'

Column Name: ss_note_multi_dict_45_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_45_code. See ss_note_multi_dict_45_code for more information.

Column Name: ss_note_multi_dict_46_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 46'

Column Name: ss_note_multi_dict_46_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_46_code. See ss_note_multi_dict_46_code for more information.

Column Name: ss_note_multi_dict_47_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 47'

Column Name: ss_note_multi_dict_47_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_47_code. See ss_note_multi_dict_47_code for more information.

Column Name: ss_note_multi_dict_48_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 48'

Column Name: ss_note_multi_dict_48_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_48_code. See ss_note_multi_dict_48_code for more information.

Column Name: ss_note_multi_dict_49_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 49'

Column Name: ss_note_multi_dict_49_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_49_code. See ss_note_multi_dict_49_code for more information.

'SS Note Single Response Dictionary 33'

Column Name: ss_note_sing_dict_33_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_33_code. See ss_note_sing_dict_33_code for more information.

Column Name: ss_note_sing_dict_34_code
Column Type: varchar
Max Length: 20

'SS Note Single Response Dictionary 34'

Column Name: ss_note_sing_dict_34_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_34_code. See ss_note_sing_dict_34_code for more information.

Column Name: ss_note_sing_dict_35_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 35'

Column Name: ss_note_sing_dict_35_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_35_code. See ss_note_sing_dict_35_code for more information.

Column Name: ss_note_sing_dict_36_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 36'

Column Name: ss_note_sing_dict_36_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_36_code. See ss_note_sing_dict_36_code for more information.

Column Name: ss_note_sing_dict_37_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 37'

Column Name: ss_note_sing_dict_37_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_37_code. See ss_note_sing_dict_37_code for more information.

Column Name: ss_note_sing_dict_38_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 38'

Column Name: ss_note_sing_dict_38_value

Column Type: varchar

Max Length: 80

The description associated with `ss_note_sing_dict_38_code`. See `ss_note_sing_dict_38_code` for more information.

Column Name: `ss_note_sing_dict_39_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 39'

Column Name: `ss_note_sing_dict_39_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_39_code`. See `ss_note_sing_dict_39_code` for more information.

Column Name: `ss_note_sing_dict_40_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 40'

Column Name: `ss_note_sing_dict_40_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_40_code`. See `ss_note_sing_dict_40_code` for more information.

Column Name: `ss_note_sing_dict_41_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 41'

Column Name: `ss_note_sing_dict_41_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_41_code`. See `ss_note_sing_dict_41_code` for more information.

Column Name: `ss_note_sing_dict_42_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 42'

Column Name: `ss_note_sing_dict_42_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_42_code`. See `ss_note_sing_dict_42_code` for more information.

Column Name: `ss_note_sing_dict_43_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 43'

Column Name: ss_note_sing_dict_43_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_43_code. See ss_note_sing_dict_43_code for more information.

Column Name: ss_note_sing_dict_44_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 44'

Column Name: ss_note_sing_dict_44_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_44_code. See ss_note_sing_dict_44_code for more information.

Column Name: ss_note_sing_dict_45_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 45'

Column Name: ss_note_sing_dict_45_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_45_code. See ss_note_sing_dict_45_code for more information.

Column Name: ss_note_sing_dict_46_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 46'

Column Name: ss_note_sing_dict_46_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_46_code. See ss_note_sing_dict_46_code for more information.

Column Name: ss_note_sing_dict_47_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 47'

Column Name: ss_note_sing_dict_47_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_47_code. See ss_note_sing_dict_47_code for more information.

Column Name: ss_note_sing_dict_48_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 48'

Column Name: ss_note_sing_dict_48_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_48_code. See ss_note_sing_dict_48_code for more information.

Column Name: ss_note_sing_dict_49_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 49'

Column Name: ss_note_sing_dict_49_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_49_code. See ss_note_sing_dict_49_code for more information.

Column Name: ss_note_sing_dict_50_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 50'

Column Name: ss_note_sing_dict_50_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_50_code. See ss_note_sing_dict_50_code for more information.

Column Name: ss_note_time_31

Column Type: varchar

Max Length: 50

'SS Note Time 31'

Column Name: ss_note_time_32

'SS Note Time 36'

Column Name: ss_note_time_37
Column Type: varchar
Max Length: 50
'SS Note Time 37'

Column Name: ss_note_time_38
Column Type: varchar
Max Length: 50
'SS Note Time 38'

Column Name: ss_note_time_39
Column Type: varchar
Max Length: 50
'SS Note Time 39'

Column Name: ss_note_time_40
Column Type: varchar
Max Length: 50
'SS Note Time 40'

Column Name: ss_note_time_41
Column Type: varchar
Max Length: 50
'SS Note Time 41'

Column Name: ss_note_time_42
Column Type: varchar
Max Length: 50
'SS Note Time 42'

Column Name: ss_note_time_43
Column Type: varchar
Max Length: 50
'SS Note Time 43'

Column Name: ss_note_time_44
Column Type: varchar
Max Length: 50
'SS Note Time 44'

Column Name: ss_note_time_45
Column Type: varchar
Max Length: 50
'SS Note Time 45'

Column Name: ss_note_time_46
Column Type: varchar
Max Length: 50
'SS Note Time 46'

Column Name: ss_note_time_47
Column Type: varchar
Max Length: 50
'SS Note Time 47'

Column Name: ss_note_time_48
Column Type: varchar
Max Length: 50
'SS Note Time 48'

Column Name: ss_note_time_49
Column Type: varchar
Max Length: 50
'SS Note Time 49'

Column Name: ss_note_time_50
Column Type: varchar
Max Length: 50
'SS Note Time 50'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp_2

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp2 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 255

The name of the form that last updated the row.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 40

The user ID who last updated the row.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the row.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: ss_note_integer_10

Max Length: 20
'SS Note Staff Member 29'

Column Name: ss_note_staff_30
Column Type: varchar
Max Length: 20
'SS Note Staff Member 30'

Column Name: ss_note_staff_31
Column Type: varchar
Max Length: 20
'SS Note Staff Member 31'

Column Name: ss_note_staff_32
Column Type: varchar
Max Length: 20
'SS Note Staff Member 32'

Column Name: ss_note_staff_33
Column Type: varchar
Max Length: 20
'SS Note Staff Member 33'

Column Name: ss_note_staff_34
Column Type: varchar
Max Length: 20
'SS Note Staff Member 34'

Column Name: ss_note_staff_35
Column Type: varchar
Max Length: 20
'SS Note Staff Member 35'

Column Name: ss_note_staff_36
Column Type: varchar
Max Length: 20
'SS Note Staff Member 36'

Column Name: ss_note_staff_37
Column Type: varchar
Max Length: 20
'SS Note Staff Member 37'

Column Name: ss_note_staff_38
Column Type: varchar
Max Length: 20
'SS Note Staff Member 38'

Column Name: ss_note_staff_39
Column Type: varchar
Max Length: 20
'SS Note Staff Member 39'

Column Name: ss_note_staff_40
Column Type: varchar
Max Length: 20
'SS Note Staff Member 40'

Column Name: ss_note_staff_41
Column Type: varchar
Max Length: 20
'SS Note Staff Member 41'

Column Name: ss_note_staff_42
Column Type: varchar
Max Length: 20
'SS Note Staff Member 42'

Column Name: ss_note_staff_43
Column Type: varchar
Max Length: 20
'SS Note Staff Member 43'

Column Name: ss_note_staff_44
Column Type: varchar
Max Length: 20
'SS Note Staff Member 44'

Column Name: ss_note_staff_45
Column Type: varchar
Max Length: 20
'SS Note Staff Member 45'

Column Name: ss_note_staff_46
Column Type: varchar
Max Length: 20
'SS Note Staff Member 46'

Column Name: ss_note_staff_47
Column Type: varchar
Max Length: 20
'SS Note Staff Member 47'

Column Name: ss_note_staff_48
Column Type: varchar
Max Length: 20
'SS Note Staff Member 48'

Column Name: ss_note_staff_49
Column Type: varchar
Max Length: 20
'SS Note Staff Member 49'

Column Name: ss_note_staff_50
Column Type: varchar
Max Length: 20
'SS Note Staff Member 50'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp_3

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp3 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar
Max Length: 50
The form number of the form that last updated the row.

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notec_multi_dict_10_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 10'

Column Name: ss_notec_multi_dict_10_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_10_code. See ss_notec_multi_dict_10_code for more information.

Column Name: ss_notec_multi_dict_11_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 11'

Column Name: ss_notec_multi_dict_11_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_11_code. See ss_notec_multi_dict_11_code for more information.

Column Name: ss_notec_multi_dict_12_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 12'

Column Name: ss_notec_multi_dict_12_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_12_code. See ss_notec_multi_dict_12_code for more information.

Column Name: ss_notec_multi_dict_13_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 13'

Column Name: ss_notec_multi_dict_13_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_13_code. See ss_notec_multi_dict_13_code for more information.

Column Name: ss_notec_multi_dict_14_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 14'

Column Name: ss_notec_multi_dict_14_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_14_code. See ss_notec_multi_dict_14_code for more information.

Column Name: ss_notec_multi_dict_15_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 15'

Column Name: ss_notec_multi_dict_15_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_15_code. See ss_notec_multi_dict_15_code for more information.

Column Name: ss_notec_multi_dict_16_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 16'

Column Name: ss_notec_multi_dict_16_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_16_code. See ss_notec_multi_dict_16_code for more information.

Column Name: ss_notec_multi_dict_17_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 17'

Column Name: ss_notec_multi_dict_17_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_17_code. See ss_notec_multi_dict_17_code for more information.

Column Name: ss_notec_multi_dict_18_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 18'

Column Name: ss_notec_multi_dict_18_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_18_code. See ss_notec_multi_dict_18_code for more information.

Column Name: ss_notec_multi_dict_19_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 19'

Column Name: ss_notec_multi_dict_19_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_19_code. See ss_notec_multi_dict_19_code for more information.

Column Name: ss_notec_multi_dict_1_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 1'

Column Name: ss_notec_multi_dict_1_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_1_code. See ss_notec_multi_dict_1_code for more information.

Column Name: ss_notec_multi_dict_20_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 20'

Column Name: ss_notec_multi_dict_20_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_20_code. See ss_notec_multi_dict_20_code for more information.

Column Name: ss_notec_multi_dict_21_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 21'

Column Name: ss_notec_multi_dict_21_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_21_code. See ss_notec_multi_dict_21_code for more information.

Column Name: ss_notec_multi_dict_22_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 22'

Column Name: ss_notec_multi_dict_22_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_22_code. See ss_notec_multi_dict_22_code for more information.

Column Name: ss_notec_multi_dict_23_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 23'

Column Name: ss_notec_multi_dict_23_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_23_code. See ss_notec_multi_dict_23_code for more information.

Column Name: ss_notec_multi_dict_24_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 24'

Column Name: ss_notec_multi_dict_24_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_24_code. See ss_notec_multi_dict_24_code for more information.

Column Name: ss_notec_multi_dict_25_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 25'

Column Name: ss_notec_multi_dict_25_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_25_code. See ss_notec_multi_dict_25_code for more information.

Column Name: ss_notec_multi_dict_26_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 26'

Column Name: ss_notec_multi_dict_26_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_26_code. See ss_notec_multi_dict_26_code for more information.

Column Name: ss_notec_multi_dict_27_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 27'

Column Name: ss_notec_multi_dict_27_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_27_code. See ss_notec_multi_dict_27_code for more information.

Column Name: ss_notec_multi_dict_28_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 28'

Column Name: ss_notec_multi_dict_28_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_28_code. See ss_notec_multi_dict_28_code for more information.

Column Name: ss_notec_multi_dict_29_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 29'

Column Name: ss_notec_multi_dict_29_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_29_code. See ss_notec_multi_dict_29_code for more information.

Column Name: ss_notec_multi_dict_2_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 2'

Column Name: ss_notec_multi_dict_2_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_2_code. See ss_notec_multi_dict_2_code for more information.

Column Name: ss_notec_multi_dict_30_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 30'

Column Name: ss_notec_multi_dict_30_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_30_code. See ss_notec_multi_dict_30_code for more information.

Column Name: ss_notec_multi_dict_31_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 31'

Column Name: ss_notec_multi_dict_31_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_31_code. See ss_notec_multi_dict_31_code for more information.

Column Name: ss_notec_multi_dict_32_code

Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 32'

Column Name: ss_notec_multi_dict_32_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_32_code. See ss_notec_multi_dict_32_code for more information.

Column Name: ss_notec_multi_dict_33_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 33'

Column Name: ss_notec_multi_dict_33_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_33_code. See ss_notec_multi_dict_33_code for more information.

Column Name: ss_notec_multi_dict_34_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 34'

Column Name: ss_notec_multi_dict_34_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_34_code. See ss_notec_multi_dict_34_code for more information.

Column Name: ss_notec_multi_dict_35_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 35'

Column Name: ss_notec_multi_dict_35_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_35_code. See ss_notec_multi_dict_35_code for more information.

Column Name: ss_notec_multi_dict_36_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 36'

Column Name: ss_notec_multi_dict_36_value
Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_36_code. See ss_notec_multi_dict_36_code for more information.

Column Name: ss_notec_multi_dict_37_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 37'

Column Name: ss_notec_multi_dict_37_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_37_code. See ss_notec_multi_dict_37_code for more information.

Column Name: ss_notec_multi_dict_38_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 38'

Column Name: ss_notec_multi_dict_38_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_38_code. See ss_notec_multi_dict_38_code for more information.

Column Name: ss_notec_multi_dict_39_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 39'

Column Name: ss_notec_multi_dict_39_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_39_code. See ss_notec_multi_dict_39_code for more information.

Column Name: ss_notec_multi_dict_3_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 3'

Column Name: ss_notec_multi_dict_3_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_3_code. See ss_notec_multi_dict_3_code for more information.

Column Name: ss_notec_multi_dict_40_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 40'

Column Name: ss_notec_multi_dict_40_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_40_code. See ss_notec_multi_dict_40_code for more information.

Column Name: ss_notec_multi_dict_41_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 41'

Column Name: ss_notec_multi_dict_41_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_41_code. See ss_notec_multi_dict_41_code for more information.

Column Name: ss_notec_multi_dict_42_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 42'

Column Name: ss_notec_multi_dict_42_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_42_code. See ss_notec_multi_dict_42_code for more information.

Column Name: ss_notec_multi_dict_43_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 43'

Column Name: ss_notec_multi_dict_43_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_43_code. See ss_notec_multi_dict_43_code for more information.

Column Name: ss_notec_multi_dict_44_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 44'

Column Name: ss_notec_multi_dict_44_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_44_code. See ss_notec_multi_dict_44_code for more information.

Column Name: ss_notec_multi_dict_45_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 45'

Column Name: ss_notec_multi_dict_45_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_45_code. See ss_notec_multi_dict_45_code for more information.

Column Name: ss_notec_multi_dict_46_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 46'

Column Name: ss_notec_multi_dict_46_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_46_code. See ss_notec_multi_dict_46_code for more information.

Column Name: ss_notec_multi_dict_47_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 47'

Column Name: ss_notec_multi_dict_47_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_47_code. See ss_notec_multi_dict_47_code for more information.

Column Name: ss_notec_multi_dict_48_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 48'

Column Name: ss_notec_multi_dict_48_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_48_code. See ss_notec_multi_dict_48_code for more information.

Column Name: ss_notec_multi_dict_49_code
Column Type: varchar
Max Length: 255

'SS Note Copy Multiple Response Dictionary 49'

Column Name: ss_notec_multi_dict_49_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_49_code. See ss_notec_multi_dict_49_code for more information.

Column Name: ss_notec_multi_dict_4_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 4'

Column Name: ss_notec_multi_dict_4_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_4_code. See ss_notec_multi_dict_4_code for more information.

Column Name: ss_notec_multi_dict_50_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 50'

Column Name: ss_notec_multi_dict_50_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_50_code. See ss_notec_multi_dict_50_code for more information.

Column Name: ss_notec_multi_dict_5_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 5'

Column Name: ss_notec_multi_dict_5_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_5_code. See ss_notec_multi_dict_5_code for more information.

Column Name: ss_notec_multi_dict_6_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 6'

Column Name: ss_notec_multi_dict_6_value

Column Type: varchar

Max Length: 32759

The description associated with `ss_notec_multi_dict_6_code`. See `ss_notec_multi_dict_6_code` for more information.

Column Name: `ss_notec_multi_dict_7_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 7'

Column Name: `ss_notec_multi_dict_7_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_7_code`. See `ss_notec_multi_dict_7_code` for more information.

Column Name: `ss_notec_multi_dict_8_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 8'

Column Name: `ss_notec_multi_dict_8_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_8_code`. See `ss_notec_multi_dict_8_code` for more information.

Column Name: `ss_notec_multi_dict_9_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 9'

Column Name: `ss_notec_multi_dict_9_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_9_code`. See `ss_notec_multi_dict_9_code` for more information.

Column Name: `ss_notec_sing_dict_10_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 10'

Column Name: `ss_notec_sing_dict_10_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notec_sing_dict_10_code`. See `ss_notec_sing_dict_10_code` for more information.

Column Name: `ss_notec_sing_dict_11_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Single Response Dictionary 11'

Column Name: ss_notec_sing_dict_11_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_11_code. See ss_notec_sing_dict_11_code for more information.

Column Name: ss_notec_sing_dict_12_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 12'

Column Name: ss_notec_sing_dict_12_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_12_code. See ss_notec_sing_dict_12_code for more information.

Column Name: ss_notec_sing_dict_13_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 13'

Column Name: ss_notec_sing_dict_13_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_13_code. See ss_notec_sing_dict_13_code for more information.

Column Name: ss_notec_sing_dict_14_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 14'

Column Name: ss_notec_sing_dict_14_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_14_code. See ss_notec_sing_dict_14_code for more information.

Column Name: ss_notec_sing_dict_15_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 15'

Column Name: ss_notec_sing_dict_15_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_15_code. See ss_notec_sing_dict_15_code for more information.

Column Name: ss_notec_sing_dict_16_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 16'

Column Name: ss_notec_sing_dict_16_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_16_code. See ss_notec_sing_dict_16_code for more information.

Column Name: ss_notec_sing_dict_17_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 17'

Column Name: ss_notec_sing_dict_17_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_17_code. See ss_notec_sing_dict_17_code for more information.

Column Name: ss_notec_sing_dict_18_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 18'

Column Name: ss_notec_sing_dict_18_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_18_code. See ss_notec_sing_dict_18_code for more information.

Column Name: ss_notec_sing_dict_19_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 19'

Column Name: ss_notec_sing_dict_19_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_19_code. See ss_notec_sing_dict_19_code for more information.

Column Name: ss_notec_sing_dict_1_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 1'

Column Name: ss_notec_sing_dict_1_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_1_code. See ss_notec_sing_dict_1_code for more information.

Column Name: ss_notec_sing_dict_20_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 20'

Column Name: ss_notec_sing_dict_20_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_20_code. See ss_notec_sing_dict_20_code for more information.

Column Name: ss_notec_sing_dict_21_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 21'

Column Name: ss_notec_sing_dict_21_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_21_code. See ss_notec_sing_dict_21_code for more information.

Column Name: ss_notec_sing_dict_22_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 22'

Column Name: ss_notec_sing_dict_22_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_22_code. See ss_notec_sing_dict_22_code for more information.

Column Name: ss_notec_sing_dict_23_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 23'

Column Name: ss_notec_sing_dict_23_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_23_code. See ss_notec_sing_dict_23_code for more information.

Column Name: ss_notec_sing_dict_24_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 24'

Column Name: ss_notec_sing_dict_24_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_24_code. See ss_notec_sing_dict_24_code for more information.

Column Name: ss_notec_sing_dict_25_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 25'

Column Name: ss_notec_sing_dict_25_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_25_code. See ss_notec_sing_dict_25_code for more information.

Column Name: ss_notec_sing_dict_26_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 26'

Column Name: ss_notec_sing_dict_26_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_26_code. See ss_notec_sing_dict_26_code for more information.

Column Name: ss_notec_sing_dict_27_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 27'

Column Name: ss_notec_sing_dict_27_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_27_code. See ss_notec_sing_dict_27_code for more information.

Column Name: ss_notec_sing_dict_28_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 28'

Column Name: ss_notec_sing_dict_28_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_28_code. See ss_notec_sing_dict_28_code for more information.

Column Name: ss_notec_sing_dict_29_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 29'

Column Name: ss_notec_sing_dict_29_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_29_code. See ss_notec_sing_dict_29_code for more information.

Column Name: ss_notec_sing_dict_2_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 2'

Column Name: ss_notec_sing_dict_2_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_2_code. See ss_notec_sing_dict_2_code for more information.

Column Name: ss_notec_sing_dict_30_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 30'

Column Name: ss_notec_sing_dict_30_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_30_code. See ss_notec_sing_dict_30_code for more information.

Column Name: ss_notec_sing_dict_31_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 31'

Column Name: ss_notec_sing_dict_31_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_31_code. See ss_notec_sing_dict_31_code for more information.

Column Name: ss_notec_sing_dict_32_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 32'

Column Name: ss_notec_sing_dict_32_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_32_code. See ss_notec_sing_dict_32_code for more information.

Column Name: ss_notec_sing_dict_33_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 33'

Column Name: ss_notec_sing_dict_33_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_33_code. See ss_notec_sing_dict_33_code for more information.

Column Name: ss_notec_sing_dict_34_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 34'

Column Name: ss_notec_sing_dict_34_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_34_code. See ss_notec_sing_dict_34_code for more information.

Column Name: ss_notec_sing_dict_35_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 35'

Column Name: ss_notec_sing_dict_35_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_35_code. See ss_notec_sing_dict_35_code for more information.

Column Name: ss_notec_sing_dict_36_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 36'

Column Name: ss_notec_sing_dict_36_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_36_code. See ss_notec_sing_dict_36_code for more information.

Column Name: ss_notec_sing_dict_37_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 37'

Column Name: ss_notec_sing_dict_37_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_37_code. See ss_notec_sing_dict_37_code for more information.

Column Name: ss_notec_sing_dict_38_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 38'

Column Name: ss_notec_sing_dict_38_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_38_code. See ss_notec_sing_dict_38_code for more information.

Column Name: ss_notec_sing_dict_39_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 39'

Column Name: ss_notec_sing_dict_39_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_39_code. See ss_notec_sing_dict_39_code for more information.

Column Name: ss_notec_sing_dict_3_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 3'

Column Name: ss_notec_sing_dict_3_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_3_code. See ss_notec_sing_dict_3_code for more information.

Column Name: ss_notec_sing_dict_40_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 40'

Column Name: ss_notec_sing_dict_40_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_40_code. See ss_notec_sing_dict_40_code for more information.

Column Name: ss_notec_sing_dict_41_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 41'

Column Name: ss_notec_sing_dict_41_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_41_code. See ss_notec_sing_dict_41_code for more information.

Column Name: ss_notec_sing_dict_42_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 42'

Column Name: ss_notec_sing_dict_42_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_42_code. See ss_notec_sing_dict_42_code for more information.

Column Name: ss_notec_sing_dict_43_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 43'

Column Name: ss_notec_sing_dict_43_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_43_code. See ss_notec_sing_dict_43_code for more information.

Column Name: ss_notec_sing_dict_44_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 44'

Column Name: ss_notec_sing_dict_44_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_44_code. See ss_notec_sing_dict_44_code for more information.

Column Name: ss_notec_sing_dict_45_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 45'

Column Name: ss_notec_sing_dict_45_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_45_code. See ss_notec_sing_dict_45_code for more information.

Column Name: ss_notec_sing_dict_46_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 46'

Column Name: ss_notec_sing_dict_46_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_46_code. See ss_notec_sing_dict_46_code for more information.

Column Name: ss_notec_sing_dict_47_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 47'

Column Name: ss_notec_sing_dict_47_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_47_code. See ss_notec_sing_dict_47_code for more information.

Column Name: ss_notec_sing_dict_48_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 48'

Column Name: ss_notec_sing_dict_48_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_48_code. See ss_notec_sing_dict_48_code for more information.

Column Name: ss_notec_sing_dict_49_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 49'

Column Name: ss_notec_sing_dict_49_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_49_code. See ss_notec_sing_dict_49_code for more information.

Column Name: ss_notec_sing_dict_4_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 4'

Column Name: ss_notec_sing_dict_4_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_4_code. See ss_notec_sing_dict_4_code for more information.

Column Name: ss_notec_sing_dict_50_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 50'

Column Name: ss_notec_sing_dict_50_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_50_code. See ss_notec_sing_dict_50_code for more information.

Column Name: ss_notec_sing_dict_5_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 5'

Column Name: ss_notec_sing_dict_5_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_5_code. See ss_notec_sing_dict_5_code for more information.

Column Name: ss_notec_sing_dict_6_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 6'

Column Name: ss_notec_sing_dict_6_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_6_code. See ss_notec_sing_dict_6_code for more information.

Column Name: ss_notec_sing_dict_7_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 7'

Column Name: ss_notec_sing_dict_7_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_7_code. See ss_notec_sing_dict_7_code for more information.

Column Name: ss_notec_sing_dict_8_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 8'

Column Name: ss_notec_sing_dict_8_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_8_code. See ss_notec_sing_dict_8_code for more information.

Column Name: ss_notec_sing_dict_9_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 9'

Column Name: ss_notec_sing_dict_9_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_9_code. See ss_notec_sing_dict_9_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp_4

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp4 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a progress note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID

Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notc_mult_dic_51_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 51'

Column Name: ss_notc_mult_dic_51_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_51_code. See ss_notc_mult_dic_51_code for more information.

Column Name: ss_notc_mult_dic_52_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 52'

Column Name: ss_notc_mult_dic_52_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_52_code. See ss_notc_mult_dic_52_code for more information.

Column Name: ss_notc_mult_dic_53_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 53'

Column Name: ss_notc_mult_dic_53_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_53_code. See ss_notc_mult_dic_53_code for more information.

Column Name: ss_notc_mult_dic_54_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 54'

Column Name: ss_notc_mult_dic_54_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_54_code. See ss_notc_mult_dic_54_code for more information.

Column Name: ss_notc_mult_dic_55_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 55'

Column Name: ss_notc_mult_dic_55_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_55_code. See ss_notc_mult_dic_55_code for more information.

Column Name: ss_notc_mult_dic_56_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 56'

Column Name: ss_notc_mult_dic_56_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_56_code. See ss_notc_mult_dic_56_code for more information.

Column Name: ss_notc_mult_dic_57_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 57'

Column Name: ss_notc_mult_dic_57_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_57_code. See ss_notc_mult_dic_57_code for more information.

Column Name: ss_notc_mult_dic_58_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 58'

Column Name: ss_notc_mult_dic_58_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_58_code. See ss_notc_mult_dic_58_code for more information.

Column Name: ss_notc_mult_dic_59_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 59'

Column Name: ss_notc_mult_dic_59_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_59_code. See ss_notc_mult_dic_59_code for more information.

Column Name: ss_notc_mult_dic_60_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 60'

Column Name: ss_notc_mult_dic_60_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_60_code. See ss_notc_mult_dic_60_code for more information.

Column Name: ss_notc_mult_dic_61_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 61'

Column Name: ss_notc_mult_dic_61_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_61_code. See ss_notc_mult_dic_61_code for more information.

Column Name: ss_notc_mult_dic_62_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 62'

Column Name: ss_notc_mult_dic_62_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_62_code. See ss_notc_mult_dic_62_code for more information.

Column Name: ss_notc_mult_dic_63_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 63'

Column Name: ss_notc_mult_dic_63_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_63_code. See ss_notc_mult_dic_63_code for more information.

Column Name: ss_notc_mult_dic_64_code

Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 64'

Column Name: ss_notc_mult_dic_64_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_64_code. See ss_notc_mult_dic_64_code for more information.

Column Name: ss_notc_mult_dic_65_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 65'

Column Name: ss_notc_mult_dic_65_value
Column Type: varchar
Max Length: 265
The description associated with ss_notc_mult_dic_65_code. See ss_notc_mult_dic_65_code for more information.

Column Name: ss_notc_mult_dic_66_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 66'

Column Name: ss_notc_mult_dic_66_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_66_code. See ss_notc_mult_dic_66_code for more information.

Column Name: ss_notc_mult_dic_67_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 67'

Column Name: ss_notc_mult_dic_67_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_67_code. See ss_notc_mult_dic_67_code for more information.

Column Name: ss_notc_mult_dic_68_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 68'

Column Name: ss_notc_mult_dic_68_value
Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_68_code. See ss_notc_mult_dic_68_code for more information.

Column Name: ss_notc_mult_dic_69_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 69'

Column Name: ss_notc_mult_dic_69_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_69_code. See ss_notc_mult_dic_69_code for more information.

Column Name: ss_notc_mult_dic_70_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 70'

Column Name: ss_notc_mult_dic_70_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_70_code. See ss_notc_mult_dic_70_code for more information.

Column Name: ss_notc_mult_dic_71_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 71'

Column Name: ss_notc_mult_dic_71_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_71_code. See ss_notc_mult_dic_71_code for more information.

Column Name: ss_notc_mult_dic_72_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 72'

Column Name: ss_notc_mult_dic_72_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_72_code. See ss_notc_mult_dic_72_code for more information.

Column Name: ss_notc_mult_dic_73_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 73'

Column Name: ss_notc_mult_dic_73_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_73_code. See ss_notc_mult_dic_73_code for more information.

Column Name: ss_notc_mult_dic_74_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 74'

Column Name: ss_notc_mult_dic_74_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_74_code. See ss_notc_mult_dic_74_code for more information.

Column Name: ss_notc_mult_dic_75_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 75'

Column Name: ss_notc_mult_dic_75_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_mult_dic_75_code. See ss_notc_mult_dic_75_code for more information.

Column Name: ss_notc_mult_dic_76_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 76'

Column Name: ss_notc_mult_dic_76_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_76_code. See ss_notc_mult_dic_76_code for more information.

Column Name: ss_notc_mult_dic_77_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 77'

Column Name: ss_notc_mult_dic_77_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mult_dic_77_code`. See `ss_notc_mult_dic_77_code` for more information.

Column Name: `ss_notc_mult_dic_78_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 78'

Column Name: `ss_notc_mult_dic_78_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_78_code`. See `ss_notc_mult_dic_78_code` for more information.

Column Name: `ss_notc_mult_dic_79_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 79'

Column Name: `ss_notc_mult_dic_79_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_79_code`. See `ss_notc_mult_dic_79_code` for more information.

Column Name: `ss_notc_mult_dic_80_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 80'

Column Name: `ss_notc_mult_dic_80_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_80_code`. See `ss_notc_mult_dic_80_code` for more information.

Column Name: `ss_notc_sin_dic_51_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 51'

Column Name: `ss_notc_sin_dic_51_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_51_code`. See `ss_notc_sin_dic_51_code` for more information.

Column Name: `ss_notc_sin_dic_52_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Single Response Dictionary 52'

Column Name: ss_notc_sin_dic_52_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_52_code. See ss_notc_sin_dic_52_code for more information.

Column Name: ss_notc_sin_dic_53_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 53'

Column Name: ss_notc_sin_dic_53_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_53_code. See ss_notc_sin_dic_53_code for more information.

Column Name: ss_notc_sin_dic_54_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 54'

Column Name: ss_notc_sin_dic_54_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_54_code. See ss_notc_sin_dic_54_code for more information.

Column Name: ss_notc_sin_dic_55_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 55'

Column Name: ss_notc_sin_dic_55_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_55_code. See ss_notc_sin_dic_55_code for more information.

Column Name: ss_notc_sin_dic_56_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 56'

Column Name: ss_notc_sin_dic_56_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_56_code. See ss_notc_sin_dic_56_code for more information.

Column Name: ss_notc_sin_dic_57_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 57'

Column Name: ss_notc_sin_dic_57_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_57_code. See ss_notc_sin_dic_57_code for more information.

Column Name: ss_notc_sin_dic_58_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 58'

Column Name: ss_notc_sin_dic_58_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_58_code. See ss_notc_sin_dic_58_code for more information.

Column Name: ss_notc_sin_dic_59_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 59'

Column Name: ss_notc_sin_dic_59_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_59_code. See ss_notc_sin_dic_59_code for more information.

Column Name: ss_notc_sin_dic_60_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 60'

Column Name: ss_notc_sin_dic_60_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_60_code. See ss_notc_sin_dic_60_code for more information.

Column Name: ss_notc_sin_dic_61_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 61'

Column Name: ss_notc_sin_dic_61_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_61_code. See ss_notc_sin_dic_61_code for more information.

Column Name: ss_notc_sin_dic_62_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 62'

Column Name: ss_notc_sin_dic_62_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_62_code. See ss_notc_sin_dic_62_code for more information.

Column Name: ss_notc_sin_dic_63_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 63'

Column Name: ss_notc_sin_dic_63_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_63_code. See ss_notc_sin_dic_63_code for more information.

Column Name: ss_notc_sin_dic_64_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 64'

Column Name: ss_notc_sin_dic_64_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_64_code. See ss_notc_sin_dic_64_code for more information.

Column Name: ss_notc_sin_dic_65_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 65'

Column Name: ss_notc_sin_dic_65_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_sin_dic_65_code. See ss_notc_sin_dic_65_code for more information.

Column Name: ss_notc_sin_dic_66_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 66'

Column Name: ss_notc_sin_dic_66_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_66_code. See ss_notc_sin_dic_66_code for more information.

Column Name: ss_notc_sin_dic_67_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 67'

Column Name: ss_notc_sin_dic_67_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_67_code. See ss_notc_sin_dic_67_code for more information.

Column Name: ss_notc_sin_dic_68_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 68'

Column Name: ss_notc_sin_dic_68_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_68_code. See ss_notc_sin_dic_68_code for more information.

Column Name: ss_notc_sin_dic_69_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 69'

Column Name: ss_notc_sin_dic_69_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_69_code. See ss_notc_sin_dic_69_code for more information.

Column Name: ss_notc_sin_dic_70_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 70'

Column Name: ss_notc_sin_dic_70_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_70_code. See ss_notc_sin_dic_70_code for more information.

Column Name: ss_notc_sin_dic_71_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 71'

Column Name: ss_notc_sin_dic_71_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_71_code. See ss_notc_sin_dic_71_code for more information.

Column Name: ss_notc_sin_dic_72_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 72'

Column Name: ss_notc_sin_dic_72_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_72_code. See ss_notc_sin_dic_72_code for more information.

Column Name: ss_notc_sin_dic_73_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 73'

Column Name: ss_notc_sin_dic_73_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_73_code. See ss_notc_sin_dic_73_code for more information.

Column Name: ss_notc_sin_dic_74_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 74'

Column Name: ss_notc_sin_dic_74_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_74_code. See ss_notc_sin_dic_74_code for more information.

Column Name: ss_notc_sin_dic_75_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 75'

Column Name: ss_notc_sin_dic_75_value
Column Type: varchar
Max Length: 275
The description associated with ss_notc_sin_dic_75_code. See ss_notc_sin_dic_75_code for more information.

Column Name: ss_notc_sin_dic_76_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 76'

Column Name: ss_notc_sin_dic_76_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_76_code. See ss_notc_sin_dic_76_code for more information.

Column Name: ss_notc_sin_dic_77_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 77'

Column Name: ss_notc_sin_dic_77_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_77_code. See ss_notc_sin_dic_77_code for more information.

Column Name: ss_notc_sin_dic_78_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 78'

Column Name: ss_notc_sin_dic_78_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_78_code. See ss_notc_sin_dic_78_code for more information.

Column Name: ss_notc_sin_dic_79_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 79'

Column Name: ss_notc_sin_dic_79_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_79_code. See ss_notc_sin_dic_79_code for more information.

Column Name: ss_notc_sin_dic_80_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 80'

Column Name: ss_notc_sin_dic_80_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_80_code. See ss_notc_sin_dic_80_code for more information.

Column Name: ss_note_mul_dict_51_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 51'

Column Name: ss_note_mul_dict_51_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_51_code limited to 255 characters. See ss_note_mul_dict_51_code for more information.

Column Name: ss_note_mul_dict_51_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_51_code. See ss_note_mul_dict_51_code for more information.

Column Name: ss_note_mul_dict_52_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 52'

Column Name: ss_note_mul_dict_52_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_52_code limited to 255 characters. See ss_note_mul_dict_52_code for more information.

Column Name: ss_note_mul_dict_52_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_52_code. See ss_note_mul_dict_52_code for more information.

Column Name: ss_note_mul_dict_53_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 53'

Column Name: ss_note_mul_dict_53_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_53_code limited to 255 characters. See ss_note_mul_dict_53_code for more information.

Column Name: ss_note_mul_dict_53_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_53_code. See ss_note_mul_dict_53_code for more information.

Column Name: ss_note_mul_dict_54_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 54'

Column Name: ss_note_mul_dict_54_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_54_code limited to 255 characters. See ss_note_mul_dict_54_code for more information.

Column Name: ss_note_mul_dict_54_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_54_code. See ss_note_mul_dict_54_code for more information.

Column Name: ss_note_mul_dict_55_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 55'

Column Name: ss_note_mul_dict_55_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_55_code limited to 255 characters. See ss_note_mul_dict_55_code for more information.

Column Name: ss_note_mul_dict_55_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_55_code. See ss_note_mul_dict_55_code for more information.

Column Name: ss_note_mul_dict_56_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 56'

Column Name: ss_note_mul_dict_56_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_56_code limited to 255 characters. See ss_note_mul_dict_56_code for more information.

Column Name: ss_note_mul_dict_56_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_56_code. See ss_note_mul_dict_56_code for more information.

Column Name: ss_note_mul_dict_57_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 57'

Column Name: ss_note_mul_dict_57_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_57_code limited to 255 characters. See ss_note_mul_dict_57_code for more information.

Column Name: ss_note_mul_dict_57_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_57_code. See ss_note_mul_dict_57_code for more information.

Column Name: ss_note_mul_dict_58_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 58'

Column Name: ss_note_mul_dict_58_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_58_code limited to 255 characters. See ss_note_mul_dict_58_code for more information.

Column Name: ss_note_mul_dict_58_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_58_code. See ss_note_mul_dict_58_code for more information.

Column Name: ss_note_mul_dict_59_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 59'

Column Name: ss_note_mul_dict_59_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_59_code limited to 255 characters. See ss_note_mul_dict_59_code for more information.

Column Name: ss_note_mul_dict_59_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_59_code. See ss_note_mul_dict_59_code for more information.

Column Name: ss_note_mul_dict_60_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 60'

Column Name: ss_note_mul_dict_60_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_60_code limited to 255 characters. See ss_note_mul_dict_60_code for more information.

Column Name: ss_note_mul_dict_60_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_60_code. See ss_note_mul_dict_60_code for more information.

Column Name: ss_note_mul_dict_61_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 61'

Column Name: ss_note_mul_dict_61_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_61_code limited to 255 characters. See ss_note_mul_dict_61_code for more information.

Column Name: ss_note_mul_dict_61_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_61_code. See ss_note_mul_dict_61_code for more information.

Column Name: ss_note_mul_dict_62_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 62'

Column Name: ss_note_mul_dict_62_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_62_code limited to 255 characters. See ss_note_mul_dict_62_code for more information.

Column Name: ss_note_mul_dict_62_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_62_code. See ss_note_mul_dict_62_code for more information.

Column Name: ss_note_mul_dict_63_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 63'

Column Name: ss_note_mul_dict_63_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_63_code limited to 255 characters. See ss_note_mul_dict_63_code for more information.

Column Name: ss_note_mul_dict_63_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_63_code. See ss_note_mul_dict_63_code for more information.

Column Name: ss_note_mul_dict_64_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 64'

Column Name: ss_note_mul_dict_64_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_64_code limited to 255 characters. See ss_note_mul_dict_64_code for more information.

Column Name: ss_note_mul_dict_64_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_64_code. See ss_note_mul_dict_64_code for more information.

Column Name: ss_note_mul_dict_65_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 65'

Column Name: ss_note_mul_dict_65_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_65_code limited to 255 characters. See ss_note_mul_dict_65_code for more information.

Column Name: ss_note_mul_dict_65_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_65_code. See ss_note_mul_dict_65_code for more information.

Column Name: ss_note_mul_dict_66_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 66'

Column Name: ss_note_mul_dict_66_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_66_code limited to 255 characters. See ss_note_mul_dict_66_code for more information.

Column Name: ss_note_mul_dict_66_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_66_code. See ss_note_mul_dict_66_code for more information.

Column Name: ss_note_mul_dict_67_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 67'

Column Name: ss_note_mul_dict_67_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_67_code limited to 255 characters. See ss_note_mul_dict_67_code for more information.

Column Name: ss_note_mul_dict_67_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_67_code. See ss_note_mul_dict_67_code for more information.

Column Name: ss_note_mul_dict_68_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 68'

Column Name: ss_note_mul_dict_68_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_68_code limited to 255 characters. See ss_note_mul_dict_68_code for more information.

Column Name: ss_note_mul_dict_68_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_68_code. See ss_note_mul_dict_68_code for more information.

Column Name: ss_note_mul_dict_69_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 69'

Column Name: ss_note_mul_dict_69_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_69_code limited to 255 characters. See ss_note_mul_dict_69_code for more information.

Column Name: ss_note_mul_dict_69_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_69_code. See ss_note_mul_dict_69_code for more information.

Column Name: ss_note_mul_dict_70_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 70'

Column Name: ss_note_mul_dict_70_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_70_code limited to 255 characters. See ss_note_mul_dict_70_code for more information.

Column Name: ss_note_mul_dict_70_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_70_code. See ss_note_mul_dict_70_code for more information.

Column Name: ss_note_mul_dict_71_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 71'

Column Name: ss_note_mul_dict_71_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_71_code limited to 255 characters. See ss_note_mul_dict_71_code for more information.

Column Name: ss_note_mul_dict_71_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_71_code. See ss_note_mul_dict_71_code for more information.

Column Name: ss_note_mul_dict_72_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 72'

Column Name: ss_note_mul_dict_72_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_72_code limited to 255 characters. See ss_note_mul_dict_72_code for more information.

Column Name: ss_note_mul_dict_72_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_72_code. See ss_note_mul_dict_72_code for more information.

Column Name: ss_note_mul_dict_73_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 73'

Column Name: ss_note_mul_dict_73_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_73_code limited to 255 characters. See ss_note_mul_dict_73_code for more information.

Column Name: ss_note_mul_dict_73_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_73_code. See ss_note_mul_dict_73_code for more information.

Column Name: ss_note_mul_dict_74_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 74'

Column Name: ss_note_mul_dict_74_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_74_code limited to 255 characters. See ss_note_mul_dict_74_code for more information.

Column Name: ss_note_mul_dict_74_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_74_code. See ss_note_mul_dict_74_code for more information.

Column Name: ss_note_mul_dict_75_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 75'

Column Name: ss_note_mul_dict_75_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_75_code limited to 255 characters. See ss_note_mul_dict_75_code for more information.

Column Name: ss_note_mul_dict_75_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_75_code. See ss_note_mul_dict_75_code for more information.

Column Name: ss_note_mul_dict_76_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 76'

Column Name: ss_note_mul_dict_76_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_76_code limited to 255 characters. See ss_note_mul_dict_76_code for more information.

Column Name: ss_note_mul_dict_76_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_76_code. See ss_note_mul_dict_76_code for more information.

Column Name: ss_note_mul_dict_77_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 77'

Column Name: ss_note_mul_dict_77_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_77_code limited to 255 characters. See ss_note_mul_dict_77_code for more information.

Column Name: ss_note_mul_dict_77_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_77_code. See ss_note_mul_dict_77_code for more information.

Column Name: ss_note_mul_dict_78_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 78'

Column Name: ss_note_mul_dict_78_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_78_code limited to 255 characters. See ss_note_mul_dict_78_code for more information.

Column Name: ss_note_mul_dict_78_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_78_code. See ss_note_mul_dict_78_code for more information.

Column Name: ss_note_mul_dict_79_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 79'

Column Name: ss_note_mul_dict_79_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_79_code limited to 255 characters. See ss_note_mul_dict_79_code for more information.

Column Name: ss_note_mul_dict_79_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_79_code. See ss_note_mul_dict_79_code for more information.

Column Name: ss_note_mul_dict_80_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 80'

Column Name: ss_note_mul_dict_80_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_80_code limited to 255 characters. See ss_note_mul_dict_80_code for more information.

Column Name: ss_note_mul_dict_80_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_80_code. See ss_note_mul_dict_80_code for more information.

Column Name: ss_note_scroll_text_51

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Free Text 51'

Column Name: ss_note_scroll_text_52

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Free Text 52'

Column Name: ss_note_scroll_text_53

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Free Text 53'

Column Name: ss_note_scroll_text_54

Column Type: varchar

Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 80'

Column Name: ss_note_sin_dict_51_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 51'

Column Name: ss_note_sin_dict_51_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_51_code. See ss_note_sin_dict_51_code for more information.

Column Name: ss_note_sin_dict_52_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 52'

Column Name: ss_note_sin_dict_52_value
Column Type: varchar
Max Length: 50

The description associated with ss_note_sin_dict_52_code. See ss_note_sin_dict_52_code for more information.

Column Name: ss_note_sin_dict_53_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 53'

Column Name: ss_note_sin_dict_53_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_53_code. See ss_note_sin_dict_53_code for more information.

Column Name: ss_note_sin_dict_54_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 54'

Column Name: ss_note_sin_dict_54_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_54_code. See ss_note_sin_dict_54_code for more information.

Column Name: ss_note_sin_dict_55_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 55'

Column Name: ss_note_sin_dict_55_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_55_code. See ss_note_sin_dict_55_code for more information.

Column Name: ss_note_sin_dict_56_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 56'

Column Name: ss_note_sin_dict_56_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_56_code. See ss_note_sin_dict_56_code for more information.

Column Name: ss_note_sin_dict_57_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 57'

Column Name: ss_note_sin_dict_57_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_57_code. See ss_note_sin_dict_57_code for more information.

Column Name: ss_note_sin_dict_58_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 58'

Column Name: ss_note_sin_dict_58_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_58_code. See ss_note_sin_dict_58_code for more information.

Column Name: ss_note_sin_dict_59_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 59'

Column Name: ss_note_sin_dict_59_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_59_code. See ss_note_sin_dict_59_code for more information.

Column Name: ss_note_sin_dict_60_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 60'

Column Name: ss_note_sin_dict_60_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_60_code. See ss_note_sin_dict_60_code for more information.

Column Name: ss_note_sin_dict_61_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 61'

Column Name: ss_note_sin_dict_61_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_61_code. See ss_note_sin_dict_61_code for more information.

Column Name: ss_note_sin_dict_62_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 62'

Column Name: ss_note_sin_dict_62_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_62_code. See ss_note_sin_dict_62_code for more information.

Column Name: ss_note_sin_dict_63_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 63'

Column Name: ss_note_sin_dict_63_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_63_code. See ss_note_sin_dict_63_code for more information.

Column Name: ss_note_sin_dict_64_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 64'

Column Name: ss_note_sin_dict_64_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_64_code. See ss_note_sin_dict_64_code for more information.

Column Name: ss_note_sin_dict_65_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 65'

Column Name: ss_note_sin_dict_65_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_65_code. See ss_note_sin_dict_65_code for more information.

Column Name: ss_note_sin_dict_66_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 66'

Column Name: ss_note_sin_dict_66_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_66_code. See ss_note_sin_dict_66_code for more information.

Column Name: ss_note_sin_dict_67_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 67'

Column Name: ss_note_sin_dict_67_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_67_code. See ss_note_sin_dict_67_code for more information.

Column Name: ss_note_sin_dict_68_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 68'

Column Name: ss_note_sin_dict_68_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_68_code. See ss_note_sin_dict_68_code for more information.

Column Name: ss_note_sin_dict_69_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 69'

Column Name: ss_note_sin_dict_69_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_69_code. See ss_note_sin_dict_69_code for more information.

Column Name: ss_note_sin_dict_70_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 70'

Column Name: ss_note_sin_dict_70_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_70_code. See ss_note_sin_dict_70_code for more information.

Column Name: ss_note_sin_dict_71_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 71'

Column Name: ss_note_sin_dict_71_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_71_code. See ss_note_sin_dict_71_code for more information.

Column Name: ss_note_sin_dict_72_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 72'

Column Name: ss_note_sin_dict_72_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_72_code. See ss_note_sin_dict_72_code for more information.

Column Name: ss_note_sin_dict_73_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 73'

Column Name: ss_note_sin_dict_73_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_73_code. See ss_note_sin_dict_73_code for more information.

Column Name: ss_note_sin_dict_74_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 74'

Column Name: ss_note_sin_dict_74_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_74_code. See ss_note_sin_dict_74_code for more information.

Column Name: ss_note_sin_dict_75_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 75'

Column Name: ss_note_sin_dict_75_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_75_code. See ss_note_sin_dict_75_code for more information.

Column Name: ss_note_sin_dict_76_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 76'

Column Name: ss_note_sin_dict_76_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_76_code. See ss_note_sin_dict_76_code for more information.

Column Name: ss_note_sin_dict_77_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 77'

Column Name: ss_note_sin_dict_77_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_77_code. See ss_note_sin_dict_77_code for more information.

Column Name: ss_note_sin_dict_78_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 78'

Column Name: ss_note_sin_dict_78_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_78_code. See ss_note_sin_dict_78_code for more information.

Column Name: ss_note_sin_dict_79_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 79'

Column Name: ss_note_sin_dict_79_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_79_code. See ss_note_sin_dict_79_code for more information.

Column Name: ss_note_sin_dict_80_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 80'

Column Name: ss_note_sin_dict_80_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_80_code. See ss_note_sin_dict_80_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp_5

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp5 table.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the service.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiler.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name

Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: ebp_code
Column Type: varchar
Max Length: 50
'Evidence-Based Practices'

Column Name: ebp_element_code
Column Type: varchar
Max Length: 50
'Evidence-Based Practice Elements'

Column Name: ebp_element_value
Column Type: varchar
Max Length: 32000
The description associated with ebp_element_code

Column Name: ebp_value
Column Type: varchar
Max Length: 32000
The description associated with ebp_code

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notc_mul_dic_100_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 100'

Column Name: ss_notc_mul_dic_100_value
Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_100_code. See ss_notc_mul_dic_100_code for more information.

Column Name: ss_notc_mul_dic_101_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 101'

Column Name: ss_notc_mul_dic_101_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_101_code. See ss_notc_mul_dic_101_code for more information.

Column Name: ss_notc_mul_dic_102_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 102'

Column Name: ss_notc_mul_dic_102_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_102_code. See ss_notc_mul_dic_102_code for more information.

Column Name: ss_notc_mul_dic_103_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 103'

Column Name: ss_notc_mul_dic_103_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_103_code. See ss_notc_mul_dic_103_code for more information.

Column Name: ss_notc_mul_dic_104_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 104'

Column Name: ss_notc_mul_dic_104_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_104_code. See ss_notc_mul_dic_104_code for more information.

Column Name: ss_notc_mul_dic_105_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 105'

Column Name: ss_notc_mul_dic_105_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_mul_dic_105_code. See ss_notc_mul_dic_105_code for more information.

Column Name: ss_notc_mul_dic_106_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 106'

Column Name: ss_notc_mul_dic_106_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_106_code. See ss_notc_mul_dic_106_code for more information.

Column Name: ss_notc_mul_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 107'

Column Name: ss_notc_mul_dic_107_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_107_code. See ss_notc_mul_dic_107_code for more information.

Column Name: ss_notc_mul_dic_108_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 108'

Column Name: ss_notc_mul_dic_108_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_108_code. See ss_notc_mul_dic_108_code for more information.

Column Name: ss_notc_mul_dic_109_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 109'

Column Name: ss_notc_mul_dic_109_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_109_code. See ss_notc_mul_dic_109_code for more information.

Column Name: ss_notc_mul_dic_110_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 110'

Column Name: ss_notc_mul_dic_110_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_110_code. See ss_notc_mul_dic_110_code for more information.

Column Name: ss_notc_mul_dic_81_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 81'

Column Name: ss_notc_mul_dic_81_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_81_code. See ss_notc_mul_dic_81_code for more information.

Column Name: ss_notc_mul_dic_82_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 82'

Column Name: ss_notc_mul_dic_82_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_82_code. See ss_notc_mul_dic_82_code for more information.

Column Name: ss_notc_mul_dic_83_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 83'

Column Name: ss_notc_mul_dic_83_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_83_code. See ss_notc_mul_dic_83_code for more information.

Column Name: ss_notc_mul_dic_84_code
Column Type: varchar
Max Length: 50

'SS Note Copy Multiple Response Dictionary 84'

Column Name: ss_notc_mul_dic_84_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_84_code. See ss_notc_mul_dic_84_code for more information.

Column Name: ss_notc_mul_dic_85_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 85'

Column Name: ss_notc_mul_dic_85_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_85_code. See ss_notc_mul_dic_85_code for more information.

Column Name: ss_notc_mul_dic_86_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 86'

Column Name: ss_notc_mul_dic_86_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_86_code. See ss_notc_mul_dic_86_code for more information.

Column Name: ss_notc_mul_dic_87_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 87'

Column Name: ss_notc_mul_dic_87_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_87_code. See ss_notc_mul_dic_87_code for more information.

Column Name: ss_notc_mul_dic_88_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 88'

Column Name: ss_notc_mul_dic_88_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_88_code. See ss_notc_mul_dic_88_code for more information.

Column Name: ss_notc_mul_dic_89_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 89'

Column Name: ss_notc_mul_dic_89_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_89_code. See ss_notc_mul_dic_89_code for more information.

Column Name: ss_notc_mul_dic_90_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 90'

Column Name: ss_notc_mul_dic_90_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_90_code. See ss_notc_mul_dic_90_code for more information.

Column Name: ss_notc_mul_dic_91_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 91'

Column Name: ss_notc_mul_dic_91_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_91_code. See ss_notc_mul_dic_91_code for more information.

Column Name: ss_notc_mul_dic_92_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 92'

Column Name: ss_notc_mul_dic_92_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_92_code. See ss_notc_mul_dic_92_code for more information.

Column Name: ss_notc_mul_dic_93_code
Column Type: varchar
Max Length: 50

'SS Note Copy Multiple Response Dictionary 93'

Column Name: ss_notc_mul_dic_93_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_93_code. See ss_notc_mul_dic_93_code for more information.

Column Name: ss_notc_mul_dic_94_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 94'

Column Name: ss_notc_mul_dic_94_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_94_code. See ss_notc_mul_dic_94_code for more information.

Column Name: ss_notc_mul_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 95'

Column Name: ss_notc_mul_dic_95_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_mul_dic_95_code. See ss_notc_mul_dic_95_code for more information.

Column Name: ss_notc_mul_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 96'

Column Name: ss_notc_mul_dic_96_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_96_code. See ss_notc_mul_dic_96_code for more information.

Column Name: ss_notc_mul_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 97'

Column Name: ss_notc_mul_dic_97_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_97_code. See ss_notc_mul_dic_97_code for more information.

Column Name: ss_notc_mul_dic_98_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 98'

Column Name: ss_notc_mul_dic_98_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_98_code. See ss_notc_mul_dic_98_code for more information.

Column Name: ss_notc_mul_dic_99_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 99'

Column Name: ss_notc_mul_dic_99_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_99_code. See ss_notc_mul_dic_99_code for more information.

Column Name: ss_notc_sin_dic_100_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 100'

Column Name: ss_notc_sin_dic_100_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_100_code. See ss_notc_sin_dic_100_code for more information.

Column Name: ss_notc_sin_dic_101_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 101'

Column Name: ss_notc_sin_dic_101_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_101_code. See ss_notc_sin_dic_101_code for more information.

Column Name: ss_notc_sin_dic_102_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 102'

Column Name: ss_notc_sin_dic_102_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_102_code. See ss_notc_sin_dic_102_code for more information.

Column Name: ss_notc_sin_dic_103_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 103'

Column Name: ss_notc_sin_dic_103_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_103_code. See ss_notc_sin_dic_103_code for more information.

Column Name: ss_notc_sin_dic_104_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 104'

Column Name: ss_notc_sin_dic_104_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_104_code. See ss_notc_sin_dic_104_code for more information.

Column Name: ss_notc_sin_dic_105_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 105'

Column Name: ss_notc_sin_dic_105_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_sin_dic_105_code. See ss_notc_sin_dic_105_code for more information.

Column Name: ss_notc_sin_dic_106_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 106'

Column Name: ss_notc_sin_dic_106_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_106_code. See ss_notc_sin_dic_106_code for more information.

Column Name: ss_notc_sin_dic_107_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 107'

Column Name: ss_notc_sin_dic_107_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_107_code. See ss_notc_sin_dic_107_code for more information.

Column Name: ss_notc_sin_dic_108_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 108'

Column Name: ss_notc_sin_dic_108_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_108_code. See ss_notc_sin_dic_108_code for more information.

Column Name: ss_notc_sin_dic_109_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 109'

Column Name: ss_notc_sin_dic_109_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_109_code. See ss_notc_sin_dic_109_code for more information.

Column Name: ss_notc_sin_dic_110_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 110'

Column Name: ss_notc_sin_dic_110_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_110_code. See ss_notc_sin_dic_110_code for more information.

Column Name: ss_notc_sin_dic_81_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 81'

Column Name: ss_notc_sin_dic_81_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_81_code. See ss_notc_sin_dic_81_code for more information.

Column Name: ss_notc_sin_dic_82_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 82'

Column Name: ss_notc_sin_dic_82_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_82_code. See ss_notc_sin_dic_82_code for more information.

Column Name: ss_notc_sin_dic_83_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 83'

Column Name: ss_notc_sin_dic_83_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_83_code. See ss_notc_sin_dic_83_code for more information.

Column Name: ss_notc_sin_dic_84_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 84'

Column Name: ss_notc_sin_dic_84_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_84_code. See ss_notc_sin_dic_84_code for more information.

Column Name: ss_notc_sin_dic_85_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 85'

Column Name: ss_notc_sin_dic_85_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_85_code. See ss_notc_sin_dic_85_code for more information.

Column Name: ss_notc_sin_dic_86_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 86'

Column Name: ss_notc_sin_dic_86_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_86_code. See ss_notc_sin_dic_86_code for more information.

Column Name: ss_notc_sin_dic_87_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 87'

Column Name: ss_notc_sin_dic_87_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_87_code. See ss_notc_sin_dic_87_code for more information.

Column Name: ss_notc_sin_dic_88_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 88'

Column Name: ss_notc_sin_dic_88_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_88_code. See ss_notc_sin_dic_88_code for more information.

Column Name: ss_notc_sin_dic_89_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 89'

Column Name: ss_notc_sin_dic_89_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_89_code. See ss_notc_sin_dic_89_code for more information.

Column Name: ss_notc_sin_dic_90_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 90'

Column Name: ss_notc_sin_dic_90_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_90_code. See ss_notc_sin_dic_90_code for more information.

Column Name: ss_notc_sin_dic_91_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 91'

Column Name: ss_notc_sin_dic_91_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_91_code. See ss_notc_sin_dic_91_code for more information.

Column Name: ss_notc_sin_dic_92_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 92'

Column Name: ss_notc_sin_dic_92_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_92_code. See ss_notc_sin_dic_92_code for more information.

Column Name: ss_notc_sin_dic_93_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 93'

Column Name: ss_notc_sin_dic_93_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_93_code. See ss_notc_sin_dic_93_code for more information.

Column Name: ss_notc_sin_dic_94_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 94'

Column Name: ss_notc_sin_dic_94_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_sin_dic_94_code`. See `ss_notc_sin_dic_94_code` for more information.

Column Name: `ss_notc_sin_dic_95_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 95'

Column Name: `ss_notc_sin_dic_95_value`
Column Type: `varchar`
Max Length: 265
The description associated with `ss_notc_sin_dic_95_code`. See `ss_notc_sin_dic_95_code` for more information.

Column Name: `ss_notc_sin_dic_96_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 96'

Column Name: `ss_notc_sin_dic_96_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_96_code`. See `ss_notc_sin_dic_96_code` for more information.

Column Name: `ss_notc_sin_dic_97_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 97'

Column Name: `ss_notc_sin_dic_97_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_97_code`. See `ss_notc_sin_dic_97_code` for more information.

Column Name: `ss_notc_sin_dic_98_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 98'

Column Name: `ss_notc_sin_dic_98_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_98_code`. See `ss_notc_sin_dic_98_code` for more information.

Column Name: `ss_notc_sin_dic_99_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Single Response Dictionary 99'

Column Name: ss_notc_sin_dic_99_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_99_code. See ss_notc_sin_dic_99_code for more information.

Column Name: ss_note_mul_dic_100_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 100'

Column Name: ss_note_mul_dic_100_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_100_code limited to 255 characters. See ss_note_mul_dic_100_code for more information.

Column Name: ss_note_mul_dic_100_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_100_code. See ss_note_mul_dic_100_code for more information.

Column Name: ss_note_mul_dic_101_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 101'

Column Name: ss_note_mul_dic_101_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_101_code limited to 255 characters. See ss_note_mul_dic_101_code for more information.

Column Name: ss_note_mul_dic_101_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_101_code. See ss_note_mul_dic_101_code for more information.

Column Name: ss_note_mul_dic_102_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 102'

Column Name: ss_note_mul_dic_102_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_102_code limited to 255 characters. See ss_note_mul_dic_102_code for more information.

Column Name: ss_note_mul_dic_102_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_102_code. See ss_note_mul_dic_102_code for more information.

Column Name: ss_note_mul_dic_103_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 103'

Column Name: ss_note_mul_dic_103_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_103_code limited to 255 characters. See ss_note_mul_dic_103_code for more information.

Column Name: ss_note_mul_dic_103_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_103_code. See ss_note_mul_dic_103_code for more information.

Column Name: ss_note_mul_dic_104_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 104'

Column Name: ss_note_mul_dic_104_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_104_code limited to 255 characters. See ss_note_mul_dic_104_code for more information.

Column Name: ss_note_mul_dic_104_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_104_code. See ss_note_mul_dic_104_code for more information.

Column Name: ss_note_mul_dic_105_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 105'

Column Name: ss_note_mul_dic_105_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_105_code limited to 255 characters. See ss_note_mul_dic_105_code for more information.

Column Name: ss_note_mul_dic_105_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_105_code. See ss_note_mul_dic_105_code for more information.

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 106'

Column Name: ss_note_mul_dic_106_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_106_code limited to 255 characters. See ss_note_mul_dic_106_code for more information.

Column Name: ss_note_mul_dic_106_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_106_code. See ss_note_mul_dic_106_code for more information.

Column Name: ss_note_mul_dic_107_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 107'

Column Name: ss_note_mul_dic_107_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_107_code limited to 255 characters. See ss_note_mul_dic_107_code for more information.

Column Name: ss_note_mul_dic_107_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_107_code. See ss_note_mul_dic_107_code for more information.

Column Name: ss_note_mul_dic_108_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 108'

Column Name: ss_note_mul_dic_108_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_108_code limited to 255 characters. See ss_note_mul_dic_108_code for more information.

Column Name: ss_note_mul_dic_108_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_108_code. See ss_note_mul_dic_108_code for more information.

Column Name: ss_note_mul_dic_109_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 109'

Column Name: ss_note_mul_dic_109_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_109_code limited to 255 characters. See ss_note_mul_dic_109_code for more information.

Column Name: ss_note_mul_dic_109_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_109_code. See ss_note_mul_dic_109_code for more information.

Column Name: ss_note_mul_dic_110_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 110'

Column Name: ss_note_mul_dic_110_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_110_code limited to 255 characters. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_110_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_110_code. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_81_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 81'

Column Name: ss_note_mul_dic_81_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_81_code limited to 255 characters. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_81_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_81_code. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_82_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 82'

Column Name: ss_note_mul_dic_82_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_82_code limited to 255 characters. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_82_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_82_code. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_83_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 83'

Column Name: ss_note_mul_dic_83_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_83_code limited to 255 characters. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_83_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_83_code. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_84_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 84'

Column Name: ss_note_mul_dic_84_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_84_code limited to 255 characters. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_84_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_84_code. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_85_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 85'

Column Name: ss_note_mul_dic_85_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_85_code limited to 255 characters. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_85_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_85_code. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_86_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 86'

Column Name: ss_note_mul_dic_86_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_86_code limited to 255 characters. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_86_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_86_code. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_87_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 87'

Column Name: ss_note_mul_dic_87_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_87_code limited to 255 characters. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_87_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_87_code. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_88_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 88'

Column Name: ss_note_mul_dic_88_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_88_code limited to 255 characters. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_88_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_88_code. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_89_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 89'

Column Name: ss_note_mul_dic_89_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_89_code limited to 255 characters. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_89_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_89_code. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_90_code

Column Type: varchar

Max Length: 20
'SS Note Multi Response Dictionary 90'

Column Name: ss_note_mul_dic_90_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_90_code limited to 255 characters. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_90_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_90_code. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_91_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 91'

Column Name: ss_note_mul_dic_91_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_91_code limited to 255 characters. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_91_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_91_code. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_92_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 92'

Column Name: ss_note_mul_dic_92_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_92_code limited to 255 characters. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_92_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_92_code. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_93_code

Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 93'

Column Name: ss_note_mul_dic_93_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_93_code limited to 255 characters. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_93_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_93_code. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_94_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 94'

Column Name: ss_note_mul_dic_94_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_94_code limited to 255 characters. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_94_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_94_code. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_95_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 95'

Column Name: ss_note_mul_dic_95_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_95_code limited to 255 characters. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_95_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_95_code. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_96_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 96'

Column Name: ss_note_mul_dic_96_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_96_code limited to 255 characters. See ss_note_mul_dic_96_code for more information.

Column Name: ss_note_mul_dic_96_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_96_code. See ss_note_mul_dic_96_code for more information.

Column Name: ss_note_mul_dic_97_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 97'

Column Name: ss_note_mul_dic_97_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_97_code limited to 255 characters. See ss_note_mul_dic_97_code for more information.

Column Name: ss_note_mul_dic_97_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_97_code. See ss_note_mul_dic_97_code for more information.

Column Name: ss_note_mul_dic_98_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 98'

Column Name: ss_note_mul_dic_98_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_98_code limited to 255 characters. See ss_note_mul_dic_98_code for more information.

Column Name: ss_note_mul_dic_98_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_98_code. See ss_note_mul_dic_98_code for more information.

Column Name: ss_note_mul_dic_99_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 99'

Column Name: ss_note_mul_dic_99_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_99_code limited to 255 characters. See ss_note_mul_dic_99_code for more information.

Column Name: ss_note_mul_dic_99_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_99_code. See ss_note_mul_dic_99_code for more information.

Column Name: ss_note_scroll_text_100

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 90'

Column Name: ss_note_sin_dic_90_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_90_code. See ss_note_sin_dic_90_code for more information.

Column Name: ss_note_sin_dic_91_code

Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 91'

Column Name: ss_note_sin_dic_91_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_91_code. See ss_note_sin_dic_91_code for more information.

Column Name: ss_note_sin_dic_92_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 92'

Column Name: ss_note_sin_dic_92_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_92_code. See ss_note_sin_dic_92_code for more information.

Column Name: ss_note_sin_dic_93_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 93'

Column Name: ss_note_sin_dic_93_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_93_code. See ss_note_sin_dic_93_code for more information.

Column Name: ss_note_sin_dic_94_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 94'

Column Name: ss_note_sin_dic_94_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_94_code. See ss_note_sin_dic_94_code for more information.

Column Name: ss_note_sin_dic_95_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 95'

Column Name: ss_note_sin_dic_95_value
Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_95_code. See ss_note_sin_dic_95_code for more information.

Column Name: ss_note_sin_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 96'

Column Name: ss_note_sin_dic_96_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_96_code. See ss_note_sin_dic_96_code for more information.

Column Name: ss_note_sin_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 97'

Column Name: ss_note_sin_dic_97_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_97_code. See ss_note_sin_dic_97_code for more information.

Column Name: ss_note_sin_dic_98_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 98'

Column Name: ss_note_sin_dic_98_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_98_code. See ss_note_sin_dic_98_code for more information.

Column Name: ss_note_sin_dic_99_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 99'

Column Name: ss_note_sin_dic_99_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_99_code. See ss_note_sin_dic_99_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp_6

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp6 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_51

Column Type: varchar

Max Length: 20

SS Note 20 Character 51

Column Name: ss_note_20_char_text_52

Column Type: varchar

SS Note Time 60

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: SYSTEM.cw_notes_voided

Table Description: This table returns voided progress notes.

Column Name: blank_row_id

Column Type: varchar

Max Length: 254

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: Filing_Hist
Column Type: varchar
Max Length: 20
Unique historic where the data will be stored.

Column Name: notes_field
Column Type: varchar
Max Length: 32759
'Notes Field'

Column Name: note_type_code
Column Type: varchar
Max Length: 50
'Note Type code'

Column Name: note_type_value
Column Type: varchar
Max Length: 40
The description associated with note_type_code. See note_type_code for more information.

Column Name: note_time
Column Type: varchar
Max Length: 25
'Note Time'

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: new_existing_svc_code

Column Type: varchar
Max Length: 5
'New Existing Service Code For. (Progress Note For)'

Column Name: new_existing_svc_value
Column Type: varchar
Max Length: 40
The description associated with new_existing_svc_code. See new_existing_svc_code for more information.

Column Name: service_charge_code
Column Type: varchar
Max Length: 40
'Service Charge Code'

Column Name: service_program_code
Column Type: varchar
Max Length: 6
'Service Program code'

Column Name: service_program_value
Column Type: varchar
Max Length: 40
The description associated with service_program_code. See service_program_code for more information.

Column Name: service_duration
Column Type: varchar
Max Length: 5
'Service Duration'

Column Name: note_addresses
Column Type: varchar
Max Length: 40
'Note Addresses Which Existing Service/Appointment'

Column Name: note_add_wh_tp_plan_prob
Column Type: varchar
Max Length: 32759
'Note Addresses Which Treatment Plan Problem'

Column Name: Tx_Note_UniqueId
Column Type: varchar
Max Length: 40
Unique ID for a service note.

Column Name: FILING_COUNTER
Column Type: integer
'Filing Counter'

Column Name: GROUP_ID
Column Type: varchar

Max Length: 10
'Group Name Or Number'

Column Name: JOIN_TO_TX_HISTORY
Column Type: varchar
Max Length: 40
Unique ID for a service.

Column Name: TODO_ID
Column Type: varchar
Max Length: 20
'To Do Id'

Column Name: aps_link
Column Type: varchar
Max Length: 40
'Note Addresses Which Existing Appointment'

Column Name: clinical_quality_code
Column Type: varchar
Max Length: 255
'Clinical Quality Indicators'

Column Name: clinical_quality_sh_val
Column Type: varchar
Max Length: 255
'The description associated with clinical_quality_code. See clinical_quality_code for more information.'

Column Name: clinical_quality_value
Column Type: varchar
Max Length: 4096
'The description associated with clinical_quality_code. See clinical_quality_code for more information.'

Column Name: co_sign_to_do_user
Column Type: varchar
Max Length: 50
'User To Send Co-Sign To Do Item To'

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10

The time the row was last updated.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 40

The user ID who last updated the row.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the row.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: date_of_group_service

Column Type: date

Date of service for group.

Column Name: draft_final_code

Column Type: varchar

Max Length: 5

'Draft/Final code'

Column Name: draft_final_value

Column Type: varchar

Max Length: 40

The description associated with draft_final_code. See draft_final_code for more information.

Column Name: ebps_code

Column Type: varchar

Max Length: 255

'Evidence Based Practices'

Column Name: ebps_sh_val

Column Type: varchar
Max Length: 255
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: ebps_value
Column Type: varchar
Max Length: 4096
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: external_system_id
Column Type: varchar
Max Length: 255
'External System Identifier'

Column Name: finalized_signature
Column Type: varchar
Max Length: 255
'Finalized Signature'

Column Name: medical_diagnosis_1_code
Column Type: varchar
Max Length: 50
'Medical Diagnosis 1 code'

Column Name: medical_diagnosis_1_value
Column Type: varchar
Max Length: 32759
The description associated with medical_diagnosis_1_code. See medical_diagnosis_1_code for more information.

Column Name: medical_diagnosis_2_code
Column Type: varchar
Max Length: 50
'Medical Diagnosis 2 code'

Column Name: medical_diagnosis_2_value
Column Type: varchar
Max Length: 32759
The description associated with medical_diagnosis_2_code. See medical_diagnosis_2_code for more information.

Column Name: notes_entry_index_nu
Column Type: varchar
Max Length: 50
'Notes Entry Index Number for Internal Use'

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: orig_note_uniq_id_num
Column Type: varchar
Max Length: 20
'Original Note Unique ID Number'

Column Name: reason_for_void_code
Column Type: varchar
Max Length: 50
'Reason For Voiding The Note code'

Column Name: reason_for_void_value
Column Type: varchar
Max Length: 50
The description associated with reason_for_void_code. See reason_for_void_code for more information.

Column Name: select_tp_version_code
Column Type: varchar
Max Length: 5
'Select T.P. Version code'

Column Name: select_tp_version_value
Column Type: varchar
Max Length: 40
The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: session_start_end_times
Column Type: varchar
Max Length: 32759
'Start/End Time(s)'

Column Name: ss_note_20_char_text_1
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 1'

Column Name: ss_note_20_char_text_10
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 10'

Column Name: ss_note_20_char_text_2
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 2'

Column Name: ss_note_20_char_text_3
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 3'

Column Name: ss_note_20_char_text_4
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 4'

Column Name: ss_note_20_char_text_5
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 5'

Column Name: ss_note_20_char_text_6
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 6'

Column Name: ss_note_20_char_text_7
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 7'

Column Name: ss_note_20_char_text_8
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 8'

Column Name: ss_note_20_char_text_9
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 9'

Column Name: ss_note_40_char_text_1
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 1'

Column Name: ss_note_40_char_text_10
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 10'

Column Name: ss_note_40_char_text_2
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 2'

Column Name: ss_note_40_char_text_3
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 3'

Column Name: ss_note_40_char_text_4
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 4'

Column Name: ss_note_40_char_text_5
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 5'

Column Name: ss_note_40_char_text_6
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 6'

Column Name: ss_note_40_char_text_7
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 7'

Column Name: ss_note_40_char_text_8
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 8'

Column Name: ss_note_40_char_text_9
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 9'

Column Name: ss_note_80_char_text_1
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 1'

Column Name: ss_note_80_char_text_10
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 10'

Column Name: ss_note_80_char_text_2
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 2'

Column Name: ss_note_80_char_text_3
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 3'

Column Name: ss_note_80_char_text_4
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 4'

Column Name: ss_note_80_char_text_5
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 5'

Column Name: ss_note_80_char_text_6
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 6'

Column Name: ss_note_80_char_text_7
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 7'

Column Name: ss_note_80_char_text_8
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 8'

Column Name: ss_note_80_char_text_9
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 9'

Column Name: ss_note_date_1
Column Type: date
'SS Note Date 1'

Column Name: ss_note_date_10
Column Type: date
'SS Note Date 10'

Column Name: ss_note_date_2
Column Type: date
'SS Note Date 2'

Column Name: ss_note_date_3
Column Type: date

'SS Note Date 3'

Column Name: ss_note_date_4

Column Type: date

'SS Note Date 4'

Column Name: ss_note_date_5

Column Type: date

'SS Note Date 5'

Column Name: ss_note_date_6

Column Type: date

'SS Note Date 6'

Column Name: ss_note_date_7

Column Type: date

'SS Note Date 7'

Column Name: ss_note_date_8

Column Type: date

'SS Note Date 8'

Column Name: ss_note_date_9

Column Type: date

'SS Note Date 9'

Column Name: ss_note_dsm_diag_10_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 10 code'

Column Name: ss_note_dsm_diag_10_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_10_code. See ss_note_dsm_diag_10_code for more information.

Column Name: ss_note_dsm_diag_1_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 1 code'

Column Name: ss_note_dsm_diag_1_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_1_code. See ss_note_dsm_diag_1_code for more information.

Column Name: ss_note_dsm_diag_2_code

Column Type: varchar

Max Length: 20
'SS Note DSM IV Diagnosis 2 code'

Column Name: ss_note_dsm_diag_2_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_2_code. See ss_note_dsm_diag_2_code for more information.

Column Name: ss_note_dsm_diag_3_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 3 code'

Column Name: ss_note_dsm_diag_3_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_3_code. See ss_note_dsm_diag_3_code for more information.

Column Name: ss_note_dsm_diag_4_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 4 code'

Column Name: ss_note_dsm_diag_4_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_4_code. See ss_note_dsm_diag_4_code for more information.

Column Name: ss_note_dsm_diag_5_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 5 code'

Column Name: ss_note_dsm_diag_5_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_5_code. See ss_note_dsm_diag_5_code for more information.

Column Name: ss_note_dsm_diag_6_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 6 code'

Column Name: ss_note_dsm_diag_6_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_dsm_diag_6_code`. See `ss_note_dsm_diag_6_code` for more information.

Column Name: `ss_note_dsm_diag_7_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 7 code'

Column Name: `ss_note_dsm_diag_7_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_7_code`. See `ss_note_dsm_diag_7_code` for more information.

Column Name: `ss_note_dsm_diag_8_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 8 code'

Column Name: `ss_note_dsm_diag_8_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_8_code`. See `ss_note_dsm_diag_8_code` for more information.

Column Name: `ss_note_dsm_diag_9_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 9 code'

Column Name: `ss_note_dsm_diag_9_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_9_code`. See `ss_note_dsm_diag_9_code` for more information.

Column Name: `ss_note_icd9_diag_10_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Diagnosis 10 code'

Column Name: `ss_note_icd9_diag_10_val`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_10_code`. See `ss_note_icd9_diag_10_code` for more information.

Column Name: `ss_note_icd9_diag_1_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Diagnosis 1 code'

Column Name: ss_note_icd9_diag_1_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_1_code. See ss_note_icd9_diag_1_code for more information.

Column Name: ss_note_icd9_diag_2_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 2 code'

Column Name: ss_note_icd9_diag_2_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_2_code. See ss_note_icd9_diag_2_code for more information.

Column Name: ss_note_icd9_diag_3_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 3 code'

Column Name: ss_note_icd9_diag_3_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_3_code. See ss_note_icd9_diag_3_code for more information.

Column Name: ss_note_icd9_diag_4_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 4 code'

Column Name: ss_note_icd9_diag_4_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_4_code. See ss_note_icd9_diag_4_code for more information.

Column Name: ss_note_icd9_diag_5_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 5 code'

Column Name: ss_note_icd9_diag_5_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_5_code. See ss_note_icd9_diag_5_code for more information.

Column Name: ss_note_icd9_diag_6_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 6 code'

Column Name: ss_note_icd9_diag_6_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_6_code. See ss_note_icd9_diag_6_code for more information.

Column Name: ss_note_icd9_diag_7_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 7 code'

Column Name: ss_note_icd9_diag_7_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_7_code. See ss_note_icd9_diag_7_code for more information.

Column Name: ss_note_icd9_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 8 code'

Column Name: ss_note_icd9_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_8_code. See ss_note_icd9_diag_8_code for more information.

Column Name: ss_note_icd9_diag_9_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 9 code'

Column Name: ss_note_icd9_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_9_code. See ss_note_icd9_diag_9_code for more information.

Column Name: ss_note_multi_dict_10_cod

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 10 code'

Column Name: ss_note_multi_dict_10_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_10_code. See ss_note_multi_dict_10_code for more information.

Column Name: ss_note_multi_dict_1_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 1 code'

Column Name: ss_note_multi_dict_1_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_1_code. See ss_note_multi_dict_1_code for more information.

Column Name: ss_note_multi_dict_2_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 2 code'

Column Name: ss_note_multi_dict_2_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_2_code. See ss_note_multi_dict_2_code for more information.

Column Name: ss_note_multi_dict_3_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 3 code'

Column Name: ss_note_multi_dict_3_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_3_code. See ss_note_multi_dict_3_code for more information.

Column Name: ss_note_multi_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 4 code'

Column Name: ss_note_multi_dict_4_val

Column Type: varchar

Max Length: 32759

The description associated with `ss_note_multi_dict_4_code`. See `ss_note_multi_dict_4_code` for more information.

Column Name: `ss_note_multi_dict_5_code`

Column Type: `varchar`

Max Length: 20

'SS Note Multi Response Dictionary 5 code'

Column Name: `ss_note_multi_dict_5_val`

Column Type: `varchar`

Max Length: 32759

The description associated with `ss_note_multi_dict_5_code`. See `ss_note_multi_dict_5_code` for more information.

Column Name: `ss_note_multi_dict_6_code`

Column Type: `varchar`

Max Length: 20

'SS Note Multi Response Dictionary 6 code'

Column Name: `ss_note_multi_dict_6_val`

Column Type: `varchar`

Max Length: 32759

The description associated with `ss_note_multi_dict_6_code`. See `ss_note_multi_dict_6_code` for more information.

Column Name: `ss_note_multi_dict_7_code`

Column Type: `varchar`

Max Length: 20

'SS Note Multi Response Dictionary 7 code'

Column Name: `ss_note_multi_dict_7_val`

Column Type: `varchar`

Max Length: 32759

The description associated with `ss_note_multi_dict_7_code`. See `ss_note_multi_dict_7_code` for more information.

Column Name: `ss_note_multi_dict_8_code`

Column Type: `varchar`

Max Length: 20

'SS Note Multi Response Dictionary 8 code'

Column Name: `ss_note_multi_dict_8_val`

Column Type: `varchar`

Max Length: 32759

The description associated with `ss_note_multi_dict_8_code`. See `ss_note_multi_dict_8_code` for more information.

Column Name: `ss_note_multi_dict_9_code`

Column Type: `varchar`

Max Length: 20

'SS Note Multi Response Dictionary 9 code'

Column Name: ss_note_multi_dict_9_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_9_code. See ss_note_multi_dict_9_code for more information.

Column Name: ss_note_scroll_text_1

Column Type: varchar

Max Length: 32759

'SS Note Scrolling Free Text 1'

Column Name: ss_note_scroll_text_10

Column Type: varchar

Max Length: 32759

'SS Note Scrolling Free Text 10'

Column Name: ss_note_scroll_text_2

Column Type: varchar

Max Length: 32759

'SS Note Scrolling Free Text 2'

Column Name: ss_note_scroll_text_3

Column Type: varchar

Max Length: 32759

'SS Note Scrolling Free Text 3'

Column Name: ss_note_scroll_text_4

Column Type: varchar

Max Length: 32759

'SS Note Scrolling Free Text 4'

Column Name: ss_note_scroll_text_5

Column Type: varchar

Max Length: 32759

'SS Note Scrolling Free Text 5'

Column Name: ss_note_scroll_text_6

Column Type: varchar

'SS Note Scrolling Free Text 6'

Column Name: ss_note_scroll_text_7

Column Type: varchar

Max Length: 32759

'SS Note Scrolling Free Text 7'

Column Name: ss_note_scroll_text_8

Column Type: varchar

Max Length: 32759
'SS Note Scrolling Free Text 8'

Column Name: ss_note_scroll_text_9
Column Type: varchar
Max Length: 32759
'SS Note Scrolling Free Text 9'

Column Name: ss_note_sing_dict_10_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 10 code'

Column Name: ss_note_sing_dict_10_val
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_10_code. See ss_note_sing_dict_10_code for more information.

Column Name: ss_note_sing_dict_1_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 1 code'

Column Name: ss_note_sing_dict_1_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_1_code. See ss_note_sing_dict_1_code for more information.

Column Name: ss_note_sing_dict_2_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 2 code'

Column Name: ss_note_sing_dict_2_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_2_code. See ss_note_sing_dict_2_code for more information.

Column Name: ss_note_sing_dict_3_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 3 code'

Column Name: ss_note_sing_dict_3_value
Column Type: varchar
Max Length: 80

The description associated with ss_note_sing_dict_3_code. See ss_note_sing_dict_3_code for more information.

Column Name: ss_note_sing_dict_4_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 4 code'

Column Name: ss_note_sing_dict_4_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_4_code. See ss_note_sing_dict_4_code for more information.

Column Name: ss_note_sing_dict_5_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 5 code'

Column Name: ss_note_sing_dict_5_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_5_code. See ss_note_sing_dict_5_code for more information.

Column Name: ss_note_sing_dict_6_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 6 code'

Column Name: ss_note_sing_dict_6_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_6_code. See ss_note_sing_dict_6_code for more information.

Column Name: ss_note_sing_dict_7_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 7 code'

Column Name: ss_note_sing_dict_7_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_7_code. See ss_note_sing_dict_7_code for more information.

Column Name: ss_note_sing_dict_8_code
Column Type: varchar
Max Length: 20

'SS Note Single Response Dictionary 8 code'

Column Name: ss_note_sing_dict_8_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_8_code. See ss_note_sing_dict_8_code for more information.

Column Name: ss_note_sing_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 9 code'

Column Name: ss_note_sing_dict_9_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_9_code. See ss_note_sing_dict_9_code for more information.

Column Name: ss_note_staff_1

Column Type: varchar

Max Length: 20

'SS Note Staff Member 1'

Column Name: ss_note_staff_10

Column Type: varchar

Max Length: 20

'SS Note Staff Member 10'

Column Name: ss_note_staff_2

Column Type: varchar

Max Length: 20

'SS Note Staff Member 2'

Column Name: ss_note_staff_3

Column Type: varchar

Max Length: 20

'SS Note Staff Member 3'

Column Name: ss_note_staff_4

Column Type: varchar

Max Length: 20

'SS Note Staff Member 4'

Column Name: ss_note_staff_5

Max Length: 20

'SS Note Staff Member 5'

Column Name: ss_note_staff_6

Column Type: varchar
Max Length: 20
'SS Note Staff Member 6'

Column Name: ss_note_staff_7
Column Type: varchar
Max Length: 20
'SS Note Staff Member 7'

Column Name: ss_note_staff_8
Column Type: varchar
Max Length: 20
'SS Note Staff Member 8'

Column Name: ss_note_staff_9
Column Type: varchar
Max Length: 20
'SS Note Staff Member 9'

Column Name: ss_note_time_1
Column Type: varchar
Max Length: 10
'SS Note Time 1'

Column Name: ss_note_time_10
Column Type: varchar
Max Length: 10
'SS Note Time 10'

Column Name: ss_note_time_2
Column Type: varchar
Max Length: 10
'SS Note Time 2'

Column Name: ss_note_time_3
Column Type: varchar
Max Length: 10
'SS Note Time 3'

Column Name: ss_note_time_4
Column Type: varchar
Max Length: 10
'SS Note Time 4'

Column Name: ss_note_time_5
Column Type: varchar
Max Length: 10
'SS Note Time 5'

Column Name: ss_note_time_6

Column Type: varchar
Max Length: 10
'SS Note Time 6'

Column Name: ss_note_time_7
Column Type: varchar
Max Length: 10
'SS Note Time 7'

Column Name: ss_note_time_8
Column Type: varchar
Max Length: 10
'SS Note Time 8'

Column Name: ss_note_time_9
Column Type: varchar
Max Length: 10
'SS Note Time 9'

Column Name: transcription_note
Column Type: bit
Is this is Transcription note

Column Name: transition_of_care_code
Column Type: varchar
Max Length: 1
'Is This A Transition Of Care?'

Column Name: transition_of_care_value
Column Type: varchar
Max Length: 80
'The description associated with transition_of_care_code. See transition_of_care_code for more information.'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Column Name: void_comments
Column Type: varchar
Max Length: 32759
'Void Comments'

Column Name: void_data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row for a void.

Column Name: void_data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row for a void.

Column Name: void_data_entry_date
Column Type: date
The date the row was voided.

Column Name: void_data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row for a void.

Column Name: void_data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated for a void.

Column Name: void_data_entry_user_id
Column Type: varchar
Max Length: 40
The 'User ID' that last updated the row for a void.

Column Name: void_data_entry_user_name
Column Type: varchar
Max Length: 40
The 'User Description' of the 'User ID' for a void.

Column Name: void_option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row for a void.

Column Name: void_option_id
Column Type: varchar
Max Length: 40
The unique ID of the form that last updated the row for a void.

Documentation for form: Inpatient_Progress_Notes

Table Name: SYSTEM.cw_patient_notes

Table Description: This table returns the information stored in the 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Progress Notes (Group and Individual)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: blank_row_id
Column Type: varchar
Max Length: 254

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 20
The unique ID associated with the note.

Column Name: notes_field
Column Type: varchar
Max Length: 32700
The written note information.

Column Name: note_type_code
Column Type: varchar
Max Length: 50
'Note Type'

Column Name: note_type_value
Column Type: varchar
Max Length: 40
The description associated with note_type_code. See note_type_code for more information.

Column Name: note_time
Column Type: varchar
Max Length: 25
'Note Time'

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40

The user who last updated the row.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: New_Existing_Service_code

Column Type: varchar

Max Length: 5

'Progress Note For'

Column Name: New_Existing_Service_value

Column Type: varchar

Max Length: 40

The description associated with New_Existing_Service_code. See New_Existing_Service_code for more information.

Column Name: service_program_value

Column Type: varchar

Max Length: 40

The description associated with service_program_code. See service_program_code for more information.

Column Name: note_addresses

Column Type: varchar

Max Length: 40

'Note Addresses Which Existing Service/Appointment'

Column Name: note_add_which_tp_plan_prob

Column Type: varchar

Max Length: 32700

The treatment plan problem to add to the note.

Column Name: Tx_Note_UniqueId

Column Type: varchar

Max Length: 40

The unique ID associated with the treatment.

Column Name: service_charge_value

Column Type: varchar

Max Length: 40

The description associated with service_charge_code. See service_charge_code for more information.

Column Name: GROUP_ID

Column Type: varchar

Max Length: 10

'Group Name Or Number'

Column Name: JOIN_TO_TX_HISTORY

Column Type: varchar

Max Length: 40

The unique ID that joins the note to the service.

Column Name: Option_Desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: Option_Id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: TODO_ID

Column Type: varchar

Max Length: 20

'To Do Id'

Column Name: add_on_notes

Column Type: varchar

Max Length: 32768

The add-on notes.

Column Name: add_svc_info_code

Column Type: varchar

Max Length: 40

The additional service information.

Column Name: add_svc_info_shval

Column Type: varchar

Max Length: 255

The description associated with add_svc_info_code limited to 255 characters. See add_svc_info_code for more information.

Column Name: add_svc_info_value

Column Type: varchar

Max Length: 4096

The description associated with add_svc_info_code. See add_svc_info_code for more information.

Column Name: aps_link

Column Type: varchar

Max Length: 40

'Note Addresses Which Existing Appointment'

Column Name: billing_status_code

Column Type: varchar

Max Length: 50

'Service Status'

Column Name: billing_status_value

Column Type: varchar

Max Length: 50

The description associated with billing_status_code. See billing_status_code for more information.

Column Name: calpm_ebpss_csi_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practices / Service Strategies (CSI)'

Column Name: calpm_ebpss_csi_value

Column Type: varchar

Max Length: 200

The description associated with calpm_ebpss_csi_code. See calpm_ebpss_csi_code for more information.

Column Name: calpm_ebpss_csi_value_long

Column Type: varchar

Max Length: 4096

The description associated with calpm_ebpss_csi_value_code. See calpm_ebpss_csi_value_code for more information.

Column Name: client_prob_list_codes

Column Type: varchar

Max Length: 50

The codes associated with the client problem list.

Column Name: client_prob_list_shvals

Column Type: varchar

Max Length: 255

The description associated with client_prob_list_code limited to 255 characters. See client_prob_list_code for more information.

Column Name: client_prob_list_vals

Column Type: varchar

Max Length: 32700

The description associated with client_prob_list_code. See client_prob_list_code for more information.

Column Name: clinical_instructions

Column Type: varchar

Max Length: 32700

'Clinical Instructions'

Column Name: clinical_quality_code

Column Type: varchar

Max Length: 255

'Clinical Quality Indicators'

Column Name: clinical_quality_sh_val

Column Type: varchar

Max Length: 255

'The description associated with clinical_quality_code. See clinical_quality_code for more information.'

Column Name: clinical_quality_value

Column Type: varchar

Max Length: 4096

'The description associated with clinical_quality_code. See clinical_quality_code for more information.

Column Name: confidential_note

Column Type: varchar

Max Length: 50

The confidential note.

Column Name: co_pract_duration

Column Type: numeric

The first co-practitioner duration.

Column Name: co_pract2_duration

Column Type: numeric

The second co-practitioner duration.

Column Name: co_practitioner_id

Column Type: varchar

Max Length: 15

The first co-practitioner ID.

Column Name: co_practitioner_id_2

Column Type: varchar

Max Length: 15

The second co-practitioner ID.

Column Name: co_practitioner_name

Column Type: varchar

Max Length: 40

The name associated with co_practitioner_id.

Column Name: co_practitioner_name_2

Column Type: varchar

Max Length: 40

The name associated with co_practitioner_id_2.

Column Name: co_sign_to_do_user

Column Type: varchar

Max Length: 50

'User To Send Co-Sign To Do Item To'

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 40
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: date_of_group_service
Column Type: date
The date of the group service.

Column Name: date_of_note
Column Type: date
The date of the note.

Column Name: date_of_service
Column Type: date
The date of the service.

Column Name: discipline_code
Column Type: varchar

Max Length: 40
'Discipline'

Column Name: discipline_value
Column Type: varchar
Max Length: 40
The description associated with discipline_code. See discipline_code for more information.

Column Name: document_routing_status
Column Type: varchar
Max Length: 50
Status of the document

Column Name: draft_final_code
Column Type: varchar
Max Length: 5
'Draft/Final'

Column Name: draft_final_value
Column Type: varchar
Max Length: 40
The description associated with draft_final_code. See draft_final_code for more information.

Column Name: ebps_code
Column Type: varchar
Max Length: 255
'Evidence Based Practices'

Column Name: ebps_sh_val
Column Type: varchar
Max Length: 255
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: ebps_value
Column Type: varchar
Max Length: 4096
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: external_system_id
Column Type: varchar
Max Length: 255
'External System Identifier'

Column Name: finalized_signature
Column Type: varchar
Max Length: 255
'Finalized Signature'

Column Name: has_nonmed_diag_flg_code
Column Type: varchar

Max Length: 50

The non-medical diagnosis flag.

Column Name: has_nonmed_diag_flg_value

Column Type: varchar

Max Length: 50

The description associated with has_nonmed_diag_flg_code. See has_nonmed_diag_flg_code for more information.

Column Name: jointodiagnosisobject1

Column Type: varchar

Max Length: 40

'Diagnosis 1'

Column Name: jointodiagnosisobject2

Column Type: varchar

Max Length: 40

'Diagnosis 2'

Column Name: jointodiagnosisobject3

Column Type: varchar

Max Length: 40

'Diagnosis 3'

Column Name: jointodiagnosisobject4

Column Type: varchar

Max Length: 40

'Diagnosis 4'

Column Name: location_code

Column Type: varchar

Max Length: 50

The location of the service.

Column Name: location_value

Column Type: varchar

Max Length: 40

The description associated with location_code. See location_code for more information.

Column Name: medical_diag1_DSM_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag1_DSM_code. See medical_diag1_DSM_code for more information.

Column Name: medical_diag_1_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1 ICD 10'

Column Name: medical_diag_1_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_icd10_code. See medical_diag_1_icd10_code for more information.

Column Name: medical_diag_1_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1 ICD 9'

Column Name: medical_diag_1_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_icd9_code. See medical_diag_1_icd9_code for more information.

Column Name: medical_diag_1_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_imo_code. See medical_diag_1_imo_code for more information.

Column Name: medical_diag2_DSM_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag2_DSM_code. See medical_diag2_DSM_code for more information.

Column Name: medical_diag_2_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 10'

Column Name: medical_diag_2_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd10_code. See medical_diag_2_icd10_code for more information.

Column Name: medical_diag_2_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 9'

Column Name: medical_diag_2_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd9_code. See medical_diag_2_icd9_code for more information.

Column Name: medical_diag_2_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_imo_code. See medical_diag_2_imo_code for more information.

Column Name: medical_diag_3_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 3 ICD 10'

Column Name: medical_diag_3_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_icd10_code. See medical_diag_3_icd10_code for more information.

Column Name: medical_diag_3_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 3 ICD 9'

Column Name: medical_diag_3_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_icd9_code. See medical_diag_3_icd9_code for more information.

Column Name: medical_diag_3_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_imo_code. See medical_diag_3_imo_code for more information.

Column Name: medical_diag_4_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 10'

Column Name: medical_diag_4_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd10_code. See medical_diag_4_icd10_code for more information.

Column Name: medical_diag_4_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 9'

Column Name: medical_diag_4_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd9_code. See medical_diag_4_icd9_code for more information.

Column Name: medical_diag_4_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_imo_code. See medical_diag_4_imo_code for more information.

Column Name: medical_diagnosis_1_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1'

Column Name: medical_diagnosis_1_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_1_code. See medical_diagnosis_1_code for more information.

Column Name: medical_diagnosis_2_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2'

Column Name: medical_diagnosis_2_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_2_code. See medical_diagnosis_2_code for more information.

Column Name: medical_diagnosis_3_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 3'

Column Name: medical_diagnosis_3_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_3_code. See medical_diagnosis_3_code for more information.

Column Name: medical_diagnosis_4_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 4'

Column Name: medical_diagnosis_4_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_4_code. See medical_diagnosis_4_code for more information.

Column Name: notes_entry_index_nu

Column Type: varchar

Max Length: 50

The notes entry index.

Column Name: number_clients_in_group

Column Type: integer

'Number Of Clients In Group'

Column Name: orig_note_uniq_id_num

Column Type: varchar

Max Length: 20

'Original Note Unique ID Number'

Column Name: practitioner_id

Column Type: varchar

Max Length: 15

The practitioner associated with the note.

Column Name: practitioner_name

Column Type: varchar

Max Length: 40

The name associated with practitioner_id.

Column Name: psycho_add_on_duration

Column Type: integer

The psychotherapy add-on duration.

Column Name: reason_for_visit_code

Column Type: varchar

Max Length: 50

'Reason for Visit'

Column Name: reason_for_visit_value

Column Type: varchar

Max Length: 250

The description associated with reason_for_visit_code. See reason_for_visit_code for more information.

Column Name: recommended_decision

Column Type: varchar

Max Length: 32700

'Recommended Decision'

Column Name: release_type_code

Column Type: varchar

Max Length: 50

The value entered in the field 'Are you releasing to myHealthPointe or External providers?'

Column Name: release_type_value

Column Type: varchar

Max Length: 40

The description associated with release_type_code.

Column Name: select_tp_version_code

Column Type: varchar

Max Length: 5

'Select T.P. Version'

Column Name: select_tp_version_value

Column Type: varchar

Max Length: 40

The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: service_charge_code

Column Type: varchar

Max Length: 40

The service charge code.

Column Name: service_duration

Column Type: varchar

Max Length: 5

The duration of the service.

Column Name: service_end_time

Column Type: varchar

Max Length: 10

The end time of the service.

Column Name: service_program_code

Column Type: varchar

Max Length: 15

The program of the service.

Column Name: service_start_time

Column Type: varchar

Max Length: 10

The start time of the service.

Column Name: session_start_end_times

Column Type: varchar

Max Length: 32766

'Start/End Time(s)'

Column Name: ss_note_20_char_text_1
Column Type: varchar
Max Length: 20
'SS Note 20 Character 1'

Column Name: ss_note_20_char_text_10
Column Type: varchar
Max Length: 20
'SS Note 20 Character 10'

Column Name: ss_note_20_char_text_2
Column Type: varchar
Max Length: 20
'SS Note 20 Character 2'

Column Name: ss_note_20_char_text_3
Column Type: varchar
Max Length: 20
'SS Note 20 Character 3'

Column Name: ss_note_20_char_text_4
Column Type: varchar
Max Length: 20
'SS Note 20 Character 4'

Column Name: ss_note_20_char_text_5
Column Type: varchar
Max Length: 20
'SS Note 20 Character 5'

Column Name: ss_note_20_char_text_6
Column Type: varchar
Max Length: 20
'SS Note 20 Character 6'

Column Name: ss_note_20_char_text_7
Column Type: varchar
Max Length: 20
'SS Note 20 Character 7'

Column Name: ss_note_20_char_text_8
Column Type: varchar
Max Length: 20
'SS Note 20 Character 8'

Column Name: ss_note_20_char_text_9
Column Type: varchar
Max Length: 20
'SS Note 20 Character 9'

Column Name: ss_note_40_char_text_1
Column Type: varchar
Max Length: 40
'SS Note 40 Character 1'

Column Name: ss_note_40_char_text_10
Column Type: varchar
Max Length: 40
'SS Note 40 Character 10'

Column Name: ss_note_40_char_text_2
Column Type: varchar
Max Length: 40
'SS Note 40 Character 2'

Column Name: ss_note_40_char_text_3
Column Type: varchar
Max Length: 40
'SS Note 40 Character 3'

Column Name: ss_note_40_char_text_4
Column Type: varchar
Max Length: 40
'SS Note 40 Character 4'

Column Name: ss_note_40_char_text_5
Column Type: varchar
Max Length: 40
'SS Note 40 Character 5'

Column Name: ss_note_40_char_text_6
Column Type: varchar
Max Length: 40
'SS Note 40 Character 6'

Column Name: ss_note_40_char_text_7
Column Type: varchar
Max Length: 40
'SS Note 40 Character 7'

Column Name: ss_note_40_char_text_8
Column Type: varchar
Max Length: 40
'SS Note 40 Character 8'

Column Name: ss_note_40_char_text_9
Column Type: varchar
Max Length: 40
'SS Note 40 Character 9'

Column Name: ss_note_80_char_text_1
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 1'

Column Name: ss_note_80_char_text_10
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 10'

Column Name: ss_note_80_char_text_2
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 2'

Column Name: ss_note_80_char_text_3
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 3'

Column Name: ss_note_80_char_text_4
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 4'

Column Name: ss_note_80_char_text_5
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 5'

Column Name: ss_note_80_char_text_6
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 6'

Column Name: ss_note_80_char_text_7
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 7'

Column Name: ss_note_80_char_text_8
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 8'

Column Name: ss_note_80_char_text_9
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 9'

Column Name: ss_note_date_1
Column Type: date
'SS Note Date 1'

Column Name: ss_note_date_10
Column Type: date
'SS Note Date 10'

Column Name: ss_note_date_2
Column Type: date
'SS Note Date 2'

Column Name: ss_note_date_3
Column Type: date
'SS Note Date 3'

Column Name: ss_note_date_4
Column Type: date
'SS Note Date 4'

Column Name: ss_note_date_5
Column Type: date
'SS Note Date 5'

Column Name: ss_note_date_6
Column Type: date
'SS Note Date 6'

Column Name: ss_note_date_7
Column Type: date
'SS Note Date 7'

Column Name: ss_note_date_8
Column Type: date
'SS Note Date 8'

Column Name: ss_note_date_9
Column Type: date
'SS Note Date 9'

Column Name: ss_note_dsm_diag_10_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 10'

Column Name: ss_note_dsm_diag_10_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_10_code. See ss_note_dsm_diag_10_code for more information.

Column Name: ss_note_dsm_diag_1_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 1'

Column Name: ss_note_dsm_diag_1_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_1_code. See ss_note_dsm_diag_1_code for more information.

Column Name: ss_note_dsm_diag_2_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 2'

Column Name: ss_note_dsm_diag_2_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_2_code. See ss_note_dsm_diag_2_code for more information.

Column Name: ss_note_dsm_diag_3_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 3'

Column Name: ss_note_dsm_diag_3_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_3_code. See ss_note_dsm_diag_3_code for more information.

Column Name: ss_note_dsm_diag_4_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 4'

Column Name: ss_note_dsm_diag_4_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_4_code. See ss_note_dsm_diag_4_code for more information.

Column Name: ss_note_dsm_diag_5_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 5'

Column Name: ss_note_dsm_diag_5_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_5_code. See ss_note_dsm_diag_5_code for more information.

Column Name: ss_note_dsm_diag_6_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 6'

Column Name: ss_note_dsm_diag_6_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_6_code. See ss_note_dsm_diag_6_code for more information.

Column Name: ss_note_dsm_diag_7_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 7'

Column Name: ss_note_dsm_diag_7_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_7_code. See ss_note_dsm_diag_7_code for more information.

Column Name: ss_note_dsm_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 8'

Column Name: ss_note_dsm_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_8_code. See ss_note_dsm_diag_8_code for more information.

Column Name: ss_note_dsm_diag_9_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 9'

Column Name: ss_note_dsm_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_9_code. See ss_note_dsm_diag_9_code for more information.

Column Name: ss_note_icd9_diag_10_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 10'

Column Name: ss_note_icd9_diag_10_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_10_code. See ss_note_icd9_diag_10_code for more information.

Column Name: ss_note_icd9_diag_1_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 1'

Column Name: ss_note_icd9_diag_1_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_1_code. See ss_note_icd9_diag_1_code for more information.

Column Name: ss_note_icd9_diag_2_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 2'

Column Name: ss_note_icd9_diag_2_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_2_code. See ss_note_icd9_diag_2_code for more information.

Column Name: ss_note_icd9_diag_3_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 3'

Column Name: ss_note_icd9_diag_3_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_3_code. See ss_note_icd9_diag_3_code for more information.

Column Name: ss_note_icd9_diag_4_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 4'

Column Name: ss_note_icd9_diag_4_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_4_code. See ss_note_icd9_diag_4_code for more information.

Column Name: ss_note_icd9_diag_5_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 5'

Column Name: ss_note_icd9_diag_5_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_5_code. See ss_note_icd9_diag_5_code for more information.

Column Name: ss_note_icd9_diag_6_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 6'

Column Name: ss_note_icd9_diag_6_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_6_code. See ss_note_icd9_diag_6_code for more information.

Column Name: ss_note_icd9_diag_7_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 7'

Column Name: ss_note_icd9_diag_7_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_7_code. See ss_note_icd9_diag_7_code for more information.

Column Name: ss_note_icd9_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 8'

Column Name: ss_note_icd9_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_8_code. See ss_note_icd9_diag_8_code for more information.

Column Name: ss_note_icd9_diag_9_code

Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 9'

Column Name: ss_note_icd9_diag_9_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_9_code. See ss_note_icd9_diag_9_code for more information.

Column Name: ss_note_multi_dict_10_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 10'

Column Name: ss_note_multi_dict_10_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_10_code. See ss_note_multi_dict_10_code for more information.

Column Name: ss_note_multi_dict_1_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 1'

Column Name: ss_note_multi_dict_1_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_1_code. See ss_note_multi_dict_1_code for more information.

Column Name: ss_note_multi_dict_2_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 2'

Column Name: ss_note_multi_dict_2_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_2_code. See ss_note_multi_dict_2_code for more information.

Column Name: ss_note_multi_dict_3_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 3'

Column Name: ss_note_multi_dict_3_value
Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_3_code. See ss_note_multi_dict_3_code for more information.

Column Name: ss_note_multi_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 4'

Column Name: ss_note_multi_dict_4_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_4_code. See ss_note_multi_dict_4_code for more information.

Column Name: ss_note_multi_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 5'

Column Name: ss_note_multi_dict_5_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_5_code. See ss_note_multi_dict_5_code for more information.

Column Name: ss_note_multi_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 6'

Column Name: ss_note_multi_dict_6_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_6_code. See ss_note_multi_dict_6_code for more information.

Column Name: ss_note_multi_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 7'

Column Name: ss_note_multi_dict_7_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_7_code. See ss_note_multi_dict_7_code for more information.

Column Name: ss_note_multi_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 8'

Column Name: ss_note_multi_dict_8_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_8_code. See ss_note_multi_dict_8_code for more information.

Column Name: ss_note_multi_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 9'

Column Name: ss_note_multi_dict_9_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_9_code. See ss_note_multi_dict_9_code for more information.

Column Name: ss_note_scroll_text_1

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 1'

Column Name: ss_note_scroll_text_10

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 10'

Column Name: ss_note_scroll_text_2

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 2'

Column Name: ss_note_scroll_text_3

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 3'

Column Name: ss_note_scroll_text_4

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 4'

Column Name: ss_note_scroll_text_5

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 5'

Column Name: ss_note_scroll_text_6
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 6'

Column Name: ss_note_scroll_text_7
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 7'

Column Name: ss_note_scroll_text_8
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 8'

Column Name: ss_note_scroll_text_9
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 9'

Column Name: ss_note_sing_dict_10_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 10'

Column Name: ss_note_sing_dict_10_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_10_code. See ss_note_sing_dict_10_code for more information.

Column Name: ss_note_sing_dict_1_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 1'

Column Name: ss_note_sing_dict_1_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_1_code. See ss_note_sing_dict_1_code for more information.

Column Name: ss_note_sing_dict_2_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 2'

Column Name: ss_note_sing_dict_2_value
Column Type: varchar
Max Length: 80

The description associated with ss_note_sing_dict_2_code. See ss_note_sing_dict_2_code for more information.

Column Name: ss_note_sing_dict_3_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 3'

Column Name: ss_note_sing_dict_3_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_3_code. See ss_note_sing_dict_3_code for more information.

Column Name: ss_note_sing_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 4'

Column Name: ss_note_sing_dict_4_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_4_code. See ss_note_sing_dict_4_code for more information.

Column Name: ss_note_sing_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 5'

Column Name: ss_note_sing_dict_5_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_5_code. See ss_note_sing_dict_5_code for more information.

Column Name: ss_note_sing_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 6'

Column Name: ss_note_sing_dict_6_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_6_code. See ss_note_sing_dict_6_code for more information.

Column Name: ss_note_sing_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 7'

Column Name: ss_note_sing_dict_7_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_7_code. See ss_note_sing_dict_7_code for more information.

Column Name: ss_note_sing_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 8'

Column Name: ss_note_sing_dict_8_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_8_code. See ss_note_sing_dict_8_code for more information.

Column Name: ss_note_sing_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 9'

Column Name: ss_note_sing_dict_9_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_9_code. See ss_note_sing_dict_9_code for more information.

Column Name: ss_note_staff_1

Column Type: varchar

Max Length: 20

'SS Note Staff Member 1'

Column Name: ss_note_staff_10

Column Type: varchar

Max Length: 20

'SS Note Staff Member 10'

Column Name: ss_note_staff_2

Column Type: varchar

Max Length: 20

'SS Note Staff Member 2'

Column Name: ss_note_staff_3

Column Type: varchar

Max Length: 20

'SS Note Staff Member 3'

Column Name: ss_note_staff_4
Column Type: varchar
Max Length: 20
'SS Note Staff Member 4'

Column Name: ss_note_staff_5
Column Type: varchar
Max Length: 20
'SS Note Staff Member 5'

Column Name: ss_note_staff_6
Column Type: varchar
Max Length: 20
'SS Note Staff Member 6'

Column Name: ss_note_staff_7
Column Type: varchar
Max Length: 20
'SS Note Staff Member 7'

Column Name: ss_note_staff_8
Column Type: varchar
Max Length: 20
'SS Note Staff Member 8'

Column Name: ss_note_staff_9
Column Type: varchar
Max Length: 20
'SS Note Staff Member 9'

Column Name: ss_note_time_1
Column Type: varchar
Max Length: 10
'SS Note Time 1'

Column Name: ss_note_time_10
Column Type: varchar
Max Length: 10
'SS Note Time 10'

Column Name: ss_note_time_2
Column Type: varchar
Max Length: 10
'SS Note Time 2'

Column Name: ss_note_time_3
Column Type: varchar
Max Length: 10
'SS Note Time 3'

Column Name: ss_note_time_4
Column Type: varchar
Max Length: 10
'SS Note Time 4'

Column Name: ss_note_time_5
Column Type: varchar
Max Length: 10
'SS Note Time 5'

Column Name: ss_note_time_6
Column Type: varchar
Max Length: 10
'SS Note Time 6'

Column Name: ss_note_time_7
Column Type: varchar
Max Length: 10
'SS Note Time 7'

Column Name: ss_note_time_8
Column Type: varchar
Max Length: 10
'SS Note Time 8'

Column Name: ss_note_time_9
Column Type: varchar
Max Length: 10
'SS Note Time 9'

Column Name: transcription_note
Column Type: bit
Is this is Transcription note

Column Name: transition_of_care_code
Column Type: varchar
Max Length: 1
'Is This A Transition Of Care?'

Column Name: transition_of_care_value
Column Type: varchar
Max Length: 80
'The description associated with transition_of_care_code. See transition_of_care_code for more information.'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp

Table Description: This table returns the site specific information stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: confidential_note
Column Type: varchar
Max Length: 50
Whether the note is confidential.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 50
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: notes_field
Column Type: varchar
Max Length: 32700
The contents of the notes field.

Column Name: option_desc
Column Type: varchar

Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 50
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_11
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 11'

Column Name: ss_note_20_char_text_12
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 12'

Column Name: ss_note_20_char_text_13
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 13'

Column Name: ss_note_20_char_text_14
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 14'

Column Name: ss_note_20_char_text_15
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 15'

Column Name: ss_note_20_char_text_16
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 16'

Column Name: ss_note_20_char_text_17
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 17'

Column Name: ss_note_20_char_text_18
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 18'

'SS Note Date 22'

Column Name: ss_note_date_23

Column Type: date

'SS Note Date 23'

Column Name: ss_note_date_24

Column Type: date

'SS Note Date 24'

Column Name: ss_note_date_25

Column Type: date

'SS Note Date 25'

Column Name: ss_note_date_26

Column Type: date

'SS Note Date 26'

Column Name: ss_note_date_27

Column Type: date

'SS Note Date 27'

Column Name: ss_note_date_28

Column Type: date

'SS Note Date 28'

Column Name: ss_note_date_29

Column Type: date

'SS Note Date 29'

Column Name: ss_note_date_30

Column Type: date

'SS Note Date 30'

Column Name: ss_note_dsm_diag_11_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 11'

Column Name: ss_note_dsm_diag_11_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_11_code. See ss_note_dsm_diag_11_code for more information.

Column Name: ss_note_dsm_diag_12_code

Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 12'

Column Name: ss_note_dsm_diag_12_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_12_code. See ss_note_dsm_diag_12_code for more information.

Column Name: ss_note_dsm_diag_13_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 13'

Column Name: ss_note_dsm_diag_13_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_13_code. See ss_note_dsm_diag_13_code for more information.

Column Name: ss_note_dsm_diag_14_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 14'

Column Name: ss_note_dsm_diag_14_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_14_code. See ss_note_dsm_diag_14_code for more information.

Column Name: ss_note_dsm_diag_15_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 15'

Column Name: ss_note_dsm_diag_15_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_15_code. See ss_note_dsm_diag_15_code for more information.

Column Name: ss_note_dsm_diag_16_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 16'

Column Name: ss_note_dsm_diag_16_value
Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_16_code. See ss_note_dsm_diag_16_code for more information.

Column Name: ss_note_dsm_diag_17_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 17'

Column Name: ss_note_dsm_diag_17_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_17_code. See ss_note_dsm_diag_17_code for more information.

Column Name: ss_note_dsm_diag_18_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 18'

Column Name: ss_note_dsm_diag_18_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_18_code. See ss_note_dsm_diag_18_code for more information.

Column Name: ss_note_dsm_diag_19_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 19'

Column Name: ss_note_dsm_diag_19_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_19_code. See ss_note_dsm_diag_19_code for more information.

Column Name: ss_note_dsm_diag_20_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 20'

Column Name: ss_note_dsm_diag_20_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_20_code. See ss_note_dsm_diag_20_code for more information.

Column Name: ss_note_dsm_diag_21_code

Column Type: varchar

Max Length: 20
'SS Note DSM Diagnosis 21'

Column Name: ss_note_dsm_diag_21_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_21_code. See ss_note_dsm_diag_21_code for more information.

Column Name: ss_note_dsm_diag_22_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 22'

Column Name: ss_note_dsm_diag_22_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_22_code. See ss_note_dsm_diag_22_code for more information.

Column Name: ss_note_dsm_diag_23_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 23'

Column Name: ss_note_dsm_diag_23_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_23_code. See ss_note_dsm_diag_23_code for more information.

Column Name: ss_note_dsm_diag_24_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 24'

Column Name: ss_note_dsm_diag_24_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_24_code. See ss_note_dsm_diag_24_code for more information.

Column Name: ss_note_dsm_diag_25_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 25'

Column Name: ss_note_dsm_diag_25_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_dsm_diag_25_code`. See `ss_note_dsm_diag_25_code` for more information.

Column Name: `ss_note_dsm_diag_26_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 26'

Column Name: `ss_note_dsm_diag_26_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_26_code`. See `ss_note_dsm_diag_26_code` for more information.

Column Name: `ss_note_dsm_diag_27_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 27'

Column Name: `ss_note_dsm_diag_27_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_27_code`. See `ss_note_dsm_diag_27_code` for more information.

Column Name: `ss_note_dsm_diag_28_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 28'

Column Name: `ss_note_dsm_diag_28_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_28_code`. See `ss_note_dsm_diag_28_code` for more information.

Column Name: `ss_note_dsm_diag_29_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 29'

Column Name: `ss_note_dsm_diag_29_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_29_code`. See `ss_note_dsm_diag_29_code` for more information.

Column Name: `ss_note_dsm_diag_30_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 30'

Column Name: ss_note_dsm_diag_30_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_30_code. See ss_note_dsm_diag_30_code for more information.

Column Name: ss_note_icd9_diag_11_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 11'

Column Name: ss_note_icd9_diag_11_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_11_code. See ss_note_icd9_diag_11_code for more information.

Column Name: ss_note_icd9_diag_12_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 12'

Column Name: ss_note_icd9_diag_12_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_12_code. See ss_note_icd9_diag_12_code for more information.

Column Name: ss_note_icd9_diag_13_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 13'

Column Name: ss_note_icd9_diag_13_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_13_code. See ss_note_icd9_diag_13_code for more information.

Column Name: ss_note_icd9_diag_14_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 14'

Column Name: ss_note_icd9_diag_14_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_14_code`. See `ss_note_icd9_diag_14_code` for more information.

Column Name: `ss_note_icd9_diag_15_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 15'

Column Name: `ss_note_icd9_diag_15_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_15_code`. See `ss_note_icd9_diag_15_code` for more information.

Column Name: `ss_note_icd9_diag_16_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 16'

Column Name: `ss_note_icd9_diag_16_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_16_code`. See `ss_note_icd9_diag_16_code` for more information.

Column Name: `ss_note_icd9_diag_17_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 17'

Column Name: `ss_note_icd9_diag_17_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_17_code`. See `ss_note_icd9_diag_17_code` for more information.

Column Name: `ss_note_icd9_diag_18_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 18'

Column Name: `ss_note_icd9_diag_18_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_18_code`. See `ss_note_icd9_diag_18_code` for more information.

Column Name: `ss_note_icd9_diag_19_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 19'

Column Name: ss_note_icd9_diag_19_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_19_code. See ss_note_icd9_diag_19_code for more information.

Column Name: ss_note_icd9_diag_20_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 20'

Column Name: ss_note_icd9_diag_20_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_20_code. See ss_note_icd9_diag_20_code for more information.

Column Name: ss_note_icd9_diag_21_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 21'

Column Name: ss_note_icd9_diag_21_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_21_code. See ss_note_icd9_diag_21_code for more information.

Column Name: ss_note_icd9_diag_22_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 22'

Column Name: ss_note_icd9_diag_22_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_22_code. See ss_note_icd9_diag_22_code for more information.

Column Name: ss_note_icd9_diag_23_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 23'

Column Name: ss_note_icd9_diag_23_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_23_code`. See `ss_note_icd9_diag_23_code` for more information.

Column Name: `ss_note_icd9_diag_24_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 24'

Column Name: `ss_note_icd9_diag_24_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_24_code`. See `ss_note_icd9_diag_24_code` for more information.

Column Name: `ss_note_icd9_diag_25_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 25'

Column Name: `ss_note_icd9_diag_25_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_25_code`. See `ss_note_icd9_diag_25_code` for more information.

Column Name: `ss_note_icd9_diag_26_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 26'

Column Name: `ss_note_icd9_diag_26_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_26_code`. See `ss_note_icd9_diag_26_code` for more information.

Column Name: `ss_note_icd9_diag_27_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 27'

Column Name: `ss_note_icd9_diag_27_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_27_code`. See `ss_note_icd9_diag_27_code` for more information.

Column Name: `ss_note_icd9_diag_28_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 28'

Column Name: ss_note_icd9_diag_28_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_28_code. See ss_note_icd9_diag_28_code for more information.

Column Name: ss_note_icd9_diag_29_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 29'

Column Name: ss_note_icd9_diag_29_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_29_code. See ss_note_icd9_diag_29_code for more information.

Column Name: ss_note_icd9_diag_30_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 30'

Column Name: ss_note_icd9_diag_30_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_30_code. See ss_note_icd9_diag_30_code for more information.

Column Name: ss_note_multi_dict_11_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 11'

Column Name: ss_note_multi_dict_11_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_11_code. See ss_note_multi_dict_11_code for more information.

Column Name: ss_note_multi_dict_12_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 12'

Column Name: ss_note_multi_dict_12_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_12_code. See ss_note_multi_dict_12_code for more information.

Column Name: ss_note_multi_dict_13_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 13'

Column Name: ss_note_multi_dict_13_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_13_code. See ss_note_multi_dict_13_code for more information.

Column Name: ss_note_multi_dict_14_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 14'

Column Name: ss_note_multi_dict_14_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_14_code. See ss_note_multi_dict_14_code for more information.

Column Name: ss_note_multi_dict_15_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 15'

Column Name: ss_note_multi_dict_15_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_15_code. See ss_note_multi_dict_15_code for more information.

Column Name: ss_note_multi_dict_16_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 16'

Column Name: ss_note_multi_dict_16_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_16_code. See ss_note_multi_dict_16_code for more information.

Column Name: ss_note_multi_dict_17_code
Column Type: varchar
Max Length: 20

'SS Note Copy Multiple Response Dictionary 17'

Column Name: ss_note_multi_dict_17_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_17_code. See ss_note_multi_dict_17_code for more information.

Column Name: ss_note_multi_dict_18_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 18'

Column Name: ss_note_multi_dict_18_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_18_code. See ss_note_multi_dict_18_code for more information.

Column Name: ss_note_multi_dict_19_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 19'

Column Name: ss_note_multi_dict_19_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_19_code. See ss_note_multi_dict_19_code for more information.

Column Name: ss_note_multi_dict_20_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 20'

Column Name: ss_note_multi_dict_20_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_20_code. See ss_note_multi_dict_20_code for more information.

Column Name: ss_note_multi_dict_21_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 21'

Column Name: ss_note_multi_dict_21_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_21_code. See ss_note_multi_dict_21_code for more information.

Column Name: ss_note_multi_dict_22_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 22'

Column Name: ss_note_multi_dict_22_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_22_code. See ss_note_multi_dict_22_code for more information.

Column Name: ss_note_multi_dict_23_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 23'

Column Name: ss_note_multi_dict_23_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_23_code. See ss_note_multi_dict_23_code for more information.

Column Name: ss_note_multi_dict_24_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 24'

Column Name: ss_note_multi_dict_24_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_24_code. See ss_note_multi_dict_24_code for more information.

Column Name: ss_note_multi_dict_25_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 25'

Column Name: ss_note_multi_dict_25_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_25_code. See ss_note_multi_dict_25_code for more information.

Column Name: ss_note_multi_dict_26_code
Column Type: varchar
Max Length: 20

'SS Note Copy Multiple Response Dictionary 26'

Column Name: ss_note_multi_dict_26_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_26_code. See ss_note_multi_dict_26_code for more information.

Column Name: ss_note_multi_dict_27_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 27'

Column Name: ss_note_multi_dict_27_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_27_code. See ss_note_multi_dict_27_code for more information.

Column Name: ss_note_multi_dict_28_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 28'

Column Name: ss_note_multi_dict_28_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_28_code. See ss_note_multi_dict_28_code for more information.

Column Name: ss_note_multi_dict_29_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 29'

Column Name: ss_note_multi_dict_29_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_29_code. See ss_note_multi_dict_29_code for more information.

Column Name: ss_note_multi_dict_30_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 30'

Column Name: ss_note_multi_dict_30_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_30_code. See ss_note_multi_dict_30_code for more information.

'SS Note Time 28'

Column Name: ss_note_time_29
Column Type: varchar
Max Length: 50
'SS Note Time 29'

Column Name: ss_note_time_30
Column Type: varchar
Max Length: 50
'SS Note Time 30'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp_1

Table Description: This table returns the site specific information stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
'Progress Notes Pointer'

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: confidential_note
Column Type: varchar
Max Length: 50
'Confidential Notes'

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50
The time the row was last updated.

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 50
The user ID who last updated the row.

Column Name: data_entry_user_name

Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: notes_field
Column Type: varchar
Max Length: 32766
'Notes Field'

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 50
The unique ID of the form that last updated the row.

Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 42'

Column Name: ss_note_dsm_diag_42_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_42_code. See ss_note_dsm_diag_42_code for more information.

Column Name: ss_note_dsm_diag_43_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 43'

Column Name: ss_note_dsm_diag_43_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_43_code. See ss_note_dsm_diag_43_code for more information.

Column Name: ss_note_dsm_diag_44_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 44'

Column Name: ss_note_dsm_diag_44_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_dsm_diag_44_code`. See `ss_note_dsm_diag_44_code` for more information.

Column Name: `ss_note_dsm_diag_45_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 45'

Column Name: `ss_note_dsm_diag_45_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_45_code`. See `ss_note_dsm_diag_45_code` for more information.

Column Name: `ss_note_dsm_diag_46_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 46'

Column Name: `ss_note_dsm_diag_46_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_46_code`. See `ss_note_dsm_diag_46_code` for more information.

Column Name: `ss_note_dsm_diag_47_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 47'

Column Name: `ss_note_dsm_diag_47_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_47_code`. See `ss_note_dsm_diag_47_code` for more information.

Column Name: `ss_note_dsm_diag_48_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 48'

Column Name: `ss_note_dsm_diag_48_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_48_code`. See `ss_note_dsm_diag_48_code` for more information.

Column Name: `ss_note_dsm_diag_49_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 49'

Column Name: ss_note_dsm_diag_49_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_49_code. See ss_note_dsm_diag_49_code for more information.

Column Name: ss_note_dsm_diag_50_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 50'

Column Name: ss_note_dsm_diag_50_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_50_code. See ss_note_dsm_diag_50_code for more information.

Column Name: ss_note_icd9_diag_31_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 31'

Column Name: ss_note_icd9_diag_31_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_31_code. See ss_note_icd9_diag_31_code for more information.

Column Name: ss_note_icd9_diag_32_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 32'

Column Name: ss_note_icd9_diag_32_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_32_code. See ss_note_icd9_diag_32_code for more information.

Column Name: ss_note_icd9_diag_33_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 33'

Column Name: ss_note_icd9_diag_33_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_33_code`. See `ss_note_icd9_diag_33_code` for more information.

Column Name: `ss_note_icd9_diag_34_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 34'

Column Name: `ss_note_icd9_diag_34_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_34_code`. See `ss_note_icd9_diag_34_code` for more information.

Column Name: `ss_note_icd9_diag_35_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 35'

Column Name: `ss_note_icd9_diag_35_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_35_code`. See `ss_note_icd9_diag_35_code` for more information.

Column Name: `ss_note_icd9_diag_36_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 36'

Column Name: `ss_note_icd9_diag_36_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_36_code`. See `ss_note_icd9_diag_36_code` for more information.

Column Name: `ss_note_icd9_diag_37_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 37'

Column Name: `ss_note_icd9_diag_37_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_37_code`. See `ss_note_icd9_diag_37_code` for more information.

Column Name: `ss_note_icd9_diag_38_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 38'

Column Name: ss_note_icd9_diag_38_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_38_code. See ss_note_icd9_diag_38_code for more information.

Column Name: ss_note_icd9_diag_39_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 39'

Column Name: ss_note_icd9_diag_39_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_39_code. See ss_note_icd9_diag_39_code for more information.

Column Name: ss_note_icd9_diag_40_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 40'

Column Name: ss_note_icd9_diag_40_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_40_code. See ss_note_icd9_diag_40_code for more information.

Column Name: ss_note_icd9_diag_41_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 41'

Column Name: ss_note_icd9_diag_41_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_41_code. See ss_note_icd9_diag_41_code for more information.

Column Name: ss_note_icd9_diag_42_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 42'

Column Name: ss_note_icd9_diag_42_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_42_code`. See `ss_note_icd9_diag_42_code` for more information.

Column Name: `ss_note_icd9_diag_43_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 43'

Column Name: `ss_note_icd9_diag_43_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_43_code`. See `ss_note_icd9_diag_43_code` for more information.

Column Name: `ss_note_icd9_diag_44_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 44'

Column Name: `ss_note_icd9_diag_44_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_44_code`. See `ss_note_icd9_diag_44_code` for more information.

Column Name: `ss_note_icd9_diag_45_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 45'

Column Name: `ss_note_icd9_diag_45_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_45_code`. See `ss_note_icd9_diag_45_code` for more information.

Column Name: `ss_note_icd9_diag_46_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 46'

Column Name: `ss_note_icd9_diag_46_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_46_code`. See `ss_note_icd9_diag_46_code` for more information.

Column Name: `ss_note_icd9_diag_47_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 47'

Column Name: ss_note_icd9_diag_47_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_47_code. See ss_note_icd9_diag_47_code for more information.

Column Name: ss_note_icd9_diag_48_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 48'

Column Name: ss_note_icd9_diag_48_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_48_code. See ss_note_icd9_diag_48_code for more information.

Column Name: ss_note_icd9_diag_49_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 49'

Column Name: ss_note_icd9_diag_49_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_49_code. See ss_note_icd9_diag_49_code for more information.

Column Name: ss_note_icd9_diag_50_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 50'

Column Name: ss_note_icd9_diag_50_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_50_code. See ss_note_icd9_diag_50_code for more information.

Column Name: ss_note_integer_1

Column Type: integer

'SS Note Integer 1'

Column Name: ss_note_integer_2

Column Type: integer

'SS Note Integer 2'

Column Name: ss_note_integer_3

Column Type: integer
'SS Note Integer 3'

Column Name: ss_note_integer_4
Column Type: integer
'SS Note Integer 4'

Column Name: ss_note_integer_5
Column Type: integer
'SS Note Integer 5'

Column Name: ss_note_integer_6
Column Type: integer
'SS Note Integer 6'

Column Name: ss_note_multi_dict_31_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 31'

Column Name: ss_note_multi_dict_31_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_31_code. See ss_note_multi_dict_31_code for more information.

Column Name: ss_note_multi_dict_32_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 32'

Column Name: ss_note_multi_dict_32_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_32_code. See ss_note_multi_dict_32_code for more information.

Column Name: ss_note_multi_dict_33_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 33'

Column Name: ss_note_multi_dict_33_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_33_code. See ss_note_multi_dict_33_code for more information.

Column Name: ss_note_multi_dict_34_code
Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 34'

Column Name: ss_note_multi_dict_34_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_34_code. See ss_note_multi_dict_34_code for more information.

Column Name: ss_note_multi_dict_35_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 35'

Column Name: ss_note_multi_dict_35_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_35_code. See ss_note_multi_dict_35_code for more information.

Column Name: ss_note_multi_dict_36_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 36'

Column Name: ss_note_multi_dict_36_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_36_code. See ss_note_multi_dict_36_code for more information.

Column Name: ss_note_multi_dict_37_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 37'

Column Name: ss_note_multi_dict_37_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_37_code. See ss_note_multi_dict_37_code for more information.

Column Name: ss_note_multi_dict_38_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 38'

Column Name: ss_note_multi_dict_38_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_38_code. See ss_note_multi_dict_38_code for more information.

Column Name: ss_note_multi_dict_39_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 39'

Column Name: ss_note_multi_dict_39_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_39_code. See ss_note_multi_dict_39_code for more information.

Column Name: ss_note_multi_dict_40_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 40'

Column Name: ss_note_multi_dict_40_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_40_code. See ss_note_multi_dict_40_code for more information.

Column Name: ss_note_multi_dict_41_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 41'

Column Name: ss_note_multi_dict_41_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_41_code. See ss_note_multi_dict_41_code for more information.

Column Name: ss_note_multi_dict_42_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 42'

Column Name: ss_note_multi_dict_42_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_42_code. See ss_note_multi_dict_42_code for more information.

Column Name: ss_note_multi_dict_43_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 43'

Column Name: ss_note_multi_dict_43_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_43_code. See ss_note_multi_dict_43_code for more information.

Column Name: ss_note_multi_dict_44_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 44'

Column Name: ss_note_multi_dict_44_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_44_code. See ss_note_multi_dict_44_code for more information.

Column Name: ss_note_multi_dict_45_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 45'

Column Name: ss_note_multi_dict_45_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_45_code. See ss_note_multi_dict_45_code for more information.

Column Name: ss_note_multi_dict_46_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 46'

Column Name: ss_note_multi_dict_46_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_46_code. See ss_note_multi_dict_46_code for more information.

Column Name: ss_note_multi_dict_47_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 47'

Column Name: ss_note_multi_dict_47_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_47_code. See ss_note_multi_dict_47_code for more information.

Column Name: ss_note_multi_dict_48_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 48'

Column Name: ss_note_multi_dict_48_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_48_code. See ss_note_multi_dict_48_code for more information.

Column Name: ss_note_multi_dict_49_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 49'

Column Name: ss_note_multi_dict_49_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_49_code. See ss_note_multi_dict_49_code for more information.

Column Name: ss_note_multi_dict_50_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 50'

Column Name: ss_note_multi_dict_50_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_50_code. See ss_note_multi_dict_50_code for more information.

Column Name: ss_note_scroll_text_31

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Free Text 31'

Column Name: ss_note_scroll_text_32

Column Type: varchar

Column Name: ss_note_sing_dict_42_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_42_code. See ss_note_sing_dict_42_code for more information.

Column Name: ss_note_sing_dict_43_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 43'

Column Name: ss_note_sing_dict_43_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_43_code. See ss_note_sing_dict_43_code for more information.

Column Name: ss_note_sing_dict_44_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 44'

Column Name: ss_note_sing_dict_44_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_44_code. See ss_note_sing_dict_44_code for more information.

Column Name: ss_note_sing_dict_45_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 45'

Column Name: ss_note_sing_dict_45_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_45_code. See ss_note_sing_dict_45_code for more information.

Column Name: ss_note_sing_dict_46_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 46'

Column Name: ss_note_sing_dict_46_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_46_code. See ss_note_sing_dict_46_code for more information.

Column Name: ss_note_sing_dict_47_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 47'

Column Name: ss_note_sing_dict_47_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_47_code. See ss_note_sing_dict_47_code for more information.

Column Name: ss_note_sing_dict_48_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 48'

Column Name: ss_note_sing_dict_48_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_48_code. See ss_note_sing_dict_48_code for more information.

Column Name: ss_note_sing_dict_49_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 49'

Column Name: ss_note_sing_dict_49_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_49_code. See ss_note_sing_dict_49_code for more information.

Column Name: ss_note_sing_dict_50_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 50'

Column Name: ss_note_sing_dict_50_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_50_code. See ss_note_sing_dict_50_code for more information.

Column Name: ss_note_time_31

Column Type: varchar

Max Length: 50

'SS Note Time 31'

Column Name: ss_note_time_32

Column Type: varchar

Max Length: 50

'SS Note Time 32'

Column Name: ss_note_time_33

Column Type: varchar

Max Length: 50

'SS Note Time 33'

Column Name: ss_note_time_34

Column Name: ss_note_time_46
Column Type: varchar
Max Length: 50
'SS Note Time 46'

Column Name: ss_note_time_47
Column Type: varchar
Max Length: 50
'SS Note Time 47'

Column Name: ss_note_time_48
Column Type: varchar
Max Length: 50
'SS Note Time 48'

Column Name: ss_note_time_49
Column Type: varchar

Max Length: 50
'SS Note Time 49'

Column Name: ss_note_time_50
Column Type: varchar
Max Length: 50
'SS Note Time 50'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp_2

Table Description: This table returns the information stored in the 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Progress Notes (Group and Individual)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER

Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_note_integer_10
Column Type: integer
'SS Note Integer 10'

Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar
Max Length: 50
The form number of the form that last updated the row.

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Max Length: 255

'SS Note Copy Multiple Response Dictionary 26'

Column Name: ss_notec_multi_dict_26_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_26_code. See ss_notec_multi_dict_26_code for more information.

Column Name: ss_notec_multi_dict_27_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 27'

Column Name: ss_notec_multi_dict_27_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_27_code. See ss_notec_multi_dict_27_code for more information.

Column Name: ss_notec_multi_dict_28_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 28'

Column Name: ss_notec_multi_dict_28_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_28_code. See ss_notec_multi_dict_28_code for more information.

Column Name: ss_notec_multi_dict_29_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 29'

Column Name: ss_notec_multi_dict_29_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_29_code. See ss_notec_multi_dict_29_code for more information.

Column Name: ss_notec_multi_dict_2_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 2'

Column Name: ss_notec_multi_dict_2_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_2_code. See ss_notec_multi_dict_2_code for more information.

Column Name: ss_notec_multi_dict_30_code
Column Type: varchar
Max Length: 255

'SS Note Copy Multiple Response Dictionary 30'

Column Name: ss_notec_multi_dict_30_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_30_code. See ss_notec_multi_dict_30_code for more information.

Column Name: ss_notec_multi_dict_31_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 31'

Column Name: ss_notec_multi_dict_31_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_31_code. See ss_notec_multi_dict_31_code for more information.

Column Name: ss_notec_multi_dict_32_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 32'

Column Name: ss_notec_multi_dict_32_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_32_code. See ss_notec_multi_dict_32_code for more information.

Column Name: ss_notec_multi_dict_33_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 33'

Column Name: ss_notec_multi_dict_33_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_33_code. See ss_notec_multi_dict_33_code for more information.

Column Name: ss_notec_multi_dict_34_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 34'

Column Name: ss_notec_multi_dict_34_value

Column Type: varchar

Max Length: 32759

The description associated with `ss_notec_multi_dict_34_code`. See `ss_notec_multi_dict_34_code` for more information.

Column Name: `ss_notec_multi_dict_35_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 35'

Column Name: `ss_notec_multi_dict_35_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_35_code`. See `ss_notec_multi_dict_35_code` for more information.

Column Name: `ss_notec_multi_dict_36_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 36'

Column Name: `ss_notec_multi_dict_36_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_36_code`. See `ss_notec_multi_dict_36_code` for more information.

Column Name: `ss_notec_multi_dict_37_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 37'

Column Name: `ss_notec_multi_dict_37_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_37_code`. See `ss_notec_multi_dict_37_code` for more information.

Column Name: `ss_notec_multi_dict_38_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 38'

Column Name: `ss_notec_multi_dict_38_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_38_code`. See `ss_notec_multi_dict_38_code` for more information.

Column Name: `ss_notec_multi_dict_39_code`
Column Type: `varchar`
Max Length: 255

'SS Note Copy Multiple Response Dictionary 39'

Column Name: ss_notec_multi_dict_39_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_39_code. See ss_notec_multi_dict_39_code for more information.

Column Name: ss_notec_multi_dict_3_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 3'

Column Name: ss_notec_multi_dict_3_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_3_code. See ss_notec_multi_dict_3_code for more information.

Column Name: ss_notec_multi_dict_40_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 40'

Column Name: ss_notec_multi_dict_40_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_40_code. See ss_notec_multi_dict_40_code for more information.

Column Name: ss_notec_multi_dict_41_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 41'

Column Name: ss_notec_multi_dict_41_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_41_code. See ss_notec_multi_dict_41_code for more information.

Column Name: ss_notec_multi_dict_42_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 42'

Column Name: ss_notec_multi_dict_42_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_42_code. See ss_notec_multi_dict_42_code for more information.

Column Name: ss_notec_multi_dict_43_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 43'

Column Name: ss_notec_multi_dict_43_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_43_code. See ss_notec_multi_dict_43_code for more information.

Column Name: ss_notec_multi_dict_44_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 44'

Column Name: ss_notec_multi_dict_44_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_44_code. See ss_notec_multi_dict_44_code for more information.

Column Name: ss_notec_multi_dict_45_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 45'

Column Name: ss_notec_multi_dict_45_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_45_code. See ss_notec_multi_dict_45_code for more information.

Column Name: ss_notec_multi_dict_46_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 46'

Column Name: ss_notec_multi_dict_46_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_46_code. See ss_notec_multi_dict_46_code for more information.

Column Name: ss_notec_multi_dict_47_code
Column Type: varchar
Max Length: 255

'SS Note Copy Multiple Response Dictionary 47'

Column Name: ss_notec_multi_dict_47_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_47_code. See ss_notec_multi_dict_47_code for more information.

Column Name: ss_notec_multi_dict_48_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 48'

Column Name: ss_notec_multi_dict_48_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_48_code. See ss_notec_multi_dict_48_code for more information.

Column Name: ss_notec_multi_dict_49_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 49'

Column Name: ss_notec_multi_dict_49_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_49_code. See ss_notec_multi_dict_49_code for more information.

Column Name: ss_notec_multi_dict_4_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 4'

Column Name: ss_notec_multi_dict_4_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_4_code. See ss_notec_multi_dict_4_code for more information.

Column Name: ss_notec_multi_dict_50_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 50'

Column Name: ss_notec_multi_dict_50_value

Column Type: varchar

Max Length: 32759

The description associated with `ss_notec_multi_dict_50_code`. See `ss_notec_multi_dict_50_code` for more information.

Column Name: `ss_notec_multi_dict_5_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 5'

Column Name: `ss_notec_multi_dict_5_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_5_code`. See `ss_notec_multi_dict_5_code` for more information.

Column Name: `ss_notec_multi_dict_6_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 6'

Column Name: `ss_notec_multi_dict_6_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_6_code`. See `ss_notec_multi_dict_6_code` for more information.

Column Name: `ss_notec_multi_dict_7_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 7'

Column Name: `ss_notec_multi_dict_7_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_7_code`. See `ss_notec_multi_dict_7_code` for more information.

Column Name: `ss_notec_multi_dict_8_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 8'

Column Name: `ss_notec_multi_dict_8_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_8_code`. See `ss_notec_multi_dict_8_code` for more information.

Column Name: `ss_notec_multi_dict_9_code`
Column Type: `varchar`
Max Length: 255

'SS Note Copy Multiple Response Dictionary 9'

Column Name: ss_notec_multi_dict_9_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_9_code. See ss_notec_multi_dict_9_code for more information.

Column Name: ss_notec_sing_dict_10_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 10'

Column Name: ss_notec_sing_dict_10_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_10_code. See ss_notec_sing_dict_10_code for more information.

Column Name: ss_notec_sing_dict_11_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 11'

Column Name: ss_notec_sing_dict_11_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_11_code. See ss_notec_sing_dict_11_code for more information.

Column Name: ss_notec_sing_dict_12_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 12'

Column Name: ss_notec_sing_dict_12_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_12_code. See ss_notec_sing_dict_12_code for more information.

Column Name: ss_notec_sing_dict_13_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 13'

Column Name: ss_notec_sing_dict_13_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_13_code. See ss_notec_sing_dict_13_code for more information.

Column Name: ss_notec_sing_dict_14_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 14'

Column Name: ss_notec_sing_dict_14_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_14_code. See ss_notec_sing_dict_14_code for more information.

Column Name: ss_notec_sing_dict_15_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 15'

Column Name: ss_notec_sing_dict_15_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_15_code. See ss_notec_sing_dict_15_code for more information.

Column Name: ss_notec_sing_dict_16_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 16'

Column Name: ss_notec_sing_dict_16_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_16_code. See ss_notec_sing_dict_16_code for more information.

Column Name: ss_notec_sing_dict_17_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 17'

Column Name: ss_notec_sing_dict_17_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_17_code. See ss_notec_sing_dict_17_code for more information.

Column Name: ss_notec_sing_dict_18_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 18'

Column Name: ss_notec_sing_dict_18_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_18_code. See ss_notec_sing_dict_18_code for more information.

Column Name: ss_notec_sing_dict_19_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 19'

Column Name: ss_notec_sing_dict_19_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_19_code. See ss_notec_sing_dict_19_code for more information.

Column Name: ss_notec_sing_dict_1_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 1'

Column Name: ss_notec_sing_dict_1_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_1_code. See ss_notec_sing_dict_1_code for more information.

Column Name: ss_notec_sing_dict_20_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 20'

Column Name: ss_notec_sing_dict_20_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_20_code. See ss_notec_sing_dict_20_code for more information.

Column Name: ss_notec_sing_dict_21_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 21'

Column Name: ss_notec_sing_dict_21_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_21_code. See ss_notec_sing_dict_21_code for more information.

Column Name: ss_notec_sing_dict_22_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 22'

Column Name: ss_notec_sing_dict_22_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_22_code. See ss_notec_sing_dict_22_code for more information.

Column Name: ss_notec_sing_dict_23_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 23'

Column Name: ss_notec_sing_dict_23_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_23_code. See ss_notec_sing_dict_23_code for more information.

Column Name: ss_notec_sing_dict_24_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 24'

Column Name: ss_notec_sing_dict_24_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_24_code. See ss_notec_sing_dict_24_code for more information.

Column Name: ss_notec_sing_dict_25_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 25'

Column Name: ss_notec_sing_dict_25_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_25_code. See ss_notec_sing_dict_25_code for more information.

Column Name: ss_notec_sing_dict_26_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 26'

Column Name: ss_notec_sing_dict_26_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_26_code. See ss_notec_sing_dict_26_code for more information.

Column Name: ss_notec_sing_dict_27_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 27'

Column Name: ss_notec_sing_dict_27_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_27_code. See ss_notec_sing_dict_27_code for more information.

Column Name: ss_notec_sing_dict_28_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 28'

Column Name: ss_notec_sing_dict_28_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_28_code. See ss_notec_sing_dict_28_code for more information.

Column Name: ss_notec_sing_dict_29_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 29'

Column Name: ss_notec_sing_dict_29_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_29_code. See ss_notec_sing_dict_29_code for more information.

Column Name: ss_notec_sing_dict_2_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 2'

Column Name: ss_notec_sing_dict_2_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notec_sing_dict_2_code`. See `ss_notec_sing_dict_2_code` for more information.

Column Name: `ss_notec_sing_dict_30_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Single Response Dictionary 30'

Column Name: `ss_notec_sing_dict_30_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notec_sing_dict_30_code`. See `ss_notec_sing_dict_30_code` for more information.

Column Name: `ss_notec_sing_dict_31_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Single Response Dictionary 31'

Column Name: `ss_notec_sing_dict_31_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notec_sing_dict_31_code`. See `ss_notec_sing_dict_31_code` for more information.

Column Name: `ss_notec_sing_dict_32_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Single Response Dictionary 32'

Column Name: `ss_notec_sing_dict_32_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notec_sing_dict_32_code`. See `ss_notec_sing_dict_32_code` for more information.

Column Name: `ss_notec_sing_dict_33_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Single Response Dictionary 33'

Column Name: `ss_notec_sing_dict_33_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notec_sing_dict_33_code`. See `ss_notec_sing_dict_33_code` for more information.

Column Name: `ss_notec_sing_dict_34_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Single Response Dictionary 34'

Column Name: ss_notec_sing_dict_34_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_34_code. See ss_notec_sing_dict_34_code for more information.

Column Name: ss_notec_sing_dict_35_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 35'

Column Name: ss_notec_sing_dict_35_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_35_code. See ss_notec_sing_dict_35_code for more information.

Column Name: ss_notec_sing_dict_36_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 36'

Column Name: ss_notec_sing_dict_36_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_36_code. See ss_notec_sing_dict_36_code for more information.

Column Name: ss_notec_sing_dict_37_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 37'

Column Name: ss_notec_sing_dict_37_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_37_code. See ss_notec_sing_dict_37_code for more information.

Column Name: ss_notec_sing_dict_38_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 38'

Column Name: ss_notec_sing_dict_38_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_38_code. See ss_notec_sing_dict_38_code for more information.

Column Name: ss_notec_sing_dict_39_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 39'

Column Name: ss_notec_sing_dict_39_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_39_code. See ss_notec_sing_dict_39_code for more information.

Column Name: ss_notec_sing_dict_3_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 3'

Column Name: ss_notec_sing_dict_3_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_3_code. See ss_notec_sing_dict_3_code for more information.

Column Name: ss_notec_sing_dict_40_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 40'

Column Name: ss_notec_sing_dict_40_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_40_code. See ss_notec_sing_dict_40_code for more information.

Column Name: ss_notec_sing_dict_41_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 41'

Column Name: ss_notec_sing_dict_41_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_41_code. See ss_notec_sing_dict_41_code for more information.

Column Name: ss_notec_sing_dict_42_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 42'

Column Name: ss_notec_sing_dict_42_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_42_code. See ss_notec_sing_dict_42_code for more information.

Column Name: ss_notec_sing_dict_43_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 43'

Column Name: ss_notec_sing_dict_43_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_43_code. See ss_notec_sing_dict_43_code for more information.

Column Name: ss_notec_sing_dict_44_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 44'

Column Name: ss_notec_sing_dict_44_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_44_code. See ss_notec_sing_dict_44_code for more information.

Column Name: ss_notec_sing_dict_45_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 45'

Column Name: ss_notec_sing_dict_45_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_45_code. See ss_notec_sing_dict_45_code for more information.

Column Name: ss_notec_sing_dict_46_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 46'

Column Name: ss_notec_sing_dict_46_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_46_code. See ss_notec_sing_dict_46_code for more information.

Column Name: ss_notec_sing_dict_47_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 47'

Column Name: ss_notec_sing_dict_47_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_47_code. See ss_notec_sing_dict_47_code for more information.

Column Name: ss_notec_sing_dict_48_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 48'

Column Name: ss_notec_sing_dict_48_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_48_code. See ss_notec_sing_dict_48_code for more information.

Column Name: ss_notec_sing_dict_49_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 49'

Column Name: ss_notec_sing_dict_49_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_49_code. See ss_notec_sing_dict_49_code for more information.

Column Name: ss_notec_sing_dict_4_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 4'

Column Name: ss_notec_sing_dict_4_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_4_code. See ss_notec_sing_dict_4_code for more information.

Column Name: ss_notec_sing_dict_50_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 50'

Column Name: ss_notec_sing_dict_50_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_50_code. See ss_notec_sing_dict_50_code for more information.

Column Name: ss_notec_sing_dict_5_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 5'

Column Name: ss_notec_sing_dict_5_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_5_code. See ss_notec_sing_dict_5_code for more information.

Column Name: ss_notec_sing_dict_6_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 6'

Column Name: ss_notec_sing_dict_6_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_6_code. See ss_notec_sing_dict_6_code for more information.

Column Name: ss_notec_sing_dict_7_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 7'

Column Name: ss_notec_sing_dict_7_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_7_code. See ss_notec_sing_dict_7_code for more information.

Column Name: ss_notec_sing_dict_8_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 8'

Column Name: ss_notec_sing_dict_8_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_8_code. See ss_notec_sing_dict_8_code for more information.

Column Name: ss_notec_sing_dict_9_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 9'

Column Name: ss_notec_sing_dict_9_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_9_code. See ss_notec_sing_dict_9_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp_4

Table Description: This table returns the site specific information stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the service.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a progress note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notc_mult_dic_51_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 51'

Column Name: ss_notc_mult_dic_51_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_51_code. See ss_notc_mult_dic_51_code for more information.

Column Name: ss_notc_mult_dic_52_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 52'

Column Name: ss_notc_mult_dic_52_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_52_code. See ss_notc_mult_dic_52_code for more information.

Column Name: ss_notc_mult_dic_53_code
Column Type: varchar
Max Length: 50

'SS Note Copy Multiple Response Dictionary 53'

Column Name: ss_notc_mult_dic_53_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_53_code. See ss_notc_mult_dic_53_code for more information.

Column Name: ss_notc_mult_dic_54_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 54'

Column Name: ss_notc_mult_dic_54_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_54_code. See ss_notc_mult_dic_54_code for more information.

Column Name: ss_notc_mult_dic_55_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 55'

Column Name: ss_notc_mult_dic_55_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_55_code. See ss_notc_mult_dic_55_code for more information.

Column Name: ss_notc_mult_dic_56_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 56'

Column Name: ss_notc_mult_dic_56_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_56_code. See ss_notc_mult_dic_56_code for more information.

Column Name: ss_notc_mult_dic_57_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 57'

Column Name: ss_notc_mult_dic_57_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mult_dic_57_code`. See `ss_notc_mult_dic_57_code` for more information.

Column Name: `ss_notc_mult_dic_58_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 58'

Column Name: `ss_notc_mult_dic_58_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_58_code`. See `ss_notc_mult_dic_58_code` for more information.

Column Name: `ss_notc_mult_dic_59_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 59'

Column Name: `ss_notc_mult_dic_59_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_59_code`. See `ss_notc_mult_dic_59_code` for more information.

Column Name: `ss_notc_mult_dic_60_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 60'

Column Name: `ss_notc_mult_dic_60_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_60_code`. See `ss_notc_mult_dic_60_code` for more information.

Column Name: `ss_notc_mult_dic_61_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 61'

Column Name: `ss_notc_mult_dic_61_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_61_code`. See `ss_notc_mult_dic_61_code` for more information.

Column Name: `ss_notc_mult_dic_62_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Multiple Response Dictionary 62'

Column Name: ss_notc_mult_dic_62_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_62_code. See ss_notc_mult_dic_62_code for more information.

Column Name: ss_notc_mult_dic_63_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 63'

Column Name: ss_notc_mult_dic_63_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_63_code. See ss_notc_mult_dic_63_code for more information.

Column Name: ss_notc_mult_dic_64_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 64'

Column Name: ss_notc_mult_dic_64_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_64_code. See ss_notc_mult_dic_64_code for more information.

Column Name: ss_notc_mult_dic_65_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 65'

Column Name: ss_notc_mult_dic_65_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_mult_dic_65_code. See ss_notc_mult_dic_65_code for more information.

Column Name: ss_notc_mult_dic_66_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 66'

Column Name: ss_notc_mult_dic_66_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mult_dic_66_code`. See `ss_notc_mult_dic_66_code` for more information.

Column Name: `ss_notc_mult_dic_67_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 67'

Column Name: `ss_notc_mult_dic_67_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_67_code`. See `ss_notc_mult_dic_67_code` for more information.

Column Name: `ss_notc_mult_dic_68_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 68'

Column Name: `ss_notc_mult_dic_68_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_68_code`. See `ss_notc_mult_dic_68_code` for more information.

Column Name: `ss_notc_mult_dic_69_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 69'

Column Name: `ss_notc_mult_dic_69_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_69_code`. See `ss_notc_mult_dic_69_code` for more information.

Column Name: `ss_notc_mult_dic_70_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 70'

Column Name: `ss_notc_mult_dic_70_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_70_code`. See `ss_notc_mult_dic_70_code` for more information.

Column Name: `ss_notc_mult_dic_71_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 71'

Column Name: ss_notc_mult_dic_71_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_71_code. See ss_notc_mult_dic_71_code for more information.

Column Name: ss_notc_mult_dic_72_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 72'

Column Name: ss_notc_mult_dic_72_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_72_code. See ss_notc_mult_dic_72_code for more information.

Column Name: ss_notc_mult_dic_73_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 73'

Column Name: ss_notc_mult_dic_73_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_73_code. See ss_notc_mult_dic_73_code for more information.

Column Name: ss_notc_mult_dic_74_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 74'

Column Name: ss_notc_mult_dic_74_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_74_code. See ss_notc_mult_dic_74_code for more information.

Column Name: ss_notc_mult_dic_75_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 75'

Column Name: ss_notc_mult_dic_75_value

Column Type: varchar

Max Length: 275

The description associated with `ss_notc_mult_dic_75_code`. See `ss_notc_mult_dic_75_code` for more information.

Column Name: `ss_notc_mult_dic_76_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 76'

Column Name: `ss_notc_mult_dic_76_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_76_code`. See `ss_notc_mult_dic_76_code` for more information.

Column Name: `ss_notc_mult_dic_77_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 77'

Column Name: `ss_notc_mult_dic_77_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_77_code`. See `ss_notc_mult_dic_77_code` for more information.

Column Name: `ss_notc_mult_dic_78_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 78'

Column Name: `ss_notc_mult_dic_78_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_78_code`. See `ss_notc_mult_dic_78_code` for more information.

Column Name: `ss_notc_mult_dic_79_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 79'

Column Name: `ss_notc_mult_dic_79_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_79_code`. See `ss_notc_mult_dic_79_code` for more information.

The description associated with ss_notc_sin_dic_68_code. See ss_notc_sin_dic_68_code for more information.

Column Name: ss_notc_sin_dic_69_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 69'

Column Name: ss_notc_sin_dic_69_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_69_code. See ss_notc_sin_dic_69_code for more information.

Column Name: ss_notc_sin_dic_70_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 70'

Column Name: ss_notc_sin_dic_70_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_70_code. See ss_notc_sin_dic_70_code for more information.

Column Name: ss_notc_sin_dic_71_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 71'

Column Name: ss_notc_sin_dic_71_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_71_code. See ss_notc_sin_dic_71_code for more information.

Column Name: ss_notc_sin_dic_72_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 72'

Column Name: ss_notc_sin_dic_72_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_72_code. See ss_notc_sin_dic_72_code for more information.

Column Name: ss_notc_sin_dic_73_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 73'

Column Name: ss_notc_sin_dic_73_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_73_code. See ss_notc_sin_dic_73_code for more information.

Column Name: ss_notc_sin_dic_74_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 74'

Column Name: ss_notc_sin_dic_74_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_74_code. See ss_notc_sin_dic_74_code for more information.

Column Name: ss_notc_sin_dic_75_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 75'

Column Name: ss_notc_sin_dic_75_value
Column Type: varchar
Max Length: 275
The description associated with ss_notc_sin_dic_75_code. See ss_notc_sin_dic_75_code for more information.

Column Name: ss_notc_sin_dic_76_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 76'

Column Name: ss_notc_sin_dic_76_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_76_code. See ss_notc_sin_dic_76_code for more information.

Column Name: ss_notc_sin_dic_77_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 77'

Column Name: ss_notc_sin_dic_77_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_77_code. See ss_notc_sin_dic_77_code for more information.

Column Name: ss_notc_sin_dic_78_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 78'

Column Name: ss_notc_sin_dic_78_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_78_code. See ss_notc_sin_dic_78_code for more information.

Column Name: ss_notc_sin_dic_79_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 79'

Column Name: ss_notc_sin_dic_79_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_79_code. See ss_notc_sin_dic_79_code for more information.

Column Name: ss_notc_sin_dic_80_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 80'

Column Name: ss_notc_sin_dic_80_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_80_code. See ss_notc_sin_dic_80_code for more information.

Column Name: ss_note_mul_dict_51_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 51'

Column Name: ss_note_mul_dict_51_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_51_code limited to 255 characters. See ss_note_mul_dict_51_code for more information.

Column Name: ss_note_mul_dict_51_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_51_code. See ss_note_mul_dict_51_code for more information.

Column Name: ss_note_mul_dict_52_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 52'

Column Name: ss_note_mul_dict_52_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_52_code limited to 255 characters. See ss_note_mul_dict_52_code for more information.

Column Name: ss_note_mul_dict_52_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_52_code. See ss_note_mul_dict_52_code for more information.

Column Name: ss_note_mul_dict_53_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 53'

Column Name: ss_note_mul_dict_53_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_53_code limited to 255 characters. See ss_note_mul_dict_53_code for more information.

Column Name: ss_note_mul_dict_53_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_53_code. See ss_note_mul_dict_53_code for more information.

Column Name: ss_note_mul_dict_54_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 54'

Column Name: ss_note_mul_dict_54_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_54_code limited to 255 characters. See ss_note_mul_dict_54_code for more information.

Column Name: ss_note_mul_dict_54_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_54_code. See ss_note_mul_dict_54_code for more information.

Column Name: ss_note_mul_dict_55_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 55'

Column Name: ss_note_mul_dict_55_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_55_code limited to 255 characters. See ss_note_mul_dict_55_code for more information.

Column Name: ss_note_mul_dict_55_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_55_code. See ss_note_mul_dict_55_code for more information.

Column Name: ss_note_mul_dict_56_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 56'

Column Name: ss_note_mul_dict_56_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_56_code limited to 255 characters. See ss_note_mul_dict_56_code for more information.

Column Name: ss_note_mul_dict_56_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_56_code. See ss_note_mul_dict_56_code for more information.

Column Name: ss_note_mul_dict_57_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 57'

Column Name: ss_note_mul_dict_57_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_57_code limited to 255 characters. See ss_note_mul_dict_57_code for more information.

Column Name: ss_note_mul_dict_57_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_57_code. See ss_note_mul_dict_57_code for more information.

Column Name: ss_note_mul_dict_58_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 58'

Column Name: ss_note_mul_dict_58_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_58_code limited to 255 characters. See ss_note_mul_dict_58_code for more information.

Column Name: ss_note_mul_dict_58_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_58_code. See ss_note_mul_dict_58_code for more information.

Column Name: ss_note_mul_dict_59_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 59'

Column Name: ss_note_mul_dict_59_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_59_code limited to 255 characters. See ss_note_mul_dict_59_code for more information.

Column Name: ss_note_mul_dict_59_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_59_code. See ss_note_mul_dict_59_code for more information.

Column Name: ss_note_mul_dict_60_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 60'

Column Name: ss_note_mul_dict_60_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_60_code limited to 255 characters. See ss_note_mul_dict_60_code for more information.

Column Name: ss_note_mul_dict_60_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_60_code. See ss_note_mul_dict_60_code for more information.

Column Name: ss_note_mul_dict_61_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 61'

Column Name: ss_note_mul_dict_61_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_61_code limited to 255 characters. See ss_note_mul_dict_61_code for more information.

Column Name: ss_note_mul_dict_61_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_61_code. See ss_note_mul_dict_61_code for more information.

Column Name: ss_note_mul_dict_62_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 62'

Column Name: ss_note_mul_dict_62_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_62_code limited to 255 characters. See ss_note_mul_dict_62_code for more information.

Column Name: ss_note_mul_dict_62_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_62_code. See ss_note_mul_dict_62_code for more information.

Column Name: ss_note_mul_dict_63_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 63'

Column Name: ss_note_mul_dict_63_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_63_code limited to 255 characters. See ss_note_mul_dict_63_code for more information.

Column Name: ss_note_mul_dict_63_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_63_code. See ss_note_mul_dict_63_code for more information.

Column Name: ss_note_mul_dict_64_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 64'

Column Name: ss_note_mul_dict_64_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_64_code limited to 255 characters. See ss_note_mul_dict_64_code for more information.

Column Name: ss_note_mul_dict_64_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_64_code. See ss_note_mul_dict_64_code for more information.

Column Name: ss_note_mul_dict_65_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 65'

Column Name: ss_note_mul_dict_65_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_65_code limited to 255 characters. See ss_note_mul_dict_65_code for more information.

Column Name: ss_note_mul_dict_65_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_65_code. See ss_note_mul_dict_65_code for more information.

Column Name: ss_note_mul_dict_66_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 66'

Column Name: ss_note_mul_dict_66_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_66_code limited to 255 characters. See ss_note_mul_dict_66_code for more information.

Column Name: ss_note_mul_dict_66_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_66_code. See ss_note_mul_dict_66_code for more information.

Column Name: ss_note_mul_dict_67_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 67'

Column Name: ss_note_mul_dict_67_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_67_code limited to 255 characters. See ss_note_mul_dict_67_code for more information.

Column Name: ss_note_mul_dict_67_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_67_code. See ss_note_mul_dict_67_code for more information.

Column Name: ss_note_mul_dict_68_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 68'

Column Name: ss_note_mul_dict_68_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_68_code limited to 255 characters. See ss_note_mul_dict_68_code for more information.

Column Name: ss_note_mul_dict_68_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_68_code. See ss_note_mul_dict_68_code for more information.

Column Name: ss_note_mul_dict_69_code

Column Type: varchar

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 61'

Column Name: ss_note_sin_dict_61_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_61_code. See ss_note_sin_dict_61_code for more information.

Column Name: ss_note_sin_dict_62_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 62'

Column Name: ss_note_sin_dict_62_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_62_code. See ss_note_sin_dict_62_code for more information.

Column Name: ss_note_sin_dict_63_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 63'

Column Name: ss_note_sin_dict_63_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_63_code. See ss_note_sin_dict_63_code for more information.

Column Name: ss_note_sin_dict_64_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 64'

Column Name: ss_note_sin_dict_64_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_64_code. See ss_note_sin_dict_64_code for more information.

Column Name: ss_note_sin_dict_65_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 65'

Column Name: ss_note_sin_dict_65_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_65_code. See ss_note_sin_dict_65_code for more information.

Column Name: ss_note_sin_dict_66_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 66'

Column Name: ss_note_sin_dict_66_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_66_code. See ss_note_sin_dict_66_code for more information.

Column Name: ss_note_sin_dict_67_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 67'

Column Name: ss_note_sin_dict_67_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_67_code. See ss_note_sin_dict_67_code for more information.

Column Name: ss_note_sin_dict_68_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 68'

Column Name: ss_note_sin_dict_68_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_68_code. See ss_note_sin_dict_68_code for more information.

Column Name: ss_note_sin_dict_69_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 69'

Column Name: ss_note_sin_dict_69_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_69_code. See ss_note_sin_dict_69_code for more information.

Column Name: ss_note_sin_dict_70_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 70'

Column Name: ss_note_sin_dict_70_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_70_code. See ss_note_sin_dict_70_code for more information.

Column Name: ss_note_sin_dict_71_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 71'

Column Name: ss_note_sin_dict_71_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_71_code. See ss_note_sin_dict_71_code for more information.

Column Name: ss_note_sin_dict_72_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 72'

Column Name: ss_note_sin_dict_72_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_72_code. See ss_note_sin_dict_72_code for more information.

Column Name: ss_note_sin_dict_73_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 73'

Column Name: ss_note_sin_dict_73_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_73_code. See ss_note_sin_dict_73_code for more information.

Column Name: ss_note_sin_dict_74_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 74'

Column Name: ss_note_sin_dict_74_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_74_code. See ss_note_sin_dict_74_code for more information.

Column Name: ss_note_sin_dict_75_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 75'

Column Name: ss_note_sin_dict_75_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_75_code. See ss_note_sin_dict_75_code for more information.

Column Name: ss_note_sin_dict_76_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 76'

Column Name: ss_note_sin_dict_76_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_76_code. See ss_note_sin_dict_76_code for more information.

Column Name: ss_note_sin_dict_77_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 77'

Column Name: ss_note_sin_dict_77_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_77_code. See ss_note_sin_dict_77_code for more information.

Column Name: ss_note_sin_dict_78_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 78'

Column Name: ss_note_sin_dict_78_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_78_code. See ss_note_sin_dict_78_code for more information.

Column Name: ss_note_sin_dict_79_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 79'

Column Name: ss_note_sin_dict_79_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_79_code. See ss_note_sin_dict_79_code for more information.

Column Name: ss_note_sin_dict_80_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 80'

Column Name: ss_note_sin_dict_80_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_80_code. See ss_note_sin_dict_80_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp_5

Table Description: This table returns the site specific information stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j

Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: ebp_code
Column Type: varchar
Max Length: 50
'Evidence-Based Practices'

Column Name: ebp_element_code
Column Type: varchar
Max Length: 50
'Evidence-Based Practice Elements'

Column Name: ebp_element_value
Column Type: varchar
Max Length: 32000
The description associated with ebp_element_code

Column Name: ebp_value
Column Type: varchar
Max Length: 32000
The description associated with ebp_code

Column Name: form_number
Column Type: varchar
Max Length: 50

'Form Number'

Column Name: option_desc

Column Type: varchar

Max Length: 81

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: ss_notc_mul_dic_100_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 100'

Column Name: ss_notc_mul_dic_100_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_100_code. See ss_notc_mul_dic_100_code for more information.

Column Name: ss_notc_mul_dic_101_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 101'

Column Name: ss_notc_mul_dic_101_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_101_code. See ss_notc_mul_dic_101_code for more information.

Column Name: ss_notc_mul_dic_102_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 102'

Column Name: ss_notc_mul_dic_102_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_102_code. See ss_notc_mul_dic_102_code for more information.

Column Name: ss_notc_mul_dic_103_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 103'

Column Name: ss_notc_mul_dic_103_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_103_code. See ss_notc_mul_dic_103_code for more information.

Column Name: ss_notc_mul_dic_104_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 104'

Column Name: ss_notc_mul_dic_104_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_104_code. See ss_notc_mul_dic_104_code for more information.

Column Name: ss_notc_mul_dic_105_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 105'

Column Name: ss_notc_mul_dic_105_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_mul_dic_105_code. See ss_notc_mul_dic_105_code for more information.

Column Name: ss_notc_mul_dic_106_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 106'

Column Name: ss_notc_mul_dic_106_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_106_code. See ss_notc_mul_dic_106_code for more information.

Column Name: ss_notc_mul_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 107'

Column Name: ss_notc_mul_dic_107_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_107_code. See ss_notc_mul_dic_107_code for more information.

Column Name: ss_notc_mul_dic_108_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 108'

Column Name: ss_notc_mul_dic_108_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_108_code. See ss_notc_mul_dic_108_code for more information.

Column Name: ss_notc_mul_dic_109_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 109'

Column Name: ss_notc_mul_dic_109_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_109_code. See ss_notc_mul_dic_109_code for more information.

Column Name: ss_notc_mul_dic_110_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 110'

Column Name: ss_notc_mul_dic_110_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_110_code. See ss_notc_mul_dic_110_code for more information.

Column Name: ss_notc_mul_dic_81_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 81'

Column Name: ss_notc_mul_dic_81_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_81_code. See ss_notc_mul_dic_81_code for more information.

Column Name: ss_notc_mul_dic_82_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 82'

Column Name: ss_notc_mul_dic_82_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_82_code. See ss_notc_mul_dic_82_code for more information.

Column Name: ss_notc_mul_dic_83_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 83'

Column Name: ss_notc_mul_dic_83_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_83_code. See ss_notc_mul_dic_83_code for more information.

Column Name: ss_notc_mul_dic_84_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 84'

Column Name: ss_notc_mul_dic_84_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_84_code. See ss_notc_mul_dic_84_code for more information.

Column Name: ss_notc_mul_dic_85_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 85'

Column Name: ss_notc_mul_dic_85_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_85_code. See ss_notc_mul_dic_85_code for more information.

Column Name: ss_notc_mul_dic_86_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 86'

Column Name: ss_notc_mul_dic_86_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_86_code. See ss_notc_mul_dic_86_code for more information.

Column Name: ss_notc_mul_dic_87_code

Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 87'

Column Name: ss_notc_mul_dic_87_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_87_code. See ss_notc_mul_dic_87_code for more information.

Column Name: ss_notc_mul_dic_88_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 88'

Column Name: ss_notc_mul_dic_88_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_88_code. See ss_notc_mul_dic_88_code for more information.

Column Name: ss_notc_mul_dic_89_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 89'

Column Name: ss_notc_mul_dic_89_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_89_code. See ss_notc_mul_dic_89_code for more information.

Column Name: ss_notc_mul_dic_90_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 90'

Column Name: ss_notc_mul_dic_90_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_90_code. See ss_notc_mul_dic_90_code for more information.

Column Name: ss_notc_mul_dic_91_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 91'

Column Name: ss_notc_mul_dic_91_value
Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_91_code. See ss_notc_mul_dic_91_code for more information.

Column Name: ss_notc_mul_dic_92_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 92'

Column Name: ss_notc_mul_dic_92_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_92_code. See ss_notc_mul_dic_92_code for more information.

Column Name: ss_notc_mul_dic_93_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 93'

Column Name: ss_notc_mul_dic_93_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_93_code. See ss_notc_mul_dic_93_code for more information.

Column Name: ss_notc_mul_dic_94_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 94'

Column Name: ss_notc_mul_dic_94_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_94_code. See ss_notc_mul_dic_94_code for more information.

Column Name: ss_notc_mul_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 95'

Column Name: ss_notc_mul_dic_95_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_mul_dic_95_code. See ss_notc_mul_dic_95_code for more information.

Column Name: ss_notc_mul_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 96'

Column Name: ss_notc_mul_dic_96_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_96_code. See ss_notc_mul_dic_96_code for more information.

Column Name: ss_notc_mul_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 97'

Column Name: ss_notc_mul_dic_97_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_97_code. See ss_notc_mul_dic_97_code for more information.

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_99_code. See ss_notc_mul_dic_99_code for more information.

Column Name: ss_notc_sin_dic_100_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 100'

Column Name: ss_notc_sin_dic_100_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_100_code. See ss_notc_sin_dic_100_code for more information.

Column Name: ss_notc_sin_dic_101_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 101'

Column Name: ss_notc_sin_dic_101_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_101_code. See ss_notc_sin_dic_101_code for more information.

Column Name: ss_notc_sin_dic_102_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 102'

Column Name: ss_notc_sin_dic_102_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_102_code. See ss_notc_sin_dic_102_code for more information.

Column Name: ss_notc_sin_dic_103_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 103'

Column Name: ss_notc_sin_dic_103_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_103_code. See ss_notc_sin_dic_103_code for more information.

Column Name: ss_notc_sin_dic_104_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 104'

Column Name: ss_notc_sin_dic_104_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_104_code. See ss_notc_sin_dic_104_code for more information.

Column Name: ss_notc_sin_dic_105_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 105'

Column Name: ss_notc_sin_dic_105_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_sin_dic_105_code. See ss_notc_sin_dic_105_code for more information.

Column Name: ss_notc_sin_dic_106_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 106'

Column Name: ss_notc_sin_dic_106_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_106_code. See ss_notc_sin_dic_106_code for more information.

Column Name: ss_notc_sin_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 107'

Column Name: ss_notc_sin_dic_107_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_107_code. See ss_notc_sin_dic_107_code for more information.

Column Name: ss_notc_sin_dic_108_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 108'

Column Name: ss_notc_sin_dic_108_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_108_code. See ss_notc_sin_dic_108_code for more information.

Column Name: ss_notc_sin_dic_109_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 109'

Column Name: ss_notc_sin_dic_109_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_109_code. See ss_notc_sin_dic_109_code for more information.

Column Name: ss_notc_sin_dic_110_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 110'

Column Name: ss_notc_sin_dic_110_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_110_code. See ss_notc_sin_dic_110_code for more information.

Column Name: ss_notc_sin_dic_81_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 81'

Column Name: ss_notc_sin_dic_81_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_81_code. See ss_notc_sin_dic_81_code for more information.

Column Name: ss_notc_sin_dic_82_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 82'

Column Name: ss_notc_sin_dic_82_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_82_code. See ss_notc_sin_dic_82_code for more information.

Column Name: ss_notc_sin_dic_83_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 83'

Column Name: ss_notc_sin_dic_83_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_83_code. See ss_notc_sin_dic_83_code for more information.

Column Name: ss_notc_sin_dic_84_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 84'

Column Name: ss_notc_sin_dic_84_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_84_code. See ss_notc_sin_dic_84_code for more information.

Column Name: ss_notc_sin_dic_85_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 85'

Column Name: ss_notc_sin_dic_85_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_85_code. See ss_notc_sin_dic_85_code for more information.

Column Name: ss_notc_sin_dic_86_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 86'

Column Name: ss_notc_sin_dic_86_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_86_code. See ss_notc_sin_dic_86_code for more information.

Column Name: ss_notc_sin_dic_87_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 87'

Column Name: ss_notc_sin_dic_87_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_87_code. See ss_notc_sin_dic_87_code for more information.

Column Name: ss_notc_sin_dic_88_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 88'

Column Name: ss_notc_sin_dic_88_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_88_code. See ss_notc_sin_dic_88_code for more information.

Column Name: ss_notc_sin_dic_89_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 89'

Column Name: ss_notc_sin_dic_89_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_89_code. See ss_notc_sin_dic_89_code for more information.

Column Name: ss_notc_sin_dic_90_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 90'

Column Name: ss_notc_sin_dic_90_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_90_code. See ss_notc_sin_dic_90_code for more information.

Column Name: ss_notc_sin_dic_91_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 91'

Column Name: ss_notc_sin_dic_91_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_91_code. See ss_notc_sin_dic_91_code for more information.

Column Name: ss_notc_sin_dic_92_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 92'

Column Name: ss_notc_sin_dic_92_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_92_code. See ss_notc_sin_dic_92_code for more information.

Column Name: ss_notc_sin_dic_93_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 93'

Column Name: ss_notc_sin_dic_93_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_93_code. See ss_notc_sin_dic_93_code for more information.

Column Name: ss_notc_sin_dic_94_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 94'

Column Name: ss_notc_sin_dic_94_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_94_code. See ss_notc_sin_dic_94_code for more information.

Column Name: ss_notc_sin_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 95'

Column Name: ss_notc_sin_dic_95_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_sin_dic_95_code. See ss_notc_sin_dic_95_code for more information.

Column Name: ss_notc_sin_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 96'

Column Name: ss_notc_sin_dic_96_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_96_code. See ss_notc_sin_dic_96_code for more information.

Column Name: ss_notc_sin_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 97'

Column Name: ss_notc_sin_dic_97_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_97_code. See ss_notc_sin_dic_97_code for more information.

Column Name: ss_notc_sin_dic_98_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 98'

Column Name: ss_notc_sin_dic_98_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_98_code. See ss_notc_sin_dic_98_code for more information.

Column Name: ss_notc_sin_dic_99_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 99'

Column Name: ss_notc_sin_dic_99_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_99_code. See ss_notc_sin_dic_99_code for more information.

Column Name: ss_note_mul_dic_100_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 100'

Column Name: ss_note_mul_dic_100_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_100_code limited to 255 characters. See ss_note_mul_dic_100_code for more information.

Column Name: ss_note_mul_dic_100_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_100_code. See ss_note_mul_dic_100_code for more information.

Column Name: ss_note_mul_dic_101_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 101'

Column Name: ss_note_mul_dic_101_shval
Column Type: varchar
Max Length: 255

The description associated with ss_note_mul_dic_101_code limited to 255 characters. See ss_note_mul_dic_101_code for more information.

Column Name: ss_note_mul_dic_101_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_101_code. See ss_note_mul_dic_101_code for more information.

Column Name: ss_note_mul_dic_102_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 102'

Column Name: ss_note_mul_dic_102_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_102_code limited to 255 characters. See ss_note_mul_dic_102_code for more information.

Column Name: ss_note_mul_dic_102_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_102_code. See ss_note_mul_dic_102_code for more information.

Column Name: ss_note_mul_dic_103_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 103'

Column Name: ss_note_mul_dic_103_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_103_code limited to 255 characters. See ss_note_mul_dic_103_code for more information.

Column Name: ss_note_mul_dic_103_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_103_code. See ss_note_mul_dic_103_code for more information.

Column Name: ss_note_mul_dic_104_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 104'

Column Name: ss_note_mul_dic_104_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_104_code limited to 255 characters. See ss_note_mul_dic_104_code for more information.

Column Name: ss_note_mul_dic_104_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_104_code. See ss_note_mul_dic_104_code for more information.

Column Name: ss_note_mul_dic_105_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 105'

Column Name: ss_note_mul_dic_105_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_105_code limited to 255 characters. See ss_note_mul_dic_105_code for more information.

Column Name: ss_note_mul_dic_105_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_105_code. See ss_note_mul_dic_105_code for more information.

Column Name: ss_note_mul_dic_106_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 106'

Column Name: ss_note_mul_dic_106_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_106_code limited to 255 characters. See ss_note_mul_dic_106_code for more information.

Column Name: ss_note_mul_dic_106_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_106_code. See ss_note_mul_dic_106_code for more information.

Column Name: ss_note_mul_dic_107_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 107'

Column Name: ss_note_mul_dic_107_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_107_code limited to 255 characters. See ss_note_mul_dic_107_code for more information.

Column Name: ss_note_mul_dic_107_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_107_code. See ss_note_mul_dic_107_code for more information.

Column Name: ss_note_mul_dic_108_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 108'

Column Name: ss_note_mul_dic_108_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_108_code limited to 255 characters. See ss_note_mul_dic_108_code for more information.

Column Name: ss_note_mul_dic_108_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_108_code. See ss_note_mul_dic_108_code for more information.

Column Name: ss_note_mul_dic_109_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 109'

Column Name: ss_note_mul_dic_109_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_109_code limited to 255 characters. See ss_note_mul_dic_109_code for more information.

Column Name: ss_note_mul_dic_109_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_109_code. See ss_note_mul_dic_109_code for more information.

Column Name: ss_note_mul_dic_110_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 110'

Column Name: ss_note_mul_dic_110_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_110_code limited to 255 characters. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_110_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_110_code. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_81_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 81'

Column Name: ss_note_mul_dic_81_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_81_code limited to 255 characters. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_81_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_81_code. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_82_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 82'

Column Name: ss_note_mul_dic_82_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_82_code limited to 255 characters. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_82_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_82_code. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_83_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 83'

Column Name: ss_note_mul_dic_83_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_83_code limited to 255 characters. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_83_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_83_code. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_84_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 84'

Column Name: ss_note_mul_dic_84_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_84_code limited to 255 characters. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_84_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_84_code. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_85_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 85'

Column Name: ss_note_mul_dic_85_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_85_code limited to 255 characters. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_85_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_85_code. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_86_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 86'

Column Name: ss_note_mul_dic_86_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_86_code limited to 255 characters. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_86_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_86_code. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_87_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 87'

Column Name: ss_note_mul_dic_87_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_87_code limited to 255 characters. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_87_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_87_code. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_88_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 88'

Column Name: ss_note_mul_dic_88_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_88_code limited to 255 characters. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_88_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_88_code. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_89_code

Column Type: varchar

Max Length: 20
'SS Note Multi Response Dictionary 89'

Column Name: ss_note_mul_dic_89_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_89_code limited to 255 characters. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_89_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_89_code. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_90_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 90'

Column Name: ss_note_mul_dic_90_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_90_code limited to 255 characters. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_90_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_90_code. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_91_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 91'

Column Name: ss_note_mul_dic_91_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_91_code limited to 255 characters. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_91_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_91_code. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_92_code

Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 92'

Column Name: ss_note_mul_dic_92_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_92_code limited to 255 characters. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_92_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_92_code. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_93_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 93'

Column Name: ss_note_mul_dic_93_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_93_code limited to 255 characters. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_93_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_93_code. See ss_note_mul_dic_93_code for more information.

Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 94'

Column Name: ss_note_mul_dic_94_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_94_code limited to 255 characters. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_94_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_94_code. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_95_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 95'

Column Name: ss_note_mul_dic_95_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_95_code limited to 255 characters. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_95_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_95_code. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_96_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 96'

Column Name: ss_note_mul_dic_96_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_96_code limited to 255 characters. See ss_note_mul_dic_96_code for more information.

Column Name: ss_note_mul_dic_96_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_96_code. See ss_note_mul_dic_96_code for more information.

Column Name: ss_note_mul_dic_97_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 97'

Column Name: ss_note_mul_dic_97_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_97_code limited to 255 characters. See ss_note_mul_dic_97_code for more information.

Column Name: ss_note_mul_dic_97_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_97_code. See ss_note_mul_dic_97_code for more information.

Column Name: ss_note_mul_dic_98_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 98'

Column Name: ss_note_mul_dic_98_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_98_code limited to 255 characters. See ss_note_mul_dic_98_code for more information.

Column Name: ss_note_mul_dic_98_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_98_code. See ss_note_mul_dic_98_code for more information.

Column Name: ss_note_mul_dic_99_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 99'

Column Name: ss_note_mul_dic_99_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_99_code limited to 255 characters. See ss_note_mul_dic_99_code for more information.

Column Name: ss_note_mul_dic_99_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_99_code. See ss_note_mul_dic_99_code for more information.

Column Name: ss_note_scroll_text_100

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Free Text 100'

Column Name: ss_note_scroll_text_101

Column Type: varchar

Max Length: 32700

Column Name: ss_note_sin_dic_100_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 100'

Column Name: ss_note_sin_dic_100_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_100_code. See ss_note_sin_dic_100_code for more information.

Column Name: ss_note_sin_dic_101_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 101'

Column Name: ss_note_sin_dic_101_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_101_code. See ss_note_sin_dic_101_code for more information.

Column Name: ss_note_sin_dic_102_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 102'

Column Name: ss_note_sin_dic_102_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_102_code. See ss_note_sin_dic_102_code for more information.

Column Name: ss_note_sin_dic_103_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 103'

Column Name: ss_note_sin_dic_103_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_103_code. See ss_note_sin_dic_103_code for more information.

Column Name: ss_note_sin_dic_104_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 104'

Column Name: ss_note_sin_dic_104_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_104_code. See ss_note_sin_dic_104_code for more information.

Column Name: ss_note_sin_dic_105_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 105'

Column Name: ss_note_sin_dic_105_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_105_code. See ss_note_sin_dic_105_code for more information.

Column Name: ss_note_sin_dic_106_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 106'

Column Name: ss_note_sin_dic_106_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_106_code. See ss_note_sin_dic_106_code for more information.

Column Name: ss_note_sin_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 107'

Column Name: ss_note_sin_dic_107_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_107_code. See ss_note_sin_dic_107_code for more information.

Column Name: ss_note_sin_dic_108_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 108'

Column Name: ss_note_sin_dic_108_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_108_code. See ss_note_sin_dic_108_code for more information.

Column Name: ss_note_sin_dic_109_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 109'

Column Name: ss_note_sin_dic_109_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_109_code. See ss_note_sin_dic_109_code for more information.

Column Name: ss_note_sin_dic_110_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 110'

Column Name: ss_note_sin_dic_110_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_110_code. See ss_note_sin_dic_110_code for more information.

Column Name: ss_note_sin_dic_81_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 81'

Column Name: ss_note_sin_dic_81_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_81_code. See ss_note_sin_dic_81_code for more information.

Column Name: ss_note_sin_dic_82_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 82'

Column Name: ss_note_sin_dic_82_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_82_code. See ss_note_sin_dic_82_code for more information.

Column Name: ss_note_sin_dic_83_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 83'

Column Name: ss_note_sin_dic_83_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_83_code. See ss_note_sin_dic_83_code for more information.

Column Name: ss_note_sin_dic_84_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 84'

Column Name: ss_note_sin_dic_84_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_84_code. See ss_note_sin_dic_84_code for more information.

Column Name: ss_note_sin_dic_85_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 85'

Column Name: ss_note_sin_dic_85_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_85_code. See ss_note_sin_dic_85_code for more information.

Column Name: ss_note_sin_dic_86_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 86'

Column Name: ss_note_sin_dic_86_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_86_code. See ss_note_sin_dic_86_code for more information.

Column Name: ss_note_sin_dic_87_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 87'

Column Name: ss_note_sin_dic_87_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_87_code. See ss_note_sin_dic_87_code for more information.

Column Name: ss_note_sin_dic_88_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 88'

Column Name: ss_note_sin_dic_88_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_88_code. See ss_note_sin_dic_88_code for more information.

Column Name: ss_note_sin_dic_89_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 89'

Column Name: ss_note_sin_dic_89_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_89_code. See ss_note_sin_dic_89_code for more information.

Column Name: ss_note_sin_dic_90_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 90'

Column Name: ss_note_sin_dic_90_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_90_code. See ss_note_sin_dic_90_code for more information.

Column Name: ss_note_sin_dic_91_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 91'

Column Name: ss_note_sin_dic_91_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_91_code. See ss_note_sin_dic_91_code for more information.

Column Name: ss_note_sin_dic_92_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 92'

Column Name: ss_note_sin_dic_92_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_92_code. See ss_note_sin_dic_92_code for more information.

Column Name: ss_note_sin_dic_93_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 93'

Column Name: ss_note_sin_dic_93_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_93_code. See ss_note_sin_dic_93_code for more information.

Column Name: ss_note_sin_dic_94_code

Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 94'

Column Name: ss_note_sin_dic_94_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_94_code. See ss_note_sin_dic_94_code for more information.

Column Name: ss_note_sin_dic_95_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 95'

Column Name: ss_note_sin_dic_95_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_95_code. See ss_note_sin_dic_95_code for more information.

Column Name: ss_note_sin_dic_96_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 96'

Column Name: ss_note_sin_dic_96_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_96_code. See ss_note_sin_dic_96_code for more information.

Column Name: ss_note_sin_dic_97_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 97'

Column Name: ss_note_sin_dic_97_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_97_code. See ss_note_sin_dic_97_code for more information.

Column Name: ss_note_sin_dic_98_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 98'

Column Name: ss_note_sin_dic_98_value
Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_98_code. See ss_note_sin_dic_98_code for more information.

Column Name: ss_note_sin_dic_99_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 99'

Column Name: ss_note_sin_dic_99_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_99_code. See ss_note_sin_dic_99_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp_6

Table Description: This table returns the facility location fields stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the service.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40

The user name who last updated the service.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: facloc_address_1

Column Type: varchar

Max Length: 50

'Facility Location Address - Street'

Column Name: facloc_address_2

Column Type: varchar

Max Length: 50

'Facility Location Address - Street 2'

Column Name: facloc_city

Column Type: varchar

Max Length: 50

'Facility Location City'

Column Name: facloc_id_code

Column Type: varchar

Max Length: 50

'Facility Location Code Identifier'

Column Name: facloc_id_code_qual

Column Type: varchar

Max Length: 50

'Facility Location Code Qualifier'

Column Name: facloc_name

Column Type: varchar

Max Length: 50

'Facility Location Name'

Column Name: facloc_state

Column Type: varchar

Max Length: 50

'Facility Location State'

Column Name: facloc_zip_code

Column Type: varchar

Max Length: 50

'Facility Location Zip Code'

Column Name: form_number

Column Type: varchar

Max Length: 50

'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_51
Column Type: varchar
Max Length: 20
SS Note 20 Character 51

Column Name: ss_note_20_char_text_52
Column Type: varchar
Max Length: 20
SS Note 20 Character 52

Column Name: ss_note_20_char_text_53
Column Type: varchar
Max Length: 20
SS Note 20 Character 53

Column Name: ss_note_20_char_text_54
Column Type: varchar
Max Length: 20
SS Note 20 Character 54

Column Name: ss_note_20_char_text_55
Column Type: varchar
Max Length: 20
SS Note 20 Character 55

Column Name: ss_note_20_char_text_56
Column Type: varchar
Max Length: 20
SS Note 20 Character 56

Column Name: ss_note_20_char_text_57
Column Type: varchar
Max Length: 20
SS Note 20 Character 57

Column Name: ss_note_20_char_text_58
Column Type: varchar
Max Length: 20
SS Note 20 Character 58

Column Name: ss_note_20_char_text_59
Column Type: varchar
Max Length: 20
SS Note 20 Character 59

Column Name: ss_note_20_char_text_60
Column Type: varchar
Max Length: 20

Column Name: ss_note_time_60
Column Type: varchar
Max Length: 10
SS Note Time 60

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_tpnotes

Table Description: This table returns the information stored for the treatment plan grid in progress notes forms.

Column Name: ID
Column Type: integer

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 20
The unique ID associated with the note.

Column Name: tp_notes_id
Column Type: integer
Id column for auditing purposes

Column Name: select_tp_version_code
Column Type: varchar
Max Length: 50
'Select T.P. Version'

Column Name: select_tp_version_value
Column Type: varchar
Max Length: 255
The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: note_add_which_tp_plan_prob
Column Type: varchar
Max Length: 32000
The treatment plan problem to add to the note.

Column Name: notes
Column Type: varchar
Max Length: 32000
Notes for the selected TP item.

Documentation for form: Ambulatory_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotes table.

Column Name: ID
Column Type: varchar

Max Length: 254

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: NOT_uniqueid

Column Type: varchar

Max Length: 20

The unique ID associated with the note.

Column Name: notes_field

Column Type: varchar

Max Length: 32700

The written note information.

Column Name: note_type_code

Column Type: varchar

Max Length: 50

'Note Type'

Column Name: note_type_value

Column Type: varchar

Max Length: 40

The description associated with note_type_code. See note_type_code for more information.

Column Name: note_time

Column Type: varchar

Max Length: 25

'Note Time'

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: New_Existing_Service_code
Column Type: varchar
Max Length: 5
'Progress Note For'

Column Name: New_Existing_Service_value
Column Type: varchar
Max Length: 40
The description associated with New_Existing_Service_code. See New_Existing_Service_code for more information.

Column Name: service_program_value
Column Type: varchar
Max Length: 40
The description associated with service_program_code. See service_program_code for more information.

Column Name: note_addresses
Column Type: varchar
Max Length: 40
'Note Addresses Which Existing Service/Appointment'

Column Name: note_add_which_tp_plan_prob
Column Type: varchar
Max Length: 32700
The treatment plan problem to add to the note.

Column Name: Tx_Note_UniqueId
Column Type: varchar
Max Length: 40
The unique ID associated with the treatment.

Column Name: service_charge_value
Column Type: varchar
Max Length: 40
The description associated with service_charge_code. See service_charge_code for more information.

Column Name: GROUP_ID
Column Type: varchar
Max Length: 10
'Group Name Or Number'

Column Name: JOIN_TO_TX_HISTORY
Column Type: varchar
Max Length: 40
The unique ID that joins the note to the service.

Column Name: Option_Desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: Option_Id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: TODO_ID
Column Type: varchar
Max Length: 20
'To Do Id'

Column Name: add_on_notes
Column Type: varchar
Max Length: 32768
The add-on notes.

Column Name: add_svc_info_code
Column Type: varchar
Max Length: 40
The additional service information.

Column Name: add_svc_info_shval
Column Type: varchar
Max Length: 255
The description associated with add_svc_info_code limited to 255 characters. See add_svc_info_code for more information.

Column Name: add_svc_info_value
Column Type: varchar
Max Length: 4096
The description associated with add_svc_info_code. See add_svc_info_code for more information.

Column Name: aps_link
Column Type: varchar
Max Length: 40
'Note Addresses Which Existing Appointment'

Column Name: billing_status_code
Column Type: varchar
Max Length: 50

'Service Status'

Column Name: billing_status_value

Column Type: varchar

Max Length: 50

The description associated with billing_status_code. See billing_status_code for more information.

Column Name: calpm_ebpss_csi_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practices / Service Strategies (CSI)'

Column Name: calpm_ebpss_csi_value

Column Type: varchar

Max Length: 200

The description associated with calpm_ebpss_csi_code. See calpm_ebpss_csi_code for more information.

Column Name: calpm_ebpss_csi_value_long

Column Type: varchar

Max Length: 4096

The description associated with calpm_ebpss_csi_value_code. See calpm_ebpss_csi_value_code for more information.

Column Name: client_prob_list_codes

Column Type: varchar

Max Length: 50

The codes associated with the client problem list.

Column Name: client_prob_list_shvals

Column Type: varchar

Max Length: 255

The description associated with client_prob_list_code limited to 255 characters. See client_prob_list_code for more information.

Column Name: client_prob_list_vals

Column Type: varchar

Max Length: 32700

The description associated with client_prob_list_code. See client_prob_list_code for more information.

Column Name: clinical_instructions

Column Type: varchar

Max Length: 32700

'Clinical Instructions'

Column Name: clinical_quality_code

Column Type: varchar

Max Length: 255

'Clinical Quality Indicators'

Column Name: clinical_quality_sh_val

Column Type: varchar

Max Length: 255

'The description associated with clinical_quality_code. See clinical_quality_code for more information.

Column Name: clinical_quality_value

Column Type: varchar

Max Length: 4096

'The description associated with clinical_quality_code. See clinical_quality_code for more information.

Column Name: confidential_note

Column Type: varchar

Max Length: 50

The confidential note.

Column Name: co_pract_duration

Column Type: numeric

The first co-practitioner duration.

Column Name: co_pract2_duration

Column Type: numeric

The second co-practitioner duration.

Column Name: co_practitioner_id

Column Type: varchar

Max Length: 15

The first co-practitioner ID.

Column Name: co_practitioner_id_2

Column Type: varchar

Max Length: 15

The second co-practitioner ID.

Column Name: co_practitioner_name

Column Type: varchar

Max Length: 40

The name associated with co_practitioner_id.

Column Name: co_practitioner_name_2

Column Type: varchar

Max Length: 40

The name associated with co_practitioner_id_2.

Column Name: co_sign_to_do_user

Column Type: varchar

Max Length: 50

'User To Send Co-Sign To Do Item To'

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 40
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: date_of_group_service
Column Type: date
The date of the group service.

Column Name: date_of_note
Column Type: date
The date of the note.

Column Name: date_of_service
Column Type: date
The date of the service.

Column Name: discipline_code

Column Type: varchar

Max Length: 40

'Discipline'

Column Name: discipline_value

Column Type: varchar

Max Length: 40

The description associated with discipline_code. See discipline_code for more information.

Column Name: draft_final_code

Column Type: varchar

Max Length: 5

'Draft/Final'

Column Name: draft_final_value

Column Type: varchar

Max Length: 40

The description associated with draft_final_code. See draft_final_code for more information.

Column Name: ebps_code

Column Type: varchar

Max Length: 255

'Evidence Based Practices'

Column Name: ebps_sh_val

Column Type: varchar

Max Length: 255

The description associated with ebps_code. See ebps_code for more information.

Column Name: ebps_value

Column Type: varchar

Max Length: 4096

The description associated with ebps_code. See ebps_code for more information.

Column Name: external_system_id

Column Type: varchar

Max Length: 255

'External System Identifier'

Column Name: has_nonmed_diag_flg_code

Column Type: varchar

Max Length: 50

The non-medical diagnosis flag.

Column Name: has_nonmed_diag_flg_value

Column Type: varchar

Max Length: 50

The description associated with has_nonmed_diag_flg_code. See has_nonmed_diag_flg_code for more information.

Column Name: jointodiagnosisobject1
Column Type: varchar
Max Length: 40
'Diagnosis 1'

Column Name: jointodiagnosisobject2
Column Type: varchar
Max Length: 40
'Diagnosis 2'

Column Name: jointodiagnosisobject3
Column Type: varchar
Max Length: 40
'Diagnosis 3'

Column Name: jointodiagnosisobject4
Column Type: varchar
Max Length: 40
'Diagnosis 4'

Column Name: location_code
Column Type: varchar
Max Length: 15
The location of the service.

Column Name: location_value
Column Type: varchar
Max Length: 40
The description associated with location_code. See location_code for more information.

Column Name: medical_diag1_DSM_value
Column Type: varchar
Max Length: 40
The description associated with medical_diag1_DSM_code. See medical_diag1_DSM_code for more information.

Column Name: medical_diag_1_icd10_code
Column Type: varchar
Max Length: 40
'Medical Diagnosis 1 ICD 10'

Column Name: medical_diag_1_icd10_value
Column Type: varchar
Max Length: 40
The description associated with medical_diag_1_icd10_code. See medical_diag_1_icd10_code for more information.

Column Name: medical_diag_1_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1 ICD 9'

Column Name: medical_diag_1_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_icd9_code. See medical_diag_1_icd9_code for more information.

Column Name: medical_diag_1_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_imo_code. See medical_diag_1_imo_code for more information.

Column Name: medical_diag2_DSM_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag2_DSM_code. See medical_diag2_DSM_code for more information.

Column Name: medical_diag_2_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 10'

Column Name: medical_diag_2_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd10_code. See medical_diag_2_icd10_code for more information.

Column Name: medical_diag_2_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 9'

Column Name: medical_diag_2_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd9_code. See medical_diag_2_icd9_code for more information.

Column Name: medical_diag_2_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_imo_code. See medical_diag_2_imo_code for more information.

Column Name: medical_diag_3_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 3 ICD 10'

Column Name: medical_diag_3_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_icd10_code. See medical_diag_3_icd10_code for more information.

Column Name: medical_diag_3_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 3 ICD 9'

Column Name: medical_diag_3_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_icd9_code. See medical_diag_3_icd9_code for more information.

Column Name: medical_diag_3_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_imo_code. See medical_diag_3_imo_code for more information.

Column Name: medical_diag_4_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 10'

Column Name: medical_diag_4_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd10_code. See medical_diag_4_icd10_code for more information.

Column Name: medical_diag_4_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 9'

Column Name: medical_diag_4_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd9_code. See medical_diag_4_icd9_code for more information.

Column Name: medical_diag_4_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_imo_code. See medical_diag_4_imo_code for more information.

Column Name: medical_diagnosis_1_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1'

Column Name: medical_diagnosis_1_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_1_code. See medical_diagnosis_1_code for more information.

Column Name: medical_diagnosis_2_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2'

Column Name: medical_diagnosis_2_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_2_code. See medical_diagnosis_2_code for more information.

Column Name: medical_diagnosis_3_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 3'

Column Name: medical_diagnosis_3_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_3_code. See medical_diagnosis_3_code for more information.

Column Name: medical_diagnosis_4_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 4'

Column Name: medical_diagnosis_4_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_4_code. See medical_diagnosis_4_code for more information.

Column Name: notes_entry_index_nu
Column Type: varchar
Max Length: 50
The notes entry index.

Column Name: number_clients_in_group
Column Type: integer
'Number Of Clients In Group'

Column Name: orig_note_uniq_id_num
Column Type: varchar
Max Length: 20
'Original Note Unique ID Number'

Column Name: practitioner_id
Column Type: varchar
Max Length: 15
The practitioner associated with the note.

Column Name: practitioner_name
Column Type: varchar
Max Length: 40
The name associated with practitioner_id.

Column Name: psycho_add_on_duration
Column Type: integer
The psychotherapy add-on duration.

Column Name: reason_for_visit_code
Column Type: varchar
Max Length: 50
'Reason for Visit'

Column Name: reason_for_visit_value
Column Type: varchar
Max Length: 250
The description associated with reason_for_visit_code. See reason_for_visit_code for more information.

Column Name: recommended_decision
Column Type: varchar
Max Length: 32700
'Recommended Decision'

Column Name: select_tp_version_code
Column Type: varchar
Max Length: 5
'Select T.P. Version'

Column Name: select_tp_version_value

Column Type: varchar

Max Length: 40

The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: service_charge_code

Column Type: varchar

Max Length: 40

The service charge code.

Column Name: service_duration

Column Type: varchar

Max Length: 5

The duration of the service.

Column Name: service_end_time

Column Type: varchar

Max Length: 10

The end time of the service.

Column Name: service_program_code

Column Type: varchar

Max Length: 15

The program of the service.

Column Name: service_start_time

Column Type: varchar

Max Length: 10

The start time of the service.

Column Name: session_start_end_times

Column Type: varchar

Max Length: 32766

'Start/End Time(s)'

Column Name: ss_note_20_char_text_1

Column Type: varchar

Max Length: 20

'SS Note 20 Character 1'

Column Name: ss_note_20_char_text_10

Column Type: varchar

Max Length: 20

'SS Note 20 Character 10'

Column Name: ss_note_20_char_text_2

Column Type: varchar

Max Length: 20

'SS Note 20 Character 2'

Column Name: ss_note_20_char_text_3

Column Type: varchar
Max Length: 20
'SS Note 20 Character 3'

Column Name: ss_note_20_char_text_4
Column Type: varchar
Max Length: 20
'SS Note 20 Character 4'

Column Name: ss_note_20_char_text_5
Column Type: varchar
Max Length: 20
'SS Note 20 Character 5'

Column Name: ss_note_20_char_text_6
Column Type: varchar
Max Length: 20
'SS Note 20 Character 6'

Column Name: ss_note_20_char_text_7
Column Type: varchar
Max Length: 20
'SS Note 20 Character 7'

Column Name: ss_note_20_char_text_8
Column Type: varchar
Max Length: 20
'SS Note 20 Character 8'

Column Name: ss_note_20_char_text_9
Column Type: varchar
Max Length: 20
'SS Note 20 Character 9'

Column Name: ss_note_40_char_text_1
Column Type: varchar
Max Length: 40
'SS Note 40 Character 1'

Column Name: ss_note_40_char_text_10
Column Type: varchar
Max Length: 40
'SS Note 40 Character 10'

Column Name: ss_note_40_char_text_2
Column Type: varchar
Max Length: 40
'SS Note 40 Character 2'

Column Name: ss_note_40_char_text_3

Column Type: varchar
Max Length: 40
'SS Note 40 Character 3'

Column Name: ss_note_40_char_text_4
Column Type: varchar
Max Length: 40
'SS Note 40 Character 4'

Column Name: ss_note_40_char_text_5
Column Type: varchar
Max Length: 40
'SS Note 40 Character 5'

Column Name: ss_note_40_char_text_6
Column Type: varchar
Max Length: 40
'SS Note 40 Character 6'

Column Name: ss_note_40_char_text_7
Column Type: varchar
Max Length: 40
'SS Note 40 Character 7'

Column Name: ss_note_40_char_text_8
Column Type: varchar
Max Length: 40
'SS Note 40 Character 8'

Column Name: ss_note_40_char_text_9
Column Type: varchar
Max Length: 40
'SS Note 40 Character 9'

Column Name: ss_note_80_char_text_1
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 1'

Column Name: ss_note_80_char_text_10
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 10'

Column Name: ss_note_80_char_text_2
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 2'

Column Name: ss_note_80_char_text_3

Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 3'

Column Name: ss_note_80_char_text_4
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 4'

Column Name: ss_note_80_char_text_5
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 5'

Column Name: ss_note_80_char_text_6
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 6'

Column Name: ss_note_80_char_text_7
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 7'

Column Name: ss_note_80_char_text_8
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 8'

Column Name: ss_note_80_char_text_9
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 9'

Column Name: ss_note_date_1
Column Type: date
'SS Note Date 1'

Column Name: ss_note_date_10
Column Type: date
'SS Note Date 10'

Column Name: ss_note_date_2
Column Type: date
'SS Note Date 2'

Column Name: ss_note_date_3
Column Type: date
'SS Note Date 3'

Column Name: ss_note_date_4
Column Type: date
'SS Note Date 4'

Column Name: ss_note_date_5
Column Type: date
'SS Note Date 5'

Column Name: ss_note_date_6
Column Type: date
'SS Note Date 6'

Column Name: ss_note_date_7
Column Type: date
'SS Note Date 7'

Column Name: ss_note_date_8
Column Type: date
'SS Note Date 8'

Column Name: ss_note_date_9
Column Type: date
'SS Note Date 9'

Column Name: ss_note_dsm_diag_10_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 10'

Column Name: ss_note_dsm_diag_10_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_10_code. See ss_note_dsm_diag_10_code for more information.

Column Name: ss_note_dsm_diag_1_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 1'

Column Name: ss_note_dsm_diag_1_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_1_code. See ss_note_dsm_diag_1_code for more information.

Column Name: ss_note_dsm_diag_2_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 2'

Column Name: ss_note_dsm_diag_2_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_2_code. See ss_note_dsm_diag_2_code for more information.

Column Name: ss_note_dsm_diag_3_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 3'

Column Name: ss_note_dsm_diag_3_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_3_code. See ss_note_dsm_diag_3_code for more information.

Column Name: ss_note_dsm_diag_4_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 4'

Column Name: ss_note_dsm_diag_4_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_4_code. See ss_note_dsm_diag_4_code for more information.

Column Name: ss_note_dsm_diag_5_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 5'

Column Name: ss_note_dsm_diag_5_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_5_code. See ss_note_dsm_diag_5_code for more information.

Column Name: ss_note_dsm_diag_6_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 6'

Column Name: ss_note_dsm_diag_6_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_6_code. See ss_note_dsm_diag_6_code for more information.

Column Name: ss_note_dsm_diag_7_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 7'

Column Name: ss_note_dsm_diag_7_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_7_code. See ss_note_dsm_diag_7_code for more information.

Column Name: ss_note_dsm_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 8'

Column Name: ss_note_dsm_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_8_code. See ss_note_dsm_diag_8_code for more information.

Column Name: ss_note_dsm_diag_9_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 9'

Column Name: ss_note_dsm_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_9_code. See ss_note_dsm_diag_9_code for more information.

Column Name: ss_note_icd9_diag_10_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 10'

Column Name: ss_note_icd9_diag_10_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_10_code. See ss_note_icd9_diag_10_code for more information.

Column Name: ss_note_icd9_diag_1_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 1'

Column Name: ss_note_icd9_diag_1_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_1_code. See ss_note_icd9_diag_1_code for more information.

Column Name: ss_note_icd9_diag_2_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 2'

Column Name: ss_note_icd9_diag_2_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_2_code. See ss_note_icd9_diag_2_code for more information.

Column Name: ss_note_icd9_diag_3_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 3'

Column Name: ss_note_icd9_diag_3_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_3_code. See ss_note_icd9_diag_3_code for more information.

Column Name: ss_note_icd9_diag_4_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 4'

Column Name: ss_note_icd9_diag_4_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_4_code. See ss_note_icd9_diag_4_code for more information.

Column Name: ss_note_icd9_diag_5_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 5'

Column Name: ss_note_icd9_diag_5_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_5_code. See ss_note_icd9_diag_5_code for more information.

Column Name: ss_note_icd9_diag_6_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 6'

Column Name: ss_note_icd9_diag_6_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_6_code. See ss_note_icd9_diag_6_code for more information.

Column Name: ss_note_icd9_diag_7_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 7'

Column Name: ss_note_icd9_diag_7_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_7_code. See ss_note_icd9_diag_7_code for more information.

Column Name: ss_note_icd9_diag_8_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 8'

Column Name: ss_note_icd9_diag_8_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_8_code. See ss_note_icd9_diag_8_code for more information.

Column Name: ss_note_icd9_diag_9_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 9'

Column Name: ss_note_icd9_diag_9_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_9_code. See ss_note_icd9_diag_9_code for more information.

Column Name: ss_note_multi_dict_10_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 10'

Column Name: ss_note_multi_dict_10_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_10_code. See ss_note_multi_dict_10_code for more information.

Column Name: ss_note_multi_dict_1_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 1'

Column Name: ss_note_multi_dict_1_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_1_code. See ss_note_multi_dict_1_code for more information.

Column Name: ss_note_multi_dict_2_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 2'

Column Name: ss_note_multi_dict_2_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_2_code. See ss_note_multi_dict_2_code for more information.

Column Name: ss_note_multi_dict_3_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 3'

Column Name: ss_note_multi_dict_3_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_3_code. See ss_note_multi_dict_3_code for more information.

Column Name: ss_note_multi_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 4'

Column Name: ss_note_multi_dict_4_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_4_code. See ss_note_multi_dict_4_code for more information.

Column Name: ss_note_multi_dict_5_code

Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 5'

Column Name: ss_note_multi_dict_5_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_5_code. See ss_note_multi_dict_5_code for more information.

Column Name: ss_note_multi_dict_6_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 6'

Column Name: ss_note_multi_dict_6_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_6_code. See ss_note_multi_dict_6_code for more information.

Column Name: ss_note_multi_dict_7_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 7'

Column Name: ss_note_multi_dict_7_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_7_code. See ss_note_multi_dict_7_code for more information.

Column Name: ss_note_multi_dict_8_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 8'

Column Name: ss_note_multi_dict_8_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_8_code. See ss_note_multi_dict_8_code for more information.

Column Name: ss_note_multi_dict_9_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 9'

Column Name: ss_note_multi_dict_9_value
Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_9_code. See ss_note_multi_dict_9_code for more information.

Column Name: ss_note_scroll_text_1

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 1'

Column Name: ss_note_scroll_text_10

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 10'

Column Name: ss_note_scroll_text_2

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 2'

Column Name: ss_note_scroll_text_3

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 3'

Column Name: ss_note_scroll_text_4

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 4'

Column Name: ss_note_scroll_text_5

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 5'

Column Name: ss_note_scroll_text_6

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 6'

Column Name: ss_note_scroll_text_7

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 7'

Column Name: ss_note_scroll_text_8

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 8'

Column Name: ss_note_scroll_text_9

Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 9'

Column Name: ss_note_sing_dict_10_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 10'

Column Name: ss_note_sing_dict_10_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_10_code. See ss_note_sing_dict_10_code for more information.

Column Name: ss_note_sing_dict_1_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 1'

Column Name: ss_note_sing_dict_1_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_1_code. See ss_note_sing_dict_1_code for more information.

Column Name: ss_note_sing_dict_2_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 2'

Column Name: ss_note_sing_dict_2_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_2_code. See ss_note_sing_dict_2_code for more information.

Column Name: ss_note_sing_dict_3_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 3'

Column Name: ss_note_sing_dict_3_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_3_code. See ss_note_sing_dict_3_code for more information.

Column Name: ss_note_sing_dict_4_code
Column Type: varchar

Max Length: 20
'SS Note Single Response Dictionary 4'

Column Name: ss_note_sing_dict_4_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_4_code. See ss_note_sing_dict_4_code for more information.

Column Name: ss_note_sing_dict_5_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 5'

Column Name: ss_note_sing_dict_5_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_5_code. See ss_note_sing_dict_5_code for more information.

Column Name: ss_note_sing_dict_6_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 6'

Column Name: ss_note_sing_dict_6_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_6_code. See ss_note_sing_dict_6_code for more information.

Column Name: ss_note_sing_dict_7_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 7'

Column Name: ss_note_sing_dict_7_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_7_code. See ss_note_sing_dict_7_code for more information.

Column Name: ss_note_sing_dict_8_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 8'

Column Name: ss_note_sing_dict_8_value
Column Type: varchar
Max Length: 80

The description associated with ss_note_sing_dict_8_code. See ss_note_sing_dict_8_code for more information.

Column Name: ss_note_sing_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 9'

Column Name: ss_note_sing_dict_9_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_9_code. See ss_note_sing_dict_9_code for more information.

Column Name: ss_note_staff_1

Column Type: varchar

Max Length: 20

'SS Note Staff Member 1'

Column Name: ss_note_staff_10

Column Type: varchar

Max Length: 20

'SS Note Staff Member 10'

Column Name: ss_note_staff_2

Column Type: varchar

Max Length: 20

'SS Note Staff Member 2'

Column Name: ss_note_staff_3

Column Type: varchar

Max Length: 20

'SS Note Staff Member 3'

Column Name: ss_note_staff_4

Column Type: varchar

Max Length: 20

'SS Note Staff Member 4'

Column Name: ss_note_staff_5

Column Type: varchar

Max Length: 20

'SS Note Staff Member 5'

Column Name: ss_note_staff_6

Column Type: varchar

Max Length: 20

'SS Note Staff Member 6'

Column Name: ss_note_staff_7

Column Type: varchar
Max Length: 20
'SS Note Staff Member 7'

Column Name: ss_note_staff_8
Column Type: varchar
Max Length: 20
'SS Note Staff Member 8'

Column Name: ss_note_staff_9
Column Type: varchar
Max Length: 20
'SS Note Staff Member 9'

Column Name: ss_note_time_1
Column Type: varchar
Max Length: 10
'SS Note Time 1'

Column Name: ss_note_time_10
Column Type: varchar
Max Length: 10
'SS Note Time 10'

Column Name: ss_note_time_2
Column Type: varchar
Max Length: 10
'SS Note Time 2'

Column Name: ss_note_time_3
Column Type: varchar
Max Length: 10
'SS Note Time 3'

Column Name: ss_note_time_4
Column Type: varchar
Max Length: 10
'SS Note Time 4'

Column Name: ss_note_time_5
Column Type: varchar
Max Length: 10
'SS Note Time 5'

Column Name: ss_note_time_6
Column Type: varchar
Max Length: 10
'SS Note Time 6'

Column Name: ss_note_time_7

Column Type: varchar
Max Length: 10
'SS Note Time 7'

Column Name: ss_note_time_8
Column Type: varchar
Max Length: 10
'SS Note Time 8'

Column Name: ss_note_time_9
Column Type: varchar
Max Length: 10
'SS Note Time 9'

Column Name: transition_of_care_code
Column Type: varchar
Max Length: 1
'Is This A Transition Of Care?'

Column Name: transition_of_care_value
Column Type: varchar
Max Length: 80
'The description associated with transition_of_care_code. See transition_of_care_code for more information.'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY

Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: confidential_note
Column Type: varchar
Max Length: 50
Whether the note is confidential.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 50
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: notes_field
Column Type: varchar
Max Length: 32766
The contents of the notes field.

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 50
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_11
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 11'

Column Name: ss_note_20_char_text_12

Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 12'

Column Name: ss_note_20_char_text_13
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 13'

Column Name: ss_note_20_char_text_14
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 14'

Column Name: ss_note_20_char_text_15
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 15'

Column Name: ss_note_20_char_text_16
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 16'

Column Name: ss_note_20_char_text_17
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 17'

Column Name: ss_note_20_char_text_18
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 18'

Column Name: ss_note_20_char_text_19
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 19'

Column Name: ss_note_20_char_text_20
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 20'

Column Name: ss_note_20_char_text_21
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 21'

Column Name: ss_note_20_char_text_22

Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 22'

Column Name: ss_note_20_char_text_23
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 23'

Column Name: ss_note_20_char_text_24
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 24'

Column Name: ss_note_20_char_text_25
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 25'

Column Name: ss_note_20_char_text_26
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 26'

Column Name: ss_note_20_char_text_27
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 27'

Column Name: ss_note_20_char_text_28
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 28'

Column Name: ss_note_20_char_text_29
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 29'

Column Name: ss_note_20_char_text_30
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 30'

Column Name: ss_note_40_char_text_11
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 11'

Column Name: ss_note_40_char_text_12

Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 12'

Column Name: ss_note_40_char_text_13
Column Type: varchar
Max Length: 40
'SS Note 40 Character Text 13'

Column Name: ss_note_40_char_text_14
Column Type: varchar

'SS Note Date 30'

Column Name: ss_note_dsm_diag_11_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 11'

Column Name: ss_note_dsm_diag_11_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_11_code. See ss_note_dsm_diag_11_code for more information.

Column Name: ss_note_dsm_diag_12_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 12'

Column Name: ss_note_dsm_diag_12_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_12_code. See ss_note_dsm_diag_12_code for more information.

Column Name: ss_note_dsm_diag_13_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 13'

Column Name: ss_note_dsm_diag_13_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_13_code. See ss_note_dsm_diag_13_code for more information.

Column Name: ss_note_dsm_diag_14_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 14'

Column Name: ss_note_dsm_diag_14_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_14_code. See ss_note_dsm_diag_14_code for more information.

Column Name: ss_note_dsm_diag_15_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 15'

Column Name: ss_note_dsm_diag_15_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_15_code. See ss_note_dsm_diag_15_code for more information.

Column Name: ss_note_dsm_diag_16_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 16'

Column Name: ss_note_dsm_diag_16_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_16_code. See ss_note_dsm_diag_16_code for more information.

Column Name: ss_note_dsm_diag_17_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 17'

Column Name: ss_note_dsm_diag_17_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_17_code. See ss_note_dsm_diag_17_code for more information.

Column Name: ss_note_dsm_diag_18_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 18'

Column Name: ss_note_dsm_diag_18_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_18_code. See ss_note_dsm_diag_18_code for more information.

Column Name: ss_note_dsm_diag_19_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 19'

Column Name: ss_note_dsm_diag_19_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_19_code. See ss_note_dsm_diag_19_code for more information.

Column Name: ss_note_dsm_diag_20_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 20'

Column Name: ss_note_dsm_diag_20_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_20_code. See ss_note_dsm_diag_20_code for more information.

Column Name: ss_note_dsm_diag_21_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 21'

Column Name: ss_note_dsm_diag_21_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_21_code. See ss_note_dsm_diag_21_code for more information.

Column Name: ss_note_dsm_diag_22_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 22'

Column Name: ss_note_dsm_diag_22_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_22_code. See ss_note_dsm_diag_22_code for more information.

Column Name: ss_note_dsm_diag_23_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 23'

Column Name: ss_note_dsm_diag_23_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_23_code. See ss_note_dsm_diag_23_code for more information.

Column Name: ss_note_dsm_diag_24_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 24'

Column Name: ss_note_dsm_diag_24_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_24_code. See ss_note_dsm_diag_24_code for more information.

Column Name: ss_note_dsm_diag_25_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 25'

Column Name: ss_note_dsm_diag_25_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_25_code. See ss_note_dsm_diag_25_code for more information.

Column Name: ss_note_dsm_diag_26_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 26'

Column Name: ss_note_dsm_diag_26_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_26_code. See ss_note_dsm_diag_26_code for more information.

Column Name: ss_note_dsm_diag_27_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 27'

Column Name: ss_note_dsm_diag_27_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_27_code. See ss_note_dsm_diag_27_code for more information.

Column Name: ss_note_dsm_diag_28_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 28'

Column Name: ss_note_dsm_diag_28_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_28_code. See ss_note_dsm_diag_28_code for more information.

Column Name: ss_note_dsm_diag_29_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 29'

Column Name: ss_note_dsm_diag_29_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_29_code. See ss_note_dsm_diag_29_code for more information.

Column Name: ss_note_dsm_diag_30_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 30'

Column Name: ss_note_dsm_diag_30_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_30_code. See ss_note_dsm_diag_30_code for more information.

Column Name: ss_note_icd9_diag_11_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 11'

Column Name: ss_note_icd9_diag_11_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_11_code. See ss_note_icd9_diag_11_code for more information.

Column Name: ss_note_icd9_diag_12_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 12'

Column Name: ss_note_icd9_diag_12_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_12_code. See ss_note_icd9_diag_12_code for more information.

Column Name: ss_note_icd9_diag_13_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 13'

Column Name: ss_note_icd9_diag_13_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_13_code. See ss_note_icd9_diag_13_code for more information.

Column Name: ss_note_icd9_diag_14_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 14'

Column Name: ss_note_icd9_diag_14_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_14_code. See ss_note_icd9_diag_14_code for more information.

Column Name: ss_note_icd9_diag_15_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 15'

Column Name: ss_note_icd9_diag_15_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_15_code. See ss_note_icd9_diag_15_code for more information.

Column Name: ss_note_icd9_diag_16_code

Column Type: varchar
Max Length: 20
'SS Note ICD9 Diagnosis 16'

Column Name: ss_note_icd9_diag_16_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_16_code. See ss_note_icd9_diag_16_code for more information.

Column Name: ss_note_icd9_diag_17_code
Column Type: varchar
Max Length: 20
'SS Note ICD9 Diagnosis 17'

Column Name: ss_note_icd9_diag_17_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_17_code. See ss_note_icd9_diag_17_code for more information.

Column Name: ss_note_icd9_diag_18_code
Column Type: varchar
Max Length: 20
'SS Note ICD9 Diagnosis 18'

Column Name: ss_note_icd9_diag_18_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_18_code. See ss_note_icd9_diag_18_code for more information.

Column Name: ss_note_icd9_diag_19_code
Column Type: varchar
Max Length: 20
'SS Note ICD9 Diagnosis 19'

Column Name: ss_note_icd9_diag_19_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_19_code. See ss_note_icd9_diag_19_code for more information.

Column Name: ss_note_icd9_diag_20_code
Column Type: varchar
Max Length: 20
'SS Note ICD9 Diagnosis 20'

Column Name: ss_note_icd9_diag_20_value
Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_20_code. See ss_note_icd9_diag_20_code for more information.

Column Name: ss_note_icd9_diag_21_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 21'

Column Name: ss_note_icd9_diag_21_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_21_code. See ss_note_icd9_diag_21_code for more information.

Column Name: ss_note_icd9_diag_22_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 22'

Column Name: ss_note_icd9_diag_22_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_22_code. See ss_note_icd9_diag_22_code for more information.

Column Name: ss_note_icd9_diag_23_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 23'

Column Name: ss_note_icd9_diag_23_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_23_code. See ss_note_icd9_diag_23_code for more information.

Column Name: ss_note_icd9_diag_24_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 24'

Column Name: ss_note_icd9_diag_24_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_24_code. See ss_note_icd9_diag_24_code for more information.

Column Name: ss_note_icd9_diag_25_code

Column Type: varchar

Max Length: 20
'SS Note ICD9 Diagnosis 25'

Column Name: ss_note_icd9_diag_25_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_25_code. See ss_note_icd9_diag_25_code for more information.

Column Name: ss_note_icd9_diag_26_code
Column Type: varchar
Max Length: 20
'SS Note ICD9 Diagnosis 26'

Column Name: ss_note_icd9_diag_26_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_26_code. See ss_note_icd9_diag_26_code for more information.

Column Name: ss_note_icd9_diag_27_code
Column Type: varchar
Max Length: 20
'SS Note ICD9 Diagnosis 27'

Column Name: ss_note_icd9_diag_27_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_27_code. See ss_note_icd9_diag_27_code for more information.

Column Name: ss_note_icd9_diag_28_code
Column Type: varchar
Max Length: 20
'SS Note ICD9 Diagnosis 28'

Column Name: ss_note_icd9_diag_28_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_28_code. See ss_note_icd9_diag_28_code for more information.

Column Name: ss_note_icd9_diag_29_code
Column Type: varchar
Max Length: 20
'SS Note ICD9 Diagnosis 29'

Column Name: ss_note_icd9_diag_29_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_icd9_diag_29_code`. See `ss_note_icd9_diag_29_code` for more information.

Column Name: `ss_note_icd9_diag_30_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 30'

Column Name: `ss_note_icd9_diag_30_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_30_code`. See `ss_note_icd9_diag_30_code` for more information.

Column Name: `ss_note_multi_dict_11_code`

Column Type: `varchar`

Max Length: 20

'SS Note Copy Multiple Response Dictionary 11'

Column Name: `ss_note_multi_dict_11_value`

Column Type: `varchar`

Max Length: 32700

The description associated with `ss_note_multi_dict_11_code`. See `ss_note_multi_dict_11_code` for more information.

Column Name: `ss_note_multi_dict_12_code`

Column Type: `varchar`

Max Length: 20

'SS Note Copy Multiple Response Dictionary 12'

Column Name: `ss_note_multi_dict_12_value`

Column Type: `varchar`

Max Length: 32700

The description associated with `ss_note_multi_dict_12_code`. See `ss_note_multi_dict_12_code` for more information.

Column Name: `ss_note_multi_dict_13_code`

Column Type: `varchar`

Max Length: 20

'SS Note Copy Multiple Response Dictionary 13'

Column Name: `ss_note_multi_dict_13_value`

Column Type: `varchar`

Max Length: 32700

The description associated with `ss_note_multi_dict_13_code`. See `ss_note_multi_dict_13_code` for more information.

Column Name: `ss_note_multi_dict_14_code`

Column Type: `varchar`

Max Length: 20

'SS Note Copy Multiple Response Dictionary 14'

Column Name: ss_note_multi_dict_14_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_14_code. See ss_note_multi_dict_14_code for more information.

Column Name: ss_note_multi_dict_15_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 15'

Column Name: ss_note_multi_dict_15_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_15_code. See ss_note_multi_dict_15_code for more information.

Column Name: ss_note_multi_dict_16_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 16'

Column Name: ss_note_multi_dict_16_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_16_code. See ss_note_multi_dict_16_code for more information.

Column Name: ss_note_multi_dict_17_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 17'

Column Name: ss_note_multi_dict_17_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_17_code. See ss_note_multi_dict_17_code for more information.

Column Name: ss_note_multi_dict_18_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 18'

Column Name: ss_note_multi_dict_18_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_18_code. See ss_note_multi_dict_18_code for more information.

Column Name: ss_note_multi_dict_19_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 19'

Column Name: ss_note_multi_dict_19_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_19_code. See ss_note_multi_dict_19_code for more information.

Column Name: ss_note_multi_dict_20_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 20'

Column Name: ss_note_multi_dict_20_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_20_code. See ss_note_multi_dict_20_code for more information.

Column Name: ss_note_multi_dict_21_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 21'

Column Name: ss_note_multi_dict_21_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_21_code. See ss_note_multi_dict_21_code for more information.

Column Name: ss_note_multi_dict_22_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 22'

Column Name: ss_note_multi_dict_22_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_22_code. See ss_note_multi_dict_22_code for more information.

Column Name: ss_note_multi_dict_23_code
Column Type: varchar
Max Length: 20

'SS Note Copy Multiple Response Dictionary 23'

Column Name: ss_note_multi_dict_23_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_23_code. See ss_note_multi_dict_23_code for more information.

Column Name: ss_note_multi_dict_24_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 24'

Column Name: ss_note_multi_dict_24_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_24_code. See ss_note_multi_dict_24_code for more information.

Column Name: ss_note_multi_dict_25_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 25'

Column Name: ss_note_multi_dict_25_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_25_code. See ss_note_multi_dict_25_code for more information.

Column Name: ss_note_multi_dict_26_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 26'

Column Name: ss_note_multi_dict_26_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_26_code. See ss_note_multi_dict_26_code for more information.

Column Name: ss_note_multi_dict_27_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 27'

Column Name: ss_note_multi_dict_27_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_27_code. See ss_note_multi_dict_27_code for more information.

Column Name: ss_note_multi_dict_28_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 28'

Column Name: ss_note_multi_dict_28_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_28_code. See ss_note_multi_dict_28_code for more information.

Column Name: ss_note_multi_dict_29_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 29'

Column Name: ss_note_multi_dict_29_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_29_code. See ss_note_multi_dict_29_code for more information.

Column Name: ss_note_multi_dict_30_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 30'

Column Name: ss_note_multi_dict_30_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_30_code. See ss_note_multi_dict_30_code for more information.

Column Name: ss_note_scroll_text_11
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 11'

Column Name: ss_note_scroll_text_12
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 12'

Column Name: ss_note_scroll_text_13
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 13'

Column Name: ss_note_scroll_text_14
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 14'

Column Name: ss_note_scroll_text_15
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 15'

Column Name: ss_note_scroll_text_16
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 16'

Column Name: ss_note_scroll_text_17
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 17'

Column Name: ss_note_scroll_text_18
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 18'

Column Name: ss_note_scroll_text_19
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 19'

Column Name: ss_note_scroll_text_20

Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 26'

Column Name: ss_note_scroll_text_27
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 27'

Column Name: ss_note_scroll_text_28
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 28'

Column Name: ss_note_scroll_text_29
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 29'

Column Name: ss_note_scroll_text_30
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 30'

Column Name: ss_note_sing_dict_11_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 11'

Column Name: ss_note_sing_dict_11_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_single_dict_11_code. See ss_note_single_dict_11_code for more information.

Column Name: ss_note_sing_dict_12_code
Column Type: varchar
Max Length: 50

'SS Note Single Response Dictionary 12'

Column Name: ss_note_sing_dict_12_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_12_code. See ss_note_single_dict_12_code for more information.

Column Name: ss_note_sing_dict_13_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 13'

Column Name: ss_note_sing_dict_13_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_13_code. See ss_note_single_dict_13_code for more information.

Column Name: ss_note_sing_dict_14_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 14'

Column Name: ss_note_sing_dict_14_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_14_code. See ss_note_single_dict_14_code for more information.

Column Name: ss_note_sing_dict_15_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 15'

Column Name: ss_note_sing_dict_15_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_15_code. See ss_note_single_dict_15_code for more information.

Column Name: ss_note_sing_dict_16_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 16'

Column Name: ss_note_sing_dict_16_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_16_code. See ss_note_single_dict_16_code for more information.

Column Name: ss_note_sing_dict_17_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 17'

Column Name: ss_note_sing_dict_17_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_17_code. See ss_note_single_dict_17_code for more information.

Column Name: ss_note_sing_dict_18_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 18'

Column Name: ss_note_sing_dict_18_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_18_code. See ss_note_single_dict_18_code for more information.

Column Name: ss_note_sing_dict_19_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 19'

Column Name: ss_note_sing_dict_19_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_19_code. See ss_note_single_dict_19_code for more information.

Column Name: ss_note_sing_dict_20_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 20'

Column Name: ss_note_sing_dict_20_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_20_code. See ss_note_single_dict_20_code for more information.

Column Name: ss_note_sing_dict_21_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 21'

Column Name: ss_note_sing_dict_21_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_21_code. See ss_note_single_dict_21_code for more information.

Column Name: ss_note_sing_dict_22_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 22'

Column Name: ss_note_sing_dict_22_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_22_code. See ss_note_single_dict_22_code for more information.

Column Name: ss_note_sing_dict_23_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 23'

Column Name: ss_note_sing_dict_23_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_23_code. See ss_note_single_dict_23_code for more information.

Column Name: ss_note_sing_dict_24_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 24'

Column Name: ss_note_sing_dict_24_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_24_code. See ss_note_single_dict_24_code for more information.

Column Name: ss_note_sing_dict_25_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 25'

Column Name: ss_note_sing_dict_25_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_25_code. See ss_note_single_dict_25_code for more information.

Column Name: ss_note_sing_dict_26_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 26'

Column Name: ss_note_sing_dict_26_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_26_code. See ss_note_single_dict_26_code for more information.

Column Name: ss_note_sing_dict_27_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 27'

Column Name: ss_note_sing_dict_27_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_27_code. See ss_note_single_dict_27_code for more information.

Column Name: ss_note_sing_dict_28_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 28'

Column Name: ss_note_sing_dict_28_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_28_code. See ss_note_single_dict_28_code for more information.

Column Name: ss_note_sing_dict_29_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 29'

Column Name: ss_note_sing_dict_29_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_29_code. See ss_note_single_dict_29_code for more information.

Column Name: ss_note_sing_dict_30_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 30'

Column Name: ss_note_sing_dict_30_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_30_code. See ss_note_single_dict_30_code for more information.

Column Name: ss_note_time_11

Column Type: varchar

Max Length: 50

'SS Note Time 11'

Column Name: ss_note_time_12

Column Type: varchar

Max Length: 50

'SS Note Time 12'

Column Name: ss_note_time_13

Column Type: varchar

Max Length: 50

'SS Note Time 13'

Column Name: ss_note_time_14

Column Type: varchar

Max Length: 50

'SS Note Time 14'

Column Name: ss_note_time_15

Column Type: varchar

Max Length: 50

'SS Note Time 15'

Column Name: ss_note_time_16

Column Type: varchar

Max Length: 50

'SS Note Time 16'

Column Name: ss_note_time_17

Column Type: varchar

Max Length: 50

'SS Note Time 17'

Column Name: ss_note_time_18

Column Type: varchar

Max Length: 50

'SS Note Time 18'

Column Name: ss_note_time_19

Column Type: varchar

Max Length: 50
'SS Note Time 19'

Column Name: ss_note_time_20
Column Type: varchar
Max Length: 50
'SS Note Time 20'

Column Name: ss_note_time_21
Column Type: varchar
Max Length: 50
'SS Note Time 21'

Column Name: ss_note_time_22
Column Type: varchar
Max Length: 50
'SS Note Time 22'

Column Name: ss_note_time_23
Column Type: varchar
Max Length: 50
'SS Note Time 23'

Column Name: ss_note_time_24
Column Type: varchar
Max Length: 50
'SS Note Time 24'

Column Name: ss_note_time_25
Column Type: varchar
Max Length: 50
'SS Note Time 25'

Column Name: ss_note_time_26
Column Type: varchar
Max Length: 50
'SS Note Time 26'

Column Name: ss_note_time_27
Column Type: varchar
Max Length: 50
'SS Note Time 27'

Column Name: ss_note_time_28
Column Type: varchar
Max Length: 50
'SS Note Time 28'

Column Name: ss_note_time_29
Column Type: varchar

Max Length: 50
'SS Note Time 29'

Column Name: ss_note_time_30
Column Type: varchar
Max Length: 50
'SS Note Time 30'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp_1

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp1 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
'Progress Notes Pointer'

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiler.

Column Name: confidential_note
Column Type: varchar
Max Length: 50
'Confidential Notes'

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar

Max Length: 50
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: notes_field
Column Type: varchar
Max Length: 32766
'Notes Field'

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 50
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_31
Column Type: varchar
Max Length: 20
'SS Note 20 Character 31'

Column Name: ss_note_20_char_text_32
Column Type: varchar
Max Length: 20
'SS Note 20 Character 32'

Column Name: ss_note_20_char_text_33
Column Type: varchar
Max Length: 20
'SS Note 20 Character 33'

Column Name: ss_note_20_char_text_34
Column Type: varchar
Max Length: 20
'SS Note 20 Character 34'

Column Name: ss_note_20_char_text_35
Column Type: varchar
Max Length: 20

'SS Note 20 Character 35'

Column Name: ss_note_20_char_text_36

Column Type: varchar

Max Length: 20

'SS Note 20 Character 36'

Column Name: ss_note_20_char_text_37

Column Type: varchar

Max Length: 20

'SS Note 20 Character 37'

Column Name: ss_note_20_char_text_38

Column Type: varchar

Max Length: 20

'SS Note 20 Character 38'

'SS Note DSM IV Diagnosis 31'

Column Name: ss_note_dsm_diag_31_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_31_code. See ss_note_dsm_diag_31_code for more information.

Column Name: ss_note_dsm_diag_32_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 32'

Column Name: ss_note_dsm_diag_32_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_32_code. See ss_note_dsm_diag_32_code for more information.

Column Name: ss_note_dsm_diag_33_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 33'

Column Name: ss_note_dsm_diag_33_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_33_code. See ss_note_dsm_diag_33_code for more information.

Column Name: ss_note_dsm_diag_34_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 34'

Column Name: ss_note_dsm_diag_34_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_34_code. See ss_note_dsm_diag_34_code for more information.

Column Name: ss_note_dsm_diag_35_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 35'

Column Name: ss_note_dsm_diag_35_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_35_code. See ss_note_dsm_diag_35_code for more information.

Column Name: ss_note_dsm_diag_36_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 36'

Column Name: ss_note_dsm_diag_36_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_36_code. See ss_note_dsm_diag_36_code for more information.

Column Name: ss_note_dsm_diag_37_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 37'

Column Name: ss_note_dsm_diag_37_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_37_code. See ss_note_dsm_diag_37_code for more information.

Column Name: ss_note_dsm_diag_38_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 38'

Column Name: ss_note_dsm_diag_38_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_38_code. See ss_note_dsm_diag_38_code for more information.

Column Name: ss_note_dsm_diag_39_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 39'

Column Name: ss_note_dsm_diag_39_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_39_code. See ss_note_dsm_diag_39_code for more information.

Column Name: ss_note_dsm_diag_40_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 40'

Column Name: ss_note_dsm_diag_40_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_40_code. See ss_note_dsm_diag_40_code for more information.

Column Name: ss_note_dsm_diag_41_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 41'

Column Name: ss_note_dsm_diag_41_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_41_code. See ss_note_dsm_diag_41_code for more information.

Column Name: ss_note_dsm_diag_42_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 42'

Column Name: ss_note_dsm_diag_42_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_42_code. See ss_note_dsm_diag_42_code for more information.

Column Name: ss_note_dsm_diag_43_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 43'

Column Name: ss_note_dsm_diag_43_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_43_code. See ss_note_dsm_diag_43_code for more information.

Column Name: ss_note_dsm_diag_44_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 44'

Column Name: ss_note_dsm_diag_44_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_44_code. See ss_note_dsm_diag_44_code for more information.

Column Name: ss_note_dsm_diag_45_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 45'

Column Name: ss_note_dsm_diag_45_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_45_code. See ss_note_dsm_diag_45_code for more information.

Column Name: ss_note_dsm_diag_46_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 46'

Column Name: ss_note_dsm_diag_46_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_46_code. See ss_note_dsm_diag_46_code for more information.

Column Name: ss_note_dsm_diag_47_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 47'

Column Name: ss_note_dsm_diag_47_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_47_code. See ss_note_dsm_diag_47_code for more information.

Column Name: ss_note_dsm_diag_48_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 48'

Column Name: ss_note_dsm_diag_48_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_48_code. See ss_note_dsm_diag_48_code for more information.

Column Name: ss_note_dsm_diag_49_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 49'

Column Name: ss_note_dsm_diag_49_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_49_code. See ss_note_dsm_diag_49_code for more information.

Column Name: ss_note_dsm_diag_50_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 50'

Column Name: ss_note_dsm_diag_50_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_50_code. See ss_note_dsm_diag_50_code for more information.

Column Name: ss_note_icd9_diag_31_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 31'

Column Name: ss_note_icd9_diag_31_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_31_code. See ss_note_icd9_diag_31_code for more information.

Column Name: ss_note_icd9_diag_32_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 32'

Column Name: ss_note_icd9_diag_32_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_32_code. See ss_note_icd9_diag_32_code for more information.

Column Name: ss_note_icd9_diag_33_code

Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 33'

Column Name: ss_note_icd9_diag_33_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_33_code. See ss_note_icd9_diag_33_code for more information.

Column Name: ss_note_icd9_diag_34_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 34'

Column Name: ss_note_icd9_diag_34_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_34_code. See ss_note_icd9_diag_34_code for more information.

Column Name: ss_note_icd9_diag_35_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 35'

Column Name: ss_note_icd9_diag_35_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_35_code. See ss_note_icd9_diag_35_code for more information.

Column Name: ss_note_icd9_diag_36_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 36'

Column Name: ss_note_icd9_diag_36_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_36_code. See ss_note_icd9_diag_36_code for more information.

Column Name: ss_note_icd9_diag_37_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 37'

Column Name: ss_note_icd9_diag_37_value
Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_37_code. See ss_note_icd9_diag_37_code for more information.

Column Name: ss_note_icd9_diag_38_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 38'

Column Name: ss_note_icd9_diag_38_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_38_code. See ss_note_icd9_diag_38_code for more information.

Column Name: ss_note_icd9_diag_39_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 39'

Column Name: ss_note_icd9_diag_39_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_39_code. See ss_note_icd9_diag_39_code for more information.

Column Name: ss_note_icd9_diag_40_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 40'

Column Name: ss_note_icd9_diag_40_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_40_code. See ss_note_icd9_diag_40_code for more information.

Column Name: ss_note_icd9_diag_41_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 41'

Column Name: ss_note_icd9_diag_41_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_41_code. See ss_note_icd9_diag_41_code for more information.

Column Name: ss_note_icd9_diag_42_code

Column Type: varchar

Max Length: 20
'SS Note ICD-9 Code 42'

Column Name: ss_note_icd9_diag_42_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_42_code. See ss_note_icd9_diag_42_code for more information.

Column Name: ss_note_icd9_diag_43_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 43'

Column Name: ss_note_icd9_diag_43_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_43_code. See ss_note_icd9_diag_43_code for more information.

Column Name: ss_note_icd9_diag_44_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 44'

Column Name: ss_note_icd9_diag_44_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_44_code. See ss_note_icd9_diag_44_code for more information.

Column Name: ss_note_icd9_diag_45_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 45'

Column Name: ss_note_icd9_diag_45_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_45_code. See ss_note_icd9_diag_45_code for more information.

Column Name: ss_note_icd9_diag_46_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 46'

Column Name: ss_note_icd9_diag_46_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_icd9_diag_46_code`. See `ss_note_icd9_diag_46_code` for more information.

Column Name: `ss_note_icd9_diag_47_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 47'

Column Name: `ss_note_icd9_diag_47_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_47_code`. See `ss_note_icd9_diag_47_code` for more information.

Column Name: `ss_note_icd9_diag_48_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 48'

Column Name: `ss_note_icd9_diag_48_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_48_code`. See `ss_note_icd9_diag_48_code` for more information.

Column Name: `ss_note_icd9_diag_49_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 49'

Column Name: `ss_note_icd9_diag_49_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_49_code`. See `ss_note_icd9_diag_49_code` for more information.

Column Name: `ss_note_icd9_diag_50_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 50'

Column Name: `ss_note_icd9_diag_50_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_50_code`. See `ss_note_icd9_diag_50_code` for more information.

Column Name: `ss_note_integer_1`

Column Type: `integer`

'SS Note Integer 1'

Column Name: ss_note_multi_dict_43_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 43'

Column Name: ss_note_multi_dict_43_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_43_code. See ss_note_multi_dict_43_code for more information.

Column Name: ss_note_multi_dict_44_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 44'

Column Name: ss_note_multi_dict_44_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_44_code. See ss_note_multi_dict_44_code for more information.

Column Name: ss_note_multi_dict_45_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 45'

Column Name: ss_note_multi_dict_45_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_45_code. See ss_note_multi_dict_45_code for more information.

Column Name: ss_note_multi_dict_46_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 46'

Column Name: ss_note_multi_dict_46_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_46_code. See ss_note_multi_dict_46_code for more information.

Column Name: ss_note_multi_dict_47_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 47'

Column Name: ss_note_multi_dict_47_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_47_code. See ss_note_multi_dict_47_code for more information.

Column Name: ss_note_multi_dict_48_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 48'

Column Name: ss_note_multi_dict_48_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_48_code. See ss_note_multi_dict_48_code for more information.

Column Name: ss_note_multi_dict_49_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 49'

Column Name: ss_note_multi_dict_49_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_49_code. See ss_note_multi_dict_49_code for more information.

Column Name: ss_note_multi_dict_50_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 50'

Column Name: ss_note_multi_dict_50_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_50_code. See ss_note_multi_dict_50_code for more information.

Column Name: ss_note_scroll_text_31

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Free Text 31'

Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 50'

Column Name: ss_note_sing_dict_31_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 31'

Column Name: ss_note_sing_dict_31_value
Column Type: varchar
Max Length: 80

The description associated with `ss_note_sing_dict_31_code`. See `ss_note_sing_dict_31_code` for more information.

Column Name: `ss_note_sing_dict_32_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 32'

Column Name: `ss_note_sing_dict_32_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_32_code`. See `ss_note_sing_dict_32_code` for more information.

Column Name: `ss_note_sing_dict_33_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 33'

Column Name: `ss_note_sing_dict_33_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_33_code`. See `ss_note_sing_dict_33_code` for more information.

Column Name: `ss_note_sing_dict_34_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 34'

Column Name: `ss_note_sing_dict_34_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_34_code`. See `ss_note_sing_dict_34_code` for more information.

Column Name: `ss_note_sing_dict_35_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 35'

Column Name: `ss_note_sing_dict_35_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_35_code`. See `ss_note_sing_dict_35_code` for more information.

Column Name: `ss_note_sing_dict_36_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 36'

Column Name: ss_note_sing_dict_36_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_36_code. See ss_note_sing_dict_36_code for more information.

Column Name: ss_note_sing_dict_37_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 37'

Column Name: ss_note_sing_dict_37_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_37_code. See ss_note_sing_dict_37_code for more information.

Column Name: ss_note_sing_dict_38_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 38'

Column Name: ss_note_sing_dict_38_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_38_code. See ss_note_sing_dict_38_code for more information.

Column Name: ss_note_sing_dict_39_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 39'

Column Name: ss_note_sing_dict_39_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_39_code. See ss_note_sing_dict_39_code for more information.

Column Name: ss_note_sing_dict_40_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 40'

Column Name: ss_note_sing_dict_40_value

Column Type: varchar

Max Length: 80

The description associated with `ss_note_sing_dict_40_code`. See `ss_note_sing_dict_40_code` for more information.

Column Name: `ss_note_sing_dict_41_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 41'

Column Name: `ss_note_sing_dict_41_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_41_code`. See `ss_note_sing_dict_41_code` for more information.

Column Name: `ss_note_sing_dict_42_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 42'

Column Name: `ss_note_sing_dict_42_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_42_code`. See `ss_note_sing_dict_42_code` for more information.

Column Name: `ss_note_sing_dict_43_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 43'

Column Name: `ss_note_sing_dict_43_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_43_code`. See `ss_note_sing_dict_43_code` for more information.

Column Name: `ss_note_sing_dict_44_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 44'

Column Name: `ss_note_sing_dict_44_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_44_code`. See `ss_note_sing_dict_44_code` for more information.

Column Name: `ss_note_sing_dict_45_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 45'

Column Name: ss_note_sing_dict_45_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_45_code. See ss_note_sing_dict_45_code for more information.

Column Name: ss_note_sing_dict_46_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 46'

Column Name: ss_note_sing_dict_46_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_46_code. See ss_note_sing_dict_46_code for more information.

Column Name: ss_note_sing_dict_47_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 47'

Column Name: ss_note_sing_dict_47_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_47_code. See ss_note_sing_dict_47_code for more information.

Column Name: ss_note_sing_dict_48_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 48'

Column Name: ss_note_sing_dict_48_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_48_code. See ss_note_sing_dict_48_code for more information.

Column Name: ss_note_sing_dict_49_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 49'

Column Name: ss_note_sing_dict_49_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_49_code. See ss_note_sing_dict_49_code for more information.

Column Name: ss_note_sing_dict_50_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 50'

Column Name: ss_note_sing_dict_50_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_50_code. See ss_note_sing_dict_50_code for more information.

Column Name: ss_note_time_31

Column Type: varchar

Max Length: 50

'SS Note Time 31'

Column Name: ss_note_time_32

Column Type: varchar

Max Length: 50

'SS Note Time 32'

Column Name: ss_note_time_33

Column Type: varchar

Max Length: 50

'SS Note Time 33'

Column Name: ss_note_time_34

Column Type: varchar

Max Length: 50

'SS Note Time 34'

Column Name: ss_note_time_35

Column Type: varchar

Max Length: 50

'SS Note Time 35'

Column Name: ss_note_time_36

Column Type: varchar

Max Length: 50

'SS Note Time 36'

Column Name: ss_note_time_37

Column Type: varchar

Max Length: 50

'SS Note Time 37'

Column Name: ss_note_time_38

Column Type: varchar
Max Length: 50
'SS Note Time 38'

Column Name: ss_note_time_39
Column Type: varchar
Max Length: 50
'SS Note Time 39'

Column Name: ss_note_time_40
Column Type: varchar
Max Length: 50
'SS Note Time 40'

Column Name: ss_note_time_41
Column Type: varchar
Max Length: 50
'SS Note Time 41'

Column Name: ss_note_time_42
Column Type: varchar
Max Length: 50
'SS Note Time 42'

Column Name: ss_note_time_43
Column Type: varchar
Max Length: 50
'SS Note Time 43'

Column Name: ss_note_time_44
Column Type: varchar
Max Length: 50
'SS Note Time 44'

Column Name: ss_note_time_45
Column Type: varchar
Max Length: 50
'SS Note Time 45'

Column Name: ss_note_time_46
Column Type: varchar
Max Length: 50
'SS Note Time 46'

Column Name: ss_note_time_47
Column Type: varchar
Max Length: 50
'SS Note Time 47'

Column Name: ss_note_time_48

Column Type: varchar
Max Length: 50
'SS Note Time 48'

Column Name: ss_note_time_49
Column Type: varchar
Max Length: 50
'SS Note Time 49'

Column Name: ss_note_time_50
Column Type: varchar
Max Length: 50
'SS Note Time 50'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp_2

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp2 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: NOT_uniqueid

Column Type: varchar

Max Length: 50

The unique ID associated with the note.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: PREFILEID

Column Type: varchar

Max Length: 50

The unique ID associated with the prefiller.

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 255

The name of the form that last updated the row.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_note_integer_10
Column Type: integer

Column Type: varchar
Max Length: 20
'SS Note Staff Member 44'

Column Name: ss_note_staff_45
Column Type: varchar
Max Length: 20
'SS Note Staff Member 45'

Column Name: ss_note_staff_46
Column Type: varchar
Max Length: 20
'SS Note Staff Member 46'

Column Name: ss_note_staff_47
Column Type: varchar
Max Length: 20
'SS Note Staff Member 47'

Column Name: ss_note_staff_48
Column Type: varchar
Max Length: 20
'SS Note Staff Member 48'

Column Name: ss_note_staff_49
Column Type: varchar
Max Length: 20
'SS Note Staff Member 49'

Column Name: ss_note_staff_50
Column Type: varchar
Max Length: 20
'SS Note Staff Member 50'

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp_3

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp3 table.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the row.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: NOT_uniqueid

Column Type: varchar

Max Length: 50

The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar

Max Length: 50

The form number of the form that last updated the row.

Column Name: option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: ss_notec_multi_dict_10_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 10'

Column Name: ss_notec_multi_dict_10_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_10_code. See ss_notec_multi_dict_10_code for more information.

Column Name: ss_notec_multi_dict_11_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 11'

Column Name: ss_notec_multi_dict_11_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_11_code. See ss_notec_multi_dict_11_code for more information.

Column Name: ss_notec_multi_dict_12_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 12'

Column Name: ss_notec_multi_dict_12_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_12_code. See ss_notec_multi_dict_12_code for more information.

Column Name: ss_notec_multi_dict_13_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 13'

Column Name: ss_notec_multi_dict_13_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_13_code. See ss_notec_multi_dict_13_code for more information.

Column Name: ss_notec_multi_dict_14_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 14'

Column Name: ss_notec_multi_dict_14_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_14_code. See ss_notec_multi_dict_14_code for more information.

Column Name: ss_notec_multi_dict_15_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 15'

Column Name: ss_notec_multi_dict_15_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_15_code. See ss_notec_multi_dict_15_code for more information.

Column Name: ss_notec_multi_dict_16_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 16'

Column Name: ss_notec_multi_dict_16_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_16_code. See ss_notec_multi_dict_16_code for more information.

Column Name: ss_notec_multi_dict_17_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 17'

Column Name: ss_notec_multi_dict_17_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_17_code. See ss_notec_multi_dict_17_code for more information.

Column Name: ss_notec_multi_dict_18_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 18'

Column Name: ss_notec_multi_dict_18_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_18_code. See ss_notec_multi_dict_18_code for more information.

Column Name: ss_notec_multi_dict_19_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 19'

Column Name: ss_notec_multi_dict_19_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_19_code. See ss_notec_multi_dict_19_code for more information.

Column Name: ss_notec_multi_dict_1_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 1'

Column Name: ss_notec_multi_dict_1_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_1_code. See ss_notec_multi_dict_1_code for more information.

Column Name: ss_notec_multi_dict_20_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 20'

Column Name: ss_notec_multi_dict_20_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_20_code. See ss_notec_multi_dict_20_code for more information.

Column Name: ss_notec_multi_dict_21_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 21'

Column Name: ss_notec_multi_dict_21_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_21_code. See ss_notec_multi_dict_21_code for more information.

Column Name: ss_notec_multi_dict_22_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 22'

Column Name: ss_notec_multi_dict_22_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_22_code. See ss_notec_multi_dict_22_code for more information.

Column Name: ss_notec_multi_dict_23_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 23'

Column Name: ss_notec_multi_dict_23_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_23_code. See ss_notec_multi_dict_23_code for more information.

Column Name: ss_notec_multi_dict_24_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 24'

Column Name: ss_notec_multi_dict_24_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_24_code. See ss_notec_multi_dict_24_code for more information.

Column Name: ss_notec_multi_dict_25_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 25'

Column Name: ss_notec_multi_dict_25_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_25_code. See ss_notec_multi_dict_25_code for more information.

Column Name: ss_notec_multi_dict_26_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 26'

Column Name: ss_notec_multi_dict_26_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_26_code. See ss_notec_multi_dict_26_code for more information.

Column Name: ss_notec_multi_dict_27_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 27'

Column Name: ss_notec_multi_dict_27_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_27_code. See ss_notec_multi_dict_27_code for more information.

Column Name: ss_notec_multi_dict_28_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 28'

Column Name: ss_notec_multi_dict_28_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_28_code. See ss_notec_multi_dict_28_code for more information.

Column Name: ss_notec_multi_dict_29_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 29'

Column Name: ss_notec_multi_dict_29_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_29_code. See ss_notec_multi_dict_29_code for more information.

Column Name: ss_notec_multi_dict_2_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 2'

Column Name: ss_notec_multi_dict_2_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_2_code. See ss_notec_multi_dict_2_code for more information.

Column Name: ss_notec_multi_dict_30_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 30'

Column Name: ss_notec_multi_dict_30_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_30_code. See ss_notec_multi_dict_30_code for more information.

Column Name: ss_notec_multi_dict_31_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 31'

Column Name: ss_notec_multi_dict_31_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_31_code. See ss_notec_multi_dict_31_code for more information.

Column Name: ss_notec_multi_dict_32_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 32'

Column Name: ss_notec_multi_dict_32_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_32_code. See ss_notec_multi_dict_32_code for more information.

Column Name: ss_notec_multi_dict_33_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 33'

Column Name: ss_notec_multi_dict_33_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_33_code. See ss_notec_multi_dict_33_code for more information.

Column Name: ss_notec_multi_dict_34_code

Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 34'

Column Name: ss_notec_multi_dict_34_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_34_code. See ss_notec_multi_dict_34_code for more information.

Column Name: ss_notec_multi_dict_35_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 35'

Column Name: ss_notec_multi_dict_35_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_35_code. See ss_notec_multi_dict_35_code for more information.

Column Name: ss_notec_multi_dict_36_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 36'

Column Name: ss_notec_multi_dict_36_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_36_code. See ss_notec_multi_dict_36_code for more information.

Column Name: ss_notec_multi_dict_37_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 37'

Column Name: ss_notec_multi_dict_37_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_37_code. See ss_notec_multi_dict_37_code for more information.

Column Name: ss_notec_multi_dict_38_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 38'

Column Name: ss_notec_multi_dict_38_value
Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_38_code. See ss_notec_multi_dict_38_code for more information.

Column Name: ss_notec_multi_dict_39_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 39'

Column Name: ss_notec_multi_dict_39_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_39_code. See ss_notec_multi_dict_39_code for more information.

Column Name: ss_notec_multi_dict_3_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 3'

Column Name: ss_notec_multi_dict_3_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_3_code. See ss_notec_multi_dict_3_code for more information.

Column Name: ss_notec_multi_dict_40_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 40'

Column Name: ss_notec_multi_dict_40_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_40_code. See ss_notec_multi_dict_40_code for more information.

Column Name: ss_notec_multi_dict_41_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 41'

Column Name: ss_notec_multi_dict_41_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_41_code. See ss_notec_multi_dict_41_code for more information.

Column Name: ss_notec_multi_dict_42_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 42'

Column Name: ss_notec_multi_dict_42_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_42_code. See ss_notec_multi_dict_42_code for more information.

Column Name: ss_notec_multi_dict_43_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 43'

Column Name: ss_notec_multi_dict_43_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_43_code. See ss_notec_multi_dict_43_code for more information.

Column Name: ss_notec_multi_dict_44_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 44'

Column Name: ss_notec_multi_dict_44_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_44_code. See ss_notec_multi_dict_44_code for more information.

Column Name: ss_notec_multi_dict_45_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 45'

Column Name: ss_notec_multi_dict_45_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_45_code. See ss_notec_multi_dict_45_code for more information.

Column Name: ss_notec_multi_dict_46_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 46'

Column Name: ss_notec_multi_dict_46_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_46_code. See ss_notec_multi_dict_46_code for more information.

Column Name: ss_notec_multi_dict_47_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 47'

Column Name: ss_notec_multi_dict_47_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_47_code. See ss_notec_multi_dict_47_code for more information.

Column Name: ss_notec_multi_dict_48_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 48'

Column Name: ss_notec_multi_dict_48_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_48_code. See ss_notec_multi_dict_48_code for more information.

Column Name: ss_notec_multi_dict_49_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 49'

Column Name: ss_notec_multi_dict_49_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_49_code. See ss_notec_multi_dict_49_code for more information.

Column Name: ss_notec_multi_dict_4_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 4'

Column Name: ss_notec_multi_dict_4_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_4_code. See ss_notec_multi_dict_4_code for more information.

Column Name: ss_notec_multi_dict_50_code
Column Type: varchar
Max Length: 255

'SS Note Copy Multiple Response Dictionary 50'

Column Name: ss_notec_multi_dict_50_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_50_code. See ss_notec_multi_dict_50_code for more information.

Column Name: ss_notec_multi_dict_5_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 5'

Column Name: ss_notec_multi_dict_5_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_5_code. See ss_notec_multi_dict_5_code for more information.

Column Name: ss_notec_multi_dict_6_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 6'

Column Name: ss_notec_multi_dict_6_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_6_code. See ss_notec_multi_dict_6_code for more information.

Column Name: ss_notec_multi_dict_7_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 7'

Column Name: ss_notec_multi_dict_7_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_7_code. See ss_notec_multi_dict_7_code for more information.

Column Name: ss_notec_multi_dict_8_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 8'

Column Name: ss_notec_multi_dict_8_value

Column Type: varchar

Max Length: 32759

The description associated with `ss_notec_multi_dict_8_code`. See `ss_notec_multi_dict_8_code` for more information.

Column Name: `ss_notec_multi_dict_9_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 9'

Column Name: `ss_notec_multi_dict_9_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_9_code`. See `ss_notec_multi_dict_9_code` for more information.

Column Name: `ss_notec_sing_dict_10_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 10'

Column Name: `ss_notec_sing_dict_10_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notec_sing_dict_10_code`. See `ss_notec_sing_dict_10_code` for more information.

Column Name: `ss_notec_sing_dict_11_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 11'

Column Name: `ss_notec_sing_dict_11_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notec_sing_dict_11_code`. See `ss_notec_sing_dict_11_code` for more information.

Column Name: `ss_notec_sing_dict_12_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 12'

Column Name: `ss_notec_sing_dict_12_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notec_sing_dict_12_code`. See `ss_notec_sing_dict_12_code` for more information.

Column Name: `ss_notec_sing_dict_13_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Single Response Dictionary 13'

Column Name: ss_notec_sing_dict_13_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_13_code. See ss_notec_sing_dict_13_code for more information.

Column Name: ss_notec_sing_dict_14_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 14'

Column Name: ss_notec_sing_dict_14_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_14_code. See ss_notec_sing_dict_14_code for more information.

Column Name: ss_notec_sing_dict_15_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 15'

Column Name: ss_notec_sing_dict_15_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_15_code. See ss_notec_sing_dict_15_code for more information.

Column Name: ss_notec_sing_dict_16_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 16'

Column Name: ss_notec_sing_dict_16_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_16_code. See ss_notec_sing_dict_16_code for more information.

Column Name: ss_notec_sing_dict_17_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 17'

Column Name: ss_notec_sing_dict_17_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_17_code. See ss_notec_sing_dict_17_code for more information.

Column Name: ss_notec_sing_dict_18_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 18'

Column Name: ss_notec_sing_dict_18_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_18_code. See ss_notec_sing_dict_18_code for more information.

Column Name: ss_notec_sing_dict_19_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 19'

Column Name: ss_notec_sing_dict_19_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_19_code. See ss_notec_sing_dict_19_code for more information.

Column Name: ss_notec_sing_dict_1_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 1'

Column Name: ss_notec_sing_dict_1_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_1_code. See ss_notec_sing_dict_1_code for more information.

Column Name: ss_notec_sing_dict_20_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 20'

Column Name: ss_notec_sing_dict_20_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_20_code. See ss_notec_sing_dict_20_code for more information.

Column Name: ss_notec_sing_dict_21_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 21'

Column Name: ss_notec_sing_dict_21_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_21_code. See ss_notec_sing_dict_21_code for more information.

Column Name: ss_notec_sing_dict_22_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 22'

Column Name: ss_notec_sing_dict_22_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_22_code. See ss_notec_sing_dict_22_code for more information.

Column Name: ss_notec_sing_dict_23_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 23'

Column Name: ss_notec_sing_dict_23_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_23_code. See ss_notec_sing_dict_23_code for more information.

Column Name: ss_notec_sing_dict_24_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 24'

Column Name: ss_notec_sing_dict_24_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_24_code. See ss_notec_sing_dict_24_code for more information.

Column Name: ss_notec_sing_dict_25_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 25'

Column Name: ss_notec_sing_dict_25_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_25_code. See ss_notec_sing_dict_25_code for more information.

Column Name: ss_notec_sing_dict_26_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 26'

Column Name: ss_notec_sing_dict_26_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_26_code. See ss_notec_sing_dict_26_code for more information.

Column Name: ss_notec_sing_dict_27_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 27'

Column Name: ss_notec_sing_dict_27_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_27_code. See ss_notec_sing_dict_27_code for more information.

Column Name: ss_notec_sing_dict_28_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 28'

Column Name: ss_notec_sing_dict_28_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_28_code. See ss_notec_sing_dict_28_code for more information.

Column Name: ss_notec_sing_dict_29_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 29'

Column Name: ss_notec_sing_dict_29_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_29_code. See ss_notec_sing_dict_29_code for more information.

Column Name: ss_notec_sing_dict_2_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 2'

Column Name: ss_notec_sing_dict_2_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_2_code. See ss_notec_sing_dict_2_code for more information.

Column Name: ss_notec_sing_dict_30_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 30'

Column Name: ss_notec_sing_dict_30_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_30_code. See ss_notec_sing_dict_30_code for more information.

Column Name: ss_notec_sing_dict_31_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 31'

Column Name: ss_notec_sing_dict_31_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_31_code. See ss_notec_sing_dict_31_code for more information.

Column Name: ss_notec_sing_dict_32_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 32'

Column Name: ss_notec_sing_dict_32_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_32_code. See ss_notec_sing_dict_32_code for more information.

Column Name: ss_notec_sing_dict_33_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 33'

Column Name: ss_notec_sing_dict_33_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_33_code. See ss_notec_sing_dict_33_code for more information.

Column Name: ss_notec_sing_dict_34_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 34'

Column Name: ss_notec_sing_dict_34_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_34_code. See ss_notec_sing_dict_34_code for more information.

Column Name: ss_notec_sing_dict_35_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 35'

Column Name: ss_notec_sing_dict_35_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_35_code. See ss_notec_sing_dict_35_code for more information.

Column Name: ss_notec_sing_dict_36_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 36'

Column Name: ss_notec_sing_dict_36_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_36_code. See ss_notec_sing_dict_36_code for more information.

Column Name: ss_notec_sing_dict_37_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 37'

Column Name: ss_notec_sing_dict_37_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_37_code. See ss_notec_sing_dict_37_code for more information.

Column Name: ss_notec_sing_dict_38_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 38'

Column Name: ss_notec_sing_dict_38_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_38_code. See ss_notec_sing_dict_38_code for more information.

Column Name: ss_notec_sing_dict_39_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 39'

Column Name: ss_notec_sing_dict_39_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_39_code. See ss_notec_sing_dict_39_code for more information.

Column Name: ss_notec_sing_dict_3_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 3'

Column Name: ss_notec_sing_dict_3_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_3_code. See ss_notec_sing_dict_3_code for more information.

Column Name: ss_notec_sing_dict_40_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 40'

Column Name: ss_notec_sing_dict_40_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_40_code. See ss_notec_sing_dict_40_code for more information.

Column Name: ss_notec_sing_dict_41_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 41'

Column Name: ss_notec_sing_dict_41_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_41_code. See ss_notec_sing_dict_41_code for more information.

Column Name: ss_notec_sing_dict_42_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 42'

Column Name: ss_notec_sing_dict_42_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_42_code. See ss_notec_sing_dict_42_code for more information.

Column Name: ss_notec_sing_dict_43_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 43'

Column Name: ss_notec_sing_dict_43_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_43_code. See ss_notec_sing_dict_43_code for more information.

Column Name: ss_notec_sing_dict_44_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 44'

Column Name: ss_notec_sing_dict_44_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_44_code. See ss_notec_sing_dict_44_code for more information.

Column Name: ss_notec_sing_dict_45_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 45'

Column Name: ss_notec_sing_dict_45_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_45_code. See ss_notec_sing_dict_45_code for more information.

Column Name: ss_notec_sing_dict_46_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 46'

Column Name: ss_notec_sing_dict_46_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_46_code. See ss_notec_sing_dict_46_code for more information.

Column Name: ss_notec_sing_dict_47_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 47'

Column Name: ss_notec_sing_dict_47_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_47_code. See ss_notec_sing_dict_47_code for more information.

Column Name: ss_notec_sing_dict_48_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 48'

Column Name: ss_notec_sing_dict_48_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_48_code. See ss_notec_sing_dict_48_code for more information.

Column Name: ss_notec_sing_dict_49_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 49'

Column Name: ss_notec_sing_dict_49_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_49_code. See ss_notec_sing_dict_49_code for more information.

Column Name: ss_notec_sing_dict_4_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 4'

Column Name: ss_notec_sing_dict_4_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_4_code. See ss_notec_sing_dict_4_code for more information.

Column Name: ss_notec_sing_dict_50_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 50'

Column Name: ss_notec_sing_dict_50_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_50_code. See ss_notec_sing_dict_50_code for more information.

Column Name: ss_notec_sing_dict_5_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 5'

Column Name: ss_notec_sing_dict_5_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_5_code. See ss_notec_sing_dict_5_code for more information.

Column Name: ss_notec_sing_dict_6_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 6'

Column Name: ss_notec_sing_dict_6_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_6_code. See ss_notec_sing_dict_6_code for more information.

Column Name: ss_notec_sing_dict_7_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 7'

Column Name: ss_notec_sing_dict_7_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_7_code. See ss_notec_sing_dict_7_code for more information.

Column Name: ss_notec_sing_dict_8_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 8'

Column Name: ss_notec_sing_dict_8_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_8_code. See ss_notec_sing_dict_8_code for more information.

Column Name: ss_notec_sing_dict_9_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 9'

Column Name: ss_notec_sing_dict_9_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_9_code. See ss_notec_sing_dict_9_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp_4

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp4 table.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the service.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a progress note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notc_mult_dic_51_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 51'

Column Name: ss_notc_mult_dic_51_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_51_code. See ss_notc_mult_dic_51_code for more information.

Column Name: ss_notc_mult_dic_52_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 52'

Column Name: ss_notc_mult_dic_52_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_52_code. See ss_notc_mult_dic_52_code for more information.

Column Name: ss_notc_mult_dic_53_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 53'

Column Name: ss_notc_mult_dic_53_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_53_code. See ss_notc_mult_dic_53_code for more information.

Column Name: ss_notc_mult_dic_54_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 54'

Column Name: ss_notc_mult_dic_54_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_54_code. See ss_notc_mult_dic_54_code for more information.

Column Name: ss_notc_mult_dic_55_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 55'

Column Name: ss_notc_mult_dic_55_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_55_code. See ss_notc_mult_dic_55_code for more information.

Column Name: ss_notc_mult_dic_56_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 56'

Column Name: ss_notc_mult_dic_56_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_56_code. See ss_notc_mult_dic_56_code for more information.

Column Name: ss_notc_mult_dic_57_code

Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 57'

Column Name: ss_notc_mult_dic_57_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_57_code. See ss_notc_mult_dic_57_code for more information.

Column Name: ss_notc_mult_dic_58_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 58'

Column Name: ss_notc_mult_dic_58_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_58_code. See ss_notc_mult_dic_58_code for more information.

Column Name: ss_notc_mult_dic_59_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 59'

Column Name: ss_notc_mult_dic_59_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_59_code. See ss_notc_mult_dic_59_code for more information.

Column Name: ss_notc_mult_dic_60_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 60'

Column Name: ss_notc_mult_dic_60_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_60_code. See ss_notc_mult_dic_60_code for more information.

Column Name: ss_notc_mult_dic_61_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 61'

Column Name: ss_notc_mult_dic_61_value
Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_61_code. See ss_notc_mult_dic_61_code for more information.

Column Name: ss_notc_mult_dic_62_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 62'

Column Name: ss_notc_mult_dic_62_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_62_code. See ss_notc_mult_dic_62_code for more information.

Column Name: ss_notc_mult_dic_63_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 63'

Column Name: ss_notc_mult_dic_63_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_63_code. See ss_notc_mult_dic_63_code for more information.

Column Name: ss_notc_mult_dic_64_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 64'

Column Name: ss_notc_mult_dic_64_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_64_code. See ss_notc_mult_dic_64_code for more information.

Column Name: ss_notc_mult_dic_65_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 65'

Column Name: ss_notc_mult_dic_65_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_mult_dic_65_code. See ss_notc_mult_dic_65_code for more information.

Column Name: ss_notc_mult_dic_66_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 66'

Column Name: ss_notc_mult_dic_66_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_66_code. See ss_notc_mult_dic_66_code for more information.

Column Name: ss_notc_mult_dic_67_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 67'

Column Name: ss_notc_mult_dic_67_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_67_code. See ss_notc_mult_dic_67_code for more information.

Column Name: ss_notc_mult_dic_68_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 68'

Column Name: ss_notc_mult_dic_68_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_68_code. See ss_notc_mult_dic_68_code for more information.

Column Name: ss_notc_mult_dic_69_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 69'

Column Name: ss_notc_mult_dic_69_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_69_code. See ss_notc_mult_dic_69_code for more information.

Column Name: ss_notc_mult_dic_70_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 70'

Column Name: ss_notc_mult_dic_70_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mult_dic_70_code`. See `ss_notc_mult_dic_70_code` for more information.

Column Name: `ss_notc_mult_dic_71_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 71'

Column Name: `ss_notc_mult_dic_71_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_71_code`. See `ss_notc_mult_dic_71_code` for more information.

Column Name: `ss_notc_mult_dic_72_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 72'

Column Name: `ss_notc_mult_dic_72_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_72_code`. See `ss_notc_mult_dic_72_code` for more information.

Column Name: `ss_notc_mult_dic_73_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 73'

Column Name: `ss_notc_mult_dic_73_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_73_code`. See `ss_notc_mult_dic_73_code` for more information.

Column Name: `ss_notc_mult_dic_74_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 74'

Column Name: `ss_notc_mult_dic_74_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_74_code`. See `ss_notc_mult_dic_74_code` for more information.

Column Name: `ss_notc_mult_dic_75_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 75'

Column Name: ss_notc_mult_dic_75_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_mult_dic_75_code. See ss_notc_mult_dic_75_code for more information.

Column Name: ss_notc_mult_dic_76_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 76'

Column Name: ss_notc_mult_dic_76_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_76_code. See ss_notc_mult_dic_76_code for more information.

Column Name: ss_notc_mult_dic_77_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 77'

Column Name: ss_notc_mult_dic_77_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_77_code. See ss_notc_mult_dic_77_code for more information.

Column Name: ss_notc_mult_dic_78_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 78'

Column Name: ss_notc_mult_dic_78_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_78_code. See ss_notc_mult_dic_78_code for more information.

Column Name: ss_notc_mult_dic_79_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 79'

Column Name: ss_notc_mult_dic_79_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mult_dic_79_code`. See `ss_notc_mult_dic_79_code` for more information.

Column Name: `ss_notc_mult_dic_80_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 80'

Column Name: `ss_notc_mult_dic_80_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_80_code`. See `ss_notc_mult_dic_80_code` for more information.

Column Name: `ss_notc_sin_dic_51_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Single Response Dictionary 51'

Column Name: `ss_notc_sin_dic_51_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_sin_dic_51_code`. See `ss_notc_sin_dic_51_code` for more information.

Column Name: `ss_notc_sin_dic_52_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Single Response Dictionary 52'

Column Name: `ss_notc_sin_dic_52_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_sin_dic_52_code`. See `ss_notc_sin_dic_52_code` for more information.

Column Name: `ss_notc_sin_dic_53_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Single Response Dictionary 53'

Column Name: `ss_notc_sin_dic_53_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_sin_dic_53_code`. See `ss_notc_sin_dic_53_code` for more information.

Column Name: `ss_notc_sin_dic_54_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Single Response Dictionary 54'

Column Name: ss_notc_sin_dic_54_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_54_code. See ss_notc_sin_dic_54_code for more information.

Column Name: ss_notc_sin_dic_55_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 55'

Column Name: ss_notc_sin_dic_55_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_55_code. See ss_notc_sin_dic_55_code for more information.

Column Name: ss_notc_sin_dic_56_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 56'

Column Name: ss_notc_sin_dic_56_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_56_code. See ss_notc_sin_dic_56_code for more information.

Column Name: ss_notc_sin_dic_57_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 57'

Column Name: ss_notc_sin_dic_57_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_57_code. See ss_notc_sin_dic_57_code for more information.

Column Name: ss_notc_sin_dic_58_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 58'

Column Name: ss_notc_sin_dic_58_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_58_code. See ss_notc_sin_dic_58_code for more information.

Column Name: ss_notc_sin_dic_59_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 59'

Column Name: ss_notc_sin_dic_59_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_59_code. See ss_notc_sin_dic_59_code for more information.

Column Name: ss_notc_sin_dic_60_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 60'

Column Name: ss_notc_sin_dic_60_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_60_code. See ss_notc_sin_dic_60_code for more information.

Column Name: ss_notc_sin_dic_61_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 61'

Column Name: ss_notc_sin_dic_61_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_61_code. See ss_notc_sin_dic_61_code for more information.

Column Name: ss_notc_sin_dic_62_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 62'

Column Name: ss_notc_sin_dic_62_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_62_code. See ss_notc_sin_dic_62_code for more information.

Column Name: ss_notc_sin_dic_63_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 63'

Column Name: ss_notc_sin_dic_63_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_63_code. See ss_notc_sin_dic_63_code for more information.

Column Name: ss_notc_sin_dic_64_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 64'

Column Name: ss_notc_sin_dic_64_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_64_code. See ss_notc_sin_dic_64_code for more information.

Column Name: ss_notc_sin_dic_65_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 65'

Column Name: ss_notc_sin_dic_65_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_sin_dic_65_code. See ss_notc_sin_dic_65_code for more information.

Column Name: ss_notc_sin_dic_66_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 66'

Column Name: ss_notc_sin_dic_66_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_66_code. See ss_notc_sin_dic_66_code for more information.

Column Name: ss_notc_sin_dic_67_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 67'

Column Name: ss_notc_sin_dic_67_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_67_code. See ss_notc_sin_dic_67_code for more information.

Column Name: ss_notc_sin_dic_68_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 68'

Column Name: ss_notc_sin_dic_68_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_68_code. See ss_notc_sin_dic_68_code for more information.

Column Name: ss_notc_sin_dic_69_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 69'

Column Name: ss_notc_sin_dic_69_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_69_code. See ss_notc_sin_dic_69_code for more information.

Column Name: ss_notc_sin_dic_70_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 70'

Column Name: ss_notc_sin_dic_70_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_70_code. See ss_notc_sin_dic_70_code for more information.

Column Name: ss_notc_sin_dic_71_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 71'

Column Name: ss_notc_sin_dic_71_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_71_code. See ss_notc_sin_dic_71_code for more information.

Column Name: ss_notc_sin_dic_72_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 72'

Column Name: ss_notc_sin_dic_72_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_72_code. See ss_notc_sin_dic_72_code for more information.

Column Name: ss_notc_sin_dic_73_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 73'

Column Name: ss_notc_sin_dic_73_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_73_code. See ss_notc_sin_dic_73_code for more information.

Column Name: ss_notc_sin_dic_74_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 74'

Column Name: ss_notc_sin_dic_74_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_74_code. See ss_notc_sin_dic_74_code for more information.

Column Name: ss_notc_sin_dic_75_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 75'

Column Name: ss_notc_sin_dic_75_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_sin_dic_75_code. See ss_notc_sin_dic_75_code for more information.

Column Name: ss_notc_sin_dic_76_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 76'

Column Name: ss_notc_sin_dic_76_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_76_code. See ss_notc_sin_dic_76_code for more information.

Column Name: ss_notc_sin_dic_77_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 77'

Column Name: ss_notc_sin_dic_77_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_77_code. See ss_notc_sin_dic_77_code for more information.

Column Name: ss_notc_sin_dic_78_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 78'

Column Name: ss_notc_sin_dic_78_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_78_code. See ss_notc_sin_dic_78_code for more information.

Column Name: ss_notc_sin_dic_79_code
Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_70_code. See ss_note_mul_dict_70_code for more information.

Column Name: ss_note_mul_dict_71_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 71'

Column Name: ss_note_mul_dict_71_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_71_code limited to 255 characters. See ss_note_mul_dict_71_code for more information.

Column Name: ss_note_mul_dict_71_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_71_code. See ss_note_mul_dict_71_code for more information.

Column Name: ss_note_mul_dict_72_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 72'

Column Name: ss_note_mul_dict_72_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_72_code limited to 255 characters. See ss_note_mul_dict_72_code for more information.

Column Name: ss_note_mul_dict_72_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_72_code. See ss_note_mul_dict_72_code for more information.

Column Name: ss_note_mul_dict_73_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 73'

Column Name: ss_note_mul_dict_73_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_73_code limited to 255 characters. See ss_note_mul_dict_73_code for more information.

Column Name: ss_note_mul_dict_73_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_73_code. See ss_note_mul_dict_73_code for more information.

Column Name: ss_note_mul_dict_74_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 74'

Column Name: ss_note_mul_dict_74_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_74_code limited to 255 characters. See ss_note_mul_dict_74_code for more information.

Column Name: ss_note_mul_dict_74_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_74_code. See ss_note_mul_dict_74_code for more information.

Column Name: ss_note_mul_dict_75_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 75'

Column Name: ss_note_mul_dict_75_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_75_code limited to 255 characters. See ss_note_mul_dict_75_code for more information.

Column Name: ss_note_mul_dict_75_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_75_code. See ss_note_mul_dict_75_code for more information.

Column Name: ss_note_mul_dict_76_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 76'

Column Name: ss_note_mul_dict_76_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_76_code limited to 255 characters. See ss_note_mul_dict_76_code for more information.

Column Name: ss_note_mul_dict_76_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_76_code. See ss_note_mul_dict_76_code for more information.

Column Name: ss_note_mul_dict_77_code

Column Type: varchar

Column Name: ss_note_sin_dict_56_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_56_code. See ss_note_sin_dict_56_code for more information.

Column Name: ss_note_sin_dict_57_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 57'

Column Name: ss_note_sin_dict_57_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_57_code. See ss_note_sin_dict_57_code for more information.

Column Name: ss_note_sin_dict_58_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 58'

Column Name: ss_note_sin_dict_58_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_58_code. See ss_note_sin_dict_58_code for more information.

Column Name: ss_note_sin_dict_59_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 59'

Column Name: ss_note_sin_dict_59_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_59_code. See ss_note_sin_dict_59_code for more information.

Column Name: ss_note_sin_dict_60_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 60'

Column Name: ss_note_sin_dict_60_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_60_code. See ss_note_sin_dict_60_code for more information.

Column Name: ss_note_sin_dict_61_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 61'

Column Name: ss_note_sin_dict_61_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_61_code. See ss_note_sin_dict_61_code for more information.

Column Name: ss_note_sin_dict_62_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 62'

Column Name: ss_note_sin_dict_62_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_62_code. See ss_note_sin_dict_62_code for more information.

Column Name: ss_note_sin_dict_63_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 63'

Column Name: ss_note_sin_dict_63_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_63_code. See ss_note_sin_dict_63_code for more information.

Column Name: ss_note_sin_dict_64_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 64'

Column Name: ss_note_sin_dict_64_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_64_code. See ss_note_sin_dict_64_code for more information.

Column Name: ss_note_sin_dict_65_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 65'

Column Name: ss_note_sin_dict_65_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_65_code. See ss_note_sin_dict_65_code for more information.

Column Name: ss_note_sin_dict_66_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 66'

Column Name: ss_note_sin_dict_66_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_66_code. See ss_note_sin_dict_66_code for more information.

Column Name: ss_note_sin_dict_67_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 67'

Column Name: ss_note_sin_dict_67_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_67_code. See ss_note_sin_dict_67_code for more information.

Column Name: ss_note_sin_dict_68_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 68'

Column Name: ss_note_sin_dict_68_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_68_code. See ss_note_sin_dict_68_code for more information.

Column Name: ss_note_sin_dict_69_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 69'

Column Name: ss_note_sin_dict_69_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_69_code. See ss_note_sin_dict_69_code for more information.

Column Name: ss_note_sin_dict_70_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 70'

Column Name: ss_note_sin_dict_70_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_70_code. See ss_note_sin_dict_70_code for more information.

Column Name: ss_note_sin_dict_71_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 71'

Column Name: ss_note_sin_dict_71_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_71_code. See ss_note_sin_dict_71_code for more information.

Column Name: ss_note_sin_dict_72_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 72'

Column Name: ss_note_sin_dict_72_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_72_code. See ss_note_sin_dict_72_code for more information.

Column Name: ss_note_sin_dict_73_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 73'

Column Name: ss_note_sin_dict_73_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_73_code. See ss_note_sin_dict_73_code for more information.

Column Name: ss_note_sin_dict_74_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 74'

Column Name: ss_note_sin_dict_74_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_74_code. See ss_note_sin_dict_74_code for more information.

Column Name: ss_note_sin_dict_75_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 75'

Column Name: ss_note_sin_dict_75_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_75_code. See ss_note_sin_dict_75_code for more information.

Column Name: ss_note_sin_dict_76_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 76'

Column Name: ss_note_sin_dict_76_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_76_code. See ss_note_sin_dict_76_code for more information.

Column Name: ss_note_sin_dict_77_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 77'

Column Name: ss_note_sin_dict_77_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_77_code. See ss_note_sin_dict_77_code for more information.

Column Name: ss_note_sin_dict_78_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 78'

Column Name: ss_note_sin_dict_78_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_78_code. See ss_note_sin_dict_78_code for more information.

Column Name: ss_note_sin_dict_79_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 79'

Column Name: ss_note_sin_dict_79_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_79_code. See ss_note_sin_dict_79_code for more information.

Column Name: ss_note_sin_dict_80_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 80'

Column Name: ss_note_sin_dict_80_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_80_code. See ss_note_sin_dict_80_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp_5

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp5 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID

Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: ebp_code
Column Type: varchar
Max Length: 50
'Evidence-Based Practices'

Column Name: ebp_element_code
Column Type: varchar
Max Length: 50
'Evidence-Based Practice Elements'

Column Name: ebp_element_value
Column Type: varchar
Max Length: 32000
The description associated with ebp_element_code

Column Name: ebp_value
Column Type: varchar
Max Length: 32000
The description associated with ebp_code

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notc_mul_dic_100_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 100'

Column Name: ss_notc_mul_dic_100_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_100_code. See ss_notc_mul_dic_100_code for more information.

Column Name: ss_notc_mul_dic_101_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 101'

Column Name: ss_notc_mul_dic_101_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_101_code. See ss_notc_mul_dic_101_code for more information.

Column Name: ss_notc_mul_dic_102_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 102'

Column Name: ss_notc_mul_dic_102_value
Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_102_code. See ss_notc_mul_dic_102_code for more information.

Column Name: ss_notc_mul_dic_103_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 103'

Column Name: ss_notc_mul_dic_103_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_103_code. See ss_notc_mul_dic_103_code for more information.

Column Name: ss_notc_mul_dic_104_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 104'

Column Name: ss_notc_mul_dic_104_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_104_code. See ss_notc_mul_dic_104_code for more information.

Column Name: ss_notc_mul_dic_105_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 105'

Column Name: ss_notc_mul_dic_105_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_mul_dic_105_code. See ss_notc_mul_dic_105_code for more information.

Column Name: ss_notc_mul_dic_106_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 106'

Column Name: ss_notc_mul_dic_106_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_106_code. See ss_notc_mul_dic_106_code for more information.

Column Name: ss_notc_mul_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 107'

Column Name: ss_notc_mul_dic_107_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_107_code. See ss_notc_mul_dic_107_code for more information.

Column Name: ss_notc_mul_dic_108_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 108'

Column Name: ss_notc_mul_dic_108_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_108_code. See ss_notc_mul_dic_108_code for more information.

Column Name: ss_notc_mul_dic_109_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 109'

Column Name: ss_notc_mul_dic_109_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_109_code. See ss_notc_mul_dic_109_code for more information.

Column Name: ss_notc_mul_dic_110_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 110'

Column Name: ss_notc_mul_dic_110_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_110_code. See ss_notc_mul_dic_110_code for more information.

Column Name: ss_notc_mul_dic_81_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 81'

Column Name: ss_notc_mul_dic_81_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_81_code. See ss_notc_mul_dic_81_code for more information.

Column Name: ss_notc_mul_dic_82_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 82'

Column Name: ss_notc_mul_dic_82_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_82_code. See ss_notc_mul_dic_82_code for more information.

Column Name: ss_notc_mul_dic_83_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 83'

Column Name: ss_notc_mul_dic_83_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_83_code. See ss_notc_mul_dic_83_code for more information.

Column Name: ss_notc_mul_dic_84_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 84'

Column Name: ss_notc_mul_dic_84_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_84_code. See ss_notc_mul_dic_84_code for more information.

Column Name: ss_notc_mul_dic_85_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 85'

Column Name: ss_notc_mul_dic_85_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_85_code. See ss_notc_mul_dic_85_code for more information.

Column Name: ss_notc_mul_dic_86_code
Column Type: varchar
Max Length: 50

'SS Note Copy Multiple Response Dictionary 86'

Column Name: ss_notc_mul_dic_86_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_86_code. See ss_notc_mul_dic_86_code for more information.

Column Name: ss_notc_mul_dic_87_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 87'

Column Name: ss_notc_mul_dic_87_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_87_code. See ss_notc_mul_dic_87_code for more information.

Column Name: ss_notc_mul_dic_88_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 88'

Column Name: ss_notc_mul_dic_88_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_88_code. See ss_notc_mul_dic_88_code for more information.

Column Name: ss_notc_mul_dic_89_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 89'

Column Name: ss_notc_mul_dic_89_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_89_code. See ss_notc_mul_dic_89_code for more information.

Column Name: ss_notc_mul_dic_90_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 90'

Column Name: ss_notc_mul_dic_90_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_90_code. See ss_notc_mul_dic_90_code for more information.

Column Name: ss_notc_mul_dic_91_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 91'

Column Name: ss_notc_mul_dic_91_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_91_code. See ss_notc_mul_dic_91_code for more information.

Column Name: ss_notc_mul_dic_92_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 92'

Column Name: ss_notc_mul_dic_92_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_92_code. See ss_notc_mul_dic_92_code for more information.

Column Name: ss_notc_mul_dic_93_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 93'

Column Name: ss_notc_mul_dic_93_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_93_code. See ss_notc_mul_dic_93_code for more information.

Column Name: ss_notc_mul_dic_94_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 94'

Column Name: ss_notc_mul_dic_94_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_94_code. See ss_notc_mul_dic_94_code for more information.

Column Name: ss_notc_mul_dic_95_code
Column Type: varchar
Max Length: 50

'SS Note Copy Multiple Response Dictionary 95'

Column Name: ss_notc_mul_dic_95_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_mul_dic_95_code. See ss_notc_mul_dic_95_code for more information.

Column Name: ss_notc_mul_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 96'

Column Name: ss_notc_mul_dic_96_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_96_code. See ss_notc_mul_dic_96_code for more information.

Column Name: ss_notc_mul_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 97'

Column Name: ss_notc_mul_dic_97_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_97_code. See ss_notc_mul_dic_97_code for more information.

Column Name: ss_notc_mul_dic_98_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 98'

Column Name: ss_notc_mul_dic_98_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_98_code. See ss_notc_mul_dic_98_code for more information.

Column Name: ss_notc_mul_dic_99_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 99'

Column Name: ss_notc_mul_dic_99_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_99_code. See ss_notc_mul_dic_99_code for more information.

Column Name: ss_notc_sin_dic_100_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 100'

Column Name: ss_notc_sin_dic_100_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_100_code. See ss_notc_sin_dic_100_code for more information.

Column Name: ss_notc_sin_dic_101_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 101'

Column Name: ss_notc_sin_dic_101_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_101_code. See ss_notc_sin_dic_101_code for more information.

Column Name: ss_notc_sin_dic_102_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 102'

Column Name: ss_notc_sin_dic_102_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_102_code. See ss_notc_sin_dic_102_code for more information.

Column Name: ss_notc_sin_dic_103_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 103'

Column Name: ss_notc_sin_dic_103_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_103_code. See ss_notc_sin_dic_103_code for more information.

Column Name: ss_notc_sin_dic_104_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 104'

Column Name: ss_notc_sin_dic_104_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_104_code. See ss_notc_sin_dic_104_code for more information.

Column Name: ss_notc_sin_dic_105_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 105'

Column Name: ss_notc_sin_dic_105_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_sin_dic_105_code. See ss_notc_sin_dic_105_code for more information.

Column Name: ss_notc_sin_dic_106_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 106'

Column Name: ss_notc_sin_dic_106_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_106_code. See ss_notc_sin_dic_106_code for more information.

Column Name: ss_notc_sin_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 107'

Column Name: ss_notc_sin_dic_107_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_107_code. See ss_notc_sin_dic_107_code for more information.

Column Name: ss_notc_sin_dic_108_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 108'

Column Name: ss_notc_sin_dic_108_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_108_code. See ss_notc_sin_dic_108_code for more information.

Column Name: ss_notc_sin_dic_109_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 109'

Column Name: ss_notc_sin_dic_109_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_109_code. See ss_notc_sin_dic_109_code for more information.

Column Name: ss_notc_sin_dic_110_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 110'

Column Name: ss_notc_sin_dic_110_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_110_code. See ss_notc_sin_dic_110_code for more information.

Column Name: ss_notc_sin_dic_81_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 81'

Column Name: ss_notc_sin_dic_81_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_81_code. See ss_notc_sin_dic_81_code for more information.

Column Name: ss_notc_sin_dic_82_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 82'

Column Name: ss_notc_sin_dic_82_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_82_code. See ss_notc_sin_dic_82_code for more information.

Column Name: ss_notc_sin_dic_83_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 83'

Column Name: ss_notc_sin_dic_83_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_83_code. See ss_notc_sin_dic_83_code for more information.

Column Name: ss_notc_sin_dic_84_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 84'

Column Name: ss_notc_sin_dic_84_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_84_code. See ss_notc_sin_dic_84_code for more information.

Column Name: ss_notc_sin_dic_85_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 85'

Column Name: ss_notc_sin_dic_85_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_85_code. See ss_notc_sin_dic_85_code for more information.

Column Name: ss_notc_sin_dic_86_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 86'

Column Name: ss_notc_sin_dic_86_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_86_code. See ss_notc_sin_dic_86_code for more information.

Column Name: ss_notc_sin_dic_87_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 87'

Column Name: ss_notc_sin_dic_87_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_sin_dic_87_code`. See `ss_notc_sin_dic_87_code` for more information.

Column Name: `ss_notc_sin_dic_88_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 88'

Column Name: `ss_notc_sin_dic_88_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_88_code`. See `ss_notc_sin_dic_88_code` for more information.

Column Name: `ss_notc_sin_dic_89_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 89'

Column Name: `ss_notc_sin_dic_89_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_89_code`. See `ss_notc_sin_dic_89_code` for more information.

Column Name: `ss_notc_sin_dic_90_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 90'

Column Name: `ss_notc_sin_dic_90_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_90_code`. See `ss_notc_sin_dic_90_code` for more information.

Column Name: `ss_notc_sin_dic_91_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 91'

Column Name: `ss_notc_sin_dic_91_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_91_code`. See `ss_notc_sin_dic_91_code` for more information.

Column Name: `ss_notc_sin_dic_92_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Single Response Dictionary 92'

Column Name: ss_notc_sin_dic_92_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_92_code. See ss_notc_sin_dic_92_code for more information.

Column Name: ss_notc_sin_dic_93_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 93'

Column Name: ss_notc_sin_dic_93_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_93_code. See ss_notc_sin_dic_93_code for more information.

Column Name: ss_notc_sin_dic_94_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 94'

Column Name: ss_notc_sin_dic_94_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_94_code. See ss_notc_sin_dic_94_code for more information.

Column Name: ss_notc_sin_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 95'

Column Name: ss_notc_sin_dic_95_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_sin_dic_95_code. See ss_notc_sin_dic_95_code for more information.

Column Name: ss_notc_sin_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 96'

Column Name: ss_notc_sin_dic_96_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_96_code. See ss_notc_sin_dic_96_code for more information.

Column Name: ss_notc_sin_dic_97_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 97'

Column Name: ss_notc_sin_dic_97_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_97_code. See ss_notc_sin_dic_97_code for more information.

Column Name: ss_notc_sin_dic_98_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 98'

Column Name: ss_notc_sin_dic_98_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_98_code. See ss_notc_sin_dic_98_code for more information.

Column Name: ss_notc_sin_dic_99_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 99'

Column Name: ss_notc_sin_dic_99_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_99_code. See ss_notc_sin_dic_99_code for more information.

Column Name: ss_note_mul_dic_100_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 100'

Column Name: ss_note_mul_dic_100_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_100_code limited to 255 characters. See ss_note_mul_dic_100_code for more information.

Column Name: ss_note_mul_dic_100_value
Column Type: varchar
Max Length: 32700

The description associated with ss_note_mul_dic_100_code. See ss_note_mul_dic_100_code for more information.

Column Name: ss_note_mul_dic_101_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 101'

Column Name: ss_note_mul_dic_101_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_101_code limited to 255 characters. See ss_note_mul_dic_101_code for more information.

Column Name: ss_note_mul_dic_101_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_101_code. See ss_note_mul_dic_101_code for more information.

Column Name: ss_note_mul_dic_102_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 102'

Column Name: ss_note_mul_dic_102_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_102_code limited to 255 characters. See ss_note_mul_dic_102_code for more information.

Column Name: ss_note_mul_dic_102_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_102_code. See ss_note_mul_dic_102_code for more information.

Column Name: ss_note_mul_dic_103_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 103'

Column Name: ss_note_mul_dic_103_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_103_code limited to 255 characters. See ss_note_mul_dic_103_code for more information.

Column Name: ss_note_mul_dic_103_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_103_code. See ss_note_mul_dic_103_code for more information.

Column Name: ss_note_mul_dic_104_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 104'

Column Name: ss_note_mul_dic_104_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_104_code limited to 255 characters. See ss_note_mul_dic_104_code for more information.

Column Name: ss_note_mul_dic_104_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_104_code. See ss_note_mul_dic_104_code for more information.

Column Name: ss_note_mul_dic_105_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 105'

Column Name: ss_note_mul_dic_105_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_105_code limited to 255 characters. See ss_note_mul_dic_105_code for more information.

Column Name: ss_note_mul_dic_105_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_105_code. See ss_note_mul_dic_105_code for more information.

Column Name: ss_note_mul_dic_106_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 106'

Column Name: ss_note_mul_dic_106_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_106_code limited to 255 characters. See ss_note_mul_dic_106_code for more information.

Column Name: ss_note_mul_dic_106_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_106_code. See ss_note_mul_dic_106_code for more information.

Column Name: ss_note_mul_dic_107_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 107'

Column Name: ss_note_mul_dic_107_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_107_code limited to 255 characters. See ss_note_mul_dic_107_code for more information.

Column Name: ss_note_mul_dic_107_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_107_code. See ss_note_mul_dic_107_code for more information.

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_108_code limited to 255 characters. See ss_note_mul_dic_108_code for more information.

Column Name: ss_note_mul_dic_108_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_108_code. See ss_note_mul_dic_108_code for more information.

Column Name: ss_note_mul_dic_109_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 109'

Column Name: ss_note_mul_dic_109_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_109_code limited to 255 characters. See ss_note_mul_dic_109_code for more information.

Column Name: ss_note_mul_dic_109_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_109_code. See ss_note_mul_dic_109_code for more information.

Column Name: ss_note_mul_dic_110_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 110'

Column Name: ss_note_mul_dic_110_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_110_code limited to 255 characters. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_110_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_110_code. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_81_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 81'

Column Name: ss_note_mul_dic_81_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_81_code limited to 255 characters. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_81_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_81_code. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_82_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 82'

Column Name: ss_note_mul_dic_82_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_82_code limited to 255 characters. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_82_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_82_code. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_83_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 83'

Column Name: ss_note_mul_dic_83_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_83_code limited to 255 characters. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_83_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_83_code. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_84_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 84'

Column Name: ss_note_mul_dic_84_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_84_code limited to 255 characters. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_84_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_84_code. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_85_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 85'

Column Name: ss_note_mul_dic_85_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_85_code limited to 255 characters. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_85_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_85_code. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_86_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 86'

Column Name: ss_note_mul_dic_86_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_86_code limited to 255 characters. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_86_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_86_code. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_87_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 87'

Column Name: ss_note_mul_dic_87_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_87_code limited to 255 characters. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_87_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_87_code. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_88_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 88'

Column Name: ss_note_mul_dic_88_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_88_code limited to 255 characters. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_88_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_88_code. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_89_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 89'

Column Name: ss_note_mul_dic_89_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_89_code limited to 255 characters. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_89_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_89_code. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_90_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 90'

Column Name: ss_note_mul_dic_90_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_90_code limited to 255 characters. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_90_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_90_code. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_91_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 91'

Column Name: ss_note_mul_dic_91_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_91_code limited to 255 characters. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_91_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_91_code. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_92_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 92'

Column Name: ss_note_mul_dic_92_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_92_code limited to 255 characters. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_92_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_92_code. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_93_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 93'

Column Name: ss_note_mul_dic_93_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_93_code limited to 255 characters. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_93_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_93_code. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_94_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 94'

Column Name: ss_note_mul_dic_94_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_94_code limited to 255 characters. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_94_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_94_code. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_95_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 95'

Column Name: ss_note_mul_dic_95_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_95_code limited to 255 characters. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_95_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_95_code. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_96_code

Column Type: varchar

The description associated with ss_note_sin_dic_93_code. See ss_note_sin_dic_93_code for more information.

Column Name: ss_note_sin_dic_94_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 94'

Column Name: ss_note_sin_dic_94_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_94_code. See ss_note_sin_dic_94_code for more information.

Column Name: ss_note_sin_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 95'

Column Name: ss_note_sin_dic_95_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_95_code. See ss_note_sin_dic_95_code for more information.

Column Name: ss_note_sin_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 96'

Column Name: ss_note_sin_dic_96_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_96_code. See ss_note_sin_dic_96_code for more information.

Column Name: ss_note_sin_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 97'

Column Name: ss_note_sin_dic_97_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_97_code. See ss_note_sin_dic_97_code for more information.

Column Name: ss_note_sin_dic_98_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 98'

Column Name: ss_note_sin_dic_98_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_98_code. See ss_note_sin_dic_98_code for more information.

Column Name: ss_note_sin_dic_99_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 99'

Column Name: ss_note_sin_dic_99_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_99_code. See ss_note_sin_dic_99_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: CWSTEMP.cw_patient_notes_supp_6

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp6 table.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_51
Column Type: varchar
Max Length: 20
SS Note 20 Character 51

Column Name: ss_note_20_char_text_52
Column Type: varchar
Max Length: 20
SS Note 20 Character 52

Column Name: ss_note_20_char_text_53

Column Type: varchar
Max Length: 20
SS Note 20 Character 53

Column Name: ss_note_20_char_text_54
Column Type: varchar
Max Length: 20
SS Note 20 Character 54

Column Name: ss_note_20_char_text_55
Column Type: varchar
Max Length: 20
SS Note 20 Character 55

Column Name: ss_note_20_char_text_56
Column Type: varchar
Max Length: 20
SS Note 20 Character 56

Column Name: ss_note_20_char_text_57
Column Type: varchar
Max Length: 20

SS Note Time 59

Column Name: ss_note_time_60
Column Type: varchar
Max Length: 10
SS Note Time 60

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: SYSTEM.cw_notes_voided

Table Description: This table returns voided progress notes.

Column Name: blank_row_id
Column Type: varchar
Max Length: 254

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: Filing_Hist
Column Type: varchar
Max Length: 20
Unique historic where the data will be stored.

Column Name: notes_field
Column Type: varchar
Max Length: 32759
'Notes Field'

Column Name: note_type_code
Column Type: varchar

Max Length: 50
'Note Type code'

Column Name: note_type_value
Column Type: varchar
Max Length: 40
The description associated with note_type_code. See note_type_code for more information.

Column Name: note_time
Column Type: varchar
Max Length: 25
'Note Time'

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: new_existing_svc_code
Column Type: varchar
Max Length: 5
'New Existing Service Code For. (Progress Note For)'

Column Name: new_existing_svc_value
Column Type: varchar
Max Length: 40
The description associated with new_existing_svc_code. See new_existing_svc_code for more information.

Column Name: service_charge_code
Column Type: varchar
Max Length: 40
'Service Charge Code'

Column Name: service_program_code
Column Type: varchar
Max Length: 6
'Service Program code'

Column Name: service_program_value

Column Type: varchar

Max Length: 40

The description associated with service_program_code. See service_program_code for more information.

Column Name: service_duration

Column Type: varchar

Max Length: 5

'Service Duration'

Column Name: note_addresses

Column Type: varchar

Max Length: 40

'Note Addresses Which Existing Service/Appointment'

Column Name: note_add_wh_tp_plan_prob

Column Type: varchar

Max Length: 32759

'Note Addresses Which Treatment Plan Problem'

Column Name: Tx_Note_UniqueId

Column Type: varchar

Max Length: 40

Unique ID for a service note.

Column Name: FILING_COUNTER

Column Type: integer

'Filing Counter'

Column Name: GROUP_ID

Column Type: varchar

Max Length: 10

'Group Name Or Number'

Column Name: JOIN_TO_TX_HISTORY

Column Type: varchar

Max Length: 40

Unique ID for a service.

Column Name: TODO_ID

Column Type: varchar

Max Length: 20

'To Do Id'

Column Name: aps_link

Column Type: varchar

Max Length: 40

'Note Addresses Which Existing Appointment'

Column Name: clinical_quality_code
Column Type: varchar
Max Length: 255
'Clinical Quality Indicators'

Column Name: clinical_quality_sh_val
Column Type: varchar
Max Length: 255
'The description associated with clinical_quality_code. See clinical_quality_code for more information.'

Column Name: clinical_quality_value
Column Type: varchar
Max Length: 4096
'The description associated with clinical_quality_code. See clinical_quality_code for more information.'

Column Name: co_sign_to_do_user
Column Type: varchar
Max Length: 50
'User To Send Co-Sign To Do Item To'

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar

Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: date_of_group_service
Column Type: date
Date of service for group.

Column Name: draft_final_code
Column Type: varchar
Max Length: 5
'Draft/Final code'

Column Name: draft_final_value
Column Type: varchar
Max Length: 40
The description associated with draft_final_code. See draft_final_code for more information.

Column Name: ebps_code
Column Type: varchar
Max Length: 255
'Evidence Based Practices'

Column Name: ebps_sh_val
Column Type: varchar
Max Length: 255
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: ebps_value
Column Type: varchar
Max Length: 4096
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: external_system_id
Column Type: varchar
Max Length: 255
'External System Identifier'

Column Name: finalized_signature
Column Type: varchar
Max Length: 255
'Finalized Signature'

Column Name: medical_diagnosis_1_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 1 code'

Column Name: medical_diagnosis_1_value

Column Type: varchar

Max Length: 32759

The description associated with medical_diagnosis_1_code. See medical_diagnosis_1_code for more information.

Column Name: medical_diagnosis_2_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 2 code'

Column Name: medical_diagnosis_2_value

Column Type: varchar

Max Length: 32759

The description associated with medical_diagnosis_2_code. See medical_diagnosis_2_code for more information.

Column Name: notes_entry_index_nu

Column Type: varchar

Max Length: 50

'Notes Entry Index Number for Internal Use'

Column Name: option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: orig_note_uniq_id_num

Column Type: varchar

Max Length: 20

'Original Note Unique ID Number'

Column Name: reason_for_void_code

Column Type: varchar

Max Length: 50

'Reason For Voiding The Note code'

Column Name: reason_for_void_value

Column Type: varchar

Max Length: 50

The description associated with reason_for_void_code. See reason_for_void_code for more information.

Column Name: select_tp_version_code

Column Type: varchar

Max Length: 5

'Select T.P. Version code'

Column Name: select_tp_version_value

Column Type: varchar

Max Length: 40

The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: session_start_end_times

Column Type: varchar

Max Length: 32759

'Start/End Time(s)'

Column Name: ss_note_20_char_text_1

Column Type: varchar

Max Length: 20

'SS Note 20 Character Text 1'

Column Name: ss_note_20_char_text_10

Column Type: varchar

Max Length: 20

'SS Note 20 Character Text 10'

Column Name: ss_note_20_char_text_2

Column Type: varchar

Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 10 code'

Column Name: ss_note_dsm_diag_10_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_10_code. See ss_note_dsm_diag_10_code for more information.

Column Name: ss_note_dsm_diag_1_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 1 code'

Column Name: ss_note_dsm_diag_1_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_1_code. See ss_note_dsm_diag_1_code for more information.

Column Name: ss_note_dsm_diag_2_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 2 code'

Column Name: ss_note_dsm_diag_2_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_2_code. See ss_note_dsm_diag_2_code for more information.

Column Name: ss_note_dsm_diag_3_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 3 code'

Column Name: ss_note_dsm_diag_3_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_dsm_diag_3_code`. See `ss_note_dsm_diag_3_code` for more information.

Column Name: `ss_note_dsm_diag_4_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 4 code'

Column Name: `ss_note_dsm_diag_4_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_4_code`. See `ss_note_dsm_diag_4_code` for more information.

Column Name: `ss_note_dsm_diag_5_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 5 code'

Column Name: `ss_note_dsm_diag_5_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_5_code`. See `ss_note_dsm_diag_5_code` for more information.

Column Name: `ss_note_dsm_diag_6_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 6 code'

Column Name: `ss_note_dsm_diag_6_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_6_code`. See `ss_note_dsm_diag_6_code` for more information.

Column Name: `ss_note_dsm_diag_7_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 7 code'

Column Name: `ss_note_dsm_diag_7_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_7_code`. See `ss_note_dsm_diag_7_code` for more information.

Column Name: `ss_note_dsm_diag_8_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 8 code'

Column Name: ss_note_dsm_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_8_code. See ss_note_dsm_diag_8_code for more information.

Column Name: ss_note_dsm_diag_9_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 9 code'

Column Name: ss_note_dsm_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_9_code. See ss_note_dsm_diag_9_code for more information.

Column Name: ss_note_icd9_diag_10_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 10 code'

Column Name: ss_note_icd9_diag_10_val

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_10_code. See ss_note_icd9_diag_10_code for more information.

Column Name: ss_note_icd9_diag_1_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 1 code'

Column Name: ss_note_icd9_diag_1_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_1_code. See ss_note_icd9_diag_1_code for more information.

Column Name: ss_note_icd9_diag_2_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 2 code'

Column Name: ss_note_icd9_diag_2_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_2_code`. See `ss_note_icd9_diag_2_code` for more information.

Column Name: `ss_note_icd9_diag_3_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Diagnosis 3 code'

Column Name: `ss_note_icd9_diag_3_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_3_code`. See `ss_note_icd9_diag_3_code` for more information.

Column Name: `ss_note_icd9_diag_4_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Diagnosis 4 code'

Column Name: `ss_note_icd9_diag_4_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_4_code`. See `ss_note_icd9_diag_4_code` for more information.

Column Name: `ss_note_icd9_diag_5_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Diagnosis 5 code'

Column Name: `ss_note_icd9_diag_5_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_5_code`. See `ss_note_icd9_diag_5_code` for more information.

Column Name: `ss_note_icd9_diag_6_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Diagnosis 6 code'

Column Name: `ss_note_icd9_diag_6_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_6_code`. See `ss_note_icd9_diag_6_code` for more information.

Column Name: `ss_note_icd9_diag_7_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Diagnosis 7 code'

Column Name: ss_note_icd9_diag_7_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_7_code. See ss_note_icd9_diag_7_code for more information.

Column Name: ss_note_icd9_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 8 code'

Column Name: ss_note_icd9_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_8_code. See ss_note_icd9_diag_8_code for more information.

Column Name: ss_note_icd9_diag_9_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 9 code'

Column Name: ss_note_icd9_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_9_code. See ss_note_icd9_diag_9_code for more information.

'SS Note Time 8'

Column Name: ss_note_time_9
Column Type: varchar

Max Length: 10
'SS Note Time 9'

Column Name: transcription_note
Column Type: bit
Is this is Transcription note

Column Name: transition_of_care_code
Column Type: varchar
Max Length: 1
'Is This A Transition Of Care?'

Column Name: transition_of_care_value
Column Type: varchar
Max Length: 80
'The description associated with transition_of_care_code. See transition_of_care_code for more information.

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Column Name: void_comments
Column Type: varchar
Max Length: 32759
'Void Comments'

Column Name: void_data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row for a void.

Column Name: void_data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row for a void.

Column Name: void_data_entry_date
Column Type: date
The date the row was voided.

Column Name: void_data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row for a void.

Column Name: void_data_entry_time
Column Type: varchar

Max Length: 10

The time the row was last updated for a void.

Column Name: void_data_entry_user_id

Column Type: varchar

Max Length: 40

The 'User ID' that last updated the row for a void.

Column Name: void_data_entry_user_name

Column Type: varchar

Max Length: 40

The 'User Description' of the 'User ID' for a void.

Column Name: void_option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row for a void.

Column Name: void_option_id

Column Type: varchar

Max Length: 40

The unique ID of the form that last updated the row for a void.

Documentation for form: Ambulatory_Progress_Notes

Table Name: SYSTEM.cw_patient_notes

Table Description: This table returns the information stored in the 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Progress Notes (Group and Individual)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: blank_row_id

Column Type: varchar

Max Length: 254

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: NOT_uniqueid

Column Type: varchar

Max Length: 20

The unique ID associated with the note.

Column Name: notes_field

Column Type: varchar

Max Length: 32700

The written note information.

Column Name: note_type_code

Column Type: varchar

Max Length: 50

'Note Type'

Column Name: note_type_value

Column Type: varchar

Max Length: 40

The description associated with note_type_code. See note_type_code for more information.

Column Name: note_time

Column Type: varchar

Max Length: 25

'Note Time'

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the row.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: New_Existing_Service_code

Column Type: varchar

Max Length: 5

'Progress Note For'

Column Name: New_Existing_Service_value

Column Type: varchar

Max Length: 40

The description associated with New_Existing_Service_code. See New_Existing_Service_code for more information.

Column Name: service_program_value

Column Type: varchar

Max Length: 40

The description associated with service_program_code. See service_program_code for more information.

Column Name: note_addresses

Column Type: varchar

Max Length: 40

'Note Addresses Which Existing Service/Appointment'

Column Name: note_add_which_tp_plan_prob

Column Type: varchar

Max Length: 32700

The treatment plan problem to add to the note.

Column Name: Tx_Note_UniqueId

Column Type: varchar

Max Length: 40

The unique ID associated with the treatment.

Column Name: service_charge_value

Column Type: varchar

Max Length: 40

The description associated with service_charge_code. See service_charge_code for more information.

Column Name: GROUP_ID

Column Type: varchar

Max Length: 10

'Group Name Or Number'

Column Name: JOIN_TO_TX_HISTORY

Column Type: varchar

Max Length: 40

The unique ID that joins the note to the service.

Column Name: Option_Desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: Option_Id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: TODO_ID

Column Type: varchar

Max Length: 20

'To Do Id'

Column Name: add_on_notes

Column Type: varchar

Max Length: 32768

The add-on notes.

Column Name: add_svc_info_code

Column Type: varchar

Max Length: 40

The additional service information.

Column Name: add_svc_info_shval

Column Type: varchar

Max Length: 255

The description associated with add_svc_info_code limited to 255 characters. See add_svc_info_code for more information.

Column Name: add_svc_info_value

Column Type: varchar

Max Length: 4096

The description associated with add_svc_info_code. See add_svc_info_code for more information.

Column Name: aps_link

Column Type: varchar

Max Length: 40

'Note Addresses Which Existing Appointment'

Column Name: billing_status_code

Column Type: varchar

Max Length: 50

'Service Status'

Column Name: billing_status_value

Column Type: varchar

Max Length: 50

The description associated with billing_status_code. See billing_status_code for more information.

Column Name: calpm_ebpss_csi_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practices / Service Strategies (CSI)'

Column Name: calpm_ebpss_csi_value

Column Type: varchar

Max Length: 200

The description associated with calpm_ebpss_csi_code. See calpm_ebpss_csi_code for more information.

Column Name: calpm_ebpss_csi_value_long

Column Type: varchar

Max Length: 4096

The description associated with calpm_ebpss_csi_value_code. See calpm_ebpss_csi_value_code for more information.

Column Name: client_prob_list_codes

Column Type: varchar

Max Length: 50

The codes associated with the client problem list.

Column Name: client_prob_list_shvals

Column Type: varchar

Max Length: 255

The description associated with client_prob_list_code limited to 255 characters. See client_prob_list_code for more information.

Column Name: client_prob_list_vals

Column Type: varchar

Max Length: 32700

The description associated with client_prob_list_code. See client_prob_list_code for more information.

Column Name: clinical_instructions

Column Type: varchar

Max Length: 32700

'Clinical Instructions'

Column Name: clinical_quality_code

Column Type: varchar

Max Length: 255

'Clinical Quality Indicators'

Column Name: clinical_quality_sh_val

Column Type: varchar

Max Length: 255

'The description associated with clinical_quality_code. See clinical_quality_code for more information.

Column Name: clinical_quality_value

Column Type: varchar

Max Length: 4096

'The description associated with clinical_quality_code. See clinical_quality_code for more information.

Column Name: confidential_note

Column Type: varchar

Max Length: 50

The confidential note.

Column Name: co_pract_duration

Column Type: numeric

The first co-practitioner duration.

Column Name: co_pract2_duration
Column Type: numeric
The second co-practitioner duration.

Column Name: co_practitioner_id
Column Type: varchar
Max Length: 15
The first co-practitioner ID.

Column Name: co_practitioner_id_2
Column Type: varchar
Max Length: 15
The second co-practitioner ID.

Column Name: co_practitioner_name
Column Type: varchar
Max Length: 40
The name associated with co_practitioner_id.

Column Name: co_practitioner_name_2
Column Type: varchar
Max Length: 40
The name associated with co_practitioner_id_2.

Column Name: co_sign_to_do_user
Column Type: varchar
Max Length: 50
'User To Send Co-Sign To Do Item To'

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 40
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: date_of_group_service
Column Type: date
The date of the group service.

Column Name: date_of_note
Column Type: date
The date of the note.

Column Name: date_of_service
Column Type: date
The date of the service.

Column Name: discipline_code
Column Type: varchar
Max Length: 40
'Discipline'

Column Name: discipline_value
Column Type: varchar
Max Length: 40
The description associated with discipline_code. See discipline_code for more information.

Column Name: document_routing_status
Column Type: varchar
Max Length: 50
Status of the document

Column Name: draft_final_code
Column Type: varchar

Max Length: 5
'Draft/Final'

Column Name: draft_final_value
Column Type: varchar
Max Length: 40
The description associated with draft_final_code. See draft_final_code for more information.

Column Name: ebps_code
Column Type: varchar
Max Length: 255
'Evidence Based Practices'

Column Name: ebps_sh_val
Column Type: varchar
Max Length: 255
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: ebps_value
Column Type: varchar
Max Length: 4096
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: external_system_id
Column Type: varchar
Max Length: 255
'External System Identifier'

Column Name: finalized_signature
Column Type: varchar
Max Length: 255
'Finalized Signature'

Column Name: has_nonmed_diag_flg_code
Column Type: varchar
Max Length: 50
The non-medical diagnosis flag.

Column Name: has_nonmed_diag_flg_value
Column Type: varchar
Max Length: 50
The description associated with has_nonmed_diag_flg_code. See has_nonmed_diag_flg_code for more information.

Column Name: jointodiagnosisobject1
Column Type: varchar
Max Length: 40
'Diagnosis 1'

Column Name: jointodiagnosisobject2

Column Type: varchar
Max Length: 40
'Diagnosis 2'

Column Name: jointodiagnosisobject3
Column Type: varchar
Max Length: 40
'Diagnosis 3'

Column Name: jointodiagnosisobject4
Column Type: varchar
Max Length: 40
'Diagnosis 4'

Column Name: location_code
Column Type: varchar
Max Length: 50
The location of the service.

Column Name: location_value
Column Type: varchar
Max Length: 40
The description associated with location_code. See location_code for more information.

Column Name: medical_diag1_DSM_value
Column Type: varchar
Max Length: 40
The description associated with medical_diag1_DSM_code. See medical_diag1_DSM_code for more information.

Column Name: medical_diag_1_icd10_code
Column Type: varchar
Max Length: 40
'Medical Diagnosis 1 ICD 10'

Column Name: medical_diag_1_icd10_value
Column Type: varchar
Max Length: 40
The description associated with medical_diag_1_icd10_code. See medical_diag_1_icd10_code for more information.

Column Name: medical_diag_1_icd9_code
Column Type: varchar
Max Length: 40
'Medical Diagnosis 1 ICD 9'

Column Name: medical_diag_1_icd9_value
Column Type: varchar
Max Length: 40

The description associated with medical_diag_1_icd9_code. See medical_diag_1_icd9_code for more information.

Column Name: medical_diag_1_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_imo_code. See medical_diag_1_imo_code for more information.

Column Name: medical_diag2_DSM_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag2_DSM_code. See medical_diag2_DSM_code for more information.

Column Name: medical_diag_2_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 10'

Column Name: medical_diag_2_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd10_code. See medical_diag_2_icd10_code for more information.

Column Name: medical_diag_2_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 9'

Column Name: medical_diag_2_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd9_code. See medical_diag_2_icd9_code for more information.

Column Name: medical_diag_2_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_imo_code. See medical_diag_2_imo_code for more information.

Column Name: medical_diag_3_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 3 ICD 10'

Column Name: medical_diag_3_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_icd10_code. See medical_diag_3_icd10_code for more information.

Column Name: medical_diag_3_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 3 ICD 9'

Column Name: medical_diag_3_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_icd9_code. See medical_diag_3_icd9_code for more information.

Column Name: medical_diag_3_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_imo_code. See medical_diag_3_imo_code for more information.

Column Name: medical_diag_4_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 10'

Column Name: medical_diag_4_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd10_code. See medical_diag_4_icd10_code for more information.

Column Name: medical_diag_4_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 9'

Column Name: medical_diag_4_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd9_code. See medical_diag_4_icd9_code for more information.

Column Name: medical_diag_4_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_imo_code. See medical_diag_4_imo_code for more information.

Column Name: medical_diagnosis_1_code

Column Type: varchar
Max Length: 40
'Medical Diagnosis 1'

Column Name: medical_diagnosis_1_value
Column Type: varchar
Max Length: 32700
The description associated with medical_diagnosis_1_code. See medical_diagnosis_1_code for more information.

Column Name: medical_diagnosis_2_code
Column Type: varchar
Max Length: 40
'Medical Diagnosis 2'

Column Name: medical_diagnosis_2_value
Column Type: varchar
Max Length: 32700
The description associated with medical_diagnosis_2_code. See medical_diagnosis_2_code for more information.

Column Name: medical_diagnosis_3_code
Column Type: varchar
Max Length: 50
'Medical Diagnosis 3'

Column Name: medical_diagnosis_3_value
Column Type: varchar
Max Length: 32700
The description associated with medical_diagnosis_3_code. See medical_diagnosis_3_code for more information.

Column Name: medical_diagnosis_4_code
Column Type: varchar
Max Length: 50
'Medical Diagnosis 4'

Column Name: medical_diagnosis_4_value
Column Type: varchar
Max Length: 32700
The description associated with medical_diagnosis_4_code. See medical_diagnosis_4_code for more information.

Column Name: notes_entry_index_nu
Column Type: varchar
Max Length: 50
The notes entry index.

Column Name: number_clients_in_group
Column Type: integer

'Number Of Clients In Group'

Column Name: orig_note_uniq_id_num

Column Type: varchar

Max Length: 20

'Original Note Unique ID Number'

Column Name: practitioner_id

Column Type: varchar

Max Length: 15

The practitioner associated with the note.

Column Name: practitioner_name

Column Type: varchar

Max Length: 40

The name associated with practitioner_id.

Column Name: psycho_add_on_duration

Column Type: integer

The psychotherapy add-on duration.

Column Name: reason_for_visit_code

Column Type: varchar

Max Length: 50

'Reason for Visit'

Column Name: reason_for_visit_value

Column Type: varchar

Max Length: 250

The description associated with reason_for_visit_code. See reason_for_visit_code for more information.

Column Name: recommended_decision

Column Type: varchar

Max Length: 32700

'Recommended Decision'

Column Name: release_type_code

Column Type: varchar

Max Length: 50

The value entered in the field 'Are you releasing to myHealthPointe or External providers?'

Column Name: release_type_value

Column Type: varchar

Max Length: 40

The description associated with release_type_code.

Column Name: select_tp_version_code

Column Type: varchar

Max Length: 5

'Select T.P. Version'

Column Name: select_tp_version_value

Column Type: varchar

Max Length: 40

The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: service_charge_code

Column Type: varchar

Max Length: 40

The service charge code.

Column Name: service_duration

Column Type: varchar

Max Length: 5

The duration of the service.

Column Name: service_end_time

Column Type: varchar

Max Length: 10

The end time of the service.

Column Name: service_program_code

Column Type: varchar

Max Length: 15

The program of the service.

Column Name: service_start_time

Column Type: varchar

Max Length: 10

The start time of the service.

Column Name: session_start_end_times

Column Type: varchar

Max Length: 32766

'Start/End Time(s)'

Column Name: ss_note_20_char_text_1

Column Type: varchar

Max Length: 20

'SS Note 20 Character 1'

Column Name: ss_note_20_char_text_10

Column Type: varchar

Max Length: 20

'SS Note 20 Character 10'

Column Name: ss_note_20_char_text_2

Column Type: varchar

Max Length: 20

'SS Note 20 Character 2'

Column Name: ss_note_20_char_text_3
Column Type: varchar
Max Length: 20
'SS Note 20 Character 3'

Column Name: ss_note_20_char_text_4
Column Type: varchar
Max Length: 20
'SS Note 20 Character 4'

Column Name: ss_note_20_char_text_5
Column Type: varchar
Max Length: 20
'SS Note 20 Character 5'

Column Name: ss_note_20_char_text_6
Column Type: varchar
Max Length: 20
'SS Note 20 Character 6'

Column Name: ss_note_20_char_text_7
Column Type: varchar
Max Length: 20
'SS Note 20 Character 7'

Column Name: ss_note_20_char_text_8
Column Type: varchar
Max Length: 20
'SS Note 20 Character 8'

Column Name: ss_note_20_char_text_9
Column Type: varchar
Max Length: 20
'SS Note 20 Character 9'

Column Name: ss_note_40_char_text_1
Column Type: varchar
Max Length: 40
'SS Note 40 Character 1'

Column Name: ss_note_40_char_text_10
Column Type: varchar
Max Length: 40
'SS Note 40 Character 10'

Column Name: ss_note_40_char_text_2
Column Type: varchar
Max Length: 40
'SS Note 40 Character 2'

Column Name: ss_note_40_char_text_3
Column Type: varchar
Max Length: 40
'SS Note 40 Character 3'

Column Name: ss_note_40_char_text_4
Column Type: varchar
Max Length: 40
'SS Note 40 Character 4'

Column Name: ss_note_40_char_text_5
Column Type: varchar
Max Length: 40
'SS Note 40 Character 5'

Column Name: ss_note_40_char_text_6
Column Type: varchar
Max Length: 40
'SS Note 40 Character 6'

Column Name: ss_note_40_char_text_7
Column Type: varchar
Max Length: 40
'SS Note 40 Character 7'

Column Name: ss_note_40_char_text_8
Column Type: varchar
Max Length: 40
'SS Note 40 Character 8'

Column Name: ss_note_40_char_text_9
Column Type: varchar
Max Length: 40
'SS Note 40 Character 9'

Column Name: ss_note_80_char_text_1
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 1'

Column Name: ss_note_80_char_text_10
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 10'

Column Name: ss_note_80_char_text_2
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 2'

Column Name: ss_note_80_char_text_3
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 3'

Column Name: ss_note_80_char_text_4
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 4'

Column Name: ss_note_80_char_text_5
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 5'

Column Name: ss_note_80_char_text_6
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 6'

Column Name: ss_note_80_char_text_7
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 7'

Column Name: ss_note_80_char_text_8
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 8'

Column Name: ss_note_80_char_text_9
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 9'

Column Name: ss_note_date_1
Column Type: date
'SS Note Date 1'

Column Name: ss_note_date_10
Column Type: date
'SS Note Date 10'

Column Name: ss_note_date_2
Column Type: date
'SS Note Date 2'

Column Name: ss_note_date_3
Column Type: date

'SS Note Date 3'

Column Name: ss_note_date_4

Column Type: date

'SS Note Date 4'

Column Name: ss_note_date_5

Column Type: date

'SS Note Date 5'

Column Name: ss_note_date_6

Column Type: date

'SS Note Date 6'

Column Name: ss_note_date_7

Column Type: date

'SS Note Date 7'

Column Name: ss_note_date_8

Column Type: date

'SS Note Date 8'

Column Name: ss_note_date_9

Column Type: date

'SS Note Date 9'

Column Name: ss_note_dsm_diag_10_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 10'

Column Name: ss_note_dsm_diag_10_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_10_code. See ss_note_dsm_diag_10_code for more information.

Column Name: ss_note_dsm_diag_1_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 1'

Column Name: ss_note_dsm_diag_1_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_1_code. See ss_note_dsm_diag_1_code for more information.

Column Name: ss_note_dsm_diag_2_code

Column Type: varchar

Max Length: 20
'SS Note DSM IV Diagnosis 2'

Column Name: ss_note_dsm_diag_2_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_2_code. See ss_note_dsm_diag_2_code for more information.

Column Name: ss_note_dsm_diag_3_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 3'

Column Name: ss_note_dsm_diag_3_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_3_code. See ss_note_dsm_diag_3_code for more information.

Column Name: ss_note_dsm_diag_4_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 4'

Column Name: ss_note_dsm_diag_4_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_4_code. See ss_note_dsm_diag_4_code for more information.

Column Name: ss_note_dsm_diag_5_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 5'

Column Name: ss_note_dsm_diag_5_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_5_code. See ss_note_dsm_diag_5_code for more information.

Column Name: ss_note_dsm_diag_6_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 6'

Column Name: ss_note_dsm_diag_6_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_dsm_diag_6_code`. See `ss_note_dsm_diag_6_code` for more information.

Column Name: `ss_note_dsm_diag_7_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 7'

Column Name: `ss_note_dsm_diag_7_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_7_code`. See `ss_note_dsm_diag_7_code` for more information.

Column Name: `ss_note_dsm_diag_8_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 8'

Column Name: `ss_note_dsm_diag_8_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_8_code`. See `ss_note_dsm_diag_8_code` for more information.

Column Name: `ss_note_dsm_diag_9_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 9'

Column Name: `ss_note_dsm_diag_9_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_9_code`. See `ss_note_dsm_diag_9_code` for more information.

Column Name: `ss_note_icd9_diag_10_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 10'

Column Name: `ss_note_icd9_diag_10_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_10_code`. See `ss_note_icd9_diag_10_code` for more information.

Column Name: `ss_note_icd9_diag_1_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 1'

Column Name: ss_note_icd9_diag_1_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_1_code. See ss_note_icd9_diag_1_code for more information.

Column Name: ss_note_icd9_diag_2_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 2'

Column Name: ss_note_icd9_diag_2_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_2_code. See ss_note_icd9_diag_2_code for more information.

Column Name: ss_note_icd9_diag_3_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 3'

Column Name: ss_note_icd9_diag_3_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_3_code. See ss_note_icd9_diag_3_code for more information.

Column Name: ss_note_icd9_diag_4_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 4'

Column Name: ss_note_icd9_diag_4_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_4_code. See ss_note_icd9_diag_4_code for more information.

Column Name: ss_note_icd9_diag_5_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 5'

Column Name: ss_note_icd9_diag_5_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_5_code`. See `ss_note_icd9_diag_5_code` for more information.

Column Name: `ss_note_icd9_diag_6_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 6'

Column Name: `ss_note_icd9_diag_6_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_6_code`. See `ss_note_icd9_diag_6_code` for more information.

Column Name: `ss_note_icd9_diag_7_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 7'

Column Name: `ss_note_icd9_diag_7_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_7_code`. See `ss_note_icd9_diag_7_code` for more information.

Column Name: `ss_note_icd9_diag_8_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 8'

Column Name: `ss_note_icd9_diag_8_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_8_code`. See `ss_note_icd9_diag_8_code` for more information.

Column Name: `ss_note_icd9_diag_9_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 9'

Column Name: `ss_note_icd9_diag_9_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_9_code`. See `ss_note_icd9_diag_9_code` for more information.

Column Name: `ss_note_multi_dict_10_code`

Column Type: `varchar`

Max Length: 20

'SS Note Multi Response Dictionary 10'

Column Name: ss_note_multi_dict_10_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_10_code. See ss_note_multi_dict_10_code for more information.

Column Name: ss_note_multi_dict_1_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 1'

Column Name: ss_note_multi_dict_1_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_1_code. See ss_note_multi_dict_1_code for more information.

Column Name: ss_note_multi_dict_2_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 2'

Column Name: ss_note_multi_dict_2_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_2_code. See ss_note_multi_dict_2_code for more information.

Column Name: ss_note_multi_dict_3_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 3'

Column Name: ss_note_multi_dict_3_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_3_code. See ss_note_multi_dict_3_code for more information.

Column Name: ss_note_multi_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 4'

Column Name: ss_note_multi_dict_4_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_4_code. See ss_note_multi_dict_4_code for more information.

Column Name: ss_note_multi_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 5'

Column Name: ss_note_multi_dict_5_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_5_code. See ss_note_multi_dict_5_code for more information.

Column Name: ss_note_multi_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 6'

Column Name: ss_note_multi_dict_6_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_6_code. See ss_note_multi_dict_6_code for more information.

Column Name: ss_note_multi_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 7'

Column Name: ss_note_multi_dict_7_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_7_code. See ss_note_multi_dict_7_code for more information.

Column Name: ss_note_multi_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 8'

Column Name: ss_note_multi_dict_8_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_8_code. See ss_note_multi_dict_8_code for more information.

Column Name: ss_note_multi_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 9'

Column Name: ss_note_multi_dict_9_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_9_code. See ss_note_multi_dict_9_code for more information.

Column Name: ss_note_scroll_text_1

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 1'

Column Name: ss_note_scroll_text_10

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 10'

Column Name: ss_note_scroll_text_2

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 2'

Column Name: ss_note_scroll_text_3

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 3'

Column Name: ss_note_scroll_text_4

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 4'

Column Name: ss_note_scroll_text_5

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 5'

Column Name: ss_note_scroll_text_6

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 6'

Column Name: ss_note_scroll_text_7

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 7'

Column Name: ss_note_scroll_text_8

Column Type: varchar

Max Length: 32700
'SS Note Scrolling Text 8'

Column Name: ss_note_scroll_text_9
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 9'

Column Name: ss_note_sing_dict_10_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 10'

Column Name: ss_note_sing_dict_10_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_10_code. See ss_note_sing_dict_10_code for more information.

Column Name: ss_note_sing_dict_1_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 1'

Column Name: ss_note_sing_dict_1_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_1_code. See ss_note_sing_dict_1_code for more information.

Column Name: ss_note_sing_dict_2_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 2'

Column Name: ss_note_sing_dict_2_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_2_code. See ss_note_sing_dict_2_code for more information.

Column Name: ss_note_sing_dict_3_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 3'

Column Name: ss_note_sing_dict_3_value
Column Type: varchar
Max Length: 80

The description associated with ss_note_sing_dict_3_code. See ss_note_sing_dict_3_code for more information.

Column Name: ss_note_sing_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 4'

Column Name: ss_note_sing_dict_4_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_4_code. See ss_note_sing_dict_4_code for more information.

Column Name: ss_note_sing_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 5'

Column Name: ss_note_sing_dict_5_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_5_code. See ss_note_sing_dict_5_code for more information.

Column Name: ss_note_sing_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 6'

Column Name: ss_note_sing_dict_6_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_6_code. See ss_note_sing_dict_6_code for more information.

Column Name: ss_note_sing_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 7'

Column Name: ss_note_sing_dict_7_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_7_code. See ss_note_sing_dict_7_code for more information.

Column Name: ss_note_sing_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 8'

Column Name: ss_note_sing_dict_8_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_8_code. See ss_note_sing_dict_8_code for more information.

Column Name: ss_note_sing_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 9'

Column Name: ss_note_sing_dict_9_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_9_code. See ss_note_sing_dict_9_code for more information.

Column Name: ss_note_staff_1

Column Type: varchar

Max Length: 20

'SS Note Staff Member 1'

Column Name: ss_note_staff_10

Column Type: varchar

Max Length: 20

'SS Note Staff Member 10'

Column Name: ss_note_staff_2

Column Type: varchar

Max Length: 20

'SS Note Staff Member 2'

Column Name: ss_note_staff_3

Column Type: varchar

Max Length: 20

'SS Note Staff Member 3'

Column Name: ss_note_staff_4

Column Type: varchar

Max Length: 20

'SS Note Staff Member 4'

Column Name: ss_note_staff_5

Column Type: varchar

Max Length: 20

'SS Note Staff Member 5'

Column Name: ss_note_staff_6

Column Type: varchar
Max Length: 20
'SS Note Staff Member 6'

Column Name: ss_note_staff_7
Column Type: varchar
Max Length: 20
'SS Note Staff Member 7'

Column Name: ss_note_staff_8
Column Type: varchar
Max Length: 20
'SS Note Staff Member 8'

Column Name: ss_note_staff_9
Column Type: varchar
Max Length: 20
'SS Note Staff Member 9'

Column Name: ss_note_time_1
Column Type: varchar
Max Length: 10
'SS Note Time 1'

Column Name: ss_note_time_10
Column Type: varchar
Max Length: 10
'SS Note Time 10'

Column Name: ss_note_time_2
Column Type: varchar
Max Length: 10
'SS Note Time 2'

Column Name: ss_note_time_3
Column Type: varchar
Max Length: 10
'SS Note Time 3'

Column Name: ss_note_time_4
Column Type: varchar
Max Length: 10
'SS Note Time 4'

Column Name: ss_note_time_5
Column Type: varchar
Max Length: 10
'SS Note Time 5'

Column Name: ss_note_time_6

Column Type: varchar
Max Length: 10
'SS Note Time 6'

Column Name: ss_note_time_7
Column Type: varchar
Max Length: 10
'SS Note Time 7'

Column Name: ss_note_time_8
Column Type: varchar
Max Length: 10
'SS Note Time 8'

Column Name: ss_note_time_9
Column Type: varchar
Max Length: 10
'SS Note Time 9'

Column Name: transcription_note
Column Type: bit
Is this is Transcription note

Column Name: transition_of_care_code
Column Type: varchar
Max Length: 1
'Is This A Transition Of Care?'

Column Name: transition_of_care_value
Column Type: varchar
Max Length: 80
'The description associated with transition_of_care_code. See transition_of_care_code for more information.'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp

Table Description: This table returns the site specific information stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: confidential_note
Column Type: varchar
Max Length: 50
Whether the note is confidential.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255

The name of the form that last updated the row.

Column Name: data_entry_time

Column Type: varchar

Max Length: 50

The time the row was last updated.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 50

The user ID who last updated the row.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the row.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: notes_field

Column Type: varchar

Max Length: 32700

The contents of the notes field.

Column Name: option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 50

The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_11
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 11'

Column Name: ss_note_20_char_text_12
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 12'

Column Name: ss_note_20_char_text_13
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 13'

Column Name: ss_note_20_char_text_14
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 14'

Column Name: ss_note_20_char_text_15
Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 11'

Column Name: ss_note_dsm_diag_11_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_11_code. See ss_note_dsm_diag_11_code for more information.

Column Name: ss_note_dsm_diag_12_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 12'

Column Name: ss_note_dsm_diag_12_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_dsm_diag_12_code`. See `ss_note_dsm_diag_12_code` for more information.

Column Name: `ss_note_dsm_diag_13_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 13'

Column Name: `ss_note_dsm_diag_13_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_13_code`. See `ss_note_dsm_diag_13_code` for more information.

Column Name: `ss_note_dsm_diag_14_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 14'

Column Name: `ss_note_dsm_diag_14_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_14_code`. See `ss_note_dsm_diag_14_code` for more information.

Column Name: `ss_note_dsm_diag_15_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 15'

Column Name: `ss_note_dsm_diag_15_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_15_code`. See `ss_note_dsm_diag_15_code` for more information.

Column Name: `ss_note_dsm_diag_16_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 16'

Column Name: `ss_note_dsm_diag_16_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_16_code`. See `ss_note_dsm_diag_16_code` for more information.

Column Name: `ss_note_dsm_diag_17_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 17'

Column Name: ss_note_dsm_diag_17_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_17_code. See ss_note_dsm_diag_17_code for more information.

Column Name: ss_note_dsm_diag_18_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 18'

Column Name: ss_note_dsm_diag_18_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_18_code. See ss_note_dsm_diag_18_code for more information.

Column Name: ss_note_dsm_diag_19_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 19'

Column Name: ss_note_dsm_diag_19_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_19_code. See ss_note_dsm_diag_19_code for more information.

Column Name: ss_note_dsm_diag_20_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 20'

Column Name: ss_note_dsm_diag_20_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_20_code. See ss_note_dsm_diag_20_code for more information.

Column Name: ss_note_dsm_diag_21_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 21'

Column Name: ss_note_dsm_diag_21_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_dsm_diag_21_code`. See `ss_note_dsm_diag_21_code` for more information.

Column Name: `ss_note_dsm_diag_22_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 22'

Column Name: `ss_note_dsm_diag_22_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_22_code`. See `ss_note_dsm_diag_22_code` for more information.

Column Name: `ss_note_dsm_diag_23_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 23'

Column Name: `ss_note_dsm_diag_23_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_23_code`. See `ss_note_dsm_diag_23_code` for more information.

Column Name: `ss_note_dsm_diag_24_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 24'

Column Name: `ss_note_dsm_diag_24_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_24_code`. See `ss_note_dsm_diag_24_code` for more information.

Column Name: `ss_note_dsm_diag_25_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 25'

Column Name: `ss_note_dsm_diag_25_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_25_code`. See `ss_note_dsm_diag_25_code` for more information.

Column Name: `ss_note_dsm_diag_26_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 26'

Column Name: ss_note_dsm_diag_26_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_26_code. See ss_note_dsm_diag_26_code for more information.

Column Name: ss_note_dsm_diag_27_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 27'

Column Name: ss_note_dsm_diag_27_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_27_code. See ss_note_dsm_diag_27_code for more information.

Column Name: ss_note_dsm_diag_28_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 28'

Column Name: ss_note_dsm_diag_28_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_28_code. See ss_note_dsm_diag_28_code for more information.

Column Name: ss_note_dsm_diag_29_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 29'

Column Name: ss_note_dsm_diag_29_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_29_code. See ss_note_dsm_diag_29_code for more information.

Column Name: ss_note_dsm_diag_30_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 30'

Column Name: ss_note_dsm_diag_30_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_dsm_diag_30_code`. See `ss_note_dsm_diag_30_code` for more information.

Column Name: `ss_note_icd9_diag_11_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 11'

Column Name: `ss_note_icd9_diag_11_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_11_code`. See `ss_note_icd9_diag_11_code` for more information.

Column Name: `ss_note_icd9_diag_12_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 12'

Column Name: `ss_note_icd9_diag_12_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_12_code`. See `ss_note_icd9_diag_12_code` for more information.

Column Name: `ss_note_icd9_diag_13_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 13'

Column Name: `ss_note_icd9_diag_13_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_13_code`. See `ss_note_icd9_diag_13_code` for more information.

Column Name: `ss_note_icd9_diag_14_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 14'

Column Name: `ss_note_icd9_diag_14_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_14_code`. See `ss_note_icd9_diag_14_code` for more information.

Column Name: `ss_note_icd9_diag_15_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 15'

Column Name: ss_note_icd9_diag_15_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_15_code. See ss_note_icd9_diag_15_code for more information.

Column Name: ss_note_icd9_diag_16_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 16'

Column Name: ss_note_icd9_diag_16_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_16_code. See ss_note_icd9_diag_16_code for more information.

Column Name: ss_note_icd9_diag_17_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 17'

Column Name: ss_note_icd9_diag_17_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_17_code. See ss_note_icd9_diag_17_code for more information.

Column Name: ss_note_icd9_diag_18_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 18'

Column Name: ss_note_icd9_diag_18_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_18_code. See ss_note_icd9_diag_18_code for more information.

Column Name: ss_note_icd9_diag_19_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 19'

Column Name: ss_note_icd9_diag_19_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_19_code`. See `ss_note_icd9_diag_19_code` for more information.

Column Name: `ss_note_icd9_diag_20_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 20'

Column Name: `ss_note_icd9_diag_20_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_20_code`. See `ss_note_icd9_diag_20_code` for more information.

Column Name: `ss_note_icd9_diag_21_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 21'

Column Name: `ss_note_icd9_diag_21_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_21_code`. See `ss_note_icd9_diag_21_code` for more information.

Column Name: `ss_note_icd9_diag_22_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 22'

Column Name: `ss_note_icd9_diag_22_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_22_code`. See `ss_note_icd9_diag_22_code` for more information.

Column Name: `ss_note_icd9_diag_23_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 23'

Column Name: `ss_note_icd9_diag_23_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_23_code`. See `ss_note_icd9_diag_23_code` for more information.

Column Name: `ss_note_icd9_diag_24_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 24'

Column Name: ss_note_icd9_diag_24_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_24_code. See ss_note_icd9_diag_24_code for more information.

Column Name: ss_note_icd9_diag_25_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 25'

Column Name: ss_note_icd9_diag_25_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_25_code. See ss_note_icd9_diag_25_code for more information.

Column Name: ss_note_icd9_diag_26_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 26'

Column Name: ss_note_icd9_diag_26_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_26_code. See ss_note_icd9_diag_26_code for more information.

Column Name: ss_note_icd9_diag_27_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 27'

Column Name: ss_note_icd9_diag_27_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_27_code. See ss_note_icd9_diag_27_code for more information.

Column Name: ss_note_icd9_diag_28_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 28'

Column Name: ss_note_icd9_diag_28_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_28_code. See ss_note_icd9_diag_28_code for more information.

Column Name: ss_note_icd9_diag_29_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 29'

Column Name: ss_note_icd9_diag_29_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_29_code. See ss_note_icd9_diag_29_code for more information.

Column Name: ss_note_icd9_diag_30_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 30'

Column Name: ss_note_icd9_diag_30_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_30_code. See ss_note_icd9_diag_30_code for more information.

Column Name: ss_note_multi_dict_11_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 11'

Column Name: ss_note_multi_dict_11_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_11_code. See ss_note_multi_dict_11_code for more information.

Column Name: ss_note_multi_dict_12_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 12'

Column Name: ss_note_multi_dict_12_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_12_code. See ss_note_multi_dict_12_code for more information.

Column Name: ss_note_multi_dict_13_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 13'

Column Name: ss_note_multi_dict_13_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_13_code. See ss_note_multi_dict_13_code for more information.

Column Name: ss_note_multi_dict_14_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 14'

Column Name: ss_note_multi_dict_14_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_14_code. See ss_note_multi_dict_14_code for more information.

Column Name: ss_note_multi_dict_15_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 15'

Column Name: ss_note_multi_dict_15_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_15_code. See ss_note_multi_dict_15_code for more information.

Column Name: ss_note_multi_dict_16_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 16'

Column Name: ss_note_multi_dict_16_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_16_code. See ss_note_multi_dict_16_code for more information.

Column Name: ss_note_multi_dict_17_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 17'

Column Name: ss_note_multi_dict_17_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_17_code. See ss_note_multi_dict_17_code for more information.

Column Name: ss_note_multi_dict_18_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 18'

Column Name: ss_note_multi_dict_18_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_18_code. See ss_note_multi_dict_18_code for more information.

Column Name: ss_note_multi_dict_19_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 19'

Column Name: ss_note_multi_dict_19_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_19_code. See ss_note_multi_dict_19_code for more information.

Column Name: ss_note_multi_dict_20_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 20'

Column Name: ss_note_multi_dict_20_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_20_code. See ss_note_multi_dict_20_code for more information.

Column Name: ss_note_multi_dict_21_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 21'

Column Name: ss_note_multi_dict_21_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_21_code. See ss_note_multi_dict_21_code for more information.

Column Name: ss_note_multi_dict_22_code
Column Type: varchar
Max Length: 20

'SS Note Copy Multiple Response Dictionary 22'

Column Name: ss_note_multi_dict_22_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_22_code. See ss_note_multi_dict_22_code for more information.

Column Name: ss_note_multi_dict_23_code

Column Type: varchar

Column Name: ss_note_sing_dict_13_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 13'

Column Name: ss_note_sing_dict_13_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_13_code. See ss_note_single_dict_13_code for more information.

Column Name: ss_note_sing_dict_14_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 14'

Column Name: ss_note_sing_dict_14_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_14_code. See ss_note_single_dict_14_code for more information.

Column Name: ss_note_sing_dict_15_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 15'

Column Name: ss_note_sing_dict_15_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_15_code. See ss_note_single_dict_15_code for more information.

Column Name: ss_note_sing_dict_16_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 16'

Column Name: ss_note_sing_dict_16_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_16_code. See ss_note_single_dict_16_code for more information.

Column Name: ss_note_sing_dict_17_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 17'

Column Name: ss_note_sing_dict_17_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_17_code. See ss_note_single_dict_17_code for more information.

Column Name: ss_note_sing_dict_18_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 18'

Column Name: ss_note_sing_dict_18_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_18_code. See ss_note_single_dict_18_code for more information.

Column Name: ss_note_sing_dict_19_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 19'

Column Name: ss_note_sing_dict_19_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_19_code. See ss_note_single_dict_19_code for more information.

Column Name: ss_note_sing_dict_20_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 20'

Column Name: ss_note_sing_dict_20_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_20_code. See ss_note_single_dict_20_code for more information.

Column Name: ss_note_sing_dict_21_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 21'

Column Name: ss_note_sing_dict_21_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_21_code. See ss_note_single_dict_21_code for more information.

Column Name: ss_note_sing_dict_22_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 22'

Column Name: ss_note_sing_dict_22_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_22_code. See ss_note_single_dict_22_code for more information.

Column Name: ss_note_sing_dict_23_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 23'

Column Name: ss_note_sing_dict_23_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_23_code. See ss_note_single_dict_23_code for more information.

Column Name: ss_note_sing_dict_24_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 24'

Column Name: ss_note_sing_dict_24_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_24_code. See ss_note_single_dict_24_code for more information.

Column Name: ss_note_sing_dict_25_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 25'

Column Name: ss_note_sing_dict_25_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_25_code. See ss_note_single_dict_25_code for more information.

Column Name: ss_note_sing_dict_26_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 26'

Column Name: ss_note_sing_dict_26_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_26_code. See ss_note_single_dict_26_code for more information.

Column Name: ss_note_sing_dict_27_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 27'

Column Name: ss_note_sing_dict_27_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_27_code. See ss_note_single_dict_27_code for more information.

Column Name: ss_note_sing_dict_28_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 28'

Column Name: ss_note_sing_dict_28_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_28_code. See ss_note_single_dict_28_code for more information.

Column Name: ss_note_sing_dict_29_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 29'

Column Name: ss_note_sing_dict_29_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_29_code. See ss_note_single_dict_29_code for more information.

Column Name: ss_note_sing_dict_30_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 30'

Column Name: ss_note_sing_dict_30_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_30_code. See ss_note_single_dict_30_code for more information.

Column Name: ss_note_time_11

Column Type: varchar

Max Length: 50

'SS Note Time 11'

Column Name: ss_note_time_12

Column Type: varchar

Max Length: 50

'SS Note Time 12'

Column Name: ss_note_time_13

Column Type: varchar

Max Length: 50

'SS Note Time 13'

Column Name: ss_note_time_14

Column Type: varchar

Max Length: 50

'SS Note Time 14'

Column Name: ss_note_time_15

Column Type: varchar

Max Length: 50

'SS Note Time 15'

Column Name: ss_note_time_16

Column Type: varchar

Max Length: 50

'SS Note Time 16'

Column Name: ss_note_time_17

Column Type: varchar
Max Length: 50
'SS Note Time 17'

Column Name: ss_note_time_18
Column Type: varchar
Max Length: 50
'SS Note Time 18'

Column Name: ss_note_time_19
Column Type: varchar
Max Length: 50
'SS Note Time 19'

Column Name: ss_note_time_20
Column Type: varchar
Max Length: 50
'SS Note Time 20'

Column Name: ss_note_time_21
Column Type: varchar
Max Length: 50
'SS Note Time 21'

Column Name: ss_note_time_22
Column Type: varchar
Max Length: 50
'SS Note Time 22'

Column Name: ss_note_time_23
Column Type: varchar
Max Length: 50
'SS Note Time 23'

Column Name: ss_note_time_24
Column Type: varchar
Max Length: 50
'SS Note Time 24'

Column Name: ss_note_time_25
Column Type: varchar
Max Length: 50
'SS Note Time 25'

Column Name: ss_note_time_26
Column Type: varchar
Max Length: 50
'SS Note Time 26'

Column Name: ss_note_time_27

Column Type: varchar
Max Length: 50
'SS Note Time 27'

Column Name: ss_note_time_28
Column Type: varchar
Max Length: 50
'SS Note Time 28'

Column Name: ss_note_time_29
Column Type: varchar
Max Length: 50
'SS Note Time 29'

Column Name: ss_note_time_30
Column Type: varchar
Max Length: 50
'SS Note Time 30'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp_1

Table Description: This table returns the site specific information stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid

Column Type: varchar
Max Length: 50
'Progress Notes Pointer'

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: confidential_note
Column Type: varchar
Max Length: 50
'Confidential Notes'

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50
The time the row was last updated.

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 50
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: notes_field
Column Type: varchar

Max Length: 32766

'Notes Field'

Column Name: option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 50

The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_31

Column Type: varchar

Max Length: 20

'SS Note 20 Character 31'

Column Name: ss_note_20_char_text_32

Column Type: varchar

Max Length: 20

'SS Note 20 Character 32'

Column Name: ss_note_20_char_text_33

Column Type: varchar

Max Length: 20

'SS Note 20 Character 33'

Column Name: ss_note_20_char_text_34

Column Type: varchar

Max Length: 20

'SS Note 20 Character 34'

Column Name: ss_note_20_char_text_35

Column Type: varchar

Max Length: 20

'SS Note 20 Character 35'

Column Name: ss_note_20_char_text_36

Column Type: varchar

Max Length: 20

'SS Note 20 Character 36'

Column Name: ss_note_20_char_text_37

Column Type: varchar

Max Length: 20

'SS Note 20 Character 37'

Column Name: ss_note_20_char_text_38

Column Type: varchar

Max Length: 20
'SS Note 20 Character 38'

Column Name: ss_note_20_char_text_39
Column Type: varchar
Max Length: 20
'SS Note 20 Character 39'

Column Name: ss_note_20_char_text_40
Column Type: varchar
Max Length: 20
'SS Note 20 Character 40'

Column Name: ss_note_20_char_text_41
Column Type: varchar
Max Length: 20
'SS Note 20 Character 41'

Column Name: ss_note_20_char_text_42
Column Type: varchar
Max Length: 20
'SS Note 20 Character 42'

Column Name: ss_note_20_char_text_43
Column Type: varchar
Max Length: 20
'SS Note 20 Character 43'

Column Name: ss_note_20_char_text_44
Column Type: varchar
Max Length: 20
'SS Note 20 Character 44'

Column Name: ss_note_20_char_text_45
Column Type: varchar
Max Length: 20
'SS Note 20 Character 45'

Column Name: ss_note_20_char_text_46
Column Type: varchar
Max Length: 20
'SS Note 20 Character 46'

Column Name: ss_note_20_char_text_47
Column Type: varchar
Max Length: 20
'SS Note 20 Character 47'

Column Name: `ss_note_dsm_diag_43_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_43_code`. See `ss_note_dsm_diag_43_code` for more information.

Column Name: `ss_note_dsm_diag_44_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 44'

Column Name: `ss_note_dsm_diag_44_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_44_code`. See `ss_note_dsm_diag_44_code` for more information.

Column Name: `ss_note_dsm_diag_45_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 45'

Column Name: ss_note_dsm_diag_45_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_45_code. See ss_note_dsm_diag_45_code for more information.

Column Name: ss_note_dsm_diag_46_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 46'

Column Name: ss_note_dsm_diag_46_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_46_code. See ss_note_dsm_diag_46_code for more information.

Column Name: ss_note_dsm_diag_47_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 47'

Column Name: ss_note_dsm_diag_47_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_47_code. See ss_note_dsm_diag_47_code for more information.

Column Name: ss_note_dsm_diag_48_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 48'

Column Name: ss_note_dsm_diag_48_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_48_code. See ss_note_dsm_diag_48_code for more information.

Column Name: ss_note_dsm_diag_49_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 49'

Column Name: ss_note_dsm_diag_49_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_dsm_diag_49_code`. See `ss_note_dsm_diag_49_code` for more information.

Column Name: `ss_note_dsm_diag_50_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 50'

Column Name: `ss_note_dsm_diag_50_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_50_code`. See `ss_note_dsm_diag_50_code` for more information.

Column Name: `ss_note_icd9_diag_31_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 31'

Column Name: `ss_note_icd9_diag_31_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_31_code`. See `ss_note_icd9_diag_31_code` for more information.

Column Name: `ss_note_icd9_diag_32_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 32'

Column Name: `ss_note_icd9_diag_32_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_32_code`. See `ss_note_icd9_diag_32_code` for more information.

Column Name: `ss_note_icd9_diag_33_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 33'

Column Name: `ss_note_icd9_diag_33_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_33_code`. See `ss_note_icd9_diag_33_code` for more information.

Column Name: `ss_note_icd9_diag_34_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 34'

Column Name: ss_note_icd9_diag_34_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_34_code. See ss_note_icd9_diag_34_code for more information.

Column Name: ss_note_icd9_diag_35_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 35'

Column Name: ss_note_icd9_diag_35_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_35_code. See ss_note_icd9_diag_35_code for more information.

Column Name: ss_note_icd9_diag_36_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 36'

Column Name: ss_note_icd9_diag_36_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_36_code. See ss_note_icd9_diag_36_code for more information.

Column Name: ss_note_icd9_diag_37_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 37'

Column Name: ss_note_icd9_diag_37_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_37_code. See ss_note_icd9_diag_37_code for more information.

Column Name: ss_note_icd9_diag_38_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 38'

Column Name: ss_note_icd9_diag_38_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_38_code`. See `ss_note_icd9_diag_38_code` for more information.

Column Name: `ss_note_icd9_diag_39_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 39'

Column Name: `ss_note_icd9_diag_39_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_39_code`. See `ss_note_icd9_diag_39_code` for more information.

Column Name: `ss_note_icd9_diag_40_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 40'

Column Name: `ss_note_icd9_diag_40_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_40_code`. See `ss_note_icd9_diag_40_code` for more information.

Column Name: `ss_note_icd9_diag_41_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 41'

Column Name: `ss_note_icd9_diag_41_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_41_code`. See `ss_note_icd9_diag_41_code` for more information.

Column Name: `ss_note_icd9_diag_42_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 42'

Column Name: `ss_note_icd9_diag_42_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_42_code`. See `ss_note_icd9_diag_42_code` for more information.

Column Name: `ss_note_icd9_diag_43_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 43'

Column Name: ss_note_icd9_diag_43_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_43_code. See ss_note_icd9_diag_43_code for more information.

Column Name: ss_note_icd9_diag_44_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 44'

Column Name: ss_note_icd9_diag_44_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_44_code. See ss_note_icd9_diag_44_code for more information.

Column Name: ss_note_icd9_diag_45_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 45'

Column Name: ss_note_icd9_diag_45_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_45_code. See ss_note_icd9_diag_45_code for more information.

Column Name: ss_note_icd9_diag_46_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 46'

Column Name: ss_note_icd9_diag_46_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_46_code. See ss_note_icd9_diag_46_code for more information.

Column Name: ss_note_icd9_diag_47_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 47'

Column Name: ss_note_icd9_diag_47_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_47_code`. See `ss_note_icd9_diag_47_code` for more information.

Column Name: `ss_note_icd9_diag_48_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 48'

Column Name: `ss_note_icd9_diag_48_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_48_code`. See `ss_note_icd9_diag_48_code` for more information.

Column Name: `ss_note_icd9_diag_49_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 49'

Column Name: `ss_note_icd9_diag_49_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_49_code`. See `ss_note_icd9_diag_49_code` for more information.

Column Name: `ss_note_icd9_diag_50_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 50'

Column Name: `ss_note_icd9_diag_50_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_50_code`. See `ss_note_icd9_diag_50_code` for more information.

Column Name: `ss_note_integer_1`

Column Type: `integer`

'SS Note Integer 1'

Column Name: `ss_note_integer_2`

Column Type: `integer`

'SS Note Integer 2'

Column Name: `ss_note_integer_3`

Column Type: `integer`

'SS Note Integer 3'

Column Name: `ss_note_integer_4`

Column Type: `integer`

'SS Note Integer 4'

Column Name: ss_note_integer_5

Column Type: integer

'SS Note Integer 5'

Column Name: ss_note_integer_6

Column Type: integer

'SS Note Integer 6'

Column Name: ss_note_multi_dict_31_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 31'

Column Name: ss_note_multi_dict_31_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_31_code. See ss_note_multi_dict_31_code for more information.

Column Name: ss_note_multi_dict_32_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 32'

Column Name: ss_note_multi_dict_32_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_32_code. See ss_note_multi_dict_32_code for more information.

Column Name: ss_note_multi_dict_33_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 33'

Column Name: ss_note_multi_dict_33_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_33_code. See ss_note_multi_dict_33_code for more information.

Column Name: ss_note_multi_dict_34_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 34'

Column Name: ss_note_multi_dict_34_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_34_code. See ss_note_multi_dict_34_code for more information.

Column Name: ss_note_multi_dict_35_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 35'

Column Name: ss_note_multi_dict_35_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_35_code. See ss_note_multi_dict_35_code for more information.

Column Name: ss_note_multi_dict_36_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 36'

Column Name: ss_note_multi_dict_36_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_36_code. See ss_note_multi_dict_36_code for more information.

Column Name: ss_note_multi_dict_37_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 37'

Column Name: ss_note_multi_dict_37_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_37_code. See ss_note_multi_dict_37_code for more information.

Column Name: ss_note_multi_dict_38_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 38'

Column Name: ss_note_multi_dict_38_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_38_code. See ss_note_multi_dict_38_code for more information.

Column Name: ss_note_multi_dict_39_code

Column Type: varchar

Max Length: 20
'SS Note Multi Response Dictionary 39'

Column Name: ss_note_multi_dict_39_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_39_code. See ss_note_multi_dict_39_code for more information.

Column Name: ss_note_multi_dict_40_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 40'

Column Name: ss_note_multi_dict_40_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_40_code. See ss_note_multi_dict_40_code for more information.

Column Name: ss_note_multi_dict_41_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 41'

Column Name: ss_note_multi_dict_41_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_41_code. See ss_note_multi_dict_41_code for more information.

Column Name: ss_note_multi_dict_42_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 42'

Column Name: ss_note_multi_dict_42_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_42_code. See ss_note_multi_dict_42_code for more information.

Column Name: ss_note_multi_dict_43_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 43'

Column Name: ss_note_multi_dict_43_value
Column Type: varchar
Max Length: 32700

The description associated with ss_note_multi_dict_43_code. See ss_note_multi_dict_43_code for more information.

Column Name: ss_note_multi_dict_44_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 44'

Column Name: ss_note_multi_dict_44_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_44_code. See ss_note_multi_dict_44_code for more information.

Column Name: ss_note_multi_dict_45_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 45'

Column Name: ss_note_multi_dict_45_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_45_code. See ss_note_multi_dict_45_code for more information.

Column Name: ss_note_multi_dict_46_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 46'

Column Name: ss_note_multi_dict_46_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_46_code. See ss_note_multi_dict_46_code for more information.

Column Name: ss_note_multi_dict_47_code

Column Type: varchar

Column Name: `ss_note_sing_dict_44_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 44'

Column Name: `ss_note_sing_dict_44_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_44_code`. See `ss_note_sing_dict_44_code` for more information.

Column Name: `ss_note_sing_dict_45_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 45'

Column Name: `ss_note_sing_dict_45_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_45_code`. See `ss_note_sing_dict_45_code` for more information.

Column Name: `ss_note_sing_dict_46_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 46'

Column Name: ss_note_sing_dict_46_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_46_code. See ss_note_sing_dict_46_code for more information.

Column Name: ss_note_sing_dict_47_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 47'

Column Name: ss_note_sing_dict_47_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_47_code. See ss_note_sing_dict_47_code for more information.

Column Name: ss_note_sing_dict_48_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 48'

Column Name: ss_note_sing_dict_48_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_48_code. See ss_note_sing_dict_48_code for more information.

Column Name: ss_note_sing_dict_49_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 49'

Column Name: ss_note_sing_dict_49_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_49_code. See ss_note_sing_dict_49_code for more information.

Column Name: ss_note_sing_dict_50_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 50'

Column Name: ss_note_sing_dict_50_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_50_code. See ss_note_sing_dict_50_code for more information.

Column Name: ss_note_time_31
Column Type: varchar

Column Type: varchar
Max Length: 50
'SS Note Time 49'

Column Name: ss_note_time_50
Column Type: varchar

Max Length: 50
'SS Note Time 50'

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp_2

Table Description: This table returns the information stored in the 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Progress Notes (Group and Individual)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the row.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: NOT_uniqueid

Column Type: varchar

Max Length: 50

The unique ID associated with the note.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 255

The name of the form that last updated the row.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 40

The user ID who last updated the row.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the row.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: option_desc

Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_note_integer_10

Documentation for form: Ambulatory_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp_3

Table Description: This table returns the information stored in the 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Progress Notes (Group and Individual)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar

Max Length: 255

The name of the form that last updated the row.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 40

The user ID who last updated the row.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the row.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: form_number

Column Type: varchar

Max Length: 50

The form number of the form that last updated the row.

Column Name: option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Max Length: 32759

The description associated with ss_notec_multi_dict_27_code. See ss_notec_multi_dict_27_code for more information.

Column Name: ss_notec_multi_dict_28_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 28'

Column Name: ss_notec_multi_dict_28_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_28_code. See ss_notec_multi_dict_28_code for more information.

Column Name: ss_notec_multi_dict_29_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 29'

Column Name: ss_notec_multi_dict_29_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_29_code. See ss_notec_multi_dict_29_code for more information.

Column Name: ss_notec_multi_dict_2_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 2'

Column Name: ss_notec_multi_dict_2_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_2_code. See ss_notec_multi_dict_2_code for more information.

Column Name: ss_notec_multi_dict_30_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 30'

Column Name: ss_notec_multi_dict_30_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_30_code. See ss_notec_multi_dict_30_code for more information.

Column Name: ss_notec_multi_dict_31_code

Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 31'

Column Name: ss_notec_multi_dict_31_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_31_code. See ss_notec_multi_dict_31_code for more information.

Column Name: ss_notec_multi_dict_32_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 32'

Column Name: ss_notec_multi_dict_32_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_32_code. See ss_notec_multi_dict_32_code for more information.

Column Name: ss_notec_multi_dict_33_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 33'

Column Name: ss_notec_multi_dict_33_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_33_code. See ss_notec_multi_dict_33_code for more information.

Column Name: ss_notec_multi_dict_34_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 34'

Column Name: ss_notec_multi_dict_34_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_34_code. See ss_notec_multi_dict_34_code for more information.

Column Name: ss_notec_multi_dict_35_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 35'

Column Name: ss_notec_multi_dict_35_value
Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_35_code. See ss_notec_multi_dict_35_code for more information.

Column Name: ss_notec_multi_dict_36_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 36'

Column Name: ss_notec_multi_dict_36_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_36_code. See ss_notec_multi_dict_36_code for more information.

Column Name: ss_notec_multi_dict_37_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 37'

Column Name: ss_notec_multi_dict_37_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_37_code. See ss_notec_multi_dict_37_code for more information.

Column Name: ss_notec_multi_dict_38_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 38'

Column Name: ss_notec_multi_dict_38_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_38_code. See ss_notec_multi_dict_38_code for more information.

Column Name: ss_notec_multi_dict_39_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 39'

Column Name: ss_notec_multi_dict_39_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_39_code. See ss_notec_multi_dict_39_code for more information.

Column Name: ss_notec_multi_dict_3_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 3'

Column Name: ss_notec_multi_dict_3_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_3_code. See ss_notec_multi_dict_3_code for more information.

Column Name: ss_notec_multi_dict_40_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 40'

Column Name: ss_notec_multi_dict_40_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_40_code. See ss_notec_multi_dict_40_code for more information.

Column Name: ss_notec_multi_dict_41_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 41'

Column Name: ss_notec_multi_dict_41_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_41_code. See ss_notec_multi_dict_41_code for more information.

Column Name: ss_notec_multi_dict_42_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 42'

Column Name: ss_notec_multi_dict_42_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_42_code. See ss_notec_multi_dict_42_code for more information.

Column Name: ss_notec_multi_dict_43_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 43'

Column Name: ss_notec_multi_dict_43_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_43_code. See ss_notec_multi_dict_43_code for more information.

Column Name: ss_notec_multi_dict_44_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 44'

Column Name: ss_notec_multi_dict_44_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_44_code. See ss_notec_multi_dict_44_code for more information.

Column Name: ss_notec_multi_dict_45_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 45'

Column Name: ss_notec_multi_dict_45_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_45_code. See ss_notec_multi_dict_45_code for more information.

Column Name: ss_notec_multi_dict_46_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 46'

Column Name: ss_notec_multi_dict_46_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_46_code. See ss_notec_multi_dict_46_code for more information.

Column Name: ss_notec_multi_dict_47_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 47'

Column Name: ss_notec_multi_dict_47_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_47_code. See ss_notec_multi_dict_47_code for more information.

Column Name: ss_notec_multi_dict_48_code
Column Type: varchar
Max Length: 255

'SS Note Copy Multiple Response Dictionary 48'

Column Name: ss_notec_multi_dict_48_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_48_code. See ss_notec_multi_dict_48_code for more information.

Column Name: ss_notec_multi_dict_49_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 49'

Column Name: ss_notec_multi_dict_49_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_49_code. See ss_notec_multi_dict_49_code for more information.

Column Name: ss_notec_multi_dict_4_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 4'

Column Name: ss_notec_multi_dict_4_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_4_code. See ss_notec_multi_dict_4_code for more information.

Column Name: ss_notec_multi_dict_50_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 50'

Column Name: ss_notec_multi_dict_50_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_50_code. See ss_notec_multi_dict_50_code for more information.

Column Name: ss_notec_multi_dict_5_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 5'

Column Name: ss_notec_multi_dict_5_value

Column Type: varchar

Max Length: 32759

The description associated with `ss_notec_multi_dict_5_code`. See `ss_notec_multi_dict_5_code` for more information.

Column Name: `ss_notec_multi_dict_6_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 6'

Column Name: `ss_notec_multi_dict_6_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_6_code`. See `ss_notec_multi_dict_6_code` for more information.

Column Name: `ss_notec_multi_dict_7_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 7'

Column Name: `ss_notec_multi_dict_7_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_7_code`. See `ss_notec_multi_dict_7_code` for more information.

Column Name: `ss_notec_multi_dict_8_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 8'

Column Name: `ss_notec_multi_dict_8_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_8_code`. See `ss_notec_multi_dict_8_code` for more information.

Column Name: `ss_notec_multi_dict_9_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 9'

Column Name: `ss_notec_multi_dict_9_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_9_code`. See `ss_notec_multi_dict_9_code` for more information.

Column Name: `ss_notec_sing_dict_10_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Single Response Dictionary 10'

Column Name: ss_notec_sing_dict_10_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_10_code. See ss_notec_sing_dict_10_code for more information.

Column Name: ss_notec_sing_dict_11_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 11'

Column Name: ss_notec_sing_dict_11_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_11_code. See ss_notec_sing_dict_11_code for more information.

Column Name: ss_notec_sing_dict_12_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 12'

Column Name: ss_notec_sing_dict_12_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_12_code. See ss_notec_sing_dict_12_code for more information.

Column Name: ss_notec_sing_dict_13_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 13'

Column Name: ss_notec_sing_dict_13_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_13_code. See ss_notec_sing_dict_13_code for more information.

Column Name: ss_notec_sing_dict_14_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 14'

Column Name: ss_notec_sing_dict_14_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_14_code. See ss_notec_sing_dict_14_code for more information.

Column Name: ss_notec_sing_dict_15_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 15'

Column Name: ss_notec_sing_dict_15_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_15_code. See ss_notec_sing_dict_15_code for more information.

Column Name: ss_notec_sing_dict_16_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 16'

Column Name: ss_notec_sing_dict_16_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_16_code. See ss_notec_sing_dict_16_code for more information.

Column Name: ss_notec_sing_dict_17_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 17'

Column Name: ss_notec_sing_dict_17_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_17_code. See ss_notec_sing_dict_17_code for more information.

Column Name: ss_notec_sing_dict_18_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 18'

Column Name: ss_notec_sing_dict_18_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_18_code. See ss_notec_sing_dict_18_code for more information.

Column Name: ss_notec_sing_dict_19_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 19'

Column Name: ss_notec_sing_dict_19_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_19_code. See ss_notec_sing_dict_19_code for more information.

Column Name: ss_notec_sing_dict_1_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 1'

Column Name: ss_notec_sing_dict_1_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_1_code. See ss_notec_sing_dict_1_code for more information.

Column Name: ss_notec_sing_dict_20_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 20'

Column Name: ss_notec_sing_dict_20_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_20_code. See ss_notec_sing_dict_20_code for more information.

Column Name: ss_notec_sing_dict_21_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 21'

Column Name: ss_notec_sing_dict_21_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_21_code. See ss_notec_sing_dict_21_code for more information.

Column Name: ss_notec_sing_dict_22_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 22'

Column Name: ss_notec_sing_dict_22_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_22_code. See ss_notec_sing_dict_22_code for more information.

Column Name: ss_notec_sing_dict_23_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 23'

Column Name: ss_notec_sing_dict_23_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_23_code. See ss_notec_sing_dict_23_code for more information.

Column Name: ss_notec_sing_dict_24_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 24'

Column Name: ss_notec_sing_dict_24_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_24_code. See ss_notec_sing_dict_24_code for more information.

Column Name: ss_notec_sing_dict_25_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 25'

Column Name: ss_notec_sing_dict_25_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_25_code. See ss_notec_sing_dict_25_code for more information.

Column Name: ss_notec_sing_dict_26_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 26'

Column Name: ss_notec_sing_dict_26_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_26_code. See ss_notec_sing_dict_26_code for more information.

Column Name: ss_notec_sing_dict_27_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 27'

Column Name: ss_notec_sing_dict_27_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_27_code. See ss_notec_sing_dict_27_code for more information.

Column Name: ss_notec_sing_dict_28_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 28'

Column Name: ss_notec_sing_dict_28_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_28_code. See ss_notec_sing_dict_28_code for more information.

Column Name: ss_notec_sing_dict_29_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 29'

Column Name: ss_notec_sing_dict_29_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_29_code. See ss_notec_sing_dict_29_code for more information.

Column Name: ss_notec_sing_dict_2_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 2'

Column Name: ss_notec_sing_dict_2_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_2_code. See ss_notec_sing_dict_2_code for more information.

Column Name: ss_notec_sing_dict_30_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 30'

Column Name: ss_notec_sing_dict_30_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_30_code. See ss_notec_sing_dict_30_code for more information.

Column Name: ss_notec_sing_dict_31_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 31'

Column Name: ss_notec_sing_dict_31_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_31_code. See ss_notec_sing_dict_31_code for more information.

Column Name: ss_notec_sing_dict_32_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 32'

Column Name: ss_notec_sing_dict_32_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_32_code. See ss_notec_sing_dict_32_code for more information.

Column Name: ss_notec_sing_dict_33_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 33'

Column Name: ss_notec_sing_dict_33_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_33_code. See ss_notec_sing_dict_33_code for more information.

Column Name: ss_notec_sing_dict_34_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 34'

Column Name: ss_notec_sing_dict_34_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_34_code. See ss_notec_sing_dict_34_code for more information.

Column Name: ss_notec_sing_dict_35_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 35'

Column Name: ss_notec_sing_dict_35_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_35_code. See ss_notec_sing_dict_35_code for more information.

Column Name: ss_notec_sing_dict_36_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 36'

Column Name: ss_notec_sing_dict_36_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_36_code. See ss_notec_sing_dict_36_code for more information.

Column Name: ss_notec_sing_dict_37_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 37'

Column Name: ss_notec_sing_dict_37_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_37_code. See ss_notec_sing_dict_37_code for more information.

Column Name: ss_notec_sing_dict_38_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 38'

Column Name: ss_notec_sing_dict_38_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_38_code. See ss_notec_sing_dict_38_code for more information.

Column Name: ss_notec_sing_dict_39_code

Column Type: varchar

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 45'

Column Name: ss_notec_sing_dict_45_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_45_code. See ss_notec_sing_dict_45_code for more information.

Column Name: ss_notec_sing_dict_46_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 46'

Column Name: ss_notec_sing_dict_46_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_46_code. See ss_notec_sing_dict_46_code for more information.

Column Name: ss_notec_sing_dict_47_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 47'

Column Name: ss_notec_sing_dict_47_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_47_code. See ss_notec_sing_dict_47_code for more information.

Column Name: ss_notec_sing_dict_48_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 48'

Column Name: ss_notec_sing_dict_48_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_48_code. See ss_notec_sing_dict_48_code for more information.

Column Name: ss_notec_sing_dict_49_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 49'

Column Name: ss_notec_sing_dict_49_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_49_code. See ss_notec_sing_dict_49_code for more information.

Column Name: ss_notec_sing_dict_4_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 4'

Column Name: ss_notec_sing_dict_4_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_4_code. See ss_notec_sing_dict_4_code for more information.

Column Name: ss_notec_sing_dict_50_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 50'

Column Name: ss_notec_sing_dict_50_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_50_code. See ss_notec_sing_dict_50_code for more information.

Column Name: ss_notec_sing_dict_5_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 5'

Column Name: ss_notec_sing_dict_5_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_5_code. See ss_notec_sing_dict_5_code for more information.

Column Name: ss_notec_sing_dict_6_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 6'

Column Name: ss_notec_sing_dict_6_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_6_code. See ss_notec_sing_dict_6_code for more information.

Column Name: ss_notec_sing_dict_7_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 7'

Column Name: ss_notec_sing_dict_7_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_7_code. See ss_notec_sing_dict_7_code for more information.

Column Name: ss_notec_sing_dict_8_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 8'

Column Name: ss_notec_sing_dict_8_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_8_code. See ss_notec_sing_dict_8_code for more information.

Column Name: ss_notec_sing_dict_9_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 9'

Column Name: ss_notec_sing_dict_9_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_9_code. See ss_notec_sing_dict_9_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp_4

Table Description: This table returns the site specific information stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the service.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a progress note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number

Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notc_mult_dic_51_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 51'

Column Name: ss_notc_mult_dic_51_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_51_code. See ss_notc_mult_dic_51_code for more information.

Column Name: ss_notc_mult_dic_52_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 52'

Column Name: ss_notc_mult_dic_52_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_52_code. See ss_notc_mult_dic_52_code for more information.

Column Name: ss_notc_mult_dic_53_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 53'

Column Name: ss_notc_mult_dic_53_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_53_code. See ss_notc_mult_dic_53_code for more information.

Column Name: ss_notc_mult_dic_54_code
Column Type: varchar
Max Length: 50

'SS Note Copy Multiple Response Dictionary 54'

Column Name: ss_notc_mult_dic_54_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_54_code. See ss_notc_mult_dic_54_code for more information.

Column Name: ss_notc_mult_dic_55_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 55'

Column Name: ss_notc_mult_dic_55_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_55_code. See ss_notc_mult_dic_55_code for more information.

Column Name: ss_notc_mult_dic_56_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 56'

Column Name: ss_notc_mult_dic_56_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_56_code. See ss_notc_mult_dic_56_code for more information.

Column Name: ss_notc_mult_dic_57_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 57'

Column Name: ss_notc_mult_dic_57_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_57_code. See ss_notc_mult_dic_57_code for more information.

Column Name: ss_notc_mult_dic_58_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 58'

Column Name: ss_notc_mult_dic_58_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mult_dic_58_code`. See `ss_notc_mult_dic_58_code` for more information.

Column Name: `ss_notc_mult_dic_59_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 59'

Column Name: `ss_notc_mult_dic_59_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_59_code`. See `ss_notc_mult_dic_59_code` for more information.

Column Name: `ss_notc_mult_dic_60_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 60'

Column Name: `ss_notc_mult_dic_60_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_60_code`. See `ss_notc_mult_dic_60_code` for more information.

Column Name: `ss_notc_mult_dic_61_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 61'

Column Name: `ss_notc_mult_dic_61_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_61_code`. See `ss_notc_mult_dic_61_code` for more information.

Column Name: `ss_notc_mult_dic_62_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 62'

Column Name: `ss_notc_mult_dic_62_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_62_code`. See `ss_notc_mult_dic_62_code` for more information.

Column Name: `ss_notc_mult_dic_63_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Multiple Response Dictionary 63'

Column Name: ss_notc_mult_dic_63_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_63_code. See ss_notc_mult_dic_63_code for more information.

Column Name: ss_notc_mult_dic_64_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 64'

Column Name: ss_notc_mult_dic_64_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_64_code. See ss_notc_mult_dic_64_code for more information.

Column Name: ss_notc_mult_dic_65_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 65'

Column Name: ss_notc_mult_dic_65_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_mult_dic_65_code. See ss_notc_mult_dic_65_code for more information.

Column Name: ss_notc_mult_dic_66_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 66'

Column Name: ss_notc_mult_dic_66_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_66_code. See ss_notc_mult_dic_66_code for more information.

Column Name: ss_notc_mult_dic_67_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 67'

Column Name: ss_notc_mult_dic_67_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mult_dic_67_code`. See `ss_notc_mult_dic_67_code` for more information.

Column Name: `ss_notc_mult_dic_68_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 68'

Column Name: `ss_notc_mult_dic_68_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_68_code`. See `ss_notc_mult_dic_68_code` for more information.

Column Name: `ss_notc_mult_dic_69_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 69'

Column Name: `ss_notc_mult_dic_69_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_69_code`. See `ss_notc_mult_dic_69_code` for more information.

Column Name: `ss_notc_mult_dic_70_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 70'

Column Name: `ss_notc_mult_dic_70_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_70_code`. See `ss_notc_mult_dic_70_code` for more information.

Column Name: `ss_notc_mult_dic_71_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 71'

Column Name: `ss_notc_mult_dic_71_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_71_code`. See `ss_notc_mult_dic_71_code` for more information.

Column Name: `ss_notc_mult_dic_72_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Multiple Response Dictionary 72'

Column Name: ss_notc_mult_dic_72_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_72_code. See ss_notc_mult_dic_72_code for more information.

Column Name: ss_notc_mult_dic_73_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 73'

Column Name: ss_notc_mult_dic_73_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_73_code. See ss_notc_mult_dic_73_code for more information.

Column Name: ss_notc_mult_dic_74_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 74'

Column Name: ss_notc_mult_dic_74_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_74_code. See ss_notc_mult_dic_74_code for more information.

Column Name: ss_notc_mult_dic_75_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 75'

Column Name: ss_notc_mult_dic_75_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_mult_dic_75_code. See ss_notc_mult_dic_75_code for more information.

Column Name: ss_notc_mult_dic_76_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 76'

Column Name: ss_notc_mult_dic_76_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_76_code. See ss_notc_mult_dic_76_code for more information.

Column Name: ss_notc_mult_dic_77_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 77'

Column Name: ss_notc_mult_dic_77_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_77_code. See ss_notc_mult_dic_77_code for more information.

Column Name: ss_notc_mult_dic_78_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 78'

Column Name: ss_notc_mult_dic_78_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_78_code. See ss_notc_mult_dic_78_code for more information.

Column Name: ss_notc_mult_dic_79_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 79'

Column Name: ss_notc_mult_dic_79_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_79_code. See ss_notc_mult_dic_79_code for more information.

Column Name: ss_notc_mult_dic_80_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 80'

Column Name: ss_notc_mult_dic_80_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_80_code. See ss_notc_mult_dic_80_code for more information.

Column Name: ss_notc_sin_dic_51_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 51'

Column Name: ss_notc_sin_dic_51_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_51_code. See ss_notc_sin_dic_51_code for more information.

Column Name: ss_notc_sin_dic_52_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 52'

Column Name: ss_notc_sin_dic_52_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_52_code. See ss_notc_sin_dic_52_code for more information.

Column Name: ss_notc_sin_dic_53_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 53'

Column Name: ss_notc_sin_dic_53_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_53_code. See ss_notc_sin_dic_53_code for more information.

Column Name: ss_notc_sin_dic_54_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 54'

Column Name: ss_notc_sin_dic_54_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_54_code. See ss_notc_sin_dic_54_code for more information.

Column Name: ss_notc_sin_dic_55_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 55'

Column Name: ss_notc_sin_dic_55_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_55_code. See ss_notc_sin_dic_55_code for more information.

Column Name: ss_notc_sin_dic_56_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 56'

Column Name: ss_notc_sin_dic_56_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_56_code. See ss_notc_sin_dic_56_code for more information.

Column Name: ss_notc_sin_dic_57_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 57'

Column Name: ss_notc_sin_dic_57_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_57_code. See ss_notc_sin_dic_57_code for more information.

Column Name: ss_notc_sin_dic_58_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 58'

Column Name: ss_notc_sin_dic_58_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_58_code. See ss_notc_sin_dic_58_code for more information.

Column Name: ss_notc_sin_dic_59_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 59'

Column Name: ss_notc_sin_dic_59_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_59_code. See ss_notc_sin_dic_59_code for more information.

Column Name: ss_notc_sin_dic_60_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 60'

Column Name: ss_notc_sin_dic_60_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_60_code. See ss_notc_sin_dic_60_code for more information.

Column Name: ss_notc_sin_dic_61_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 61'

Column Name: ss_notc_sin_dic_61_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_61_code. See ss_notc_sin_dic_61_code for more information.

Column Name: ss_notc_sin_dic_62_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 62'

Column Name: ss_notc_sin_dic_62_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_62_code. See ss_notc_sin_dic_62_code for more information.

Column Name: ss_notc_sin_dic_63_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 63'

Column Name: ss_notc_sin_dic_63_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_63_code. See ss_notc_sin_dic_63_code for more information.

Column Name: ss_notc_sin_dic_64_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 64'

Column Name: ss_notc_sin_dic_64_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_64_code. See ss_notc_sin_dic_64_code for more information.

Column Name: ss_notc_sin_dic_65_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 65'

Column Name: ss_notc_sin_dic_65_value
Column Type: varchar
Max Length: 265
The description associated with ss_notc_sin_dic_65_code. See ss_notc_sin_dic_65_code for more information.

Column Name: ss_notc_sin_dic_66_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 66'

Column Name: ss_notc_sin_dic_66_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_66_code. See ss_notc_sin_dic_66_code for more information.

Column Name: ss_notc_sin_dic_67_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 67'

Column Name: ss_notc_sin_dic_67_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_67_code. See ss_notc_sin_dic_67_code for more information.

Column Name: ss_notc_sin_dic_68_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 68'

Column Name: ss_notc_sin_dic_68_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_68_code. See ss_notc_sin_dic_68_code for more information.

Column Name: ss_notc_sin_dic_69_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 69'

Column Name: ss_notc_sin_dic_69_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_69_code. See ss_notc_sin_dic_69_code for more information.

Column Name: ss_notc_sin_dic_70_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 70'

Column Name: ss_notc_sin_dic_70_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_70_code. See ss_notc_sin_dic_70_code for more information.

Column Name: ss_notc_sin_dic_71_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 71'

Column Name: ss_notc_sin_dic_71_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_71_code. See ss_notc_sin_dic_71_code for more information.

Column Name: ss_notc_sin_dic_72_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 72'

Column Name: ss_notc_sin_dic_72_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_72_code. See ss_notc_sin_dic_72_code for more information.

Column Name: ss_notc_sin_dic_73_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 73'

Column Name: ss_notc_sin_dic_73_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_73_code. See ss_notc_sin_dic_73_code for more information.

Column Name: ss_notc_sin_dic_74_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 74'

Column Name: ss_notc_sin_dic_74_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_74_code. See ss_notc_sin_dic_74_code for more information.

Column Name: ss_notc_sin_dic_75_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 75'

Column Name: ss_notc_sin_dic_75_value
Column Type: varchar
Max Length: 275
The description associated with ss_notc_sin_dic_75_code. See ss_notc_sin_dic_75_code for more information.

Column Name: ss_notc_sin_dic_76_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 76'

Column Name: ss_notc_sin_dic_76_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_76_code. See ss_notc_sin_dic_76_code for more information.

Column Name: ss_notc_sin_dic_77_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 77'

Column Name: ss_notc_sin_dic_77_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_77_code. See ss_notc_sin_dic_77_code for more information.

Column Name: ss_notc_sin_dic_78_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 78'

Column Name: ss_notc_sin_dic_78_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_78_code. See ss_notc_sin_dic_78_code for more information.

Column Name: ss_notc_sin_dic_79_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 79'

Column Name: ss_notc_sin_dic_79_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_79_code. See ss_notc_sin_dic_79_code for more information.

Column Name: ss_notc_sin_dic_80_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 80'

Column Name: ss_notc_sin_dic_80_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_80_code. See ss_notc_sin_dic_80_code for more information.

Column Name: ss_note_mul_dict_51_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 51'

Column Name: ss_note_mul_dict_51_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_51_code limited to 255 characters. See ss_note_mul_dict_51_code for more information.

Column Name: ss_note_mul_dict_51_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_51_code. See ss_note_mul_dict_51_code for more information.

Column Name: ss_note_mul_dict_52_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 52'

Column Name: ss_note_mul_dict_52_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_52_code limited to 255 characters. See ss_note_mul_dict_52_code for more information.

Column Name: ss_note_mul_dict_52_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_52_code. See ss_note_mul_dict_52_code for more information.

Column Name: ss_note_mul_dict_53_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 53'

Column Name: ss_note_mul_dict_53_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_53_code limited to 255 characters. See ss_note_mul_dict_53_code for more information.

Column Name: ss_note_mul_dict_53_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_53_code. See ss_note_mul_dict_53_code for more information.

Column Name: ss_note_mul_dict_54_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 54'

Column Name: ss_note_mul_dict_54_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_54_code limited to 255 characters. See ss_note_mul_dict_54_code for more information.

Column Name: ss_note_mul_dict_54_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_54_code. See ss_note_mul_dict_54_code for more information.

Column Name: ss_note_mul_dict_55_code

Column Type: varchar

Max Length: 20
'SS Note Multi Response Dictionary 55'

Column Name: ss_note_mul_dict_55_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_55_code limited to 255 characters. See ss_note_mul_dict_55_code for more information.

Column Name: ss_note_mul_dict_55_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_55_code. See ss_note_mul_dict_55_code for more information.

Column Name: ss_note_mul_dict_56_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 56'

Column Name: ss_note_mul_dict_56_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_56_code limited to 255 characters. See ss_note_mul_dict_56_code for more information.

Column Name: ss_note_mul_dict_56_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_56_code. See ss_note_mul_dict_56_code for more information.

Column Name: ss_note_mul_dict_57_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 57'

Column Name: ss_note_mul_dict_57_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_57_code limited to 255 characters. See ss_note_mul_dict_57_code for more information.

Column Name: ss_note_mul_dict_57_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_57_code. See ss_note_mul_dict_57_code for more information.

Column Name: ss_note_mul_dict_58_code

Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 58'

Column Name: ss_note_mul_dict_58_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_58_code limited to 255 characters. See ss_note_mul_dict_58_code for more information.

Column Name: ss_note_mul_dict_58_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_58_code. See ss_note_mul_dict_58_code for more information.

Column Name: ss_note_mul_dict_59_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 59'

Column Name: ss_note_mul_dict_59_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_59_code limited to 255 characters. See ss_note_mul_dict_59_code for more information.

Column Name: ss_note_mul_dict_59_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_59_code. See ss_note_mul_dict_59_code for more information.

Column Name: ss_note_mul_dict_60_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 60'

Column Name: ss_note_mul_dict_60_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_60_code limited to 255 characters. See ss_note_mul_dict_60_code for more information.

Column Name: ss_note_mul_dict_60_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_60_code. See ss_note_mul_dict_60_code for more information.

Column Name: ss_note_mul_dict_61_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 61'

Column Name: ss_note_mul_dict_61_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_61_code limited to 255 characters. See ss_note_mul_dict_61_code for more information.

Column Name: ss_note_mul_dict_61_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_61_code. See ss_note_mul_dict_61_code for more information.

Column Name: ss_note_mul_dict_62_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 62'

Column Name: ss_note_mul_dict_62_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_62_code limited to 255 characters. See ss_note_mul_dict_62_code for more information.

Column Name: ss_note_mul_dict_62_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_62_code. See ss_note_mul_dict_62_code for more information.

Column Name: ss_note_mul_dict_63_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 63'

Column Name: ss_note_mul_dict_63_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_63_code limited to 255 characters. See ss_note_mul_dict_63_code for more information.

Column Name: ss_note_mul_dict_63_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_63_code. See ss_note_mul_dict_63_code for more information.

Column Name: ss_note_mul_dict_64_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 64'

Column Name: ss_note_mul_dict_64_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_64_code limited to 255 characters. See ss_note_mul_dict_64_code for more information.

Column Name: ss_note_mul_dict_64_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_64_code. See ss_note_mul_dict_64_code for more information.

Column Name: ss_note_mul_dict_65_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 65'

Column Name: ss_note_mul_dict_65_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_65_code limited to 255 characters. See ss_note_mul_dict_65_code for more information.

Column Name: ss_note_mul_dict_65_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_65_code. See ss_note_mul_dict_65_code for more information.

Column Name: ss_note_mul_dict_66_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 66'

Column Name: ss_note_mul_dict_66_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_66_code limited to 255 characters. See ss_note_mul_dict_66_code for more information.

Column Name: ss_note_mul_dict_66_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_66_code. See ss_note_mul_dict_66_code for more information.

Column Name: ss_note_mul_dict_67_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 67'

Column Name: ss_note_mul_dict_67_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_67_code limited to 255 characters. See ss_note_mul_dict_67_code for more information.

Column Name: ss_note_mul_dict_67_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_67_code. See ss_note_mul_dict_67_code for more information.

Column Name: ss_note_mul_dict_68_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 68'

Column Name: ss_note_mul_dict_68_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_68_code limited to 255 characters. See ss_note_mul_dict_68_code for more information.

Column Name: ss_note_mul_dict_68_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_68_code. See ss_note_mul_dict_68_code for more information.

Column Name: ss_note_mul_dict_69_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 69'

Column Name: ss_note_mul_dict_69_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_69_code limited to 255 characters. See ss_note_mul_dict_69_code for more information.

Column Name: ss_note_mul_dict_69_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_69_code. See ss_note_mul_dict_69_code for more information.

Column Name: ss_note_mul_dict_70_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 70'

Column Name: ss_note_mul_dict_70_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_70_code limited to 255 characters. See ss_note_mul_dict_70_code for more information.

Column Name: ss_note_mul_dict_70_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_70_code. See ss_note_mul_dict_70_code for more information.

Column Name: ss_note_mul_dict_71_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 71'

Column Name: ss_note_mul_dict_71_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_71_code limited to 255 characters. See ss_note_mul_dict_71_code for more information.

Column Name: ss_note_mul_dict_71_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_71_code. See ss_note_mul_dict_71_code for more information.

Column Name: ss_note_mul_dict_72_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 72'

Column Name: ss_note_mul_dict_72_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_72_code limited to 255 characters. See ss_note_mul_dict_72_code for more information.

Column Name: ss_note_mul_dict_72_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_72_code. See ss_note_mul_dict_72_code for more information.

Column Name: ss_note_mul_dict_73_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 73'

Column Name: ss_note_mul_dict_73_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_73_code limited to 255 characters. See ss_note_mul_dict_73_code for more information.

Column Name: ss_note_mul_dict_73_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_73_code. See ss_note_mul_dict_73_code for more information.

Column Name: ss_note_mul_dict_74_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 74'

Column Name: ss_note_mul_dict_74_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_74_code limited to 255 characters. See ss_note_mul_dict_74_code for more information.

Column Name: ss_note_mul_dict_74_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_74_code. See ss_note_mul_dict_74_code for more information.

Column Name: ss_note_mul_dict_75_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 75'

Column Name: ss_note_mul_dict_75_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_75_code limited to 255 characters. See ss_note_mul_dict_75_code for more information.

Column Name: ss_note_mul_dict_75_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_75_code. See ss_note_mul_dict_75_code for more information.

Column Name: ss_note_mul_dict_76_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 76'

Column Name: ss_note_mul_dict_76_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_76_code limited to 255 characters. See ss_note_mul_dict_76_code for more information.

Column Name: ss_note_mul_dict_76_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_76_code. See ss_note_mul_dict_76_code for more information.

Column Name: ss_note_mul_dict_77_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 77'

Column Name: ss_note_mul_dict_77_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_77_code limited to 255 characters. See ss_note_mul_dict_77_code for more information.

Column Name: ss_note_mul_dict_77_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_77_code. See ss_note_mul_dict_77_code for more information.

Column Name: ss_note_mul_dict_78_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 78'

Column Name: ss_note_mul_dict_78_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_78_code limited to 255 characters. See ss_note_mul_dict_78_code for more information.

Column Name: ss_note_mul_dict_78_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_78_code. See ss_note_mul_dict_78_code for more information.

Column Name: ss_note_mul_dict_79_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 79'

Column Name: ss_note_mul_dict_79_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_79_code limited to 255 characters. See ss_note_mul_dict_79_code for more information.

Column Name: ss_note_mul_dict_79_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_79_code. See ss_note_mul_dict_79_code for more information.

Column Name: ss_note_sin_dict_52_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 52'

Column Name: ss_note_sin_dict_52_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_52_code. See ss_note_sin_dict_52_code for more information.

Column Name: ss_note_sin_dict_53_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 53'

Column Name: ss_note_sin_dict_53_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_53_code. See ss_note_sin_dict_53_code for more information.

Column Name: ss_note_sin_dict_54_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 54'

Column Name: ss_note_sin_dict_54_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_54_code. See ss_note_sin_dict_54_code for more information.

Column Name: ss_note_sin_dict_55_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 55'

Column Name: ss_note_sin_dict_55_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_55_code. See ss_note_sin_dict_55_code for more information.

Column Name: ss_note_sin_dict_56_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 56'

Column Name: ss_note_sin_dict_56_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_56_code. See ss_note_sin_dict_56_code for more information.

Column Name: ss_note_sin_dict_57_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 57'

Column Name: ss_note_sin_dict_57_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_57_code. See ss_note_sin_dict_57_code for more information.

Column Name: ss_note_sin_dict_58_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 58'

Column Name: ss_note_sin_dict_58_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_58_code. See ss_note_sin_dict_58_code for more information.

Column Name: ss_note_sin_dict_59_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 59'

Column Name: ss_note_sin_dict_59_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_59_code. See ss_note_sin_dict_59_code for more information.

Column Name: ss_note_sin_dict_60_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 60'

Column Name: ss_note_sin_dict_60_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_60_code. See ss_note_sin_dict_60_code for more information.

Column Name: ss_note_sin_dict_61_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 61'

Column Name: ss_note_sin_dict_61_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_61_code. See ss_note_sin_dict_61_code for more information.

Column Name: ss_note_sin_dict_62_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 62'

Column Name: ss_note_sin_dict_62_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_62_code. See ss_note_sin_dict_62_code for more information.

Column Name: ss_note_sin_dict_63_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 63'

Column Name: ss_note_sin_dict_63_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_63_code. See ss_note_sin_dict_63_code for more information.

Column Name: ss_note_sin_dict_64_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 64'

Column Name: ss_note_sin_dict_64_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_64_code. See ss_note_sin_dict_64_code for more information.

Column Name: ss_note_sin_dict_65_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 65'

Column Name: ss_note_sin_dict_65_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_65_code. See ss_note_sin_dict_65_code for more information.

Column Name: ss_note_sin_dict_66_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 66'

Column Name: ss_note_sin_dict_66_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_66_code. See ss_note_sin_dict_66_code for more information.

Column Name: ss_note_sin_dict_67_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 67'

Column Name: ss_note_sin_dict_67_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_67_code. See ss_note_sin_dict_67_code for more information.

Column Name: ss_note_sin_dict_68_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 68'

Column Name: ss_note_sin_dict_68_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_68_code. See ss_note_sin_dict_68_code for more information.

Column Name: ss_note_sin_dict_69_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 69'

Column Name: ss_note_sin_dict_69_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_69_code. See ss_note_sin_dict_69_code for more information.

Column Name: ss_note_sin_dict_70_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 70'

Column Name: ss_note_sin_dict_70_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_70_code. See ss_note_sin_dict_70_code for more information.

Column Name: ss_note_sin_dict_71_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 71'

Column Name: ss_note_sin_dict_71_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_71_code. See ss_note_sin_dict_71_code for more information.

Column Name: ss_note_sin_dict_72_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 72'

Column Name: ss_note_sin_dict_72_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_72_code. See ss_note_sin_dict_72_code for more information.

Column Name: ss_note_sin_dict_73_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 73'

Column Name: ss_note_sin_dict_73_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_73_code. See ss_note_sin_dict_73_code for more information.

Column Name: ss_note_sin_dict_74_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 74'

Column Name: ss_note_sin_dict_74_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_74_code. See ss_note_sin_dict_74_code for more information.

Column Name: ss_note_sin_dict_75_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 75'

Column Name: ss_note_sin_dict_75_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_75_code. See ss_note_sin_dict_75_code for more information.

Column Name: ss_note_sin_dict_76_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 76'

Column Name: ss_note_sin_dict_76_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_76_code. See ss_note_sin_dict_76_code for more information.

Column Name: ss_note_sin_dict_77_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 77'

Column Name: ss_note_sin_dict_77_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_77_code. See ss_note_sin_dict_77_code for more information.

Column Name: ss_note_sin_dict_78_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 78'

Column Name: ss_note_sin_dict_78_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_78_code. See ss_note_sin_dict_78_code for more information.

Column Name: ss_note_sin_dict_79_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 79'

Column Name: ss_note_sin_dict_79_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_79_code. See ss_note_sin_dict_79_code for more information.

Column Name: ss_note_sin_dict_80_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 80'

Column Name: ss_note_sin_dict_80_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_80_code. See ss_note_sin_dict_80_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp_5

Table Description: This table returns the site specific information stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 40

The user ID who last updated the service.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the service.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: ebp_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practices'

Column Name: ebp_element_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practice Elements'

Column Name: ebp_element_value

Column Type: varchar

Max Length: 32000

The description associated with ebp_element_code

Column Name: ebp_value

Column Type: varchar

Max Length: 32000

The description associated with ebp_code

Column Name: form_number

Column Type: varchar

Max Length: 50

'Form Number'

Column Name: option_desc

Column Type: varchar

Max Length: 81

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: ss_notc_mul_dic_100_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 100'

Column Name: ss_notc_mul_dic_100_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_100_code. See ss_notc_mul_dic_100_code for more information.

Column Name: ss_notc_mul_dic_101_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 101'

Column Name: ss_notc_mul_dic_101_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_101_code. See ss_notc_mul_dic_101_code for more information.

Column Name: ss_notc_mul_dic_102_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 102'

Column Name: ss_notc_mul_dic_102_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_102_code. See ss_notc_mul_dic_102_code for more information.

Column Name: ss_notc_mul_dic_103_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 103'

Column Name: ss_notc_mul_dic_103_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_103_code. See ss_notc_mul_dic_103_code for more information.

Column Name: ss_notc_mul_dic_104_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 104'

Column Name: ss_notc_mul_dic_104_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_104_code. See ss_notc_mul_dic_104_code for more information.

Column Name: ss_notc_mul_dic_105_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 105'

Column Name: ss_notc_mul_dic_105_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_mul_dic_105_code. See ss_notc_mul_dic_105_code for more information.

Column Name: ss_notc_mul_dic_106_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 106'

Column Name: ss_notc_mul_dic_106_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_106_code. See ss_notc_mul_dic_106_code for more information.

Column Name: ss_notc_mul_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 107'

Column Name: ss_notc_mul_dic_107_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_107_code. See ss_notc_mul_dic_107_code for more information.

Column Name: ss_notc_mul_dic_108_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 108'

Column Name: ss_notc_mul_dic_108_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_108_code. See ss_notc_mul_dic_108_code for more information.

Column Name: ss_notc_mul_dic_109_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 109'

Column Name: ss_notc_mul_dic_109_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_109_code. See ss_notc_mul_dic_109_code for more information.

Column Name: ss_notc_mul_dic_110_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 110'

Column Name: ss_notc_mul_dic_110_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_110_code. See ss_notc_mul_dic_110_code for more information.

Column Name: ss_notc_mul_dic_81_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 81'

Column Name: ss_notc_mul_dic_81_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_81_code. See ss_notc_mul_dic_81_code for more information.

Column Name: ss_notc_mul_dic_82_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 82'

Column Name: ss_notc_mul_dic_82_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_82_code. See ss_notc_mul_dic_82_code for more information.

Column Name: ss_notc_mul_dic_83_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 83'

Column Name: ss_notc_mul_dic_83_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_83_code. See ss_notc_mul_dic_83_code for more information.

Column Name: ss_notc_mul_dic_84_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 84'

Column Name: ss_notc_mul_dic_84_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_84_code. See ss_notc_mul_dic_84_code for more information.

Column Name: ss_notc_mul_dic_85_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 85'

Column Name: ss_notc_mul_dic_85_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_85_code. See ss_notc_mul_dic_85_code for more information.

Column Name: ss_notc_mul_dic_86_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 86'

Column Name: ss_notc_mul_dic_86_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_86_code. See ss_notc_mul_dic_86_code for more information.

Column Name: ss_notc_mul_dic_87_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 87'

Column Name: ss_notc_mul_dic_87_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_87_code. See ss_notc_mul_dic_87_code for more information.

Column Name: ss_notc_mul_dic_88_code

Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 88'

Column Name: ss_notc_mul_dic_88_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_88_code. See ss_notc_mul_dic_88_code for more information.

Column Name: ss_notc_mul_dic_89_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 89'

Column Name: ss_notc_mul_dic_89_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_89_code. See ss_notc_mul_dic_89_code for more information.

Column Name: ss_notc_mul_dic_90_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 90'

Column Name: ss_notc_mul_dic_90_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_90_code. See ss_notc_mul_dic_90_code for more information.

Column Name: ss_notc_mul_dic_91_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 91'

Column Name: ss_notc_mul_dic_91_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_91_code. See ss_notc_mul_dic_91_code for more information.

Column Name: ss_notc_mul_dic_92_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 92'

Column Name: ss_notc_mul_dic_92_value
Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_92_code. See ss_notc_mul_dic_92_code for more information.

Column Name: ss_notc_mul_dic_93_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 93'

Column Name: ss_notc_mul_dic_93_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_93_code. See ss_notc_mul_dic_93_code for more information.

Column Name: ss_notc_mul_dic_94_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 94'

Column Name: ss_notc_mul_dic_94_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_94_code. See ss_notc_mul_dic_94_code for more information.

Column Name: ss_notc_mul_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 95'

Column Name: ss_notc_mul_dic_95_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_mul_dic_95_code. See ss_notc_mul_dic_95_code for more information.

Column Name: ss_notc_mul_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 96'

Column Name: ss_notc_mul_dic_96_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_96_code. See ss_notc_mul_dic_96_code for more information.

Column Name: ss_notc_mul_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 97'

Column Name: ss_notc_mul_dic_97_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_97_code. See ss_notc_mul_dic_97_code for more information.

Column Name: ss_notc_mul_dic_98_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 98'

Column Name: ss_notc_mul_dic_98_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_98_code. See ss_notc_mul_dic_98_code for more information.

Column Name: ss_notc_mul_dic_99_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 99'

Column Name: ss_notc_mul_dic_99_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_99_code. See ss_notc_mul_dic_99_code for more information.

Column Name: ss_notc_sin_dic_100_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 100'

Column Name: ss_notc_sin_dic_100_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_100_code. See ss_notc_sin_dic_100_code for more information.

Column Name: ss_notc_sin_dic_101_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 101'

Column Name: ss_notc_sin_dic_101_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_101_code. See ss_notc_sin_dic_101_code for more information.

Column Name: ss_notc_sin_dic_102_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 102'

Column Name: ss_notc_sin_dic_102_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_102_code. See ss_notc_sin_dic_102_code for more information.

Column Name: ss_notc_sin_dic_103_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 103'

Column Name: ss_notc_sin_dic_103_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_103_code. See ss_notc_sin_dic_103_code for more information.

Column Name: ss_notc_sin_dic_104_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 104'

Column Name: ss_notc_sin_dic_104_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_104_code. See ss_notc_sin_dic_104_code for more information.

Column Name: ss_notc_sin_dic_105_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 105'

Column Name: ss_notc_sin_dic_105_value
Column Type: varchar
Max Length: 275
The description associated with ss_notc_sin_dic_105_code. See ss_notc_sin_dic_105_code for more information.

Column Name: ss_notc_sin_dic_106_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 106'

Column Name: ss_notc_sin_dic_106_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_106_code. See ss_notc_sin_dic_106_code for more information.

Column Name: ss_notc_sin_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 107'

Column Name: ss_notc_sin_dic_107_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_107_code. See ss_notc_sin_dic_107_code for more information.

Column Name: ss_notc_sin_dic_108_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 108'

Column Name: ss_notc_sin_dic_108_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_108_code. See ss_notc_sin_dic_108_code for more information.

Column Name: ss_notc_sin_dic_109_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 109'

Column Name: ss_notc_sin_dic_109_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_109_code. See ss_notc_sin_dic_109_code for more information.

Column Name: ss_notc_sin_dic_110_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 110'

Column Name: ss_notc_sin_dic_110_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_110_code. See ss_notc_sin_dic_110_code for more information.

Column Name: ss_notc_sin_dic_81_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 81'

Column Name: ss_notc_sin_dic_81_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_81_code. See ss_notc_sin_dic_81_code for more information.

Column Name: ss_notc_sin_dic_82_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 82'

Column Name: ss_notc_sin_dic_82_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_82_code. See ss_notc_sin_dic_82_code for more information.

Column Name: ss_notc_sin_dic_83_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 83'

Column Name: ss_notc_sin_dic_83_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_83_code. See ss_notc_sin_dic_83_code for more information.

Column Name: ss_notc_sin_dic_84_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 84'

Column Name: ss_notc_sin_dic_84_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_84_code. See ss_notc_sin_dic_84_code for more information.

Column Name: ss_notc_sin_dic_85_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 85'

Column Name: ss_notc_sin_dic_85_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_85_code. See ss_notc_sin_dic_85_code for more information.

Column Name: ss_notc_sin_dic_86_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 86'

Column Name: ss_notc_sin_dic_86_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_86_code. See ss_notc_sin_dic_86_code for more information.

Column Name: ss_notc_sin_dic_87_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 87'

Column Name: ss_notc_sin_dic_87_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_87_code. See ss_notc_sin_dic_87_code for more information.

Column Name: ss_notc_sin_dic_88_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 88'

Column Name: ss_notc_sin_dic_88_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_88_code. See ss_notc_sin_dic_88_code for more information.

Column Name: ss_notc_sin_dic_89_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 89'

Column Name: ss_notc_sin_dic_89_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_89_code. See ss_notc_sin_dic_89_code for more information.

Column Name: ss_notc_sin_dic_90_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 90'

Column Name: ss_notc_sin_dic_90_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_90_code. See ss_notc_sin_dic_90_code for more information.

Column Name: ss_notc_sin_dic_91_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 91'

Column Name: ss_notc_sin_dic_91_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_91_code. See ss_notc_sin_dic_91_code for more information.

Column Name: ss_notc_sin_dic_92_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 92'

Column Name: ss_notc_sin_dic_92_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_92_code. See ss_notc_sin_dic_92_code for more information.

Column Name: ss_notc_sin_dic_93_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 93'

Column Name: ss_notc_sin_dic_93_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_93_code. See ss_notc_sin_dic_93_code for more information.

Column Name: ss_notc_sin_dic_94_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 94'

Column Name: ss_notc_sin_dic_94_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_94_code. See ss_notc_sin_dic_94_code for more information.

Column Name: ss_notc_sin_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 95'

Column Name: ss_notc_sin_dic_95_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_sin_dic_95_code. See ss_notc_sin_dic_95_code for more information.

Column Name: ss_notc_sin_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 96'

Column Name: ss_notc_sin_dic_96_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_96_code. See ss_notc_sin_dic_96_code for more information.

Column Name: ss_notc_sin_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 97'

Column Name: ss_notc_sin_dic_97_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_97_code. See ss_notc_sin_dic_97_code for more information.

Column Name: ss_notc_sin_dic_98_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 98'

Column Name: ss_notc_sin_dic_98_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_sin_dic_98_code`. See `ss_notc_sin_dic_98_code` for more information.

Column Name: `ss_notc_sin_dic_99_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 99'

Column Name: `ss_notc_sin_dic_99_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_99_code`. See `ss_notc_sin_dic_99_code` for more information.

Column Name: `ss_note_mul_dic_100_code`
Column Type: `varchar`
Max Length: 20
'SS Note Multi Response Dictionary 100'

Column Name: `ss_note_mul_dic_100_shval`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_note_mul_dic_100_code` limited to 255 characters. See `ss_note_mul_dic_100_code` for more information.

Column Name: `ss_note_mul_dic_100_value`
Column Type: `varchar`
Max Length: 32700
The description associated with `ss_note_mul_dic_100_code`. See `ss_note_mul_dic_100_code` for more information.

Column Name: `ss_note_mul_dic_101_code`
Column Type: `varchar`
Max Length: 20
'SS Note Multi Response Dictionary 101'

Column Name: `ss_note_mul_dic_101_shval`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_note_mul_dic_101_code` limited to 255 characters. See `ss_note_mul_dic_101_code` for more information.

Column Name: `ss_note_mul_dic_101_value`
Column Type: `varchar`
Max Length: 32700
The description associated with `ss_note_mul_dic_101_code`. See `ss_note_mul_dic_101_code` for more information.

Column Name: `ss_note_mul_dic_102_code`
Column Type: `varchar`

Max Length: 20

'SS Note Multi Response Dictionary 102'

Column Name: ss_note_mul_dic_102_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_102_code limited to 255 characters. See ss_note_mul_dic_102_code for more information.

Column Name: ss_note_mul_dic_102_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_102_code. See ss_note_mul_dic_102_code for more information.

Column Name: ss_note_mul_dic_103_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 103'

Column Name: ss_note_mul_dic_103_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_103_code limited to 255 characters. See ss_note_mul_dic_103_code for more information.

Column Name: ss_note_mul_dic_103_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_103_code. See ss_note_mul_dic_103_code for more information.

Column Name: ss_note_mul_dic_104_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 104'

Column Name: ss_note_mul_dic_104_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_104_code limited to 255 characters. See ss_note_mul_dic_104_code for more information.

Column Name: ss_note_mul_dic_104_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_104_code. See ss_note_mul_dic_104_code for more information.

Column Name: ss_note_mul_dic_105_code

Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 105'

Column Name: ss_note_mul_dic_105_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_105_code limited to 255 characters. See ss_note_mul_dic_105_code for more information.

Column Name: ss_note_mul_dic_105_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_105_code. See ss_note_mul_dic_105_code for more information.

Column Name: ss_note_mul_dic_106_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 106'

Column Name: ss_note_mul_dic_106_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_106_code limited to 255 characters. See ss_note_mul_dic_106_code for more information.

Column Name: ss_note_mul_dic_106_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_106_code. See ss_note_mul_dic_106_code for more information.

Column Name: ss_note_mul_dic_107_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 107'

Column Name: ss_note_mul_dic_107_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_107_code limited to 255 characters. See ss_note_mul_dic_107_code for more information.

Column Name: ss_note_mul_dic_107_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_107_code. See ss_note_mul_dic_107_code for more information.

Column Name: ss_note_mul_dic_108_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 108'

Column Name: ss_note_mul_dic_108_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_108_code limited to 255 characters. See ss_note_mul_dic_108_code for more information.

Column Name: ss_note_mul_dic_108_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_108_code. See ss_note_mul_dic_108_code for more information.

Column Name: ss_note_mul_dic_109_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 109'

Column Name: ss_note_mul_dic_109_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_109_code limited to 255 characters. See ss_note_mul_dic_109_code for more information.

Column Name: ss_note_mul_dic_109_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_109_code. See ss_note_mul_dic_109_code for more information.

Column Name: ss_note_mul_dic_110_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 110'

Column Name: ss_note_mul_dic_110_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_110_code limited to 255 characters. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_110_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_110_code. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_81_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 81'

Column Name: ss_note_mul_dic_81_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_81_code limited to 255 characters. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_81_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_81_code. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_82_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 82'

Column Name: ss_note_mul_dic_82_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_82_code limited to 255 characters. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_82_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_82_code. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_83_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 83'

Column Name: ss_note_mul_dic_83_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_83_code limited to 255 characters. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_83_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_83_code. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_84_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 84'

Column Name: ss_note_mul_dic_84_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_84_code limited to 255 characters. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_84_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_84_code. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_85_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 85'

Column Name: ss_note_mul_dic_85_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_85_code limited to 255 characters. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_85_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_85_code. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_86_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 86'

Column Name: ss_note_mul_dic_86_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_86_code limited to 255 characters. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_86_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_86_code. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_87_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 87'

Column Name: ss_note_mul_dic_87_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_87_code limited to 255 characters. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_87_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_87_code. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_88_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 88'

Column Name: ss_note_mul_dic_88_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_88_code limited to 255 characters. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_88_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_88_code. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_89_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 89'

Column Name: ss_note_mul_dic_89_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_89_code limited to 255 characters. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_89_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_89_code. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_90_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 90'

Column Name: ss_note_mul_dic_90_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_90_code limited to 255 characters. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_90_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_90_code. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_91_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 91'

Column Name: ss_note_mul_dic_91_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_91_code limited to 255 characters. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_91_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_91_code. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_92_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 92'

Column Name: ss_note_mul_dic_92_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_92_code limited to 255 characters. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_92_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_92_code. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_93_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 93'

Column Name: ss_note_mul_dic_93_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_93_code limited to 255 characters. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_93_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_93_code. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_94_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 94'

Column Name: ss_note_mul_dic_94_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_94_code limited to 255 characters. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_94_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_94_code. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_95_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 95'

Column Name: ss_note_mul_dic_95_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_95_code limited to 255 characters. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_95_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_95_code. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_96_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 96'

Column Name: ss_note_mul_dic_96_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_96_code limited to 255 characters. See ss_note_mul_dic_96_code for more information.

Column Name: ss_note_mul_dic_96_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_96_code. See ss_note_mul_dic_96_code for more information.

Column Name: ss_note_mul_dic_97_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 97'

Column Name: ss_note_mul_dic_97_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_97_code limited to 255 characters. See ss_note_mul_dic_97_code for more information.

Column Name: ss_note_mul_dic_97_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_97_code. See ss_note_mul_dic_97_code for more information.

Column Name: ss_note_mul_dic_98_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 98'

Column Name: ss_note_mul_dic_98_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_98_code limited to 255 characters. See ss_note_mul_dic_98_code for more information.

Column Name: ss_note_mul_dic_98_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_98_code. See ss_note_mul_dic_98_code for more information.

Column Name: ss_note_mul_dic_99_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 99'

Column Name: ss_note_mul_dic_99_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_99_code limited to 255 characters. See ss_note_mul_dic_99_code for more information.

Column Name: ss_note_mul_dic_99_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_99_code. See ss_note_mul_dic_99_code for more information.

Column Name: ss_note_scroll_text_100

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Free Text 100'

Column Name: ss_note_scroll_text_101

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Free Text 101'

Column Name: ss_note_scroll_text_102

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Free Text 102'

Column Name: ss_note_scroll_text_103

Column Type: varchar

Max Length: 32700

Column Name: ss_note_scroll_text_99
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 99'

Column Name: ss_note_sin_dic_100_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 100'

Column Name: ss_note_sin_dic_100_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_100_code. See ss_note_sin_dic_100_code for more information.

Column Name: ss_note_sin_dic_101_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 101'

Column Name: ss_note_sin_dic_101_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_101_code. See ss_note_sin_dic_101_code for more information.

Column Name: ss_note_sin_dic_102_code
Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 102'

Column Name: ss_note_sin_dic_102_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_102_code. See ss_note_sin_dic_102_code for more information.

Column Name: ss_note_sin_dic_103_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 103'

Column Name: ss_note_sin_dic_103_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_103_code. See ss_note_sin_dic_103_code for more information.

Column Name: ss_note_sin_dic_104_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 104'

Column Name: ss_note_sin_dic_104_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_104_code. See ss_note_sin_dic_104_code for more information.

Column Name: ss_note_sin_dic_105_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 105'

Column Name: ss_note_sin_dic_105_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_105_code. See ss_note_sin_dic_105_code for more information.

Column Name: ss_note_sin_dic_106_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 106'

Column Name: ss_note_sin_dic_106_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_106_code. See ss_note_sin_dic_106_code for more information.

Column Name: ss_note_sin_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 107'

Column Name: ss_note_sin_dic_107_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_107_code. See ss_note_sin_dic_107_code for more information.

Column Name: ss_note_sin_dic_108_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 108'

Column Name: ss_note_sin_dic_108_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_108_code. See ss_note_sin_dic_108_code for more information.

Column Name: ss_note_sin_dic_109_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 109'

Column Name: ss_note_sin_dic_109_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_109_code. See ss_note_sin_dic_109_code for more information.

Column Name: ss_note_sin_dic_110_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 110'

Column Name: ss_note_sin_dic_110_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_110_code. See ss_note_sin_dic_110_code for more information.

Column Name: ss_note_sin_dic_81_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 81'

Column Name: ss_note_sin_dic_81_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_81_code. See ss_note_sin_dic_81_code for more information.

Column Name: ss_note_sin_dic_82_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 82'

Column Name: ss_note_sin_dic_82_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_82_code. See ss_note_sin_dic_82_code for more information.

Column Name: ss_note_sin_dic_83_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 83'

Column Name: ss_note_sin_dic_83_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_83_code. See ss_note_sin_dic_83_code for more information.

Column Name: ss_note_sin_dic_84_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 84'

Column Name: ss_note_sin_dic_84_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_84_code. See ss_note_sin_dic_84_code for more information.

Column Name: ss_note_sin_dic_85_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 85'

Column Name: ss_note_sin_dic_85_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_85_code. See ss_note_sin_dic_85_code for more information.

Column Name: ss_note_sin_dic_86_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 86'

Column Name: ss_note_sin_dic_86_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_86_code. See ss_note_sin_dic_86_code for more information.

Column Name: ss_note_sin_dic_87_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 87'

Column Name: ss_note_sin_dic_87_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_87_code. See ss_note_sin_dic_87_code for more information.

Column Name: ss_note_sin_dic_88_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 88'

Column Name: ss_note_sin_dic_88_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_88_code. See ss_note_sin_dic_88_code for more information.

Column Name: ss_note_sin_dic_89_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 89'

Column Name: ss_note_sin_dic_89_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_89_code. See ss_note_sin_dic_89_code for more information.

Column Name: ss_note_sin_dic_90_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 90'

Column Name: ss_note_sin_dic_90_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_90_code. See ss_note_sin_dic_90_code for more information.

Column Name: ss_note_sin_dic_91_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 91'

Column Name: ss_note_sin_dic_91_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_91_code. See ss_note_sin_dic_91_code for more information.

Column Name: ss_note_sin_dic_92_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 92'

Column Name: ss_note_sin_dic_92_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_92_code. See ss_note_sin_dic_92_code for more information.

Column Name: ss_note_sin_dic_93_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 93'

Column Name: ss_note_sin_dic_93_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_93_code. See ss_note_sin_dic_93_code for more information.

Column Name: ss_note_sin_dic_94_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 94'

Column Name: ss_note_sin_dic_94_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_94_code. See ss_note_sin_dic_94_code for more information.

Column Name: ss_note_sin_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 95'

Column Name: ss_note_sin_dic_95_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_95_code. See ss_note_sin_dic_95_code for more information.

Column Name: ss_note_sin_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 96'

Column Name: ss_note_sin_dic_96_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_96_code. See ss_note_sin_dic_96_code for more information.

Column Name: ss_note_sin_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 97'

Column Name: ss_note_sin_dic_97_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_97_code. See ss_note_sin_dic_97_code for more information.

Column Name: ss_note_sin_dic_98_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 98'

Column Name: ss_note_sin_dic_98_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_98_code. See ss_note_sin_dic_98_code for more information.

Column Name: ss_note_sin_dic_99_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 99'

Column Name: ss_note_sin_dic_99_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_99_code. See ss_note_sin_dic_99_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_supp_6

Table Description: This table returns the facility location fields stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the service.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: EPISODE_NUMBER

Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: facloc_address_1

Column Type: varchar
Max Length: 50
'Facility Location Address - Street'

Column Name: facloc_address_2
Column Type: varchar
Max Length: 50
'Facility Location Address - Street 2'

Column Name: facloc_city
Column Type: varchar
Max Length: 50
'Facility Location City'

Column Name: facloc_id_code
Column Type: varchar
Max Length: 50
'Facility Location Code Identifier'

Column Name: facloc_id_code_qual
Column Type: varchar
Max Length: 50
'Facility Location Code Qualifier'

Column Name: facloc_name
Column Type: varchar
Max Length: 50
'Facility Location Name'

Column Name: facloc_state
Column Type: varchar
Max Length: 50
'Facility Location State'

Column Name: facloc_zip_code
Column Type: varchar
Max Length: 50
'Facility Location Zip Code'

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_51
Column Type: varchar
Max Length: 20
SS Note 20 Character 51

Column Name: ss_note_20_char_text_52
Column Type: varchar
Max Length: 20
SS Note 20 Character 52

Column Name: ss_note_20_char_text_53
Column Type: varchar
Max Length: 20
SS Note 20 Character 53

Column Name: ss_note_20_char_text_54
Column Type: varchar
Max Length: 20
SS Note 20 Character 54

Column Name: ss_note_20_char_text_55
Column Type: varchar
Max Length: 20
SS Note 20 Character 55

Column Name: ss_note_20_char_text_56
Column Type: varchar
Max Length: 20
SS Note 20 Character 56

Column Name: ss_note_20_char_text_57
Column Type: varchar
Max Length: 20
SS Note 20 Character 57

Column Name: ss_note_20_char_text_58
Column Type: varchar
Max Length: 20
SS Note 20 Character 58

Column Name: ss_note_20_char_text_59
Column Type: varchar
Max Length: 20
SS Note 20 Character 59

Column Name: ss_note_20_char_text_60

Column Type: varchar
Max Length: 20
SS Note 20 Character 60

Column Name: ss_note_20_char_text_61
Column Type: varchar
Max Length: 20

SS Note Time 56

Column Name: ss_note_time_57
Column Type: varchar
Max Length: 10
SS Note Time 57

Column Name: ss_note_time_58
Column Type: varchar
Max Length: 10
SS Note Time 58

Column Name: ss_note_time_59
Column Type: varchar
Max Length: 10
SS Note Time 59

Column Name: ss_note_time_60
Column Type: varchar
Max Length: 10
SS Note Time 60

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Ambulatory_Progress_Notes

Table Name: SYSTEM.cw_patient_notes_tnotes

Table Description: This table returns the information stored for the treatment plan grid in progress notes forms.

Column Name: ID
Column Type: integer

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: PATID
Column Type: varchar

Max Length: 20
The client ID associated with the data.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 20
The unique ID associated with the note.

Column Name: tp_notes_id
Column Type: integer
Id column for auditing purposes

Column Name: select_tp_version_code
Column Type: varchar
Max Length: 50
'Select T.P. Version'

Column Name: select_tp_version_value
Column Type: varchar
Max Length: 255
The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: note_add_which_tp_plan_prob
Column Type: varchar
Max Length: 32000
The treatment plan problem to add to the note.

Column Name: notes
Column Type: varchar
Max Length: 32000
Notes for the selected TP item.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotes table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 20
The unique ID associated with the note.

Column Name: notes_field
Column Type: varchar
Max Length: 32700
The written note information.

Column Name: note_type_code
Column Type: varchar
Max Length: 50
'Note Type'

Column Name: note_type_value
Column Type: varchar
Max Length: 40
The description associated with note_type_code. See note_type_code for more information.

Column Name: note_time
Column Type: varchar
Max Length: 25
'Note Time'

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: New_Existing_Service_code
Column Type: varchar

Max Length: 5
'Progress Note For'

Column Name: New_Existing_Service_value
Column Type: varchar
Max Length: 40
The description associated with New_Existing_Service_code. See New_Existing_Service_code for more information.

Column Name: service_program_value
Column Type: varchar
Max Length: 40
The description associated with service_program_code. See service_program_code for more information.

Column Name: note_addresses
Column Type: varchar
Max Length: 40
'Note Addresses Which Existing Service/Appointment'

Column Name: note_add_which_tp_plan_prob
Column Type: varchar
Max Length: 32700
The treatment plan problem to add to the note.

Column Name: Tx_Note_UniqueId
Column Type: varchar
Max Length: 40
The unique ID associated with the treatment.

Column Name: service_charge_value
Column Type: varchar
Max Length: 40
The description associated with service_charge_code. See service_charge_code for more information.

Column Name: GROUP_ID
Column Type: varchar
Max Length: 10
'Group Name Or Number'

Column Name: JOIN_TO_TX_HISTORY
Column Type: varchar
Max Length: 40
The unique ID that joins the note to the service.

Column Name: Option_Desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: Option_Id

Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: TODO_ID
Column Type: varchar
Max Length: 20
'To Do Id'

Column Name: add_on_notes
Column Type: varchar
Max Length: 32768
The add-on notes.

Column Name: add_svc_info_code
Column Type: varchar
Max Length: 40
The additional service information.

Column Name: add_svc_info_shval
Column Type: varchar
Max Length: 255
The description associated with add_svc_info_code limited to 255 characters. See add_svc_info_code for more information.

Column Name: add_svc_info_value
Column Type: varchar
Max Length: 4096
The description associated with add_svc_info_code. See add_svc_info_code for more information.

Column Name: aps_link
Column Type: varchar
Max Length: 40
'Note Addresses Which Existing Appointment'

Column Name: billing_status_code
Column Type: varchar
Max Length: 50
'Service Status'

Column Name: billing_status_value
Column Type: varchar
Max Length: 50
The description associated with billing_status_code. See billing_status_code for more information.

Column Name: calpm_ebpss_csi_code
Column Type: varchar
Max Length: 50
'Evidence-Based Practices / Service Strategies (CSI)'

Column Name: calpm_ebpss_csi_value
Column Type: varchar
Max Length: 200
The description associated with calpm_ebpss_csi_code. See calpm_ebpss_csi_code for more information.

Column Name: calpm_ebpss_csi_value_long
Column Type: varchar
Max Length: 4096
The description associated with calpm_ebpss_csi_value_code. See calpm_ebpss_csi_value_code for more information.

Column Name: client_prob_list_codes
Column Type: varchar
Max Length: 50
The codes associated with the client problem list.

Column Name: client_prob_list_shvals
Column Type: varchar
Max Length: 255
The description associated with client_prob_list_code limited to 255 characters. See client_prob_list_code for more information.

Column Name: client_prob_list_vals
Column Type: varchar
Max Length: 32700
The description associated with client_prob_list_code. See client_prob_list_code for more information.

Column Name: clinical_instructions
Column Type: varchar
Max Length: 32700
'Clinical Instructions'

Column Name: clinical_quality_code
Column Type: varchar
Max Length: 255
'Clinical Quality Indicators'

Column Name: clinical_quality_sh_val
Column Type: varchar
Max Length: 255
'The description associated with clinical_quality_code. See clinical_quality_code for more information.'

Column Name: clinical_quality_value
Column Type: varchar
Max Length: 4096

'The description associated with clinical_quality_code. See clinical_quality_code for more information.

Column Name: confidential_note

Column Type: varchar

Max Length: 50

The confidential note.

Column Name: co_pract_duration

Column Type: numeric

The first co-practitioner duration.

Column Name: co_pract2_duration

Column Type: numeric

The second co-practitioner duration.

Column Name: co_practitioner_id

Column Type: varchar

Max Length: 15

The first co-practitioner ID.

Column Name: co_practitioner_id_2

Column Type: varchar

Max Length: 15

The second co-practitioner ID.

Column Name: co_practitioner_name

Column Type: varchar

Max Length: 40

The name associated with co_practitioner_id.

Column Name: co_practitioner_name_2

Column Type: varchar

Max Length: 40

The name associated with co_practitioner_id_2.

Column Name: co_sign_to_do_user

Column Type: varchar

Max Length: 50

'User To Send Co-Sign To Do Item To'

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 40

The name of the form that last updated the row.

Column Name: data_entry_time

Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: date_of_group_service
Column Type: date
The date of the group service.

Column Name: date_of_note
Column Type: date
The date of the note.

Column Name: date_of_service
Column Type: date
The date of the service.

Column Name: discipline_code
Column Type: varchar
Max Length: 40
'Discipline'

Column Name: discipline_value

Column Type: varchar

Max Length: 40

The description associated with discipline_code. See discipline_code for more information.

Column Name: draft_final_code

Column Type: varchar

Max Length: 5

'Draft/Final'

Column Name: draft_final_value

Column Type: varchar

Max Length: 40

The description associated with draft_final_code. See draft_final_code for more information.

Column Name: ebps_code

Column Type: varchar

Max Length: 255

'Evidence Based Practices'

Column Name: ebps_sh_val

Column Type: varchar

Max Length: 255

'The description associated with ebps_code. See ebps_code for more information.'

Column Name: ebps_value

Column Type: varchar

Max Length: 4096

'The description associated with ebps_code. See ebps_code for more information.'

Column Name: external_system_id

Column Type: varchar

Max Length: 255

'External System Identifier'

Column Name: has_nonmed_diag_flg_code

Column Type: varchar

Max Length: 50

The non-medical diagnosis flag.

Column Name: has_nonmed_diag_flg_value

Column Type: varchar

Max Length: 50

The description associated with has_nonmed_diag_flg_code. See has_nonmed_diag_flg_code for more information.

Column Name: jointodiagnosisobject1

Column Type: varchar

Max Length: 40

'Diagnosis 1'

Column Name: jointodiagnosisobject2
Column Type: varchar
Max Length: 40
'Diagnosis 2'

Column Name: jointodiagnosisobject3
Column Type: varchar
Max Length: 40
'Diagnosis 3'

Column Name: jointodiagnosisobject4
Column Type: varchar
Max Length: 40
'Diagnosis 4'

Column Name: location_code
Column Type: varchar
Max Length: 15
The location of the service.

Column Name: location_value
Column Type: varchar
Max Length: 40
The description associated with location_code. See location_code for more information.

Column Name: medical_diag1_DSM_value
Column Type: varchar
Max Length: 40
The description associated with medical_diag1_DSM_code. See medical_diag1_DSM_code for more information.

Column Name: medical_diag_1_icd10_code
Column Type: varchar
Max Length: 40
'Medical Diagnosis 1 ICD 10'

Column Name: medical_diag_1_icd10_value
Column Type: varchar
Max Length: 40
The description associated with medical_diag_1_icd10_code. See medical_diag_1_icd10_code for more information.

Column Name: medical_diag_1_icd9_code
Column Type: varchar
Max Length: 40
'Medical Diagnosis 1 ICD 9'

Column Name: medical_diag_1_icd9_value
Column Type: varchar
Max Length: 40

The description associated with medical_diag_1_icd9_code. See medical_diag_1_icd9_code for more information.

Column Name: medical_diag_1_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_imo_code. See medical_diag_1_imo_code for more information.

Column Name: medical_diag2_DSM_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag2_DSM_code. See medical_diag2_DSM_code for more information.

Column Name: medical_diag_2_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 10'

Column Name: medical_diag_2_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd10_code. See medical_diag_2_icd10_code for more information.

Column Name: medical_diag_2_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 9'

Column Name: medical_diag_2_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd9_code. See medical_diag_2_icd9_code for more information.

Column Name: medical_diag_2_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_imo_code. See medical_diag_2_imo_code for more information.

Column Name: medical_diag_3_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 3 ICD 10'

Column Name: medical_diag_3_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_icd10_code. See medical_diag_3_icd10_code for more information.

Column Name: medical_diag_3_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 3 ICD 9'

Column Name: medical_diag_3_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_icd9_code. See medical_diag_3_icd9_code for more information.

Column Name: medical_diag_3_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_imo_code. See medical_diag_3_imo_code for more information.

Column Name: medical_diag_4_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 10'

Column Name: medical_diag_4_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd10_code. See medical_diag_4_icd10_code for more information.

Column Name: medical_diag_4_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 9'

Column Name: medical_diag_4_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd9_code. See medical_diag_4_icd9_code for more information.

Column Name: medical_diag_4_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_imo_code. See medical_diag_4_imo_code for more information.

Column Name: medical_diagnosis_1_code

Column Type: varchar
Max Length: 40
'Medical Diagnosis 1'

Column Name: medical_diagnosis_1_value
Column Type: varchar
Max Length: 32700
The description associated with medical_diagnosis_1_code. See medical_diagnosis_1_code for more information.

Column Name: medical_diagnosis_2_code
Column Type: varchar
Max Length: 40
'Medical Diagnosis 2'

Column Name: medical_diagnosis_2_value
Column Type: varchar
Max Length: 32700
The description associated with medical_diagnosis_2_code. See medical_diagnosis_2_code for more information.

Column Name: medical_diagnosis_3_code
Column Type: varchar
Max Length: 50
'Medical Diagnosis 3'

Column Name: medical_diagnosis_3_value
Column Type: varchar
Max Length: 32700
The description associated with medical_diagnosis_3_code. See medical_diagnosis_3_code for more information.

Column Name: medical_diagnosis_4_code
Column Type: varchar
Max Length: 50
'Medical Diagnosis 4'

Column Name: medical_diagnosis_4_value
Column Type: varchar
Max Length: 32700
The description associated with medical_diagnosis_4_code. See medical_diagnosis_4_code for more information.

Column Name: notes_entry_index_nu
Column Type: varchar
Max Length: 50
The notes entry index.

Column Name: number_clients_in_group
Column Type: integer

'Number Of Clients In Group'

Column Name: orig_note_uniq_id_num

Column Type: varchar

Max Length: 20

'Original Note Unique ID Number'

Column Name: practitioner_id

Column Type: varchar

Max Length: 15

The practitioner associated with the note.

Column Name: practitioner_name

Column Type: varchar

Max Length: 40

The name associated with practitioner_id.

Column Name: psycho_add_on_duration

Column Type: integer

The psychotherapy add-on duration.

Column Name: reason_for_visit_code

Column Type: varchar

Max Length: 50

'Reason for Visit'

Column Name: reason_for_visit_value

Column Type: varchar

Max Length: 250

The description associated with reason_for_visit_code. See reason_for_visit_code for more information.

Column Name: recommended_decision

Column Type: varchar

Max Length: 32700

'Recommended Decision'

Column Name: select_tp_version_code

Column Type: varchar

Max Length: 5

'Select T.P. Version'

Column Name: select_tp_version_value

Column Type: varchar

Max Length: 40

The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: service_charge_code

Column Type: varchar

Max Length: 40

The service charge code.

Column Name: service_duration
Column Type: varchar
Max Length: 5
The duration of the service.

Column Name: service_end_time
Column Type: varchar
Max Length: 10
The end time of the service.

Column Name: service_program_code
Column Type: varchar
Max Length: 15
The program of the service.

Column Name: service_start_time
Column Type: varchar
Max Length: 10
The start time of the service.

Column Name: session_start_end_times
Column Type: varchar
Max Length: 32766
'Start/End Time(s)'

Column Name: ss_note_20_char_text_1
Column Type: varchar
Max Length: 20
'SS Note 20 Character 1'

Column Name: ss_note_20_char_text_10
Column Type: varchar
Max Length: 20
'SS Note 20 Character 10'

Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 4'

Column Name: ss_note_dsm_diag_4_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_4_code. See ss_note_dsm_diag_4_code for more information.

Column Name: ss_note_dsm_diag_5_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 5'

Column Name: ss_note_dsm_diag_5_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_5_code. See ss_note_dsm_diag_5_code for more information.

Column Name: ss_note_dsm_diag_6_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 6'

Column Name: ss_note_dsm_diag_6_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_6_code. See ss_note_dsm_diag_6_code for more information.

Column Name: ss_note_dsm_diag_7_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 7'

Column Name: ss_note_dsm_diag_7_value
Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_7_code. See ss_note_dsm_diag_7_code for more information.

Column Name: ss_note_dsm_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 8'

Column Name: ss_note_dsm_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_8_code. See ss_note_dsm_diag_8_code for more information.

Column Name: ss_note_dsm_diag_9_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 9'

Column Name: ss_note_dsm_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_9_code. See ss_note_dsm_diag_9_code for more information.

Column Name: ss_note_icd9_diag_10_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 10'

Column Name: ss_note_icd9_diag_10_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_10_code. See ss_note_icd9_diag_10_code for more information.

Column Name: ss_note_icd9_diag_1_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 1'

Column Name: ss_note_icd9_diag_1_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_1_code. See ss_note_icd9_diag_1_code for more information.

Column Name: ss_note_icd9_diag_2_code

Column Type: varchar

Max Length: 20
'SS Note ICD-9 Code 2'

Column Name: ss_note_icd9_diag_2_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_2_code. See ss_note_icd9_diag_2_code for more information.

Column Name: ss_note_icd9_diag_3_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 3'

Column Name: ss_note_icd9_diag_3_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_3_code. See ss_note_icd9_diag_3_code for more information.

Column Name: ss_note_icd9_diag_4_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 4'

Column Name: ss_note_icd9_diag_4_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_4_code. See ss_note_icd9_diag_4_code for more information.

Column Name: ss_note_icd9_diag_5_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 5'

Column Name: ss_note_icd9_diag_5_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_icd9_diag_5_code. See ss_note_icd9_diag_5_code for more information.

Column Name: ss_note_icd9_diag_6_code
Column Type: varchar
Max Length: 20
'SS Note ICD-9 Code 6'

Column Name: ss_note_icd9_diag_6_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_icd9_diag_6_code`. See `ss_note_icd9_diag_6_code` for more information.

Column Name: `ss_note_icd9_diag_7_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 7'

Column Name: `ss_note_icd9_diag_7_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_7_code`. See `ss_note_icd9_diag_7_code` for more information.

Column Name: `ss_note_icd9_diag_8_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 8'

Column Name: `ss_note_icd9_diag_8_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_8_code`. See `ss_note_icd9_diag_8_code` for more information.

Column Name: `ss_note_icd9_diag_9_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 9'

Column Name: `ss_note_icd9_diag_9_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_9_code`. See `ss_note_icd9_diag_9_code` for more information.

Column Name: `ss_note_multi_dict_10_code`

Column Type: `varchar`

Max Length: 20

'SS Note Multi Response Dictionary 10'

Column Name: `ss_note_multi_dict_10_value`

Column Type: `varchar`

Max Length: 32700

The description associated with `ss_note_multi_dict_10_code`. See `ss_note_multi_dict_10_code` for more information.

Column Name: `ss_note_multi_dict_1_code`

Column Type: `varchar`

Max Length: 20

'SS Note Multi Response Dictionary 1'

Column Name: ss_note_multi_dict_1_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_1_code. See ss_note_multi_dict_1_code for more information.

Column Name: ss_note_multi_dict_2_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 2'

Column Name: ss_note_multi_dict_2_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_2_code. See ss_note_multi_dict_2_code for more information.

Column Name: ss_note_multi_dict_3_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 3'

Column Name: ss_note_multi_dict_3_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_3_code. See ss_note_multi_dict_3_code for more information.

Column Name: ss_note_multi_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 4'

Column Name: ss_note_multi_dict_4_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_4_code. See ss_note_multi_dict_4_code for more information.

Column Name: ss_note_multi_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 5'

Column Name: ss_note_multi_dict_5_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_5_code. See ss_note_multi_dict_5_code for more information.

Column Name: ss_note_multi_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 6'

Column Name: ss_note_multi_dict_6_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_6_code. See ss_note_multi_dict_6_code for more information.

Column Name: ss_note_multi_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 7'

Column Name: ss_note_multi_dict_7_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_7_code. See ss_note_multi_dict_7_code for more information.

Column Name: ss_note_multi_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 8'

Column Name: ss_note_multi_dict_8_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_8_code. See ss_note_multi_dict_8_code for more information.

Column Name: ss_note_multi_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 9'

Column Name: ss_note_multi_dict_9_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_9_code. See ss_note_multi_dict_9_code for more information.

Column Name: ss_note_scroll_text_1

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 1'

Column Name: ss_note_scroll_text_10

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 10'

Column Name: ss_note_scroll_text_2

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 2'

Column Name: ss_note_scroll_text_3

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 3'

Column Name: ss_note_scroll_text_4

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 4'

Column Name: ss_note_scroll_text_5

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 5'

Column Name: ss_note_scroll_text_6

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 6'

Column Name: ss_note_scroll_text_7

Column Type: varchar

'SS Note Scrolling Text 7'

Column Name: ss_note_scroll_text_8

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 8'

Column Name: ss_note_scroll_text_9

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Text 9'

Column Name: ss_note_sing_dict_10_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 10'

Column Name: ss_note_sing_dict_10_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_10_code. See ss_note_sing_dict_10_code for more information.

Column Name: ss_note_sing_dict_1_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 1'

Column Name: ss_note_sing_dict_1_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_1_code. See ss_note_sing_dict_1_code for more information.

Column Name: ss_note_sing_dict_2_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 2'

Column Name: ss_note_sing_dict_2_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_2_code. See ss_note_sing_dict_2_code for more information.

Column Name: ss_note_sing_dict_3_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 3'

Column Name: ss_note_sing_dict_3_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_3_code. See ss_note_sing_dict_3_code for more information.

Column Name: ss_note_sing_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 4'

Column Name: ss_note_sing_dict_4_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_4_code. See ss_note_sing_dict_4_code for more information.

Column Name: ss_note_sing_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 5'

Column Name: ss_note_sing_dict_5_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_5_code. See ss_note_sing_dict_5_code for more information.

Column Name: ss_note_sing_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 6'

Column Name: ss_note_sing_dict_6_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_6_code. See ss_note_sing_dict_6_code for more information.

Column Name: ss_note_sing_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 7'

Column Name: ss_note_sing_dict_7_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_7_code. See ss_note_sing_dict_7_code for more information.

Column Name: ss_note_sing_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 8'

Column Name: ss_note_sing_dict_8_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_8_code. See ss_note_sing_dict_8_code for more information.

Column Name: ss_note_sing_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 9'

Column Name: ss_note_sing_dict_9_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_9_code. See ss_note_sing_dict_9_code for more information.

Column Name: ss_note_staff_1

Column Type: varchar

Max Length: 20

'SS Note Staff Member 1'

Column Name: ss_note_staff_10

Column Type: varchar

Max Length: 20

'SS Note Staff Member 10'

Column Name: ss_note_staff_2

Column Type: varchar

Max Length: 20

'SS Note Staff Member 2'

Column Name: ss_note_staff_3

Column Type: varchar

Max Length: 20

'SS Note Staff Member 3'

Column Name: ss_note_staff_4

Column Type: varchar

Max Length: 20

'SS Note Staff Member 4'

Column Name: ss_note_staff_5

Column Type: varchar

Max Length: 20

'SS Note Staff Member 5'

Column Name: ss_note_staff_6

Column Type: varchar

Max Length: 20

'SS Note Staff Member 6'

Column Name: ss_note_staff_7

Column Type: varchar

Max Length: 20

'SS Note Staff Member 7'

Column Name: ss_note_staff_8

Column Type: varchar

Max Length: 20
'SS Note Staff Member 8'

Column Name: ss_note_staff_9
Column Type: varchar
Max Length: 20
'SS Note Staff Member 9'

Column Name: ss_note_time_1
Column Type: varchar
Max Length: 10
'SS Note Time 1'

Column Name: ss_note_time_10
Column Type: varchar
Max Length: 10
'SS Note Time 10'

Column Name: ss_note_time_2
Column Type: varchar
Max Length: 10
'SS Note Time 2'

Column Name: ss_note_time_3
Column Type: varchar
Max Length: 10
'SS Note Time 3'

Column Name: ss_note_time_4
Column Type: varchar
Max Length: 10
'SS Note Time 4'

Column Name: ss_note_time_5
Column Type: varchar
Max Length: 10
'SS Note Time 5'

Column Name: ss_note_time_6
Column Type: varchar
Max Length: 10
'SS Note Time 6'

Column Name: ss_note_time_7
Column Type: varchar
Max Length: 10
'SS Note Time 7'

Column Name: ss_note_time_8
Column Type: varchar

Max Length: 10
'SS Note Time 8'

Column Name: ss_note_time_9
Column Type: varchar
Max Length: 10
'SS Note Time 9'

Column Name: transition_of_care_code
Column Type: varchar
Max Length: 1
'Is This A Transition Of Care?'

Column Name: transition_of_care_value
Column Type: varchar
Max Length: 80
'The description associated with transition_of_care_code. See transition_of_care_code for more information.'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes_supp

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50

The unique ID associated with the note.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: PREFILEID

Column Type: varchar

Max Length: 50

The unique ID associated with the prefiller.

Column Name: confidential_note

Column Type: varchar

Max Length: 50

Whether the note is confidential.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the row.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 50

The user name that last updated the row.

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 255

The name of the form that last updated the row.

Column Name: data_entry_time

Column Type: varchar

Max Length: 50

The time the row was last updated.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 50
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: notes_field
Column Type: varchar
Max Length: 32766
The contents of the notes field.

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 50
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_11
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 11'

Column Name: ss_note_20_char_text_12
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 12'

Column Name: ss_note_20_char_text_13
Column Type: varchar

Max Length: 20
'SS Note 20 Character Text 13'

Column Name: ss_note_20_char_text_14
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 14'

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 14'

Column Name: ss_note_multi_dict_14_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_14_code. See ss_note_multi_dict_14_code for more information.

Column Name: ss_note_multi_dict_15_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 15'

Column Name: ss_note_multi_dict_15_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_15_code. See ss_note_multi_dict_15_code for more information.

Column Name: ss_note_multi_dict_16_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 16'

Column Name: ss_note_multi_dict_16_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_16_code. See ss_note_multi_dict_16_code for more information.

Column Name: ss_note_multi_dict_17_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 17'

Column Name: ss_note_multi_dict_17_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_17_code. See ss_note_multi_dict_17_code for more information.

Column Name: ss_note_multi_dict_18_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 18'

Column Name: ss_note_multi_dict_18_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_18_code. See ss_note_multi_dict_18_code for more information.

Column Name: ss_note_multi_dict_19_code
Column Type: varchar
Max Length: 20

'SS Note Copy Multiple Response Dictionary 19'

Column Name: ss_note_multi_dict_19_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_19_code. See ss_note_multi_dict_19_code for more information.

Column Name: ss_note_multi_dict_20_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 20'

Column Name: ss_note_multi_dict_20_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_20_code. See ss_note_multi_dict_20_code for more information.

Column Name: ss_note_multi_dict_21_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 21'

Column Name: ss_note_multi_dict_21_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_21_code. See ss_note_multi_dict_21_code for more information.

Column Name: ss_note_multi_dict_22_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 22'

Column Name: ss_note_multi_dict_22_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_22_code. See ss_note_multi_dict_22_code for more information.

Column Name: ss_note_multi_dict_23_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 23'

Column Name: ss_note_multi_dict_23_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_23_code. See ss_note_multi_dict_23_code for more information.

Column Name: ss_note_multi_dict_24_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 24'

Column Name: ss_note_multi_dict_24_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_24_code. See ss_note_multi_dict_24_code for more information.

Column Name: ss_note_multi_dict_25_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 25'

Column Name: ss_note_multi_dict_25_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_25_code. See ss_note_multi_dict_25_code for more information.

Column Name: ss_note_multi_dict_26_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 26'

Column Name: ss_note_multi_dict_26_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_26_code. See ss_note_multi_dict_26_code for more information.

Column Name: ss_note_multi_dict_27_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 27'

Column Name: ss_note_multi_dict_27_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_27_code. See ss_note_multi_dict_27_code for more information.

Column Name: ss_note_multi_dict_28_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 28'

Column Name: ss_note_multi_dict_28_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_28_code. See ss_note_multi_dict_28_code for more information.

Column Name: ss_note_multi_dict_29_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 29'

Column Name: ss_note_multi_dict_29_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_29_code. See ss_note_multi_dict_29_code for more information.

Column Name: ss_note_multi_dict_30_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 30'

Column Name: ss_note_multi_dict_30_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_30_code. See ss_note_multi_dict_30_code for more information.

Column Name: ss_note_scroll_text_11

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Free Text 11'

Column Name: ss_note_scroll_text_12

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Free Text 12'

Column Name: ss_note_scroll_text_13

Column Type: varchar

Max Length: 32700

'SS Note Scrolling Free Text 13'

'SS Note Scrolling Free Text 29'

Column Name: ss_note_scroll_text_30
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 30'

Column Name: ss_note_sing_dict_11_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 11'

Column Name: ss_note_sing_dict_11_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_single_dict_11_code. See ss_note_single_dict_11_code for more information.

Column Name: ss_note_sing_dict_12_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 12'

Column Name: ss_note_sing_dict_12_value
Column Type: varchar
Max Length: 50

The description associated with ss_note_single_dict_12_code. See ss_note_single_dict_12_code for more information.

Column Name: ss_note_sing_dict_13_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 13'

Column Name: ss_note_sing_dict_13_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_13_code. See ss_note_single_dict_13_code for more information.

Column Name: ss_note_sing_dict_14_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 14'

Column Name: ss_note_sing_dict_14_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_14_code. See ss_note_single_dict_14_code for more information.

Column Name: ss_note_sing_dict_15_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 15'

Column Name: ss_note_sing_dict_15_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_15_code. See ss_note_single_dict_15_code for more information.

Column Name: ss_note_sing_dict_16_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 16'

Column Name: ss_note_sing_dict_16_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_16_code. See ss_note_single_dict_16_code for more information.

Column Name: ss_note_sing_dict_17_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 17'

Column Name: ss_note_sing_dict_17_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_17_code. See ss_note_single_dict_17_code for more information.

Column Name: ss_note_sing_dict_18_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 18'

Column Name: ss_note_sing_dict_18_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_18_code. See ss_note_single_dict_18_code for more information.

Column Name: ss_note_sing_dict_19_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 19'

Column Name: ss_note_sing_dict_19_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_19_code. See ss_note_single_dict_19_code for more information.

Column Name: ss_note_sing_dict_20_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 20'

Column Name: ss_note_sing_dict_20_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_20_code. See ss_note_single_dict_20_code for more information.

Column Name: ss_note_sing_dict_21_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 21'

Column Name: ss_note_sing_dict_21_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_21_code. See ss_note_single_dict_21_code for more information.

Column Name: ss_note_sing_dict_22_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 22'

Column Name: ss_note_sing_dict_22_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_22_code. See ss_note_single_dict_22_code for more information.

Column Name: ss_note_sing_dict_23_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 23'

Column Name: ss_note_sing_dict_23_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_23_code. See ss_note_single_dict_23_code for more information.

Column Name: ss_note_sing_dict_24_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 24'

Column Name: ss_note_sing_dict_24_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_24_code. See ss_note_single_dict_24_code for more information.

Column Name: ss_note_sing_dict_25_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 25'

Column Name: ss_note_sing_dict_25_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_25_code. See ss_note_single_dict_25_code for more information.

Column Name: ss_note_sing_dict_26_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 26'

Column Name: ss_note_sing_dict_26_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_26_code. See ss_note_single_dict_26_code for more information.

Column Name: ss_note_sing_dict_27_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 27'

Column Name: ss_note_sing_dict_27_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_27_code. See ss_note_single_dict_27_code for more information.

Column Name: ss_note_sing_dict_28_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 28'

Column Name: ss_note_sing_dict_28_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_28_code. See ss_note_single_dict_28_code for more information.

Column Name: ss_note_sing_dict_29_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 29'

Column Name: ss_note_sing_dict_29_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_29_code. See ss_note_single_dict_29_code for more information.

Column Name: ss_note_sing_dict_30_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 30'

Column Name: ss_note_sing_dict_30_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_30_code. See ss_note_single_dict_30_code for more information.

Column Name: ss_note_time_11
Column Type: varchar
Max Length: 50
'SS Note Time 11'

Column Name: ss_note_time_12
Column Type: varchar
Max Length: 50
'SS Note Time 12'

Column Name: ss_note_time_13
Column Type: varchar
Max Length: 50
'SS Note Time 13'

Column Name: ss_note_time_14
Column Type: varchar
Max Length: 50
'SS Note Time 14'

Column Name: ss_note_time_15
Column Type: varchar
Max Length: 50
'SS Note Time 15'

Column Name: ss_note_time_16
Column Type: varchar
Max Length: 50
'SS Note Time 16'

Column Name: ss_note_time_17
Column Type: varchar
Max Length: 50
'SS Note Time 17'

Column Name: ss_note_time_18
Column Type: varchar
Max Length: 50
'SS Note Time 18'

Column Name: ss_note_time_19
Column Type: varchar
Max Length: 50
'SS Note Time 19'

Column Name: ss_note_time_20
Column Type: varchar

Max Length: 50
'SS Note Time 20'

Column Name: ss_note_time_21
Column Type: varchar
Max Length: 50
'SS Note Time 21'

Column Name: ss_note_time_22
Column Type: varchar
Max Length: 50
'SS Note Time 22'

Column Name: ss_note_time_23
Column Type: varchar
Max Length: 50
'SS Note Time 23'

Column Name: ss_note_time_24
Column Type: varchar
Max Length: 50
'SS Note Time 24'

Column Name: ss_note_time_25
Column Type: varchar
Max Length: 50
'SS Note Time 25'

Column Name: ss_note_time_26
Column Type: varchar
Max Length: 50
'SS Note Time 26'

Column Name: ss_note_time_27
Column Type: varchar
Max Length: 50
'SS Note Time 27'

Column Name: ss_note_time_28
Column Type: varchar
Max Length: 50
'SS Note Time 28'

Column Name: ss_note_time_29
Column Type: varchar
Max Length: 50
'SS Note Time 29'

Column Name: ss_note_time_30
Column Type: varchar

Max Length: 50
'SS Note Time 30'

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes_supp_1

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp1 table.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: NOT_uniqueid

Column Type: varchar

Max Length: 50

'Progress Notes Pointer'

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: PREFILEID

Column Type: varchar

Max Length: 50

The unique ID associated with the prefiller.

Column Name: confidential_note

Column Type: varchar

Max Length: 50

'Confidential Notes'

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 50
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar

Max Length: 40

The user name who last updated the row.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: notes_field

Column Type: varchar

Max Length: 32766

'Notes Field'

Column Name: option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 50

The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_31

Column Type: varchar

Max Length: 20

'SS Note 20 Character 31'

Column Name: ss_note_20_char_text_32

Column Type: varchar

Max Length: 20

'SS Note 20 Character 32'

Column Name: ss_note_20_char_text_33

Column Type: varchar

Max Length: 20

'SS Note 20 Character 33'

Column Name: ss_note_20_char_text_34

Column Type: varchar

Max Length: 20

'SS Note 20 Character 34'

Column Name: ss_note_20_char_text_35

Column Type: varchar

Max Length: 20

'SS Note 20 Character 35'

Column Name: ss_note_20_char_text_36

Column Type: varchar

Max Length: 20

'SS Note 20 Character 36'

Column Name: ss_note_20_char_text_37

Column Type: varchar

Max Length: 20

'SS Note 20 Character 37'

Column Name: ss_note_20_char_text_38

Column Type: varchar

Max Length: 20

'SS Note 20 Character 38'

Column Name: ss_note_20_char_text_39

Column Type: varchar

Max Length: 20

'SS Note 20 Character 39'

Column Name: ss_note_20_char_text_40

Column Type: varchar

Max Length: 20

'SS Note 20 Character 40'

Column Name: ss_note_20_char_text_41

Column Type: varchar

Max Length: 20

'SS Note 20 Character 41'

Column Name: ss_note_20_char_text_42

Column Type: varchar

Max Length: 20

'SS Note 20 Character 42'

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_45_code. See ss_note_multi_dict_45_code for more information.

Column Name: ss_note_multi_dict_46_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 46'

Column Name: ss_note_multi_dict_46_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_46_code. See ss_note_multi_dict_46_code for more information.

Column Name: ss_note_multi_dict_47_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 47'

Column Name: ss_note_multi_dict_47_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_47_code. See ss_note_multi_dict_47_code for more information.

Column Name: ss_note_multi_dict_48_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 48'

Column Name: ss_note_multi_dict_48_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_48_code. See ss_note_multi_dict_48_code for more information.

Column Name: ss_note_multi_dict_49_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 49'

Column Name: ss_note_multi_dict_49_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_49_code. See ss_note_multi_dict_49_code for more information.

Column Name: ss_note_multi_dict_50_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 50'

Column Name: ss_note_multi_dict_50_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_50_code. See ss_note_multi_dict_50_code for more information.

Column Name: ss_note_scroll_text_31

Column Type: varchar

Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 50'

Column Name: ss_note_sing_dict_31_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 31'

Column Name: ss_note_sing_dict_31_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_31_code. See ss_note_sing_dict_31_code for more information.

Column Name: ss_note_sing_dict_32_code
Column Type: varchar
Max Length: 20

'SS Note Single Response Dictionary 32'

Column Name: ss_note_sing_dict_32_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_32_code. See ss_note_sing_dict_32_code for more information.

Column Name: ss_note_sing_dict_33_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 33'

Column Name: ss_note_sing_dict_33_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_33_code. See ss_note_sing_dict_33_code for more information.

Column Name: ss_note_sing_dict_34_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 34'

Column Name: ss_note_sing_dict_34_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_34_code. See ss_note_sing_dict_34_code for more information.

Column Name: ss_note_sing_dict_35_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 35'

Column Name: ss_note_sing_dict_35_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_35_code. See ss_note_sing_dict_35_code for more information.

Column Name: ss_note_sing_dict_36_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 36'

Column Name: ss_note_sing_dict_36_value

Column Type: varchar

Max Length: 80

The description associated with `ss_note_sing_dict_36_code`. See `ss_note_sing_dict_36_code` for more information.

Column Name: `ss_note_sing_dict_37_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 37'

Column Name: `ss_note_sing_dict_37_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_37_code`. See `ss_note_sing_dict_37_code` for more information.

Column Name: `ss_note_sing_dict_38_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 38'

Column Name: `ss_note_sing_dict_38_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_38_code`. See `ss_note_sing_dict_38_code` for more information.

Column Name: `ss_note_sing_dict_39_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 39'

Column Name: `ss_note_sing_dict_39_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_39_code`. See `ss_note_sing_dict_39_code` for more information.

Column Name: `ss_note_sing_dict_40_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 40'

Column Name: `ss_note_sing_dict_40_value`

Column Type: `varchar`

Max Length: 80

The description associated with `ss_note_sing_dict_40_code`. See `ss_note_sing_dict_40_code` for more information.

Column Name: `ss_note_sing_dict_41_code`

Column Type: `varchar`

Max Length: 20

'SS Note Single Response Dictionary 41'

Column Name: ss_note_sing_dict_41_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_41_code. See ss_note_sing_dict_41_code for more information.

Column Name: ss_note_sing_dict_42_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 42'

Column Name: ss_note_sing_dict_42_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_42_code. See ss_note_sing_dict_42_code for more information.

Column Name: ss_note_sing_dict_43_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 43'

Column Name: ss_note_sing_dict_43_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_43_code. See ss_note_sing_dict_43_code for more information.

Column Name: ss_note_sing_dict_44_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 44'

Column Name: ss_note_sing_dict_44_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_44_code. See ss_note_sing_dict_44_code for more information.

Column Name: ss_note_sing_dict_45_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 45'

Column Name: ss_note_sing_dict_45_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_45_code. See ss_note_sing_dict_45_code for more information.

Column Name: ss_note_sing_dict_46_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 46'

Column Name: ss_note_sing_dict_46_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_46_code. See ss_note_sing_dict_46_code for more information.

Column Name: ss_note_sing_dict_47_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 47'

Column Name: ss_note_sing_dict_47_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_47_code. See ss_note_sing_dict_47_code for more information.

Column Name: ss_note_sing_dict_48_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 48'

Column Name: ss_note_sing_dict_48_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_48_code. See ss_note_sing_dict_48_code for more information.

Column Name: ss_note_sing_dict_49_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 49'

Column Name: ss_note_sing_dict_49_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_49_code. See ss_note_sing_dict_49_code for more information.

Column Name: ss_note_sing_dict_50_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 50'

Column Name: ss_note_sing_dict_50_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_50_code. See ss_note_sing_dict_50_code for more information.

Column Name: ss_note_time_31

Column Type: varchar

Max Length: 50

'SS Note Time 31'

Column Name: ss_note_time_32

Column Type: varchar

Max Length: 50

'SS Note Time 32'

Column Name: ss_note_time_33

Column Type: varchar

Max Length: 50

'SS Note Time 33'

Column Name: ss_note_time_34

Column Type: varchar

Max Length: 50

'SS Note Time 34'

Column Type: varchar

Max Length: 50

'SS Note Time 37'

Column Name: ss_note_time_38

Column Type: varchar

Max Length: 50

'SS Note Time 38'

Column Name: ss_note_time_39

Column Type: varchar

Max Length: 50
'SS Note Time 39'

Column Name: ss_note_time_40
Column Type: varchar
Max Length: 50
'SS Note Time 40'

Column Name: ss_note_time_41
Column Type: varchar
Max Length: 50
'SS Note Time 41'

Column Name: ss_note_time_42
Column Type: varchar
Max Length: 50
'SS Note Time 42'

Column Name: ss_note_time_43
Column Type: varchar
Max Length: 50
'SS Note Time 43'

Column Name: ss_note_time_44
Column Type: varchar
Max Length: 50
'SS Note Time 44'

Column Name: ss_note_time_45
Column Type: varchar
Max Length: 50
'SS Note Time 45'

Column Name: ss_note_time_46
Column Type: varchar
Max Length: 50
'SS Note Time 46'

Column Name: ss_note_time_47
Column Type: varchar
Max Length: 50
'SS Note Time 47'

Column Name: ss_note_time_48
Column Type: varchar
Max Length: 50
'SS Note Time 48'

Column Name: ss_note_time_49
Column Type: varchar

Max Length: 50
'SS Note Time 49'

Column Name: ss_note_time_50
Column Type: varchar
Max Length: 50
'SS Note Time 50'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes_supp_2

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp2 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar

Max Length: 40

The user name who last updated the row.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: ss_note_integer_10

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes_supp_3

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp3 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID

Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar
Max Length: 50
The form number of the form that last updated the row.

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notec_multi_dict_10_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 10'

Column Name: ss_notec_multi_dict_10_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_10_code. See ss_notec_multi_dict_10_code for more information.

Column Name: ss_notec_multi_dict_11_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 11'

Column Name: ss_notec_multi_dict_11_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_11_code. See ss_notec_multi_dict_11_code for more information.

Column Name: ss_notec_multi_dict_12_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 12'

Column Name: ss_notec_multi_dict_12_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_12_code. See ss_notec_multi_dict_12_code for more information.

Column Name: ss_notec_multi_dict_13_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 13'

Column Name: ss_notec_multi_dict_13_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_13_code. See ss_notec_multi_dict_13_code for more information.

Column Name: ss_notec_multi_dict_14_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 14'

Column Name: ss_notec_multi_dict_14_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_14_code. See ss_notec_multi_dict_14_code for more information.

Column Name: ss_notec_multi_dict_15_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 15'

Column Name: ss_notec_multi_dict_15_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_15_code. See ss_notec_multi_dict_15_code for more information.

Column Name: ss_notec_multi_dict_16_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 16'

Column Name: ss_notec_multi_dict_16_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_16_code. See ss_notec_multi_dict_16_code for more information.

Column Name: ss_notec_multi_dict_17_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 17'

Column Name: ss_notec_multi_dict_17_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_17_code. See ss_notec_multi_dict_17_code for more information.

Column Name: ss_notec_multi_dict_18_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 18'

Column Name: ss_notec_multi_dict_18_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_18_code. See ss_notec_multi_dict_18_code for more information.

Column Name: ss_notec_multi_dict_19_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 19'

Column Name: ss_notec_multi_dict_19_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_19_code. See ss_notec_multi_dict_19_code for more information.

Column Name: ss_notec_multi_dict_1_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 1'

Column Name: ss_notec_multi_dict_1_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_1_code. See ss_notec_multi_dict_1_code for more information.

Column Name: ss_notec_multi_dict_20_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 20'

Column Name: ss_notec_multi_dict_20_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_20_code. See ss_notec_multi_dict_20_code for more information.

Column Name: ss_notec_multi_dict_21_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 21'

Column Name: ss_notec_multi_dict_21_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_21_code. See ss_notec_multi_dict_21_code for more information.

Column Name: ss_notec_multi_dict_22_code

Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 22'

Column Name: ss_notec_multi_dict_22_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_22_code. See ss_notec_multi_dict_22_code for more information.

Column Name: ss_notec_multi_dict_23_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 23'

Column Name: ss_notec_multi_dict_23_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_23_code. See ss_notec_multi_dict_23_code for more information.

Column Name: ss_notec_multi_dict_24_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 24'

Column Name: ss_notec_multi_dict_24_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_24_code. See ss_notec_multi_dict_24_code for more information.

Column Name: ss_notec_multi_dict_25_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 25'

Column Name: ss_notec_multi_dict_25_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_25_code. See ss_notec_multi_dict_25_code for more information.

Column Name: ss_notec_multi_dict_26_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 26'

Column Name: ss_notec_multi_dict_26_value
Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_26_code. See ss_notec_multi_dict_26_code for more information.

Column Name: ss_notec_multi_dict_27_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 27'

Column Name: ss_notec_multi_dict_27_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_27_code. See ss_notec_multi_dict_27_code for more information.

Column Name: ss_notec_multi_dict_28_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 28'

Column Name: ss_notec_multi_dict_28_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_28_code. See ss_notec_multi_dict_28_code for more information.

Column Name: ss_notec_multi_dict_29_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 29'

Column Name: ss_notec_multi_dict_29_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_29_code. See ss_notec_multi_dict_29_code for more information.

Column Name: ss_notec_multi_dict_2_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 2'

Column Name: ss_notec_multi_dict_2_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_2_code. See ss_notec_multi_dict_2_code for more information.

Column Name: ss_notec_multi_dict_30_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 30'

Column Name: ss_notec_multi_dict_30_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_30_code. See ss_notec_multi_dict_30_code for more information.

Column Name: ss_notec_multi_dict_31_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 31'

Column Name: ss_notec_multi_dict_31_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_31_code. See ss_notec_multi_dict_31_code for more information.

Column Name: ss_notec_multi_dict_32_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 32'

Column Name: ss_notec_multi_dict_32_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_32_code. See ss_notec_multi_dict_32_code for more information.

Column Name: ss_notec_multi_dict_33_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 33'

Column Name: ss_notec_multi_dict_33_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_33_code. See ss_notec_multi_dict_33_code for more information.

Column Name: ss_notec_multi_dict_34_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 34'

Column Name: ss_notec_multi_dict_34_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_34_code. See ss_notec_multi_dict_34_code for more information.

Column Name: ss_notec_multi_dict_35_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 35'

Column Name: ss_notec_multi_dict_35_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_35_code. See ss_notec_multi_dict_35_code for more information.

Column Name: ss_notec_multi_dict_36_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 36'

Column Name: ss_notec_multi_dict_36_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_36_code. See ss_notec_multi_dict_36_code for more information.

Column Name: ss_notec_multi_dict_37_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 37'

Column Name: ss_notec_multi_dict_37_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_37_code. See ss_notec_multi_dict_37_code for more information.

Column Name: ss_notec_multi_dict_38_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 38'

Column Name: ss_notec_multi_dict_38_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_38_code. See ss_notec_multi_dict_38_code for more information.

Column Name: ss_notec_multi_dict_39_code
Column Type: varchar
Max Length: 255

'SS Note Copy Multiple Response Dictionary 39'

Column Name: ss_notec_multi_dict_39_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_39_code. See ss_notec_multi_dict_39_code for more information.

Column Name: ss_notec_multi_dict_3_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 3'

Column Name: ss_notec_multi_dict_3_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_3_code. See ss_notec_multi_dict_3_code for more information.

Column Name: ss_notec_multi_dict_40_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 40'

Column Name: ss_notec_multi_dict_40_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_40_code. See ss_notec_multi_dict_40_code for more information.

Column Name: ss_notec_multi_dict_41_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 41'

Column Name: ss_notec_multi_dict_41_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_41_code. See ss_notec_multi_dict_41_code for more information.

Column Name: ss_notec_multi_dict_42_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 42'

Column Name: ss_notec_multi_dict_42_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_42_code. See ss_notec_multi_dict_42_code for more information.

Column Name: ss_notec_multi_dict_43_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 43'

Column Name: ss_notec_multi_dict_43_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_43_code. See ss_notec_multi_dict_43_code for more information.

Column Name: ss_notec_multi_dict_44_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 44'

Column Name: ss_notec_multi_dict_44_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_44_code. See ss_notec_multi_dict_44_code for more information.

Column Name: ss_notec_multi_dict_45_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 45'

Column Name: ss_notec_multi_dict_45_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_45_code. See ss_notec_multi_dict_45_code for more information.

Column Name: ss_notec_multi_dict_46_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 46'

Column Name: ss_notec_multi_dict_46_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_46_code. See ss_notec_multi_dict_46_code for more information.

Column Name: ss_notec_multi_dict_47_code
Column Type: varchar
Max Length: 255

'SS Note Copy Multiple Response Dictionary 47'

Column Name: ss_notec_multi_dict_47_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_47_code. See ss_notec_multi_dict_47_code for more information.

Column Name: ss_notec_multi_dict_48_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 48'

Column Name: ss_notec_multi_dict_48_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_48_code. See ss_notec_multi_dict_48_code for more information.

Column Name: ss_notec_multi_dict_49_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 49'

Column Name: ss_notec_multi_dict_49_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_49_code. See ss_notec_multi_dict_49_code for more information.

Column Name: ss_notec_multi_dict_4_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 4'

Column Name: ss_notec_multi_dict_4_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_4_code. See ss_notec_multi_dict_4_code for more information.

Column Name: ss_notec_multi_dict_50_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 50'

Column Name: ss_notec_multi_dict_50_value

Column Type: varchar

Max Length: 32759

The description associated with `ss_notec_multi_dict_50_code`. See `ss_notec_multi_dict_50_code` for more information.

Column Name: `ss_notec_multi_dict_5_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 5'

Column Name: `ss_notec_multi_dict_5_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_5_code`. See `ss_notec_multi_dict_5_code` for more information.

Column Name: `ss_notec_multi_dict_6_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 6'

Column Name: `ss_notec_multi_dict_6_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_6_code`. See `ss_notec_multi_dict_6_code` for more information.

Column Name: `ss_notec_multi_dict_7_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 7'

Column Name: `ss_notec_multi_dict_7_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_7_code`. See `ss_notec_multi_dict_7_code` for more information.

Column Name: `ss_notec_multi_dict_8_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 8'

Column Name: `ss_notec_multi_dict_8_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_8_code`. See `ss_notec_multi_dict_8_code` for more information.

Column Name: `ss_notec_multi_dict_9_code`
Column Type: `varchar`
Max Length: 255

'SS Note Copy Multiple Response Dictionary 9'

Column Name: ss_notec_multi_dict_9_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_9_code. See ss_notec_multi_dict_9_code for more information.

Column Name: ss_notec_sing_dict_10_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 10'

Column Name: ss_notec_sing_dict_10_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_10_code. See ss_notec_sing_dict_10_code for more information.

Column Name: ss_notec_sing_dict_11_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 11'

Column Name: ss_notec_sing_dict_11_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_11_code. See ss_notec_sing_dict_11_code for more information.

Column Name: ss_notec_sing_dict_12_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 12'

Column Name: ss_notec_sing_dict_12_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_12_code. See ss_notec_sing_dict_12_code for more information.

Column Name: ss_notec_sing_dict_13_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 13'

Column Name: ss_notec_sing_dict_13_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_13_code. See ss_notec_sing_dict_13_code for more information.

Column Name: ss_notec_sing_dict_14_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 14'

Column Name: ss_notec_sing_dict_14_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_14_code. See ss_notec_sing_dict_14_code for more information.

Column Name: ss_notec_sing_dict_15_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 15'

Column Name: ss_notec_sing_dict_15_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_15_code. See ss_notec_sing_dict_15_code for more information.

Column Name: ss_notec_sing_dict_16_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 16'

Column Name: ss_notec_sing_dict_16_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_16_code. See ss_notec_sing_dict_16_code for more information.

Column Name: ss_notec_sing_dict_17_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 17'

Column Name: ss_notec_sing_dict_17_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_17_code. See ss_notec_sing_dict_17_code for more information.

Column Name: ss_notec_sing_dict_18_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 18'

Column Name: ss_notec_sing_dict_18_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_18_code. See ss_notec_sing_dict_18_code for more information.

Column Name: ss_notec_sing_dict_19_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 19'

Column Name: ss_notec_sing_dict_19_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_19_code. See ss_notec_sing_dict_19_code for more information.

Column Name: ss_notec_sing_dict_1_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 1'

Column Name: ss_notec_sing_dict_1_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_1_code. See ss_notec_sing_dict_1_code for more information.

Column Name: ss_notec_sing_dict_20_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 20'

Column Name: ss_notec_sing_dict_20_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_20_code. See ss_notec_sing_dict_20_code for more information.

Column Name: ss_notec_sing_dict_21_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 21'

Column Name: ss_notec_sing_dict_21_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_21_code. See ss_notec_sing_dict_21_code for more information.

Column Name: ss_notec_sing_dict_22_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 22'

Column Name: ss_notec_sing_dict_22_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_22_code. See ss_notec_sing_dict_22_code for more information.

Column Name: ss_notec_sing_dict_23_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 23'

Column Name: ss_notec_sing_dict_23_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_23_code. See ss_notec_sing_dict_23_code for more information.

Column Name: ss_notec_sing_dict_24_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 24'

Column Name: ss_notec_sing_dict_24_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_24_code. See ss_notec_sing_dict_24_code for more information.

Column Name: ss_notec_sing_dict_25_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 25'

Column Name: ss_notec_sing_dict_25_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_25_code. See ss_notec_sing_dict_25_code for more information.

Column Name: ss_notec_sing_dict_26_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 26'

Column Name: ss_notec_sing_dict_26_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_26_code. See ss_notec_sing_dict_26_code for more information.

Column Name: ss_notec_sing_dict_27_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 27'

Column Name: ss_notec_sing_dict_27_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_27_code. See ss_notec_sing_dict_27_code for more information.

Column Name: ss_notec_sing_dict_28_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 28'

Column Name: ss_notec_sing_dict_28_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_28_code. See ss_notec_sing_dict_28_code for more information.

Column Name: ss_notec_sing_dict_29_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 29'

Column Name: ss_notec_sing_dict_29_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_29_code. See ss_notec_sing_dict_29_code for more information.

Column Name: ss_notec_sing_dict_2_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 2'

Column Name: ss_notec_sing_dict_2_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_2_code. See ss_notec_sing_dict_2_code for more information.

Column Name: ss_notec_sing_dict_30_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 30'

Column Name: ss_notec_sing_dict_30_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_30_code. See ss_notec_sing_dict_30_code for more information.

Column Name: ss_notec_sing_dict_31_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 31'

Column Name: ss_notec_sing_dict_31_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_31_code. See ss_notec_sing_dict_31_code for more information.

Column Name: ss_notec_sing_dict_32_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 32'

Column Name: ss_notec_sing_dict_32_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_32_code. See ss_notec_sing_dict_32_code for more information.

Column Name: ss_notec_sing_dict_33_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 33'

Column Name: ss_notec_sing_dict_33_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_33_code. See ss_notec_sing_dict_33_code for more information.

Column Name: ss_notec_sing_dict_34_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 34'

Column Name: ss_notec_sing_dict_34_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_34_code. See ss_notec_sing_dict_34_code for more information.

Column Name: ss_notec_sing_dict_35_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 35'

Column Name: ss_notec_sing_dict_35_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_35_code. See ss_notec_sing_dict_35_code for more information.

Column Name: ss_notec_sing_dict_36_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 36'

Column Name: ss_notec_sing_dict_36_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_36_code. See ss_notec_sing_dict_36_code for more information.

Column Name: ss_notec_sing_dict_37_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 37'

Column Name: ss_notec_sing_dict_37_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_37_code. See ss_notec_sing_dict_37_code for more information.

Column Name: ss_notec_sing_dict_38_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 38'

Column Name: ss_notec_sing_dict_38_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_38_code. See ss_notec_sing_dict_38_code for more information.

Column Name: ss_notec_sing_dict_39_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 39'

Column Name: ss_notec_sing_dict_39_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_39_code. See ss_notec_sing_dict_39_code for more information.

Column Name: ss_notec_sing_dict_3_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 3'

Column Name: ss_notec_sing_dict_3_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_3_code. See ss_notec_sing_dict_3_code for more information.

Column Name: ss_notec_sing_dict_40_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 40'

Column Name: ss_notec_sing_dict_40_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_40_code. See ss_notec_sing_dict_40_code for more information.

Column Name: ss_notec_sing_dict_41_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 41'

Column Name: ss_notec_sing_dict_41_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_41_code. See ss_notec_sing_dict_41_code for more information.

Column Name: ss_notec_sing_dict_42_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 42'

Column Name: ss_notec_sing_dict_42_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_42_code. See ss_notec_sing_dict_42_code for more information.

Column Name: ss_notec_sing_dict_43_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 43'

Column Name: ss_notec_sing_dict_43_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_43_code. See ss_notec_sing_dict_43_code for more information.

Column Name: ss_notec_sing_dict_44_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 44'

Column Name: ss_notec_sing_dict_44_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_44_code. See ss_notec_sing_dict_44_code for more information.

Column Name: ss_notec_sing_dict_45_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 45'

Column Name: ss_notec_sing_dict_45_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_45_code. See ss_notec_sing_dict_45_code for more information.

Column Name: ss_notec_sing_dict_46_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 46'

Column Name: ss_notec_sing_dict_46_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_46_code. See ss_notec_sing_dict_46_code for more information.

Column Name: ss_notec_sing_dict_47_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 47'

Column Name: ss_notec_sing_dict_47_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_47_code. See ss_notec_sing_dict_47_code for more information.

Column Name: ss_notec_sing_dict_48_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 48'

Column Name: ss_notec_sing_dict_48_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_48_code. See ss_notec_sing_dict_48_code for more information.

Column Name: ss_notec_sing_dict_49_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 49'

Column Name: ss_notec_sing_dict_49_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_49_code. See ss_notec_sing_dict_49_code for more information.

Column Name: ss_notec_sing_dict_4_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 4'

Column Name: ss_notec_sing_dict_4_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_4_code. See ss_notec_sing_dict_4_code for more information.

Column Name: ss_notec_sing_dict_50_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 50'

Column Name: ss_notec_sing_dict_50_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_50_code. See ss_notec_sing_dict_50_code for more information.

Column Name: ss_notec_sing_dict_5_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 5'

Column Name: ss_notec_sing_dict_5_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_5_code. See ss_notec_sing_dict_5_code for more information.

Column Name: ss_notec_sing_dict_6_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 6'

Column Name: ss_notec_sing_dict_6_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_6_code. See ss_notec_sing_dict_6_code for more information.

Column Name: ss_notec_sing_dict_7_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 7'

Column Name: ss_notec_sing_dict_7_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_7_code. See ss_notec_sing_dict_7_code for more information.

Column Name: ss_notec_sing_dict_8_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 8'

Column Name: ss_notec_sing_dict_8_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_8_code. See ss_notec_sing_dict_8_code for more information.

Column Name: ss_notec_sing_dict_9_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 9'

Column Name: ss_notec_sing_dict_9_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_9_code. See ss_notec_sing_dict_9_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes_supp_4

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp4 table.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the service.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: NOT_uniqueid

Column Type: varchar

Max Length: 50

Unique ID for a progress note.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: PREFILEID

Column Type: varchar

Max Length: 50

The unique ID associated with the prefiller.

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 255

The name of the form that last updated the row.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notc_mult_dic_51_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 51'

Column Name: ss_notc_mult_dic_51_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_51_code. See ss_notc_mult_dic_51_code for more information.

Column Name: ss_notc_mult_dic_52_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 52'

Column Name: ss_notc_mult_dic_52_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_52_code. See ss_notc_mult_dic_52_code for more information.

Column Name: ss_notc_mult_dic_53_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 53'

Column Name: ss_notc_mult_dic_53_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_53_code. See ss_notc_mult_dic_53_code for more information.

Column Name: ss_notc_mult_dic_54_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 54'

Column Name: ss_notc_mult_dic_54_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_54_code. See ss_notc_mult_dic_54_code for more information.

Column Name: ss_notc_mult_dic_55_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 55'

Column Name: ss_notc_mult_dic_55_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_55_code. See ss_notc_mult_dic_55_code for more information.

Column Name: ss_notc_mult_dic_56_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 56'

Column Name: ss_notc_mult_dic_56_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_56_code. See ss_notc_mult_dic_56_code for more information.

Column Name: ss_notc_mult_dic_57_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 57'

Column Name: ss_notc_mult_dic_57_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_57_code. See ss_notc_mult_dic_57_code for more information.

Column Name: ss_notc_mult_dic_58_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 58'

Column Name: ss_notc_mult_dic_58_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_58_code. See ss_notc_mult_dic_58_code for more information.

Column Name: ss_notc_mult_dic_59_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 59'

Column Name: ss_notc_mult_dic_59_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_59_code. See ss_notc_mult_dic_59_code for more information.

Column Name: ss_notc_mult_dic_60_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 60'

Column Name: ss_notc_mult_dic_60_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_60_code. See ss_notc_mult_dic_60_code for more information.

Column Name: ss_notc_mult_dic_61_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 61'

Column Name: ss_notc_mult_dic_61_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_61_code. See ss_notc_mult_dic_61_code for more information.

Column Name: ss_notc_mult_dic_62_code

Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 62'

Column Name: ss_notc_mult_dic_62_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_62_code. See ss_notc_mult_dic_62_code for more information.

Column Name: ss_notc_mult_dic_63_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 63'

Column Name: ss_notc_mult_dic_63_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_63_code. See ss_notc_mult_dic_63_code for more information.

Column Name: ss_notc_mult_dic_64_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 64'

Column Name: ss_notc_mult_dic_64_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_64_code. See ss_notc_mult_dic_64_code for more information.

Column Name: ss_notc_mult_dic_65_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 65'

Column Name: ss_notc_mult_dic_65_value
Column Type: varchar
Max Length: 265
The description associated with ss_notc_mult_dic_65_code. See ss_notc_mult_dic_65_code for more information.

Column Name: ss_notc_mult_dic_66_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 66'

Column Name: ss_notc_mult_dic_66_value
Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_66_code. See ss_notc_mult_dic_66_code for more information.

Column Name: ss_notc_mult_dic_67_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 67'

Column Name: ss_notc_mult_dic_67_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_67_code. See ss_notc_mult_dic_67_code for more information.

Column Name: ss_notc_mult_dic_68_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 68'

Column Name: ss_notc_mult_dic_68_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_68_code. See ss_notc_mult_dic_68_code for more information.

Column Name: ss_notc_mult_dic_69_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 69'

Column Name: ss_notc_mult_dic_69_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_69_code. See ss_notc_mult_dic_69_code for more information.

Column Name: ss_notc_mult_dic_70_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 70'

Column Name: ss_notc_mult_dic_70_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_70_code. See ss_notc_mult_dic_70_code for more information.

Column Name: ss_notc_mult_dic_71_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 71'

Column Name: ss_notc_mult_dic_71_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_71_code. See ss_notc_mult_dic_71_code for more information.

Column Name: ss_notc_mult_dic_72_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 72'

Column Name: ss_notc_mult_dic_72_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_72_code. See ss_notc_mult_dic_72_code for more information.

Column Name: ss_notc_mult_dic_73_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 73'

Column Name: ss_notc_mult_dic_73_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_73_code. See ss_notc_mult_dic_73_code for more information.

Column Name: ss_notc_mult_dic_74_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 74'

Column Name: ss_notc_mult_dic_74_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_74_code. See ss_notc_mult_dic_74_code for more information.

Column Name: ss_notc_mult_dic_75_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 75'

Column Name: ss_notc_mult_dic_75_value

Column Type: varchar

Max Length: 275

The description associated with `ss_notc_mult_dic_75_code`. See `ss_notc_mult_dic_75_code` for more information.

Column Name: `ss_notc_mult_dic_76_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 76'

Column Name: `ss_notc_mult_dic_76_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_76_code`. See `ss_notc_mult_dic_76_code` for more information.

Column Name: `ss_notc_mult_dic_77_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 77'

Column Name: `ss_notc_mult_dic_77_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_77_code`. See `ss_notc_mult_dic_77_code` for more information.

Column Name: `ss_notc_mult_dic_78_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 78'

Column Name: `ss_notc_mult_dic_78_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_78_code`. See `ss_notc_mult_dic_78_code` for more information.

Column Name: `ss_notc_mult_dic_79_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 79'

Column Name: `ss_notc_mult_dic_79_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_79_code`. See `ss_notc_mult_dic_79_code` for more information.

Column Name: `ss_notc_mult_dic_80_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Multiple Response Dictionary 80'

Column Name: ss_notc_mult_dic_80_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_80_code. See ss_notc_mult_dic_80_code for more information.

Column Name: ss_notc_sin_dic_51_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 51'

Column Name: ss_notc_sin_dic_51_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_51_code. See ss_notc_sin_dic_51_code for more information.

Column Name: ss_notc_sin_dic_52_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 52'

Column Name: ss_notc_sin_dic_52_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_52_code. See ss_notc_sin_dic_52_code for more information.

Column Name: ss_notc_sin_dic_53_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 53'

Column Name: ss_notc_sin_dic_53_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_53_code. See ss_notc_sin_dic_53_code for more information.

Column Name: ss_notc_sin_dic_54_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 54'

Column Name: ss_notc_sin_dic_54_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_sin_dic_54_code`. See `ss_notc_sin_dic_54_code` for more information.

Column Name: `ss_notc_sin_dic_55_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 55'

Column Name: `ss_notc_sin_dic_55_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_55_code`. See `ss_notc_sin_dic_55_code` for more information.

Column Name: `ss_notc_sin_dic_56_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 56'

Column Name: `ss_notc_sin_dic_56_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_56_code`. See `ss_notc_sin_dic_56_code` for more information.

Column Name: `ss_notc_sin_dic_57_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 57'

Column Name: `ss_notc_sin_dic_57_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_57_code`. See `ss_notc_sin_dic_57_code` for more information.

Column Name: `ss_notc_sin_dic_58_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 58'

Column Name: `ss_notc_sin_dic_58_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_58_code`. See `ss_notc_sin_dic_58_code` for more information.

Column Name: `ss_notc_sin_dic_59_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Single Response Dictionary 59'

Column Name: ss_notc_sin_dic_59_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_59_code. See ss_notc_sin_dic_59_code for more information.

Column Name: ss_notc_sin_dic_60_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 60'

Column Name: ss_notc_sin_dic_60_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_60_code. See ss_notc_sin_dic_60_code for more information.

Column Name: ss_notc_sin_dic_61_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 61'

Column Name: ss_notc_sin_dic_61_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_61_code. See ss_notc_sin_dic_61_code for more information.

Column Name: ss_notc_sin_dic_62_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 62'

Column Name: ss_notc_sin_dic_62_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_62_code. See ss_notc_sin_dic_62_code for more information.

Column Name: ss_notc_sin_dic_63_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 63'

Column Name: ss_notc_sin_dic_63_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_63_code. See ss_notc_sin_dic_63_code for more information.

Column Name: ss_notc_sin_dic_64_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 64'

Column Name: ss_notc_sin_dic_64_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_64_code. See ss_notc_sin_dic_64_code for more information.

Column Name: ss_notc_sin_dic_65_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 65'

Column Name: ss_notc_sin_dic_65_value
Column Type: varchar
Max Length: 265
The description associated with ss_notc_sin_dic_65_code. See ss_notc_sin_dic_65_code for more information.

Column Name: ss_notc_sin_dic_66_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 66'

Column Name: ss_notc_sin_dic_66_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_66_code. See ss_notc_sin_dic_66_code for more information.

Column Name: ss_notc_sin_dic_67_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 67'

Column Name: ss_notc_sin_dic_67_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_67_code. See ss_notc_sin_dic_67_code for more information.

Column Name: ss_notc_sin_dic_68_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 68'

Column Name: ss_notc_sin_dic_68_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_68_code. See ss_notc_sin_dic_68_code for more information.

Column Name: ss_notc_sin_dic_69_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 69'

Column Name: ss_notc_sin_dic_69_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_69_code. See ss_notc_sin_dic_69_code for more information.

Column Name: ss_notc_sin_dic_70_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 70'

Column Name: ss_notc_sin_dic_70_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_70_code. See ss_notc_sin_dic_70_code for more information.

Column Name: ss_notc_sin_dic_71_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 71'

Column Name: ss_notc_sin_dic_71_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_71_code. See ss_notc_sin_dic_71_code for more information.

Column Name: ss_notc_sin_dic_72_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 72'

Column Name: ss_notc_sin_dic_72_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_72_code. See ss_notc_sin_dic_72_code for more information.

Column Name: ss_notc_sin_dic_73_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 73'

Column Name: ss_notc_sin_dic_73_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_73_code. See ss_notc_sin_dic_73_code for more information.

Column Name: ss_notc_sin_dic_74_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 74'

Column Name: ss_notc_sin_dic_74_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_74_code. See ss_notc_sin_dic_74_code for more information.

Column Name: ss_notc_sin_dic_75_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 75'

Column Name: ss_notc_sin_dic_75_value
Column Type: varchar
Max Length: 275
The description associated with ss_notc_sin_dic_75_code. See ss_notc_sin_dic_75_code for more information.

Column Name: ss_notc_sin_dic_76_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 76'

Column Name: ss_notc_sin_dic_76_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_76_code. See ss_notc_sin_dic_76_code for more information.

Column Name: ss_notc_sin_dic_77_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 77'

Column Name: ss_notc_sin_dic_77_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_77_code. See ss_notc_sin_dic_77_code for more information.

Column Name: ss_notc_sin_dic_78_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 78'

Column Name: ss_notc_sin_dic_78_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_78_code. See ss_notc_sin_dic_78_code for more information.

Column Name: ss_notc_sin_dic_79_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 79'

Column Name: ss_notc_sin_dic_79_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_79_code. See ss_notc_sin_dic_79_code for more information.

Column Name: ss_notc_sin_dic_80_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 80'

Column Name: ss_notc_sin_dic_80_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_80_code. See ss_notc_sin_dic_80_code for more information.

Column Name: ss_note_mul_dict_51_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 51'

Column Name: ss_note_mul_dict_51_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_51_code limited to 255 characters. See ss_note_mul_dict_51_code for more information.

Column Name: ss_note_mul_dict_51_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_51_code. See ss_note_mul_dict_51_code for more information.

Column Name: ss_note_mul_dict_52_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 52'

Column Name: ss_note_mul_dict_52_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_52_code limited to 255 characters. See ss_note_mul_dict_52_code for more information.

Column Name: ss_note_mul_dict_52_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_52_code. See ss_note_mul_dict_52_code for more information.

Column Name: ss_note_mul_dict_53_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 53'

Column Name: ss_note_mul_dict_53_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_53_code limited to 255 characters. See ss_note_mul_dict_53_code for more information.

Column Name: ss_note_mul_dict_53_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_53_code. See ss_note_mul_dict_53_code for more information.

Column Name: ss_note_mul_dict_54_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 54'

Column Name: ss_note_mul_dict_54_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_54_code limited to 255 characters. See ss_note_mul_dict_54_code for more information.

Column Name: ss_note_mul_dict_54_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_54_code. See ss_note_mul_dict_54_code for more information.

Column Name: ss_note_mul_dict_55_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 55'

Column Name: ss_note_mul_dict_55_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_55_code limited to 255 characters. See ss_note_mul_dict_55_code for more information.

Column Name: ss_note_mul_dict_55_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_55_code. See ss_note_mul_dict_55_code for more information.

Column Name: ss_note_mul_dict_56_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 56'

Column Name: ss_note_mul_dict_56_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_56_code limited to 255 characters. See ss_note_mul_dict_56_code for more information.

Column Name: ss_note_mul_dict_56_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_56_code. See ss_note_mul_dict_56_code for more information.

Column Name: ss_note_mul_dict_57_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 57'

Column Name: ss_note_mul_dict_57_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_57_code limited to 255 characters. See ss_note_mul_dict_57_code for more information.

Column Name: ss_note_mul_dict_57_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_57_code. See ss_note_mul_dict_57_code for more information.

Column Name: ss_note_mul_dict_58_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 58'

Column Name: ss_note_mul_dict_58_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_58_code limited to 255 characters. See ss_note_mul_dict_58_code for more information.

Column Name: ss_note_mul_dict_58_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_58_code. See ss_note_mul_dict_58_code for more information.

Column Name: ss_note_mul_dict_59_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 59'

Column Name: ss_note_mul_dict_59_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_59_code limited to 255 characters. See ss_note_mul_dict_59_code for more information.

Column Name: ss_note_mul_dict_59_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_59_code. See ss_note_mul_dict_59_code for more information.

Column Name: ss_note_mul_dict_60_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 60'

Column Name: ss_note_mul_dict_60_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_60_code limited to 255 characters. See ss_note_mul_dict_60_code for more information.

Column Name: ss_note_mul_dict_60_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_60_code. See ss_note_mul_dict_60_code for more information.

Column Name: ss_note_mul_dict_61_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 61'

Column Name: ss_note_mul_dict_61_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_61_code limited to 255 characters. See ss_note_mul_dict_61_code for more information.

Column Name: ss_note_mul_dict_61_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_61_code. See ss_note_mul_dict_61_code for more information.

Column Name: ss_note_mul_dict_62_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 62'

Column Name: ss_note_mul_dict_62_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_62_code limited to 255 characters. See ss_note_mul_dict_62_code for more information.

Column Name: ss_note_mul_dict_62_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_62_code. See ss_note_mul_dict_62_code for more information.

Column Name: ss_note_mul_dict_63_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 63'

Column Name: ss_note_mul_dict_63_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_63_code limited to 255 characters. See ss_note_mul_dict_63_code for more information.

Column Name: ss_note_mul_dict_63_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_63_code. See ss_note_mul_dict_63_code for more information.

Column Name: ss_note_mul_dict_64_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 64'

Column Name: ss_note_mul_dict_64_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_64_code limited to 255 characters. See ss_note_mul_dict_64_code for more information.

Column Name: ss_note_mul_dict_64_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_64_code. See ss_note_mul_dict_64_code for more information.

Column Name: ss_note_mul_dict_65_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 65'

Column Name: ss_note_mul_dict_65_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_65_code limited to 255 characters. See ss_note_mul_dict_65_code for more information.

Column Name: ss_note_mul_dict_65_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_65_code. See ss_note_mul_dict_65_code for more information.

Column Name: ss_note_mul_dict_66_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 66'

Column Name: ss_note_mul_dict_66_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_66_code limited to 255 characters. See ss_note_mul_dict_66_code for more information.

Column Name: ss_note_mul_dict_66_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_66_code. See ss_note_mul_dict_66_code for more information.

Column Name: ss_note_mul_dict_67_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 67'

Column Name: ss_note_mul_dict_67_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_67_code limited to 255 characters. See ss_note_mul_dict_67_code for more information.

Column Name: ss_note_mul_dict_67_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_67_code. See ss_note_mul_dict_67_code for more information.

'SS Note Multi Response Dictionary 72'

Column Name: ss_note_mul_dict_72_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_72_code limited to 255 characters. See ss_note_mul_dict_72_code for more information.

Column Name: ss_note_mul_dict_72_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_72_code. See ss_note_mul_dict_72_code for more information.

Column Name: ss_note_mul_dict_73_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 73'

Column Name: ss_note_mul_dict_73_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_73_code limited to 255 characters. See ss_note_mul_dict_73_code for more information.

Column Name: ss_note_mul_dict_73_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_73_code. See ss_note_mul_dict_73_code for more information.

Column Name: ss_note_mul_dict_74_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 74'

Column Name: ss_note_mul_dict_74_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_74_code limited to 255 characters. See ss_note_mul_dict_74_code for more information.

Column Name: ss_note_mul_dict_74_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_74_code. See ss_note_mul_dict_74_code for more information.

Column Name: ss_note_mul_dict_75_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 75'

Column Name: ss_note_mul_dict_75_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_75_code limited to 255 characters. See ss_note_mul_dict_75_code for more information.

Column Name: ss_note_mul_dict_75_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_75_code. See ss_note_mul_dict_75_code for more information.

Column Name: ss_note_mul_dict_76_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 76'

Column Name: ss_note_mul_dict_76_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_76_code limited to 255 characters. See ss_note_mul_dict_76_code for more information.

Column Name: ss_note_mul_dict_76_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_76_code. See ss_note_mul_dict_76_code for more information.

Column Name: ss_note_mul_dict_77_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 77'

Column Name: ss_note_mul_dict_77_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_77_code limited to 255 characters. See ss_note_mul_dict_77_code for more information.

Column Name: ss_note_mul_dict_77_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_77_code. See ss_note_mul_dict_77_code for more information.

Column Name: ss_note_mul_dict_78_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 78'

Column Name: ss_note_mul_dict_78_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_78_code limited to 255 characters. See ss_note_mul_dict_78_code for more information.

Column Name: ss_note_mul_dict_78_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_78_code. See ss_note_mul_dict_78_code for more information.

Column Name: ss_note_mul_dict_79_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 79'

Column Name: ss_note_mul_dict_79_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_79_code limited to 255 characters. See ss_note_mul_dict_79_code for more information.

Column Name: ss_note_mul_dict_79_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_79_code. See ss_note_mul_dict_79_code for more information.

Column Name: ss_note_mul_dict_80_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 80'

Column Name: ss_note_mul_dict_80_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_80_code limited to 255 characters. See ss_note_mul_dict_80_code for more information.

Column Name: ss_note_mul_dict_80_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_80_code. See ss_note_mul_dict_80_code for more information.

Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 51'

Column Name: ss_note_sin_dict_51_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_51_code. See ss_note_sin_dict_51_code for more information.

Column Name: ss_note_sin_dict_52_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 52'

Column Name: ss_note_sin_dict_52_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_52_code. See ss_note_sin_dict_52_code for more information.

Column Name: ss_note_sin_dict_53_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 53'

Column Name: ss_note_sin_dict_53_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_53_code. See ss_note_sin_dict_53_code for more information.

Column Name: ss_note_sin_dict_54_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 54'

Column Name: ss_note_sin_dict_54_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_54_code. See ss_note_sin_dict_54_code for more information.

Column Name: ss_note_sin_dict_55_code
Column Type: varchar
Max Length: 50

'SS Note Single Response Dictionary 55'

Column Name: ss_note_sin_dict_55_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_55_code. See ss_note_sin_dict_55_code for more information.

Column Name: ss_note_sin_dict_56_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 56'

Column Name: ss_note_sin_dict_56_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_56_code. See ss_note_sin_dict_56_code for more information.

Column Name: ss_note_sin_dict_57_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 57'

Column Name: ss_note_sin_dict_57_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_57_code. See ss_note_sin_dict_57_code for more information.

Column Name: ss_note_sin_dict_58_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 58'

Column Name: ss_note_sin_dict_58_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_58_code. See ss_note_sin_dict_58_code for more information.

Column Name: ss_note_sin_dict_59_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 59'

Column Name: ss_note_sin_dict_59_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_59_code. See ss_note_sin_dict_59_code for more information.

Column Name: ss_note_sin_dict_60_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 60'

Column Name: ss_note_sin_dict_60_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_60_code. See ss_note_sin_dict_60_code for more information.

Column Name: ss_note_sin_dict_61_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 61'

Column Name: ss_note_sin_dict_61_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_61_code. See ss_note_sin_dict_61_code for more information.

Column Name: ss_note_sin_dict_62_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 62'

Column Name: ss_note_sin_dict_62_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_62_code. See ss_note_sin_dict_62_code for more information.

Column Name: ss_note_sin_dict_63_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 63'

Column Name: ss_note_sin_dict_63_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_63_code. See ss_note_sin_dict_63_code for more information.

Column Name: ss_note_sin_dict_64_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 64'

Column Name: ss_note_sin_dict_64_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_64_code. See ss_note_sin_dict_64_code for more information.

Column Name: ss_note_sin_dict_65_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 65'

Column Name: ss_note_sin_dict_65_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_65_code. See ss_note_sin_dict_65_code for more information.

Column Name: ss_note_sin_dict_66_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 66'

Column Name: ss_note_sin_dict_66_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_66_code. See ss_note_sin_dict_66_code for more information.

Column Name: ss_note_sin_dict_67_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 67'

Column Name: ss_note_sin_dict_67_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_67_code. See ss_note_sin_dict_67_code for more information.

Column Name: ss_note_sin_dict_68_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 68'

Column Name: ss_note_sin_dict_68_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_68_code. See ss_note_sin_dict_68_code for more information.

Column Name: ss_note_sin_dict_69_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 69'

Column Name: ss_note_sin_dict_69_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_69_code. See ss_note_sin_dict_69_code for more information.

Column Name: ss_note_sin_dict_70_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 70'

Column Name: ss_note_sin_dict_70_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_70_code. See ss_note_sin_dict_70_code for more information.

Column Name: ss_note_sin_dict_71_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 71'

Column Name: ss_note_sin_dict_71_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_71_code. See ss_note_sin_dict_71_code for more information.

Column Name: ss_note_sin_dict_72_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 72'

Column Name: ss_note_sin_dict_72_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_72_code. See ss_note_sin_dict_72_code for more information.

Column Name: ss_note_sin_dict_73_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 73'

Column Name: ss_note_sin_dict_73_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_73_code. See ss_note_sin_dict_73_code for more information.

Column Name: ss_note_sin_dict_74_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 74'

Column Name: ss_note_sin_dict_74_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_74_code. See ss_note_sin_dict_74_code for more information.

Column Name: ss_note_sin_dict_75_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 75'

Column Name: ss_note_sin_dict_75_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_75_code. See ss_note_sin_dict_75_code for more information.

Column Name: ss_note_sin_dict_76_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 76'

Column Name: ss_note_sin_dict_76_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_76_code. See ss_note_sin_dict_76_code for more information.

Column Name: ss_note_sin_dict_77_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 77'

Column Name: ss_note_sin_dict_77_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_77_code. See ss_note_sin_dict_77_code for more information.

Column Name: ss_note_sin_dict_78_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 78'

Column Name: ss_note_sin_dict_78_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_78_code. See ss_note_sin_dict_78_code for more information.

Column Name: ss_note_sin_dict_79_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 79'

Column Name: ss_note_sin_dict_79_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_79_code. See ss_note_sin_dict_79_code for more information.

Column Name: ss_note_sin_dict_80_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 80'

Column Name: ss_note_sin_dict_80_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_80_code. See ss_note_sin_dict_80_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes_supp_5

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp5 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiler.

Column Name: data_entry_offset
Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 40

The user ID who last updated the service.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the service.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: ebp_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practices'

Column Name: ebp_element_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practice Elements'

Column Name: ebp_element_value

Column Type: varchar

Max Length: 32000

The description associated with ebp_element_code

Column Name: ebp_value

Column Type: varchar

Max Length: 32000

The description associated with ebp_code

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notc_mul_dic_100_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 100'

Column Name: ss_notc_mul_dic_100_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_100_code. See ss_notc_mul_dic_100_code for more information.

Column Name: ss_notc_mul_dic_101_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 101'

Column Name: ss_notc_mul_dic_101_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_101_code. See ss_notc_mul_dic_101_code for more information.

Column Name: ss_notc_mul_dic_102_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 102'

Column Name: ss_notc_mul_dic_102_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_102_code. See ss_notc_mul_dic_102_code for more information.

Column Name: ss_notc_mul_dic_103_code
Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 103'

Column Name: ss_notc_mul_dic_103_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_103_code. See ss_notc_mul_dic_103_code for more information.

Column Name: ss_notc_mul_dic_104_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 104'

Column Name: ss_notc_mul_dic_104_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_104_code. See ss_notc_mul_dic_104_code for more information.

Column Name: ss_notc_mul_dic_105_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 105'

Column Name: ss_notc_mul_dic_105_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_mul_dic_105_code. See ss_notc_mul_dic_105_code for more information.

Column Name: ss_notc_mul_dic_106_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 106'

Column Name: ss_notc_mul_dic_106_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_106_code. See ss_notc_mul_dic_106_code for more information.

Column Name: ss_notc_mul_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 107'

Column Name: ss_notc_mul_dic_107_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mul_dic_107_code`. See `ss_notc_mul_dic_107_code` for more information.

Column Name: `ss_notc_mul_dic_108_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 108'

Column Name: `ss_notc_mul_dic_108_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mul_dic_108_code`. See `ss_notc_mul_dic_108_code` for more information.

Column Name: `ss_notc_mul_dic_109_code`

'SS Note Copy Multiple Response Dictionary 87'

Column Name: ss_notc_mul_dic_87_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_87_code. See ss_notc_mul_dic_87_code for more information.

Column Name: ss_notc_mul_dic_88_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 88'

Column Name: ss_notc_mul_dic_88_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_88_code. See ss_notc_mul_dic_88_code for more information.

Column Name: ss_notc_mul_dic_89_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 89'

Column Name: ss_notc_mul_dic_89_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_89_code. See ss_notc_mul_dic_89_code for more information.

Column Name: ss_notc_mul_dic_90_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 90'

Column Name: ss_notc_mul_dic_90_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_90_code. See ss_notc_mul_dic_90_code for more information.

Column Name: ss_notc_mul_dic_91_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 91'

Column Name: ss_notc_mul_dic_91_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_91_code. See ss_notc_mul_dic_91_code for more information.

Column Name: ss_notc_mul_dic_92_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 92'

Column Name: ss_notc_mul_dic_92_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_92_code. See ss_notc_mul_dic_92_code for more information.

Column Name: ss_notc_mul_dic_93_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 93'

Column Name: ss_notc_mul_dic_93_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_93_code. See ss_notc_mul_dic_93_code for more information.

Column Name: ss_notc_mul_dic_94_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 94'

Column Name: ss_notc_mul_dic_94_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_94_code. See ss_notc_mul_dic_94_code for more information.

Column Name: ss_notc_mul_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 95'

Column Name: ss_notc_mul_dic_95_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_mul_dic_95_code. See ss_notc_mul_dic_95_code for more information.

Column Name: ss_notc_mul_dic_96_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 96'

Column Name: ss_notc_mul_dic_96_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_96_code. See ss_notc_mul_dic_96_code for more information.

Column Name: ss_notc_mul_dic_97_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 97'

Column Name: ss_notc_mul_dic_97_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_97_code. See ss_notc_mul_dic_97_code for more information.

Column Name: ss_notc_mul_dic_98_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 98'

Column Name: ss_notc_mul_dic_98_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_98_code. See ss_notc_mul_dic_98_code for more information.

Column Name: ss_notc_mul_dic_99_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 99'

Column Name: ss_notc_mul_dic_99_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_99_code. See ss_notc_mul_dic_99_code for more information.

Column Name: ss_notc_sin_dic_100_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 100'

Column Name: ss_notc_sin_dic_100_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_100_code. See ss_notc_sin_dic_100_code for more information.

Column Name: ss_notc_sin_dic_101_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 101'

Column Name: ss_notc_sin_dic_101_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_101_code. See ss_notc_sin_dic_101_code for more information.

Column Name: ss_notc_sin_dic_102_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 102'

Column Name: ss_notc_sin_dic_102_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_102_code. See ss_notc_sin_dic_102_code for more information.

Column Name: ss_notc_sin_dic_103_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 103'

Column Name: ss_notc_sin_dic_103_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_103_code. See ss_notc_sin_dic_103_code for more information.

Column Name: ss_notc_sin_dic_104_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 104'

Column Name: ss_notc_sin_dic_104_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_104_code. See ss_notc_sin_dic_104_code for more information.

Column Name: ss_notc_sin_dic_105_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 105'

Column Name: ss_notc_sin_dic_105_value
Column Type: varchar
Max Length: 275
The description associated with ss_notc_sin_dic_105_code. See ss_notc_sin_dic_105_code for more information.

Column Name: ss_notc_sin_dic_106_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 106'

Column Name: ss_notc_sin_dic_106_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_106_code. See ss_notc_sin_dic_106_code for more information.

Column Name: ss_notc_sin_dic_107_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 107'

Column Name: ss_notc_sin_dic_107_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_107_code. See ss_notc_sin_dic_107_code for more information.

Column Name: ss_notc_sin_dic_108_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 108'

Column Name: ss_notc_sin_dic_108_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_108_code. See ss_notc_sin_dic_108_code for more information.

Column Name: ss_notc_sin_dic_109_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 109'

Column Name: ss_notc_sin_dic_109_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_109_code. See ss_notc_sin_dic_109_code for more information.

Column Name: ss_notc_sin_dic_110_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 110'

Column Name: ss_notc_sin_dic_110_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_110_code. See ss_notc_sin_dic_110_code for more information.

Column Name: ss_notc_sin_dic_81_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 81'

Column Name: ss_notc_sin_dic_81_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_81_code. See ss_notc_sin_dic_81_code for more information.

Column Name: ss_notc_sin_dic_82_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 82'

Column Name: ss_notc_sin_dic_82_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_82_code. See ss_notc_sin_dic_82_code for more information.

Column Name: ss_notc_sin_dic_83_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 83'

Column Name: ss_notc_sin_dic_83_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_83_code. See ss_notc_sin_dic_83_code for more information.

Column Name: ss_notc_sin_dic_84_code
Column Type: varchar

The description associated with ss_note_mul_dic_109_code. See ss_note_mul_dic_109_code for more information.

Column Name: ss_note_mul_dic_110_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 110'

Column Name: ss_note_mul_dic_110_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_110_code limited to 255 characters. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_110_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_110_code. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_81_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 81'

Column Name: ss_note_mul_dic_81_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_81_code limited to 255 characters. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_81_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_81_code. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_82_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 82'

Column Name: ss_note_mul_dic_82_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_82_code limited to 255 characters. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_82_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_82_code. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_83_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 83'

Column Name: ss_note_mul_dic_83_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_83_code limited to 255 characters. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_83_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_83_code. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_84_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 84'

Column Name: ss_note_mul_dic_84_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_84_code limited to 255 characters. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_84_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_84_code. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_85_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 85'

Column Name: ss_note_mul_dic_85_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_85_code limited to 255 characters. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_85_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_85_code. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_86_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 86'

Column Name: ss_note_mul_dic_86_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_86_code limited to 255 characters. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_86_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_86_code. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_87_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 87'

Column Name: ss_note_mul_dic_87_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_87_code limited to 255 characters. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_87_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_87_code. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_88_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 88'

Column Name: ss_note_mul_dic_88_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_88_code limited to 255 characters. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_88_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_88_code. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_89_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 89'

Column Name: ss_note_mul_dic_89_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_89_code limited to 255 characters. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_89_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_89_code. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_90_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 90'

Column Name: ss_note_mul_dic_90_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_90_code limited to 255 characters. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_90_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_90_code. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_91_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 91'

Column Name: ss_note_mul_dic_91_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_91_code limited to 255 characters. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_91_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_91_code. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_92_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 92'

Column Name: ss_note_mul_dic_92_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_92_code limited to 255 characters. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_92_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_92_code. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_93_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 93'

Column Name: ss_note_mul_dic_93_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_93_code limited to 255 characters. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_93_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_93_code. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_94_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 94'

Column Name: ss_note_mul_dic_94_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_94_code limited to 255 characters. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_94_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_94_code. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_95_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 95'

Column Name: ss_note_mul_dic_95_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_95_code limited to 255 characters. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_95_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_95_code. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_96_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 96'

Column Name: ss_note_mul_dic_96_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_96_code limited to 255 characters. See ss_note_mul_dic_96_code for more information.

Column Name: ss_note_mul_dic_96_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_96_code. See ss_note_mul_dic_96_code for more information.

Column Name: ss_note_mul_dic_97_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 97'

Column Name: ss_note_mul_dic_97_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_97_code limited to 255 characters. See ss_note_mul_dic_97_code for more information.

Column Name: ss_note_mul_dic_97_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_97_code. See ss_note_mul_dic_97_code for more information.

Column Name: ss_note_mul_dic_98_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 98'

Column Name: ss_note_mul_dic_98_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_98_code limited to 255 characters. See ss_note_mul_dic_98_code for more information.

Column Name: ss_note_mul_dic_98_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_98_code. See ss_note_mul_dic_98_code for more information.

Column Name: ss_note_mul_dic_99_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 99'

Column Name: ss_note_mul_dic_99_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_99_code limited to 255 characters. See ss_note_mul_dic_99_code for more information.

Column Name: ss_note_mul_dic_99_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_99_code. See ss_note_mul_dic_99_code for more information.

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_96_code. See ss_note_sin_dic_96_code for more information.

Column Name: ss_note_sin_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 97'

Column Name: ss_note_sin_dic_97_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_97_code. See ss_note_sin_dic_97_code for more information.

Column Name: ss_note_sin_dic_98_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 98'

Column Name: ss_note_sin_dic_98_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_98_code. See ss_note_sin_dic_98_code for more information.

Column Name: ss_note_sin_dic_99_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 99'

Column Name: ss_note_sin_dic_99_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_99_code. See ss_note_sin_dic_99_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes_supp_6

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp6 table.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_51
Column Type: varchar
Max Length: 20
SS Note 20 Character 51

Column Name: ss_note_20_char_text_52
Column Type: varchar
Max Length: 20
SS Note 20 Character 52

Column Name: ss_note_20_char_text_53
Column Type: varchar
Max Length: 20
SS Note 20 Character 53

Column Name: ss_note_20_char_text_54

Column Type: varchar
Max Length: 20
SS Note 20 Character 54

Column Name: ss_note_20_char_text_55
Column Type: varchar
Max Length: 20
SS Note 20 Character 55

Column Name: ss_note_20_char_text_56
Column Type: varchar
Max Length: 20
SS Note 20 Character 56

Column Name: ss_note_20_char_text_57
Column Type: varchar
Max Length: 20
SS Note 20 Character 57

Column Name: ss_note_20_char_text_58
Column Type: varchar
Max Length: 20
SS Note 20 Character 58

Column Name: ss_note_20_char_text_59
Column Type: varchar
Max Length: 20

SS Note Time 60

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: SYSTEM.cw_notes_voided

Table Description: This table returns voided progress notes.

Column Name: blank_row_id

Column Type: varchar

Max Length: 254

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: Filing_Hist

Column Type: varchar

Max Length: 20

Unique historic where the data will be stored.

Column Name: notes_field

Column Type: varchar

Max Length: 32759

'Notes Field'

Column Name: note_type_code

Column Type: varchar

Max Length: 50

'Note Type code'

Column Name: note_type_value

Column Type: varchar

Max Length: 40

The description associated with note_type_code. See note_type_code for more information.

Column Name: note_time

Column Type: varchar

Max Length: 25

'Note Time'

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the row.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: new_existing_svc_code

Column Type: varchar

Max Length: 5

'New Existing Service Code For. (Progress Note For)'

Column Name: new_existing_svc_value

Column Type: varchar

Max Length: 40

The description associated with new_existing_svc_code. See new_existing_svc_code for more information.

Column Name: service_charge_code

Column Type: varchar

Max Length: 40

'Service Charge Code'

Column Name: service_program_code

Column Type: varchar

Max Length: 6

'Service Program code'

Column Name: service_program_value

Column Type: varchar

Max Length: 40

The description associated with service_program_code. See service_program_code for more information.

Column Name: service_duration

Column Type: varchar

Max Length: 5

'Service Duration'

Column Name: note_addresses

Column Type: varchar

Max Length: 40

'Note Addresses Which Existing Service/Appointment'

Column Name: note_add_wh_tp_plan_prob

Column Type: varchar

Max Length: 32759

'Note Addresses Which Treatment Plan Problem'

Column Name: Tx_Note_Uniqueid

Column Type: varchar

Max Length: 40

Unique ID for a service note.

Column Name: FILING_COUNTER

Column Type: integer

'Filing Counter'

Column Name: GROUP_ID

Column Type: varchar

Max Length: 10

'Group Name Or Number'

Column Name: JOIN_TO_TX_HISTORY

Column Type: varchar

Max Length: 40

Unique ID for a service.

Column Name: TODO_ID

Column Type: varchar

Max Length: 20

'To Do Id'

Column Name: aps_link

Column Type: varchar

Max Length: 40

'Note Addresses Which Existing Appointment'

Column Name: clinical_quality_code

Column Type: varchar

Max Length: 255

'Clinical Quality Indicators'

Column Name: clinical_quality_sh_val

Column Type: varchar

Max Length: 255

'The description associated with clinical_quality_code. See clinical_quality_code for more information.

Column Name: clinical_quality_value

Column Type: varchar

Max Length: 4096

'The description associated with clinical_quality_code. See clinical_quality_code for more information.

Column Name: co_sign_to_do_user

Column Type: varchar

Max Length: 50

'User To Send Co-Sign To Do Item To'

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 255

The name of the form that last updated the row.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 40

The user ID who last updated the row.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: date_of_group_service
Column Type: date
Date of service for group.

Column Name: draft_final_code
Column Type: varchar
Max Length: 5
'Draft/Final code'

Column Name: draft_final_value
Column Type: varchar
Max Length: 40
The description associated with draft_final_code. See draft_final_code for more information.

Column Name: ebps_code
Column Type: varchar
Max Length: 255
'Evidence Based Practices'

Column Name: ebps_sh_val
Column Type: varchar
Max Length: 255
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: ebps_value
Column Type: varchar
Max Length: 4096
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: external_system_id
Column Type: varchar
Max Length: 255
'External System Identifier'

Column Name: finalized_signature
Column Type: varchar
Max Length: 255
'Finalized Signature'

Column Name: medical_diagnosis_1_code
Column Type: varchar
Max Length: 50
'Medical Diagnosis 1 code'

Column Name: medical_diagnosis_1_value

Column Type: varchar

Max Length: 32759

The description associated with medical_diagnosis_1_code. See medical_diagnosis_1_code for more information.

Column Name: medical_diagnosis_2_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 2 code'

Column Name: medical_diagnosis_2_value

Column Type: varchar

Max Length: 32759

The description associated with medical_diagnosis_2_code. See medical_diagnosis_2_code for more information.

Column Name: notes_entry_index_nu

Column Type: varchar

Max Length: 50

'Notes Entry Index Number for Internal Use'

Column Name: option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: orig_note_uniq_id_num

Column Type: varchar

Max Length: 20

'Original Note Unique ID Number'

Column Name: reason_for_void_code

Column Type: varchar

Max Length: 50

'Reason For Voiding The Note code'

Column Name: reason_for_void_value

Column Type: varchar

Max Length: 50

The description associated with reason_for_void_code. See reason_for_void_code for more information.

Column Name: select_tp_version_code

Column Type: varchar

Max Length: 5
'Select T.P. Version code'

Column Name: select_tp_version_value
Column Type: varchar
Max Length: 40
The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: session_start_end_times
Column Type: varchar
Max Length: 32759
'Start/End Time(s)'

Column Name: ss_note_20_char_text_1

Column Type: date
'SS Note Date 7'

Column Name: ss_note_date_8
Column Type: date
'SS Note Date 8'

Column Name: ss_note_date_9

Column Type: date
'SS Note Date 9'

Column Name: ss_note_dsm_diag_10_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 10 code'

Column Name: ss_note_dsm_diag_10_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_10_code. See ss_note_dsm_diag_10_code for more information.

Column Name: ss_note_dsm_diag_1_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 1 code'

Column Name: ss_note_dsm_diag_1_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_1_code. See ss_note_dsm_diag_1_code for more information.

Column Name: ss_note_dsm_diag_2_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 2 code'

Column Name: ss_note_dsm_diag_2_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_2_code. See ss_note_dsm_diag_2_code for more information.

Column Name: ss_note_dsm_diag_3_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 3 code'

Column Name: ss_note_dsm_diag_3_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_3_code. See ss_note_dsm_diag_3_code for more information.

Column Name: ss_note_dsm_diag_4_code
Column Type: varchar
Max Length: 20

'SS Note DSM IV Diagnosis 4 code'

Column Name: ss_note_dsm_diag_4_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_4_code. See ss_note_dsm_diag_4_code for more information.

Column Name: ss_note_dsm_diag_5_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 5 code'

Column Name: ss_note_dsm_diag_5_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_5_code. See ss_note_dsm_diag_5_code for more information.

Column Name: ss_note_dsm_diag_6_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 6 code'

Column Name: ss_note_dsm_diag_6_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_6_code. See ss_note_dsm_diag_6_code for more information.

Column Name: ss_note_dsm_diag_7_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 7 code'

Column Name: ss_note_dsm_diag_7_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_7_code. See ss_note_dsm_diag_7_code for more information.

Column Name: ss_note_dsm_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 8 code'

Column Name: ss_note_dsm_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_dsm_diag_8_code`. See `ss_note_dsm_diag_8_code` for more information.

Column Name: `ss_note_dsm_diag_9_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 9 code'

Column Name: `ss_note_dsm_diag_9_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_9_code`. See `ss_note_dsm_diag_9_code` for more information.

Column Name: `ss_note_icd9_diag_10_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Diagnosis 10 code'

Column Name: `ss_note_icd9_diag_10_val`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_10_code`. See `ss_note_icd9_diag_10_code` for more information.

Column Name: `ss_note_icd9_diag_1_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Diagnosis 1 code'

Column Name: `ss_note_icd9_diag_1_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_1_code`. See `ss_note_icd9_diag_1_code` for more information.

Column Name: `ss_note_icd9_diag_2_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Diagnosis 2 code'

Column Name: `ss_note_icd9_diag_2_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_2_code`. See `ss_note_icd9_diag_2_code` for more information.

Column Name: `ss_note_icd9_diag_3_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Diagnosis 3 code'

Column Name: ss_note_icd9_diag_3_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_3_code. See ss_note_icd9_diag_3_code for more information.

Column Name: ss_note_icd9_diag_4_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 4 code'

Column Name: ss_note_icd9_diag_4_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_4_code. See ss_note_icd9_diag_4_code for more information.

Column Name: ss_note_icd9_diag_5_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 5 code'

Column Name: ss_note_icd9_diag_5_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_5_code. See ss_note_icd9_diag_5_code for more information.

Column Name: ss_note_icd9_diag_6_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 6 code'

Column Name: ss_note_icd9_diag_6_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_6_code. See ss_note_icd9_diag_6_code for more information.

Column Name: ss_note_icd9_diag_7_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 7 code'

Column Name: ss_note_icd9_diag_7_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_7_code. See ss_note_icd9_diag_7_code for more information.

Column Name: ss_note_icd9_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 8 code'

Column Name: ss_note_icd9_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_8_code. See ss_note_icd9_diag_8_code for more information.

Column Name: ss_note_icd9_diag_9_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Diagnosis 9 code'

Column Name: ss_note_icd9_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_9_code. See ss_note_icd9_diag_9_code for more information.

Column Name: ss_note_multi_dict_10_cod

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 10 code'

Column Name: ss_note_multi_dict_10_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_10_code. See ss_note_multi_dict_10_code for more information.

Column Name: ss_note_multi_dict_1_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 1 code'

Column Name: ss_note_multi_dict_1_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_1_code. See ss_note_multi_dict_1_code for more information.

Column Name: ss_note_multi_dict_2_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 2 code'

Column Name: ss_note_multi_dict_2_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_2_code. See ss_note_multi_dict_2_code for more information.

Column Name: ss_note_multi_dict_3_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 3 code'

Column Name: ss_note_multi_dict_3_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_3_code. See ss_note_multi_dict_3_code for more information.

Column Name: ss_note_multi_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 4 code'

Column Name: ss_note_multi_dict_4_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_4_code. See ss_note_multi_dict_4_code for more information.

Column Name: ss_note_multi_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 5 code'

Column Name: ss_note_multi_dict_5_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_5_code. See ss_note_multi_dict_5_code for more information.

Column Name: ss_note_multi_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 6 code'

Column Name: ss_note_multi_dict_6_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_6_code. See ss_note_multi_dict_6_code for more information.

Column Name: ss_note_multi_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 7 code'

Column Name: ss_note_multi_dict_7_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_7_code. See ss_note_multi_dict_7_code for more information.

Column Name: ss_note_multi_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 8 code'

Column Name: ss_note_multi_dict_8_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_8_code. See ss_note_multi_dict_8_code for more information.

Column Name: ss_note_multi_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 9 code'

Column Name: ss_note_multi_dict_9_val

Column Type: varchar

Max Length: 32759

The description associated with ss_note_multi_dict_9_code. See ss_note_multi_dict_9_code for more information.

Column Name: ss_note_scroll_text_1

Column Type: varchar

Max Length: 32759

'SS Note Scrolling Free Text 1'

Column Name: ss_note_scroll_text_10

Column Type: varchar

Max Length: 32759

'SS Note Scrolling Free Text 10'

Column Name: ss_note_scroll_text_2

Column Type: varchar

Max Length: 32759

'SS Note Scrolling Free Text 2'

Column Name: ss_note_scroll_text_3
Column Type: varchar
Max Length: 32759
'SS Note Scrolling Free Text 3'

Column Name: ss_note_scroll_text_4
Column Type: varchar
Max Length: 32759
'SS Note Scrolling Free Text 4'

Column Name: ss_note_scroll_text_5
Column Type: varchar
Max Length: 32759
'SS Note Scrolling Free Text 5'

Column Name: ss_note_scroll_text_6
Column Type: varchar
Max Length: 32759
'SS Note Scrolling Free Text 6'

Column Name: ss_note_scroll_text_7
Column Type: varchar
Max Length: 32759
'SS Note Scrolling Free Text 7'

Column Name: ss_note_scroll_text_8
Column Type: varchar
Max Length: 32759
'SS Note Scrolling Free Text 8'

Column Name: ss_note_scroll_text_9
Column Type: varchar
Max Length: 32759
'SS Note Scrolling Free Text 9'

Column Name: ss_note_sing_dict_10_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 10 code'

Column Name: ss_note_sing_dict_10_val
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_10_code. See ss_note_sing_dict_10_code for more information.

Column Name: ss_note_sing_dict_1_code
Column Type: varchar
Max Length: 20

'SS Note Single Response Dictionary 1 code'

Column Name: ss_note_sing_dict_1_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_1_code. See ss_note_sing_dict_1_code for more information.

Column Name: ss_note_sing_dict_2_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 2 code'

Column Name: ss_note_sing_dict_2_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_2_code. See ss_note_sing_dict_2_code for more information.

Column Name: ss_note_sing_dict_3_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 3 code'

Column Name: ss_note_sing_dict_3_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_3_code. See ss_note_sing_dict_3_code for more information.

Column Name: ss_note_sing_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 4 code'

Column Name: ss_note_sing_dict_4_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_4_code. See ss_note_sing_dict_4_code for more information.

Column Name: ss_note_sing_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 5 code'

Column Name: ss_note_sing_dict_5_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_5_code. See ss_note_sing_dict_5_code for more information.

Column Name: ss_note_sing_dict_6_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 6 code'

Column Name: ss_note_sing_dict_6_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_6_code. See ss_note_sing_dict_6_code for more information.

Column Name: ss_note_sing_dict_7_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 7 code'

Column Name: ss_note_sing_dict_7_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_7_code. See ss_note_sing_dict_7_code for more information.

Column Name: ss_note_sing_dict_8_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 8 code'

Column Name: ss_note_sing_dict_8_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_8_code. See ss_note_sing_dict_8_code for more information.

Column Name: ss_note_sing_dict_9_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 9 code'

Column Name: ss_note_sing_dict_9_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_9_code. See ss_note_sing_dict_9_code for more information.

Column Name: ss_note_staff_1
Column Type: varchar
Max Length: 20

'SS Note Staff Member 1'

Column Name: ss_note_staff_10

Column Type: varchar

Max Length: 20

'SS Note Staff Member 10'

Column Name: ss_note_staff_2

Column Type: varchar

Max Length: 20

'SS Note Staff Member 2'

Column Name: ss_note_staff_3

Column Type: varchar

Max Length: 20

'SS Note Staff Member 3'

Column Name: ss_note_staff_4

Column Type: varchar

Max Length: 20

'SS Note Staff Member 4'

Column Name: ss_note_staff_5

Column Type: varchar

Max Length: 20

'SS Note Staff Member 5'

Column Name: ss_note_staff_6

Column Type: varchar

Max Length: 20

'SS Note Staff Member 6'

Column Name: ss_note_staff_7

Column Type: varchar

Max Length: 20

'SS Note Staff Member 7'

Column Name: ss_note_staff_8

Column Type: varchar

Max Length: 20

'SS Note Staff Member 8'

Column Name: ss_note_staff_9

Column Type: varchar

Max Length: 20

'SS Note Staff Member 9'

Column Name: ss_note_time_1

Column Type: varchar

Max Length: 10

'SS Note Time 1'

Column Name: ss_note_time_10

Column Type: varchar

Max Length: 10

'SS Note Time 10'

Column Name: ss_note_time_2

Column Type: varchar

Max Length: 10

'SS Note Time 2'

Column Name: ss_note_time_3

Column Type: varchar

Max Length: 10

'SS Note Time 3'

Column Name: ss_note_time_4

Column Type: varchar

Max Length: 10

'SS Note Time 4'

Column Name: ss_note_time_5

Column Type: varchar

Max Length: 10

'SS Note Time 5'

Column Name: ss_note_time_6

Column Type: varchar

Max Length: 10

'SS Note Time 6'

Column Name: ss_note_time_7

Column Type: varchar

Max Length: 10

'SS Note Time 7'

Column Name: ss_note_time_8

Column Type: varchar

Max Length: 10

'SS Note Time 8'

Column Name: ss_note_time_9

Column Type: varchar

Max Length: 10

'SS Note Time 9'

Column Name: transcription_note

Column Type: bit

Is this is Transcription note

Column Name: transition_of_care_code

Column Type: varchar

Max Length: 1

'Is This A Transition Of Care?'

Column Name: transition_of_care_value

Column Type: varchar

Max Length: 80

'The description associated with transition_of_care_code. See transition_of_care_code for more information.'

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Column Name: void_comments

Column Type: varchar

Max Length: 32759

'Void Comments'

Column Name: void_data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the row for a void.

Column Name: void_data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row for a void.

Column Name: void_data_entry_date

Column Type: date

The date the row was voided.

Column Name: void_data_entry_source

Column Type: varchar

Max Length: 255

The name of the form that last updated the row for a void.

Column Name: void_data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated for a void.

Column Name: void_data_entry_user_id

Column Type: varchar

Max Length: 40

The 'User ID' that last updated the row for a void.

Column Name: void_data_entry_user_name

Column Type: varchar

Max Length: 40

The 'User Description' of the 'User ID' for a void.

Column Name: void_option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row for a void.

Column Name: void_option_id

Column Type: varchar

Max Length: 40

The unique ID of the form that last updated the row for a void.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: SYSTEM.cw_patient_notes

Table Description: This table returns the information stored in the 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Progress Notes (Group and Individual)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: blank_row_id

Column Type: varchar

Max Length: 254

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: NOT_uniqueid

Column Type: varchar

Max Length: 20

The unique ID associated with the note.

Column Name: notes_field

Column Type: varchar

Max Length: 32700

The written note information.

Column Name: note_type_code
Column Type: varchar
Max Length: 50
'Note Type'

Column Name: note_type_value
Column Type: varchar
Max Length: 40
The description associated with note_type_code. See note_type_code for more information.

Column Name: note_time
Column Type: varchar
Max Length: 25
'Note Time'

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: New_Existing_Service_code
Column Type: varchar
Max Length: 5
'Progress Note For'

Column Name: New_Existing_Service_value
Column Type: varchar
Max Length: 40
The description associated with New_Existing_Service_code. See New_Existing_Service_code for more information.

Column Name: service_program_value
Column Type: varchar
Max Length: 40
The description associated with service_program_code. See service_program_code for more information.

Column Name: note_addresses

Column Type: varchar

Max Length: 40

'Note Addresses Which Existing Service/Appointment'

Column Name: note_add_which_tp_plan_prob

Column Type: varchar

Max Length: 32700

The treatment plan problem to add to the note.

Column Name: Tx_Note_UniqueId

Column Type: varchar

Max Length: 40

The unique ID associated with the treatment.

Column Name: service_charge_value

Column Type: varchar

Max Length: 40

The description associated with service_charge_code. See service_charge_code for more information.

Column Name: GROUP_ID

Column Type: varchar

Max Length: 10

'Group Name Or Number'

Column Name: JOIN_TO_TX_HISTORY

Column Type: varchar

Max Length: 40

The unique ID that joins the note to the service.

Column Name: Option_Desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: Option_Id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: TODO_ID

Column Type: varchar

Max Length: 20

'To Do Id'

Column Name: add_on_notes

Column Type: varchar

Max Length: 32768

The add-on notes.

Column Name: add_svc_info_code

Column Type: varchar

Max Length: 40

The additional service information.

Column Name: add_svc_info_shval

Column Type: varchar

Max Length: 255

The description associated with add_svc_info_code limited to 255 characters. See add_svc_info_code for more information.

Column Name: add_svc_info_value

Column Type: varchar

Max Length: 4096

The description associated with add_svc_info_code. See add_svc_info_code for more information.

Column Name: aps_link

Column Type: varchar

Max Length: 40

'Note Addresses Which Existing Appointment'

Column Name: billing_status_code

Column Type: varchar

Max Length: 50

'Service Status'

Column Name: billing_status_value

Column Type: varchar

Max Length: 50

The description associated with billing_status_code. See billing_status_code for more information.

Column Name: calpm_ebpss_csi_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practices / Service Strategies (CSI)'

Column Name: calpm_ebpss_csi_value

Column Type: varchar

Max Length: 200

The description associated with calpm_ebpss_csi_code. See calpm_ebpss_csi_code for more information.

Column Name: calpm_ebpss_csi_value_long

Column Type: varchar

Max Length: 4096

The description associated with calpm_ebpss_csi_value_code. See calpm_ebpss_csi_value_code for more information.

Column Name: client_prob_list_codes

Column Type: varchar

Max Length: 50

The codes associated with the client problem list.

Column Name: client_prob_list_shvals

Column Type: varchar

Max Length: 255

The description associated with client_prob_list_code limited to 255 characters. See client_prob_list_code for more information.

Column Name: client_prob_list_vals

Column Type: varchar

Max Length: 32700

The description associated with client_prob_list_code. See client_prob_list_code for more information.

Column Name: clinical_instructions

Column Type: varchar

Max Length: 32700

'Clinical Instructions'

Column Name: clinical_quality_code

Column Type: varchar

Max Length: 255

'Clinical Quality Indicators'

Column Name: clinical_quality_sh_val

Column Type: varchar

Max Length: 255

'The description associated with clinical_quality_code. See clinical_quality_code for more information.'

Column Name: clinical_quality_value

Column Type: varchar

Max Length: 4096

'The description associated with clinical_quality_code. See clinical_quality_code for more information.'

Column Name: confidential_note

Column Type: varchar

Max Length: 50

The confidential note.

Column Name: co_pract_duration

Column Type: numeric

The first co-practitioner duration.

Column Name: co_pract2_duration

Column Type: numeric

The second co-practitioner duration.

Column Name: co_practitioner_id

Column Type: varchar

Max Length: 15

The first co-practitioner ID.

Column Name: co_practitioner_id_2

Column Type: varchar

Max Length: 15

The second co-practitioner ID.

Column Name: co_practitioner_name

Column Type: varchar

Max Length: 40

The name associated with co_practitioner_id.

Column Name: co_practitioner_name_2

Column Type: varchar

Max Length: 40

The name associated with co_practitioner_id_2.

Column Name: co_sign_to_do_user

Column Type: varchar

Max Length: 50

'User To Send Co-Sign To Do Item To'

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 40

The name of the form that last updated the row.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: date_of_group_service
Column Type: date
The date of the group service.

Column Name: date_of_note
Column Type: date
The date of the note.

Column Name: date_of_service
Column Type: date
The date of the service.

Column Name: discipline_code
Column Type: varchar
Max Length: 40
'Discipline'

Column Name: discipline_value
Column Type: varchar
Max Length: 40
The description associated with discipline_code. See discipline_code for more information.

Column Name: document_routing_status
Column Type: varchar
Max Length: 50
Status of the document

Column Name: draft_final_code
Column Type: varchar
Max Length: 5
'Draft/Final'

Column Name: draft_final_value
Column Type: varchar
Max Length: 40
The description associated with draft_final_code. See draft_final_code for more information.

Column Name: ebps_code
Column Type: varchar
Max Length: 255
'Evidence Based Practices'

Column Name: ebps_sh_val
Column Type: varchar
Max Length: 255
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: ebps_value
Column Type: varchar
Max Length: 4096
'The description associated with ebps_code. See ebps_code for more information.'

Column Name: external_system_id
Column Type: varchar
Max Length: 255
'External System Identifier'

Column Name: finalized_signature
Column Type: varchar
Max Length: 255
'Finalized Signature'

Column Name: has_nonmed_diag_flg_code
Column Type: varchar
Max Length: 50
The non-medical diagnosis flag.

Column Name: has_nonmed_diag_flg_value
Column Type: varchar
Max Length: 50
The description associated with has_nonmed_diag_flg_code. See has_nonmed_diag_flg_code for more information.

Column Name: jointodiagnosisobject1
Column Type: varchar
Max Length: 40
'Diagnosis 1'

Column Name: jointodiagnosisobject2
Column Type: varchar
Max Length: 40
'Diagnosis 2'

Column Name: jointodiagnosisobject3
Column Type: varchar
Max Length: 40

'Diagnosis 3'

Column Name: jointodiagnosisobject4

Column Type: varchar

Max Length: 40

'Diagnosis 4'

Column Name: location_code

Column Type: varchar

Max Length: 50

The location of the service.

Column Name: location_value

Column Type: varchar

Max Length: 40

The description associated with location_code. See location_code for more information.

Column Name: medical_diag1_DSM_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag1_DSM_code. See medical_diag1_DSM_code for more information.

Column Name: medical_diag_1_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1 ICD 10'

Column Name: medical_diag_1_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_icd10_code. See medical_diag_1_icd10_code for more information.

Column Name: medical_diag_1_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1 ICD 9'

Column Name: medical_diag_1_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_icd9_code. See medical_diag_1_icd9_code for more information.

Column Name: medical_diag_1_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_imo_code. See medical_diag_1_imo_code for more information.

Column Name: medical_diag2_DSM_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag2_DSM_code. See medical_diag2_DSM_code for more information.

Column Name: medical_diag_2_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 10'

Column Name: medical_diag_2_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd10_code. See medical_diag_2_icd10_code for more information.

Column Name: medical_diag_2_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 9'

Column Name: medical_diag_2_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd9_code. See medical_diag_2_icd9_code for more information.

Column Name: medical_diag_2_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_imo_code. See medical_diag_2_imo_code for more information.

Column Name: medical_diag_3_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 3 ICD 10'

Column Name: medical_diag_3_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_icd10_code. See medical_diag_3_icd10_code for more information.

Column Name: medical_diag_3_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 3 ICD 9'

Column Name: medical_diag_3_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_icd9_code. See medical_diag_3_icd9_code for more information.

Column Name: medical_diag_3_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_imo_code. See medical_diag_3_imo_code for more information.

Column Name: medical_diag_4_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 10'

Column Name: medical_diag_4_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd10_code. See medical_diag_4_icd10_code for more information.

Column Name: medical_diag_4_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 9'

Column Name: medical_diag_4_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd9_code. See medical_diag_4_icd9_code for more information.

Column Name: medical_diag_4_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_imo_code. See medical_diag_4_imo_code for more information.

Column Name: medical_diagnosis_1_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1'

Column Name: medical_diagnosis_1_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_1_code. See medical_diagnosis_1_code for more information.

Column Name: medical_diagnosis_2_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2'

Column Name: medical_diagnosis_2_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_2_code. See medical_diagnosis_2_code for more information.

Column Name: medical_diagnosis_3_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 3'

Column Name: medical_diagnosis_3_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_3_code. See medical_diagnosis_3_code for more information.

Column Name: medical_diagnosis_4_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 4'

Column Name: medical_diagnosis_4_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_4_code. See medical_diagnosis_4_code for more information.

Column Name: notes_entry_index_nu

Column Type: varchar

Max Length: 50

The notes entry index.

Column Name: number_clients_in_group

Column Type: integer

'Number Of Clients In Group'

Column Name: orig_note_uniq_id_num

Column Type: varchar

Max Length: 20

'Original Note Unique ID Number'

Column Name: practitioner_id
Column Type: varchar
Max Length: 15
The practitioner associated with the note.

Column Name: practitioner_name
Column Type: varchar
Max Length: 40
The name associated with practitioner_id.

Column Name: psycho_add_on_duration
Column Type: integer
The psychotherapy add-on duration.

Column Name: reason_for_visit_code
Column Type: varchar
Max Length: 50
'Reason for Visit'

Column Name: reason_for_visit_value
Column Type: varchar
Max Length: 250
The description associated with reason_for_visit_code. See reason_for_visit_code for more information.

Column Name: recommended_decision
Column Type: varchar
Max Length: 32700
'Recommended Decision'

Column Name: release_type_code
Column Type: varchar
Max Length: 50
The value entered in the field 'Are you releasing to myHealthPointe or External providers?'

Column Name: release_type_value
Column Type: varchar
Max Length: 40
The description associated with release_type_code.

Column Name: select_tp_version_code
Column Type: varchar
Max Length: 5
'Select T.P. Version'

Column Name: select_tp_version_value
Column Type: varchar
Max Length: 40
The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: service_charge_code

Column Type: varchar
Max Length: 40
The service charge code.

Column Name: service_duration
Column Type: varchar
Max Length: 5
The duration of the service.

Column Name: service_end_time
Column Type: varchar
Max Length: 10
The end time of the service.

Column Name: service_program_code
Column Type: varchar
Max Length: 15
The program of the service.

Column Name: service_start_time
Column Type: varchar
Max Length: 10
The start time of the service.

Column Name: session_start_end_times
Column Type: varchar
Max Length: 32766
'Start/End Time(s)'

Column Name: ss_note_20_char_text_1
Column Type: varchar
Max Length: 20
'SS Note 20 Character 1'

Column Name: ss_note_20_char_text_10
Column Type: varchar
Max Length: 20
'SS Note 20 Character 10'

Column Name: ss_note_20_char_text_2
Column Type: varchar
Max Length: 20
'SS Note 20 Character 2'

Column Name: ss_note_20_char_text_3
Column Type: varchar
Max Length: 20
'SS Note 20 Character 3'

Column Name: ss_note_20_char_text_4

Column Type: varchar
Max Length: 20
'SS Note 20 Character 4'

Column Name: ss_note_20_char_text_5
Column Type: varchar
Max Length: 20
'SS Note 20 Character 5'

Column Name: ss_note_20_char_text_6
Column Type: varchar
Max Length: 20
'SS Note 20 Character 6'

Column Name: ss_note_20_char_text_7
Column Type: varchar
Max Length: 20
'SS Note 20 Character 7'

Column Name: ss_note_20_char_text_8
Column Type: varchar
Max Length: 20
'SS Note 20 Character 8'

Column Name: ss_note_20_char_text_9
Column Type: varchar
Max Length: 20
'SS Note 20 Character 9'

Column Name: ss_note_40_char_text_1
Column Type: varchar
Max Length: 40
'SS Note 40 Character 1'

Column Name: ss_note_40_char_text_10
Column Type: varchar
Max Length: 40
'SS Note 40 Character 10'

Column Name: ss_note_40_char_text_2
Column Type: varchar
Max Length: 40
'SS Note 40 Character 2'

Column Name: ss_note_40_char_text_3
Column Type: varchar
Max Length: 40
'SS Note 40 Character 3'

Column Name: ss_note_40_char_text_4

Column Type: varchar
Max Length: 40
'SS Note 40 Character 4'

Column Name: ss_note_40_char_text_5
Column Type: varchar
Max Length: 40
'SS Note 40 Character 5'

Column Name: ss_note_40_char_text_6
Column Type: varchar
Max Length: 40
'SS Note 40 Character 6'

Column Name: ss_note_40_char_text_7
Column Type: varchar
Max Length: 40
'SS Note 40 Character 7'

Column Name: ss_note_40_char_text_8
Column Type: varchar
Max Length: 40
'SS Note 40 Character 8'

Column Name: ss_note_40_char_text_9
Column Type: varchar
Max Length: 40
'SS Note 40 Character 9'

Column Name: ss_note_80_char_text_1
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 1'

Column Name: ss_note_80_char_text_10
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 10'

Column Name: ss_note_80_char_text_2
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 2'

Column Name: ss_note_80_char_text_3
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 3'

Column Name: ss_note_80_char_text_4

Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 4'

Column Name: ss_note_80_char_text_5
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 5'

Column Name: ss_note_80_char_text_6
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 6'

Column Name: ss_note_80_char_text_7
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 7'

Column Name: ss_note_80_char_text_8
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 8'

Column Name: ss_note_80_char_text_9
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 9'

Column Name: ss_note_date_1
Column Type: date
'SS Note Date 1'

Column Name: ss_note_date_10
Column Type: date
'SS Note Date 10'

Column Name: ss_note_date_2
Column Type: date
'SS Note Date 2'

Column Name: ss_note_date_3
Column Type: date
'SS Note Date 3'

Column Name: ss_note_date_4
Column Type: date
'SS Note Date 4'

Column Name: ss_note_date_5

Column Type: date
'SS Note Date 5'

Column Name: ss_note_date_6
Column Type: date
'SS Note Date 6'

Column Name: ss_note_date_7
Column Type: date
'SS Note Date 7'

Column Name: ss_note_date_8
Column Type: date
'SS Note Date 8'

Column Name: ss_note_date_9
Column Type: date
'SS Note Date 9'

Column Name: ss_note_dsm_diag_10_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 10'

Column Name: ss_note_dsm_diag_10_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_10_code. See ss_note_dsm_diag_10_code for more information.

Column Name: ss_note_dsm_diag_1_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 1'

Column Name: ss_note_dsm_diag_1_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_1_code. See ss_note_dsm_diag_1_code for more information.

Column Name: ss_note_dsm_diag_2_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 2'

Column Name: ss_note_dsm_diag_2_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_dsm_diag_2_code`. See `ss_note_dsm_diag_2_code` for more information.

Column Name: `ss_note_dsm_diag_3_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 3'

Column Name: `ss_note_dsm_diag_3_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_3_code`. See `ss_note_dsm_diag_3_code` for more information.

Column Name: `ss_note_dsm_diag_4_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 4'

Column Name: `ss_note_dsm_diag_4_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_4_code`. See `ss_note_dsm_diag_4_code` for more information.

Column Name: `ss_note_dsm_diag_5_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 5'

Column Name: `ss_note_dsm_diag_5_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_5_code`. See `ss_note_dsm_diag_5_code` for more information.

Column Name: `ss_note_dsm_diag_6_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 6'

Column Name: `ss_note_dsm_diag_6_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_6_code`. See `ss_note_dsm_diag_6_code` for more information.

Column Name: `ss_note_dsm_diag_7_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 7'

Column Name: ss_note_dsm_diag_7_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_7_code. See ss_note_dsm_diag_7_code for more information.

Column Name: ss_note_dsm_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 8'

Column Name: ss_note_dsm_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_8_code. See ss_note_dsm_diag_8_code for more information.

Column Name: ss_note_dsm_diag_9_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 9'

Column Name: ss_note_dsm_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_9_code. See ss_note_dsm_diag_9_code for more information.

Column Name: ss_note_icd9_diag_10_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 10'

Column Name: ss_note_icd9_diag_10_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_10_code. See ss_note_icd9_diag_10_code for more information.

Column Name: ss_note_icd9_diag_1_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 1'

Column Name: ss_note_icd9_diag_1_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_1_code`. See `ss_note_icd9_diag_1_code` for more information.

Column Name: `ss_note_icd9_diag_2_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 2'

Column Name: `ss_note_icd9_diag_2_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_2_code`. See `ss_note_icd9_diag_2_code` for more information.

Column Name: `ss_note_icd9_diag_3_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 3'

Column Name: `ss_note_icd9_diag_3_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_3_code`. See `ss_note_icd9_diag_3_code` for more information.

Column Name: `ss_note_icd9_diag_4_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 4'

Column Name: `ss_note_icd9_diag_4_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_4_code`. See `ss_note_icd9_diag_4_code` for more information.

Column Name: `ss_note_icd9_diag_5_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 5'

Column Name: `ss_note_icd9_diag_5_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_5_code`. See `ss_note_icd9_diag_5_code` for more information.

Column Name: `ss_note_icd9_diag_6_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 6'

Column Name: ss_note_icd9_diag_6_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_6_code. See ss_note_icd9_diag_6_code for more information.

Column Name: ss_note_icd9_diag_7_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 7'

Column Name: ss_note_icd9_diag_7_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_7_code. See ss_note_icd9_diag_7_code for more information.

Column Name: ss_note_icd9_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 8'

Column Name: ss_note_icd9_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_8_code. See ss_note_icd9_diag_8_code for more information.

Column Name: ss_note_icd9_diag_9_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 9'

Column Name: ss_note_icd9_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_9_code. See ss_note_icd9_diag_9_code for more information.

Column Name: ss_note_multi_dict_10_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 10'

Column Name: ss_note_multi_dict_10_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_10_code. See ss_note_multi_dict_10_code for more information.

Column Name: ss_note_multi_dict_1_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 1'

Column Name: ss_note_multi_dict_1_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_1_code. See ss_note_multi_dict_1_code for more information.

Column Name: ss_note_multi_dict_2_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 2'

Column Name: ss_note_multi_dict_2_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_2_code. See ss_note_multi_dict_2_code for more information.

Column Name: ss_note_multi_dict_3_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 3'

Column Name: ss_note_multi_dict_3_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_3_code. See ss_note_multi_dict_3_code for more information.

Column Name: ss_note_multi_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 4'

Column Name: ss_note_multi_dict_4_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_4_code. See ss_note_multi_dict_4_code for more information.

Column Name: ss_note_multi_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 5'

Column Name: ss_note_multi_dict_5_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_5_code. See ss_note_multi_dict_5_code for more information.

Column Name: ss_note_multi_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 6'

Column Name: ss_note_multi_dict_6_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_6_code. See ss_note_multi_dict_6_code for more information.

Column Name: ss_note_multi_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 7'

Column Name: ss_note_multi_dict_7_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_7_code. See ss_note_multi_dict_7_code for more information.

Column Name: ss_note_multi_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 8'

Column Name: ss_note_multi_dict_8_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_8_code. See ss_note_multi_dict_8_code for more information.

Column Name: ss_note_multi_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 9'

Column Name: ss_note_multi_dict_9_value

Column Type: varchar

Max Length: 32700

The description associated with `ss_note_multi_dict_9_code`. See `ss_note_multi_dict_9_code` for more information.

Column Name: `ss_note_scroll_text_1`
Column Type: `varchar`
Max Length: 32700
'SS Note Scrolling Text 1'

Column Name: `ss_note_scroll_text_10`
Column Type: `varchar`
Max Length: 32700
'SS Note Scrolling Text 10'

Column Type: `varchar`
Max Length: 32700
'SS Note Scrolling Text 4'

Column Name: `ss_note_scroll_text_5`
Column Type: `varchar`
Max Length: 32700
'SS Note Scrolling Text 5'

Column Name: `ss_note_scroll_text_6`
Column Type: `varchar`
Max Length: 32700
'SS Note Scrolling Text 6'

Column Name: `ss_note_scroll_text_7`
Column Type: `varchar`
Max Length: 32700
'SS Note Scrolling Text 7'

Column Name: `ss_note_scroll_text_8`
Column Type: `varchar`
Max Length: 32700
'SS Note Scrolling Text 8'

Column Name: `ss_note_scroll_text_9`
Column Type: `varchar`

Max Length: 32700
'SS Note Scrolling Text 9'

Column Name: ss_note_sing_dict_10_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 10'

Column Name: ss_note_sing_dict_10_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_10_code. See ss_note_sing_dict_10_code for more information.

Column Name: ss_note_sing_dict_1_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 1'

Column Name: ss_note_sing_dict_1_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_1_code. See ss_note_sing_dict_1_code for more information.

Column Name: ss_note_sing_dict_2_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 2'

Column Name: ss_note_sing_dict_2_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_2_code. See ss_note_sing_dict_2_code for more information.

Column Name: ss_note_sing_dict_3_code
Column Type: varchar
Max Length: 20
'SS Note Single Response Dictionary 3'

Column Name: ss_note_sing_dict_3_value
Column Type: varchar
Max Length: 80
The description associated with ss_note_sing_dict_3_code. See ss_note_sing_dict_3_code for more information.

Column Name: ss_note_sing_dict_4_code
Column Type: varchar
Max Length: 20

'SS Note Single Response Dictionary 4'

Column Name: ss_note_sing_dict_4_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_4_code. See ss_note_sing_dict_4_code for more information.

Column Name: ss_note_sing_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 5'

Column Name: ss_note_sing_dict_5_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_5_code. See ss_note_sing_dict_5_code for more information.

Column Name: ss_note_sing_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 6'

Column Name: ss_note_sing_dict_6_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_6_code. See ss_note_sing_dict_6_code for more information.

Column Name: ss_note_sing_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 7'

Column Name: ss_note_sing_dict_7_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_7_code. See ss_note_sing_dict_7_code for more information.

Column Name: ss_note_sing_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 8'

Column Name: ss_note_sing_dict_8_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_8_code. See ss_note_sing_dict_8_code for more information.

Column Name: ss_note_sing_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 9'

Column Name: ss_note_sing_dict_9_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_9_code. See ss_note_sing_dict_9_code for more information.

Column Name: ss_note_staff_1

Column Type: varchar

Max Length: 20

'SS Note Staff Member 1'

Column Name: ss_note_staff_10

Column Type: varchar

Max Length: 20

'SS Note Staff Member 10'

Column Name: ss_note_staff_2

Column Type: varchar

Max Length: 20

'SS Note Staff Member 2'

Column Name: ss_note_staff_3

Column Type: varchar

Max Length: 20

'SS Note Staff Member 3'

Column Name: ss_note_staff_4

Column Type: varchar

Max Length: 20

'SS Note Staff Member 4'

Column Name: ss_note_staff_5

Column Type: varchar

Max Length: 20

'SS Note Staff Member 5'

Column Name: ss_note_staff_6

Column Type: varchar

Max Length: 20

'SS Note Staff Member 6'

Column Name: ss_note_staff_7

Column Type: varchar
Max Length: 20
'SS Note Staff Member 7'

Column Name: ss_note_staff_8
Column Type: varchar
Max Length: 20
'SS Note Staff Member 8'

Column Name: ss_note_staff_9
Column Type: varchar
Max Length: 20
'SS Note Staff Member 9'

Column Name: ss_note_time_1
Column Type: varchar
Max Length: 10
'SS Note Time 1'

Column Name: ss_note_time_10
Column Type: varchar
Max Length: 10
'SS Note Time 10'

Column Name: ss_note_time_2
Column Type: varchar
Max Length: 10
'SS Note Time 2'

Column Name: ss_note_time_3
Column Type: varchar
Max Length: 10
'SS Note Time 3'

Column Name: ss_note_time_4
Column Type: varchar
Max Length: 10
'SS Note Time 4'

Column Name: ss_note_time_5
Column Type: varchar
Max Length: 10
'SS Note Time 5'

Column Name: ss_note_time_6
Column Type: varchar
Max Length: 10
'SS Note Time 6'

Column Name: ss_note_time_7

Column Type: varchar
Max Length: 10
'SS Note Time 7'

Column Name: ss_note_time_8
Column Type: varchar
Max Length: 10
'SS Note Time 8'

Column Name: ss_note_time_9
Column Type: varchar
Max Length: 10
'SS Note Time 9'

Column Name: transcription_note
Column Type: bit
Is this is Transcription note

Column Name: transition_of_care_code
Column Type: varchar
Max Length: 1
'Is This A Transition Of Care?'

Column Name: transition_of_care_value
Column Type: varchar
Max Length: 80
'The description associated with transition_of_care_code. See transition_of_care_code for more information.'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: SYSTEM.cw_patient_notes_supp

Table Description: This table returns the site specific information stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: confidential_note
Column Type: varchar
Max Length: 50
Whether the note is confidential.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50

The time the row was last updated.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 50

The user ID who last updated the row.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the row.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: notes_field

Column Type: varchar

Max Length: 32700

The contents of the notes field.

Column Name: option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 50

The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_11

Column Type: varchar

Max Length: 20

'SS Note 20 Character Text 11'

Column Name: ss_note_20_char_text_12
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 12'

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_14_code. See ss_note_dsm_diag_14_code for more information.

Column Name: ss_note_dsm_diag_15_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 15'

Column Name: ss_note_dsm_diag_15_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_15_code. See ss_note_dsm_diag_15_code for more information.

Column Name: ss_note_dsm_diag_16_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 16'

Column Name: ss_note_dsm_diag_16_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_16_code. See ss_note_dsm_diag_16_code for more information.

Column Name: ss_note_dsm_diag_17_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 17'

Column Name: ss_note_dsm_diag_17_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_dsm_diag_17_code`. See `ss_note_dsm_diag_17_code` for more information.

Column Name: `ss_note_dsm_diag_18_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 18'

Column Name: `ss_note_dsm_diag_18_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_18_code`. See `ss_note_dsm_diag_18_code` for more information.

Column Name: `ss_note_dsm_diag_19_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 19'

Column Name: `ss_note_dsm_diag_19_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_19_code`. See `ss_note_dsm_diag_19_code` for more information.

Column Name: `ss_note_dsm_diag_20_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 20'

Column Name: `ss_note_dsm_diag_20_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_20_code`. See `ss_note_dsm_diag_20_code` for more information.

Column Name: `ss_note_dsm_diag_21_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 21'

Column Name: `ss_note_dsm_diag_21_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_21_code`. See `ss_note_dsm_diag_21_code` for more information.

Column Name: `ss_note_dsm_diag_22_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 22'

Column Name: ss_note_dsm_diag_22_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_22_code. See ss_note_dsm_diag_22_code for more information.

Column Name: ss_note_dsm_diag_23_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 23'

Column Name: ss_note_dsm_diag_23_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_23_code. See ss_note_dsm_diag_23_code for more information.

Column Name: ss_note_dsm_diag_24_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 24'

Column Name: ss_note_dsm_diag_24_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_24_code. See ss_note_dsm_diag_24_code for more information.

Column Name: ss_note_dsm_diag_25_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 25'

Column Name: ss_note_dsm_diag_25_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_25_code. See ss_note_dsm_diag_25_code for more information.

Column Name: ss_note_dsm_diag_26_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 26'

Column Name: ss_note_dsm_diag_26_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_dsm_diag_26_code`. See `ss_note_dsm_diag_26_code` for more information.

Column Name: `ss_note_dsm_diag_27_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 27'

Column Name: `ss_note_dsm_diag_27_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_27_code`. See `ss_note_dsm_diag_27_code` for more information.

Column Name: `ss_note_dsm_diag_28_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 28'

Column Name: `ss_note_dsm_diag_28_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_28_code`. See `ss_note_dsm_diag_28_code` for more information.

Column Name: `ss_note_dsm_diag_29_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 29'

Column Name: `ss_note_dsm_diag_29_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_29_code`. See `ss_note_dsm_diag_29_code` for more information.

Column Name: `ss_note_dsm_diag_30_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 30'

Column Name: `ss_note_dsm_diag_30_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_30_code`. See `ss_note_dsm_diag_30_code` for more information.

Column Name: `ss_note_icd9_diag_11_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 11'

Column Name: ss_note_icd9_diag_11_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_11_code. See ss_note_icd9_diag_11_code for more information.

Column Name: ss_note_icd9_diag_12_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 12'

Column Name: ss_note_icd9_diag_12_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_12_code. See ss_note_icd9_diag_12_code for more information.

Column Name: ss_note_icd9_diag_13_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 13'

Column Name: ss_note_icd9_diag_13_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_13_code. See ss_note_icd9_diag_13_code for more information.

Column Name: ss_note_icd9_diag_14_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 14'

Column Name: ss_note_icd9_diag_14_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_14_code. See ss_note_icd9_diag_14_code for more information.

Column Name: ss_note_icd9_diag_15_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 15'

Column Name: ss_note_icd9_diag_15_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_15_code`. See `ss_note_icd9_diag_15_code` for more information.

Column Name: `ss_note_icd9_diag_16_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 16'

Column Name: `ss_note_icd9_diag_16_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_16_code`. See `ss_note_icd9_diag_16_code` for more information.

Column Name: `ss_note_icd9_diag_17_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 17'

Column Name: `ss_note_icd9_diag_17_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_17_code`. See `ss_note_icd9_diag_17_code` for more information.

Column Name: `ss_note_icd9_diag_18_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 18'

Column Name: `ss_note_icd9_diag_18_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_18_code`. See `ss_note_icd9_diag_18_code` for more information.

Column Name: `ss_note_icd9_diag_19_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 19'

Column Name: `ss_note_icd9_diag_19_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_19_code`. See `ss_note_icd9_diag_19_code` for more information.

Column Name: `ss_note_icd9_diag_20_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 20'

Column Name: ss_note_icd9_diag_20_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_20_code. See ss_note_icd9_diag_20_code for more information.

Column Name: ss_note_icd9_diag_21_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 21'

Column Name: ss_note_icd9_diag_21_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_21_code. See ss_note_icd9_diag_21_code for more information.

Column Name: ss_note_icd9_diag_22_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 22'

Column Name: ss_note_icd9_diag_22_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_22_code. See ss_note_icd9_diag_22_code for more information.

Column Name: ss_note_icd9_diag_23_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 23'

Column Name: ss_note_icd9_diag_23_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_23_code. See ss_note_icd9_diag_23_code for more information.

Column Name: ss_note_icd9_diag_24_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 24'

Column Name: ss_note_icd9_diag_24_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_24_code`. See `ss_note_icd9_diag_24_code` for more information.

Column Name: `ss_note_icd9_diag_25_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 25'

Column Name: `ss_note_icd9_diag_25_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_25_code`. See `ss_note_icd9_diag_25_code` for more information.

Column Name: `ss_note_icd9_diag_26_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 26'

Column Name: `ss_note_icd9_diag_26_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_26_code`. See `ss_note_icd9_diag_26_code` for more information.

Column Name: `ss_note_icd9_diag_27_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 27'

Column Name: `ss_note_icd9_diag_27_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_27_code`. See `ss_note_icd9_diag_27_code` for more information.

Column Name: `ss_note_icd9_diag_28_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 28'

Column Name: `ss_note_icd9_diag_28_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_28_code`. See `ss_note_icd9_diag_28_code` for more information.

Column Name: `ss_note_icd9_diag_29_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 29'

Column Name: ss_note_icd9_diag_29_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_29_code. See ss_note_icd9_diag_29_code for more information.

Column Name: ss_note_icd9_diag_30_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 30'

Column Name: ss_note_icd9_diag_30_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_30_code. See ss_note_icd9_diag_30_code for more information.

Column Name: ss_note_multi_dict_11_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 11'

Column Name: ss_note_multi_dict_11_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_11_code. See ss_note_multi_dict_11_code for more information.

Column Name: ss_note_multi_dict_12_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 12'

Column Name: ss_note_multi_dict_12_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_12_code. See ss_note_multi_dict_12_code for more information.

Column Name: ss_note_multi_dict_13_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 13'

Column Name: ss_note_multi_dict_13_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_13_code. See ss_note_multi_dict_13_code for more information.

Column Name: ss_note_multi_dict_14_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 14'

Column Name: ss_note_multi_dict_14_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_14_code. See ss_note_multi_dict_14_code for more information.

Column Name: ss_note_multi_dict_15_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 15'

Column Name: ss_note_multi_dict_15_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_15_code. See ss_note_multi_dict_15_code for more information.

Column Name: ss_note_multi_dict_16_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 16'

Column Name: ss_note_multi_dict_16_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_16_code. See ss_note_multi_dict_16_code for more information.

Column Name: ss_note_multi_dict_17_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 17'

Column Name: ss_note_multi_dict_17_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_17_code. See ss_note_multi_dict_17_code for more information.

Column Name: ss_note_multi_dict_18_code
Column Type: varchar
Max Length: 20

'SS Note Copy Multiple Response Dictionary 18'

Column Name: ss_note_multi_dict_18_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_18_code. See ss_note_multi_dict_18_code for more information.

Column Name: ss_note_multi_dict_19_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 19'

Column Name: ss_note_multi_dict_19_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_19_code. See ss_note_multi_dict_19_code for more information.

Column Name: ss_note_multi_dict_20_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 20'

Column Name: ss_note_multi_dict_20_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_20_code. See ss_note_multi_dict_20_code for more information.

Column Name: ss_note_multi_dict_21_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 21'

Column Name: ss_note_multi_dict_21_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_21_code. See ss_note_multi_dict_21_code for more information.

Column Name: ss_note_multi_dict_22_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 22'

Column Name: ss_note_multi_dict_22_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_22_code. See ss_note_multi_dict_22_code for more information.

Column Name: ss_note_multi_dict_23_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 23'

Column Name: ss_note_multi_dict_23_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_23_code. See ss_note_multi_dict_23_code for more information.

Column Name: ss_note_multi_dict_24_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 24'

Column Name: ss_note_multi_dict_24_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_24_code. See ss_note_multi_dict_24_code for more information.

Column Name: ss_note_multi_dict_25_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 25'

Column Name: ss_note_multi_dict_25_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_25_code. See ss_note_multi_dict_25_code for more information.

Column Name: ss_note_multi_dict_26_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 26'

Column Name: ss_note_multi_dict_26_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_26_code. See ss_note_multi_dict_26_code for more information.

Column Name: ss_note_multi_dict_27_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 27'

Column Name: ss_note_multi_dict_27_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_27_code. See ss_note_multi_dict_27_code for more information.

Column Name: ss_note_multi_dict_28_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 28'

Column Name: ss_note_multi_dict_28_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_28_code. See ss_note_multi_dict_28_code for more information.

Column Name: ss_note_multi_dict_29_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 29'

Column Name: ss_note_multi_dict_29_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_29_code. See ss_note_multi_dict_29_code for more information.

Column Name: ss_note_multi_dict_30_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 30'

Column Name: ss_note_multi_dict_30_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_30_code. See ss_note_multi_dict_30_code for more information.

'SS Note Single Response Dictionary 16'

Column Name: ss_note_sing_dict_16_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_16_code. See ss_note_single_dict_16_code for more information.

Column Name: ss_note_sing_dict_17_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 17'

Column Name: ss_note_sing_dict_17_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_17_code. See ss_note_single_dict_17_code for more information.

Column Name: ss_note_sing_dict_18_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 18'

Column Name: ss_note_sing_dict_18_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_18_code. See ss_note_single_dict_18_code for more information.

Column Name: ss_note_sing_dict_19_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 19'

Column Name: ss_note_sing_dict_19_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_19_code. See ss_note_single_dict_19_code for more information.

Column Name: ss_note_sing_dict_20_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 20'

Column Name: ss_note_sing_dict_20_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_20_code. See ss_note_single_dict_20_code for more information.

Column Name: ss_note_sing_dict_21_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 21'

Column Name: ss_note_sing_dict_21_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_21_code. See ss_note_single_dict_21_code for more information.

Column Name: ss_note_sing_dict_22_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 22'

Column Name: ss_note_sing_dict_22_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_22_code. See ss_note_single_dict_22_code for more information.

Column Name: ss_note_sing_dict_23_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 23'

Column Name: ss_note_sing_dict_23_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_23_code. See ss_note_single_dict_23_code for more information.

Column Name: ss_note_sing_dict_24_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 24'

Column Name: ss_note_sing_dict_24_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_24_code. See ss_note_single_dict_24_code for more information.

Column Name: ss_note_sing_dict_25_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 25'

Column Name: ss_note_sing_dict_25_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_25_code. See ss_note_single_dict_25_code for more information.

Column Name: ss_note_sing_dict_26_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 26'

Column Name: ss_note_sing_dict_26_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_26_code. See ss_note_single_dict_26_code for more information.

Column Name: ss_note_sing_dict_27_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 27'

Column Name: ss_note_sing_dict_27_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_27_code. See ss_note_single_dict_27_code for more information.

Column Name: ss_note_sing_dict_28_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 28'

Column Name: ss_note_sing_dict_28_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_28_code. See ss_note_single_dict_28_code for more information.

Column Name: ss_note_sing_dict_29_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 29'

Column Name: ss_note_sing_dict_29_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_29_code. See ss_note_single_dict_29_code for more information.

Column Name: ss_note_sing_dict_30_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 30'

Column Name: ss_note_sing_dict_30_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_30_code. See ss_note_single_dict_30_code for more information.

Column Name: ss_note_time_11

Column Type: varchar

Max Length: 50

'SS Note Time 11'

Column Name: ss_note_time_12

Column Type: varchar

Max Length: 50

'SS Note Time 12'

Column Name: ss_note_time_13

Column Type: varchar

Max Length: 50

'SS Note Time 13'

Column Name: ss_note_time_14

Column Type: varchar

Max Length: 50

'SS Note Time 14'

Column Name: ss_note_time_15

Column Type: varchar

Max Length: 50

'SS Note Time 15'

Column Name: ss_note_time_16

Column Type: varchar

Max Length: 50

'SS Note Time 16'

Column Name: ss_note_time_17

Column Type: varchar

Max Length: 50

'SS Note Time 17'

Column Name: ss_note_time_18

Column Type: varchar
Max Length: 50
'SS Note Time 18'

Column Name: ss_note_time_19
Column Type: varchar
Max Length: 50
'SS Note Time 19'

Column Name: ss_note_time_20
Column Type: varchar
Max Length: 50
'SS Note Time 20'

Column Name: ss_note_time_21
Column Type: varchar
Max Length: 50
'SS Note Time 21'

Column Name: ss_note_time_22
Column Type: varchar
Max Length: 50
'SS Note Time 22'

Column Name: ss_note_time_23
Column Type: varchar
Max Length: 50
'SS Note Time 23'

Column Name: ss_note_time_24
Column Type: varchar
Max Length: 50
'SS Note Time 24'

Column Name: ss_note_time_25
Column Type: varchar
Max Length: 50
'SS Note Time 25'

Column Name: ss_note_time_26
Column Type: varchar
Max Length: 50
'SS Note Time 26'

Column Name: ss_note_time_27
Column Type: varchar
Max Length: 50
'SS Note Time 27'

Column Name: ss_note_time_28

Column Type: varchar
Max Length: 50
'SS Note Time 28'

Column Name: ss_note_time_29
Column Type: varchar
Max Length: 50
'SS Note Time 29'

Column Name: ss_note_time_30
Column Type: varchar
Max Length: 50
'SS Note Time 30'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: SYSTEM.cw_patient_notes_supp_1

Table Description: This table returns the site specific information stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
'Progress Notes Pointer'

Column Name: PATID

Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: confidential_note
Column Type: varchar
Max Length: 50
'Confidential Notes'

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50
The time the row was last updated.

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 50
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: notes_field
Column Type: varchar
Max Length: 32766
'Notes Field'

Column Name: option_desc
Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 50

The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_31

Column Type: varchar

Max Length: 20

'SS Note 20 Character 31'

Column Name: ss_note_20_char_text_32

Column Type: varchar

Max Length: 20

'SS Note 20 Character 32'

Column Name: ss_note_20_char_text_33

Column Type: varchar

Max Length: 20

'SS Note 20 Character 33'

Column Name: ss_note_20_char_text_34

Column Type: varchar

Max Length: 20

'SS Note 20 Character 34'

Column Name: ss_note_20_char_text_35

Column Type: varchar

Max Length: 20

'SS Note 20 Character 35'

Column Name: ss_note_20_char_text_36

Column Type: varchar

Max Length: 20

'SS Note 20 Character 36'

Column Name: ss_note_20_char_text_37

Column Type: varchar

Max Length: 20

'SS Note 20 Character 37'

Column Name: ss_note_20_char_text_38

Column Type: varchar

Max Length: 20

'SS Note 20 Character 38'

Column Name: ss_note_20_char_text_39

Column Type: varchar

Max Length: 20
'SS Note 20 Character 39'

Column Name: ss_note_20_char_text_40
Column Type: varchar
Max Length: 20
'SS Note 20 Character 40'

Column Name: ss_note_20_char_text_41
Column Type: varchar
Max Length: 20
'SS Note 20 Character 41'

Column Name: ss_note_20_char_text_42
Column Type: varchar
Max Length: 20
'SS Note 20 Character 42'

Column Name: ss_note_20_char_text_43
Column Type: varchar
Max Length: 20
'SS Note 20 Character 43'

Column Name: ss_note_20_char_text_44
Column Type: varchar
Max Length: 20
'SS Note 20 Character 44'

Column Name: ss_note_20_char_text_45
Column Type: varchar
Max Length: 20
'SS Note 20 Character 45'

Column Name: ss_note_20_char_text_46
Column Type: varchar
Max Length: 20
'SS Note 20 Character 46'

Column Name: ss_note_20_char_text_47
Column Type: varchar
Max Length: 20
'SS Note 20 Character 47'

Column Name: ss_note_20_char_text_48
Column Type: varchar
Max Length: 20
'SS Note 20 Character 48'

Column Name: ss_note_20_char_text_49
Column Type: varchar

Max Length: 20
'SS Note 20 Character 49'

Column Name: ss_note_20_char_text_50
Column Type: varchar
Max Length: 20
'SS Note 20 Character 50'

Column Name: ss_note_40_char_text_31
Column Type: varchar
Max Length: 40
'SS Note 40 Character 31'

Column Name: ss_note_40_char_text_32
Column Type: varchar
Max Length: 40
'SS Note 40 Character 32'

Column Name: ss_note_40_char_text_33
Column Type: varchar
Max Length: 40
'SS Note 40 Character 33'

Column Name: ss_note_40_char_text_34
Column Type: varchar
Max Length: 40
'SS Note 40 Character 34'

Column Name: ss_note_40_char_text_35
Column Type: varchar
Max Length: 40
'SS Note 40 Character 35'

Column Name: ss_note_40_char_text_36
Column Type: varchar
Max Length: 40
'SS Note 40 Character 36'

Column Name: ss_note_40_char_text_37
Column Type: varchar
Max Length: 40
'SS Note 40 Character 37'

Column Name: ss_note_40_char_text_38
Column Type: varchar
Max Length: 40
'SS Note 40 Character 38'

Column Name: ss_note_40_char_text_39
Column Type: varchar

Max Length: 40
'SS Note 40 Character 39'

Column Name: ss_note_40_char_text_40
Column Type: varchar
Max Length: 40
'SS Note 40 Character 40'

Column Name: ss_note_40_char_text_41
Column Type: varchar
Max Length: 40
'SS Note 40 Character 41'

Column Name: ss_note_40_char_text_42
Column Type: varchar
Max Length: 40
'SS Note 40 Character 42'

Column Name: ss_note_40_char_text_43
Column Type: varchar
Max Length: 40
'SS Note 40 Character 43'

Column Name: ss_note_40_char_text_44
Column Type: varchar
Max Length: 40
'SS Note 40 Character 44'

Column Name: ss_note_40_char_text_45
Column Type: varchar
Max Length: 40
'SS Note 40 Character 45'

Column Name: ss_note_40_char_text_46
Column Type: varchar
Max Length: 40
'SS Note 40 Character 46'

Column Name: ss_note_40_char_text_47
Column Type: varchar
Max Length: 40
'SS Note 40 Character 47'

Column Name: ss_note_40_char_text_48
Column Type: varchar
Max Length: 40
'SS Note 40 Character 48'

Column Name: ss_note_40_char_text_49
Column Type: varchar

Max Length: 40
'SS Note 40 Character 49'

Column Name: ss_note_40_char_text_50
Column Type: varchar
Max Length: 40
'SS Note 40 Character 50'

Column Name: ss_note_80_char_text_31
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 31'

Column Name: ss_note_80_char_text_32
Column Type: varchar
Max Length: 80
'SS Note 80 Character Text 32'

'SS Note Date 49'

Column Name: ss_note_date_50

Column Type: date

'SS Note Date 50'

Column Name: ss_note_dsm_diag_31_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 31'

Column Name: ss_note_dsm_diag_31_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_31_code. See ss_note_dsm_diag_31_code for more information.

Column Name: ss_note_dsm_diag_32_code

Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 32'

Column Name: ss_note_dsm_diag_32_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_32_code. See ss_note_dsm_diag_32_code for more information.

Column Name: ss_note_dsm_diag_33_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 33'

Column Name: ss_note_dsm_diag_33_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_33_code. See ss_note_dsm_diag_33_code for more information.

Column Name: ss_note_dsm_diag_34_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 34'

Column Name: ss_note_dsm_diag_34_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_34_code. See ss_note_dsm_diag_34_code for more information.

Column Name: ss_note_dsm_diag_35_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 35'

Column Name: ss_note_dsm_diag_35_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_35_code. See ss_note_dsm_diag_35_code for more information.

Column Name: ss_note_dsm_diag_36_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 36'

Column Name: ss_note_dsm_diag_36_value
Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_36_code. See ss_note_dsm_diag_36_code for more information.

Column Name: ss_note_dsm_diag_37_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 37'

Column Name: ss_note_dsm_diag_37_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_37_code. See ss_note_dsm_diag_37_code for more information.

Column Name: ss_note_dsm_diag_38_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 38'

Column Name: ss_note_dsm_diag_38_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_38_code. See ss_note_dsm_diag_38_code for more information.

Column Name: ss_note_dsm_diag_39_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 39'

Column Name: ss_note_dsm_diag_39_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_39_code. See ss_note_dsm_diag_39_code for more information.

Column Name: ss_note_dsm_diag_40_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 40'

Column Name: ss_note_dsm_diag_40_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_40_code. See ss_note_dsm_diag_40_code for more information.

Column Name: ss_note_dsm_diag_41_code

Column Type: varchar

Max Length: 20
'SS Note DSM IV Diagnosis 41'

Column Name: ss_note_dsm_diag_41_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_41_code. See ss_note_dsm_diag_41_code for more information.

Column Name: ss_note_dsm_diag_42_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 42'

Column Name: ss_note_dsm_diag_42_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_42_code. See ss_note_dsm_diag_42_code for more information.

Column Name: ss_note_dsm_diag_43_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 43'

Column Name: ss_note_dsm_diag_43_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_43_code. See ss_note_dsm_diag_43_code for more information.

Column Name: ss_note_dsm_diag_44_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 44'

Column Name: ss_note_dsm_diag_44_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_44_code. See ss_note_dsm_diag_44_code for more information.

Column Name: ss_note_dsm_diag_45_code
Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 45'

Column Name: ss_note_dsm_diag_45_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_dsm_diag_45_code`. See `ss_note_dsm_diag_45_code` for more information.

Column Name: `ss_note_dsm_diag_46_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 46'

Column Name: `ss_note_dsm_diag_46_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_46_code`. See `ss_note_dsm_diag_46_code` for more information.

Column Name: `ss_note_dsm_diag_47_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 47'

Column Name: `ss_note_dsm_diag_47_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_47_code`. See `ss_note_dsm_diag_47_code` for more information.

Column Name: `ss_note_dsm_diag_48_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 48'

Column Name: `ss_note_dsm_diag_48_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_48_code`. See `ss_note_dsm_diag_48_code` for more information.

Column Name: `ss_note_dsm_diag_49_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 49'

Column Name: `ss_note_dsm_diag_49_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_49_code`. See `ss_note_dsm_diag_49_code` for more information.

Column Name: `ss_note_dsm_diag_50_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 50'

Column Name: ss_note_dsm_diag_50_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_50_code. See ss_note_dsm_diag_50_code for more information.

Column Name: ss_note_icd9_diag_31_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 31'

Column Name: ss_note_icd9_diag_31_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_31_code. See ss_note_icd9_diag_31_code for more information.

Column Name: ss_note_icd9_diag_32_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 32'

Column Name: ss_note_icd9_diag_32_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_32_code. See ss_note_icd9_diag_32_code for more information.

Column Name: ss_note_icd9_diag_33_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 33'

Column Name: ss_note_icd9_diag_33_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_33_code. See ss_note_icd9_diag_33_code for more information.

Column Name: ss_note_icd9_diag_34_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 34'

Column Name: ss_note_icd9_diag_34_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_34_code`. See `ss_note_icd9_diag_34_code` for more information.

Column Name: `ss_note_icd9_diag_35_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 35'

Column Name: `ss_note_icd9_diag_35_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_35_code`. See `ss_note_icd9_diag_35_code` for more information.

Column Name: `ss_note_icd9_diag_36_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 36'

Column Name: `ss_note_icd9_diag_36_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_36_code`. See `ss_note_icd9_diag_36_code` for more information.

Column Name: `ss_note_icd9_diag_37_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 37'

Column Name: `ss_note_icd9_diag_37_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_37_code`. See `ss_note_icd9_diag_37_code` for more information.

Column Name: `ss_note_icd9_diag_38_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 38'

Column Name: `ss_note_icd9_diag_38_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_38_code`. See `ss_note_icd9_diag_38_code` for more information.

Column Name: `ss_note_icd9_diag_39_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 39'

Column Name: ss_note_icd9_diag_39_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_39_code. See ss_note_icd9_diag_39_code for more information.

Column Name: ss_note_icd9_diag_40_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 40'

Column Name: ss_note_icd9_diag_40_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_40_code. See ss_note_icd9_diag_40_code for more information.

Column Name: ss_note_icd9_diag_41_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 41'

Column Name: ss_note_icd9_diag_41_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_41_code. See ss_note_icd9_diag_41_code for more information.

Column Name: ss_note_icd9_diag_42_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 42'

Column Name: ss_note_icd9_diag_42_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_42_code. See ss_note_icd9_diag_42_code for more information.

Column Name: ss_note_icd9_diag_43_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 43'

Column Name: ss_note_icd9_diag_43_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_43_code`. See `ss_note_icd9_diag_43_code` for more information.

Column Name: `ss_note_icd9_diag_44_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 44'

Column Name: `ss_note_icd9_diag_44_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_44_code`. See `ss_note_icd9_diag_44_code` for more information.

Column Name: `ss_note_icd9_diag_45_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 45'

Column Name: `ss_note_icd9_diag_45_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_45_code`. See `ss_note_icd9_diag_45_code` for more information.

Column Name: `ss_note_icd9_diag_46_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 46'

Column Name: `ss_note_icd9_diag_46_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_46_code`. See `ss_note_icd9_diag_46_code` for more information.

Column Name: `ss_note_icd9_diag_47_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 47'

Column Name: `ss_note_icd9_diag_47_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_47_code`. See `ss_note_icd9_diag_47_code` for more information.

Column Name: `ss_note_icd9_diag_48_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 48'

Column Name: ss_note_icd9_diag_48_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_48_code. See ss_note_icd9_diag_48_code for more information.

Column Name: ss_note_icd9_diag_49_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 49'

Column Name: ss_note_icd9_diag_49_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_49_code. See ss_note_icd9_diag_49_code for more information.

Column Name: ss_note_icd9_diag_50_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 50'

Column Name: ss_note_icd9_diag_50_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_50_code. See ss_note_icd9_diag_50_code for more information.

Column Name: ss_note_integer_1

Column Type: integer

'SS Note Integer 1'

Column Name: ss_note_integer_2

Column Type: integer

'SS Note Integer 2'

Column Name: ss_note_integer_3

Column Type: integer

'SS Note Integer 3'

Column Name: ss_note_integer_4

Column Type: integer

'SS Note Integer 4'

Column Name: ss_note_integer_5

Column Type: integer

'SS Note Integer 5'

Column Name: ss_note_integer_6
Column Type: integer
'SS Note Integer 6'

Column Name: ss_note_multi_dict_31_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 31'

Column Name: ss_note_multi_dict_31_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_31_code. See ss_note_multi_dict_31_code for more information.

Column Name: ss_note_multi_dict_32_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 32'

Column Name: ss_note_multi_dict_32_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_32_code. See ss_note_multi_dict_32_code for more information.

Column Name: ss_note_multi_dict_33_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 33'

Column Name: ss_note_multi_dict_33_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_33_code. See ss_note_multi_dict_33_code for more information.

Column Name: ss_note_multi_dict_34_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 34'

Column Name: ss_note_multi_dict_34_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_34_code. See ss_note_multi_dict_34_code for more information.

Column Name: ss_note_multi_dict_35_code
Column Type: varchar

Max Length: 20
'SS Note Multi Response Dictionary 35'

Column Name: ss_note_multi_dict_35_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_35_code. See ss_note_multi_dict_35_code for more information.

Column Name: ss_note_multi_dict_36_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 36'

Column Name: ss_note_multi_dict_36_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_36_code. See ss_note_multi_dict_36_code for more information.

Column Name: ss_note_multi_dict_37_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 37'

Column Name: ss_note_multi_dict_37_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_37_code. See ss_note_multi_dict_37_code for more information.

Column Name: ss_note_multi_dict_38_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 38'

Column Name: ss_note_multi_dict_38_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_38_code. See ss_note_multi_dict_38_code for more information.

Column Name: ss_note_multi_dict_39_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 39'

Column Name: ss_note_multi_dict_39_value
Column Type: varchar
Max Length: 32700

The description associated with ss_note_multi_dict_39_code. See ss_note_multi_dict_39_code for more information.

Column Name: ss_note_multi_dict_40_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 40'

Column Name: ss_note_multi_dict_40_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_40_code. See ss_note_multi_dict_40_code for more information.

Column Name: ss_note_multi_dict_41_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 41'

Column Name: ss_note_multi_dict_41_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_41_code. See ss_note_multi_dict_41_code for more information.

Column Name: ss_note_multi_dict_42_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 42'

Column Name: ss_note_multi_dict_42_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_42_code. See ss_note_multi_dict_42_code for more information.

Column Name: ss_note_multi_dict_43_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 43'

Column Name: ss_note_multi_dict_43_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_43_code. See ss_note_multi_dict_43_code for more information.

Column Name: ss_note_multi_dict_44_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 44'

Column Name: ss_note_multi_dict_44_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_44_code. See ss_note_multi_dict_44_code for more information.

Column Name: ss_note_multi_dict_45_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 45'

Column Name: ss_note_multi_dict_45_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_45_code. See ss_note_multi_dict_45_code for more information.

Column Name: ss_note_multi_dict_46_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 46'

Column Name: ss_note_multi_dict_46_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_46_code. See ss_note_multi_dict_46_code for more information.

Column Name: ss_note_multi_dict_47_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 47'

Column Name: ss_note_multi_dict_47_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_47_code. See ss_note_multi_dict_47_code for more information.

Column Name: ss_note_multi_dict_48_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 48'

Column Name: ss_note_multi_dict_48_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_48_code. See ss_note_multi_dict_48_code for more information.

Column Name: ss_note_multi_dict_49_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 49'

Column Name: ss_note_multi_dict_49_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_49_code. See ss_note_multi_dict_49_code for more information.

Column Name: ss_note_multi_dict_50_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 50'

Column Name: ss_note_multi_dict_50_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_50_code. See ss_note_multi_dict_50_code for more information.

'SS Note Time 48'

Column Name: ss_note_time_49

Column Type: varchar

Max Length: 50

'SS Note Time 49'

Column Name: ss_note_time_50

Column Type: varchar

Max Length: 50

'SS Note Time 50'

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: SYSTEM.cw_patient_notes_supp_2

Table Description: This table returns the information stored in the 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Progress Notes (Group and Individual)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50

The unique ID associated with the note.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 255

The name of the form that last updated the row.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 40

The user ID who last updated the row.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the row.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_note_integer_10

Column Name: ss_notec_multi_dict_30_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 30'

Column Name: ss_notec_multi_dict_30_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_30_code. See ss_notec_multi_dict_30_code for more information.

Column Name: ss_notec_multi_dict_31_code
Column Type: varchar
Max Length: 255

'SS Note Copy Multiple Response Dictionary 31'

Column Name: ss_notec_multi_dict_31_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_31_code. See ss_notec_multi_dict_31_code for more information.

Column Name: ss_notec_multi_dict_32_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 32'

Column Name: ss_notec_multi_dict_32_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_32_code. See ss_notec_multi_dict_32_code for more information.

Column Name: ss_notec_multi_dict_33_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 33'

Column Name: ss_notec_multi_dict_33_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_33_code. See ss_notec_multi_dict_33_code for more information.

Column Name: ss_notec_multi_dict_34_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 34'

Column Name: ss_notec_multi_dict_34_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_34_code. See ss_notec_multi_dict_34_code for more information.

Column Name: ss_notec_multi_dict_35_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 35'

Column Name: ss_notec_multi_dict_35_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_35_code. See ss_notec_multi_dict_35_code for more information.

Column Name: ss_notec_multi_dict_36_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 36'

Column Name: ss_notec_multi_dict_36_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_36_code. See ss_notec_multi_dict_36_code for more information.

Column Name: ss_notec_multi_dict_37_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 37'

Column Name: ss_notec_multi_dict_37_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_37_code. See ss_notec_multi_dict_37_code for more information.

Column Name: ss_notec_multi_dict_38_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 38'

Column Name: ss_notec_multi_dict_38_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_38_code. See ss_notec_multi_dict_38_code for more information.

Column Name: ss_notec_multi_dict_39_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 39'

Column Name: ss_notec_multi_dict_39_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_39_code. See ss_notec_multi_dict_39_code for more information.

Column Name: ss_notec_multi_dict_3_code
Column Type: varchar
Max Length: 255

'SS Note Copy Multiple Response Dictionary 3'

Column Name: ss_notec_multi_dict_3_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_3_code. See ss_notec_multi_dict_3_code for more information.

Column Name: ss_notec_multi_dict_40_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 40'

Column Name: ss_notec_multi_dict_40_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_40_code. See ss_notec_multi_dict_40_code for more information.

Column Name: ss_notec_multi_dict_41_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 41'

Column Name: ss_notec_multi_dict_41_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_41_code. See ss_notec_multi_dict_41_code for more information.

Column Name: ss_notec_multi_dict_42_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 42'

Column Name: ss_notec_multi_dict_42_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_42_code. See ss_notec_multi_dict_42_code for more information.

Column Name: ss_notec_multi_dict_43_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 43'

Column Name: ss_notec_multi_dict_43_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_43_code. See ss_notec_multi_dict_43_code for more information.

Column Name: ss_notec_multi_dict_44_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 44'

Column Name: ss_notec_multi_dict_44_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_44_code. See ss_notec_multi_dict_44_code for more information.

Column Name: ss_notec_multi_dict_45_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 45'

Column Name: ss_notec_multi_dict_45_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_45_code. See ss_notec_multi_dict_45_code for more information.

Column Name: ss_notec_multi_dict_46_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 46'

Column Name: ss_notec_multi_dict_46_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_46_code. See ss_notec_multi_dict_46_code for more information.

Column Name: ss_notec_multi_dict_47_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 47'

Column Name: ss_notec_multi_dict_47_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_47_code. See ss_notec_multi_dict_47_code for more information.

Column Name: ss_notec_multi_dict_48_code
Column Type: varchar
Max Length: 255

'SS Note Copy Multiple Response Dictionary 48'

Column Name: ss_notec_multi_dict_48_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_48_code. See ss_notec_multi_dict_48_code for more information.

Column Name: ss_notec_multi_dict_49_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 49'

Column Name: ss_notec_multi_dict_49_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_49_code. See ss_notec_multi_dict_49_code for more information.

Column Name: ss_notec_multi_dict_4_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 4'

Column Name: ss_notec_multi_dict_4_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_4_code. See ss_notec_multi_dict_4_code for more information.

Column Name: ss_notec_multi_dict_50_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 50'

Column Name: ss_notec_multi_dict_50_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_50_code. See ss_notec_multi_dict_50_code for more information.

Column Name: ss_notec_multi_dict_5_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 5'

Column Name: ss_notec_multi_dict_5_value

Column Type: varchar

Max Length: 32759

The description associated with `ss_notec_multi_dict_5_code`. See `ss_notec_multi_dict_5_code` for more information.

Column Name: `ss_notec_multi_dict_6_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 6'

Column Name: `ss_notec_multi_dict_6_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_6_code`. See `ss_notec_multi_dict_6_code` for more information.

Column Name: `ss_notec_multi_dict_7_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 7'

Column Name: `ss_notec_multi_dict_7_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_7_code`. See `ss_notec_multi_dict_7_code` for more information.

Column Name: `ss_notec_multi_dict_8_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 8'

Column Name: `ss_notec_multi_dict_8_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_8_code`. See `ss_notec_multi_dict_8_code` for more information.

Column Name: `ss_notec_multi_dict_9_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 9'

Column Name: `ss_notec_multi_dict_9_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_9_code`. See `ss_notec_multi_dict_9_code` for more information.

Column Name: `ss_notec_sing_dict_10_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Single Response Dictionary 10'

Column Name: ss_notec_sing_dict_10_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_10_code. See ss_notec_sing_dict_10_code for more information.

Column Name: ss_notec_sing_dict_11_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 11'

Column Name: ss_notec_sing_dict_11_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_11_code. See ss_notec_sing_dict_11_code for more information.

Column Name: ss_notec_sing_dict_12_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 12'

Column Name: ss_notec_sing_dict_12_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_12_code. See ss_notec_sing_dict_12_code for more information.

Column Name: ss_notec_sing_dict_13_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 13'

Column Name: ss_notec_sing_dict_13_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_13_code. See ss_notec_sing_dict_13_code for more information.

Column Name: ss_notec_sing_dict_14_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 14'

Column Name: ss_notec_sing_dict_14_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_14_code. See ss_notec_sing_dict_14_code for more information.

Column Name: ss_notec_sing_dict_15_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 15'

Column Name: ss_notec_sing_dict_15_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_15_code. See ss_notec_sing_dict_15_code for more information.

Column Name: ss_notec_sing_dict_16_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 16'

Column Name: ss_notec_sing_dict_16_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_16_code. See ss_notec_sing_dict_16_code for more information.

Column Name: ss_notec_sing_dict_17_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 17'

Column Name: ss_notec_sing_dict_17_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_17_code. See ss_notec_sing_dict_17_code for more information.

Column Name: ss_notec_sing_dict_18_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 18'

Column Name: ss_notec_sing_dict_18_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_18_code. See ss_notec_sing_dict_18_code for more information.

Column Name: ss_notec_sing_dict_19_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 19'

Column Name: ss_notec_sing_dict_19_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_19_code. See ss_notec_sing_dict_19_code for more information.

Column Name: ss_notec_sing_dict_1_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 1'

Column Name: ss_notec_sing_dict_1_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_1_code. See ss_notec_sing_dict_1_code for more information.

Column Name: ss_notec_sing_dict_20_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 20'

Column Name: ss_notec_sing_dict_20_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_20_code. See ss_notec_sing_dict_20_code for more information.

Column Name: ss_notec_sing_dict_21_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 21'

Column Name: ss_notec_sing_dict_21_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_21_code. See ss_notec_sing_dict_21_code for more information.

Column Name: ss_notec_sing_dict_22_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 22'

Column Name: ss_notec_sing_dict_22_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_22_code. See ss_notec_sing_dict_22_code for more information.

Column Name: ss_notec_sing_dict_23_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 23'

Column Name: ss_notec_sing_dict_23_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_23_code. See ss_notec_sing_dict_23_code for more information.

Column Name: ss_notec_sing_dict_24_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 24'

Column Name: ss_notec_sing_dict_24_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_24_code. See ss_notec_sing_dict_24_code for more information.

Column Name: ss_notec_sing_dict_25_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 25'

Column Name: ss_notec_sing_dict_25_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_25_code. See ss_notec_sing_dict_25_code for more information.

Column Name: ss_notec_sing_dict_26_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 26'

Column Name: ss_notec_sing_dict_26_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_26_code. See ss_notec_sing_dict_26_code for more information.

Column Name: ss_notec_sing_dict_27_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 27'

Column Name: ss_notec_sing_dict_27_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_27_code. See ss_notec_sing_dict_27_code for more information.

Column Name: ss_notec_sing_dict_28_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 28'

Column Name: ss_notec_sing_dict_28_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_28_code. See ss_notec_sing_dict_28_code for more information.

Column Name: ss_notec_sing_dict_29_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 29'

Column Name: ss_notec_sing_dict_29_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_29_code. See ss_notec_sing_dict_29_code for more information.

Column Name: ss_notec_sing_dict_2_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 2'

Column Name: ss_notec_sing_dict_2_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_2_code. See ss_notec_sing_dict_2_code for more information.

Column Name: ss_notec_sing_dict_30_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 48'

Column Name: ss_notec_sing_dict_48_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_48_code. See ss_notec_sing_dict_48_code for more information.

Column Name: ss_notec_sing_dict_49_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 49'

Column Name: ss_notec_sing_dict_49_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_49_code. See ss_notec_sing_dict_49_code for more information.

Column Name: ss_notec_sing_dict_4_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 4'

Column Name: ss_notec_sing_dict_4_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_4_code. See ss_notec_sing_dict_4_code for more information.

Column Name: ss_notec_sing_dict_50_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 50'

Column Name: ss_notec_sing_dict_50_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_50_code. See ss_notec_sing_dict_50_code for more information.

Column Name: ss_notec_sing_dict_5_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 5'

Column Name: ss_notec_sing_dict_5_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_5_code. See ss_notec_sing_dict_5_code for more information.

Column Name: ss_notec_sing_dict_6_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 6'

Column Name: ss_notec_sing_dict_6_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_6_code. See ss_notec_sing_dict_6_code for more information.

Column Name: ss_notec_sing_dict_7_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 7'

Column Name: ss_notec_sing_dict_7_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_7_code. See ss_notec_sing_dict_7_code for more information.

Column Name: ss_notec_sing_dict_8_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 8'

Column Name: ss_notec_sing_dict_8_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_8_code. See ss_notec_sing_dict_8_code for more information.

Column Name: ss_notec_sing_dict_9_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 9'

Column Name: ss_notec_sing_dict_9_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_9_code. See ss_notec_sing_dict_9_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: SYSTEM.cw_patient_notes_supp_4

Table Description: This table returns the site specific information stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the service.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: NOT_uniqueid

Column Type: varchar

Max Length: 50

Unique ID for a progress note.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 255

The name of the form that last updated the row.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 40

The user ID who last updated the service.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the service.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: form_number

Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notc_mult_dic_51_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 51'

Column Name: ss_notc_mult_dic_51_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_51_code. See ss_notc_mult_dic_51_code for more information.

Column Name: ss_notc_mult_dic_52_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 52'

Column Name: ss_notc_mult_dic_52_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_52_code. See ss_notc_mult_dic_52_code for more information.

Column Name: ss_notc_mult_dic_53_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 53'

Column Name: ss_notc_mult_dic_53_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_53_code. See ss_notc_mult_dic_53_code for more information.

Column Name: ss_notc_mult_dic_54_code
Column Type: varchar
Max Length: 50

'SS Note Copy Multiple Response Dictionary 54'

Column Name: ss_notc_mult_dic_54_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_54_code. See ss_notc_mult_dic_54_code for more information.

Column Name: ss_notc_mult_dic_55_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 55'

Column Name: ss_notc_mult_dic_55_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_55_code. See ss_notc_mult_dic_55_code for more information.

Column Name: ss_notc_mult_dic_56_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 56'

Column Name: ss_notc_mult_dic_56_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_56_code. See ss_notc_mult_dic_56_code for more information.

Column Name: ss_notc_mult_dic_57_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 57'

Column Name: ss_notc_mult_dic_57_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_57_code. See ss_notc_mult_dic_57_code for more information.

Column Name: ss_notc_mult_dic_58_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 58'

Column Name: ss_notc_mult_dic_58_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mult_dic_58_code`. See `ss_notc_mult_dic_58_code` for more information.

Column Name: `ss_notc_mult_dic_59_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 59'

Column Name: `ss_notc_mult_dic_59_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_59_code`. See `ss_notc_mult_dic_59_code` for more information.

Column Name: `ss_notc_mult_dic_60_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 60'

Column Name: `ss_notc_mult_dic_60_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_60_code`. See `ss_notc_mult_dic_60_code` for more information.

Column Name: `ss_notc_mult_dic_61_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 61'

Column Name: `ss_notc_mult_dic_61_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_61_code`. See `ss_notc_mult_dic_61_code` for more information.

Column Name: `ss_notc_mult_dic_62_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 62'

Column Name: `ss_notc_mult_dic_62_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_62_code`. See `ss_notc_mult_dic_62_code` for more information.

Column Name: `ss_notc_mult_dic_63_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Multiple Response Dictionary 63'

Column Name: ss_notc_mult_dic_63_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_63_code. See ss_notc_mult_dic_63_code for more information.

Column Name: ss_notc_mult_dic_64_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 64'

Column Name: ss_notc_mult_dic_64_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_64_code. See ss_notc_mult_dic_64_code for more information.

Column Name: ss_notc_mult_dic_65_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 65'

Column Name: ss_notc_mult_dic_65_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_mult_dic_65_code. See ss_notc_mult_dic_65_code for more information.

Column Name: ss_notc_mult_dic_66_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 66'

Column Name: ss_notc_mult_dic_66_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_66_code. See ss_notc_mult_dic_66_code for more information.

Column Name: ss_notc_mult_dic_67_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 67'

Column Name: ss_notc_mult_dic_67_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mult_dic_67_code`. See `ss_notc_mult_dic_67_code` for more information.

Column Name: `ss_notc_mult_dic_68_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 68'

Column Name: `ss_notc_mult_dic_68_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_68_code`. See `ss_notc_mult_dic_68_code` for more information.

Column Name: `ss_notc_mult_dic_69_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 69'

Column Name: `ss_notc_mult_dic_69_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_69_code`. See `ss_notc_mult_dic_69_code` for more information.

Column Name: `ss_notc_mult_dic_70_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 70'

Column Name: `ss_notc_mult_dic_70_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_70_code`. See `ss_notc_mult_dic_70_code` for more information.

Column Name: `ss_notc_mult_dic_71_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 71'

Column Name: `ss_notc_mult_dic_71_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_71_code`. See `ss_notc_mult_dic_71_code` for more information.

Column Name: `ss_notc_mult_dic_72_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Multiple Response Dictionary 72'

Column Name: ss_notc_mult_dic_72_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_72_code. See ss_notc_mult_dic_72_code for more information.

Column Name: ss_notc_mult_dic_73_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 73'

Column Name: ss_notc_mult_dic_73_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_73_code. See ss_notc_mult_dic_73_code for more information.

Column Name: ss_notc_mult_dic_74_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 74'

Column Name: ss_notc_mult_dic_74_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_74_code. See ss_notc_mult_dic_74_code for more information.

Column Name: ss_notc_mult_dic_75_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 75'

Column Name: ss_notc_mult_dic_75_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_mult_dic_75_code. See ss_notc_mult_dic_75_code for more information.

Column Name: ss_notc_mult_dic_76_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 76'

Column Name: ss_notc_mult_dic_76_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mult_dic_76_code`. See `ss_notc_mult_dic_76_code` for more information.

Column Name: `ss_notc_mult_dic_77_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 77'

Column Name: `ss_notc_mult_dic_77_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_77_code`. See `ss_notc_mult_dic_77_code` for more information.

Column Name: `ss_notc_mult_dic_78_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 78'

Column Name: `ss_notc_mult_dic_78_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_78_code`. See `ss_notc_mult_dic_78_code` for more information.

Column Name: `ss_notc_mult_dic_79_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 79'

Column Name: `ss_notc_mult_dic_79_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_79_code`. See `ss_notc_mult_dic_79_code` for more information.

Column Name: `ss_notc_mult_dic_80_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 80'

Column Name: `ss_notc_mult_dic_80_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_80_code`. See `ss_notc_mult_dic_80_code` for more information.

Column Name: `ss_notc_sin_dic_51_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Single Response Dictionary 51'

Column Name: ss_notc_sin_dic_51_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_51_code. See ss_notc_sin_dic_51_code for more information.

Column Name: ss_notc_sin_dic_52_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 52'

Column Name: ss_notc_sin_dic_52_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_52_code. See ss_notc_sin_dic_52_code for more information.

Column Name: ss_notc_sin_dic_53_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 53'

Column Name: ss_notc_sin_dic_53_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_53_code. See ss_notc_sin_dic_53_code for more information.

Column Name: ss_notc_sin_dic_54_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 54'

Column Name: ss_notc_sin_dic_54_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_54_code. See ss_notc_sin_dic_54_code for more information.

Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_74_code. See ss_notc_sin_dic_74_code for more information.

Column Name: ss_notc_sin_dic_75_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 75'

Column Name: ss_notc_sin_dic_75_value
Column Type: varchar
Max Length: 275
The description associated with ss_notc_sin_dic_75_code. See ss_notc_sin_dic_75_code for more information.

Column Name: ss_notc_sin_dic_76_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 76'

Column Name: ss_notc_sin_dic_76_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_76_code. See ss_notc_sin_dic_76_code for more information.

Column Name: ss_notc_sin_dic_77_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 77'

Column Name: ss_notc_sin_dic_77_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_77_code. See ss_notc_sin_dic_77_code for more information.

Column Name: ss_notc_sin_dic_78_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 78'

Column Name: ss_notc_sin_dic_78_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_78_code. See ss_notc_sin_dic_78_code for more information.

Column Name: ss_notc_sin_dic_79_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 79'

Column Name: ss_notc_sin_dic_79_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_79_code. See ss_notc_sin_dic_79_code for more information.

Column Name: ss_notc_sin_dic_80_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 80'

Column Name: ss_notc_sin_dic_80_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_80_code. See ss_notc_sin_dic_80_code for more information.

Column Name: ss_note_mul_dict_51_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 51'

Column Name: ss_note_mul_dict_51_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_51_code limited to 255 characters. See ss_note_mul_dict_51_code for more information.

Column Name: ss_note_mul_dict_51_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_51_code. See ss_note_mul_dict_51_code for more information.

Column Name: ss_note_mul_dict_52_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 52'

Column Name: ss_note_mul_dict_52_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_52_code limited to 255 characters. See ss_note_mul_dict_52_code for more information.

Column Name: ss_note_mul_dict_52_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_52_code. See ss_note_mul_dict_52_code for more information.

Column Name: ss_note_mul_dict_53_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 53'

Column Name: ss_note_mul_dict_53_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_53_code limited to 255 characters. See ss_note_mul_dict_53_code for more information.

Column Name: ss_note_mul_dict_53_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_53_code. See ss_note_mul_dict_53_code for more information.

Column Name: ss_note_mul_dict_54_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 54'

Column Name: ss_note_mul_dict_54_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_54_code limited to 255 characters. See ss_note_mul_dict_54_code for more information.

Column Name: ss_note_mul_dict_54_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_54_code. See ss_note_mul_dict_54_code for more information.

Column Name: ss_note_mul_dict_55_code

Column Type: varchar

Max Length: 20
'SS Note Multi Response Dictionary 55'

Column Name: ss_note_mul_dict_55_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_55_code limited to 255 characters. See ss_note_mul_dict_55_code for more information.

Column Name: ss_note_mul_dict_55_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_55_code. See ss_note_mul_dict_55_code for more information.

Column Name: ss_note_mul_dict_56_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 56'

Column Name: ss_note_mul_dict_56_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_56_code limited to 255 characters. See ss_note_mul_dict_56_code for more information.

Column Name: ss_note_mul_dict_56_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_56_code. See ss_note_mul_dict_56_code for more information.

Column Name: ss_note_mul_dict_57_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 57'

Column Name: ss_note_mul_dict_57_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_57_code limited to 255 characters. See ss_note_mul_dict_57_code for more information.

Column Name: ss_note_mul_dict_57_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_57_code. See ss_note_mul_dict_57_code for more information.

Column Name: ss_note_mul_dict_58_code

Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 58'

Column Name: ss_note_mul_dict_58_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_58_code limited to 255 characters. See ss_note_mul_dict_58_code for more information.

Column Name: ss_note_mul_dict_58_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_58_code. See ss_note_mul_dict_58_code for more information.

Column Name: ss_note_mul_dict_59_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 59'

Column Name: ss_note_mul_dict_59_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_59_code limited to 255 characters. See ss_note_mul_dict_59_code for more information.

Column Name: ss_note_mul_dict_59_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_59_code. See ss_note_mul_dict_59_code for more information.

Column Name: ss_note_mul_dict_60_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 60'

Column Name: ss_note_mul_dict_60_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_60_code limited to 255 characters. See ss_note_mul_dict_60_code for more information.

Column Name: ss_note_mul_dict_60_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_60_code. See ss_note_mul_dict_60_code for more information.

Column Name: ss_note_mul_dict_61_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 61'

Column Name: ss_note_mul_dict_61_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_61_code limited to 255 characters. See ss_note_mul_dict_61_code for more information.

Column Name: ss_note_mul_dict_61_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_61_code. See ss_note_mul_dict_61_code for more information.

Column Name: ss_note_mul_dict_62_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 62'

Column Name: ss_note_mul_dict_62_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_62_code limited to 255 characters. See ss_note_mul_dict_62_code for more information.

Column Name: ss_note_mul_dict_62_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_62_code. See ss_note_mul_dict_62_code for more information.

Column Name: ss_note_mul_dict_63_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 63'

Column Name: ss_note_mul_dict_63_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_63_code limited to 255 characters. See ss_note_mul_dict_63_code for more information.

Column Name: ss_note_mul_dict_63_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_63_code. See ss_note_mul_dict_63_code for more information.

Column Name: ss_note_mul_dict_64_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 64'

Column Name: ss_note_mul_dict_64_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_64_code limited to 255 characters. See ss_note_mul_dict_64_code for more information.

Column Name: ss_note_mul_dict_64_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_64_code. See ss_note_mul_dict_64_code for more information.

Column Name: ss_note_mul_dict_65_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 65'

Column Name: ss_note_mul_dict_65_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_65_code limited to 255 characters. See ss_note_mul_dict_65_code for more information.

Column Name: ss_note_mul_dict_65_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_65_code. See ss_note_mul_dict_65_code for more information.

Column Name: ss_note_mul_dict_66_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 66'

Column Name: ss_note_mul_dict_66_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_66_code limited to 255 characters. See ss_note_mul_dict_66_code for more information.

Column Name: ss_note_mul_dict_66_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_66_code. See ss_note_mul_dict_66_code for more information.

Column Name: ss_note_mul_dict_67_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 67'

Column Name: ss_note_mul_dict_67_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_67_code limited to 255 characters. See ss_note_mul_dict_67_code for more information.

Column Name: ss_note_mul_dict_67_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_67_code. See ss_note_mul_dict_67_code for more information.

Column Name: ss_note_mul_dict_68_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 68'

Column Name: ss_note_mul_dict_68_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_68_code limited to 255 characters. See ss_note_mul_dict_68_code for more information.

Column Name: ss_note_mul_dict_68_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_68_code. See ss_note_mul_dict_68_code for more information.

Column Name: ss_note_mul_dict_69_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 69'

Column Name: ss_note_mul_dict_69_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_69_code limited to 255 characters. See ss_note_mul_dict_69_code for more information.

Column Name: ss_note_mul_dict_69_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_69_code. See ss_note_mul_dict_69_code for more information.

Column Name: ss_note_mul_dict_70_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 70'

Column Name: ss_note_mul_dict_70_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_70_code limited to 255 characters. See ss_note_mul_dict_70_code for more information.

Column Name: ss_note_mul_dict_70_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_70_code. See ss_note_mul_dict_70_code for more information.

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_54_code. See ss_note_sin_dict_54_code for more information.

Column Name: ss_note_sin_dict_55_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 55'

Column Name: ss_note_sin_dict_55_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_55_code. See ss_note_sin_dict_55_code for more information.

Column Name: ss_note_sin_dict_56_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 56'

Column Name: ss_note_sin_dict_56_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_56_code. See ss_note_sin_dict_56_code for more information.

Column Name: ss_note_sin_dict_57_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 57'

Column Name: ss_note_sin_dict_57_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_57_code. See ss_note_sin_dict_57_code for more information.

Column Name: ss_note_sin_dict_58_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 58'

Column Name: ss_note_sin_dict_58_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_58_code. See ss_note_sin_dict_58_code for more information.

Column Name: ss_note_sin_dict_59_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 59'

Column Name: ss_note_sin_dict_59_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_59_code. See ss_note_sin_dict_59_code for more information.

Column Name: ss_note_sin_dict_60_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 60'

Column Name: ss_note_sin_dict_60_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_60_code. See ss_note_sin_dict_60_code for more information.

Column Name: ss_note_sin_dict_61_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 61'

Column Name: ss_note_sin_dict_61_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_61_code. See ss_note_sin_dict_61_code for more information.

Column Name: ss_note_sin_dict_62_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 62'

Column Name: ss_note_sin_dict_62_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_62_code. See ss_note_sin_dict_62_code for more information.

Column Name: ss_note_sin_dict_63_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 63'

Column Name: ss_note_sin_dict_63_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_63_code. See ss_note_sin_dict_63_code for more information.

Column Name: ss_note_sin_dict_64_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 64'

Column Name: ss_note_sin_dict_64_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_64_code. See ss_note_sin_dict_64_code for more information.

Column Name: ss_note_sin_dict_65_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 65'

Column Name: ss_note_sin_dict_65_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_65_code. See ss_note_sin_dict_65_code for more information.

Column Name: ss_note_sin_dict_66_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 66'

Column Name: ss_note_sin_dict_66_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_66_code. See ss_note_sin_dict_66_code for more information.

Column Name: ss_note_sin_dict_67_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 67'

Column Name: ss_note_sin_dict_67_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_67_code. See ss_note_sin_dict_67_code for more information.

Column Name: ss_note_sin_dict_68_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 68'

Column Name: ss_note_sin_dict_68_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_68_code. See ss_note_sin_dict_68_code for more information.

Column Name: ss_note_sin_dict_69_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 69'

Column Name: ss_note_sin_dict_69_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_69_code. See ss_note_sin_dict_69_code for more information.

Column Name: ss_note_sin_dict_70_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 70'

Column Name: ss_note_sin_dict_70_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_70_code. See ss_note_sin_dict_70_code for more information.

Column Name: ss_note_sin_dict_71_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 71'

Column Name: ss_note_sin_dict_71_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_71_code. See ss_note_sin_dict_71_code for more information.

Column Name: ss_note_sin_dict_72_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 72'

Column Name: ss_note_sin_dict_72_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_72_code. See ss_note_sin_dict_72_code for more information.

Column Name: ss_note_sin_dict_73_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 73'

Column Name: ss_note_sin_dict_73_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_73_code. See ss_note_sin_dict_73_code for more information.

Column Name: ss_note_sin_dict_74_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 74'

Column Name: ss_note_sin_dict_74_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_74_code. See ss_note_sin_dict_74_code for more information.

Column Name: ss_note_sin_dict_75_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 75'

Column Name: ss_note_sin_dict_75_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_75_code. See ss_note_sin_dict_75_code for more information.

Column Name: ss_note_sin_dict_76_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 76'

Column Name: ss_note_sin_dict_76_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_76_code. See ss_note_sin_dict_76_code for more information.

Column Name: ss_note_sin_dict_77_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 77'

Column Name: ss_note_sin_dict_77_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_77_code. See ss_note_sin_dict_77_code for more information.

Column Name: ss_note_sin_dict_78_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 78'

Column Name: ss_note_sin_dict_78_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_78_code. See ss_note_sin_dict_78_code for more information.

Column Name: ss_note_sin_dict_79_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 79'

Column Name: ss_note_sin_dict_79_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_79_code. See ss_note_sin_dict_79_code for more information.

Column Name: ss_note_sin_dict_80_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 80'

Column Name: ss_note_sin_dict_80_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_80_code. See ss_note_sin_dict_80_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: SYSTEM.cw_patient_notes_supp_5

Table Description: This table returns the site specific information stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 40

The user ID who last updated the service.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the service.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: ebp_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practices'

Column Name: ebp_element_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practice Elements'

Column Name: ebp_element_value

Column Type: varchar

Max Length: 32000

The description associated with ebp_element_code

Column Name: ebp_value

Column Type: varchar

Max Length: 32000

The description associated with ebp_code

Column Name: form_number

Column Type: varchar

Max Length: 50

'Form Number'

Column Name: option_desc

Column Type: varchar

Max Length: 81

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: ss_notc_mul_dic_100_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 100'

Column Name: ss_notc_mul_dic_100_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_100_code. See ss_notc_mul_dic_100_code for more information.

Column Name: ss_notc_mul_dic_101_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 101'

Column Name: ss_notc_mul_dic_101_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_101_code. See ss_notc_mul_dic_101_code for more information.

Column Name: ss_notc_mul_dic_102_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 102'

Column Name: ss_notc_mul_dic_102_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_102_code. See ss_notc_mul_dic_102_code for more information.

Column Name: ss_notc_mul_dic_103_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 103'

Column Name: ss_notc_mul_dic_103_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_103_code. See ss_notc_mul_dic_103_code for more information.

Column Name: ss_notc_mul_dic_104_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 104'

Column Name: ss_notc_mul_dic_104_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_104_code. See ss_notc_mul_dic_104_code for more information.

Column Name: ss_notc_mul_dic_105_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 105'

Column Name: ss_notc_mul_dic_105_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_mul_dic_105_code. See ss_notc_mul_dic_105_code for more information.

Column Name: ss_notc_mul_dic_106_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 106'

Column Name: ss_notc_mul_dic_106_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_106_code. See ss_notc_mul_dic_106_code for more information.

Column Name: ss_notc_mul_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 107'

Column Name: ss_notc_mul_dic_107_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_107_code. See ss_notc_mul_dic_107_code for more information.

Column Name: ss_notc_mul_dic_108_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 108'

Column Name: ss_notc_mul_dic_108_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_108_code. See ss_notc_mul_dic_108_code for more information.

Column Name: ss_notc_mul_dic_109_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 109'

Column Name: ss_notc_mul_dic_109_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_109_code. See ss_notc_mul_dic_109_code for more information.

Column Name: ss_notc_mul_dic_110_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 110'

Column Name: ss_notc_mul_dic_110_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_110_code. See ss_notc_mul_dic_110_code for more information.

Column Name: ss_notc_mul_dic_81_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 81'

Column Name: ss_notc_mul_dic_81_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_81_code. See ss_notc_mul_dic_81_code for more information.

Column Name: ss_notc_mul_dic_82_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 82'

Column Name: ss_notc_mul_dic_82_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_82_code. See ss_notc_mul_dic_82_code for more information.

Column Name: ss_notc_mul_dic_83_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 83'

Column Name: ss_notc_mul_dic_83_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_83_code. See ss_notc_mul_dic_83_code for more information.

Column Name: ss_notc_mul_dic_84_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 84'

Column Name: ss_notc_mul_dic_84_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_84_code. See ss_notc_mul_dic_84_code for more information.

Column Name: ss_notc_mul_dic_85_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 85'

Column Name: ss_notc_mul_dic_85_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_85_code. See ss_notc_mul_dic_85_code for more information.

Column Name: ss_notc_mul_dic_86_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 86'

Column Name: ss_notc_mul_dic_86_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_86_code. See ss_notc_mul_dic_86_code for more information.

Column Name: ss_notc_mul_dic_87_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 87'

Column Name: ss_notc_mul_dic_87_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_87_code. See ss_notc_mul_dic_87_code for more information.

Column Name: ss_notc_mul_dic_88_code

Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 88'

Column Name: ss_notc_mul_dic_88_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_88_code. See ss_notc_mul_dic_88_code for more information.

Column Name: ss_notc_mul_dic_89_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 89'

Column Name: ss_notc_mul_dic_89_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_89_code. See ss_notc_mul_dic_89_code for more information.

Column Name: ss_notc_mul_dic_90_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 90'

Column Name: ss_notc_mul_dic_90_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_90_code. See ss_notc_mul_dic_90_code for more information.

Column Name: ss_notc_mul_dic_91_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 91'

Column Name: ss_notc_mul_dic_91_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_91_code. See ss_notc_mul_dic_91_code for more information.

Column Name: ss_notc_mul_dic_92_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 92'

Column Name: ss_notc_mul_dic_92_value
Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_92_code. See ss_notc_mul_dic_92_code for more information.

Column Name: ss_notc_mul_dic_93_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 93'

Column Name: ss_notc_mul_dic_93_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_93_code. See ss_notc_mul_dic_93_code for more information.

Column Name: ss_notc_mul_dic_94_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 94'

Column Name: ss_notc_mul_dic_94_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_94_code. See ss_notc_mul_dic_94_code for more information.

Column Name: ss_notc_mul_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 95'

Column Name: ss_notc_mul_dic_95_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_mul_dic_95_code. See ss_notc_mul_dic_95_code for more information.

Column Name: ss_notc_mul_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 96'

Column Name: ss_notc_mul_dic_96_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_96_code. See ss_notc_mul_dic_96_code for more information.

Column Name: ss_notc_mul_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 97'

Column Name: ss_notc_mul_dic_97_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_97_code. See ss_notc_mul_dic_97_code for more information.

Column Name: ss_notc_mul_dic_98_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 98'

Column Name: ss_notc_mul_dic_98_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_98_code. See ss_notc_mul_dic_98_code for more information.

Column Name: ss_notc_mul_dic_99_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 99'

Column Name: ss_notc_mul_dic_99_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_99_code. See ss_notc_mul_dic_99_code for more information.

Column Name: ss_notc_sin_dic_100_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 100'

Column Name: ss_notc_sin_dic_100_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_100_code. See ss_notc_sin_dic_100_code for more information.

Column Name: ss_notc_sin_dic_101_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 101'

Column Name: ss_notc_sin_dic_101_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_101_code. See ss_notc_sin_dic_101_code for more information.

Column Name: ss_notc_sin_dic_102_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 102'

Column Name: ss_notc_sin_dic_102_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_102_code. See ss_notc_sin_dic_102_code for more information.

Column Name: ss_notc_sin_dic_103_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 103'

Column Name: ss_notc_sin_dic_103_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_103_code. See ss_notc_sin_dic_103_code for more information.

Column Name: ss_notc_sin_dic_104_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 104'

Column Name: ss_notc_sin_dic_104_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_104_code. See ss_notc_sin_dic_104_code for more information.

Column Name: ss_notc_sin_dic_105_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 105'

Column Name: ss_notc_sin_dic_105_value
Column Type: varchar
Max Length: 275
The description associated with ss_notc_sin_dic_105_code. See ss_notc_sin_dic_105_code for more information.

Column Name: ss_notc_sin_dic_106_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 106'

Column Name: ss_notc_sin_dic_106_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_106_code. See ss_notc_sin_dic_106_code for more information.

Column Name: ss_notc_sin_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 107'

Column Name: ss_notc_sin_dic_107_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_107_code. See ss_notc_sin_dic_107_code for more information.

Column Name: ss_notc_sin_dic_108_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 108'

Column Name: ss_notc_sin_dic_108_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_108_code. See ss_notc_sin_dic_108_code for more information.

Column Name: ss_notc_sin_dic_109_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 109'

Column Name: ss_notc_sin_dic_109_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_109_code. See ss_notc_sin_dic_109_code for more information.

Column Name: ss_notc_sin_dic_110_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 110'

Column Name: ss_notc_sin_dic_110_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_110_code. See ss_notc_sin_dic_110_code for more information.

Column Name: ss_notc_sin_dic_81_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 81'

Column Name: ss_notc_sin_dic_81_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_81_code. See ss_notc_sin_dic_81_code for more information.

Column Name: ss_notc_sin_dic_82_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 82'

Column Name: ss_notc_sin_dic_82_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_82_code. See ss_notc_sin_dic_82_code for more information.

Column Name: ss_notc_sin_dic_83_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 83'

Column Name: ss_notc_sin_dic_83_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_83_code. See ss_notc_sin_dic_83_code for more information.

Column Name: ss_notc_sin_dic_84_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 84'

Column Name: ss_notc_sin_dic_84_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_84_code. See ss_notc_sin_dic_84_code for more information.

Column Name: ss_notc_sin_dic_85_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 85'

Column Name: ss_notc_sin_dic_85_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_85_code. See ss_notc_sin_dic_85_code for more information.

Column Name: ss_notc_sin_dic_86_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 86'

Column Name: ss_notc_sin_dic_86_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_86_code. See ss_notc_sin_dic_86_code for more information.

Column Name: ss_notc_sin_dic_87_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 87'

Column Name: ss_notc_sin_dic_87_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_87_code. See ss_notc_sin_dic_87_code for more information.

Column Name: ss_notc_sin_dic_88_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 88'

Column Name: ss_notc_sin_dic_88_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_88_code. See ss_notc_sin_dic_88_code for more information.

Column Name: ss_notc_sin_dic_89_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 89'

Column Name: ss_notc_sin_dic_89_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_89_code. See ss_notc_sin_dic_89_code for more information.

Column Name: ss_notc_sin_dic_90_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 90'

Column Name: ss_notc_sin_dic_90_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_90_code. See ss_notc_sin_dic_90_code for more information.

Column Name: ss_notc_sin_dic_91_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 91'

Column Name: ss_notc_sin_dic_91_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_91_code. See ss_notc_sin_dic_91_code for more information.

Column Name: ss_notc_sin_dic_92_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 92'

Column Name: ss_notc_sin_dic_92_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_92_code. See ss_notc_sin_dic_92_code for more information.

Column Name: ss_notc_sin_dic_93_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 93'

Column Name: ss_notc_sin_dic_93_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_93_code. See ss_notc_sin_dic_93_code for more information.

Column Name: ss_notc_sin_dic_94_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 94'

Column Name: ss_notc_sin_dic_94_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_94_code. See ss_notc_sin_dic_94_code for more information.

Column Name: ss_notc_sin_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 95'

Column Name: ss_notc_sin_dic_95_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_sin_dic_95_code. See ss_notc_sin_dic_95_code for more information.

Column Name: ss_notc_sin_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 96'

Column Name: ss_notc_sin_dic_96_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_96_code. See ss_notc_sin_dic_96_code for more information.

Column Name: ss_notc_sin_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 97'

Column Name: ss_notc_sin_dic_97_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_97_code. See ss_notc_sin_dic_97_code for more information.

Column Name: ss_notc_sin_dic_98_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 98'

Column Name: ss_notc_sin_dic_98_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_sin_dic_98_code`. See `ss_notc_sin_dic_98_code` for more information.

Column Name: `ss_notc_sin_dic_99_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 99'

Column Name: `ss_notc_sin_dic_99_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_sin_dic_99_code`. See `ss_notc_sin_dic_99_code` for more information.

Column Name: `ss_note_mul_dic_100_code`
Column Type: `varchar`
Max Length: 20
'SS Note Multi Response Dictionary 100'

Column Name: `ss_note_mul_dic_100_shval`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_note_mul_dic_100_code` limited to 255 characters. See `ss_note_mul_dic_100_code` for more information.

Column Name: `ss_note_mul_dic_100_value`
Column Type: `varchar`
Max Length: 32700
The description associated with `ss_note_mul_dic_100_code`. See `ss_note_mul_dic_100_code` for more information.

Column Name: `ss_note_mul_dic_101_code`
Column Type: `varchar`
Max Length: 20
'SS Note Multi Response Dictionary 101'

Column Name: `ss_note_mul_dic_101_shval`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_note_mul_dic_101_code` limited to 255 characters. See `ss_note_mul_dic_101_code` for more information.

Column Name: `ss_note_mul_dic_101_value`
Column Type: `varchar`
Max Length: 32700
The description associated with `ss_note_mul_dic_101_code`. See `ss_note_mul_dic_101_code` for more information.

Column Name: `ss_note_mul_dic_102_code`
Column Type: `varchar`

Max Length: 20

'SS Note Multi Response Dictionary 102'

Column Name: ss_note_mul_dic_102_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_102_code limited to 255 characters. See ss_note_mul_dic_102_code for more information.

Column Name: ss_note_mul_dic_102_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_102_code. See ss_note_mul_dic_102_code for more information.

Column Name: ss_note_mul_dic_103_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 103'

Column Name: ss_note_mul_dic_103_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_103_code limited to 255 characters. See ss_note_mul_dic_103_code for more information.

Column Name: ss_note_mul_dic_103_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_103_code. See ss_note_mul_dic_103_code for more information.

Column Name: ss_note_mul_dic_104_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 104'

Column Name: ss_note_mul_dic_104_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_104_code limited to 255 characters. See ss_note_mul_dic_104_code for more information.

Column Name: ss_note_mul_dic_104_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_104_code. See ss_note_mul_dic_104_code for more information.

Column Name: ss_note_mul_dic_105_code

Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 105'

Column Name: ss_note_mul_dic_105_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_105_code limited to 255 characters. See ss_note_mul_dic_105_code for more information.

Column Name: ss_note_mul_dic_105_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_105_code. See ss_note_mul_dic_105_code for more information.

Column Name: ss_note_mul_dic_106_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 106'

Column Name: ss_note_mul_dic_106_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_106_code limited to 255 characters. See ss_note_mul_dic_106_code for more information.

Column Name: ss_note_mul_dic_106_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_106_code. See ss_note_mul_dic_106_code for more information.

Column Name: ss_note_mul_dic_107_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 107'

Column Name: ss_note_mul_dic_107_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_107_code limited to 255 characters. See ss_note_mul_dic_107_code for more information.

Column Name: ss_note_mul_dic_107_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_107_code. See ss_note_mul_dic_107_code for more information.

Column Name: ss_note_mul_dic_108_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 108'

Column Name: ss_note_mul_dic_108_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_108_code limited to 255 characters. See ss_note_mul_dic_108_code for more information.

Column Name: ss_note_mul_dic_108_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_108_code. See ss_note_mul_dic_108_code for more information.

Column Name: ss_note_mul_dic_109_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 109'

Column Name: ss_note_mul_dic_109_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_109_code limited to 255 characters. See ss_note_mul_dic_109_code for more information.

Column Name: ss_note_mul_dic_109_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_109_code. See ss_note_mul_dic_109_code for more information.

Column Name: ss_note_mul_dic_110_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 110'

Column Name: ss_note_mul_dic_110_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_110_code limited to 255 characters. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_110_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_110_code. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_81_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 81'

Column Name: ss_note_mul_dic_81_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_81_code limited to 255 characters. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_81_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_81_code. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_82_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 82'

Column Name: ss_note_mul_dic_82_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_82_code limited to 255 characters. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_82_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_82_code. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_83_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 83'

Column Name: ss_note_mul_dic_83_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_83_code limited to 255 characters. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_83_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_83_code. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_84_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 84'

Column Name: ss_note_mul_dic_84_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_84_code limited to 255 characters. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_84_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_84_code. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_85_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 85'

Column Name: ss_note_mul_dic_85_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_85_code limited to 255 characters. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_85_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_85_code. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_86_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 86'

Column Name: ss_note_mul_dic_86_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_86_code limited to 255 characters. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_86_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_86_code. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_87_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 87'

Column Name: ss_note_mul_dic_87_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_87_code limited to 255 characters. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_87_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_87_code. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_88_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 88'

Column Name: ss_note_mul_dic_88_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_88_code limited to 255 characters. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_88_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_88_code. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_89_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 89'

Column Name: ss_note_mul_dic_89_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_89_code limited to 255 characters. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_89_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_89_code. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_90_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 90'

Column Name: ss_note_mul_dic_90_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_90_code limited to 255 characters. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_90_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_90_code. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_91_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 91'

Column Name: ss_note_mul_dic_91_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_91_code limited to 255 characters. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_91_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_91_code. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_92_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 92'

Column Name: ss_note_mul_dic_92_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_92_code limited to 255 characters. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_92_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_92_code. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_93_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 93'

Column Name: ss_note_mul_dic_93_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_93_code limited to 255 characters. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_93_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_93_code. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_94_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 94'

Column Name: ss_note_mul_dic_94_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_94_code limited to 255 characters. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_94_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_94_code. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_95_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 95'

Column Name: ss_note_mul_dic_95_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_95_code limited to 255 characters. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_95_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_95_code. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_96_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 96'

Column Name: ss_note_mul_dic_96_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_96_code limited to 255 characters. See ss_note_mul_dic_96_code for more information.

Column Name: ss_note_mul_dic_96_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_96_code. See ss_note_mul_dic_96_code for more information.

Column Name: ss_note_mul_dic_97_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 97'

Column Name: ss_note_mul_dic_97_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_97_code limited to 255 characters. See ss_note_mul_dic_97_code for more information.

Column Name: ss_note_mul_dic_97_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_97_code. See ss_note_mul_dic_97_code for more information.

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 99'

Column Name: ss_note_sin_dic_99_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_99_code. See ss_note_sin_dic_99_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: SYSTEM.cw_patient_notes_supp_6

Table Description: This table returns the facility location fields stored in the 'Progress Notes (Group and Individual)', 'Inpatient Progress Notes', 'Inpatient Progress Notes (Diagnosis Entry)', 'Ambulatory Progress Notes', and 'Ambulatory Progress Notes (Diagnosis Entry)' forms.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the service.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: FACILITY

Column Type: integer

The system code in which the data was stored.

Column Name: NOT_uniqueid

Column Type: varchar

Max Length: 50

Unique ID for a note.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 40

The user ID who last updated the service.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the service.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: facloc_address_1

Column Type: varchar
Max Length: 50
'Facility Location Address - Street'

Column Name: facloc_address_2
Column Type: varchar
Max Length: 50
'Facility Location Address - Street 2'

Column Name: facloc_city
Column Type: varchar
Max Length: 50
'Facility Location City'

Column Name: facloc_id_code
Column Type: varchar
Max Length: 50
'Facility Location Code Identifier'

Column Name: facloc_id_code_qual
Column Type: varchar
Max Length: 50
'Facility Location Code Qualifier'

Column Name: facloc_name
Column Type: varchar
Max Length: 50
'Facility Location Name'

Column Name: facloc_state
Column Type: varchar
Max Length: 50
'Facility Location State'

Column Name: facloc_zip_code
Column Type: varchar
Max Length: 50
'Facility Location Zip Code'

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_51

Column Name: ss_note_time_60
Column Type: varchar
Max Length: 10
SS Note Time 60

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form: Inpatient_Progress_Notes_(Diagnosis_Entry)

Table Name: SYSTEM.cw_patient_notes_tpnates

Table Description: This table returns the information stored for the treatment plan grid in progress notes forms.

Column Name: ID
Column Type: integer

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: PATID
Column Type: varchar

Max Length: 20
The client ID associated with the data.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 20
The unique ID associated with the note.

Column Name: tp_notes_id
Column Type: integer
Id column for auditing purposes

Column Name: select_tp_version_code
Column Type: varchar
Max Length: 50
'Select T.P. Version'

Column Name: select_tp_version_value
Column Type: varchar
Max Length: 255
The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: note_add_which_tp_plan_prob
Column Type: varchar
Max Length: 32000
The treatment plan problem to add to the note.

Column Name: notes
Column Type: varchar
Max Length: 32000
Notes for the selected TP item.

Documentation for form:

Ambulatory_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotes table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: FACILITY
Column Type: integer

The system code in which the data was stored.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: NOT_uniqueid

Column Type: varchar

Max Length: 20

The unique ID associated with the note.

Column Name: notes_field

Column Type: varchar

Max Length: 32700

The written note information.

Column Name: note_type_code

Column Type: varchar

Max Length: 50

'Note Type'

Column Name: note_type_value

Column Type: varchar

Max Length: 40

The description associated with note_type_code. See note_type_code for more information.

Column Name: note_time

Column Type: varchar

Max Length: 25

'Note Time'

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the row.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: New_Existing_Service_code
Column Type: varchar
Max Length: 5
'Progress Note For'

Column Name: New_Existing_Service_value
Column Type: varchar
Max Length: 40
The description associated with New_Existing_Service_code. See New_Existing_Service_code for more information.

Column Name: service_program_value
Column Type: varchar
Max Length: 40
The description associated with service_program_code. See service_program_code for more information.

Column Name: note_addresses
Column Type: varchar
Max Length: 40
'Note Addresses Which Existing Service/Appointment'

Column Name: note_add_which_tp_plan_prob
Column Type: varchar
Max Length: 32700
The treatment plan problem to add to the note.

Column Name: Tx_Note_UniqueId
Column Type: varchar
Max Length: 40
The unique ID associated with the treatment.

Column Name: service_charge_value
Column Type: varchar
Max Length: 40
The description associated with service_charge_code. See service_charge_code for more information.

Column Name: GROUP_ID
Column Type: varchar
Max Length: 10
'Group Name Or Number'

Column Name: JOIN_TO_TX_HISTORY
Column Type: varchar
Max Length: 40
The unique ID that joins the note to the service.

Column Name: Option_Desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: Option_Id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: TODO_ID
Column Type: varchar
Max Length: 20
'To Do Id'

Column Name: add_on_notes
Column Type: varchar
Max Length: 32768
The add-on notes.

Column Name: add_svc_info_code
Column Type: varchar
Max Length: 40
The additional service information.

Column Name: add_svc_info_shval
Column Type: varchar
Max Length: 255
The description associated with add_svc_info_code limited to 255 characters. See add_svc_info_code for more information.

Column Name: add_svc_info_value
Column Type: varchar
Max Length: 4096
The description associated with add_svc_info_code. See add_svc_info_code for more information.

Column Name: aps_link
Column Type: varchar
Max Length: 40
'Note Addresses Which Existing Appointment'

Column Name: billing_status_code
Column Type: varchar
Max Length: 50
'Service Status'

Column Name: billing_status_value
Column Type: varchar
Max Length: 50

The description associated with billing_status_code. See billing_status_code for more information.

Column Name: calpm_ebpss_csi_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practices / Service Strategies (CSI)'

Column Name: calpm_ebpss_csi_value

Column Type: varchar

Max Length: 200

The description associated with calpm_ebpss_csi_code. See calpm_ebpss_csi_code for more information.

Column Name: calpm_ebpss_csi_value_long

Column Type: varchar

Max Length: 4096

The description associated with calpm_ebpss_csi_value_code. See calpm_ebpss_csi_value_code for more information.

Column Name: client_prob_list_codes

Column Type: varchar

Max Length: 50

The codes associated with the client problem list.

Column Name: client_prob_list_shvals

Column Type: varchar

Max Length: 255

The description associated with client_prob_list_code limited to 255 characters. See client_prob_list_code for more information.

Column Name: client_prob_list_vals

Column Type: varchar

Max Length: 32700

The description associated with client_prob_list_code. See client_prob_list_code for more information.

Column Name: clinical_instructions

Column Type: varchar

Max Length: 32700

'Clinical Instructions'

Column Name: clinical_quality_code

Column Type: varchar

Max Length: 255

'Clinical Quality Indicators'

Column Name: clinical_quality_sh_val

Column Type: varchar

Max Length: 255

'The description associated with clinical_quality_code. See clinical_quality_code for more information.

Column Name: clinical_quality_value

Column Type: varchar

Max Length: 4096

'The description associated with clinical_quality_code. See clinical_quality_code for more information.

Column Name: confidential_note

Column Type: varchar

Max Length: 50

The confidential note.

Column Name: co_pract_duration

Column Type: numeric

The first co-practitioner duration.

Column Name: co_pract2_duration

Column Type: numeric

The second co-practitioner duration.

Column Name: co_practitioner_id

Column Type: varchar

Max Length: 15

The first co-practitioner ID.

Column Name: co_practitioner_id_2

Column Type: varchar

Max Length: 15

The second co-practitioner ID.

Column Name: co_practitioner_name

Column Type: varchar

Max Length: 40

The name associated with co_practitioner_id.

Column Name: co_practitioner_name_2

Column Type: varchar

Max Length: 40

The name associated with co_practitioner_id_2.

Column Name: co_sign_to_do_user

Column Type: varchar

Max Length: 50

'User To Send Co-Sign To Do Item To'

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source

Column Type: varchar

Max Length: 40

The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: date_of_group_service
Column Type: date
The date of the group service.

Column Name: date_of_note
Column Type: date
The date of the note.

Column Name: date_of_service
Column Type: date
The date of the service.

Column Name: discipline_code
Column Type: varchar
Max Length: 40
'Discipline'

Column Name: discipline_value

Column Type: varchar

Max Length: 40

The description associated with discipline_code. See discipline_code for more information.

Column Name: draft_final_code

Column Type: varchar

Max Length: 5

'Draft/Final'

Column Name: draft_final_value

Column Type: varchar

Max Length: 40

The description associated with draft_final_code. See draft_final_code for more information.

Column Name: ebps_code

Column Type: varchar

Max Length: 255

'Evidence Based Practices'

Column Name: ebps_sh_val

Column Type: varchar

Max Length: 255

'The description associated with ebps_code. See ebps_code for more information.'

Column Name: ebps_value

Column Type: varchar

Max Length: 4096

'The description associated with ebps_code. See ebps_code for more information.'

Column Name: external_system_id

Column Type: varchar

Max Length: 255

'External System Identifier'

Column Name: has_nonmed_diag_flg_code

Column Type: varchar

Max Length: 50

The non-medical diagnosis flag.

Column Name: has_nonmed_diag_flg_value

Column Type: varchar

Max Length: 50

The description associated with has_nonmed_diag_flg_code. See has_nonmed_diag_flg_code for more information.

Column Name: jointodiagnosisobject1

Column Type: varchar

Max Length: 40

'Diagnosis 1'

Column Name: jointodiagnosisobject2

Column Type: varchar

Max Length: 40

'Diagnosis 2'

Column Name: jointodiagnosisobject3

Column Type: varchar

Max Length: 40

'Diagnosis 3'

Column Name: jointodiagnosisobject4

Column Type: varchar

Max Length: 40

'Diagnosis 4'

Column Name: location_code

Column Type: varchar

Max Length: 15

The location of the service.

Column Name: location_value

Column Type: varchar

Max Length: 40

The description associated with location_code. See location_code for more information.

Column Name: medical_diag1_DSM_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag1_DSM_code. See medical_diag1_DSM_code for more information.

Column Name: medical_diag_1_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1 ICD 10'

Column Name: medical_diag_1_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_icd10_code. See medical_diag_1_icd10_code for more information.

Column Name: medical_diag_1_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1 ICD 9'

Column Name: medical_diag_1_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_icd9_code. See medical_diag_1_icd9_code for more information.

Column Name: medical_diag_1_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_1_imo_code. See medical_diag_1_imo_code for more information.

Column Name: medical_diag2_DSM_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag2_DSM_code. See medical_diag2_DSM_code for more information.

Column Name: medical_diag_2_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 10'

Column Name: medical_diag_2_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd10_code. See medical_diag_2_icd10_code for more information.

Column Name: medical_diag_2_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2 ICD 9'

Column Name: medical_diag_2_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_icd9_code. See medical_diag_2_icd9_code for more information.

Column Name: medical_diag_2_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_2_imo_code. See medical_diag_2_imo_code for more information.

Column Name: medical_diag_3_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 3 ICD 10'

Column Name: medical_diag_3_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_icd10_code. See medical_diag_3_icd10_code for more information.

Column Name: medical_diag_3_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 3 ICD 9'

Column Name: medical_diag_3_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_icd9_code. See medical_diag_3_icd9_code for more information.

Column Name: medical_diag_3_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_3_imo_code. See medical_diag_3_imo_code for more information.

Column Name: medical_diag_4_icd10_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 10'

Column Name: medical_diag_4_icd10_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd10_code. See medical_diag_4_icd10_code for more information.

Column Name: medical_diag_4_icd9_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 4 ICD 9'

Column Name: medical_diag_4_icd9_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_icd9_code. See medical_diag_4_icd9_code for more information.

Column Name: medical_diag_4_imo_value

Column Type: varchar

Max Length: 40

The description associated with medical_diag_4_imo_code. See medical_diag_4_imo_code for more information.

Column Name: medical_diagnosis_1_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 1'

Column Name: medical_diagnosis_1_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_1_code. See medical_diagnosis_1_code for more information.

Column Name: medical_diagnosis_2_code

Column Type: varchar

Max Length: 40

'Medical Diagnosis 2'

Column Name: medical_diagnosis_2_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_2_code. See medical_diagnosis_2_code for more information.

Column Name: medical_diagnosis_3_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 3'

Column Name: medical_diagnosis_3_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_3_code. See medical_diagnosis_3_code for more information.

Column Name: medical_diagnosis_4_code

Column Type: varchar

Max Length: 50

'Medical Diagnosis 4'

Column Name: medical_diagnosis_4_value

Column Type: varchar

Max Length: 32700

The description associated with medical_diagnosis_4_code. See medical_diagnosis_4_code for more information.

Column Name: notes_entry_index_nu

Column Type: varchar

Max Length: 50

The notes entry index.

Column Name: number_clients_in_group
Column Type: integer
'Number Of Clients In Group'

Column Name: orig_note_uniq_id_num
Column Type: varchar
Max Length: 20
'Original Note Unique ID Number'

Column Name: practitioner_id
Column Type: varchar
Max Length: 15
The practitioner associated with the note.

Column Name: practitioner_name
Column Type: varchar
Max Length: 40
The name associated with practitioner_id.

Column Name: psycho_add_on_duration
Column Type: integer
The psychotherapy add-on duration.

Column Name: reason_for_visit_code
Column Type: varchar
Max Length: 50
'Reason for Visit'

Column Name: reason_for_visit_value
Column Type: varchar
Max Length: 250
The description associated with reason_for_visit_code. See reason_for_visit_code for more information.

Column Name: recommended_decision
Column Type: varchar
Max Length: 32700
'Recommended Decision'

Column Name: select_tp_version_code
Column Type: varchar
Max Length: 5
'Select T.P. Version'

Column Name: select_tp_version_value
Column Type: varchar
Max Length: 40
The description associated with select_tp_version_code. See select_tp_version_code for more information.

Column Name: service_charge_code
Column Type: varchar

Max Length: 40
The service charge code.

Column Name: service_duration
Column Type: varchar
Max Length: 5
The duration of the service.

Column Name: service_end_time
Column Type: varchar
Max Length: 10
The end time of the service.

Column Name: service_program_code
Column Type: varchar
Max Length: 15
The program of the service.

Column Name: service_start_time
Column Type: varchar
Max Length: 10
The start time of the service.

Column Name: session_start_end_times
Column Type: varchar
Max Length: 32766
'Start/End Time(s)'

Column Name: ss_note_20_char_text_1
Column Type: varchar
Max Length: 20
'SS Note 20 Character 1'

Column Name: ss_note_20_char_text_10
Column Type: varchar
Max Length: 20
'SS Note 20 Character 10'

Column Name: ss_note_20_char_text_2
Column Type: varchar
Max Length: 20
'SS Note 20 Character 2'

Column Name: ss_note_20_char_text_3
Column Type: varchar
Max Length: 20
'SS Note 20 Character 3'

Column Name: ss_note_20_char_text_4
Column Type: varchar

Max Length: 20
'SS Note 20 Character 4'

Column Name: ss_note_20_char_text_5
Column Type: varchar
Max Length: 20
'SS Note 20 Character 5'

Column Name: ss_note_20_char_text_6
Column Type: varchar
Max Length: 20
'SS Note 20 Character 6'

Column Name: ss_note_20_char_text_7
Column Type: varchar
Max Length: 20
'SS Note 20 Character 7'

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 10'

Column Name: ss_note_dsm_diag_10_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_10_code. See ss_note_dsm_diag_10_code for more information.

Column Name: ss_note_dsm_diag_1_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 1'

Column Name: ss_note_dsm_diag_1_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_1_code. See ss_note_dsm_diag_1_code for more information.

Column Name: ss_note_dsm_diag_2_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 2'

Column Name: ss_note_dsm_diag_2_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_2_code. See ss_note_dsm_diag_2_code for more information.

Column Name: ss_note_dsm_diag_3_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 3'

Column Name: ss_note_dsm_diag_3_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_3_code. See ss_note_dsm_diag_3_code for more information.

Column Name: ss_note_dsm_diag_4_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 4'

Column Name: ss_note_dsm_diag_4_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_4_code. See ss_note_dsm_diag_4_code for more information.

Column Name: ss_note_dsm_diag_5_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 5'

Column Name: ss_note_dsm_diag_5_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_5_code. See ss_note_dsm_diag_5_code for more information.

Column Name: ss_note_dsm_diag_6_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 6'

Column Name: ss_note_dsm_diag_6_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_6_code. See ss_note_dsm_diag_6_code for more information.

Column Name: ss_note_dsm_diag_7_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 7'

Column Name: ss_note_dsm_diag_7_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_7_code. See ss_note_dsm_diag_7_code for more information.

Column Name: ss_note_dsm_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 8'

Column Name: ss_note_dsm_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_8_code. See ss_note_dsm_diag_8_code for more information.

Column Name: ss_note_dsm_diag_9_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 9'

Column Name: ss_note_dsm_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_9_code. See ss_note_dsm_diag_9_code for more information.

Column Name: ss_note_icd9_diag_10_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 10'

Column Name: ss_note_icd9_diag_10_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_10_code. See ss_note_icd9_diag_10_code for more information.

Column Name: ss_note_icd9_diag_1_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 1'

Column Name: ss_note_icd9_diag_1_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_1_code. See ss_note_icd9_diag_1_code for more information.

Column Name: ss_note_icd9_diag_2_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 2'

Column Name: ss_note_icd9_diag_2_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_2_code. See ss_note_icd9_diag_2_code for more information.

Column Name: ss_note_icd9_diag_3_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 3'

Column Name: ss_note_icd9_diag_3_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_3_code. See ss_note_icd9_diag_3_code for more information.

Column Name: ss_note_icd9_diag_4_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 4'

Column Name: ss_note_icd9_diag_4_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_4_code. See ss_note_icd9_diag_4_code for more information.

Column Name: ss_note_icd9_diag_5_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 5'

Column Name: ss_note_icd9_diag_5_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_5_code. See ss_note_icd9_diag_5_code for more information.

Column Name: ss_note_icd9_diag_6_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 6'

Column Name: ss_note_icd9_diag_6_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_6_code. See ss_note_icd9_diag_6_code for more information.

Column Name: ss_note_icd9_diag_7_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 7'

Column Name: ss_note_icd9_diag_7_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_7_code. See ss_note_icd9_diag_7_code for more information.

Column Name: ss_note_icd9_diag_8_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 8'

Column Name: ss_note_icd9_diag_8_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_8_code. See ss_note_icd9_diag_8_code for more information.

Column Name: ss_note_icd9_diag_9_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 9'

Column Name: ss_note_icd9_diag_9_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_9_code. See ss_note_icd9_diag_9_code for more information.

Column Name: ss_note_multi_dict_10_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 10'

Column Name: ss_note_multi_dict_10_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_10_code. See ss_note_multi_dict_10_code for more information.

Column Name: ss_note_multi_dict_1_code

Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 1'

Column Name: ss_note_multi_dict_1_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_1_code. See ss_note_multi_dict_1_code for more information.

Column Name: ss_note_multi_dict_2_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 2'

Column Name: ss_note_multi_dict_2_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_2_code. See ss_note_multi_dict_2_code for more information.

Column Name: ss_note_multi_dict_3_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 3'

Column Name: ss_note_multi_dict_3_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_3_code. See ss_note_multi_dict_3_code for more information.

Column Name: ss_note_multi_dict_4_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 4'

Column Name: ss_note_multi_dict_4_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_4_code. See ss_note_multi_dict_4_code for more information.

Column Name: ss_note_multi_dict_5_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 5'

Column Name: ss_note_multi_dict_5_value
Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_5_code. See ss_note_multi_dict_5_code for more information.

Column Name: ss_note_multi_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 6'

Column Name: ss_note_multi_dict_6_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_6_code. See ss_note_multi_dict_6_code for more information.

Column Name: ss_note_multi_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 7'

Column Name: ss_note_multi_dict_7_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_7_code. See ss_note_multi_dict_7_code for more information.

Column Name: ss_note_multi_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 8'

Column Name: ss_note_multi_dict_8_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_8_code. See ss_note_multi_dict_8_code for more information.

Column Name: ss_note_multi_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 9'

Column Name: ss_note_multi_dict_9_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_9_code. See ss_note_multi_dict_9_code for more information.

Column Name: ss_note_scroll_text_1

Column Type: varchar

Max Length: 32700
'SS Note Scrolling Text 1'

Column Name: ss_note_scroll_text_10
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 10'

Column Name: ss_note_scroll_text_2
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 2'

Column Name: ss_note_scroll_text_3
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 3'

Column Name: ss_note_scroll_text_4
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 4'

Column Name: ss_note_scroll_text_5
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 5'

Column Name: ss_note_scroll_text_6
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 6'

Column Name: ss_note_scroll_text_7
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 7'

Column Name: ss_note_scroll_text_8
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 8'

Column Name: ss_note_scroll_text_9
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Text 9'

Column Name: ss_note_sing_dict_10_code
Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 10'

Column Name: ss_note_sing_dict_10_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_10_code. See ss_note_sing_dict_10_code for more information.

Column Name: ss_note_sing_dict_1_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 1'

Column Name: ss_note_sing_dict_1_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_1_code. See ss_note_sing_dict_1_code for more information.

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 2'

Column Name: ss_note_sing_dict_2_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_2_code. See ss_note_sing_dict_2_code for more information.

Column Name: ss_note_sing_dict_3_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 3'

Column Name: ss_note_sing_dict_3_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_3_code. See ss_note_sing_dict_3_code for more information.

Column Name: ss_note_sing_dict_4_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 4'

Column Name: ss_note_sing_dict_4_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_4_code. See ss_note_sing_dict_4_code for more information.

Column Name: ss_note_sing_dict_5_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 5'

Column Name: ss_note_sing_dict_5_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_5_code. See ss_note_sing_dict_5_code for more information.

Column Name: ss_note_sing_dict_6_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 6'

Column Name: ss_note_sing_dict_6_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_6_code. See ss_note_sing_dict_6_code for more information.

Column Name: ss_note_sing_dict_7_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 7'

Column Name: ss_note_sing_dict_7_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_7_code. See ss_note_sing_dict_7_code for more information.

Column Name: ss_note_sing_dict_8_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 8'

Column Name: ss_note_sing_dict_8_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_8_code. See ss_note_sing_dict_8_code for more information.

Column Name: ss_note_sing_dict_9_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 9'

Column Name: ss_note_sing_dict_9_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_9_code. See ss_note_sing_dict_9_code for more information.

Column Name: ss_note_staff_1

Column Type: varchar

Max Length: 20

'SS Note Staff Member 1'

Column Name: ss_note_staff_10

Column Type: varchar

Max Length: 20

'SS Note Staff Member 10'

Column Name: ss_note_staff_2

Column Type: varchar

Max Length: 20

'SS Note Staff Member 2'

Column Name: ss_note_staff_3

Column Type: varchar

Max Length: 20

'SS Note Staff Member 3'

Column Name: ss_note_staff_4

Column Type: varchar

Max Length: 20

'SS Note Staff Member 4'

Column Name: ss_note_staff_5

Column Type: varchar

Max Length: 20

'SS Note Staff Member 5'

Column Name: ss_note_staff_6

Column Type: varchar

Max Length: 20

'SS Note Staff Member 6'

Column Name: ss_note_staff_7

Column Type: varchar

Max Length: 20

'SS Note Staff Member 7'

Column Name: ss_note_staff_8

Column Type: varchar

Max Length: 20
'SS Note Staff Member 8'

Column Name: ss_note_staff_9
Column Type: varchar
Max Length: 20
'SS Note Staff Member 9'

Column Name: ss_note_time_1
Column Type: varchar
Max Length: 10
'SS Note Time 1'

Column Name: ss_note_time_10
Column Type: varchar
Max Length: 10
'SS Note Time 10'

Column Name: ss_note_time_2
Column Type: varchar
Max Length: 10
'SS Note Time 2'

Column Name: ss_note_time_3
Column Type: varchar
Max Length: 10
'SS Note Time 3'

Column Name: ss_note_time_4
Column Type: varchar
Max Length: 10
'SS Note Time 4'

Column Name: ss_note_time_5
Column Type: varchar
Max Length: 10
'SS Note Time 5'

Column Name: ss_note_time_6
Column Type: varchar
Max Length: 10
'SS Note Time 6'

Column Name: ss_note_time_7
Column Type: varchar
Max Length: 10
'SS Note Time 7'

Column Name: ss_note_time_8
Column Type: varchar

Max Length: 10
'SS Note Time 8'

Column Name: ss_note_time_9
Column Type: varchar
Max Length: 10
'SS Note Time 9'

Column Name: transition_of_care_code
Column Type: varchar
Max Length: 1
'Is This A Transition Of Care?'

Column Name: transition_of_care_value
Column Type: varchar
Max Length: 80
'The description associated with transition_of_care_code. See transition_of_care_code for more information.'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form:

Ambulatory_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes_supp

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid

Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: confidential_note
Column Type: varchar
Max Length: 50
Whether the note is confidential.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 50
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: notes_field
Column Type: varchar
Max Length: 32766
The contents of the notes field.

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 50
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_11
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 11'

Column Name: ss_note_20_char_text_12
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 12'

Column Name: ss_note_20_char_text_13
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 13'

Column Name: ss_note_20_char_text_14
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 14'

Column Name: ss_note_20_char_text_15
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 15'

Column Name: ss_note_20_char_text_16
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 16'

Column Name: ss_note_20_char_text_17
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 17'

Column Name: ss_note_20_char_text_18
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 18'

Column Name: ss_note_20_char_text_19
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 19'

Column Name: ss_note_20_char_text_20
Column Type: varchar
Max Length: 20
'SS Note 20 Character Text 20'

Column Name: ss_note_20_char_text_21
Column Type: varchar
Max Length: 20

'SS Note DSM Diagnosis 11'

Column Name: ss_note_dsm_diag_11_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_11_code. See ss_note_dsm_diag_11_code for more information.

Column Name: ss_note_dsm_diag_12_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 12'

Column Name: ss_note_dsm_diag_12_value
Column Type: varchar
Max Length: 250
The description associated with ss_note_dsm_diag_12_code. See ss_note_dsm_diag_12_code for more information.

Column Name: ss_note_dsm_diag_13_code
Column Type: varchar
Max Length: 20
'SS Note DSM Diagnosis 13'

Column Name: ss_note_dsm_diag_13_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_dsm_diag_13_code`. See `ss_note_dsm_diag_13_code` for more information.

Column Name: `ss_note_dsm_diag_14_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 14'

Column Name: `ss_note_dsm_diag_14_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_14_code`. See `ss_note_dsm_diag_14_code` for more information.

Column Name: `ss_note_dsm_diag_15_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 15'

Column Name: `ss_note_dsm_diag_15_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_15_code`. See `ss_note_dsm_diag_15_code` for more information.

Column Name: `ss_note_dsm_diag_16_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 16'

Column Name: `ss_note_dsm_diag_16_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_16_code`. See `ss_note_dsm_diag_16_code` for more information.

Column Name: `ss_note_dsm_diag_17_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 17'

Column Name: `ss_note_dsm_diag_17_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_17_code`. See `ss_note_dsm_diag_17_code` for more information.

Column Name: `ss_note_dsm_diag_18_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 18'

Column Name: ss_note_dsm_diag_18_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_18_code. See ss_note_dsm_diag_18_code for more information.

Column Name: ss_note_dsm_diag_19_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 19'

Column Name: ss_note_dsm_diag_19_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_19_code. See ss_note_dsm_diag_19_code for more information.

Column Name: ss_note_dsm_diag_20_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 20'

Column Name: ss_note_dsm_diag_20_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_20_code. See ss_note_dsm_diag_20_code for more information.

Column Name: ss_note_dsm_diag_21_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 21'

Column Name: ss_note_dsm_diag_21_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_21_code. See ss_note_dsm_diag_21_code for more information.

Column Name: ss_note_dsm_diag_22_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 22'

Column Name: ss_note_dsm_diag_22_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_dsm_diag_22_code`. See `ss_note_dsm_diag_22_code` for more information.

Column Name: `ss_note_dsm_diag_23_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 23'

Column Name: `ss_note_dsm_diag_23_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_23_code`. See `ss_note_dsm_diag_23_code` for more information.

Column Name: `ss_note_dsm_diag_24_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 24'

Column Name: `ss_note_dsm_diag_24_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_24_code`. See `ss_note_dsm_diag_24_code` for more information.

Column Name: `ss_note_dsm_diag_25_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 25'

Column Name: `ss_note_dsm_diag_25_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_25_code`. See `ss_note_dsm_diag_25_code` for more information.

Column Name: `ss_note_dsm_diag_26_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 26'

Column Name: `ss_note_dsm_diag_26_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_26_code`. See `ss_note_dsm_diag_26_code` for more information.

Column Name: `ss_note_dsm_diag_27_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM Diagnosis 27'

Column Name: ss_note_dsm_diag_27_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_27_code. See ss_note_dsm_diag_27_code for more information.

Column Name: ss_note_dsm_diag_28_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 28'

Column Name: ss_note_dsm_diag_28_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_28_code. See ss_note_dsm_diag_28_code for more information.

Column Name: ss_note_dsm_diag_29_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 29'

Column Name: ss_note_dsm_diag_29_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_29_code. See ss_note_dsm_diag_29_code for more information.

Column Name: ss_note_dsm_diag_30_code

Column Type: varchar

Max Length: 20

'SS Note DSM Diagnosis 30'

Column Name: ss_note_dsm_diag_30_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_30_code. See ss_note_dsm_diag_30_code for more information.

Column Name: ss_note_icd9_diag_11_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 11'

Column Name: ss_note_icd9_diag_11_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_11_code`. See `ss_note_icd9_diag_11_code` for more information.

Column Name: `ss_note_icd9_diag_12_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 12'

Column Name: `ss_note_icd9_diag_12_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_12_code`. See `ss_note_icd9_diag_12_code` for more information.

Column Name: `ss_note_icd9_diag_13_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 13'

Column Name: `ss_note_icd9_diag_13_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_13_code`. See `ss_note_icd9_diag_13_code` for more information.

Column Name: `ss_note_icd9_diag_14_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 14'

Column Name: `ss_note_icd9_diag_14_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_14_code`. See `ss_note_icd9_diag_14_code` for more information.

Column Name: `ss_note_icd9_diag_15_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 15'

Column Name: `ss_note_icd9_diag_15_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_15_code`. See `ss_note_icd9_diag_15_code` for more information.

Column Name: `ss_note_icd9_diag_16_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD9 Diagnosis 16'

Column Name: ss_note_icd9_diag_16_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_16_code. See ss_note_icd9_diag_16_code for more information.

Column Name: ss_note_icd9_diag_17_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 17'

Column Name: ss_note_icd9_diag_17_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_17_code. See ss_note_icd9_diag_17_code for more information.

Column Name: ss_note_icd9_diag_18_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 18'

Column Name: ss_note_icd9_diag_18_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_18_code. See ss_note_icd9_diag_18_code for more information.

Column Name: ss_note_icd9_diag_19_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 19'

Column Name: ss_note_icd9_diag_19_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_19_code. See ss_note_icd9_diag_19_code for more information.

Column Name: ss_note_icd9_diag_20_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 20'

Column Name: ss_note_icd9_diag_20_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_20_code. See ss_note_icd9_diag_20_code for more information.

Column Name: ss_note_icd9_diag_21_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 21'

Column Name: ss_note_icd9_diag_21_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_21_code. See ss_note_icd9_diag_21_code for more information.

Column Name: ss_note_icd9_diag_22_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 22'

Column Name: ss_note_icd9_diag_22_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_22_code. See ss_note_icd9_diag_22_code for more information.

Column Name: ss_note_icd9_diag_23_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 23'

Column Name: ss_note_icd9_diag_23_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_23_code. See ss_note_icd9_diag_23_code for more information.

Column Name: ss_note_icd9_diag_24_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 24'

Column Name: ss_note_icd9_diag_24_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_24_code. See ss_note_icd9_diag_24_code for more information.

Column Name: ss_note_icd9_diag_25_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 25'

Column Name: ss_note_icd9_diag_25_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_25_code. See ss_note_icd9_diag_25_code for more information.

Column Name: ss_note_icd9_diag_26_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 26'

Column Name: ss_note_icd9_diag_26_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_26_code. See ss_note_icd9_diag_26_code for more information.

Column Name: ss_note_icd9_diag_27_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 27'

Column Name: ss_note_icd9_diag_27_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_27_code. See ss_note_icd9_diag_27_code for more information.

Column Name: ss_note_icd9_diag_28_code

Column Type: varchar

Max Length: 20

'SS Note ICD9 Diagnosis 28'

Column Name: ss_note_icd9_diag_28_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_28_code. See ss_note_icd9_diag_28_code for more information.

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_15_code. See ss_note_multi_dict_15_code for more information.

Column Name: ss_note_multi_dict_16_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 16'

Column Name: ss_note_multi_dict_16_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_16_code. See ss_note_multi_dict_16_code for more information.

Column Name: ss_note_multi_dict_17_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 17'

Column Name: ss_note_multi_dict_17_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_17_code. See ss_note_multi_dict_17_code for more information.

Column Name: ss_note_multi_dict_18_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 18'

Column Name: ss_note_multi_dict_18_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_18_code. See ss_note_multi_dict_18_code for more information.

Column Name: ss_note_multi_dict_19_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 19'

Column Name: ss_note_multi_dict_19_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_19_code. See ss_note_multi_dict_19_code for more information.

Column Name: ss_note_multi_dict_20_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 20'

Column Name: ss_note_multi_dict_20_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_20_code. See ss_note_multi_dict_20_code for more information.

Column Name: ss_note_multi_dict_21_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 21'

Column Name: ss_note_multi_dict_21_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_21_code. See ss_note_multi_dict_21_code for more information.

Column Name: ss_note_multi_dict_22_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 22'

Column Name: ss_note_multi_dict_22_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_22_code. See ss_note_multi_dict_22_code for more information.

Column Name: ss_note_multi_dict_23_code
Column Type: varchar
Max Length: 20

'SS Note Copy Multiple Response Dictionary 23'

Column Name: ss_note_multi_dict_23_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_23_code. See ss_note_multi_dict_23_code for more information.

Column Name: ss_note_multi_dict_24_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 24'

Column Name: ss_note_multi_dict_24_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_24_code. See ss_note_multi_dict_24_code for more information.

Column Name: ss_note_multi_dict_25_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 25'

Column Name: ss_note_multi_dict_25_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_25_code. See ss_note_multi_dict_25_code for more information.

Column Name: ss_note_multi_dict_26_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 26'

Column Name: ss_note_multi_dict_26_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_26_code. See ss_note_multi_dict_26_code for more information.

Column Name: ss_note_multi_dict_27_code

Column Type: varchar

Max Length: 20

'SS Note Copy Multiple Response Dictionary 27'

Column Name: ss_note_multi_dict_27_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_27_code. See ss_note_multi_dict_27_code for more information.

Column Name: ss_note_multi_dict_28_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 28'

Column Name: ss_note_multi_dict_28_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_28_code. See ss_note_multi_dict_28_code for more information.

Column Name: ss_note_multi_dict_29_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 29'

Column Name: ss_note_multi_dict_29_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_29_code. See ss_note_multi_dict_29_code for more information.

Column Name: ss_note_multi_dict_30_code
Column Type: varchar
Max Length: 20
'SS Note Copy Multiple Response Dictionary 30'

Column Name: ss_note_multi_dict_30_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_multi_dict_30_code. See ss_note_multi_dict_30_code for more information.

Column Name: ss_note_scroll_text_11
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 11'

Column Name: ss_note_scroll_text_12
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 12'

Column Name: ss_note_scroll_text_13
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 13'

Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 29'

Column Name: ss_note_scroll_text_30
Column Type: varchar
Max Length: 32700
'SS Note Scrolling Free Text 30'

Column Name: ss_note_sing_dict_11_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 11'

Column Name: ss_note_sing_dict_11_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_single_dict_11_code. See ss_note_single_dict_11_code for more information.

Column Name: ss_note_sing_dict_12_code
Column Type: varchar
Max Length: 50

'SS Note Single Response Dictionary 12'

Column Name: ss_note_sing_dict_12_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_12_code. See ss_note_single_dict_12_code for more information.

Column Name: ss_note_sing_dict_13_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 13'

Column Name: ss_note_sing_dict_13_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_13_code. See ss_note_single_dict_13_code for more information.

Column Name: ss_note_sing_dict_14_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 14'

Column Name: ss_note_sing_dict_14_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_14_code. See ss_note_single_dict_14_code for more information.

Column Name: ss_note_sing_dict_15_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 15'

Column Name: ss_note_sing_dict_15_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_15_code. See ss_note_single_dict_15_code for more information.

Column Name: ss_note_sing_dict_16_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 16'

Column Name: ss_note_sing_dict_16_value

Column Type: varchar

Max Length: 50

The description associated with `ss_note_single_dict_16_code`. See `ss_note_single_dict_16_code` for more information.

Column Name: `ss_note_sing_dict_17_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 17'

Column Name: `ss_note_sing_dict_17_value`

Column Type: `varchar`

Max Length: 50

The description associated with `ss_note_single_dict_17_code`. See `ss_note_single_dict_17_code` for more information.

Column Name: `ss_note_sing_dict_18_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 18'

Column Name: `ss_note_sing_dict_18_value`

Column Type: `varchar`

Max Length: 50

The description associated with `ss_note_single_dict_18_code`. See `ss_note_single_dict_18_code` for more information.

Column Name: `ss_note_sing_dict_19_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 19'

Column Name: `ss_note_sing_dict_19_value`

Column Type: `varchar`

Max Length: 50

The description associated with `ss_note_single_dict_19_code`. See `ss_note_single_dict_19_code` for more information.

Column Name: `ss_note_sing_dict_20_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 20'

Column Name: `ss_note_sing_dict_20_value`

Column Type: `varchar`

Max Length: 50

The description associated with `ss_note_single_dict_20_code`. See `ss_note_single_dict_20_code` for more information.

Column Name: `ss_note_sing_dict_21_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 21'

Column Name: ss_note_sing_dict_21_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_21_code. See ss_note_single_dict_21_code for more information.

Column Name: ss_note_sing_dict_22_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 22'

Column Name: ss_note_sing_dict_22_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_22_code. See ss_note_single_dict_22_code for more information.

Column Name: ss_note_sing_dict_23_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 23'

Column Name: ss_note_sing_dict_23_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_23_code. See ss_note_single_dict_23_code for more information.

Column Name: ss_note_sing_dict_24_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 24'

Column Name: ss_note_sing_dict_24_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_24_code. See ss_note_single_dict_24_code for more information.

Column Name: ss_note_sing_dict_25_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 25'

Column Name: ss_note_sing_dict_25_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_25_code. See ss_note_single_dict_25_code for more information.

Column Name: ss_note_sing_dict_26_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 26'

Column Name: ss_note_sing_dict_26_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_26_code. See ss_note_single_dict_26_code for more information.

Column Name: ss_note_sing_dict_27_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 27'

Column Name: ss_note_sing_dict_27_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_27_code. See ss_note_single_dict_27_code for more information.

Column Name: ss_note_sing_dict_28_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 28'

Column Name: ss_note_sing_dict_28_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_28_code. See ss_note_single_dict_28_code for more information.

Column Name: ss_note_sing_dict_29_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 29'

Column Name: ss_note_sing_dict_29_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_29_code. See ss_note_single_dict_29_code for more information.

Column Name: ss_note_sing_dict_30_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 30'

Column Name: ss_note_sing_dict_30_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_single_dict_30_code. See ss_note_single_dict_30_code for more information.

Column Name: ss_note_time_11

Column Type: varchar

Max Length: 50

'SS Note Time 11'

Column Name: ss_note_time_12

Column Type: varchar

Max Length: 50

'SS Note Time 12'

Column Name: ss_note_time_13

Column Type: varchar

Max Length: 50

'SS Note Time 13'

Column Name: ss_note_time_14

Column Type: varchar

Max Length: 50

'SS Note Time 14'

Column Name: ss_note_time_15

Column Type: varchar

Max Length: 50

'SS Note Time 15'

Column Name: ss_note_time_16

Column Type: varchar

Max Length: 50

'SS Note Time 16'

Column Name: ss_note_time_17

Column Type: varchar

Max Length: 50

'SS Note Time 17'

Column Name: ss_note_time_18

Column Type: varchar

Max Length: 50

'SS Note Time 18'

Column Name: ss_note_time_19

Column Type: varchar

Max Length: 50
'SS Note Time 19'

Column Name: ss_note_time_20
Column Type: varchar
Max Length: 50
'SS Note Time 20'

Column Name: ss_note_time_21
Column Type: varchar
Max Length: 50
'SS Note Time 21'

Column Name: ss_note_time_22
Column Type: varchar
Max Length: 50
'SS Note Time 22'

Column Name: ss_note_time_23
Column Type: varchar
Max Length: 50
'SS Note Time 23'

Column Name: ss_note_time_24
Column Type: varchar
Max Length: 50
'SS Note Time 24'

Column Name: ss_note_time_25
Column Type: varchar
Max Length: 50
'SS Note Time 25'

Column Name: ss_note_time_26
Column Type: varchar
Max Length: 50
'SS Note Time 26'

Column Name: ss_note_time_27
Column Type: varchar
Max Length: 50
'SS Note Time 27'

Column Name: ss_note_time_28
Column Type: varchar
Max Length: 50
'SS Note Time 28'

Column Name: ss_note_time_29
Column Type: varchar

Max Length: 50
'SS Note Time 29'

Column Name: ss_note_time_30
Column Type: varchar
Max Length: 50
'SS Note Time 30'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form:

[Ambulatory_Progress_Notes_\(Diagnosis_Entry\)](#)

Table Name: CWSTEMP.cw_patient_notes_supp_1

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp1 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
'Progress Notes Pointer'

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar

Max Length: 50
The unique ID associated with the prefiller.

Column Name: confidential_note
Column Type: varchar
Max Length: 50
'Confidential Notes'

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 50
The user name that last updated the row.

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 50
The time the row was last updated.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 50
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: notes_field
Column Type: varchar
Max Length: 32766
'Notes Field'

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 50
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_31
Column Type: varchar
Max Length: 20
'SS Note 20 Character 31'

Column Name: ss_note_20_char_text_32
Column Type: varchar
Max Length: 20
'SS Note 20 Character 32'

Column Name: ss_note_20_char_text_33
Column Type: varchar
Max Length: 20
'SS Note 20 Character 33'

Column Name: ss_note_20_char_text_34
Column Type: varchar
Max Length: 20
'SS Note 20 Character 34'

Column Name: ss_note_20_char_text_35

Column Type: varchar
Max Length: 20
'SS Note 20 Character 35'

Column Name: ss_note_20_char_text_36
Column Type: varchar
Max Length: 20
'SS Note 20 Character 36'

Column Name: ss_note_20_char_text_37
Column Type: varchar
Max Length: 20
'SS Note 20 Character 37'

Column Name: ss_note_20_char_text_38
Column Type: varchar
Max Length: 20
'SS Note 20 Character 38'

Column Name: ss_note_20_char_text_39
Column Type: varchar
Max Length: 20
'SS Note 20 Character 39'

Column Name: ss_note_20_char_text_40
Column Type: varchar
Max Length: 20
'SS Note 20 Character 40'

Column Name: ss_note_20_char_text_41
Column Type: varchar
Max Length: 20
'SS Note 20 Character 41'

Column Type: varchar
Max Length: 20
'SS Note DSM IV Diagnosis 34'

Column Name: ss_note_dsm_diag_34_value
Column Type: varchar
Max Length: 250

The description associated with `ss_note_dsm_diag_34_code`. See `ss_note_dsm_diag_34_code` for more information.

Column Name: `ss_note_dsm_diag_35_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 35'

Column Name: `ss_note_dsm_diag_35_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_35_code`. See `ss_note_dsm_diag_35_code` for more information.

Column Name: `ss_note_dsm_diag_36_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 36'

Column Name: `ss_note_dsm_diag_36_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_36_code`. See `ss_note_dsm_diag_36_code` for more information.

Column Name: `ss_note_dsm_diag_37_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 37'

Column Name: `ss_note_dsm_diag_37_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_37_code`. See `ss_note_dsm_diag_37_code` for more information.

Column Name: `ss_note_dsm_diag_38_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 38'

Column Name: `ss_note_dsm_diag_38_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_dsm_diag_38_code`. See `ss_note_dsm_diag_38_code` for more information.

Column Name: `ss_note_dsm_diag_39_code`

Column Type: `varchar`

Max Length: 20

'SS Note DSM IV Diagnosis 39'

Column Name: ss_note_dsm_diag_39_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_39_code. See ss_note_dsm_diag_39_code for more information.

Column Name: ss_note_dsm_diag_40_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 40'

Column Name: ss_note_dsm_diag_40_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_40_code. See ss_note_dsm_diag_40_code for more information.

Column Name: ss_note_dsm_diag_41_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 41'

Column Name: ss_note_dsm_diag_41_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_41_code. See ss_note_dsm_diag_41_code for more information.

Column Name: ss_note_dsm_diag_42_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 42'

Column Name: ss_note_dsm_diag_42_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_42_code. See ss_note_dsm_diag_42_code for more information.

Column Name: ss_note_dsm_diag_43_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 43'

Column Name: ss_note_dsm_diag_43_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_43_code. See ss_note_dsm_diag_43_code for more information.

Column Name: ss_note_dsm_diag_44_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 44'

Column Name: ss_note_dsm_diag_44_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_44_code. See ss_note_dsm_diag_44_code for more information.

Column Name: ss_note_dsm_diag_45_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 45'

Column Name: ss_note_dsm_diag_45_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_45_code. See ss_note_dsm_diag_45_code for more information.

Column Name: ss_note_dsm_diag_46_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 46'

Column Name: ss_note_dsm_diag_46_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_46_code. See ss_note_dsm_diag_46_code for more information.

Column Name: ss_note_dsm_diag_47_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 47'

Column Name: ss_note_dsm_diag_47_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_47_code. See ss_note_dsm_diag_47_code for more information.

Column Name: ss_note_dsm_diag_48_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 48'

Column Name: ss_note_dsm_diag_48_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_48_code. See ss_note_dsm_diag_48_code for more information.

Column Name: ss_note_dsm_diag_49_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 49'

Column Name: ss_note_dsm_diag_49_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_49_code. See ss_note_dsm_diag_49_code for more information.

Column Name: ss_note_dsm_diag_50_code

Column Type: varchar

Max Length: 20

'SS Note DSM IV Diagnosis 50'

Column Name: ss_note_dsm_diag_50_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_dsm_diag_50_code. See ss_note_dsm_diag_50_code for more information.

Column Name: ss_note_icd9_diag_31_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 31'

Column Name: ss_note_icd9_diag_31_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_31_code. See ss_note_icd9_diag_31_code for more information.

Column Name: ss_note_icd9_diag_32_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 32'

Column Name: ss_note_icd9_diag_32_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_32_code`. See `ss_note_icd9_diag_32_code` for more information.

Column Name: `ss_note_icd9_diag_33_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 33'

Column Name: `ss_note_icd9_diag_33_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_33_code`. See `ss_note_icd9_diag_33_code` for more information.

Column Name: `ss_note_icd9_diag_34_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 34'

Column Name: `ss_note_icd9_diag_34_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_34_code`. See `ss_note_icd9_diag_34_code` for more information.

Column Name: `ss_note_icd9_diag_35_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 35'

Column Name: `ss_note_icd9_diag_35_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_35_code`. See `ss_note_icd9_diag_35_code` for more information.

Column Name: `ss_note_icd9_diag_36_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 36'

Column Name: `ss_note_icd9_diag_36_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_36_code`. See `ss_note_icd9_diag_36_code` for more information.

Column Name: `ss_note_icd9_diag_37_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 37'

Column Name: ss_note_icd9_diag_37_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_37_code. See ss_note_icd9_diag_37_code for more information.

Column Name: ss_note_icd9_diag_38_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 38'

Column Name: ss_note_icd9_diag_38_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_38_code. See ss_note_icd9_diag_38_code for more information.

Column Name: ss_note_icd9_diag_39_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 39'

Column Name: ss_note_icd9_diag_39_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_39_code. See ss_note_icd9_diag_39_code for more information.

Column Name: ss_note_icd9_diag_40_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 40'

Column Name: ss_note_icd9_diag_40_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_40_code. See ss_note_icd9_diag_40_code for more information.

Column Name: ss_note_icd9_diag_41_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 41'

Column Name: ss_note_icd9_diag_41_value

Column Type: varchar

Max Length: 250

The description associated with `ss_note_icd9_diag_41_code`. See `ss_note_icd9_diag_41_code` for more information.

Column Name: `ss_note_icd9_diag_42_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 42'

Column Name: `ss_note_icd9_diag_42_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_42_code`. See `ss_note_icd9_diag_42_code` for more information.

Column Name: `ss_note_icd9_diag_43_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 43'

Column Name: `ss_note_icd9_diag_43_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_43_code`. See `ss_note_icd9_diag_43_code` for more information.

Column Name: `ss_note_icd9_diag_44_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 44'

Column Name: `ss_note_icd9_diag_44_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_44_code`. See `ss_note_icd9_diag_44_code` for more information.

Column Name: `ss_note_icd9_diag_45_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 45'

Column Name: `ss_note_icd9_diag_45_value`

Column Type: `varchar`

Max Length: 250

The description associated with `ss_note_icd9_diag_45_code`. See `ss_note_icd9_diag_45_code` for more information.

Column Name: `ss_note_icd9_diag_46_code`

Column Type: `varchar`

Max Length: 20

'SS Note ICD-9 Code 46'

Column Name: ss_note_icd9_diag_46_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_46_code. See ss_note_icd9_diag_46_code for more information.

Column Name: ss_note_icd9_diag_47_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 47'

Column Name: ss_note_icd9_diag_47_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_47_code. See ss_note_icd9_diag_47_code for more information.

Column Name: ss_note_icd9_diag_48_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 48'

Column Name: ss_note_icd9_diag_48_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_48_code. See ss_note_icd9_diag_48_code for more information.

Column Name: ss_note_icd9_diag_49_code

Column Type: varchar

Max Length: 20

'SS Note ICD-9 Code 49'

Column Name: ss_note_icd9_diag_49_value

Column Type: varchar

Max Length: 250

The description associated with ss_note_icd9_diag_49_code. See ss_note_icd9_diag_49_code for more information.

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_44_code. See ss_note_multi_dict_44_code for more information.

Column Name: ss_note_multi_dict_45_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 45'

Column Name: ss_note_multi_dict_45_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_45_code. See ss_note_multi_dict_45_code for more information.

Column Name: ss_note_multi_dict_46_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 46'

Column Name: ss_note_multi_dict_46_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_46_code. See ss_note_multi_dict_46_code for more information.

Column Name: ss_note_multi_dict_47_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 47'

Column Name: ss_note_multi_dict_47_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_47_code. See ss_note_multi_dict_47_code for more information.

Column Name: ss_note_multi_dict_48_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 48'

Column Name: ss_note_multi_dict_48_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_48_code. See ss_note_multi_dict_48_code for more information.

Column Name: ss_note_multi_dict_49_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 49'

Column Name: ss_note_multi_dict_49_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_49_code. See ss_note_multi_dict_49_code for more information.

Column Name: ss_note_multi_dict_50_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 50'

Column Name: ss_note_multi_dict_50_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_multi_dict_50_code. See ss_note_multi_dict_50_code for more information.

Column Name: ss_note_sing_dict_31_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 31'

Column Name: ss_note_sing_dict_31_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_31_code. See ss_note_sing_dict_31_code for more information.

Column Name: ss_note_sing_dict_32_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 32'

Column Name: ss_note_sing_dict_32_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_32_code. See ss_note_sing_dict_32_code for more information.

Column Name: ss_note_sing_dict_33_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 33'

Column Name: ss_note_sing_dict_33_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_33_code. See ss_note_sing_dict_33_code for more information.

Column Name: ss_note_sing_dict_34_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 34'

Column Name: ss_note_sing_dict_34_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_34_code. See ss_note_sing_dict_34_code for more information.

Column Name: ss_note_sing_dict_35_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 35'

Column Name: ss_note_sing_dict_35_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_35_code. See ss_note_sing_dict_35_code for more information.

Column Name: ss_note_sing_dict_36_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 36'

Column Name: ss_note_sing_dict_36_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_36_code. See ss_note_sing_dict_36_code for more information.

Column Name: ss_note_sing_dict_37_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 37'

Column Name: ss_note_sing_dict_37_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_37_code. See ss_note_sing_dict_37_code for more information.

Column Name: ss_note_sing_dict_38_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 38'

Column Name: ss_note_sing_dict_38_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_38_code. See ss_note_sing_dict_38_code for more information.

Column Name: ss_note_sing_dict_39_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 39'

Column Name: ss_note_sing_dict_39_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_39_code. See ss_note_sing_dict_39_code for more information.

Column Name: ss_note_sing_dict_40_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 40'

Column Name: ss_note_sing_dict_40_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_40_code. See ss_note_sing_dict_40_code for more information.

Column Name: ss_note_sing_dict_41_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 41'

Column Name: ss_note_sing_dict_41_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_41_code. See ss_note_sing_dict_41_code for more information.

Column Name: ss_note_sing_dict_42_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 42'

Column Name: ss_note_sing_dict_42_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_42_code. See ss_note_sing_dict_42_code for more information.

Column Name: ss_note_sing_dict_43_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 43'

Column Name: ss_note_sing_dict_43_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_43_code. See ss_note_sing_dict_43_code for more information.

Column Name: ss_note_sing_dict_44_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 44'

Column Name: ss_note_sing_dict_44_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_44_code. See ss_note_sing_dict_44_code for more information.

Column Name: ss_note_sing_dict_45_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 45'

Column Name: ss_note_sing_dict_45_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_45_code. See ss_note_sing_dict_45_code for more information.

Column Name: ss_note_sing_dict_46_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 46'

Column Name: ss_note_sing_dict_46_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_46_code. See ss_note_sing_dict_46_code for more information.

Column Name: ss_note_sing_dict_47_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 47'

Column Name: ss_note_sing_dict_47_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_47_code. See ss_note_sing_dict_47_code for more information.

Column Name: ss_note_sing_dict_48_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 48'

Column Name: ss_note_sing_dict_48_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_48_code. See ss_note_sing_dict_48_code for more information.

Column Name: ss_note_sing_dict_49_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 49'

Column Name: ss_note_sing_dict_49_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_49_code. See ss_note_sing_dict_49_code for more information.

Column Name: ss_note_sing_dict_50_code

Column Type: varchar

Max Length: 20

'SS Note Single Response Dictionary 50'

Column Name: ss_note_sing_dict_50_value

Column Type: varchar

Max Length: 80

The description associated with ss_note_sing_dict_50_code. See ss_note_sing_dict_50_code for more information.

Column Name: ss_note_time_31

Column Type: varchar

Max Length: 50

'SS Note Time 31'

Column Name: ss_note_time_32

Max Length: 50
'SS Note Time 45'

Column Name: ss_note_time_46
Column Type: varchar
Max Length: 50
'SS Note Time 46'

Column Name: ss_note_time_47

Column Type: varchar
Max Length: 50
'SS Note Time 47'

Column Name: ss_note_time_48
Column Type: varchar
Max Length: 50
'SS Note Time 48'

Column Name: ss_note_time_49
Column Type: varchar
Max Length: 50
'SS Note Time 49'

Column Name: ss_note_time_50
Column Type: varchar
Max Length: 50
'SS Note Time 50'

Column Name: user_row_access_code
Column Type: integer
If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form:

Ambulatory_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes_supp_2

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp2 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the row.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the row.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: option_desc
Column Type: varchar
Max Length: 80
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form:

Ambulatory_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes_supp_3

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp3 table.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date

Column Type: date

The date the row was last updated.

Column Name: data_entry_by

Column Type: varchar

Max Length: 40

The user who last updated the row.

Column Name: data_entry_time

Column Type: varchar

Max Length: 10

The time the row was last updated.

Column Name: data_entry_by_option

Column Type: varchar

Max Length: 40

The user name that last updated the row.

Column Name: EPISODE_NUMBER

Column Type: integer

The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
The unique ID associated with the note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the row.

Column Name: data_entry_user_name
Column Type: varchar

Max Length: 40

The user name who last updated the row.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: form_number

Column Type: varchar

Max Length: 50

The form number of the form that last updated the row.

Column Name: option_desc

Column Type: varchar

Max Length: 80

The name of the form that last updated the row.

Column Name: option_id

Column Type: varchar

Max Length: 20

The unique ID of the form that last updated the row.

Column Name: ss_notec_multi_dict_10_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 10'

Column Name: ss_notec_multi_dict_10_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_10_code. See ss_notec_multi_dict_10_code for more information.

Column Name: ss_notec_multi_dict_11_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 11'

Column Name: ss_notec_multi_dict_11_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_11_code. See ss_notec_multi_dict_11_code for more information.

Column Name: ss_notec_multi_dict_12_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 12'

Column Name: ss_notec_multi_dict_12_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_12_code. See ss_notec_multi_dict_12_code for more information.

Column Name: ss_notec_multi_dict_13_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 13'

Column Name: ss_notec_multi_dict_13_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_13_code. See ss_notec_multi_dict_13_code for more information.

Column Name: ss_notec_multi_dict_14_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 14'

Column Name: ss_notec_multi_dict_14_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_14_code. See ss_notec_multi_dict_14_code for more information.

Column Name: ss_notec_multi_dict_15_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 15'

Column Name: ss_notec_multi_dict_15_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_15_code. See ss_notec_multi_dict_15_code for more information.

Column Name: ss_notec_multi_dict_16_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 16'

Column Name: ss_notec_multi_dict_16_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_16_code. See ss_notec_multi_dict_16_code for more information.

Column Name: ss_notec_multi_dict_17_code

Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 17'

Column Name: ss_notec_multi_dict_17_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_17_code. See ss_notec_multi_dict_17_code for more information.

Column Name: ss_notec_multi_dict_18_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 18'

Column Name: ss_notec_multi_dict_18_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_18_code. See ss_notec_multi_dict_18_code for more information.

Column Name: ss_notec_multi_dict_19_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 19'

Column Name: ss_notec_multi_dict_19_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_19_code. See ss_notec_multi_dict_19_code for more information.

Column Name: ss_notec_multi_dict_1_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 1'

Column Name: ss_notec_multi_dict_1_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_1_code. See ss_notec_multi_dict_1_code for more information.

Column Name: ss_notec_multi_dict_20_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 20'

Column Name: ss_notec_multi_dict_20_value
Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_20_code. See ss_notec_multi_dict_20_code for more information.

Column Name: ss_notec_multi_dict_21_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 21'

Column Name: ss_notec_multi_dict_21_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_21_code. See ss_notec_multi_dict_21_code for more information.

Column Name: ss_notec_multi_dict_22_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 22'

Column Name: ss_notec_multi_dict_22_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_22_code. See ss_notec_multi_dict_22_code for more information.

Column Name: ss_notec_multi_dict_23_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 23'

Column Name: ss_notec_multi_dict_23_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_23_code. See ss_notec_multi_dict_23_code for more information.

Column Name: ss_notec_multi_dict_24_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 24'

Column Name: ss_notec_multi_dict_24_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_24_code. See ss_notec_multi_dict_24_code for more information.

Column Name: ss_notec_multi_dict_25_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 25'

Column Name: ss_notec_multi_dict_25_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_25_code. See ss_notec_multi_dict_25_code for more information.

Column Name: ss_notec_multi_dict_26_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 26'

Column Name: ss_notec_multi_dict_26_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_26_code. See ss_notec_multi_dict_26_code for more information.

Column Name: ss_notec_multi_dict_27_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 27'

Column Name: ss_notec_multi_dict_27_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_27_code. See ss_notec_multi_dict_27_code for more information.

Column Name: ss_notec_multi_dict_28_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 28'

Column Name: ss_notec_multi_dict_28_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_28_code. See ss_notec_multi_dict_28_code for more information.

Column Name: ss_notec_multi_dict_29_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 29'

Column Name: ss_notec_multi_dict_29_value

Column Type: varchar

Max Length: 32759

The description associated with `ss_notec_multi_dict_29_code`. See `ss_notec_multi_dict_29_code` for more information.

Column Name: `ss_notec_multi_dict_2_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 2'

Column Name: `ss_notec_multi_dict_2_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_2_code`. See `ss_notec_multi_dict_2_code` for more information.

Column Name: `ss_notec_multi_dict_30_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 30'

Column Name: `ss_notec_multi_dict_30_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_30_code`. See `ss_notec_multi_dict_30_code` for more information.

Column Name: `ss_notec_multi_dict_31_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 31'

Column Name: `ss_notec_multi_dict_31_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_31_code`. See `ss_notec_multi_dict_31_code` for more information.

Column Name: `ss_notec_multi_dict_32_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 32'

Column Name: `ss_notec_multi_dict_32_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_32_code`. See `ss_notec_multi_dict_32_code` for more information.

Column Name: `ss_notec_multi_dict_33_code`
Column Type: `varchar`
Max Length: 255

'SS Note Copy Multiple Response Dictionary 33'

Column Name: ss_notec_multi_dict_33_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_33_code. See ss_notec_multi_dict_33_code for more information.

Column Name: ss_notec_multi_dict_34_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 34'

Column Name: ss_notec_multi_dict_34_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_34_code. See ss_notec_multi_dict_34_code for more information.

Column Name: ss_notec_multi_dict_35_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 35'

Column Name: ss_notec_multi_dict_35_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_35_code. See ss_notec_multi_dict_35_code for more information.

Column Name: ss_notec_multi_dict_36_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 36'

Column Name: ss_notec_multi_dict_36_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_36_code. See ss_notec_multi_dict_36_code for more information.

Column Name: ss_notec_multi_dict_37_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 37'

Column Name: ss_notec_multi_dict_37_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_37_code. See ss_notec_multi_dict_37_code for more information.

Column Name: ss_notec_multi_dict_38_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 38'

Column Name: ss_notec_multi_dict_38_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_38_code. See ss_notec_multi_dict_38_code for more information.

Column Name: ss_notec_multi_dict_39_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 39'

Column Name: ss_notec_multi_dict_39_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_39_code. See ss_notec_multi_dict_39_code for more information.

Column Name: ss_notec_multi_dict_3_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 3'

Column Name: ss_notec_multi_dict_3_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_3_code. See ss_notec_multi_dict_3_code for more information.

Column Name: ss_notec_multi_dict_40_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 40'

Column Name: ss_notec_multi_dict_40_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_40_code. See ss_notec_multi_dict_40_code for more information.

Column Name: ss_notec_multi_dict_41_code
Column Type: varchar
Max Length: 255

'SS Note Copy Multiple Response Dictionary 41'

Column Name: ss_notec_multi_dict_41_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_41_code. See ss_notec_multi_dict_41_code for more information.

Column Name: ss_notec_multi_dict_42_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 42'

Column Name: ss_notec_multi_dict_42_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_42_code. See ss_notec_multi_dict_42_code for more information.

Column Name: ss_notec_multi_dict_43_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 43'

Column Name: ss_notec_multi_dict_43_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_43_code. See ss_notec_multi_dict_43_code for more information.

Column Name: ss_notec_multi_dict_44_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 44'

Column Name: ss_notec_multi_dict_44_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_44_code. See ss_notec_multi_dict_44_code for more information.

Column Name: ss_notec_multi_dict_45_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 45'

Column Name: ss_notec_multi_dict_45_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_45_code. See ss_notec_multi_dict_45_code for more information.

Column Name: ss_notec_multi_dict_46_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 46'

Column Name: ss_notec_multi_dict_46_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_46_code. See ss_notec_multi_dict_46_code for more information.

Column Name: ss_notec_multi_dict_47_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 47'

Column Name: ss_notec_multi_dict_47_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_47_code. See ss_notec_multi_dict_47_code for more information.

Column Name: ss_notec_multi_dict_48_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 48'

Column Name: ss_notec_multi_dict_48_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_48_code. See ss_notec_multi_dict_48_code for more information.

Column Name: ss_notec_multi_dict_49_code
Column Type: varchar
Max Length: 255
'SS Note Copy Multiple Response Dictionary 49'

Column Name: ss_notec_multi_dict_49_value
Column Type: varchar
Max Length: 32759
The description associated with ss_notec_multi_dict_49_code. See ss_notec_multi_dict_49_code for more information.

Column Name: ss_notec_multi_dict_4_code
Column Type: varchar
Max Length: 255

'SS Note Copy Multiple Response Dictionary 4'

Column Name: ss_notec_multi_dict_4_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_4_code. See ss_notec_multi_dict_4_code for more information.

Column Name: ss_notec_multi_dict_50_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 50'

Column Name: ss_notec_multi_dict_50_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_50_code. See ss_notec_multi_dict_50_code for more information.

Column Name: ss_notec_multi_dict_5_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 5'

Column Name: ss_notec_multi_dict_5_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_5_code. See ss_notec_multi_dict_5_code for more information.

Column Name: ss_notec_multi_dict_6_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 6'

Column Name: ss_notec_multi_dict_6_value

Column Type: varchar

Max Length: 32759

The description associated with ss_notec_multi_dict_6_code. See ss_notec_multi_dict_6_code for more information.

Column Name: ss_notec_multi_dict_7_code

Column Type: varchar

Max Length: 255

'SS Note Copy Multiple Response Dictionary 7'

Column Name: ss_notec_multi_dict_7_value

Column Type: varchar

Max Length: 32759

The description associated with `ss_notec_multi_dict_7_code`. See `ss_notec_multi_dict_7_code` for more information.

Column Name: `ss_notec_multi_dict_8_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 8'

Column Name: `ss_notec_multi_dict_8_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_8_code`. See `ss_notec_multi_dict_8_code` for more information.

Column Name: `ss_notec_multi_dict_9_code`
Column Type: `varchar`
Max Length: 255
'SS Note Copy Multiple Response Dictionary 9'

Column Name: `ss_notec_multi_dict_9_value`
Column Type: `varchar`
Max Length: 32759
The description associated with `ss_notec_multi_dict_9_code`. See `ss_notec_multi_dict_9_code` for more information.

Column Name: `ss_notec_sing_dict_10_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 10'

Column Name: `ss_notec_sing_dict_10_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notec_sing_dict_10_code`. See `ss_notec_sing_dict_10_code` for more information.

Column Name: `ss_notec_sing_dict_11_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Single Response Dictionary 11'

Column Name: `ss_notec_sing_dict_11_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notec_sing_dict_11_code`. See `ss_notec_sing_dict_11_code` for more information.

Column Name: `ss_notec_sing_dict_12_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Single Response Dictionary 12'

Column Name: ss_notec_sing_dict_12_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_12_code. See ss_notec_sing_dict_12_code for more information.

Column Name: ss_notec_sing_dict_13_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 13'

Column Name: ss_notec_sing_dict_13_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_13_code. See ss_notec_sing_dict_13_code for more information.

Column Name: ss_notec_sing_dict_14_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 14'

Column Name: ss_notec_sing_dict_14_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_14_code. See ss_notec_sing_dict_14_code for more information.

Column Name: ss_notec_sing_dict_15_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 15'

Column Name: ss_notec_sing_dict_15_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_15_code. See ss_notec_sing_dict_15_code for more information.

Column Name: ss_notec_sing_dict_16_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 16'

Column Name: ss_notec_sing_dict_16_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_16_code. See ss_notec_sing_dict_16_code for more information.

Column Name: ss_notec_sing_dict_17_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 17'

Column Name: ss_notec_sing_dict_17_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_17_code. See ss_notec_sing_dict_17_code for more information.

Column Name: ss_notec_sing_dict_18_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 18'

Column Name: ss_notec_sing_dict_18_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_18_code. See ss_notec_sing_dict_18_code for more information.

Column Name: ss_notec_sing_dict_19_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 19'

Column Name: ss_notec_sing_dict_19_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_19_code. See ss_notec_sing_dict_19_code for more information.

Column Name: ss_notec_sing_dict_1_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 1'

Column Name: ss_notec_sing_dict_1_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_1_code. See ss_notec_sing_dict_1_code for more information.

Column Name: ss_notec_sing_dict_20_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 20'

Column Name: ss_notec_sing_dict_20_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_20_code. See ss_notec_sing_dict_20_code for more information.

Column Name: ss_notec_sing_dict_21_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 21'

Column Name: ss_notec_sing_dict_21_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_21_code. See ss_notec_sing_dict_21_code for more information.

Column Name: ss_notec_sing_dict_22_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 22'

Column Name: ss_notec_sing_dict_22_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_22_code. See ss_notec_sing_dict_22_code for more information.

Column Name: ss_notec_sing_dict_23_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 23'

Column Name: ss_notec_sing_dict_23_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_23_code. See ss_notec_sing_dict_23_code for more information.

Column Name: ss_notec_sing_dict_24_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 24'

Column Name: ss_notec_sing_dict_24_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_24_code. See ss_notec_sing_dict_24_code for more information.

Column Name: ss_notec_sing_dict_25_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 25'

Column Name: ss_notec_sing_dict_25_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_25_code. See ss_notec_sing_dict_25_code for more information.

Column Name: ss_notec_sing_dict_26_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 26'

Column Name: ss_notec_sing_dict_26_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_26_code. See ss_notec_sing_dict_26_code for more information.

Column Name: ss_notec_sing_dict_27_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 27'

Column Name: ss_notec_sing_dict_27_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_27_code. See ss_notec_sing_dict_27_code for more information.

Column Name: ss_notec_sing_dict_28_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 28'

Column Name: ss_notec_sing_dict_28_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_28_code. See ss_notec_sing_dict_28_code for more information.

Column Name: ss_notec_sing_dict_29_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 29'

Column Name: ss_notec_sing_dict_29_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_29_code. See ss_notec_sing_dict_29_code for more information.

Column Name: ss_notec_sing_dict_2_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 2'

Column Name: ss_notec_sing_dict_2_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_2_code. See ss_notec_sing_dict_2_code for more information.

Column Name: ss_notec_sing_dict_30_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 30'

Column Name: ss_notec_sing_dict_30_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_30_code. See ss_notec_sing_dict_30_code for more information.

Column Name: ss_notec_sing_dict_31_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 31'

Column Name: ss_notec_sing_dict_31_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_31_code. See ss_notec_sing_dict_31_code for more information.

Column Name: ss_notec_sing_dict_32_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 32'

Column Name: ss_notec_sing_dict_32_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_32_code. See ss_notec_sing_dict_32_code for more information.

Column Name: ss_notec_sing_dict_33_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 33'

Column Name: ss_notec_sing_dict_33_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_33_code. See ss_notec_sing_dict_33_code for more information.

Column Name: ss_notec_sing_dict_34_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 34'

Column Name: ss_notec_sing_dict_34_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_34_code. See ss_notec_sing_dict_34_code for more information.

Column Name: ss_notec_sing_dict_35_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 35'

Column Name: ss_notec_sing_dict_35_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_35_code. See ss_notec_sing_dict_35_code for more information.

Column Name: ss_notec_sing_dict_36_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 36'

Column Name: ss_notec_sing_dict_36_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_36_code. See ss_notec_sing_dict_36_code for more information.

Column Name: ss_notec_sing_dict_37_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 37'

Column Name: ss_notec_sing_dict_37_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_37_code. See ss_notec_sing_dict_37_code for more information.

Column Name: ss_notec_sing_dict_38_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 38'

Column Name: ss_notec_sing_dict_38_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_38_code. See ss_notec_sing_dict_38_code for more information.

Column Name: ss_notec_sing_dict_39_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 39'

Column Name: ss_notec_sing_dict_39_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_39_code. See ss_notec_sing_dict_39_code for more information.

Column Name: ss_notec_sing_dict_3_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 3'

Column Name: ss_notec_sing_dict_3_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_3_code. See ss_notec_sing_dict_3_code for more information.

Column Name: ss_notec_sing_dict_40_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 40'

Column Name: ss_notec_sing_dict_40_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_40_code. See ss_notec_sing_dict_40_code for more information.

Column Name: ss_notec_sing_dict_41_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 41'

Column Name: ss_notec_sing_dict_41_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_41_code. See ss_notec_sing_dict_41_code for more information.

Column Name: ss_notec_sing_dict_42_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 42'

Column Name: ss_notec_sing_dict_42_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_42_code. See ss_notec_sing_dict_42_code for more information.

Column Name: ss_notec_sing_dict_43_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 43'

Column Name: ss_notec_sing_dict_43_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_43_code. See ss_notec_sing_dict_43_code for more information.

Column Name: ss_notec_sing_dict_44_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 44'

Column Name: ss_notec_sing_dict_44_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_44_code. See ss_notec_sing_dict_44_code for more information.

Column Name: ss_notec_sing_dict_45_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 45'

Column Name: ss_notec_sing_dict_45_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_45_code. See ss_notec_sing_dict_45_code for more information.

Column Name: ss_notec_sing_dict_46_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 46'

Column Name: ss_notec_sing_dict_46_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_46_code. See ss_notec_sing_dict_46_code for more information.

Column Name: ss_notec_sing_dict_47_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 47'

Column Name: ss_notec_sing_dict_47_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_47_code. See ss_notec_sing_dict_47_code for more information.

Column Name: ss_notec_sing_dict_48_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 48'

Column Name: ss_notec_sing_dict_48_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_48_code. See ss_notec_sing_dict_48_code for more information.

Column Name: ss_notec_sing_dict_49_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 49'

Column Name: ss_notec_sing_dict_49_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_49_code. See ss_notec_sing_dict_49_code for more information.

Column Name: ss_notec_sing_dict_4_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 4'

Column Name: ss_notec_sing_dict_4_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_4_code. See ss_notec_sing_dict_4_code for more information.

Column Name: ss_notec_sing_dict_50_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 50'

Column Name: ss_notec_sing_dict_50_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_50_code. See ss_notec_sing_dict_50_code for more information.

Column Name: ss_notec_sing_dict_5_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 5'

Column Name: ss_notec_sing_dict_5_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_5_code. See ss_notec_sing_dict_5_code for more information.

Column Name: ss_notec_sing_dict_6_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 6'

Column Name: ss_notec_sing_dict_6_value
Column Type: varchar
Max Length: 255
The description associated with ss_notec_sing_dict_6_code. See ss_notec_sing_dict_6_code for more information.

Column Name: ss_notec_sing_dict_7_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 7'

Column Name: ss_notec_sing_dict_7_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_7_code. See ss_notec_sing_dict_7_code for more information.

Column Name: ss_notec_sing_dict_8_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 8'

Column Name: ss_notec_sing_dict_8_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_8_code. See ss_notec_sing_dict_8_code for more information.

Column Name: ss_notec_sing_dict_9_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 9'

Column Name: ss_notec_sing_dict_9_value

Column Type: varchar

Max Length: 255

The description associated with ss_notec_sing_dict_9_code. See ss_notec_sing_dict_9_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form:

[Ambulatory_Progress_Notes_\(Diagnosis_Entry\)](#)

Table Name: CWSTEMP.cw_patient_notes_supp_4

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp4 table.

Column Name: ID

Column Type: varchar

Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a progress note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiller.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_source
Column Type: varchar
Max Length: 255
The name of the form that last updated the row.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notc_mult_dic_51_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 51'

Column Name: ss_notc_mult_dic_51_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_51_code. See ss_notc_mult_dic_51_code for more information.

Column Name: ss_notc_mult_dic_52_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 52'

Column Name: ss_notc_mult_dic_52_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_52_code. See ss_notc_mult_dic_52_code for more information.

Column Name: ss_notc_mult_dic_53_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 53'

Column Name: ss_notc_mult_dic_53_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_53_code. See ss_notc_mult_dic_53_code for more information.

Column Name: ss_notc_mult_dic_54_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 54'

Column Name: ss_notc_mult_dic_54_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_54_code. See ss_notc_mult_dic_54_code for more information.

Column Name: ss_notc_mult_dic_55_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 55'

Column Name: ss_notc_mult_dic_55_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_55_code. See ss_notc_mult_dic_55_code for more information.

Column Name: ss_notc_mult_dic_56_code

Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 56'

Column Name: ss_notc_mult_dic_56_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_56_code. See ss_notc_mult_dic_56_code for more information.

Column Name: ss_notc_mult_dic_57_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 57'

Column Name: ss_notc_mult_dic_57_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_57_code. See ss_notc_mult_dic_57_code for more information.

Column Name: ss_notc_mult_dic_58_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 58'

Column Name: ss_notc_mult_dic_58_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_58_code. See ss_notc_mult_dic_58_code for more information.

Column Name: ss_notc_mult_dic_59_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 59'

Column Name: ss_notc_mult_dic_59_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mult_dic_59_code. See ss_notc_mult_dic_59_code for more information.

Column Name: ss_notc_mult_dic_60_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 60'

Column Name: ss_notc_mult_dic_60_value
Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_60_code. See ss_notc_mult_dic_60_code for more information.

Column Name: ss_notc_mult_dic_61_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 61'

Column Name: ss_notc_mult_dic_61_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_61_code. See ss_notc_mult_dic_61_code for more information.

Column Name: ss_notc_mult_dic_62_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 62'

Column Name: ss_notc_mult_dic_62_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_62_code. See ss_notc_mult_dic_62_code for more information.

Column Name: ss_notc_mult_dic_63_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 63'

Column Name: ss_notc_mult_dic_63_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_63_code. See ss_notc_mult_dic_63_code for more information.

Column Name: ss_notc_mult_dic_64_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 64'

Column Name: ss_notc_mult_dic_64_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_64_code. See ss_notc_mult_dic_64_code for more information.

Column Name: ss_notc_mult_dic_65_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 65'

Column Name: ss_notc_mult_dic_65_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_mult_dic_65_code. See ss_notc_mult_dic_65_code for more information.

Column Name: ss_notc_mult_dic_66_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 66'

Column Name: ss_notc_mult_dic_66_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_66_code. See ss_notc_mult_dic_66_code for more information.

Column Name: ss_notc_mult_dic_67_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 67'

Column Name: ss_notc_mult_dic_67_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_67_code. See ss_notc_mult_dic_67_code for more information.

Column Name: ss_notc_mult_dic_68_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 68'

Column Name: ss_notc_mult_dic_68_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_68_code. See ss_notc_mult_dic_68_code for more information.

Column Name: ss_notc_mult_dic_69_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 69'

Column Name: ss_notc_mult_dic_69_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mult_dic_69_code`. See `ss_notc_mult_dic_69_code` for more information.

Column Name: `ss_notc_mult_dic_70_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 70'

Column Name: `ss_notc_mult_dic_70_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_70_code`. See `ss_notc_mult_dic_70_code` for more information.

Column Name: `ss_notc_mult_dic_71_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 71'

Column Name: `ss_notc_mult_dic_71_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_71_code`. See `ss_notc_mult_dic_71_code` for more information.

Column Name: `ss_notc_mult_dic_72_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 72'

Column Name: `ss_notc_mult_dic_72_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_72_code`. See `ss_notc_mult_dic_72_code` for more information.

Column Name: `ss_notc_mult_dic_73_code`
Column Type: `varchar`
Max Length: 50
'SS Note Copy Multiple Response Dictionary 73'

Column Name: `ss_notc_mult_dic_73_value`
Column Type: `varchar`
Max Length: 255
The description associated with `ss_notc_mult_dic_73_code`. See `ss_notc_mult_dic_73_code` for more information.

Column Name: `ss_notc_mult_dic_74_code`
Column Type: `varchar`
Max Length: 50

'SS Note Copy Multiple Response Dictionary 74'

Column Name: ss_notc_mult_dic_74_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_74_code. See ss_notc_mult_dic_74_code for more information.

Column Name: ss_notc_mult_dic_75_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 75'

Column Name: ss_notc_mult_dic_75_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_mult_dic_75_code. See ss_notc_mult_dic_75_code for more information.

Column Name: ss_notc_mult_dic_76_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 76'

Column Name: ss_notc_mult_dic_76_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_76_code. See ss_notc_mult_dic_76_code for more information.

Column Name: ss_notc_mult_dic_77_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 77'

Column Name: ss_notc_mult_dic_77_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mult_dic_77_code. See ss_notc_mult_dic_77_code for more information.

Column Name: ss_notc_mult_dic_78_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 78'

Column Name: ss_notc_mult_dic_78_value

Column Type: varchar

Max Length: 255

The description associated with `ss_notc_mult_dic_78_code`. See `ss_notc_mult_dic_78_code` for more information.

Column Name: `ss_notc_mult_dic_79_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 79'

Column Name: `ss_notc_mult_dic_79_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_79_code`. See `ss_notc_mult_dic_79_code` for more information.

Column Name: `ss_notc_mult_dic_80_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Multiple Response Dictionary 80'

Column Name: `ss_notc_mult_dic_80_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_mult_dic_80_code`. See `ss_notc_mult_dic_80_code` for more information.

Column Name: `ss_notc_sin_dic_51_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Single Response Dictionary 51'

Column Name: `ss_notc_sin_dic_51_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_sin_dic_51_code`. See `ss_notc_sin_dic_51_code` for more information.

Column Name: `ss_notc_sin_dic_52_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Single Response Dictionary 52'

Column Name: `ss_notc_sin_dic_52_value`

Column Type: `varchar`

Max Length: 255

The description associated with `ss_notc_sin_dic_52_code`. See `ss_notc_sin_dic_52_code` for more information.

Column Name: `ss_notc_sin_dic_53_code`

Column Type: `varchar`

Max Length: 50

'SS Note Copy Single Response Dictionary 53'

Column Name: ss_notc_sin_dic_53_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_53_code. See ss_notc_sin_dic_53_code for more information.

Column Name: ss_notc_sin_dic_54_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 54'

Column Name: ss_notc_sin_dic_54_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_54_code. See ss_notc_sin_dic_54_code for more information.

Column Name: ss_notc_sin_dic_55_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 55'

Column Name: ss_notc_sin_dic_55_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_55_code. See ss_notc_sin_dic_55_code for more information.

Column Name: ss_notc_sin_dic_56_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 56'

Column Name: ss_notc_sin_dic_56_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_56_code. See ss_notc_sin_dic_56_code for more information.

Column Name: ss_notc_sin_dic_57_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 57'

Column Name: ss_notc_sin_dic_57_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_57_code. See ss_notc_sin_dic_57_code for more information.

Column Name: ss_notc_sin_dic_58_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 58'

Column Name: ss_notc_sin_dic_58_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_58_code. See ss_notc_sin_dic_58_code for more information.

Column Name: ss_notc_sin_dic_59_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 59'

Column Name: ss_notc_sin_dic_59_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_59_code. See ss_notc_sin_dic_59_code for more information.

Column Name: ss_notc_sin_dic_60_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 60'

Column Name: ss_notc_sin_dic_60_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_60_code. See ss_notc_sin_dic_60_code for more information.

Column Name: ss_notc_sin_dic_61_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 61'

Column Name: ss_notc_sin_dic_61_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_61_code. See ss_notc_sin_dic_61_code for more information.

Column Name: ss_notc_sin_dic_62_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 62'

Column Name: ss_notc_sin_dic_62_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_62_code. See ss_notc_sin_dic_62_code for more information.

Column Name: ss_notc_sin_dic_63_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 63'

Column Name: ss_notc_sin_dic_63_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_63_code. See ss_notc_sin_dic_63_code for more information.

Column Name: ss_notc_sin_dic_64_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 64'

Column Name: ss_notc_sin_dic_64_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_64_code. See ss_notc_sin_dic_64_code for more information.

Column Name: ss_notc_sin_dic_65_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 65'

Column Name: ss_notc_sin_dic_65_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_sin_dic_65_code. See ss_notc_sin_dic_65_code for more information.

Column Name: ss_notc_sin_dic_66_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 66'

Column Name: ss_notc_sin_dic_66_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_66_code. See ss_notc_sin_dic_66_code for more information.

Column Name: ss_notc_sin_dic_67_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 67'

Column Name: ss_notc_sin_dic_67_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_67_code. See ss_notc_sin_dic_67_code for more information.

Column Name: ss_notc_sin_dic_68_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 68'

Column Name: ss_notc_sin_dic_68_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_68_code. See ss_notc_sin_dic_68_code for more information.

Column Name: ss_notc_sin_dic_69_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 69'

Column Name: ss_notc_sin_dic_69_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_69_code. See ss_notc_sin_dic_69_code for more information.

Column Name: ss_notc_sin_dic_70_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 70'

Column Name: ss_notc_sin_dic_70_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_70_code. See ss_notc_sin_dic_70_code for more information.

Column Name: ss_notc_sin_dic_71_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 71'

Column Name: ss_notc_sin_dic_71_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_71_code. See ss_notc_sin_dic_71_code for more information.

Column Name: ss_notc_sin_dic_72_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 72'

Column Name: ss_notc_sin_dic_72_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_72_code. See ss_notc_sin_dic_72_code for more information.

Column Name: ss_notc_sin_dic_73_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 73'

Column Name: ss_notc_sin_dic_73_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_73_code. See ss_notc_sin_dic_73_code for more information.

Column Name: ss_notc_sin_dic_74_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 74'

Column Name: ss_notc_sin_dic_74_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_74_code. See ss_notc_sin_dic_74_code for more information.

Column Name: ss_notc_sin_dic_75_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 75'

Column Name: ss_notc_sin_dic_75_value

Column Type: varchar

Max Length: 275

The description associated with ss_notc_sin_dic_75_code. See ss_notc_sin_dic_75_code for more information.

Column Name: ss_notc_sin_dic_76_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 76'

Column Name: ss_notc_sin_dic_76_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_76_code. See ss_notc_sin_dic_76_code for more information.

Column Name: ss_notc_sin_dic_77_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 77'

Column Name: ss_notc_sin_dic_77_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_77_code. See ss_notc_sin_dic_77_code for more information.

Column Name: ss_notc_sin_dic_78_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 78'

Column Name: ss_notc_sin_dic_78_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_78_code. See ss_notc_sin_dic_78_code for more information.

Column Name: ss_notc_sin_dic_79_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 79'

Column Name: ss_notc_sin_dic_79_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_79_code. See ss_notc_sin_dic_79_code for more information.

Column Name: ss_notc_sin_dic_80_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 80'

Column Name: ss_notc_sin_dic_80_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_80_code. See ss_notc_sin_dic_80_code for more information.

Column Name: ss_note_mul_dict_51_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 51'

Column Name: ss_note_mul_dict_51_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_51_code limited to 255 characters. See ss_note_mul_dict_51_code for more information.

Column Name: ss_note_mul_dict_51_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_51_code. See ss_note_mul_dict_51_code for more information.

Column Name: ss_note_mul_dict_52_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 52'

Column Name: ss_note_mul_dict_52_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_52_code limited to 255 characters. See ss_note_mul_dict_52_code for more information.

Column Name: ss_note_mul_dict_52_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_52_code. See ss_note_mul_dict_52_code for more information.

Column Name: ss_note_mul_dict_53_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 53'

Column Name: ss_note_mul_dict_53_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_53_code limited to 255 characters. See ss_note_mul_dict_53_code for more information.

Column Name: ss_note_mul_dict_53_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_53_code. See ss_note_mul_dict_53_code for more information.

Column Name: ss_note_mul_dict_54_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 54'

Column Name: ss_note_mul_dict_54_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_54_code limited to 255 characters. See ss_note_mul_dict_54_code for more information.

Column Name: ss_note_mul_dict_54_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_54_code. See ss_note_mul_dict_54_code for more information.

Column Name: ss_note_mul_dict_55_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 55'

Column Name: ss_note_mul_dict_55_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_55_code limited to 255 characters. See ss_note_mul_dict_55_code for more information.

Column Name: ss_note_mul_dict_55_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_55_code. See ss_note_mul_dict_55_code for more information.

Column Name: ss_note_mul_dict_56_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 56'

Column Name: ss_note_mul_dict_56_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_56_code limited to 255 characters. See ss_note_mul_dict_56_code for more information.

Column Name: ss_note_mul_dict_56_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_56_code. See ss_note_mul_dict_56_code for more information.

Column Name: ss_note_mul_dict_57_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 57'

Column Name: ss_note_mul_dict_57_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_57_code limited to 255 characters. See ss_note_mul_dict_57_code for more information.

Column Name: ss_note_mul_dict_57_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_57_code. See ss_note_mul_dict_57_code for more information.

Column Name: ss_note_mul_dict_58_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 58'

Column Name: ss_note_mul_dict_58_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_58_code limited to 255 characters. See ss_note_mul_dict_58_code for more information.

Column Name: ss_note_mul_dict_58_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_58_code. See ss_note_mul_dict_58_code for more information.

Column Name: ss_note_mul_dict_59_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 59'

Column Name: ss_note_mul_dict_59_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_59_code limited to 255 characters. See ss_note_mul_dict_59_code for more information.

Column Name: ss_note_mul_dict_59_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_59_code. See ss_note_mul_dict_59_code for more information.

Column Name: ss_note_mul_dict_60_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 60'

Column Name: ss_note_mul_dict_60_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_60_code limited to 255 characters. See ss_note_mul_dict_60_code for more information.

Column Name: ss_note_mul_dict_60_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_60_code. See ss_note_mul_dict_60_code for more information.

Column Name: ss_note_mul_dict_61_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 61'

Column Name: ss_note_mul_dict_61_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_61_code limited to 255 characters. See ss_note_mul_dict_61_code for more information.

Column Name: ss_note_mul_dict_61_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_61_code. See ss_note_mul_dict_61_code for more information.

Column Name: ss_note_mul_dict_62_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 62'

Column Name: ss_note_mul_dict_62_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_62_code limited to 255 characters. See ss_note_mul_dict_62_code for more information.

Column Name: ss_note_mul_dict_62_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_62_code. See ss_note_mul_dict_62_code for more information.

Max Length: 20
'SS Note Multi Response Dictionary 72'

Column Name: ss_note_mul_dict_72_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_72_code limited to 255 characters. See ss_note_mul_dict_72_code for more information.

Column Name: ss_note_mul_dict_72_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_72_code. See ss_note_mul_dict_72_code for more information.

Column Name: ss_note_mul_dict_73_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 73'

Column Name: ss_note_mul_dict_73_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_73_code limited to 255 characters. See ss_note_mul_dict_73_code for more information.

Column Name: ss_note_mul_dict_73_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_73_code. See ss_note_mul_dict_73_code for more information.

Column Name: ss_note_mul_dict_74_code

Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 74'

Column Name: ss_note_mul_dict_74_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_74_code limited to 255 characters. See ss_note_mul_dict_74_code for more information.

Column Name: ss_note_mul_dict_74_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_74_code. See ss_note_mul_dict_74_code for more information.

Column Name: ss_note_mul_dict_75_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 75'

Column Name: ss_note_mul_dict_75_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_75_code limited to 255 characters. See ss_note_mul_dict_75_code for more information.

Column Name: ss_note_mul_dict_75_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_75_code. See ss_note_mul_dict_75_code for more information.

Column Name: ss_note_mul_dict_76_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 76'

Column Name: ss_note_mul_dict_76_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dict_76_code limited to 255 characters. See ss_note_mul_dict_76_code for more information.

Column Name: ss_note_mul_dict_76_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dict_76_code. See ss_note_mul_dict_76_code for more information.

Column Name: ss_note_mul_dict_77_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 77'

Column Name: ss_note_mul_dict_77_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_77_code limited to 255 characters. See ss_note_mul_dict_77_code for more information.

Column Name: ss_note_mul_dict_77_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_77_code. See ss_note_mul_dict_77_code for more information.

Column Name: ss_note_mul_dict_78_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 78'

Column Name: ss_note_mul_dict_78_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_78_code limited to 255 characters. See ss_note_mul_dict_78_code for more information.

Column Name: ss_note_mul_dict_78_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_78_code. See ss_note_mul_dict_78_code for more information.

Column Name: ss_note_mul_dict_79_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 79'

Column Name: ss_note_mul_dict_79_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_79_code limited to 255 characters. See ss_note_mul_dict_79_code for more information.

Column Name: ss_note_mul_dict_79_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_79_code. See ss_note_mul_dict_79_code for more information.

Column Name: ss_note_mul_dict_80_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 80'

Column Name: ss_note_mul_dict_80_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dict_80_code limited to 255 characters. See ss_note_mul_dict_80_code for more information.

Column Name: ss_note_mul_dict_80_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dict_80_code. See ss_note_mul_dict_80_code for more information.

'SS Note Scrolling Free Text 80'

Column Name: ss_note_sin_dict_51_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 51'

Column Name: ss_note_sin_dict_51_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_51_code. See ss_note_sin_dict_51_code for more information.

Column Name: ss_note_sin_dict_52_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 52'

Column Name: ss_note_sin_dict_52_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_52_code. See ss_note_sin_dict_52_code for more information.

Column Name: ss_note_sin_dict_53_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 53'

Column Name: ss_note_sin_dict_53_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_53_code. See ss_note_sin_dict_53_code for more information.

Column Name: ss_note_sin_dict_54_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 54'

Column Name: ss_note_sin_dict_54_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_54_code. See ss_note_sin_dict_54_code for more information.

Column Name: ss_note_sin_dict_55_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 55'

Column Name: ss_note_sin_dict_55_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_55_code. See ss_note_sin_dict_55_code for more information.

Column Name: ss_note_sin_dict_56_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 56'

Column Name: ss_note_sin_dict_56_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_56_code. See ss_note_sin_dict_56_code for more information.

Column Name: ss_note_sin_dict_57_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 57'

Column Name: ss_note_sin_dict_57_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_57_code. See ss_note_sin_dict_57_code for more information.

Column Name: ss_note_sin_dict_58_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 58'

Column Name: ss_note_sin_dict_58_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_58_code. See ss_note_sin_dict_58_code for more information.

Column Name: ss_note_sin_dict_59_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 59'

Column Name: ss_note_sin_dict_59_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_59_code. See ss_note_sin_dict_59_code for more information.

Column Name: ss_note_sin_dict_60_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 60'

Column Name: ss_note_sin_dict_60_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_60_code. See ss_note_sin_dict_60_code for more information.

Column Name: ss_note_sin_dict_61_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 61'

Column Name: ss_note_sin_dict_61_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_61_code. See ss_note_sin_dict_61_code for more information.

Column Name: ss_note_sin_dict_62_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 62'

Column Name: ss_note_sin_dict_62_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_62_code. See ss_note_sin_dict_62_code for more information.

Column Name: ss_note_sin_dict_63_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 63'

Column Name: ss_note_sin_dict_63_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_63_code. See ss_note_sin_dict_63_code for more information.

Column Name: ss_note_sin_dict_64_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 64'

Column Name: ss_note_sin_dict_64_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_64_code. See ss_note_sin_dict_64_code for more information.

Column Name: ss_note_sin_dict_65_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 65'

Column Name: ss_note_sin_dict_65_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_65_code. See ss_note_sin_dict_65_code for more information.

Column Name: ss_note_sin_dict_66_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 66'

Column Name: ss_note_sin_dict_66_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_66_code. See ss_note_sin_dict_66_code for more information.

Column Name: ss_note_sin_dict_67_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 67'

Column Name: ss_note_sin_dict_67_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_67_code. See ss_note_sin_dict_67_code for more information.

Column Name: ss_note_sin_dict_68_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 68'

Column Name: ss_note_sin_dict_68_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_68_code. See ss_note_sin_dict_68_code for more information.

Column Name: ss_note_sin_dict_69_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 69'

Column Name: ss_note_sin_dict_69_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_69_code. See ss_note_sin_dict_69_code for more information.

Column Name: ss_note_sin_dict_70_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 70'

Column Name: ss_note_sin_dict_70_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_70_code. See ss_note_sin_dict_70_code for more information.

Column Name: ss_note_sin_dict_71_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 71'

Column Name: ss_note_sin_dict_71_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_71_code. See ss_note_sin_dict_71_code for more information.

Column Name: ss_note_sin_dict_72_code

Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 72'

Column Name: ss_note_sin_dict_72_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_72_code. See ss_note_sin_dict_72_code for more information.

Column Name: ss_note_sin_dict_73_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 73'

Column Name: ss_note_sin_dict_73_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_73_code. See ss_note_sin_dict_73_code for more information.

Column Name: ss_note_sin_dict_74_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 74'

Column Name: ss_note_sin_dict_74_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_74_code. See ss_note_sin_dict_74_code for more information.

Column Name: ss_note_sin_dict_75_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 75'

Column Name: ss_note_sin_dict_75_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dict_75_code. See ss_note_sin_dict_75_code for more information.

Column Name: ss_note_sin_dict_76_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 76'

Column Name: ss_note_sin_dict_76_value
Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_76_code. See ss_note_sin_dict_76_code for more information.

Column Name: ss_note_sin_dict_77_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 77'

Column Name: ss_note_sin_dict_77_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_77_code. See ss_note_sin_dict_77_code for more information.

Column Name: ss_note_sin_dict_78_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 78'

Column Name: ss_note_sin_dict_78_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_78_code. See ss_note_sin_dict_78_code for more information.

Column Name: ss_note_sin_dict_79_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 79'

Column Name: ss_note_sin_dict_79_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_79_code. See ss_note_sin_dict_79_code for more information.

Column Name: ss_note_sin_dict_80_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 80'

Column Name: ss_note_sin_dict_80_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dict_80_code. See ss_note_sin_dict_80_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form:

Ambulatory_Progress_Notes_(Diagnosis_Entry)

Table Name: CWSTEMP.cw_patient_notes_supp_5

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp5 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50

Unique ID for a note.

Column Name: PATID

Column Type: varchar

Max Length: 20

The client ID associated with the data.

Column Name: PREFILEID

Column Type: varchar

Max Length: 50

The unique ID associated with the prefiller.

Column Name: data_entry_offset

Column Type: numeric

the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j

Column Type: time

the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all

Column Type: varchar

Max Length: 255

the time zone information for when the data was saved.

Column Name: data_entry_timezone_short

Column Type: varchar

Max Length: 8

the short abbreviation for the timezone

Column Name: data_entry_user_id

Column Type: varchar

Max Length: 40

The user ID who last updated the service.

Column Name: data_entry_user_name

Column Type: varchar

Max Length: 40

The user name who last updated the service.

Column Name: data_entry_utc

Column Type: timestamp

the UTC date and time the data was saved.

Column Name: ebp_code

Column Type: varchar

Max Length: 50

'Evidence-Based Practices'

Column Name: ebp_element_code

Column Type: varchar
Max Length: 50
'Evidence-Based Practice Elements'

Column Name: ebp_element_value
Column Type: varchar
Max Length: 32000
The description associated with ebp_element_code

Column Name: ebp_value
Column Type: varchar
Max Length: 32000
The description associated with ebp_code

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_notc_mul_dic_100_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 100'

Column Name: ss_notc_mul_dic_100_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_100_code. See ss_notc_mul_dic_100_code for more information.

Column Name: ss_notc_mul_dic_101_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 101'

Column Name: ss_notc_mul_dic_101_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_101_code. See ss_notc_mul_dic_101_code for more information.

Column Name: ss_notc_mul_dic_102_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 102'

Column Name: ss_notc_mul_dic_102_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_102_code. See ss_notc_mul_dic_102_code for more information.

Column Name: ss_notc_mul_dic_103_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 103'

Column Name: ss_notc_mul_dic_103_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_103_code. See ss_notc_mul_dic_103_code for more information.

Column Name: ss_notc_mul_dic_104_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 104'

Column Name: ss_notc_mul_dic_104_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_104_code. See ss_notc_mul_dic_104_code for more information.

Column Name: ss_notc_mul_dic_105_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 105'

Column Name: ss_notc_mul_dic_105_value
Column Type: varchar
Max Length: 275
The description associated with ss_notc_mul_dic_105_code. See ss_notc_mul_dic_105_code for more information.

Column Name: ss_notc_mul_dic_106_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 106'

Column Name: ss_notc_mul_dic_106_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_106_code. See ss_notc_mul_dic_106_code for more information.

Column Name: ss_notc_mul_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 107'

Column Name: ss_notc_mul_dic_107_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_107_code. See ss_notc_mul_dic_107_code for more information.

Column Name: ss_notc_mul_dic_108_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 108'

Column Name: ss_notc_mul_dic_108_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_108_code. See ss_notc_mul_dic_108_code for more information.

Column Name: ss_notc_mul_dic_109_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 109'

Column Name: ss_notc_mul_dic_109_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_109_code. See ss_notc_mul_dic_109_code for more information.

Column Name: ss_notc_mul_dic_110_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 110'

Column Name: ss_notc_mul_dic_110_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_110_code. See ss_notc_mul_dic_110_code for more information.

Column Name: ss_notc_mul_dic_81_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 81'

Column Name: ss_notc_mul_dic_81_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_81_code. See ss_notc_mul_dic_81_code for more information.

Column Name: ss_notc_mul_dic_82_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 82'

Column Name: ss_notc_mul_dic_82_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_82_code. See ss_notc_mul_dic_82_code for more information.

Column Name: ss_notc_mul_dic_83_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 83'

Column Name: ss_notc_mul_dic_83_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_83_code. See ss_notc_mul_dic_83_code for more information.

Column Name: ss_notc_mul_dic_84_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 84'

Column Name: ss_notc_mul_dic_84_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_84_code. See ss_notc_mul_dic_84_code for more information.

Column Name: ss_notc_mul_dic_85_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 85'

Column Name: ss_notc_mul_dic_85_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_85_code. See ss_notc_mul_dic_85_code for more information.

Column Name: ss_notc_mul_dic_86_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 86'

Column Name: ss_notc_mul_dic_86_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_86_code. See ss_notc_mul_dic_86_code for more information.

Column Name: ss_notc_mul_dic_87_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 87'

Column Name: ss_notc_mul_dic_87_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_87_code. See ss_notc_mul_dic_87_code for more information.

Column Name: ss_notc_mul_dic_88_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 88'

Column Name: ss_notc_mul_dic_88_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_88_code. See ss_notc_mul_dic_88_code for more information.

Column Name: ss_notc_mul_dic_89_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 89'

Column Name: ss_notc_mul_dic_89_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_89_code. See ss_notc_mul_dic_89_code for more information.

Column Name: ss_notc_mul_dic_90_code

Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 90'

Column Name: ss_notc_mul_dic_90_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_90_code. See ss_notc_mul_dic_90_code for more information.

Column Name: ss_notc_mul_dic_91_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 91'

Column Name: ss_notc_mul_dic_91_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_91_code. See ss_notc_mul_dic_91_code for more information.

Column Name: ss_notc_mul_dic_92_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 92'

Column Name: ss_notc_mul_dic_92_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_92_code. See ss_notc_mul_dic_92_code for more information.

Column Name: ss_notc_mul_dic_93_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 93'

Column Name: ss_notc_mul_dic_93_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_mul_dic_93_code. See ss_notc_mul_dic_93_code for more information.

Column Name: ss_notc_mul_dic_94_code
Column Type: varchar
Max Length: 50
'SS Note Copy Multiple Response Dictionary 94'

Column Name: ss_notc_mul_dic_94_value
Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_94_code. See ss_notc_mul_dic_94_code for more information.

Column Name: ss_notc_mul_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 95'

Column Name: ss_notc_mul_dic_95_value

Column Type: varchar

Max Length: 265

The description associated with ss_notc_mul_dic_95_code. See ss_notc_mul_dic_95_code for more information.

Column Name: ss_notc_mul_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 96'

Column Name: ss_notc_mul_dic_96_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_96_code. See ss_notc_mul_dic_96_code for more information.

Column Name: ss_notc_mul_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 97'

Column Name: ss_notc_mul_dic_97_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_97_code. See ss_notc_mul_dic_97_code for more information.

Column Name: ss_notc_mul_dic_98_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 98'

Column Name: ss_notc_mul_dic_98_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_98_code. See ss_notc_mul_dic_98_code for more information.

Column Name: ss_notc_mul_dic_99_code

Column Type: varchar

Max Length: 50

'SS Note Copy Multiple Response Dictionary 99'

Column Name: ss_notc_mul_dic_99_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_mul_dic_99_code. See ss_notc_mul_dic_99_code for more information.

Column Name: ss_notc_sin_dic_100_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 100'

Column Name: ss_notc_sin_dic_100_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_100_code. See ss_notc_sin_dic_100_code for more information.

Column Name: ss_notc_sin_dic_101_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 101'

Column Name: ss_notc_sin_dic_101_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_101_code. See ss_notc_sin_dic_101_code for more information.

Column Name: ss_notc_sin_dic_102_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 102'

Column Name: ss_notc_sin_dic_102_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_102_code. See ss_notc_sin_dic_102_code for more information.

Column Name: ss_notc_sin_dic_103_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 103'

Column Name: ss_notc_sin_dic_103_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_103_code. See ss_notc_sin_dic_103_code for more information.

Column Name: ss_notc_sin_dic_104_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 104'

Column Name: ss_notc_sin_dic_104_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_104_code. See ss_notc_sin_dic_104_code for more information.

Column Name: ss_notc_sin_dic_105_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 105'

Column Name: ss_notc_sin_dic_105_value
Column Type: varchar
Max Length: 275
The description associated with ss_notc_sin_dic_105_code. See ss_notc_sin_dic_105_code for more information.

Column Name: ss_notc_sin_dic_106_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 106'

Column Name: ss_notc_sin_dic_106_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_106_code. See ss_notc_sin_dic_106_code for more information.

Column Name: ss_notc_sin_dic_107_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 107'

Column Name: ss_notc_sin_dic_107_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_107_code. See ss_notc_sin_dic_107_code for more information.

Column Name: ss_notc_sin_dic_108_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 108'

Column Name: ss_notc_sin_dic_108_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_108_code. See ss_notc_sin_dic_108_code for more information.

Column Name: ss_notc_sin_dic_109_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 109'

Column Name: ss_notc_sin_dic_109_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_109_code. See ss_notc_sin_dic_109_code for more information.

Column Name: ss_notc_sin_dic_110_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 110'

Column Name: ss_notc_sin_dic_110_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_110_code. See ss_notc_sin_dic_110_code for more information.

Column Name: ss_notc_sin_dic_81_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 81'

Column Name: ss_notc_sin_dic_81_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_81_code. See ss_notc_sin_dic_81_code for more information.

Column Name: ss_notc_sin_dic_82_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 82'

Column Name: ss_notc_sin_dic_82_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_82_code. See ss_notc_sin_dic_82_code for more information.

Column Name: ss_notc_sin_dic_83_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 83'

Column Name: ss_notc_sin_dic_83_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_83_code. See ss_notc_sin_dic_83_code for more information.

Column Name: ss_notc_sin_dic_84_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 84'

Column Name: ss_notc_sin_dic_84_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_84_code. See ss_notc_sin_dic_84_code for more information.

Column Name: ss_notc_sin_dic_85_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 85'

Column Name: ss_notc_sin_dic_85_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_85_code. See ss_notc_sin_dic_85_code for more information.

Column Name: ss_notc_sin_dic_86_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 86'

Column Name: ss_notc_sin_dic_86_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_86_code. See ss_notc_sin_dic_86_code for more information.

Column Name: ss_notc_sin_dic_87_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 87'

Column Name: ss_notc_sin_dic_87_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_87_code. See ss_notc_sin_dic_87_code for more information.

Column Name: ss_notc_sin_dic_88_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 88'

Column Name: ss_notc_sin_dic_88_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_88_code. See ss_notc_sin_dic_88_code for more information.

Column Name: ss_notc_sin_dic_89_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 89'

Column Name: ss_notc_sin_dic_89_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_89_code. See ss_notc_sin_dic_89_code for more information.

Column Name: ss_notc_sin_dic_90_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 90'

Column Name: ss_notc_sin_dic_90_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_90_code. See ss_notc_sin_dic_90_code for more information.

Column Name: ss_notc_sin_dic_91_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 91'

Column Name: ss_notc_sin_dic_91_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_91_code. See ss_notc_sin_dic_91_code for more information.

Column Name: ss_notc_sin_dic_92_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 92'

Column Name: ss_notc_sin_dic_92_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_92_code. See ss_notc_sin_dic_92_code for more information.

Column Name: ss_notc_sin_dic_93_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 93'

Column Name: ss_notc_sin_dic_93_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_93_code. See ss_notc_sin_dic_93_code for more information.

Column Name: ss_notc_sin_dic_94_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 94'

Column Name: ss_notc_sin_dic_94_value
Column Type: varchar
Max Length: 255
The description associated with ss_notc_sin_dic_94_code. See ss_notc_sin_dic_94_code for more information.

Column Name: ss_notc_sin_dic_95_code
Column Type: varchar
Max Length: 50
'SS Note Copy Single Response Dictionary 95'

Column Name: ss_notc_sin_dic_95_value
Column Type: varchar
Max Length: 265
The description associated with ss_notc_sin_dic_95_code. See ss_notc_sin_dic_95_code for more information.

Column Name: ss_notc_sin_dic_96_code
Column Type: varchar
Max Length: 50

'SS Note Copy Single Response Dictionary 96'

Column Name: ss_notc_sin_dic_96_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_96_code. See ss_notc_sin_dic_96_code for more information.

Column Name: ss_notc_sin_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 97'

Column Name: ss_notc_sin_dic_97_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_97_code. See ss_notc_sin_dic_97_code for more information.

Column Name: ss_notc_sin_dic_98_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 98'

Column Name: ss_notc_sin_dic_98_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_98_code. See ss_notc_sin_dic_98_code for more information.

Column Name: ss_notc_sin_dic_99_code

Column Type: varchar

Max Length: 50

'SS Note Copy Single Response Dictionary 99'

Column Name: ss_notc_sin_dic_99_value

Column Type: varchar

Max Length: 255

The description associated with ss_notc_sin_dic_99_code. See ss_notc_sin_dic_99_code for more information.

Column Name: ss_note_mul_dic_100_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 100'

Column Name: ss_note_mul_dic_100_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_100_code limited to 255 characters. See ss_note_mul_dic_100_code for more information.

Column Name: ss_note_mul_dic_100_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_100_code. See ss_note_mul_dic_100_code for more information.

Column Name: ss_note_mul_dic_101_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 101'

Column Name: ss_note_mul_dic_101_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_101_code limited to 255 characters. See ss_note_mul_dic_101_code for more information.

Column Name: ss_note_mul_dic_101_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_101_code. See ss_note_mul_dic_101_code for more information.

Column Name: ss_note_mul_dic_102_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 102'

Column Name: ss_note_mul_dic_102_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_102_code limited to 255 characters. See ss_note_mul_dic_102_code for more information.

Column Name: ss_note_mul_dic_102_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_102_code. See ss_note_mul_dic_102_code for more information.

Column Name: ss_note_mul_dic_103_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 103'

Column Name: ss_note_mul_dic_103_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_103_code limited to 255 characters. See ss_note_mul_dic_103_code for more information.

Column Name: ss_note_mul_dic_103_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_103_code. See ss_note_mul_dic_103_code for more information.

Column Name: ss_note_mul_dic_104_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 104'

Column Name: ss_note_mul_dic_104_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_104_code limited to 255 characters. See ss_note_mul_dic_104_code for more information.

Column Name: ss_note_mul_dic_104_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_104_code. See ss_note_mul_dic_104_code for more information.

Column Name: ss_note_mul_dic_105_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 105'

Column Name: ss_note_mul_dic_105_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_105_code limited to 255 characters. See ss_note_mul_dic_105_code for more information.

Column Name: ss_note_mul_dic_105_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_105_code. See ss_note_mul_dic_105_code for more information.

Column Name: ss_note_mul_dic_106_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 106'

Column Name: ss_note_mul_dic_106_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_106_code limited to 255 characters. See ss_note_mul_dic_106_code for more information.

Column Name: ss_note_mul_dic_106_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_106_code. See ss_note_mul_dic_106_code for more information.

Column Name: ss_note_mul_dic_107_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 110'

Column Name: ss_note_mul_dic_110_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_110_code limited to 255 characters. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_110_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_110_code. See ss_note_mul_dic_110_code for more information.

Column Name: ss_note_mul_dic_81_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 81'

Column Name: ss_note_mul_dic_81_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_81_code limited to 255 characters. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_81_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_81_code. See ss_note_mul_dic_81_code for more information.

Column Name: ss_note_mul_dic_82_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 82'

Column Name: ss_note_mul_dic_82_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_82_code limited to 255 characters. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_82_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_82_code. See ss_note_mul_dic_82_code for more information.

Column Name: ss_note_mul_dic_83_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 83'

Column Name: ss_note_mul_dic_83_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_83_code limited to 255 characters. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_83_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_83_code. See ss_note_mul_dic_83_code for more information.

Column Name: ss_note_mul_dic_84_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 84'

Column Name: ss_note_mul_dic_84_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_84_code limited to 255 characters. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_84_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_84_code. See ss_note_mul_dic_84_code for more information.

Column Name: ss_note_mul_dic_85_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 85'

Column Name: ss_note_mul_dic_85_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_85_code limited to 255 characters. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_85_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_85_code. See ss_note_mul_dic_85_code for more information.

Column Name: ss_note_mul_dic_86_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 86'

Column Name: ss_note_mul_dic_86_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_86_code limited to 255 characters. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_86_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_86_code. See ss_note_mul_dic_86_code for more information.

Column Name: ss_note_mul_dic_87_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 87'

Column Name: ss_note_mul_dic_87_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_87_code limited to 255 characters. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_87_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_87_code. See ss_note_mul_dic_87_code for more information.

Column Name: ss_note_mul_dic_88_code

Column Type: varchar

Max Length: 20
'SS Note Multi Response Dictionary 88'

Column Name: ss_note_mul_dic_88_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_88_code limited to 255 characters. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_88_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_88_code. See ss_note_mul_dic_88_code for more information.

Column Name: ss_note_mul_dic_89_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 89'

Column Name: ss_note_mul_dic_89_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_89_code limited to 255 characters. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_89_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_89_code. See ss_note_mul_dic_89_code for more information.

Column Name: ss_note_mul_dic_90_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 90'

Column Name: ss_note_mul_dic_90_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_90_code limited to 255 characters. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_90_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_90_code. See ss_note_mul_dic_90_code for more information.

Column Name: ss_note_mul_dic_91_code

Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 91'

Column Name: ss_note_mul_dic_91_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_91_code limited to 255 characters. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_91_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_91_code. See ss_note_mul_dic_91_code for more information.

Column Name: ss_note_mul_dic_92_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 92'

Column Name: ss_note_mul_dic_92_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_92_code limited to 255 characters. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_92_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_92_code. See ss_note_mul_dic_92_code for more information.

Column Name: ss_note_mul_dic_93_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 93'

Column Name: ss_note_mul_dic_93_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_93_code limited to 255 characters. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_93_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_93_code. See ss_note_mul_dic_93_code for more information.

Column Name: ss_note_mul_dic_94_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 94'

Column Name: ss_note_mul_dic_94_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_94_code limited to 255 characters. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_94_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_94_code. See ss_note_mul_dic_94_code for more information.

Column Name: ss_note_mul_dic_95_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 95'

Column Name: ss_note_mul_dic_95_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_95_code limited to 255 characters. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_95_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_95_code. See ss_note_mul_dic_95_code for more information.

Column Name: ss_note_mul_dic_96_code
Column Type: varchar
Max Length: 20
'SS Note Multi Response Dictionary 96'

Column Name: ss_note_mul_dic_96_shval
Column Type: varchar
Max Length: 255
The description associated with ss_note_mul_dic_96_code limited to 255 characters. See ss_note_mul_dic_96_code for more information.

Column Name: ss_note_mul_dic_96_value
Column Type: varchar
Max Length: 32700
The description associated with ss_note_mul_dic_96_code. See ss_note_mul_dic_96_code for more information.

Column Name: ss_note_mul_dic_97_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 97'

Column Name: ss_note_mul_dic_97_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_97_code limited to 255 characters. See ss_note_mul_dic_97_code for more information.

Column Name: ss_note_mul_dic_97_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_97_code. See ss_note_mul_dic_97_code for more information.

Column Name: ss_note_mul_dic_98_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 98'

Column Name: ss_note_mul_dic_98_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_98_code limited to 255 characters. See ss_note_mul_dic_98_code for more information.

Column Name: ss_note_mul_dic_98_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_98_code. See ss_note_mul_dic_98_code for more information.

Column Name: ss_note_mul_dic_99_code

Column Type: varchar

Max Length: 20

'SS Note Multi Response Dictionary 99'

Column Name: ss_note_mul_dic_99_shval

Column Type: varchar

Max Length: 255

The description associated with ss_note_mul_dic_99_code limited to 255 characters. See ss_note_mul_dic_99_code for more information.

Column Name: ss_note_mul_dic_99_value

Column Type: varchar

Max Length: 32700

The description associated with ss_note_mul_dic_99_code. See ss_note_mul_dic_99_code for more information.

Column Name: ss_note_scroll_text_100
Column Type: varchar

'SS Note Scrolling Free Text 99'

Column Name: ss_note_sin_dic_100_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 100'

Column Name: ss_note_sin_dic_100_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_100_code. See ss_note_sin_dic_100_code for more information.

Column Name: ss_note_sin_dic_101_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 101'

Column Name: ss_note_sin_dic_101_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_101_code. See ss_note_sin_dic_101_code for more information.

Column Name: ss_note_sin_dic_102_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 102'

Column Name: ss_note_sin_dic_102_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_102_code. See ss_note_sin_dic_102_code for more information.

Column Name: ss_note_sin_dic_103_code
Column Type: varchar
Max Length: 50
'SS Note Single Response Dictionary 103'

Column Name: ss_note_sin_dic_103_value
Column Type: varchar
Max Length: 50
The description associated with ss_note_sin_dic_103_code. See ss_note_sin_dic_103_code for more information.

Column Name: ss_note_sin_dic_104_code
Column Type: varchar
Max Length: 50

'SS Note Single Response Dictionary 104'

Column Name: ss_note_sin_dic_104_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_104_code. See ss_note_sin_dic_104_code for more information.

Column Name: ss_note_sin_dic_105_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 105'

Column Name: ss_note_sin_dic_105_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_105_code. See ss_note_sin_dic_105_code for more information.

Column Name: ss_note_sin_dic_106_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 106'

Column Name: ss_note_sin_dic_106_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_106_code. See ss_note_sin_dic_106_code for more information.

Column Name: ss_note_sin_dic_107_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 107'

Column Name: ss_note_sin_dic_107_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_107_code. See ss_note_sin_dic_107_code for more information.

Column Name: ss_note_sin_dic_108_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 108'

Column Name: ss_note_sin_dic_108_value

Column Type: varchar

Max Length: 50

The description associated with `ss_note_sin_dic_108_code`. See `ss_note_sin_dic_108_code` for more information.

Column Name: `ss_note_sin_dic_109_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 109'

Column Name: `ss_note_sin_dic_109_value`

Column Type: `varchar`

Max Length: 50

The description associated with `ss_note_sin_dic_109_code`. See `ss_note_sin_dic_109_code` for more information.

Column Name: `ss_note_sin_dic_110_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 110'

Column Name: `ss_note_sin_dic_110_value`

Column Type: `varchar`

Max Length: 50

The description associated with `ss_note_sin_dic_110_code`. See `ss_note_sin_dic_110_code` for more information.

Column Name: `ss_note_sin_dic_81_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 81'

Column Name: `ss_note_sin_dic_81_value`

Column Type: `varchar`

Max Length: 50

The description associated with `ss_note_sin_dic_81_code`. See `ss_note_sin_dic_81_code` for more information.

Column Name: `ss_note_sin_dic_82_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 82'

Column Name: `ss_note_sin_dic_82_value`

Column Type: `varchar`

Max Length: 50

The description associated with `ss_note_sin_dic_82_code`. See `ss_note_sin_dic_82_code` for more information.

Column Name: `ss_note_sin_dic_83_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 83'

Column Name: ss_note_sin_dic_83_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_83_code. See ss_note_sin_dic_83_code for more information.

Column Name: ss_note_sin_dic_84_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 84'

Column Name: ss_note_sin_dic_84_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_84_code. See ss_note_sin_dic_84_code for more information.

Column Name: ss_note_sin_dic_85_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 85'

Column Name: ss_note_sin_dic_85_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_85_code. See ss_note_sin_dic_85_code for more information.

Column Name: ss_note_sin_dic_86_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 86'

Column Name: ss_note_sin_dic_86_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_86_code. See ss_note_sin_dic_86_code for more information.

Column Name: ss_note_sin_dic_87_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 87'

Column Name: ss_note_sin_dic_87_value

Column Type: varchar

Max Length: 50

The description associated with `ss_note_sin_dic_87_code`. See `ss_note_sin_dic_87_code` for more information.

Column Name: `ss_note_sin_dic_88_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 88'

Column Name: `ss_note_sin_dic_88_value`

Column Type: `varchar`

Max Length: 50

The description associated with `ss_note_sin_dic_88_code`. See `ss_note_sin_dic_88_code` for more information.

Column Name: `ss_note_sin_dic_89_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 89'

Column Name: `ss_note_sin_dic_89_value`

Column Type: `varchar`

Max Length: 50

The description associated with `ss_note_sin_dic_89_code`. See `ss_note_sin_dic_89_code` for more information.

Column Name: `ss_note_sin_dic_90_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 90'

Column Name: `ss_note_sin_dic_90_value`

Column Type: `varchar`

Max Length: 50

The description associated with `ss_note_sin_dic_90_code`. See `ss_note_sin_dic_90_code` for more information.

Column Name: `ss_note_sin_dic_91_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 91'

Column Name: `ss_note_sin_dic_91_value`

Column Type: `varchar`

Max Length: 50

The description associated with `ss_note_sin_dic_91_code`. See `ss_note_sin_dic_91_code` for more information.

Column Name: `ss_note_sin_dic_92_code`

Column Type: `varchar`

Max Length: 50

'SS Note Single Response Dictionary 92'

Column Name: ss_note_sin_dic_92_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_92_code. See ss_note_sin_dic_92_code for more information.

Column Name: ss_note_sin_dic_93_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 93'

Column Name: ss_note_sin_dic_93_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_93_code. See ss_note_sin_dic_93_code for more information.

Column Name: ss_note_sin_dic_94_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 94'

Column Name: ss_note_sin_dic_94_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_94_code. See ss_note_sin_dic_94_code for more information.

Column Name: ss_note_sin_dic_95_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 95'

Column Name: ss_note_sin_dic_95_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_95_code. See ss_note_sin_dic_95_code for more information.

Column Name: ss_note_sin_dic_96_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 96'

Column Name: ss_note_sin_dic_96_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_96_code. See ss_note_sin_dic_96_code for more information.

Column Name: ss_note_sin_dic_97_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 97'

Column Name: ss_note_sin_dic_97_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_97_code. See ss_note_sin_dic_97_code for more information.

Column Name: ss_note_sin_dic_98_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 98'

Column Name: ss_note_sin_dic_98_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_98_code. See ss_note_sin_dic_98_code for more information.

Column Name: ss_note_sin_dic_99_code

Column Type: varchar

Max Length: 50

'SS Note Single Response Dictionary 99'

Column Name: ss_note_sin_dic_99_value

Column Type: varchar

Max Length: 50

The description associated with ss_note_sin_dic_99_code. See ss_note_sin_dic_99_code for more information.

Column Name: user_row_access_code

Column Type: integer

If sub system codes are enabled this will be either a 0, 1, or 2. 0 for no access, 1 for access to row and user that is logged into the same sub-system code, and 2 for access to row and user that is logged into different sub-system code.

Documentation for form:

[Ambulatory_Progress_Notes_\(Diagnosis_Entry\)](#)

Table Name: CWSTEMP.cw_patient_notes_supp_6

Table Description: This table is used as a pre-filing storage of the SYSTEM.cwpatientnotessupp6 table.

Column Name: ID
Column Type: varchar
Max Length: 254

Column Name: data_entry_date
Column Type: date
The date the row was last updated.

Column Name: data_entry_by
Column Type: varchar
Max Length: 40
The user who last updated the service.

Column Name: data_entry_time
Column Type: varchar
Max Length: 10
The time the row was last updated.

Column Name: data_entry_by_option
Column Type: varchar
Max Length: 40
The user name that last updated the row.

Column Name: EPISODE_NUMBER
Column Type: integer
The episode number associated with PATID.

Column Name: FACILITY
Column Type: integer
The system code in which the data was stored.

Column Name: NOT_uniqueid
Column Type: varchar
Max Length: 50
Unique ID for a note.

Column Name: PATID
Column Type: varchar
Max Length: 20
The client ID associated with the data.

Column Name: PREFILEID
Column Type: varchar
Max Length: 50
The unique ID associated with the prefiler.

Column Name: data_entry_offset
Column Type: numeric
the offset in hours from UTC on when the data was saved.

Column Name: data_entry_time_j
Column Type: time
the time with fractional seconds when the data was saved.

Column Name: data_entry_timezone_info_all
Column Type: varchar
Max Length: 255
the time zone information for when the data was saved.

Column Name: data_entry_timezone_short
Column Type: varchar
Max Length: 8
the short abbreviation for the timezone

Column Name: data_entry_user_id
Column Type: varchar
Max Length: 40
The user ID who last updated the service.

Column Name: data_entry_user_name
Column Type: varchar
Max Length: 40
The user name who last updated the service.

Column Name: data_entry_utc
Column Type: timestamp
the UTC date and time the data was saved.

Column Name: form_number
Column Type: varchar
Max Length: 50
'Form Number'

Column Name: option_desc
Column Type: varchar
Max Length: 81
The name of the form that last updated the row.

Column Name: option_id
Column Type: varchar
Max Length: 20
The unique ID of the form that last updated the row.

Column Name: ss_note_20_char_text_51
Column Type: varchar
Max Length: 20

SS Note 20 Character 51

Column Name: ss_note_20_char_text_52

Column Type: varchar

Max Length: 20

SS Note 20 Character 52

Column Name: ss_note_20_char_text_53

Column Type: varchar

Max Length: 20

SS Note 20 Character 53

Column Name: ss_note_20_char_text_54

Column Type: varchar

Max Length: 20

SS Note 20 Character 54

Column Name: ss_note_20_char_text_55

Column Type: varchar

Max Length: 20

SS Note 20 Character 55

Column Name: ss_note_20_char_text_56

Column Type: varchar

Max Length: 20

SS Note 20 Character 56

Column Name: ss_note_20_char_text_57

Column Type: varchar

Max Length: 20

SS Note 20 Character 57

Column Name: ss_note_20_char_text_58

Column Type: varchar

Max Length: 20

SS Note 20 Character 58

Column Name: ss_note_20_char_text_59

Column Type: varchar

Max Length: 20

SS Note 20 Character 59

Column Name: ss_note_20_char_text_60

Column Type: varchar

Max Length: 20
