

Royal Solutions 5.0

B10 Electronic Health Information Export

The B10 ONC export contains the electronic health information available for the patients' records. There will be different files in comma-delimited file format. There will be one zip file containing the csv files and other zip files that contain the images/documents for each patient.

Following there is more information about the data included in each csv file.

Patients.csv

Field	Description
PatientMRN	Patient Medical Record Number
PatientPrefix	Patient Prefix
PatientFirstName	Patient First Name
PatientMiddleName	Patient Middle Name
PatientLastName	Patient Last Name
PatientSSN	Patient SSN
PatientDOB	Patient Data of Birth
PatientHomePhone	Patient Home Phone Number
PatientCellPhone	Patient CellPhone Number
PatientWorkPhone	Patient Work Phone number
PatientAddress1	Patient Street address
PatientAddress2	Patient additional street address information such as apartment number
PatientCity	City where the patient lives
PatientState	State where the patient lives
PatientZip	Zipcode where the patient lives
PatientCountry	Country where the patient lives
PatientEmail	Patient email
PatientGender	Patient Gender
PatientEthnicity	Patient ethnicity
MobilePhone	Mobile phone number
PatientFRN	Patient Financial Record Number
PatientHeight	Patient's Height
PatientWeight	Patient's Weight
Race	Patient's Race
Language	Patient's Language
MaritalStatus	Patient's Marital Status
SmokingStatus	Smoking Status
GuarantorFirstName	The first name of the patient's guarantor, if any.
GuarantorLastName	The last name of the patient's guarantor, if any.
GuarantorRelation	The relation of the guarantor with the patient.
GuarantorAddress1	Guarantor street address
GuarantorAddress2	Guarantor additional street address

GuarantorCity	City where the guarantor lives
GuarantorZip	ZipCode where the guarantor lives
GuarantorState	State where the guarantor lives
GuarantorDOB	Guarantor's date of birth
GuarantorHomePhone	Guarantor Home Phone number
GuarantorCellPhone	Guarantor Cell Phone Number
GuarantorWorkPhone	Guarantor Work Phone Number
Employer	Employer name of the patient
EmploymentStatus	Employment status of the patient
EmergencyContact	Emergency contact name
EmergencyContactPhone	Emergency contact phone number
EmergencyContactMobilePhone	Emergency contact mobile phone number
LastMammoDate	Last Date of the mammography exam
LastDexaDate	Last date of the dexa exam.
PatientsNotes	Notes about the patient
LastCompletedMammoDate	Last Date of a completed mammography exam
LastCompletedDexaDate	Last Date of a completed of dexa exam date

Appointments.csv

Field	Description

FormSubmissionStatus	Order Status associated with the Form.
FormSubmissionStatusModifiedDate	Date/Time stamp for the most recent Status change associated with the Form.
OrderedExams	The Exam(s) selected during the original order submission.
ModalityType	Modality Code for the appointment associated to the transaction
Priority	Priority (Urgency) Level set on the original order submission
Status	Status of the order at the current time
FormContactEmail	Contact email associated to the form
FormContactPhone	Contact phone associated to the form
IsCompleted	True or false if the order is completed.
OrderedPatientDOB	Date of Birth of the patient as defined on the original order submission
OrderedInsurance	Patient Insurance defined on the original order submission
ScheduleSource	System where the order was scheduled
ProviderFullName	Provider full name associated with the order

Demographics2.csv

Field	Description
-------	-------------

MRN	Medical Record Number of the patient
prevFirstName	Previous Name associated to the patient
PrevLastName	Previous Last Name associated to the patient
PrevMIName	Previous Middle Name associated to the patient
PrevAddress1	Previous address1 associated to the patient
PrevAddress2	Previous address2 associated to the patient
PrevCity	Previous city where the patient lived
PrevZipcode	Previous zipcode where the patient lived
PrevState	Previous state where the patient lived
PrevCountry	Previous country where the patient lived
Races	Races code associated to the patient
GranularRaces	More information about the races associated to the patient
Ethnicity	Ethnicity code associated to the patient.
pcp	PCP name for the associated patient

Allergies.csv

Field	Description
MRN	Medical Record Number of the patient
Code	RxNorm Code for the allergy
Substance	Allergy substance name
OnsetStartDate	Estimated or actual date, date-time, or age when allergy or intolerance was identified.
Status	Assertion about certainty associated with the propensity, or potential risk, of a reaction to the identified substance. Values: unconfirmed presumed confirmed refuted entered-in-error
ReactionCode	SNOMED code for the allergy reaction
Reaction	Allergy reaction
Severity	Severity of the reaction

Devices.csv

Field	Description
MRN	Medical Record Number of the patient
UDI	Unique device identifier
AssignedAuthority	Assigned authority for the device
Identifier	Identifier associated to the device
DeviceCode	Device code associated to the device
Date	Date the device was implanted
DeviceName	Name of the device
ManuDate	Manufactured date of the device

ExpirationDate	Expiration date of the device
LotNumber	Lot Number of the device
SerialNumber	Serial Number of the device
Status	Status of the device

Immunizations.csv

Field	Description
MRN	Medical Record Number of the patient
Code	Vaccine code CVX
Name	Name of the vaccine
StartDate	Date the vaccine was administered
Lot	Lot number associated to the vaccine
Status	Status of the vaccine if it was administered or not.
Manufacturer	Manufacturer of the vaccine
Notes	Notes associated to the administration of the vaccine to the patient.

Medications.csv

Field	Description
MRN	Medical Record Number of the patient
Code	RxNorm code associated to the medication
Medication	Medication name
StartDate	Start date that the patient takes the medication
EndDate	End date that the patient takes the medication
Frequency	Frequency the medication is taken by the patient
Route	Route that the medication is administered
Dose	Dose of the medication

Problems.csv

Field	Description
MRN	Medical Record Number of the patient
Code	SNOMED code associated to the patient problem
Problem	Problem name
StartDate	Start date the problem was observed
EndDate	End date the problem was resolved
Status	Status of the problem i.e Active, completed, etc

Procedures.csv

Field	Description
MRN	Medical Record Number of the patient

Code	SNOMED code associated to the procedure
ProcedureName	Name of the procedure
Date	Date of the procedure was performed
Status	Status associated to the procedure
Note	Notes associated to the procedure
Author	Person associated to the procedure notes

Vitals.csv

Field	Description
MRN	Medical Record Number of the patient
Date	Date when the vitals were taken.
Height	Height of the patient
Weight	Weight of the patient
BloodPressureDiast	Blood Pressure Diastolic
BloodPressureSyst	Blood Pressure-Systolic
HeartRate	Heart rate per min
O2Oximetry	O2 % BldC Oximetry
InhaledOxygen	% Inhaled Oxygen Concentration
O2FlowRate	Oxygen flow rate value
BodyTemperature	Body temperature value
RespiratoryRate	Respiratory rate per min
BMIPercentile	BMI Percentile value
WeightPercentile	Weight Percentile value
HeadPercentile	Head Percentile value
