Overview

This documentation describes each GEHRIMED EHI table as of 11/06/2023 at 2:00 PM EDT in the current released version. The documentation reflects the most current information at the time it was produced. The documentation is broken out by form (where applicable) and then table. Documentation from a specific organization might differ based on the organization's version of GEHRIMED, custom development, or definition of EHI data. Each table's file contains a description and column details. In addition to creating the extracts, the tool will also generate documentation specific to that organization's environment.

Glossary of Terms

In order to assist organizations in interpreting the information here, Netsmart is providing a glossary of terms for those commonly used field descriptions.

Field Name	Description
Id	The database row id of the selected record. When present, this field will often be considered a unique row identifier of the database content.
PatientID	PatientID is the typical method to indicate that unique patient identifier within the GEHRIMED environment.
LastModifiedBy	The user who last updated the row.
LastModifiedDate	The date the row was last updated.
CreatedBy	The user who created the record.
AddedBy	The user who added the record.
DictationID	Numeric identifier for an encounter in GEHRIMED. Interchangeable with EncounterID.
AddedDate	Date record was added. May be referenced as DateAdded.

Tables

Table Name: `aspnet_Users`

GEHRIMED User Account Information

Column Name: `ApplicationId`

ColumnType: `uniqueidentifier`

Max Length: NULL

Column Name: `UserId`

ColumnType: `uniqueidentifier`

Max Length: NULL

GEHRIMED User Identifier

Column Name: `UserName`

ColumnType: `nvarchar`

Max Length: 256

GEHRIMED User Name

Column Name: LoweredUserName
ColumnType: nvarchar
Max Length: 256

Column Name: MobileAlias
ColumnType: nvarchar
Max Length: 16

Column Name: IsAnonymous
ColumnType: bit
Max Length: NULL

Column Name: LastActivityDate
ColumnType: datetime
Max Length: NULL

Column Name: userid1
ColumnType: int
Max Length: NULL

Column Name: Firstname
ColumnType: nvarchar
Max Length: 50
User's First Name

Column Name: LastName
ColumnType: nvarchar
Max Length: 50

Column Name: Groupid
ColumnType: int
Max Length: NULL
GEHRIMED Group Identifier

Column Name: DefaultTemplate
ColumnType: nchar
Max Length: 50

Column Name: UserType
ColumnType: int
Max Length: NULL

Column Name: Signature

ColumnType: nvarchar
Max Length: 125

Column Name: TranGroupID
ColumnType: int
Max Length: NULL

Column Name: email
ColumnType: nvarchar
Max Length: -1
User's email address

Column Name: DefaultAssignedQAID
ColumnType: int
Max Length: NULL

Column Name: DefaultAssignedMTID
ColumnType: int
Max Length: NULL

Column Name: RestrictQAView
ColumnType: bit
Max Length: NULL

Column Name: TigerID
ColumnType: int
Max Length: NULL

Column Name: CellPhoneNumber
ColumnType: nvarchar
Max Length: 15
User's cell phone number

Column Name: CellPhoneCarrier
ColumnType: int
Max Length: NULL

Column Name: FacilityRecordsRestriction
ColumnType: nvarchar
Max Length: -1

Column Name: ESID
ColumnType: nvarchar
Max Length: 10

Column Name: ESID_DATE
Column Type: date
Max Length: NULL

Column Name: BypassQA
Column Type: bit
Max Length: NULL

Column Name: MisysEMRID
Column Type: nvarchar
Max Length: 10

Column Name: Graphing
Column Type: bit
Max Length: NULL

Column Name: SSHTunnel
Column Type: bit
Max Length: NULL

Column Name: Palativecare
Column Type: bit
Max Length: NULL

Column Name: Connect_SSH
Column Type: bit
Max Length: NULL

Column Name: Connect_EHR
Column Type: bit
Max Length: NULL

Column Name: Connect_EHR_LastAccess
Column Type: datetime
Max Length: NULL

Column Name: Connect_SSH_LastAccess
Column Type: datetime
Max Length: NULL

Column Name: DrFirst_UserName
Column Type: nvarchar
Max Length: 50

Column Name: NPI
Column Type: nvarchar
Max Length: 50

Column Name: ExternalID
Column Type: nvarchar
Max Length: 50
User's external ID

Column Name: RequiresCoSignature
Column Type: int
Max Length: NULL

Column Name: Disabled
Column Type: bit
Max Length: NULL
Flag indicating the user is disabled in GEHRIMED (1 = Yes)

Column Name: MedicationInteractionLevel
Column Type: nvarchar
Max Length: 25

Column Name: CloneID
Column Type: varchar
Max Length: 50

Column Name: SpeechProfile
Column Type: varchar
Max Length: 256

Column Name: AuditPercent
Column Type: int
Max Length: NULL

Column Name: LastLogonID
Column Type: int
Max Length: NULL

Column Name: LastLogon
Column Type: datetimeoffset
Max Length: NULL
Date of user's last logon

Column Name: DisabledBy
ColumnType: int
Max Length: NULL
Name of user who disabled

Column Name: DisabledTime
ColumnType: datetimeoffset
Max Length: NULL
Date time when the user was disabled

Column Name: FullName
ColumnType: nvarchar
Max Length: 101

Column Name: TaxID
ColumnType: nvarchar
Max Length: 50

Column Name: AddedDate
ColumnType: datetimeoffset
Max Length: NULL
Date the user was added

Column Name: LastModifiedDate
ColumnType: datetimeoffset
Max Length: NULL

Column Name: ReviewScheduleAfterSign
ColumnType: bit
Max Length: NULL

Column Name: LastModifiedBy
ColumnType: int
Max Length: NULL

Table Name: Attachments
GEHRIMED Patient Attachment Information

Column Name: UserId
ColumnType: int
Max Length: NULL

Column Name: LastModifiedBy

ColumnType: int
Max Length: NULL

Column Name: id
ColumnType: int
Max Length: NULL

Column Name: FileName
ColumnType: nvarchar
Max Length: -1

Column Name: FileExtension
