

Data Export

Accessing Data

Data may be accessed once an export is successfully executed under Patient Export section in Practice management.

Patient Export				
+ Add new				
Name	Run Date	Status	Created By	Action
Test	Jul 28th, 2023 09:30 PM	Completed	UpriseClient	Download

File Type Details

The exported data will be present inside a .zip file, which contains multiple files. The main data files will be available in the format .csv. The first line of a .csv file is the header, separated by comma. Each row after the first row represents a piece of data related to a patient. Other files, such as images and other .xml data will be referenced by the .csv files.

Data Dictionary

This section provides a more detailed explanation of the data contained within each .csv file exported.

AllergyIntolerance.csv

Data	Notes
Identifier	Unique identifier
ClinicalStatus	Clinical status
Code	Allergy code
