

# (b)(10) Electronic Health Information Export - Documentation

*Product Name and Version: DigiDMS and 22.0*

## Overview

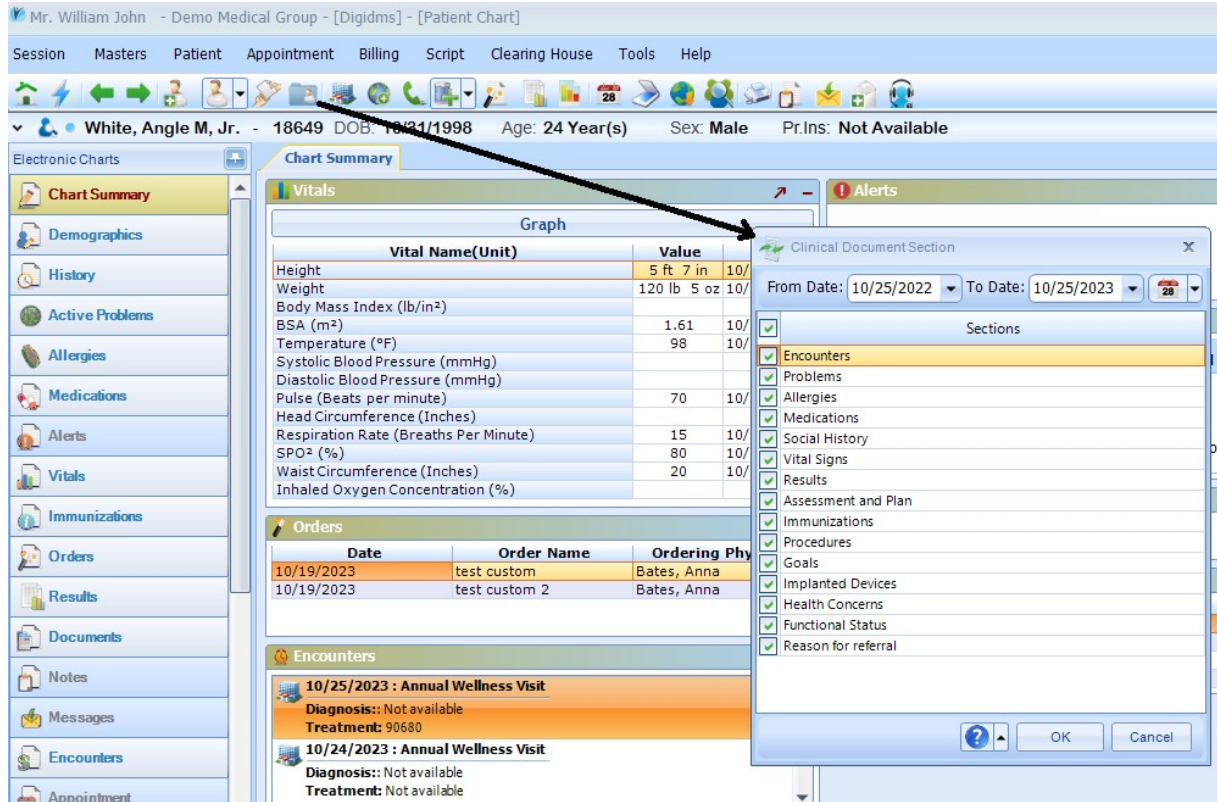

DigiDMS 22.0 is Drummond certified EHR and complying each certification criteria outlined in (b)(10) Electronic Health Information (EHI) Export. As part of EHI Export EHR user can perform data export operation for single as well as bulk patients given the access rights. Authorized user will be able to generate Clinical Care Document for single patient or patient population based on the mode of operation.

Exported file format is C-CDA standard and in accordance with the standards specified in HL7 CDA® R2 IG: C-CDA Templates for Clinical Notes R2.1 Companion Guide. EHR user can export EHI without any technical/developer assistance from the EHR.

## Export Options

DigiDMS offers EHI export functionality by following means –

- **Single patient PHI Export:** User can select the patient and export EHI for required sections.

The screenshot displays the DigiDMS patient chart interface for Mr. William John. The 'Vitals' section is active, showing a table of vital signs. A 'Clinical Document Section' dialog box is open, allowing the user to select sections for export. The dialog box includes a 'From Date' of 10/25/2022 and a 'To Date' of 10/25/2023. The 'Sections' list includes:

| Section             | Selected                            |
|---------------------|-------------------------------------|
| Encounters          | <input checked="" type="checkbox"/> |
| Problems            | <input checked="" type="checkbox"/> |
| Allergies           | <input checked="" type="checkbox"/> |
| Medications         | <input checked="" type="checkbox"/> |
| Social History      | <input checked="" type="checkbox"/> |
| Vital Signs         | <input checked="" type="checkbox"/> |
| Results             | <input checked="" type="checkbox"/> |
| Assessment and Plan | <input checked="" type="checkbox"/> |
| Immunizations       | <input checked="" type="checkbox"/> |
| Procedures          | <input checked="" type="checkbox"/> |
| Goals               | <input checked="" type="checkbox"/> |
| Implanted Devices   | <input checked="" type="checkbox"/> |
| Health Concerns     | <input checked="" type="checkbox"/> |
| Functional Status   | <input checked="" type="checkbox"/> |
| Reason for referral | <input checked="" type="checkbox"/> |

- **Patient Population Export:** User can request access to *patient screening* module and configure bulk export for patient population. Patients EHI can be exported using CCDA option as shown in image below.

For rights to export specific feature DigiDMS user can raise request for grants to specific export functionality and given the access user can perform the operation.

## Export Format

§ 170.205(a)(4) HL7® Implementation Guide for CDA® Release 2: Consolidated CDA.

| Section                    | Elements            |
|----------------------------|---------------------|
| <b>Patient</b>             |                     |
|                            | Name                |
|                            | Date Of Birth       |
|                            | Sex                 |
|                            | Race                |
|                            | Ethnicity           |
|                            | Language            |
|                            | Contact Information |
|                            | Patient Id          |
|                            |                     |
| <b>Provider</b>            |                     |
|                            | Contact Information |
|                            |                     |
| <b>Author</b>              |                     |
|                            | Contact Information |
|                            |                     |
| <b>Practice</b>            |                     |
|                            | Contact Information |
|                            |                     |
| <b>Reason for Referral</b> |                     |
|                            |                     |
| <b>Allergies</b>           |                     |
|                            | Substance           |
|                            | Reaction            |
|                            | Severity            |
|                            | Status              |
